PART II — OFFERING CIRCULAR

ITEM 3. SUMMARY INFORMATION, RISK FACTORS AND DILUTION

Investing in the Company's Securities is very risky. You should be able to bear a complete loss of your investment. You should carefully consider the following factors, including those listed in this Securities Offering.

Internet Technology & Financial Education Platform Industry Risks

Internet Technology & Financial Education Platform Industry investments are subject to varying degrees of risk. The yields available from equity investments in Internet Technology & Financial Education Platform companies depends on the amount of income earned and capital appreciation generated by the company as well as the expenses incurred in connection therewith. If any of the Company's products or assets does not generate income sufficient to meet operating expenses, the Company's Common Stock value could adversely be affected. Income from, and the value of, the Company's Products and Assets may be adversely affected by the general economic climate, the Internet Technology & Financial Education Platform market conditions such as oversupply of related products or a reduction in demand for Internet Technology & Financial Education Platform products and services in the areas in which the Company's Products and Services are located, competition from other Internet Technology & Financial Education Platform Products and Services Suppliers, and the Company's ability to provide adequate Internet Technology & Financial Education Platform Products and Services. Revenues from the Company's Products and Services are also affected by such factors such as the costs of operation and the general economic conditions. Because Internet Technology & Financial Education Platform investments are relatively illiquid, the Company's ability to vary its products and services portfolio promptly in response to economic or other conditions is limited. The relative illiquidity of its holdings could impede the Company's ability to respond to adverse changes in the performance of its Products and Services. No assurance can be given that the fair market value of the Products Produced, Services Provided or Assets Produced or Acquired by the Company will not decrease in the future. Investors have no right to withdraw their equity commitment or require the Company to repurchase their respective Preferred or Common Stock interests and the transferability of the Common Stock Units is limited. Accordingly, investors should be prepared to hold their investment interest until the Company is dissolved and its assets are liquidated.

If the Security of Confidential Information used in Connection with Our Services is Breached or Otherwise Subject to Unauthorized Access, Our Reputation and Business may be Materially Harmed.

Our Services require us to collect, store, use, and transmit significant amounts of confidential information, including personally identifiable information, credit card information, and other critical data. We employ a range of information technology solutions, controls, procedures, and processes designed to protect to confidentiality, integrity, and availability of our critical assets, including our data information technology systems. While we engage in a number of measures aimed to protect against security breaches and to minimize problems if a data breach were to occur, our information technology systems and infrastructure may be vulnerable to damage, compromise, disruption, and shutdown due to attacks or breaches by hackers or due to other circumstances, such as employee error or malfeasance or technology malfunction. The occurrence of any of these events, as well as a failure to promptly remedy these events should they occur, could compromise our systems, and the information stored in our systems could be accessed, publicly disclosed, lost, stolen, or damaged. Any such circumstance could adversely affect our ability to attract and maintain customers as well as strategic partnerships, cause us to suffer negative publicity, and subject us to legal claims and liabilities or regulatory penalties. In addition, unauthorized parties might alter information in our databases, which would adversely affect both the reliability of that information and our ability to market and perform our services. Techniques used to obtain unauthorized access or to sabotage systems change frequently and generally are difficult to recognize and react to effectively and are constantly evolving. We may be unable to anticipate these techniques or to implement adequate preventive or reactive measures. Several recent, highly publicized data security breaches at other companies have heightened consumer awareness of this issue and may embolden individuals or groups to target our systems or those of our strategic partners or enterprise customers.

The Company's Industry is Highly Competitive

The markets for the Company's products and services are highly competitive. The Company seeks to distinguish itself from other suppliers of identity theft and credit enhancement products and services, and to sustain its profitability through a business strategy focused on increasing sales for its current products and services, selectively expanding its supply center network, increasing sales through other business partnerships, developing innovative new products, and driving operational excellence by reducing costs and increasing customer service levels. The Company believes that competition in the industry is based on price, product and service quality, customer service and product features. Sustained increases in competitive pressures could have an adverse effect on results of operations and negatively impact sales and margins.

If We Fail to Promote and Maintain our Brand in the Market, our Business, Operating Results, Financial Condition, and our Ability to Attract Customers will be Materially Adversely Affected

Our success depends on our ability to create and maintain brand awareness for our Identity Theft and Credit Enhancement Products and Services. This may require a significant amount of capital to allow us to market our Identity Theft and Credit Enhancement Products and Services, and to establish brand recognition and customer loyalty. Many of our competitors in this market are larger than us and have substantially greater financial resources. Additionally, many of the companies offering similar Identity Theft and Credit Enhancement Products and services have already established their brand identity within the marketplace. We can offer no assurances that we will be successful in establishing awareness of our brand allowing us to compete in this market. The importance of brand recognition will continue to increase because of low barriers of entry to the industries in which we operate may result in an increased number of direct competitors. To promote our brands, we may be required to continue to increase our financial commitment to creating and maintaining brand awareness. We may not generate a corresponding increase in revenue to justify these costs.

We Could Lose our Access to Data Sources, which could cause us Competitive Harm and have a Material Adverse Effect on our Business, Operating Results, and Financial Condition

Our Services depend extensively upon continued access to and receipt of data from external sources, including data received from customers and fulfillment partners. Our data providers could stop providing data, provide untimely data, or increase the costs for their data for a variety of reasons, including a perception that our systems are insecure as a result of a data security breach, budgetary constraints, a desire to generate additional revenue, or for competitive reasons. We could also become subject to legislative, regulatory, or judicial restrictions or mandates on the collection, disclosure, or use of such data, in particular if such data is not collected by our providers in a way that allows us to legally use the data. If we were to lose access to a substantial number of data sources or certain key data sources or certain data already in the CreditSmartPro.com ecosystem, or if our access or use were restricted or became less economical or desirable, our ability to provide our services and the efficacy and attractiveness of CreditSmartPro.com platform could be negatively affected, and this would adversely affect us from a competitive standpoint. This would also adversely affect our business, operating results, and financial condition. We may not be successful in maintaining our relationships with these external data source providers and may not be able to continue to obtain data from them on acceptable terms or at all. Furthermore, we cannot provide assurance that we will be able to obtain data from alternative sources if our current sources become unavailable.

