To the Dealers appointed
from time to time pursuant to a
Terms Agreement or Appointment Agreement
under the Global Debt Program of the
Inter-American Development Bank

Ladies and Gentlemen:

I have participated in the proceedings of the Inter-American Development Bank (the "Bank") to establish the Global Debt Program of the Bank, as it may be amended, restated, or superseded from time to time (the "Program"), and to authorize the issue and sale of Notes thereunder (the "Notes") with reference to a Prospectus dated January 8, 2001 (the "Prospectus"). In connection with such proceedings, I have examined, among other documents, the following:

- 1) The Agreement Establishing the Inter-American Development Bank (the "Bank Agreement") and the By-Laws of the Bank;
- 2) The Global Borrowing Authorization, Resolution DE-18/13, authorizing the issuance and sale of the Notes;
- 3) The Prospectus;
- 4) The Standard Provisions, dated as of January 8, 2001 (the "Standard Provisions");
- 5) The Global Agency Agreement, dated January 8, 2001, as amended, among the Bank, Kredietbank S.A. Luxembourgeoise, and Citibank, N.A. (the "Global Agency Agreement"); and
- 6) The Uniform Fiscal Agency Agreement, dated as of July 20, 2006, as amended, between the Bank and the Federal Reserve Bank of New York (the "FRBNY Fiscal Agency Agreement").

Pursuant to Section 5(e)(ii) of the Standard Provisions, I am of the opinion that:

- a) The Bank is an international organization duly established and existing under the Bank Agreement;

- b) The Bank has obtained all governmental approvals required pursuant to the Bank Agreement in connection with the offering, issue and sale of the Notes;
- c) The creation, issue, sale and delivery of the Notes, and the execution of any Notes in definitive form, have been duly authorized, and when duly issued and delivered, and in the case of Notes in definitive form, duly executed, authenticated, issued and delivered, the Notes will constitute valid and legally binding obligations of the Bank in accordance with their terms;
- d) Any applicable Terms Agreement or Appointment Agreement, as the case may be, as of its date, will be duly authorized, executed and delivered by the Bank;
- e) Each of the Global Agency Agreement, and the FRBNY Fiscal Agency Agreement has been duly authorized, executed and delivered by the Bank and constitutes a valid and legally binding obligation of the Bank;
- f) Under existing law, it is not necessary in connection with the public offering and sale of the Notes to register the Notes under the U.S. Securities Act of 1933, as amended, or to qualify an indenture with respect thereto under the U.S. Trust Indenture Act of 1939, as amended.

While I assume no responsibility with respect to the statements in the Prospectus, nothing has come to my attention which has caused me to believe that the Prospectus, as of its date and as of the date hereof, and excluding the financial statements or other financial data, contains any untrue statement of a material fact or omits to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

This letter does not relate to the financial statements or other financial data contained in the Prospectus.

In rendering the foregoing opinion, I have relied, with respect to matters of New York law, upon the opinion of Sullivan & Cromwell LLP and, with respect to matters of English law, upon the opinion of Linklaters LLP, each delivered on this date in accordance with the Standard Provisions. Also, I have assumed that signatures on all documents examined by me are genuine.

This letter is furnished by me as Chief Counsel of the Bank to Dealers appointed from time to time under the Program and is solely for their benefit.

Very truly yours,

John S. Scott
Chief Counsel

General Information

Additional Information Regarding the Notes

1. The language set out under the heading “Use of Proceeds” in the Prospectus shall be deleted in its entirety and replaced by the following:

“An amount equal to the net proceeds of the issue of the Notes (which proceeds may be converted into other currencies) shall be recorded by IADB in a separate sub-account supporting Eligible Projects. These proceeds will be invested in accordance with the IADB’s conservative liquidity investment guidelines until used to support the IADB’s financing of Eligible Projects. So long as the Notes are outstanding and the account has a positive balance, the Bank shall direct an amount equal to such net proceeds to its lending projects within the fields of Education, Youth, and Employment, subject to and in accordance with the IADB’s policies.

Although Eligible Projects funded by the net proceeds shall be reported on the IADB website on an annual basis, funds shall be reduced from the account on a semi-annual basis by amounts matching the disbursements made during such semi-annual period in respect of Eligible Projects.

“Eligible Projects” means all projects funded, in whole or in part, by IADB that promote early childhood care and education, through formal primary and secondary education, or facilitate labor market placement by improving the transition from school to work through vocational training. Eligible Projects may include projects in Latin America and the Caribbean that target (a) early childhood development, effective teaching and learning among children and youth (“Education Projects”), (b) early childhood care and youth-at-

risk programs (“Youth Projects”) or (c) labor intermediation systems, job opportunities and workforce skills (“Employment Projects”).

