OFFERING CIRCULAR SUMMARY

You should carefully read the entire Offering Circular, including the risks associated with an investment in the Company, discussed under the “Risk Factors” section of the Offering Circular before making an investment decision.

Business Overview

General

Enviro-Serv, Inc. is a Tampa based corporation specializing in providing property maintenance services in geographically concentrated Florida. Through an aggressive acquisition strategy, the Issuer is building a portfolio of highly profitable enterprises that offer year round services such as pest control management, lawn and landscaping care, pool maintenance, air conditioning/refrigeration installation and repairs and a host of additional onsite maintenance offerings. The Issuer is not and has never been a shell. To date, Enviro-Serv, Inc. has one wholly owned subsidiary, X-Terminate Pest Management Inc., commencing operations a/o June 1, 2013. X-Terminate Inc. is a full service Florida licensed pest control operation based in St. Petersburg Florida originally launched in 2009 and is revenue producing. Enviro-Serv, Inc. and X-Terminate Inc. combined have 5 total employees. Enviro-Serv, Inc. hasn't reached profitability as of yet and to do so must find suitable acquisition targets in any/all segments of above listed service industry groups. Enviro-Serv, Inc. is emphasizing mergers/acquisitions within the pest

control space currently as the sweet spot of the calendar year (July-October) approaches. The busy time for Florida pest control companies is generally the summer months. In varying times between April and May of each year, dry wood termites begin to swarm. This swarm results in customers calling for service. That service is usually performed between June and October. Similarly, ant and cockroach populations typically balloon in May and June of each year, in Florida, resulting in increased customer service calls following these months.

Our offices are located at 8875 Hidden River Parkway Suite 300, Tampa, FL 33637. Our phone number is: (813) 975-7177.

The names and history of the Issuer's predecessors

The Issuer was first incorporated under the name "DP Charters" in Nevada on December 18, 1997. On April 18, 2002, the Issuer changed its name to "Nomadic Collaboration International, Inc."

Effective May 30, 2003, LGC Acquisition Company, a Delaware corporation and wholly owned subsidiary of Nomadic Collaboration International, Inc., a Nevada corporation, merged with and into LiquidGolf Corporation, a Delaware corporation, such that LiquidGolf Corporation was the surviving entity, and by virtue thereof, LiquidGolf Corporation became a wholly owned subsidiary of the Issuer.

On September 29, 2003, the Issuer completed a re-incorporation merger into a Delaware corporation thus changing the state of incorporation from Nevada to Delaware. As a result of the merger, the name of the Company changed to LiquidGolf Holding Corporation. Issuer's business operations at that time became the sale of golf equipment.

On August 12, 2004, the Issuer determined to change the name of the Issuer from LiquidGolf Holding Corporation to Horizon Holding Corporation to reflect the Issuer's business decision to diversify its business operations beyond the sale of golf equipment. As part of this effort, in January 2006, the Issuer purchased the Silent Sword TM software and all trademarks, service marks, and logos. On April 28, 2006 a majority of our stockholders of the Issuer approved changing the name of the Issuer from Horizon Holding Corporation to Inverted Paradigms Corporation to reflect the Issuer's business direction of developing the Silent Sword TM software.

Eventually, the Issuer was not successful in achieving commercially viable operations in the sale of golf equipment or in the sale software. The Issuer discontinued the sale of golf equipment in August of 2006 and the sale of software in July of 2007. On October 2, 2007, the Issuer entered into an agreement with GAMI, LLC for GAMI, LLC to purchase from the Issuer the Silent Sword TM software and thereafter consummated the sale.

In September of 2007 the Issuer determined to focus its business interests in researching, developing and commercializing innovative, leading-edge technologies. On September 7, 2007, Mr. Christoph Trina was hired to serve as the CEO of the Issuer in order to pursue the new business direction. The Issuer thereafter changed its name to Transfer Technology International Corp. before again changing the name to Enviro-Serv, Inc. on April 3, 2013.

The Business Plan

Due to insufficient progress in prior business operations as it relates to technology transfer, the Company has repositioned itself to specialize in providing property maintenance services in Florida. Through an aggressive acquisition strategy, the Company is seeking to build a portfolio of highly profitable enterprises that offer year round services such as pest control management, lawn and landscaping care, pool maintenance, air conditioning/refrigeration installation and repairs and a host of additional onsite maintenance offerings.

RISK FACTORS

You should carefully consider the risks described below together with all of the other information included in this Prospectus before making an investment decision with regard to our securities. The statements contained in or incorporated into this Prospectus that are not historic facts are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by forward-looking statements. If any of the following risks actually occurs, our business, financial condition or

results of operations could be harmed. In that case, the trading price of our common stock could decline, and you may lose all or part of your investment.

Risks Related to Our Business

We have limited operating history. Revenues from operations are uncertain and may not be able to be sustained.