If We Experience System Failures or Interruptions in our Telecommunications or Information Technology Infrastructure, it may Impair the Availability of our Services, our Revenue could Decrease, and our Reputation could be Harmed

Our operations depend on our ability to protect the telecommunications and information technology systems utilized in our services against damage or system interruptions from natural disasters, technical failures, human error, and other events. We send and receive credit and other data, as well as key communications to and from our customers electronically, and this delivery method is susceptible to damage, delay, or inaccuracy. A portion of our business involves telephonic customer service and online enrollments, which depends upon the data generated from our computer systems. Unanticipated problems with our telecommunications and information technology systems may result in data loss, which could interrupt our operations. Our telecommunications or information technology infrastructure upon which we rely may be vulnerable to computer viruses, hackers, or other disruptions.

Development Stage Business

CreditsmartPRO, Inc., reorganizing as a Delaware Stock Corporation, commenced operations in May of 2014. Accordingly, the Company has only a limited history upon which an evaluation of its prospects and future performance can be made. The Company's proposed operations are subject to all business risks associated with new enterprises. The likelihood of the Company's success must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the expansion of a business, operation in a competitive industry, and the continued development of advertising, promotions and a corresponding customer base. There is a possibility that the Company could sustain losses in the future. There can be no assurances that CreditsmartPRO, Inc. will operate profitably.

Inadequacy of Funds

Gross offering proceeds of a maximum of \$5,000,000 may be realized. Management believes that such proceeds will capitalize and sustain the Company sufficiently to allow for the implementation of the Company's Business Plans. If only a fraction of this Offering is sold, or if certain assumptions contained in Management's business plans prove to be incorrect, the Company may have inadequate funds to fully develop its business.

Competition

Competition exists for Identity Theft and Credit Enhancement Products and Services in most markets, including all sectors in which the Company intends to operate. The Company may be competing for assets with entities that have substantial greater economic and personnel resources than the Company or better relationships with suppliers and other Identity Theft and Credit Enhancement Industry Related Professionals. These entities may also generally be able to accept more risk than the Company can manage. Competition from other Companies in the Identity Theft and Credit Enhancement Industry may reduce the number of sales opportunities.

Dependence on Management

In the early stages of development the Company's business will be significantly dependent on the Company's management team. The Company's success will be particularly dependent upon the services of Mr. Troy Strother, the Company's Founder and Chief Executive Officer. In addition, the Company also intends to obtain Officers and Director's Liability Insurance from the proceeds of the Offering. Obtaining such insurance, the amount of such insurance, and the terms of such insurance might have a material effect on the makeup of the Board of Directors and the Officers of the Company and the ability to attract additional qualified managers. The Company intends to recruit a Business Development Officer, a Chief Financial Officer and a Director of Marketing from the proceeds of the Offering. There can be no guarantees as to the quality of this prospective management.

Risks of Borrowing

Although the Company does not intend to incur any additional debt from the investment commitments provided in this offering, should the company obtain secure bank debt in the future, possible risks could arise. If the Company incurs additional indebtedness, a portion of the Company's cash flow will have to be dedicated to the payment of principal and interest on such new indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of members of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

Unanticipated Obstacles to Execution of the Business Plan

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of the Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

Management Discretion as to Use of Proceeds

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management with respect to application and allocation of the net proceeds of this Offering. Investors for the Units offered hereby will be entrusting their funds to the Company's Management, upon whose judgment and discretion the investors must depend.

Minimum Amount of Capital to be Raised

The minimum amount of Securities that need to be sold in this offering for the Company to access the investment funds is \$25,000. After the Minimum Amount of Capital required to be reached, all Investor funds will be transferred from the Company's Investment Holding Account to the Company. The Company cannot assure you that subscriptions for the entire Offering will be obtained. The Company has the right to terminate this offering of Securities at any time, regardless of the number of Securities that have sold. The Company's ability to meet financial obligations, cash needs, and to achieve objectives, could be adversely affected if the entire offering of Securities is not fully subscribed.

The Company is Subject to Various Statutes and Regulations, which may Result in Significant Costs

The Company's operations are subject to various Federal and State statutes and regulations, including those relating to credit enhancement products and credit card offerings. While the Company's Management does not currently expect the costs of compliance with Federal and State statutes and regulatory requirements to increase materially, future expenditures may increase as compliance standards and technology change.

Control by Management

As of May 2nd, 2014 the Company's Managers owned approximately 33.25% of the Company's outstanding Common Stock Units and 0% of the Company's Preferred Stock Units. In addition, the Chief Executive Officer has the proxy to vote an additional 44% of the Company's Common Stock. Upon completion of this Offering, The Company's Management will own approximately 33.25% of the outstanding Common Stock Units of the Company and 0% of the outstanding Preferred Stock Units of the Company. Investors will not have the ability to control either a vote of the Company's Managers or any appointed officers. See "COMPANY MANAGERS" section.

Return of Profits

The Company has never declared or paid any cash dividends on its Common Stock. The Company currently intends to retain future earnings, if any, to finance the expansion of the Company's Operations and Holdings. As a result, the Company does not anticipate paying any cash dividends to its Common Stock Holders for the foreseeable future.

