ITEM 3. SUMMARY INFORMATION, RISK FACTORS AND DILUTION

Investing in the Company's Preferred Stock is very risky. You should be able to bear a complete loss of your investment. You should carefully consider the following factors, including those listed in this private securities offering.

Development Stage Business

Samba Brazilian Gourmet Pizza Corporation commenced operations in July of 2014. The Company was formed as a California Stock Corporation. Accordingly, the Company has only a limited history upon which an evaluation of its prospects and future performance can be made. The Company's proposed operations are subject to all business risks associated with new enterprises. The likelihood of the Company's success must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the expansion of a business, operation in a competitive industry, and the continued development of advertising, promotions and a corresponding customer base. There is a possibility that the Company could sustain losses in the future. There can be no assurances that Samba Brazilian Gourmet Pizza Corporation will operate profitably.

The Company has No Operating History, and the Manager has a Lack of Experience in Managing Companies Similar to Samba Brazilian Gourmet Pizza Corporation

The Company was recently organized and has no history of operations. The Company therefore should be considered a Development Stage Company, and its operations will be subject to all the risks inherent in the establishment of a new business enterprise, including, but not limited to, hurdles or barriers to the implementation of its business plans. Further, because there is no history of operations there is also no operating history from which to evaluate the Manager's ability to manage the Company's Operations and achieve its goals or the likely performance of the Company. Prospective Investors should also consider the Manager has not previously developed or managed similar companies. No assurances can be given that the Company can operate profitably.

Our Ability to Succeed Depends on our Ability to Grow our Business and Achieve Profitability

The introduction of new food products, and expansion of our Corporate Restaurants and Franchise Restaurants will each contribute significantly to our operational results, and we will also work on avenues to develop new and innovative ways to manufacture our products and expand our food distribution to food wholesalers and retail outlets. Our future operational success and profitability will depend on a number of factors, including, but not limited to:

- Our ability to manage costs;
- The increasing level of competition in the Food Products Industry;
- Our ability to continuously offer new and improved Food products;
- Our ability to maintain sufficient production capacity for our Brazilian Pizza and Brazilian Food products;
- Our ability to maintain efficient, timely and cost-effective Food production and delivery of our products;
- The efficiency and effectiveness of our sales and marketing efforts in building product and brand awareness;
- Our ability to identify and respond successfully to emerging trends in the Restaurant, Food Wholesale and Food Retail Industry;
- The level of consumer acceptance of our Brazilian Pizza and Brazilian Food products;
- General economic conditions and consumer confidence.

We may not be successful in executing our growth strategy, and even if we achieve targeted growth, we may not be able to sustain profitability. Failure to successfully execute any material part of our growth strategy would significantly impair our future growth and our ability to attract and sustain investments in our business.

If we are unable to Successfully Open New Restaurants, our Revenue Growth Rate and Profits may be Reduced

To successfully develop and grow our proposed business, we must open new corporate and franchise restaurants on schedule and in a profitable manner. Delays or failures in opening new restaurants could hurt our ability to meet our growth objectives, which may affect our financial projections and may impact our stock price. We cannot guarantee that our corporate restaurants or our franchise restaurants will be able to achieve our expansion goals or that new restaurants will be operated profitably. Our ability to expand successfully will depend on a number of factors, many of which are beyond our control. These factors include:

- Locating Suitable Restaurant Sites in New and Existing Markets;
- Obtaining Acceptable Financing for Construction of New Restaurants or Negotiating Acceptable Lease Terms;
- Recruiting, Training and Retaining Qualified Corporate and Restaurant Personnel and Management;
- Attracting and Retaining Qualified Franchisees;
- Cost Effective and Timely Planning, Design and Build-out of Restaurants;
- Obtaining and Maintaining Required Local, State and Federal Governmental Approvals and Permits related to the Construction of the Sites and the Sale of Food and Alcoholic Beverages;
- Creating Guest Awareness of our Restaurants in New Markets;
- Competition in our Markets; and
- General Economic Conditions.

We Must Identify and Obtain a Sufficient Number of Suitable New Restaurant Sites for us to Sustain our Revenue Growth Rate

We require that all proposed restaurant sites, whether for company-owned or franchised restaurants, meet site-location criteria established by us. We and our franchisees may not be able to find sufficient new restaurant sites to support our planned expansion in future periods. We face significant competition from other restaurant companies and retailers for sites that meet our criteria and the supply of sites may be limited in some markets. As a result of these factors, our costs to obtain and lease sites may increase, or we may not be able to obtain certain sites due to unacceptable costs. Our inability to obtain suitable restaurant sites at reasonable costs may reduce our growth rate.