We have a limited operating history. From inception we have minimal income. We have reported a net loss of \$139,735 from the date of inception through December 31, 2013. We expect to continue to incur minimal net income and marginally positive cash flow from operations in the near future, and we will continue to experience losses for at least as long as it takes our company to reach a sales level which will support profitable operations. There can be no assurance that we will achieve material revenues in the future. Should we achieve a level of revenues that make us profitable, there is no assurance that we can maintain or increase profitability levels in the future.

Our lack of any operating history makes it difficult for us to evaluate our future business prospects and make decisions based on those estimates of our future performance.

We do not have any material operating history, which makes it impossible to evaluate our business on the basis of historical operations. Our history as a company makes it difficult for us to predict future performance. Although this is true for any business, it is particularly true for us because of our limited operating history.

Mr. Trina and Dr. Shultz are key personnel. Loss of either of them could adversely affect our business.

If either Mr. Trina or Dr. Shultz were to die, become disabled, or leave our company, we would be forced to retain individuals to replace them. There is no assurance that we can find suitable persons to replace them if that becomes necessary. We have no “Key Man” life insurance at this time. Mr. Trina is a party to an Employment Agreement made as of April 1, 2013, a copy of which is attached hereto as Exhibit 4.

Mr. Trina has voting control over the Company

Mr. Trina has control over key decision making as a result of his ownership of a majority of the common stock (after giving consideration to the conversion rights on the Series A Convertible Stock). Mr. Trina will be able to exercise voting rights with respect to an aggregate of shares of common stock, representing a majority of the voting power of our outstanding capital stock. As a result, Mr. Trina has the ability to control the outcome of matters submitted to our stockholders for approval, including the election of directors and any merger, consolidation, or sale of all or substantially all of our assets. In addition, Mr. Trina has the ability to control the management and affairs of our company as a result of his position as our CEO and his ability to control the election of our directors. Additionally, in the event that Mr. Trina controls our company at the time of his death, control may be transferred to a person or entity that he designates as his successor. As a board member and officer, Mr. Trina owes a fiduciary duty to our stockholders and must act in good faith in a manner he reasonably believes to be in the best interests of our stockholders. As a stockholder, even a controlling stockholder, Mr. Trina is entitled to vote his

shares in his own interests, which may not always be in the interests of our stockholders generally.

We are subject to intense competition

We face intense competition, which could harm our business, and we expect competition to intensify in the future. If we fail to remain competitive, then our revenues may decline, which could adversely affect our future operating results and our ability to grow our business. We compete with large pest control companies, as well as numerous smaller pest control companies for a finite number of customers. We believe that the principal competitive factors in the market areas that we serve are product and service quality and availability, terms of guarantees, reputation for safety, technical proficiency and price. Although we believe that our experience and reputation for safety and quality service is excellent, we cannot assure that we will be able to maintain our competitive position.

Demand for our services cannot be predicted

While we believe that there is considerable potential demand for our services, there is no way to estimate the amount of demand or the potential revenue that we can realize in any given time period. Likewise, we cannot estimate how quickly or efficiently demand will result in any particular level of revenue or income for us. In addition, we have noted that much of our demand stems from termite swarms that occur at various times in April or May of each year. Demand for our services is directly related to the size of the swarms, which vary from year to year. We cannot predict the size of swarms in any year in the future.

We may not be able to identify, complete or successfully integrate acquisitions

Acquisitions will be an important element of our business strategy. We cannot assure that we will be able to identify and acquire acceptable acquisition candidates on terms favorable to us in the future. We cannot assure that we will be able to integrate successfully the operations and assets of any acquired business with our own business. Any inability on our part to integrate and manage the growth from acquired businesses could have a material adverse effect on our results of operations and financial condition.

Our operations are affected by adverse weather conditions

Our operations are directly affected by the weather conditions in our market area. The business of the Company is affected by the seasonal nature of the Company's pest and termite control services. The increase in pest pressure and activity, as well as the metamorphosis of termites in the spring and summer (the occurrence of which is determined by the timing of the change in seasons), has historically resulted in an increase in the revenue and income of the Company's pest and termite control operations during such periods.

Our inability to attract and retain skilled workers may impair growth potential and profitability

Our ability to remain productive and profitable will depend substantially on our ability to attract and retain skilled workers. Our ability to expand our operations is in part impacted by our ability to increase our labor force. The demand for skilled employees is high, and the supply is very limited. A significant increase in the wages paid by competing employers could result in a

reduction in our skilled labor force, increases in the wage rates paid by us, or both. If either of these events occurred, our capacity and profitability could be diminished, and our growth potential could be impaired.

Our operations may be adversely affected if we are unable to comply with regulatory and environmental laws

Our business is significantly affected by environmental laws and other regulations relating to the pest control industry and by changes in such laws and the level of enforcement of such laws. We are unable to predict the level of enforcement of existing laws and regulations, how such laws and regulations may be interpreted by enforcement agencies or court rulings, or whether additional laws and regulations will be adopted. We believe our present operations substantially comply with applicable federal and state environmental laws and regulations. We also believe that compliance with such laws has had no material adverse effect on our operations to date. However, such environmental laws are changed frequently. We are unable to predict whether environmental laws will, in the future, materially affect our operations and financial condition. Penalties for noncompliance with these laws may include cancellation of licenses, fines, and other corrective actions, which would negatively affect our future financial results.