Risks of Borrowing

Although the Company does not intend to incur any additional debt from the investment commitments provided in this offering, should the company obtain secure bank debt in the future, possible risks could arise. If the Company incurs additional indebtedness, a portion of the Company's cash flow will have to be dedicated to the payment of principal and interest on such new indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of members of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

No Assurances of Protection for Proprietary Rights; Reliance on Trade Secrets

In certain cases, the Company may rely on trade secrets to protect intellectual property, proprietary technology and processes, which the Company has acquired, developed or may develop in the future. There can be no assurances that secrecy obligations will be honored or that others will not independently develop similar or superior products or technology. The protection of intellectual property and/or proprietary technology through claims of trade secret status has been the subject of increasing claims and litigation by various companies both in order to protect proprietary rights as well as for competitive reasons even where proprietary claims are unsubstantiated. The prosecution of proprietary claims or the defense of such claims is costly and uncertain given the uncertainty and rapid development of the principles of law pertaining to this area. The Company, in common with other investment funds, may also be subject to claims by other parties with regard to the use of intellectual property, technology information and data, which may be deemed proprietary to others.

The Company's Continuing as a Going Concern Depends Upon Financing

If the Company does not raise sufficient working capital and continues to experience pre-operating losses, there will most likely be substantial doubt as to its ability to continue as a going concern. Revenue operations have not commenced because the Company has not raised the necessary capital.

Broker - Dealer Sales of Units

The Company's Preferred Stock Units and Common Stock Units are not included for trading on any exchange, and there can be no assurances that the Company will ultimately be registered on any exchange. The NASDAQ Stock Market, Inc. has recently enacted certain changes to the entry and maintenance criteria for listing eligibility on the NASDAQ Small Cap Market. The entry standards require at least \$4 million in net tangible assets or \$750,000 net income in two of the last three years. The proposed entry standards would also require a public float of at least 1 million shares, \$5 million value of public float, a minimum bid price of \$2.00 per share, at least three market makers, and at least 300 shareholders. The maintenance standards (as opposed to entry standards) require at least \$2 million in net tangible assets or \$500,000 in net income in two of the last three years, a public float of at least 500,000 shares, a \$1 million market value of public float, a minimum bid price of \$1.00 per share, at least two market makers, and at least 300 shareholders.

No assurance can be given that the Preferred Stock Units or Common Stock of the Company will ever qualify for inclusion on the NASDAQ System or any other trading market until such time as the Managing Members deem it necessary. As a result, the Company's Preferred Stock Units and Common Stock Units are covered by a Securities and Exchange Commission rule that opposes additional sales practice requirements on broker-dealers who sell such securities to persons other than established customers and qualified investors. For transactions covered by the rule, the broker-dealer must make a special suitability

determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Consequently, the rule may affect the ability of broker-dealers to sell the Company's securities and will also affect the ability of members to sell their units in the secondary market.

Secondary Market

No application is currently being prepared for the Company's Securities to be admitted to the Official Listing and trading on any regulated market. No application is being prepared to include the Securities to trading on an "Over-the-Counter" or "Open Market", though the Company intends to submit an S-1 or Form 10 Filing within TWELVE MONTHS of the close of this securities offering. There can be no assurance that a liquid market for the Securities will develop or, if it does develop, that it will continue. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with yield comparable to similar investments that have a developed secondary market. Illiquidity may have a **severely adverse effect on the market value of the Securities and investors wishing to sell the Securities might therefore suffer losses.**

Certain Factors Related to The Company's Common Stock

Because the Company's Common Stock may be considered a "penny stock," and a shareholder may have difficulty selling shares in the secondary trading market.

The Company's Common Stock Securities may be subject to certain rules and regulations relating to "penny stock" (generally defined as any equity security that has a price less than \$5.00 per share, subject to certain exemptions). Broker-dealers who sell penny stocks are subject to certain "sales practice requirements" for sales in certain nonexempt transactions (i.e., sales to persons other than established customers and institutional "qualified investors"), including requiring delivery of a risk disclosure document relating to the penny stock market and monthly statements disclosing recent price information for the penny stocks held in the account, and certain other restrictions. For as long as the Company's Common Stock is subject to the rules on penny stocks, the market liquidity for such securities could be significantly limited. This lack of liquidity may also make it more difficult for the Company to raise capital in the future through sales of equity in the public or private markets.

The price of the Company's Common Stock may be volatile, and a shareholder's investment in the Company's Common Stock could suffer a decline in value.

There could be significant volatility in the volume and market price of the Company's Common Stock, and this volatility may continue in the future. The Company's Common Stock may be listed on the OTCQB, OTCQX, OTCBB, The Bermuda BSX Exchange, the London Stock Exchange's AIM Market, the Canadian TSX Venture Exchange or TMX Exchange, the Irish Stock Exchange, the Frankfurt Stock Exchange and / or the Berlin Stock Exchange, where each has a greater chance for market volatility for securities that trade on these markets as opposed to a national exchange or quotation system. This volatility may be caused by a variety of factors, including the lack of readily available quotations, the absence of consistent administrative supervision of "bid" and "ask" quotations and generally lower trading volume. In addition, factors such as quarterly variations in our future operating results, changes in financial estimates by securities analysts or our failure to meet our or their projected financial and operating results, litigation involving us, general trends relating to the Internet Technology & Financial Education Platform Products and Services Industry, actions by governmental agencies, national economic and stock market considerations as well as other events and circumstances beyond our control could have a significant impact on the future market price of our Common Stock and the relative volatility of such market price.

Compliance with Securities Laws

The Company's Securities are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act, applicable Delaware Securities Laws, and other applicable state securities laws. If the sale of Securities were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of Securities. If a number of purchasers were to obtain rescission, we would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

Offering Price

The price of the Securities offered has been arbitrarily established by our current Managers, considering such matters as the state of the Company's business development and the general condition of the industry in which it operates. The Offering price bears little relationship to the assets, net worth, or any other objective criteria.