If the Cost of Dairy Products, Meat Products and Vegetable Products Continue to Increase, our Proposed Cost of Sales will Increase and our Proposed Operating Income will be Reduced

The primary food products to be used by our Company-owned and Franchised-owned Restaurants will be Dairy (mainly cheeses and milk), Meat Products (mainly Beef, Chicken and Fish) and Vegetable Products. Any material increase in the cost of these products could adversely affect our operating results. The retail cost of Dairy Products rose 0.7% from January of 2014 to February of 2014, as compared to 0.1% for urban consumer prices overall. Mr. Tim Hunt, the Global Dairy Strategist with the Rabobank Food & Agribusiness Research and Advisory Group, says he thinks prices could still rise an additional 5% to 10% through the middle of 2014. The Wholesale prices of Choice Grade Beef has surged 11% from May of 2013 to May of 2014, which the price of Wholesale Chicken has risen 4.7% during the same period. Our cost of sales can be significantly affected by increases in the cost of these items, which can result from a number of factors, including seasonality, increases in the cost of grain, costs of fuel, bad weather, disease and other factors that affect availability, and the greater international demand for these products. Because we are currently unable to secure long-term fixed-price contracts for the purchase of these items, a rise in the prices of these items would expose us to cost increases.

Our Restaurants may not Achieve Market Acceptance in the new Geographic Regions We Enter

Our expansion plans depend on opening restaurants in new markets where we or our franchisees have little or no operating experience. The success of these new restaurants will be affected by the different competitive conditions, consumer tastes and discretionary spending patterns of the new markets as well as our ability to generate market awareness of the Samba Brazilian Gourmet Pizza Corporate brand. Sales at restaurants opening in new markets may take longer to reach annual restaurant sales, if at all, thereby affecting the profitability of these restaurants. We may not be successful in operating our restaurants in new markets on a profitable basis.

Our Franchisees May Take Actions that could Harm our Business

Franchisees are independent contractors and are not our employees. We will provide training and support to franchisees, but the quality of franchised restaurant operations may be diminished by any number of factors beyond our control. Consequently, franchisees may not operate restaurants in a manner consistent with our standards and requirements, or may not hire and train managers and other restaurant personnel. If franchisees do not adequately manage their restaurants, our image and reputation, and the image and reputation of other franchisees, may suffer materially and system-wide sales could significantly decline. In addition, we may also face potential claims and liabilities due to the acts of our franchisees based on agency or vicarious liability theories.

Inadequacy of Funds

Gross offering proceeds of a maximum of \$5,000,000 may be realized. Management believes that such proceeds will capitalize and sustain the Company sufficiently to allow for the implementation of the Company's Business Plans. If only a fraction of this Offering is sold, or if certain assumptions contained in Management's business plans prove to be incorrect, the Company may have inadequate funds to fully develop its business.

Although the Company believes that the proceeds from this Offering will be sufficient to help sustain operations during this growth period, there is no guarantee that the Company will raise all the funds needed to adequately fund Company Operations. The Company has determined that \$500,000, in addition to cash flow from operations, will be needed to fund planned operations for the first twelve months if proceeding with only one location.

Dependence on Management

In the early stages of development the Company's business will be significantly dependent on the Company's management team. The Company's success will be particularly dependent upon: Mr. Steven Joseph Muehler, the Company's Founder & Chief Executive Officer. Mr. Muehler is also the Founder and Chief Executive Officer of the Alternative Securities Markets Group. Mr. Muehler expects to only be able to focus roughly 20-30% of the working week to the operations of Samba Brazilian Gourmet Pizza Corporation. Mr. Muehler anticipates the hiring of a General Manager and Management Staff within weeks of the Qualification of this Registration Statement.

Risks of Borrowing

Although the Company does not intend to incur any debt from the equity commitments provided, should the company obtain secure bank debt in the future, possible risks could arise. If the Company incurs indebtedness, a portion of the Company's cash flow will have to be dedicated to the payment of principal and interest on such indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of members of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

Unanticipated Obstacles to Execution of the Business Plan

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of the Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

Management Discretion as to Use of Proceeds

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management with

respect to application and allocation of the net proceeds of this Offering. Investors for the Units offered hereby will be entrusting their funds to the Company's Management, upon whose judgment and discretion the investors must depend.