Risks Related to Our Common Stock

We may conduct further offerings in the future in which case investors' shareholdings will be diluted.

Since our inception, we have relied on sales of our common stock to fund our operations. We may conduct further equity offerings in the future to finance our current projects or to finance subsequent projects that we decide to undertake. If common stock is issued in return for additional funds, the price per share could be lower than that paid by our current stockholders. We anticipate continuing to rely on equity sales of our common stock in order to fund our business operations. If we issue additional stock, investors' percentage interests in us will be diluted. The result of this could reduce the value of current investors' stock.

We are subject to penny stock regulations and restrictions and you may have difficulty selling shares of our common stock.

Our common stock is subject to the provisions of Section 15(g) and Rule 15g-9 of the Securities Exchange Act of 1934 (the "Exchange Act"), commonly referred to as the "penny stock rule." Section 15(g) sets forth certain requirements for transactions in penny stock, and Rule 15g-9(d) incorporates the definition of "penny stock" that is found in Rule 3a51-1 of the Exchange Act. The SEC generally defines a penny stock to be any equity security that has a market price less than \$5.00 per share, subject to certain exceptions. We are subject to the SEC's penny stock rules.

Since our common stock is deemed to be penny stock, trading in the shares of our common stock is subject to additional sales practice requirements on broker-dealers who sell penny stock to persons other than established customers and accredited investors. "Accredited investors" are persons with assets in excess of \$1,000,000 (excluding the value of such person's primary residence) or annual income exceeding \$200,000 or \$300,000 together with their spouse. For transactions covered by these rules, broker-dealers must make a special suitability determination

for the purchase of such security and must have the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt the rules require the delivery, prior to the first transaction of a risk disclosure document, prepared by the SEC, relating to the penny stock market. A broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative and current quotations for the securities. Finally, monthly statements must be sent disclosing recent price information for the penny stocks held in an account and information to the limited market in penny stocks. Consequently, these rules may restrict the ability of broker-dealer to trade and/or maintain a market in our common stock and may affect the ability of our stockholders to sell their shares of common stock.

There can be no assurance that our shares of common stock will qualify for exemption from the Penny Stock Rule. In any event, even if our common stock was exempt from the Penny Stock Rule, we would remain subject to Section 15(b)(6) of the Exchange Act, which gives the SEC the authority to restrict any person from participating in a distribution of penny stock if the SEC finds that such a restriction would be in the public interest.

We do not expect to pay dividends in the foreseeable future.

We do not intend to declare dividends for the foreseeable future, as we anticipate that we will reinvest any future earnings in the development and growth of our business. Therefore, our stockholders will not receive any funds unless they sell their common stock, and stockholders may be unable to sell their shares on favorable terms or at all.

Our common stock is subject to price volatility unrelated to our operations.

The market price of our common stock could fluctuate substantially due to a variety of factors, including market perception of our ability to achieve our planned growth, quarterly operating results of other companies in the same industry, trading volume in our common stock, changes in general conditions in the economy and the financial markets or other developments affecting our competitors or ourselves. In addition, the OTC PINK is subject to extreme price and volume fluctuations in general. This volatility has had a significant effect on the market price of securities issued by many companies for reasons unrelated to their operating performance and could have the same effect on our common stock.

Trading in our common stock on the OTC Pink Sheets is limited and sporadic making it difficult for our shareholders to sell their shares or liquidate their investments.

Our common stock is currently listed for public trading on the OTC Pink Sheets under the ticker symbol, EVSV. The trading price of our common stock has been subject to wide fluctuations. Trading prices of our common stock may fluctuate in response to a number of factors, many of which will be beyond our control. The stock market has generally experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies with no current business operation. There can be no assurance that trading prices and price earnings ratios previously experienced by our common stock will be matched or maintained. These broad market and industry factors may adversely affect the market price of our common stock, regardless of our operating performance. In the past, following periods of volatility in the market price of a company's securities, securities class-action

litigation has often been instituted. Such litigation, if instituted, could result in substantial costs for us and a diversion of management's attention and resources.

Need for additional capital

In order to pursue our strategy of growth by acquisition, we may need to raise additional capital through the sale of our stock, or other securities, including debt instruments. Any future sale of our stock has the potential to dilute current stockholders. Additionally, there can be no guarantee that any future offerings of securities will be sufficient to raise the capital needed by the Company for its expansion plans. Failure to raise the capital that may be required may substantially impact the growth plans for the business, and the ability of the Company to achieve or continue profitable operations.

DILUTION

Dilution is the amount by which the offering price paid by the purchasers of the Shares of Common Stock sold in this Offering will exceed the net tangible book value per share of Common Stock after the Offering. If you invest in Common Stock, your shares will be diluted to the extent of the difference between the offering price per share of the Share, and the pro forma net tangible book value per share of our Common Stock after the Offering.