Valuation Arbitrary

The Company intends to compensate its management with salaries and 100,000 shares per annum each of Common Stock awards based on a common stock price of \$.50 per share. The Company's Common Stock issued and outstanding upon completion of this Offering will be 30,000,000 shares, rendering a valuation of \$15,000,000 for the Company. The Company will issue 20,000 9% Convertible Preferred Stock Units which become convertible three to five years from the Closing of the Offering. If all of the 20,000 9% Convertible Preferred Stock Units were subscribed to at the price of \$250.00 each and were converted to Common Stock as of the Closing of the Offering, then each 9% Convertible Preferred Stock Unit of \$250.00 would be converted to 500 shares of Common Stock of the Company and the Company would retire the 20,000 9% Convertible Preferred Stock Units and issue an additional 10,000,000 shares of Common Stock to the former holders of the 20,000 9% Convertible Preferred Stock Units, rendering 40,000,000 shares of the Company's Common Stock issued and outstanding. The value of \$.50 per Common Share would render a valuation of \$20,000,000 for the Company. There can be no assurances that upon conversion of the 20,000 9% Convertible Preferred Stock Units three to five years from the Closing of the Offering, that the Company's Common Stock value will exceed \$.50 per share or that the Company will be able to maintain or increase its valuation.

Lack of Firm Underwriter

The Securities are offered on a "best efforts" basis by the Company Managers, without compensation and on a "best efforts" basis through certain FINRA registered broker-dealers, which enter into Participating Broker-Dealer Agreements with the Company. Accordingly, there is no assurance that the Company, or any FINRA broker-dealer, will sell the maximum Securities offered or any lesser amount.

Projections: Forward Looking Information

Management has prepared projections regarding anticipated financial performance. The Company's projections assume a .1% market penetration by year end two and a 1% market penetration by year end 5. The Company's projections are hypothetical and based upon a presumed financial performance of the Company, the addition of a sophisticated and well-funded marketing plan, and other factors influencing the business. The projections are based on Management's best estimate of the probable results of operations of the Company and the investments made by management, based on present circumstances, and have not been reviewed by independent accountants and/or auditing counsel. These projections are based on several assumptions, set forth therein, which Management believes are reasonable. Some assumptions, upon which the projections are based, however, invariably will not materialize due the inevitable occurrence of unanticipated events and circumstances beyond Management's control. Therefore, actual results of operations will vary from the projections, and such variances may be material. Assumptions regarding future changes in sales and revenues are necessarily speculative in nature. In addition, projections do not and cannot take into account such factors as general economic conditions, unforeseen regulatory changes, the entry into a market of additional competitors, the terms and conditions of future capitalization, and other risks inherent to the Company's business. While Management believes that the projections accurately reflect possible future results of operations at these market penetration rates, those results cannot be guaranteed.

ITEM 4. PLAN OF DISTRIBUTION

A maximum of 20,000 9% Convertible Preferred Stock Units are being offered to the public at \$250 per 9% Convertible Preferred Stock Unit. A minimum of \$25,000 must be invested prior to the Company having access to the Investment Proceeds. A maximum of \$5,000,000 will be received from the offering. No Securities are being offered by any selling shareholders. The Company will receive all proceeds from the sale of Securities after the minimum of \$25,000 has been reached.

The Offering is on a "Best Efforts" basis and is being offered directly by the Company and its Management. There are no plans to stabilize the market for the Securities to be offered. Investors can purchase Securities directly from the Company by completing a Subscription Agreement Online at www.AlternativeSecuritiesMarket.com. Securities can be purchased by check, money order, or bank wire transfer. Investors should call the Company for bank wire transfer instructions should they choose that method of payment for Securities.

If an underwriter is selected to assist in this offering, the Company will be required to amend the Form 1-A to include the disclosures required regarding engaging an underwriter to assist in the offering.

Although the Company is not using a selling agent or finder in connection with this Offering, it will use a website as an online portal and information management tool in connection with the Offering. The Website is owned and operated by Alternative Securities Markets Group, an equity partner of the Company, can be viewed at <http://www.AlternativeSecuritiesMarket.com>.

This Offering Circular will be furnished to prospective Investors upon their request via electronic PDF format and will be available for viewing and download 24 hours per day, 7 days per week on the website.

In order to subscribe to purchase the Securities, a prospective Investor must complete, sign and deliver the executed Subscription Agreement, Investor Questionnaire and Form W-9 to **CreditsmartPRO, Inc.** and either mail or wire funds for its subscription amount in accordance with the instructions included in the Subscription Package.

The Investing Section of the Website Hosting this Offering will be coded to only allow access to invest to those prospective Investors that reside in jurisdictions where the Offering is registered and meet any state-specific Investor suitability standards.

The Company reserves the right to reject any Investor's subscription in whole or in part for any reason. If the Offering terminates or if any prospective Investor's subscription is rejected, all funds received from such Investors will be returned without interest or deduction.

In addition to this Offering Circular, subject to limitations imposed by applicable securities laws, we expect to use additional advertising, sales and other promotional materials in connection with this Offering. These materials may include public advertisements and audio-visual materials, in each case only as authorized by the Company. Although these materials will not contain information in conflict with the information provided by this Offering and will be prepared with a view to presenting a balanced discussion of risk and reward with respect to the Securities, these materials will not give a complete understanding of this Offering, the Company or the Securities and are not to be considered part of this Offering Circular. This Offering is made only by means of this Offering Circular and prospective Investors must read and rely on the information provided in this Offering Circular in connection with their decision to invest in the Securities.

- Affiliate commissions from the referral and sale of solutions to credit distress situations, such as loan consolidations, IRS problems, foreclosure or loan modification issues, and debt management.