Minimum Amount of Capital to be Raised

The minimum amount of Securities that need to be sold in this offering for the Company to access the investment funds is \$500,000. After the Minimum Amount of Capital required to be reached, all Investor funds will be transferred from the Company's Investment Holding Account to the Company. The Company cannot assure you that subscriptions for the entire Offering will be obtained. The Company has the right to terminate this offering of Securities at any time, regardless of the number of Securities that have sold. If the Offering terminates before the offering minimum is achieved, or if any prospective Investor's subscription is rejected, all funds received from such Investors will be returned without interest or deduction. The Company's ability to meet financial obligations, cash needs, and to achieve objectives, could be adversely affected if the entire offering of Securities is not fully subscribed.

Control by Management

As of August 1st, 2014 the Company's Managers owned approximately 100% of the Company's outstanding Common Stock Units. Upon completion of this Offering, the Company's Managers will own approximately 100% of the issued and outstanding Common Stock Units. Investors will not have the ability to control either a vote of the Company's Managers or any appointed officers. See "COMPANY MANAGERS" section.

Return of Profits

The Company has never declared or paid any cash dividends on its Common Stock. The Company currently intends to retain future earnings, if any, to finance the expansion of the Company's Operations. As a result, the Company does not anticipate paying any cash dividends in the foreseeable future.

No Assurances of Protection for Proprietary Rights; Reliance on Trade Secrets

In certain cases, the Company may rely on trade secrets to protect intellectual property, proprietary technology and processes, which the Company has acquired, developed or may develop in the future. There can be no assurances that secrecy obligations will be honored or that others will not independently develop similar or superior products or technology. The protection of intellectual property and/or proprietary technology through claims of trade secret status has been the subject of increasing claims and litigation by various companies both in order to protect proprietary rights as well as for competitive reasons even where proprietary claims are unsubstantiated. The prosecution of proprietary claims or the defense of such claims is costly and uncertain given the uncertainty and rapid development of the principles of law pertaining to this area. The Company, in common with other investment funds, may also be subject to claims by other parties with regard to the use of intellectual property, technology information and data, which may be deemed proprietary to others.

The Company's Continuing as a Going Concern Depends Upon Financing

If the Company does not raise sufficient working capital and continues to experience pre-operating losses, there will most likely be substantial doubt as to its ability to continue as a going concern. Because the Company has generated no revenue, all expenditures during the development stage have been recorded as pre-operating losses. Revenue operations have not commenced because the Company has not raised the necessary capital.

Broker - Dealer Sales of Units

The Company's Preferred Stock and Common Stock Units are not "presently" included for trading on any exchange, and there can be no assurances that the Company will ultimately be registered on any exchange. The NASDAQ Stock Market, Inc. has recently enacted certain changes to the entry and maintenance criteria for listing eligibility on the NASDAQ SmallCap Market. The entry standards require at least \$4 million in net tangible assets or \$750,000 net income in two of the last three years. The proposed entry standards would also require a public float of at least 1 million shares, \$5 million value of public float, a minimum bid price of \$2.00 per share, at least three market makers, and at least 300 shareholders. The maintenance standards (as opposed to entry standards) require at least \$2 million in net tangible assets or \$500,000 in net income in two of the last three

years, a public float of at least 500,000 shares, a \$1 million market value of public float, a minimum bid price of \$1.00 per share, at least two market makers, and at least 300 shareholders.

No assurance can be given that the Stock Units of the Company will ever qualify for inclusion on the NASDAQ System or any other trading market until such time as the Managing Members deem it necessary. As a result, the Company's Preferred Stock and Common Stock Units are covered by a Securities and Exchange Commission rule that opposes additional sales practice requirements on broker-dealers who sell such securities to persons other than established customers and qualified investors. For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Consequently, the rule may affect the ability of broker-dealers to sell the Company's securities and will also affect the ability of members to sell their units in the secondary market.

Secondary Market

There is currently no established public market for our Preferred Stock Shares. We may apply to have our Preferred Stock listed for trade on the OTC Market, but currently no application is currently being prepared for the Company's Securities to be admitted to the Official Listing and trading on any regulated market. No application is being prepared to include the Securities to trading on an "Over-the-Counter" or "Open Market", though the Company intends to submit an S-1 or Form 10 Filing within TWELVE MONTHS of the close of this securities offering. There can be no assurance that a liquid market for the Securities will develop or, if it does develop, that it will continue. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with yield comparable to similar investments that have a developed secondary market. Illiquidity may have a **severely adverse effect on the market value of the Securities and investors wishing to sell the Securities might therefore suffer losses.**

The Company's Preferred Stock is Equity and is Subordinate to all of our Existing and Future Indebtedness; our ability to Declare Annual Dividends on the Preferred Stock may be Limited

The Company's Preferred Stock Units are equity interest in the Company and do not constitute indebtedness. As such, the Preferred Stock will rank junior to all indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, where principal and interest would be customarily be payable on specified due dates, in the case of preferred stock, like the Preferred Stock being offering through this Offering, (1) dividends are payable only when, as and if authorized and declared by the Company's Board of Directors and (2) as an early stage company, our ability to declare and pay dividends is subject to the Company's ability to earn net income and to meet certain financial regulatory requirements.