Our pro forma net tangible book value as of September 30, 2014, was \$(702,250), or \$(0.000574) per share of our Common Stock. We calculate net tangible book value per share by calculating our total tangible assets less liabilities and dividing it by the number of outstanding shares (1,221,718,800) of our Common Stock.

After giving effect to the sale of 3,409,090,905 Shares of our Common Stock in this offering at a price of \$0.00025 and after deducting estimated offering expenses of \$15,000, payable by us, our net tangible book value, which we refer to as our pro forma net tangible book value, as of September 30, 2014, would have been approximately \$135,023 or \$0.00003 per share of our Common Stock.

This amount represents an immediate increase of our pro forma net tangible book value of \$837,273 to our existing stockholders, and an immediate dilution in our pro forma net tangible book value of \$0.00019 per Share to new investors purchasing the Shares of our Common Stock at the offering price. We calculate dilution per share to new investors by subtracting the pro forma net tangible book value per share from the offering price paid by the new investor.

The dilution associated with the offering is as follows:

	Offering	852,272,726 shares issued	1,704,545,452 shares issued	3,409,090,905 shares issued
Offering price	\$ 0.00025	\$ 0.00025	\$ 0.00025	\$ 0.00025
Net Tangible Book Value Before Offering (per share)	\$ (0.00574)	\$ (0.00574)	\$ (0.00574)	\$ (0.00574)
Net Tangible Book Value After Offering (per share)	\$ 0.00003	\$ (0.00024)	\$ (0.00009)	\$0.00003

Dilution per share to Investors	\$ 0.00019	\$ 0.00047	\$ 0.00034	\$ 0.00019
Dilution percentage to Investors	86.36%	188.00%	136.00%	86.36%

USE OF PROCEEDS

We estimate that the net proceeds from the sale of 3,409,090,905 Shares of our Common Stock in this Offering at an offering price of \$0.00025 will be \$852,272.72 before deducting our estimated offering expenses of approximately \$15,000.

Assuming \$852,000 is raised in this offering, a portion of the proceeds will be allocated to the Company's subsidiary X-Terminate Pest Management, and the remaining proceeds will be used by the Company and will be as follows:

<u>Description</u>	<u>Amount</u>
Trucks and Equipment Purchases – X-Terminate	\$15,000

Key Personnel – Hiring – X-Terminate	\$20,000

In the event that any net proceeds are not immediately applied, we may temporarily hold them as cash, deposit them in banks or invest them in cash equivalents or securities.

In the event that less than the \$852,000 provided for in this offering is raised, the priority of the Company is to apply the proceeds to wholly owned subsidiary X-Terminate Inc. advertising and marketing and General working capital issuer. Thereafter, we will apply the proceeds to the objectives identified above, on a pro-rata basis.

We declared a stock dividend on July 28 and on September 16, 2014, however, future dividends are not anticipated, at this time. We do not anticipate that we will declare or pay regular dividends on our Common Stock in the foreseeable future, as we generally intend to invest any future earnings in the development and growth of our business. Future dividends, if any, will be at the discretion of our Board of Directors and will depend on many factors, including general economic and business conditions, our strategic plans, our financial results and conditions, legal requirements, and contractual obligations or limitations and other factors that our Board of Directors deems relevant.

DESCRIPTION OF BUSINESS

Overview

Research has proven that approximately 75% of property service/maintenance companies employ fewer than 5 people. This business model is one that indicates that in fact most small service companies are managed by highly trained technicians. Although these companies may be smaller in size than their national counterparts, they are usually running profitable, well run companies and they are enjoying higher than average margins in their respective business models. This market place is often in need of capital for expansion, business consulting, exit strategies and business valuation needs in the event of merger and/or acquisitions. This creates an opportunity for a publicly traded company such as Enviro-Serv Inc. to utilize stock, cash or stock/cash hybrid to partner with such entities and to put them under our corporate umbrella. With our high quality management team and experience it is Enviro-Serv's strategy is to achieve growth by creating synergy through acquisition of private companies that are highly profitable in their space.

The following is a description of the scope of our services:

Date and State of Incorporation:

The Issuer was first incorporated under the name "DP Charters" in Nevada on December 18, 1997. On April 18, 2002, the Issuer changed its name to "Nomadic Collaboration International, Inc."

Effective May 30, 2003, LGC Acquisition Company, a Delaware corporation and wholly owned subsidiary of Nomadic Collaboration International, Inc., a Nevada corporation, merged with and into LiquidGolf Corporation, a Delaware corporation, such that LiquidGolf Corporation was the surviving entity, and by virtue thereof, LiquidGolf Corporation became a wholly owned subsidiary of the Issuer.

On September 29, 2003, the Issuer completed a re-incorporation merger into a Delaware corporation thus changing the state of incorporation from Nevada to Delaware. As a result of the

merger, the name of the Company changed to LiquidGolf Holding Corporation. Issuer's business operations at that time became the sale of golf equipment.