HISTORY:

The build out of the CreditsmartPRO technology platform was originally commenced by SmartStep, LLC, which envisioned combining its Smart Path intuitive technology, an on-line intuitive step-by-step do-it-yourself system, with the knowledge base and legal processes involved understanding, correcting, and maximizing a consumer credit profile under the Fair Credit Reporting Act (15 USC § 1681 et seq.) without the costly fees of an attorney. The vision was to automate a very complex process into a do-it-yourself system and provide an automated do-it-yourself market niche solution similar to what TurboTax® provided in the income tax preparation market, where the only option had theretofore been to hire a costly accountant or do-it-yourself and read a complex instruction booklet. SmartStep, LLC's technology and intangible assets was acquired by CreditsmartPRO, LLC in February of 2012. As part of the process of moving from development Stage Company to a market ready company and preparing to become a publicly reporting company and in preparation of filing an S-1 for an initial IPO, CreditsmartPRO, Inc. (the "Company") needed to organize as an IRS Subchapter C Corporation. The Company has agreed to issue in exchange up to 1,311,324 shares of its Common Stock at a fixed value of \$1.00 per share representing the maximum amount of paid-in capital as reported by CreditSmartPRO, LLC in exchange for all its intangible assets, including the website, technology platform, letter generator, knowledge base, search engine, programming, source code, algorithms, copyrights, content, domain names, trademarks, and trade secrets. The actual amount of shares to be exchanged will be determined by an audited statement presented by CreditsmartPRO, LLC. However, the Company will have acquired all the aforesaid intangible assets for no more than 1,311,324 shares of Common Stock of the Company at a valuation of \$1.00 per share.

CreditSmartPRO, LLC had in its development stage the following consultants and advisors:

There can be no assurances that any of these consultants will advise or consult for the Company. The Company also intends to obtain Officers and Director's Liability Insurance from the proceeds of the Offering. The obtaining of such insurance, the amount of such insurance, and the terms of such insurance might have a material effect on the makeup of the Board of Directors and the Officers of the Company (See ITEM 3. SUMMARY INFORMATION, RISK FACTORS AND DILUTION)

MARKET:

The Credit Repair and Counseling Industry continues to grow at .6% with an estimated annual revenue exceeding \$45 Billion per year (2011, ibisworld.com). It consists of over 180 Million Credit Users in the United States and 20 Million in Canada. Approximately 127 Million Americans have poor FICO Scores under 700.

Credit Score Breakdown:

15% - 300 to 599

12% - 600 to 649

15% - 650 to 699

18% - 700 to 749

27% - 750 to 799

13% - 800 to 850

CreditsmartPRO, Inc. automated repair process targets the 20 to 64 year old range with credit scores in the range of 300 to 799. **CreditsmartPRO, Inc.** also offers Identity Theft Protection, Tools and Education Library with embedded search engine, and an Affiliate Marketing Program to save customers money, appealing to over 180 Million Americans and 20 Million Canadians that need these services. At a 1% market penetration with a Net ACR of \$15 per month, this 1% market penetration alone could generate \$130 Million EBITDA for **CreditsmartPRO, Inc.** by year Five. There are no assurances that this level of market penetration can be reached by year-end 5.

THE CREDITSMARTPRO.COM PLATFORM AND FEDERAL LAW:

Congress enacted the Fair Credit Reporting Act, 15 USC § 1681 et seq. ("FCRA") in 1971 to insure that the three credit bureaus (Experian, TransUnion, and Equifax) investigate the accuracy of credit items reported by collection agencies or credit originators which are disputed by consumers. This federal law set procedural guidelines which gave the consumer the right to challenge the accuracy, validity, and verifiability of any credit item appearing in their credit reports. It also required that the credit bureau delete any credit item within 30 days if it was inaccurate or could not be verified. Consumers now have the right to sue in any Federal Court of their choice for a filing fee of \$350 or more any collection agency or credit reporting agency for damages, punitive damages, attorney's fees, and court costs for willful or negligent failure to remove such disputed and non-validated credit listings. In a recent case upheld by the Ninth Circuit Court of Appeals, a consumer countersuing over a misrepresented \$4,000 debt was awarded \$250,000 damages for emotional distress and \$60,000 in punitive damages. **CreditsmartPRO, Inc.**'s platform is intended to educate its customers as to their legal rights under the FCRA and the Fair Debt Collection Practices Act ("FDCPA").

THE CREDITSMARTPRO.COM PLATFORM VS. "DO-IT-YOURSELF" CREDIT REPAIR:

For the average consumer, credit repair is intimidating and complex. First, the consumer must educate themselves on credit repair and their legal rights under the FCRA. Collection agencies and the credit bureaus may first defend their collection agency clients by erecting walls of stall tactics, including requests for more information, further clarification, and additional identification. When a consumer gets a credit report, they must then decipher the codified information, write a coherent dispute letter to the credit reporting agencies, and still the bureaus may still find some reason to disregard the challenge. The entire dispute system sometimes appears to be designed to frustrate and discourage the consumer. **CreditsmartPRO.com** platform guides our user step by step, providing video tutorial guides, FAQs, blogs, and live chat windows to assist in the credit repair process.

THE CREDITSMARTPRO.COM PLATFORM SERVICES:

We offer a fully automated solution that ensures accuracy and enables customers to retain full control over their credit enhancement process. Our online service will guide customers through the complexities of the credit repair process by asking simple, easy to understand questions. The intuitive process saves the customer time by only asking questions that pertain to the customer's unique situation. **CreditSmartPRO.com's** questions help the customer discover what inaccuracy exists on the customer's credit reports and then automatically generates customized dispute letters. The customer thereafter has the option to edit, print, and mail the generated dispute letters to the credit originators, collection agencies, the three credit reporting bureaus, and have them sent electronically via the **CreditSmartPRO.com** e-post service (useful for expatriates and armed services members).

THE CREDITSMARTPRO.COM PLATFORM MISSION STATEMENT:

EDUCATION: Our extensive educational library of articles and proprietary embedded search engine will enable customers to quickly learn how the credit reporting and scoring system works to their detriment and costs them many thousands of dollars in excess interest payments for car loans, credit cards, mortgages, insurance, as well as employment opportunities. Our first mission is to educate customers on the credit reporting and scoring system, including how the credit scoring algorithms work for and against them, simple things that can be done to maximize one's credit score, how to fix inaccurate and derogatory items, how to settle debts most favorably, and how to legally force cooperation of the credit reporting and scoring system (originators, debt collectors, and credit reporting agencies) by understanding and exercising their legal rights.