Dividends on the Company's Preferred Stock is Cumulative

Dividends on the Company's Preferred Stock is Cumulative. If the Company's Board of Directors does not authorize and declare a dividend for any dividend period, holder of the Company's Preferred Stock will not be entitled to receive a dividend cash payment for such period, and such undeclared dividend will accrue and become payable at a later dividend payment date. The Company's Board of Directors may determine that it would be in the Company's best interest to pay less than the full amount of the stated dividend on our Preferred Stock, at which time the undeclared portion of the dividend will accrue and become payable at a later dividend payment date. Factors that would be considered by the Company's Board of Directors in making this determination are the Company's financial condition and capital needs, the impact of current and pending legislation and regulations, economic conditions, tax considerations, and such other factors as our Board of Directors may deem relevant.

Long Term Nature of Investment

An investment in the Company's Preferred or Common Stock Units may be long term and illiquid. As discussed above, the offer and sale of the Units will not be registered under the Securities Act or any foreign or state securities laws by reason of exemptions from such registration, which depends in part on the investment intent of the investors. Prospective investors will be required to represent in writing that they are purchasing the Units for their own account for long-term investment and not with a view towards resale or distribution. Accordingly, purchasers of Units must be willing and able to bear the economic risk of their investment for an indefinite period of time. It is likely that investors will not be able to liquidate their investment in the event of an emergency.

Unavailability of Rule 144 for Resales

The Company may be regarded under Rule 12b-2 of the Securities Exchange Act of 1934 as a shell company. Shareholders who hold shares which are not subject to a registration statement under the Securities Act often rely upon Rule 144 for their resale. Rule 144 is not available for the resale of securities initially issued by either reporting or non-reporting shell companies (other than a business combination related shell company) or an issuer that has been, at any time previously, a reporting or non-reporting shell company, unless the issuer meets specified conditions. A security holder may resell securities pursuant to Rule 144's Safe Harbor if the following conditions are met:

- 1) The Issuer of Securities that was formerly a reporting or non-reporting company has ceased to be a shell;
- 2) The Issuer of the Securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- 3) The Issuer of the Securities has filed all reports and material required to be filed under Section 13 or 15(d) of the Exchange Act, as applicable, during the preceding 12 months (or for such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and
- 4) At least one year has elapsed from the time the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

Compliance with Securities Laws

The Company's Preferred Stock Units are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act, applicable Florida Securities Laws, and other applicable state securities laws. If the sale of Preferred Stock Units were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of Units. If a number of purchasers were to obtain rescission, we would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

Offering Price

The price of the Preferred Stock Units offered has been arbitrarily established by our Chief Executive Officer, considering such matters as the state of the Company's business development and the general condition of the industry in which it operates. The Offering price bears little relationship to the assets, net worth, or any other objective criteria.

Lack of Firm Underwriter

The Units are offered on a "best efforts" basis by the Company Managers, without compensation and on a "best efforts" basis through certain NASD or FINRA registered broker-dealers, which enter into Participating Broker-Dealer Agreements with the Company. Accordingly, there is no assurance that the Company, or any NASD or FINRA broker-dealer, will sell the maximum Units offered or any lesser amount.

Samba Brazilian Gourmet Piazza Corporations growth strategy involves opening company-owned and franchised restaurants in both new and existing markets. We have established the necessary infrastructure and control systems to support a disciplined growth strategy. We believe our unique restaurant concept can support over 1,000 restaurants in the United States. We have designed procedures from identifying new market opportunities, determining our company and franchising strategy in those markets and indentifying sites for initial and future company-owned restaurants as well as franchised restaurants. Our growth strategy projects a mix of approximately one-third company-owned restaurants to approximately two-thirds franchised restaurants.

- *Company-Owned Restaurants:* Samba Brazilian Gourmet Pizza Corporation intends to open company-owned restaurants in multiple markets. We plan to open our first three Samba Brazilian Pizza Restaurants in Los the greater Los Angeles market before January of 2014 to maximize on the upcoming World Cup Games from Brazil in 2014. We plan to have over twenty company-owned restaurants in large metropolitan markets with large Brazilian Populations (Miami, Florida; Fort Lauderdale, Florida; Boca Raton, Florida; New York City, New York; San Diego, California and Las Vegas, Nevada) before the opening of the Olympic Games in Brazil in 2016.
- *Franchised Restaurants:* Samba Brazilian Gourmet Pizza Corporation intends to implement a franchise system through the development of new restaurants by new franchisees. We do not intend to proceed with any franchise locations until after the third company-owned location is established, and we believe this will give Samba Brazilian Gourmet Pizza Corporation “Strength of our Brand”, allowing us unit growth opportunities in attractive undeveloped markets. We believe with our unique restaurant menu and relative simplicity of our restaurant operations, we believe we will be able to attract experienced and well capitalized area developers. We plan to open 32 franchise restaurants per year starting our second year of operations.