On August 12, 2004, the Issuer determined to change the name of the Issuer from LiquidGolf Holding Corporation to Horizon Holding Corporation to reflect the Issuer's business decision to diversify its business operations beyond the sale of golf equipment. As part of this effort, in January 2006, the Issuer purchased the Silent Sword TM software and all trademarks, service marks, and logos. On April 28, 2006 a majority of our stockholders of the Issuer approved changing the name of the Issuer from Horizon Holding Corporation to Inverted Paradigms Corporation to reflect the Issuer's business direction of developing the Silent Sword TM software.

Eventually the Issuer was not successful in achieving commercially viable operations in the sale of golf equipment or in the sale software. The Issuer discontinued the sale of golf equipment in August of 2006 and the sale of software in July of 2007. On October 2, 2007, the Issuer entered into an agreement with GAMI, LLC for GAMI, LLC to purchase from the Issuer the Silent Sword TM software and thereafter consummated the sale.

In September of 2007 the Issuer determined to focus its business interests in researching, developing and commercializing innovative, leading-edge technologies. On September 7, 2007, Mr. Christoph Trina was hired to serve as the CEO of the Issuer in order to pursue the new business direction. The Issuer thereafter changed its name to Transfer Technology International Corp. before again changing the name to Enviro-Serv, Inc. on April 3, 2013.

Issuers Fiscal Year End Date:

The Issuer's fiscal year end is December 31.

Governmental Regulation

Our business is regulated by the government in two ways. The Department of Agriculture and Consumer Services for the State of Florida licenses pest control companies operating within the state. We have a current license, and remain in good standing with the Department of Agriculture and Consumer Services. Additionally, the manner in which we use the chemicals and the availability of the chemicals used in our business are regulated by the US Environmental Protection Agency. We do not anticipate any new regulations that would have any material effect on our business as currently conducted or as proposed to be conducted. We do not anticipate having any material expenses relating to compliance with governmental regulations in the future.

Intellectual Property

We do not own any patents or trademarks.

Description of Property:

We currently rent office space located at 8875 Hidden River Parkway #30, Tampa, FL 33637. At this time the Company feels that its growth warrants additional office space for its wholly-owned subsidiary, X-Terminate Pest Management Inc., a Florida corporation. Accordingly, part

of the anticipated use of proceeds will be devoted to obtaining additional office space for the said subsidiary.

Description of the Business:

Enviro-Serv targets highly profitable small service companies in the commercial and residential property maintenance industry. Through leveraged investments, joint ventures and acquisitions, Enviro-Serv is building a portfolio of property maintenance service companies that are geographically concentrated in Florida. These companies provide year round services including, but not limited to the following specialty areas: pest management, lawn and ornamental care, pool maintenance, air conditioning/refrigeration, and commercial sprinkler systems in addition to a host of additional onsite maintenance offerings. These Florida companies create an ongoing cash flow thru maintenance contracts with small to medium size companies. A few examples of our target clientele for maintenance contracts are as follows: convenience store chains, office buildings, hospitals and medical complexes, professional office complexes, apartment complexes, condo complexes, to name a few. Thru the ongoing marketing of services in the sectors mentioned, Enviro-Serv plans to expand its contracted maintenance base while maintaining a high quality customer service experience. This strategy will enable Enviro-Serv to build a highly visible brand in this profitable service sector and become synonymous with high quality service. At the time of this filing Enviro-Serv currently has only one wholly owned subsidiary, X-Terminate Inc. Pest Management a full service pest control service based in St. Petersburg Florida.

Post-offering qualification 12 month business plan of operation:

Enviro-Serv, Inc. has a very strict business plan goals with the proceeds of this offering. We will use proceeds of this offering to purchase or lease a new HQ facility for X-Terminate Inc. and to purchase new updated and upgraded equipment to enhance our business expansion strategy which allows us to move into highly profitable areas of Tampa Bay not yet being optimized. It's our strategy to move X-Terminate from St. Petersburg to South or North Tampa depending on real estate purchase/leasing opportunities that may exist. We anticipate this HQ move and equipment purchase to occur shortly following the qualification of the current offering. July 28th 2014, we announced the signing of a confidentiality agreement with a proposed air conditioning company target. Subsequently, a non-binding Letter of Intent indicating our preliminary interest to acquire the target was signed on August 17, 2014, requiring at least \$500,000 to finalize the proposed transaction. Full due-diligence on the target is still underway and we have not yet entered into any definitive agreement for the acquisition. Also, on September 25, 2014, we signed a non-binding Letter of Intent indicating our preliminary interest to acquire an additional pest operation in Ft. Myers, Florida for which full due-diligence is still underway and no definitive agreement has been entered into for the transaction.

In the opinion of the Company the proceeds of the offering are sufficient to meet the foreseeable cash needs of the Company for at least the next six months.

MARKET FOR AND DIVIDENDS ON OUR COMMON STOCK AND RELATED STOCKHOLDER MATTERS.

Market Information

The principal market for shares of the Company's Common Stock is the OTC Markets Group. OTC Markets Group is not an exchange or an automated quotation system operated by a registered securities system.