Examples of Education Projects include, without limitation:

- Early childhood development programs
- Primary education programs, which includes teacher training, bilingual education, literacy, math and science education and school infrastructure
- Secondary education programs, which includes programs directed to improving retention and graduation, developing teaching and learning methods and providing assistance to disadvantaged children
- Compensatory education programs
- Teacher education and effectiveness programs
- E-education programs

Examples of Youth Projects include, without limitation:

- Support for parents and caregivers to improve quality of child care
- Youth-At-Risk programs which support interventions, policy design, and/or impact evaluations to benefit at-risk youth

Examples of Employment Projects include, without limitation:

- School-to-Work transition programs
- Vocational and technical education programs
- Human resources and workforce development programs
- Labor intermediation systems
- Vocational and Workforce training programs, directed to improving social and labor acclimation for youth, unemployed adults and active workers

The above examples of Education Projects, Youth Projects and Employment Projects are for illustrative purposes only and no assurance can be provided that disbursements for projects with these specific characteristics will be made by IADB during the term of the Notes.”

2. The EU has adopted a Directive regarding the taxation of savings income (the “Savings Directive”). The Savings Directive requires Member States (as defined below) to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State, except that Austria and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise.

The Bank undertakes that it will ensure that it maintains a paying agent in a country which is a member of the European Union (a “Member State”) that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

2. United States Federal Income Tax Matters

The following supplements the discussion under the “Tax Matters” section of the Prospectus regarding the U.S. federal income tax treatment of the Notes, and is subject to the limitations and exceptions set forth therein. Any tax disclosure in the Prospectus or this pricing supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable U.S. federal, state, and local tax laws and non-U.S. tax laws and possible changes in tax laws.

Due to a change in law since the date of the Prospectus, the second paragraph of “—Payments of Interest” under the United States Holders section should be updated to read as follows: “Interest paid by the Bank on the Notes constitutes income from sources outside the United States and will, depending on the circumstances, be “passive” or “general” income for purposes of computing the foreign tax credit.”

The Notes should not be treated as issued with original issue discount (“OID”) despite the fact that the interest rate on the Notes is scheduled to step-up over the term of the Notes because Treasury regulations generally deem an issuer to exercise a call option in a manner that minimizes the yield on the debt instrument for purposes of determining whether a debt instrument is issued with OID. The yield on the Notes would be minimized if the Bank calls the Notes immediately before the increase in the interest rate on October 17, 2016, and therefore the Notes should be treated for OID purposes as fixed-rate notes that will mature prior to the step-up in interest rate for the Notes. This assumption is made solely for U.S. federal income tax purposes of determining whether the Notes are issued with OID and is not an indication of the Bank’s intention to call or not to call the Notes at any time. If the Bank does not call the Notes prior to the first increase in the interest rate then, solely for OID purposes, the Notes will be deemed to be reissued at their adjusted issue price on October 17, 2016. This deemed issuance should not give rise to taxable gain or loss to holders. Subject to the following paragraph, the same analysis would apply to each subsequent increase in the interest rate and therefore the Notes should never be treated as issued with OID for U.S. federal income tax purposes.

If the Notes are not called on or before the interest payment date occurring on October 17, 2018, then, the Notes should be deemed reissued solely for OID purposes at such time. However, because the period between the interest payment date on October 17, 2018 and the final maturity date of the Notes is one year or less, the Notes, upon their deemed reissuance on October 17, 2018, should be treated as short-term debt securities

for OID purposes (but not for purposes of determining the holding period of your Notes). This deemed issuance should not give rise to taxable gain or loss to holders. If the Notes are treated as short-term debt securities, then the primary consequence to a U.S. holder will generally be that it will be required to defer interest deductions with respect to any borrowings that are attributable to the Notes to the extent of any accrued interest on the Notes that the U.S. holder has not yet included in income.

Under this approach the coupon on a Note will generally be taxable to a U.S. holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. holder's normal method of accounting for tax purposes (regardless of whether the Bank calls the Notes).

Upon the disposition of a Note by sale, exchange or redemption (e.g., if the Bank exercises its right to call the Notes) or other disposition, a U.S. holder will generally recognize taxable gain or loss equal to the difference, if any, between (i) the amount realized on the disposition (other than amounts attributable to accrued but unpaid interest, which would be treated as such) and (ii) the U.S. holder's adjusted tax basis in the Note. A U.S. holder's adjusted tax basis in a Note generally will equal the cost of the Note (net of accrued interest) to the U.S. holder. Capital gain of individual taxpayers from the sale, exchange, redemption, retirement or other disposition of a Note held for more than one year may be eligible for reduced rates of taxation. The deductibility of a capital loss realized on the sale, exchange, redemption or other disposition of a Note is subject to significant limitations.

Information with Respect to Foreign Financial Assets. Owners of "specified foreign financial assets" with an aggregate value in excess of U.S.\$50,000 (and in some circumstances, a higher threshold) may be required to file an information report with respect to such assets with their tax returns. "Specified foreign financial assets" may include financial accounts maintained by foreign financial institutions (which may include the Notes), as well as the following, but only if they are held for investment and not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Holders should consult their tax advisors regarding the application of this reporting obligation to their ownership of the Notes.

Medicare Tax. A United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax (the "Medicare tax") on the lesser of (1) the United States holder's "net investment income" (or "undistributed net investment income" in the case of an estate or trust) for the relevant taxable year and (2) the excess of the United States holder's modified adjusted gross income for the taxable year over a certain threshold (which in the

case of individuals will be between U.S.\$125,000 and U.S.\$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its gross interest income and its net gains from the disposition of Notes, unless such interest payments or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the Notes.