The Samba Brazilian Gourmet Pizza Corporation plans for franchisees to execute a separate franchise agreement for each restaurant opened, typically providing for a 15 to 20 year initial term, with an opportunity to enter into a renewal franchise agreement subject to certain conditions. Our agreement will require franchisees to pay a franchise fee of \$40,000 for the first restaurant opened and \$30,000 for each additional restaurant they open. The \$30,000 fee is reduced to \$20,000 if the additional restaurant is in the designated area of the franchisee's existing restaurant. If a franchisee has entered into an area development agreement with us, the initial franchise fee is \$40,000 for the first restaurant, \$30,000 for the second restaurant and \$25,000 for each subsequent restaurant. These amounts are reduced to \$30,000 for the first restaurant and \$10,000 for each subsequent restaurant if the franchise is an existing area developer. Franchisees also pay Samba Brazilian Gourmet Pizza Corporation a royalty fee of 5.0%, of which a portion goes to our "National Advertising Fund" or "NAF".

In selection Samba Brazilian Gourmet Pizza Franchisees, we plan to focus on multiple unit area development agreement with a minimum of four units per development agreement. Our Franchisees must have experience in restaurant operations and development. We also have financial requirements for potential franchisees including \$100,000 in liquid net worth and \$250,000 in total net worth per unit to four units. Our concept, growth potential and strong unit level economics coupled with our training and support systems, will enable us to attract experienced and well capitalized area developers.

According to the NPD Group, Inc., spending increases in the quick casual segment have historically been higher in other restaurant segments.

- *Emerging Trends.* Both the quick and casual dining segments are benefiting from consumer lifestyle and economic trends, including: i) the increase in dual income families, ii) the decline in the relative cost of a restaurant meal compared to home-cooked meal, iii) the growth in spending on food eaten away from home, and iv) the emergence of restaurants as “third place” destinations

Lifestyle and economic trends have increased the need to convenient dining alternatives while making dining out relatively more affordable. The increase in dual income families, which often have busy work and social schedules and long commutes, may lead more families to dine out or order in, rather than eat at home. Driven by growing time pressures and a desire to relax, consumers are increasingly seeking a neighborhood establishment, a “third place” location in addition to home and work where they can socialize and unwind, or simply order food to go or to be delivered from a familiar menu.

Draft beers will be served in two sizes, 16oz and 23oz, and may include local or regional microbrews. All Samba Brazilian Gourmet Pizza Restaurants will offer Brazilian Specialty Drinks including “Caipirinha”. We predict Alcoholic beverage sales for company-owned restaurants to account for about 33% of restaurant sales. All restaurants will serve a variety of Brazilian Imported Wines which may change periodically depending on sales figures in each market.

In order to continually improve our menu, we have established a research and development department that will test and implement new menu items. Our goal is to balance established menu offerings that appeal to our loyal guests with new menu items that increase guest frequency and attract new guests. As well as testing potential menu items for taste and appearance, we will analyze the ease of preparation and replication to ensure food quality and consistency in our restaurants. Once approved for distribution, an item will typically be tested in an established market to gauge guest acceptance.

Restaurant Atmosphere and Layout

Samba Brazilian Gourmet Pizza Restaurants will be designed to provide an inviting neighborhood atmosphere and allow our guests the flexibility to customize their dining experience. The inviting and energetic environment of our restaurants will be created by using furnishings that can be easily arranged around a centralized pizza wood burning oven and that accommodate parties of various sizes. Our restaurants will also feature distinct dining and bar areas and select markets and restaurants will have patio seating.

Each Samba Brazilian Gourmet Pizza will have up to 40 televisions and up to five projection screen televisions throughout the restaurant to allow for easy viewing. These televisions will be used to show Global Sporting Events that include the 2014 World Cup from Brazil, 2016 Olympics from Brazil, Global Soccer Matches, UFC and Boxing Pay-per-views, Concert events and other sports and special interest broadcast. These televisions combined with our sound system, National Trivia Network and assorted video games, provide a source of entertainment for our guests and reinforce the energetic nature of our concept. We will tailor the content and volume of our video and audio programming in each dining area to reflect our guests' tastes. We believe the design of our restaurants will enhance our guests' experience, drive repeat visits and will solidify the broad appeal of our concept.