As of November 10, 2014, an aggregate of 1,244,990,400, shares of our common stock were issued and outstanding and were owned by approximately 995 holders of record, based on information provided by our transfer agent.

Penny Stock Considerations

Our shares are "penny stocks", which term is generally defined under the Securities Exchange Act of 1934 to mean equity securities with a price of less than \$5.00. Our shares are thus subject to rules that impose sales practice and disclosure requirements on broker-dealers who engage in certain transactions involving a penny stock, such as shares of our Common Stock.

Under the penny stock regulations, a broker-dealer selling a penny stock to anyone other than an established customer or accredited investor must make a special suitability determination regarding the purchaser and must receive the purchaser's written consent to the transaction prior to the sale, unless the broker-dealer is otherwise exempt. Generally, an individual with a net worth in excess of \$1,000,000, or annual income exceeding \$200,000 individually or \$300,000 together with his or her spouse, is considered an accredited investor. In addition, under the penny stock regulations the broker-dealer is required to:

- Deliver, prior to any transaction involving a penny stock, a disclosure schedule in the form prescribed by the Securities and Exchange Commission relating to the penny stock market, unless the broker-dealer or the transaction is otherwise exempt;
- Disclose the commissions payable to the broker-dealer and its registered representatives and the current bid and offer quotations for the securities;
- Send monthly statements disclosing recent price information pertaining to the penny stock held in a customer's account, the account's value and information regarding the limited market in penny stocks; and
- Make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction, prior to conducting any penny stock transaction in the customer's account.

Because of these regulations, broker-dealers may encounter difficulties in their attempts to sell shares of our common stock, which may affect the ability of stockholders to sell their shares in the secondary market and have the effect of reducing the level of trading activity in the secondary market. These additional sales practice and disclosure requirements may impede the sale of shares of our Common Stock. In addition, these rules mean that the liquidity of our shares may be adversely affected, with a corresponding decrease in the available price of our shares.

Dividends

We do not anticipate that we will declare or pay regular dividends on our Common Stock in the foreseeable future. To the extent we have any income, we intend to reinvest it in the business. The decision to pay a dividend on the Common Stock and if so, when and in what amount will be made by the Board of Directors.

Enviro-Serv, Inc.
Notes Related to
Condensed Consolidated Financial Statements
September 30, 2014

Item 1. Business

Enviro-Serv, Inc. (the “Company”) is a Delaware Corporation seeking to build a portfolio of highly profitable enterprises that offer year round services such as pest control management, lawn and gardening care, pool maintenance, air conditioning/refrigeration installation and repairs and a host of additional onsite maintenance offerings.

The principal methods of competition in the Company’s pest and termite control business are quality of service and guarantees, including service quality, product availability, terms of guarantees, and reputation for safety, technical proficiency and price.

The Company’s pest control business is subject to various legislative and regulatory enactments that are designed to protect the environment, public health and consumers. Compliance with these requirements has not had a material negative impact on the Company’s financial position, results of operations or liquidity.

The federal law grants to the states the responsibility to be the primary agent in the enforcement and conditions under which pest control companies operate. Each state must meet certain guidelines of the Environmental protection Agency in regulating the following: licensing, record keeping, contracts, standards of application, training and registration of products. Each state has their regulatory programs to handle the special interests of citizens within their state. The pest control industry is impacted by these federal and state agencies.

Item 2. Risk Factors

The Company operates in a highly competitive industry. The Company’s revenues and earnings may be affected by changes in competitors’ prices, and general economic issues. The Company competes with other large and small pest control companies for a finite number of customers. Although the Company believes that their experience and reputation for safety and quality service is excellent, they cannot assure investors that we will be able to maintain our competitive advantage.

Pest and termite services represent discretionary expenditures of our residential customers. If consumers restrict their discretionary spending, the Company may suffer a decline in revenues. Acquisitions have been and will continue to be an important element of the Company’s business strategy. The Company cannot assure investors that future acquisition candidates will be identified and acquired on favorable terms to the Company. The Company cannot assure investors that the Company will be able to successfully integrate the operations and assets of acquired businesses with their own business. The inability to integrate and manage acquired businesses could have an adverse effect on the results of operations and financial condition of the Company.

The Company's ability to remain productive and profitable will depend on the ability to attract and retain skilled workers. Either the need to pay higher wages or the shortage of skilled employees could reduce the Company's capacity for growth or profitability could be reduced.

The Company is significantly affected by environmental laws and regulations within the pest control industry. Management believes that present operations are in substantial compliance with such laws and have had no material adverse effect on operations to date. Such laws could be changed and the Company is unable to predict if changes could affect operations and financial condition of the Company.

Item 3. Financial Statement Note Information

These financial statements and schedules are the responsibility of the Company's management. Management has prepared the statements in conformity with U.S. generally accepted accounting principles and when taken as a whole, presents fairly, in all material respects, the information set forth therein.

To better reflect the current financial condition of new entity Enviro-Serv Inc. the company has elected to eliminate the shares issued and the cost of these past issued shares to previous corporate charters over the past 16 years in the amount of \$47,297,946. The cost of these shares and the additional paid in capital was applied against the retained (deficit) accumulated in prior years.