IDENTITY OPTIMIZATION & IDENTITY THEFT PROTECTION: Regardless of a customer's credit score, they are in constant danger of having their identity stolen. The cost, time, and effort to correct an identity theft is onerous, debilitating, and difficult to suffer through, thus it is an important mission of CSP to help protect our customer from identity theft. This starts with "Identity Optimization", that is making sure all names, addresses, and social security numbers on the three major credit reporting agencies are completely accurate. Secondly, options such as "Opt Out", "Security Freeze" "Fraud Alert" or "Active Duty Alerts" are examined. Finally, **CreditSmartPRO.com** will provide a checklist for the safe use and storage of PIN numbers and passwords and up-to-date phishing/spyware issues and scams to help protect our customers and their computers/PCDs from common sources of identity theft.

CREDIT REPAIR & CREDIT SCORE ENHANCEMENT: CreditsmartPRO, Inc.'s platform provides a "Credit Repair Tool Kit" to fix inaccuracies in the Customer's credit report and to help raise the customer's credit score, thus saving them time and money. It is estimated that 78% of all credit reports contain inaccuracies.

The CreditSmartPro.com platform will:

- Show the Customer how to interpret credit reports from the Three Major Credit Reporting Agencies (Equifax, Experian and TransUnion).
- Begin a Fully Automated Dispute and Debt Validation process using **CreditSmartPro.com's** SmartPath Technology, which includes electronic tracking of disputes and email reminders, voicemail drops, and an e-file capability.
- Show the Customer how to remove inaccurate items on their credit report, including negative accounts, unauthorized inquires, illegally re-aged collection accounts, incorrect balances or credit limits, duplicate collections, paid accounts still shown as owing, closed accounts shown open, collections, charge offs, tax liens, judgments, debt consolidation mismarks, and incorrect late payments.
- Educate customers on the best debt settlement techniques which will raise their credit score, "pay versus delete", and IRS Form 1099-C issues of phantom income.
- Explain how to stop harassment from collection agencies by issuing "Cease and Desist" orders, as well as a primer on what collection agencies are permitted to legally do under the Fair Debt Collection Practices Act.
- Deliver a substantive primer on how to threaten to sue and how to sue collection agencies and the three major credit reporting agencies for damages, punitive damages, attorney's fees and court costs in Federal Court or Small Claims Court, when such agencies do not remove inaccurate items by law, or if the customer is otherwise harmed by violations of the Fair Credit Reporting Act or the Fair Debt Collection Practices Act.

CONCLUSION:

The Company's *CreditSmartPRO.com* platform has been developed to guide our customers through a difficult and confusing credit repair process. The *CreditSmartPRO.com* platform addresses the large and growing US\$45 billion dollar market space of the credit services market. We educate our users on the credit scoring and reporting process, how to exercise their rights under the FCRA and FDCPA, and provide them with our exclusive Knowledge Base of our content or licensed articles on credit repair and related issues.

CreditSmartPRO.com is well positioned to become the standard on-line, low cost, "do-it-yourself" credit repair model for the 180 million Americans seeking credit repair and related services. We offer a solution to over 127 million American's with credit scores below 700, looking for a low-cost web based platform for only \$29.99 per month. With an estimated 78%* of all credit reports containing errors, the *CreditSmartPRO.com* platform offers a much needed solution to save users both time and money in the process.

(*) Avery, Robert, Paul Calem, Glenn Canner, and Raphael Bostic. "An Overview of Consumer Data and Credit Reporting". *Federal Reserve Bulletin*, February 2003.

CreditSmartPro.com envisions a market penetration of 1% of the over 200 million credit users in the US and Canada to achieve over \$130 million EBITDA by year 5. The *CreditSmartPro.com* platform offers a niche market solution which is beneficial, timely, and much needed by credit users in today's economic climate.

INDUSTRY ANALYSIS:

The Credit Repair Market:

The Credit Repair Market is expected to continue seeing growth as consumers take action to free them from credit debt, meaning that there will be more opportunities for profitable growth, but also a heightened number of competitors, both online and offline.

Market:

Credit Counselors, Surveyors (United States)

Revenue:

\$45 Billion per annum

Annual Growth Rate:

0.6%

The recession has created a stable market for this industry, with revenue expected to continue to show signs of slight growth through 2016. The economy has brought about high levels of debt, allowing for credit repair and credit counseling companies to thrive at a consistent level. With the country slowly emerging from its downward slide, more citizens are seeking to repair their credit scores and regain their sense of independence from accrued debt. While there are no dominating players in this industry, there are multiple start-ups that have emerged over recent years and heightened levels of competition. Industries that provide similar services include:

1) Local Credit Counseling Firms:

- a. Credit Attorneys offer standard services at competitive prices, inviting clients from various backgrounds and demographics who will seek credit repair.
- b. The ability to work locally provides a sense of comfort to clients who enjoy putting a face with the service they are paying for.

2) Independent Research / Action:

- a. Many citizens have taken matters into their own hands by researching credit repair and debt management in an attempt to turn their scores around
- b. These tactics are often free of charge
- c. Independent research can often be overwhelming for people who are not used to having to deal with matters of this magnitude, leaving them more confused and often leading to errors in execution.

3) Online Guidance and How to Guides:

- a. Online guides are frequently free and offer step-by-step guidance for repairing credit scores, including links to any forms needed and a plethora of professional tips.

COMPETITIVE ANALYSIS:

The Company's primary competitors are facilities that offer similar services, both online and offline. This includes "do-it-yourself" credit repair as well as full service operations.