All of our menu items are made-to-order and we are available for take-out or delivery, which we anticipate will account for 25% of our restaurant sales for company-owned restaurants. Many of our restaurants will maintain separate parking for our take-out guests.

Site Selection and Development

Samba Brazilian Gourmet Restaurant Site Selection process will be integral to the successful execution of our growth strategy. We have formalized internal guidelines for identifying, analyzing and approving new markets. In selecting designated market areas, we will collect and review restaurant industry data relating to restaurant sales, spending on food away from home and expected restaurant growth in the market, as well as market demographics, population data and relative media costs for radio and television advertising. Once a market is identified, we will have a number of criteria that will be examined to first determine an appropriate trade area within that market. These criteria include the presence of a casual dining corridor, projected growth within the trade area, the locations of key big box retailers in the neighborhood, key demographics and population density, drive time and trading area analysis and other quantitative and qualitative measures. Once a suitable trade area is identified, we will examine site specific details including visibility, signage, access and parking. Final approval by our executive management team is required for each company-owned and franchised site.

Marketing and Advertising

Samba Brazilian Gourmet Pizza Corporation has created a unique marketing program designed to communicate a distinctive and consistent brand that differentiates "Samba Brazilian Gourmet Pizza" from our competitors and that showcases our food in a fun and energetic atmosphere. These efforts will include marketing programs that support both our company-owned and franchised restaurants. The goal of these efforts is to: i) drive positive same-store sales through additional visits by our existing guests and encourage visits by new guests, ii) increase margins, iii) increase average order size, iv) facilitate strong restaurant openings and v) build brand awareness.

- *Primary Marketing Campaigns.* Our primary marketing campaigns will focus on a particular menu item, day or day-part in an attempt to drive traffic. For example, we will develop a campaign highlighting what will be our "Rotissary Sunday" promotion. At the start of each campaign, restaurants receive campaign overview and implementation memos. We will actively support each campaign through counter cards, table tents, posters, television danglers, crew uniforms and other branded materials. All primary marketing campaigns are supported by one or more of the following: television, radio and print advertising paid by our "NATIONAL ADVERTISING FUND", or "NAF". To encourage participation from our crew

members in each campaign, we will also structure various crew incentive programs and mystery shopping programs.

- *Secondary Marketing Campaigns.* Our secondary marketing campaigns will focus on reaching beyond the core Samba Brazilian Gourmet Pizza Restaurant guests. These programs will be designed to drive traffic during particular day-part, such as lunch or after work, or attract a particular demographic, such as families. We will introduce sales building programs into our locations at regular intervals throughout the year and support them with branded marketing materials. Unlike primary marketing campaigns, our secondary campaigns will not be supported by National Advertising Fund media. We will develop these programs to allow for customization by individual restaurants.
- *Local Area Marketing.* Given our strategy to be a neighborhood destination, local area marketing is key to developing brand awareness in each market. Our restaurants will actively sponsor local sporting teams and global, national and regional televised sporting events to drive guest traffic associated with those activities. We will require both franchisees and company-owned restaurants to spend 0.5% of net sales on local area marketing, however many may choose to spend more than this minimum amount. As a neighborhood gathering place, we may also participate in preopening promotions to educate the community about the Samba Brazilian Gourmet Pizza concept, such as inviting local media and celebrities to our openings and undertake other activities to create word-of-mouth advertising as well as distributing coupons to local businesses.
- *Social Media.* Samba Brazilian Gourmet Pizza Corporation will have a corporate account on Facebook, Twitter and Myspace, as well as establish an individual Facebook, Twitter and Myspace accounts for each company-owned and franchised restaurant. Each restaurant will actively post photos of events at their restaurant, post advertisement for upcoming specials and events, and keep in contact with our loyal guests, friends and followers. Samba Brazilian Gourmet Pizza will also maintain a corporate webpage at www.SambaPizza.com where we will supply an individual page for each one of our company-owned restaurants and each of our franchise owned restaurants. Each restaurant will be able to customize their sites webpage with photos of events and advertisement for upcoming events and specials. Guests to the website will also be able to place “to go” or “delivery” orders on the website as well as learn about corporate promotions and restaurant openings, and obtain directions to restaurants.
- *Advertising.* Our media advertising focuses will be on positioning the “Samba Brazilian Gourmet Pizza” brand as an inviting neighborhood dining location. Our commercials, print advertisements and radio spots will be recognized in the restaurant and advertising industries for their creativity. Rather than purchasing media on a national basis, we will utilize a team of professionals to purchase media on a market-by-market basis, which will allow us to react quickly to market specific opportunities. We will require our company-owned restaurants and franchisees to remit 2.5% of restaurant sales to support the National Advertising Fund which, in return, will spend approximately 80% of the money in the market from which it was originated. As the company continues to expand, we anticipate purchasing media on a national scale.
- *Franchise Support.* System-wide campaigns and promotions will be developed and implemented with input from the Samba Brazilian Gourmet Pizza Corporation Staff and the National Advertising Advisory Board. This volunteer franchisee board will be elected by franchisees annually and will meet regularly to review marketing strategies, provide input on advertising messages and vendor co-op programs and discuss marketing objectives. We will also provide each franchisee with a marketing manual that offers suggestions on local marketing techniques and programs. The manual will include strategies for instituting an effective grand opening plan and programs for local area marketing efforts as well as public relations ideas.