Various notes are in default and continue to accrue interest. The Company has not been able to make payments due to lack of funding. The Company has two default judgments in the amount of \$88,989.80 and \$50,000.00. To date, to the knowledge of the Company, no legal action has been taken to enforce these judgments. In addition, in February, 2009, the Company was contacted by three investors requesting the Company buy back their investments on a best efforts basis. The Company agreed to attempt to do so. The combined investment price was \$235,000 and was to be paid by the Company over time on monthly payments. The Company was only able to make the first two payments. There was no legal action then or now against the company in this agreement. The company's current position is that it no longer will accrue this liability and has removed this \$235,000 liability.

Critical Accounting Policies

The Company views critical accounting policies to be those policies that are very important to the portrayal of our Company's financial position and results of operations that require management's most difficult, complex or subjective judgments. These policies relate to the need for management to make estimates about the effect of matters that are inherently uncertain. The critical accounting policies are as follows:

Accrual for Termite Contracts:

The Company has no accrual for the estimated costs for reapplications, repairs, labor and chemicals and other costs related to termite control applications. Services to date have been limited and management expects losses to be immaterial at this point.

Revenue Recognition:

The Company recognizes revenue at the time the service is performed and paid for.

Depreciation and amortization:

Assets are depreciated or amortized on the straight line basis over the useful life of the asset.

Forward-Looking Statements

Management believes that environmental remediation costs estimated to be incurred are not material to the Company's financial condition or operating results; the Company has no litigation

that will have an adverse effect on the Company's financial condition, results of operations or liquidity; the Company has adequate resources and borrowings to fund operations and obligations; the impact and amount of the Company's obligations; management's expectations regarding future claims; the expected collectability of billings; expected tax consequences; and the impact of future regulations and accounting pronouncements.

Results of Operations

The actual results of the Company could differ materially from those indicated by the forward-looking statements because of various risks; timing and uncertainties including, without limitation, the possibility of an adverse ruling against the Company for any litigation; general economic conditions; market risk, changes in industry practices or technologies; the degree of success of the Company's termite process reforms and pest control selling and treatment methods; the inability to identify future acquisitions; climate and weather trends; competitive pricing and pricing practices; potential increases in labor costs; and changes in various laws and regulations, including environmental regulations. All of the foregoing risks and uncertainties are beyond the ability of the Company to control, and in many cases the Company cannot predict the risks and uncertainties that could cause its actual results to differ materially from those indicated.

No asset impairment charges were recorded for this period. Management's evaluation of the assets related to the goodwill of the Company are properly stated based upon comparison of the value of these assets in comparison to similar publicly traded companies.

Notes Related to Business Practices
Condensed Consolidated Financial Statements

Item 1. Business

Enviro-Serv, Inc. (the “Company”) is a Delaware Corporation seeking to build a portfolio of highly profitable enterprises that offer year round services such as pest control management, lawn and gardening care, pool maintenance, air conditioning/refrigeration installation and repairs and a host of additional onsite maintenance offerings. To date Enviro-Serv, Inc. has one wholly owned subsidiary, X-Terminate Pest Management Inc. a fully licensed pest control Florida Corporation in good standing both with SUNBIZ.ORG and the Department of Agricultural and Consumer Services. The websites of both companies are WWW.ENVIRO-SERV.COM AND WWW.XTERMINATEINC.COM

The principal methods of competition in the Company’s pest and termite control business are quality of service and guarantees, including service quality, product availability, and terms of guarantees, and reputation for safety, technical proficiency and price.

The Company’s pest control business is subject to various legislative and regulatory enactments that are designed to protect the environment, public health and consumers. Compliance with these requirements has not had a material negative impact on the Company’s financial position, results of operations or liquidity.

The federal law grants to the states the responsibility to be the primary agent in the enforcement and conditions under which pest control companies operate. Each state must meet certain guidelines of the Environmental protection Agency in regulating the following: licensing, record keeping, contracts, standards of application, training and registration of products. Each state has their regulatory programs to handle the special interests of citizens within their state. The pest control industry is impacted by these federal and state agencies.

Item 2. Risk Factors

The Company operates in a highly competitive industry. The Company’s revenues and earnings may be affected by changes in competitors’ prices, and general economic issues. The Company competes with other large and small pest control companies for a finite number of customers. Although the Company believes that their experience and reputation for safety and quality service is excellent, they cannot assure investors that we will be able to maintain our competitive advantage.

Pest and termite services represent discretionary expenditures of our residential customers. If consumers restrict their discretionary spending, the Company may suffer a decline in revenues. Acquisitions have been and will continue to be an important element of the Company’s business strategy. The Company cannot assure investors that future acquisition candidates will be identified and acquired on favorable terms to the Company. The Company cannot assure investors that the Company will be able to successfully integrate the operations and assets of acquired businesses with their own business. The inability to integrate and manage acquired businesses could have an adverse effect on the results of operations and financial condition of the Company.