The Company's top two competitors in the "do-it-for me" full service market space include:

- 1) ***Lexington Law*** (www.LexingtonLaw.com) – Lexington Law is a national company that has been operating since 1991 and provides full service credit repair. Customers are able to send their credit statements and speak with a paralegal about which charges should be disputed. Lexington Law then handles all disputes and negotiations with creditors for a monthly fee. Several articles and help sections, as well as the options to have live phone consultations, round out the services offered.
- 2) ***Sky Blue Credit*** (www.SkyBlueCredit.com) – Sky Blue Credit is another full service credit repair business. Customers are able to fill out an online form and submit it to the company, along with a copy of their credit report, to have Sky Blue Credit dispute the derogatory information with Creditors. The Company also handles re-disputes and offers credit counseling for those who desire it. Sky Blue Credit has been in the business since 1989 and offers its services for a monthly fee that can be paid online.

MARKETING PLAN AND STRATEGIC TARGET MARKET INITIATIVES:

The Company's Mass Marketing Plan offering the Company's Products and Services, Pricing and Promotion Plans to the general public is as follows:

- Online and Offline Advertising
- Mass Email Campaigns, Cost Per Click
- Internet Advertising and SEO
- Strategic Alliances with the Company's Affiliate Networks
- Facebook (currently over 1,600 likes), LinkedIn, UNation and other Social Media
- Building Potential Power Partnerships within a large market of 400 Banks, 330,000 Accountants (AICPA), and 120,000 Mortgage Brokers and CFPs

THE COMPANY STRATEGIC TARGET MARKET INITIATIVES:

1. Student Loan Initiative and Foundation Initiatives:

The student loan market is a One Trillion dollar market. The company envisions partnering one or more groups on the Student Loan origination, debt collection, and educational platforms. There are only 29 defaulted student loan collection partnerships formed by the RTC/FDIC over the past decade. The company envisions a strategic partnership with one or more holders of multi-billion dollar debt recovery portfolio in the student loan area, the Company will pursue relationships student loan originators.

The Youth groups and Foundations (e.g. Tiger Woods Foundation, Boys and Girls Club, The First Tee, Junior Achievement) have over 20 Million members. While these groups mostly consist of inner city youths, the Company's platform can assist the parents and families as well. We will endeavor to help students understand and develop credit profile. This model will also apply to helping families enhance their credit, co-sign for student loans, providing additional assistance to obtain the best affordable education for college-bound youth.

2 Sub-prime Auto Market Initiatives:

The Company envisions it can partner with sub-prime auto lenders that will give it direct access to over 300,000 current customers. Sub-prime auto lenders securitize on Wall Street over \$4 billion combined in sub-prime auto debt paper. The total estimated new customer auto loan origination is \$25 billion per quarter. The Company seeks to have sub-prime auto lenders bundle the CreditsmartPRO.com platform and insert the program into all new auto loan originations. This will give the Company a recurring revenue model for the life of the auto loan (Average 5 Years) without marketing costs, transaction processing costs, or collection costs.

STUDENT LOAN INITIATIVE AND FOUNDATION INITIATIVES:

There is tremendous concern over the state of the student loan industry. Total student loan debt has exceeded 1.2 Trillion dollars. The default rate, for the first three years that students are required to make payments, was 14.7 percent, up from 13.4 percent the year before, according to the U.S. Education Department.
<http://www.bloomberg.com/news/2013-09-30/student-loan-defaults-rise-in-u-s-as-borrowers-struggle-1-.html>

The Education Department had this commentary:
"The growing number of students who have defaulted on their federal student loans is troubling," (U.S. Secretary of Education Arne Duncan).

As Bloomberg reports citing Rory O'Sullivan, of the Young Invincibles nonprofit group, "Our generation is behind in the economic recovery and not recovering as fast as we need to," said O'Sullivan, whose group represents the interests of people ages 18 to 34. "It's financial disaster for borrowers. Defaults can dramatically affect their credit rating and make it harder to borrow in the future."

The Company intends to partner with a legal firm that is permitted to attend the National Association of State Boards of Education (<http://www.nasbe.org>). The Company believes that there are two major concerns State Boards of Education regarding the state of the Student Loan Markets:

1. The high current Student Loan default rate.
2. The lack of credit and credit history for students looking to secure financing to attend college.

CreditSmartPRO, Inc. plans to address the high student default rate through the following programs:

1. The CreditSmartPRO free educational platform and library.
2. Partnering with the leading student loan debt recovery companies to aid in default rehabilitation.
3. Initiate the "Credit Smart Student" education course towards Credit Responsibility.
4. Issue a "Credit Smart Student" Secured Credit Card to build credit profiles while attending college.

1. TheCreditSmartPRO free educational platform and library

Enable student loan borrowers to understand credit, credit reporting, credit enhancement, credit profiles and credit responsibility as a factor in their life-style choices and employment opportunities. See Knowledge Base, FAQ's, Community Forum at <http://csp.fw1.fusedev.com/>

2. Partner with a student loan debt recovery company

They are one of only 22 authorized student loan debt collectors in the country. We intend to partner with the leading debt recovery companies and provide student loan defaulters in rehabilitation a guided credit enhancement solution, so they can come current on their student loans through the use of the Company's platform. For example there are special rules for student loan borrowers that are currently in default to pay their monthly payments on time for 9 consecutive months which will then erase all previous negative/derogatory items from the student loan providers on their credit report. This small solution can dramatically increase a person's credit score and creditworthiness over the course of their life, thus enhancing their life-style choices and employment opportunities while saving money on credit borrowing costs..

3. Initiate the the "Credit Smart Student" education course towards Credit Responsibility

The "Credit Smart Student" education course will consist of a few hours of on line education about the credit reporting and scoring system, the importance of building a credit profile, credit management and establishing a credit worthy profile. The Company believes the "Credit Smart Student" education course can be issued not only through universities but any financial institution looking to educate their customer on the credit scoring process. The Company eventually plans to present the "Credit Smart Student" education course to the US Department of Education.