Operations

Samba Brazilian Gourmet Pizza Corporation's management team strives for operational excellence by recruiting, training and supporting the highest quality management teams and employees and through the implementation of operational best practices across all of the "Samba Brazilian Gourmet Pizza Restaurants".

- *Restaurant Management.* In order to balance time and resources of our managers while driving increased operational efficiency, we will be implementing a management structure that consists of a General Manager, one assistant General Manager, and up to three Managers depending on restaurant volume. The Assistant General Manager is expected to perform a portion of the General Manager's duties, allowing the General Manager the freedom to focus on larger operational initiatives. Managers will have clearly defined responsibilities to oversee either the kitchen, the bar or guest service. Before a manager is promoted to Assistant General Manager, he or she will have completed rotations at each position. We believe this structure improves the quality of life of our managers and aligns our proposed pay scale with the responsibilities of each manager in an effort to improve performance.

As we grow, we will begin to utilize both city and regional managers to oversee our General Managers, ensuring they receive the training and support necessary to improve restaurant operations. Both City and Regional Managers will be trained in all aspects of restaurant operations, with City Managers being required to work in each of their restaurants. This management structure will allow our City and Regional Managers to effectively transfer best practices and help our General Managers maximize sales while controlling costs.

- *Kitchen Operations.* As important aspect to the Samba Brazilian Gourmet Pizza concept is the efficient design, layout and execution of our kitchen operations. Owing to the relatively simple preparation of our menu items, the kitchen consists of a single Wood Burning Pizza Oven, Commercial Stove and food prep stations that are arranged assembly-line style for maximum productivity. Given our menu and kitchen designs, we will be able to staff our kitchen with hourly employees that require only limited training before reaching full productivity. Additionally, we will not require the added expense of an on-site chef. The ease and simplicity of our kitchen operations will allow us to achieve our goal of preparing casual quality food with minimal wait times. We also believe the ease of operations in our Kitchens will be a significant factor in attracting franchisees.
- *Training.* We will provide extensive training for management and hourly employees at company-owned restaurants, with the goal of providing excellent guest service focused on high standards based on personal performance, food preparation and maintenance of our facilities. Further, each franchisee, along with a General Manager and one additional employee, will be required to attend our Training Program.

Managers of our company-owned restaurants will be trained using a two-step process that includes both in-class and hands-on sessions. Classroom courses will be taught by our training and operational staff originating from our three Los Angeles Flagship locations. Classroom training will last one week and cover a broad range of topics including food preparation, inventory management and hiring procedures. Managers will also be trained in day-to-day restaurant operations during an intensive five-week course at one of our then certified training restaurants (initially the three Los Angeles flagship restaurants). During this course, our manager trainees will work in every aspect of the business, including line cook, server and manager.

Hourly employees in company-owned restaurants will complete a comprehensive position certification process. This process will help them become proficient at a specific station. A station certification process will require 16 to 20 hours of classroom and hands-on training. Each trainee will receive feedback after each training session. Once certified, the trainee may be cross-trained in another position using the certification process.

In addition, our hourly employees will be encouraged to participate in an on-the-job program called "SCT" or "Samba Certified Trainer", which is a program that will utilize both detailed training guides and hands-

on instruction by restaurant management. We will place an emphasis on streamlining the training process and, as such, we created the SCT program that can be easily taught and learned. In order to become SCT, an individual must be recommended by the restaurant General Manager as someone with a strong commitment, good attitude and enthusiasm. The certification process will require that the employee have a high level of knowledge of all NINE components of the restaurants' operational manual. These nine components represent the nine different job positions in our restaurants: Greeter, Cashier, Bartender, Expedite Station, Pizza Oven Station, Grill / Oven Station, Delivery Operation, Guest Services and Bar-back. Monetary incentives and additional benefits will be used to encourage employees to participate in this certification process. Our objective is to have at least four SCTs at each company-owned and franchised restaurant.

- *Career Opportunities.* We will attempt to motivate and retain our field operations team by providing them with opportunities for increased responsibilities and advancement. In addition, we will offer performance-based cash incentives tied to sales, profitability and qualitative measures such as visits by our mystery shoppers and our quality assurance personnel. It will be the Company's policy to promote within whenever possible.
- *Recruiting.* We will actively recruit and select individuals who demonstrate enthusiasm and dedication and who share our passion for high quality guest service through teamwork and commitment. To attract high caliber managers, we have developed a competitive compensation plan that includes a base salary and an attractive benefits package, including participating in a management incentive plan that rewards managers for achieving performance objectives.

Food Preparation, Quality Control and Purchasing

Samba Brazilian Gourmet Pizza will strive to maintain high food quality standards. Our systems are designed to protect our food supply throughout the preparation process. We will provide detailed specifications to suppliers for our food ingredients, products and supplies. Our Restaurant Managers will be certified in a comprehensive safety and sanitation course by the National Restaurant Association. Twice-a-day line checks will ensure the safety of the food we serve in our restaurants.

We will negotiate directly with independent suppliers for our supply of food and paper products. To maximize our purchasing efficiencies and obtain the lowest possible price for our ingredients, products and supplies, while maintaining the highest quality, our centralized purchasing team will negotiate prices based on system-wide usage for both company-owned and franchised restaurants. The kitchen manager will place orders with approved local suppliers and distributors, and orders will be inspected at delivery. We believe that competitively priced, high quality alternative manufacturers, suppliers, growers and distributors are available should the need arise.

Indemnification of Directors and Officers:

The Company is incorporated under the laws of California. California General Corporation Law provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses including attorneys' fees, judgments, fines and amounts paid in settlement in connection with various actions, suits or proceedings, whether civil, criminal, administrative or investigative other than an action by or in the right of the corporation, a derivative action, if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, if they had no reasonable cause to believe their conduct was unlawful. A similar standard is applicable in the case of derivative actions, except that indemnification only extends to expenses including attorneys' fees incurred in connection with the defense or settlement of such actions and the statute requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. The statute provides that it is not exclusive of other indemnification that may be granted by a corporation's certificate of incorporation, bylaws, agreement, and a vote of stockholders or disinterested directors or otherwise.

The Company's Certificate of Incorporation provides that it will indemnify and hold harmless, to the fullest extent permitted by California's General Corporation Law, as amended from time to time, each person that such section grants us the power to indemnify.

The Company's Certificate of Incorporation provides that, to the fullest extent permitted by applicable law, none of our directors will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director. Any repeal or modification of this provision will be prospective only and will not adversely affect any limitation, right or protection of a director of our company existing at the time of such repeal or modification.

The Secretary shall have custody of the Corporate Seal of the Corporation and the Secretary, or an Assistant Secretary, shall have authority to affix the same to any instrument requiring it and when so affixed, it may be attested by the Secretary's signature or by the signature of such Assistant Secretary. The Board of Directors may give authority to any other officer to affix the seal of the Corporation and to attest the affixing by his or her signature.

The Assistant Secretary, or if there be more than one, the Assistant Secretaries in the order designated by the Board of Directors, or in the absence of such designation then in the order of their election, in the absence of the Secretary or in the event of the Secretary's inability or refusal to act, shall perform the duties and exercise the powers of the Secretary and shall perform such other duties and have such other powers as the Board of Directors may from time to time prescribe.

The Treasurer shall disburse the funds as may be ordered by the Board of Directors, taking proper vouchers for such disbursement, and shall render to the President and the Board of Directors, at its regular meetings, or when the Board of Directors so requires, an account of all his or her transactions as Treasurer and of the financial condition of the Corporation.

If required by the Board of Directors, the Treasurer shall give the Corporation a bond in such sum and with such surety or sureties as shall be satisfactory to the Board of Directors for the faithful performance of the duties of the office of the Treasurer, and for the restoration to the Corporation, in the case of the Treasurer's death, resignation, retirement or removal from office, of all books, papers, vouchers, money and other property of whatever kind in the possession or under the control of the Treasurer belonging to the Corporation.

The Board of Directors may determine whether and to what extent and at what times and places and under what conditions and regulations any accounts, books, records or other documents of the Corporation shall be open to inspection, and no creditor, security holder or other person shall have any right to inspect any accounts, books, records or other documents of the Corporation except as conferred by statute or as so authorized by the Board.