The Company's ability to remain productive and profitable will depend on the ability to attract and retain skilled workers. Either the need to pay higher wages or the shortage of skilled employees could reduce the Company's capacity for growth or profitability could be reduced.

The Company is significantly affected by environmental laws and regulations within the pest control industry. Management believes that present operations are in substantial compliance with such laws and have had no material adverse effect on operations to date. Such laws could be changed and the Company is unable to predict if changes could affect operations and financial condition of the Company.

Item 3. Financial Statement Note Information

These financial statements and schedules are the responsibility of the Company's management. Management has prepared the statements in conformity with U.S. generally accepted accounting principles and when taken as a whole, presents fairly, in all material respects, the information set forth therein.

To better reflect the current financial condition of new entity Enviro-Serv Inc. the company has elected to eliminate the shares issued and the cost of these past issued shares to previous corporate charters over the past 16 years in the amount of \$47,297,946. The cost of these shares and the additional paid in capital was applied against the retained (deficit) accumulated in prior years.

Various notes are in default and continue to accrue interest. The Company has not been able to make payments due to lack of funding. The Company has two default judgments in the amount of \$88,989.80 and \$50,000.00. To date, to the knowledge of the Company, no legal action has been taken to enforce these judgments. In addition, in February, 2009, the Company was contacted by three investors requesting the Company buy back their investments on a best efforts basis. The Company agreed to attempt to do so. The combined investment price was \$235,000 and was to be paid by the Company over time on monthly payments. The Company was only able to make the first two payments. There was no legal action then or now against the company in this agreement. The company's current position is that it no longer will accrue this liability and has removed this \$235,000 liability.

On May 8th, 2014 Trina was issued 996,000 Preferred A class shares and Shultz was issued 224,000 pursuant to the resolution.

This note has been collateralized with a large portion of Chris Trina's personal stock holdings. Additionally the company has amended its article of incorporation in Delaware to reflect an increase in authorized common shares to 2,950,000,000 from previous 950,000,000.

Critical Accounting Policies

The Company views critical accounting policies to be those policies that are very important to the portrayal of our Company's financial position and results of operations that require management's most difficult, complex or subjective judgments. These policies relate to the need for management to make estimates about the effect of matters that are inherently uncertain. The critical accounting policies are as follows:

Accrual for Termite Contracts:

The Company has no accrual for the estimated costs for reapplications, repairs, labor and chemicals and other costs related to termite control applications. Services to date have been limited and management expects losses to be immaterial at this point.

Revenue Recognition:

The Company recognizes revenue at the time the service is performed and paid for.

Depreciation and amortization:

Assets are depreciated or amortized on the straight line basis over the useful life of the asset.

Forward-Looking Statements

Management believes that environmental remediation costs estimated to be incurred are not material to the Company's financial condition or operating results; the Company has no litigation that will have an adverse effect on the Company's financial condition, results of operations or liquidity; the Company has adequate resources and borrowings to fund operations and obligations; the impact and amount of the Company's obligations; management's expectations regarding future claims; the expected collectability of billings; expected tax consequences; and the impact of future regulations and accounting pronouncements.

Results of Operations

The actual results of the Company could differ materially from those indicated by the forward-looking statements because of various risks; timing and uncertainties including, without limitation, the possibility of an adverse ruling against the Company for any litigation; general economic conditions; market risk, changes in industry practices or technologies; the degree of success of the Company's termite process reforms and pest control selling and treatment methods; the inability to identify future acquisitions; climate and weather trends; competitive pricing and pricing practices; potential increases in labor costs; and changes in various laws and regulations, including environmental regulations. All of the foregoing risks and uncertainties are beyond the ability of the Company to control, and in many cases the Company cannot predict the risks and uncertainties that could cause its actual results to differ materially from those indicated.

No asset impairment charges were recorded for this period. Management's evaluation of the assets related to the goodwill of the Company are properly stated based upon comparison of the value of these assets in comparison to similar publicly traded companies.

Item 1. Business

Transfer Technology International Corp. (the “Company”) was a Delaware Corporation seeking new technology. In November 2009, The Company formed a new subsidiary called Xterminate, Inc., a Florida corporation, which launched their eco-friendly termite control business. The Company applies oil for termite control purposes.

As of the end of 2011, the Company began their focus on building a service business focused on pest control.

In the first quarter of 2013, the Board of Directors approved a resolution to amend the name of the Corporation from Transfer Technology International Corp. to Enviro-Serv, Inc. The Company applied for a stock symbol change from TTIN to EVSV which was subsequently approved.

Item 2. Risk Factors

The Company had incurred substantial losses through the year ended December 31, 2011. Management had been able to finance the losses through a series of private placements and convertible notes payable. The Company continued to seek other sources of financing and alternative ways of generating revenues through partnerships with other businesses.

In view of these conditions, the Company’s ability to continue as a going concern is dependent upon its ability to obtain additional financing or capital sources, to meet its financing requirements, and ultimately to achieve profitable operations. Management believes that its current and future plans to raise capital provides an opportunity to continue as a going concern.

Capital Structure Changes