4. Issue a "Credit Smart Student" Secured Credit Card addressing the need for students to build a credit profile

The Company intends to provide a branded secured credit card for students with the "Credit Smart Student" label. A secured card functions like a debit card and is reported to the 3 credit bureaus the same way that a revolving credit card is. The benefit is that for each purchase made during a student's college career (books, meals, rent, etc.) the subsequent timely monthly payment will build a strong credit history for when he/she enters the work force. The main problem today is that students leave college with high debt levels and no credit history, thus leaving them with a low credit score and in a high risk employee category. Assisting students establish a credit profile/history will help them obtain a better job, get lower interest rates, and more importantly be educated on the importance maintaining a high credit score which will potentially save them tens of thousands of dollars over the course of their lifetime.

In summary, through the "Credit Smart Student" free educational platform and library, the "Credit Smart Student" education course towards Credit Responsibility, and the "Credit Smart Student" branded credit card, the Company envisions being able to provide a long term solution to the high student default rate issues facing the nation today, while aiding in the rehabilitation of current student loan defaulters.

THE COMPANY'S VALUE PROPOSITION TO THE SUB-PRIME AUTO INDUSTRY:

1. **Better Credit Risk:** CreditSmartPRO, Inc.'s online platform can help the sub-prime auto borrower understand the Credit Reporting and Scoring System and the importance of their Credit Profile through and extensive educational library driven by an embedded search engine and specific FAQs. We also provide an automated credit repair tool kit to help them correct their Credit Profile and raise their FICO or Advantage Credit Score. This in turn makes the sub-prime auto borrower a better credit risk.
2. **Decrease Default Rate:** By educating the sub-prime auto borrower on the importance of their Credit Profile and the consequences of defaulting on the sub-prime auto loan, we raise their awareness and help foster a greater responsibility for managing their credit. This process should act as a form of "default" insurance to a sub-prime auto lender because the borrower has an incentive to maintain and protect their Credit Profile, which includes prompt payment of monthly auto loan payments. This will tend to decrease the sub-prime auto borrower default rate.
3. **Improve Value of Loan Portfolio:** As the pool of subprime sub-prime auto borrowers improve their collective FICO Credit Scores or Advantage Scores, the Average Weighted FICO Score or Advantage Score of the Loan Portfolio increases also. This in turn creates a better grade of paper to be securitized on Wall Street at greater profit to the sub-prime auto lender or auto loan bundler.

FINANCIAL PROJECTIONS:

Management has prepared projections regarding anticipated financial performance. The Company's projections assume a .1% market penetration by year end two and a 1% market penetration by year end 5. The Company's projections are hypothetical and based upon a presumed financial performance of the Company, the addition of a sophisticated and well-funded marketing plan, and other factors influencing the business. The projections are based on Management's best estimate of the probable results of operations of the Company and the investments made by management, based on present circumstances, and have not been reviewed by independent accountants and/or auditing counsel. These projections are based on several assumptions, set forth therein, which Management believes are reasonable. Some assumptions, upon which the projections are based, however, invariably will not materialize due the inevitable occurrence of unanticipated events and circumstances beyond Management's control. Therefore, actual results of operations will vary from the projections, and such variances may be material. Assumptions regarding future changes in sales and revenues are necessarily speculative in nature. In addition, projections do not and cannot take into account such factors as general economic conditions, unforeseen regulatory changes, the entry into a market of additional competitors, the terms and conditions of future capitalization, and other risks inherent to the Company's business. While Management believes that the projections accurately reflect possible future results of operations at these market penetration rates, those results cannot be guaranteed.

Management has prepared projections regarding anticipated financial performance. The Company's projections assume a .1% market penetration by year end two and a 1% market penetration by year end 5. The Company's projections are hypothetical and based upon a presumed financial performance of the Company, the addition of a sophisticated and well-funded marketing plan, and other factors influencing the business. The projections are based on Management's best estimate of the probable results of operations of the Company and the investments made by management, based on present circumstances, and have not been reviewed by independent accountants and/or auditing counsel. These projections are based on several assumptions, set forth therein, which Management believes are reasonable. Some assumptions, upon which the projections are based, however, invariably will not materialize due the inevitable occurrence of unanticipated events and circumstances beyond Management's control. Therefore, actual results of operations will vary from the projections, and such variances may be material. Assumptions regarding future changes in sales and revenues are necessarily speculative in nature. In addition, projections do not and cannot take into account such factors as general economic conditions, unforeseen regulatory changes, the entry into a market of additional competitors, the terms and conditions of future capitalization, and other risks inherent to the Company's business. While Management believes that the projections accurately reflect possible future results of operations at these market penetration rates, those results cannot be guaranteed.

Indemnification of Directors and Officers:

The Company is incorporated under the laws of Delaware. Delaware General Corporation Law provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses including attorneys' fees, judgments, fines and amounts paid in settlement in connection with various actions, suits or proceedings, whether civil, criminal, administrative or investigative other than an action by or in the right of the corporation, a derivative action, if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, if they had no reasonable cause to believe their conduct was unlawful. A similar standard is applicable in the case of derivative actions, except that indemnification only extends to expenses including attorneys' fees incurred in connection with the defense or settlement of such actions and the statute requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. The statute provides that it is not exclusive of other indemnification that may be granted by a corporation's certificate of incorporation, bylaws, agreement, and a vote of stockholders or disinterested directors or otherwise.

The Company's Certificate of Incorporation provides that it will indemnify and hold harmless, to the fullest extent permitted by Delaware's General Corporation Law, as amended from time to time, each person that such section grants us the power to indemnify.

Delaware's General Corporation Law permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for:

- Any breach of the director's duty of loyalty to the corporation or its stockholders;
- Acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- Payments of unlawful dividends or unlawful stock repurchases or redemptions; or
- Any transaction from which the director derived an improper personal benefit.

The Company's Certificate of Incorporation provides that, to the fullest extent permitted by applicable law, none of our directors will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director. Any repeal or modification of this provision will be prospective only and will not adversely affect any limitation, right or protection of a director of our company existing at the time of such repeal or modification.

Reports to security holders:
