To the Dealers appointed
from time to time pursuant to a
Terms Agreement or Appointment Agreement
under the Global Debt Program of the
Inter-American Development Bank

Ladies and Gentlemen:

I have participated in the proceedings of the Inter-American Development Bank (the "Bank") to establish the Global Debt Program of the Bank, as it may be amended, restated, or superseded from time to time (the "Program"), and to authorize the issue and sale of Notes thereunder (the "Notes") with reference to a Prospectus dated January 8, 2001 (the "Prospectus"). In connection with such proceedings, I have examined, among other documents, the following:

- 1) The Agreement Establishing the Inter-American Development Bank (the "Bank Agreement") and the By-Laws of the Bank;
- 2) The Global Borrowing Authorization, Resolution DE-18/13, authorizing the issuance and sale of the Notes;
- 3) The Prospectus;
- 4) The Standard Provisions, dated as of January 8, 2001 (the "Standard Provisions");
- 5) The Global Agency Agreement, dated January 8, 2001, as amended, among the Bank, Kredietbank S.A. Luxembourgeoise, and Citibank, N.A. (the "Global Agency Agreement"); and
- 6) The Uniform Fiscal Agency Agreement, dated as of July 20, 2006, as amended, between the Bank and the Federal Reserve Bank of New York (the "FRBNY Fiscal Agency Agreement").

Pursuant to Section 5(e)(ii) of the Standard Provisions, I am of the opinion that:

- a) The Bank is an international organization duly established and existing under the Bank Agreement;

- b) The Bank has obtained all governmental approvals required pursuant to the Bank Agreement in connection with the offering, issue and sale of the Notes;
- c) The creation, issue, sale and delivery of the Notes, and the execution of any Notes in definitive form, have been duly authorized, and when duly issued and delivered, and in the case of Notes in definitive form, duly executed, authenticated, issued and delivered, the Notes will constitute valid and legally binding obligations of the Bank in accordance with their terms;
- d) Any applicable Terms Agreement or Appointment Agreement, as the case may be, as of its date, will be duly authorized, executed and delivered by the Bank;
- e) Each of the Global Agency Agreement, and the FRBNY Fiscal Agency Agreement has been duly authorized, executed and delivered by the Bank and constitutes a valid and legally binding obligation of the Bank;
- f) Under existing law, it is not necessary in connection with the public offering and sale of the Notes to register the Notes under the U.S. Securities Act of 1933, as amended, or to qualify an indenture with respect thereto under the U.S. Trust Indenture Act of 1939, as amended.

While I assume no responsibility with respect to the statements in the Prospectus, nothing has come to my attention which has caused me to believe that the Prospectus, as of its date and as of the date hereof, and excluding the financial statements or other financial data, contains any untrue statement of a material fact or omits to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

This letter does not relate to the financial statements or other financial data contained in the Prospectus.

In rendering the foregoing opinion, I have relied, with respect to matters of New York law, upon the opinion of Sullivan & Cromwell LLP and, with respect to matters of English law, upon the opinion of Linklaters LLP, each delivered on this date in accordance with the Standard Provisions. Also, I have assumed that signatures on all documents examined by me are genuine.

This letter is furnished by me as Chief Counsel of the Bank to Dealers appointed from time to time under the Program and is solely for their benefit.

- For the purposes of the calculation of the Interest Amount payable for any Interest Period, there shall be no adjustment pursuant

to the Business Day Convention specified above.

(e) Fixed Rate Day Count Fraction(s): Actual/Actual (ICMA)

(f) Calculation of Interest Amount: As soon as practicable and in accordance with the procedure specified herein, the Calculation Agent will determine the IDR Rate (as defined below) and calculate the amount of interest payable (the “Interest Amount”) with respect to each minimum Authorized Denomination for the relevant Interest Period.

The Interest Amount with respect to any Interest Period shall be a USD amount calculated on the relevant Rate Fixing Date (as defined below) as follows:

7.20% *times* the minimum Authorized Denomination

times

the Fixed Rate Day Count Fraction

divided by

the IDR Rate

(and rounding, if necessary, the entire resulting figure to the nearest two decimal places, with USD 0.005 being rounded upwards).

The “IDR Rate” means the rate determined by the Calculation Agent that is equal to the IDR/USD weighted average spot rate in the interbank market, based on traded IDR/USD spot foreign exchange transactions during a specified time period which are captured on a real time basis, expressed as the amount of IDR per one USD, for settlement in two Business Days, as published by Bank Indonesia as the “Jakarta Interbank Spot Dollar Rate USD – IDR”, which appears on Bank Indonesia’s website (www.bi.go.id), or

as published on Thomson Reuters Screen JISDOR Page, or as otherwise made available by Bank Indonesia (or its successor as administrator), at approximately 10:00 a.m., Jakarta time, on the Rate Fixing Date. Fallback Provisions apply as set out below.

The “Rate Fixing Date” means the date that is five (5) Fixing Business Days prior to the applicable Fixed Rate Interest Payment Date or Maturity Date, as the case may be, *provided, however*, that if a Price Source Disruption Event (as defined below) occurs or otherwise subsists on such day, the Rate Fixing Date shall be the earlier of (i) the Business Day on which the Bank is notified by the Calculation Agent that a Price Source Disruption Event no longer subsists and (ii) the date that is ten (10) Business Days after such day.

“Fixing Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Jakarta.

“Fallback Provisions”: Should no IDR/USD weighted average spot rate appear on Bank Indonesia’s website (www.bi.go.id) as the “Jakarta Interbank Spot Dollar Rate USD – IDR”, or on Thomson Reuters Screen JISDOR Page, or be otherwise made available by Bank Indonesia (or its successor as administrator), on the Rate Fixing Date, then the Calculation Agent shall determine that a price source disruption event (a “Price Source Disruption Event”) has occurred, and shall promptly inform the Bank and the Global Agent of such occurrence.

Following a determination by the Calculation Agent that a Price Source Disruption Event has occurred, Noteholders will not be entitled to any amounts in respect of the Notes until the earlier to occur of (i) the date that is five

(5) Business Days after the date on which the Bank is notified by the Calculation Agent that a Price Source Disruption Event no longer subsists and (ii) the Postponed Interest Payment Date (as defined below) or the Postponed Maturity Date (as defined below), as the case may be.

If a Price Source Disruption Event subsists on the date that is ten (10) Business Days after the original Rate Fixing Date, the IDR Rate with respect to the relevant Interest Period shall be determined by the Calculation Agent by requesting firm quotes for the sale of IDR and the purchase of USD (expressed as the number of IDR per one USD) at or about 10:00 a.m., Jakarta time, or as soon thereafter as is practicable on such date, for settlement two Fixing Business Days thereafter, from four Reference Dealers (as defined below) as selected by the Calculation Agent.

If two, three or four Reference Dealers provide such firm quotes as requested, the IDR Rate with respect to the relevant Interest Period will be the arithmetic mean (rounded to the nearest whole IDR, with IDR 0.5 being rounded upwards) of such firm quotes.

If only one or no such firm quotes are provided as requested, or if the Calculation Agent determines in its sole discretion that no suitable Reference Dealers active in the USD/IDR currency or foreign exchange markets will provide firm quotes, the Calculation Agent shall be entitled to calculate the IDR/USD weighted average spot rate acting in good faith in a commercially reasonable manner, having taken into account relevant market practice, by reference to such additional sources as it deems appropriate; and in such case the Calculation Agent shall notify the Bank and the Global Agent as soon as reasonably practicable that the IDR/USD weighted average spot rate is to be so

determined.

“Postponed Interest Payment Date” means the date that is ten (10) Business Days after the originally scheduled Interest Payment Date.

“Postponed Maturity Date” means the date that is ten (10) Business Days after the originally scheduled Maturity Date.

“Reference Dealers” means leading dealers, banks or banking corporations which regularly deal in the USD/IDR exchange market, as selected by the Calculation Agent in its sole discretion, acting in good faith and in a commercially reasonable manner.

(g) Calculation Agent:

See “8. Identity of Calculation Agent” under “Other Relevant Terms”

(h) Notification:

If the Interest Amount payable on any Interest Payment Date or the Redemption Amount, as the case may be, is calculated in any manner other than by utilizing the IDR/USD weighted average spot rate that appears on Bank Indonesia’s website (www.bi.go.id) as the “Jakarta Interbank Spot Dollar Rate USD – IDR” or Thomson Reuters Screen JISDOR Page, or which is otherwise made available by Bank Indonesia (or its successor as administrator), the Global Agent on behalf of the Bank shall give notice as soon as reasonably practicable to the Noteholders in accordance with Condition 14 (*Notices*).

14. Relevant Financial Center:

London, New York and Jakarta

15. Relevant Business Day:

London, New York and Jakarta

16. Redemption Amount (Condition 6(a)): The Redemption Amount with respect to each minimum Authorized Denomination will be a USD amount calculated by the Calculation Agent on the Rate Fixing Date with respect to the Maturity Date as follows:

minimum Authorized Denomination

divided by

the IDR Rate

(and rounding, if necessary, the entire resulting figure to the nearest 2 decimal places, with USD 0.005 being rounded upwards).

Payment of the Redemption Amount will occur on the scheduled Maturity Date or, if later in the event of any adjustment due to the occurrence or subsistence of a Price Source Disruption Event as described above, on the earlier to occur of (i) the date that is five (5) Business Days after the date on which the Bank is notified by the Calculation Agent that a Price Source Disruption Event no longer subsists and (ii) the Postponed Maturity Date, as the case may be.

17. Issuer's Optional Redemption (Condition 6(e)): No

18. Redemption at the Option of the Noteholders (Condition 6(f)): No

19. Early Redemption Amount (including accrued interest, if applicable) (Condition 9): In the event the Notes become due and payable as provided in Condition 9 (Default), the Early Redemption Amount with respect to each minimum Authorized Denomination will be a USD amount equal to the Redemption Amount that is determined in accordance with "16. Redemption Amount" plus accrued and unpaid interest, if any, as determined in accordance with "13. Fixed Interest Rate

(Condition 5(I))”; provided, that for purposes of such determination, the “Rate Fixing Date” shall be the date that is five (5) Fixing Business Days prior to the date upon which the Notes become due and payable as provided in Condition 9 (Default).

General Information

Additional Information regarding the Notes

1. The EU has adopted a Directive regarding the taxation of savings income (the “Savings Directive”). The Savings Directive requires Member States (as defined below) to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State, except that Austria and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise.

The Bank undertakes that it will ensure that it maintains a paying agent in a country which is a member of the European Union (a “Member State”) that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

2. United States Federal Tax Matters

The following supplements the discussion under the “Tax Matters” section of the Prospectus regarding the U.S. federal income tax treatment of the Notes, and is subject to the limitations and exceptions set forth therein. Any tax disclosure in the Prospectus or this pricing supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable U.S. federal, state, and local tax laws and non-U.S. tax laws and possible changes in tax laws.

Due to a change in law since the date of the Prospectus, the second paragraph of “— Payments of Interest” under the “United States Holders” section should be updated to read as follows: “Interest paid by the Bank on the Notes constitutes income from sources outside the United States and will, depending on the circumstances, be “passive” or “general” income for purposes of computing the foreign tax credit.”

Because the Notes are denominated in the Indonesian Rupiah, a United States holder of the Notes will generally be subject to special United States federal income tax rules governing foreign currency transactions, as described in the Prospectus in the last four paragraphs of “— Payments of Interest” under the “United States Holders” section. We believe that a United States holder will be required to determine amounts received with respect to a Note (including principal and interest) by reference to the U.S. dollar value of the Indonesian Rupiah amount of the payment, calculated at the currency exchange rate in effect on the date of payment. The U.S. dollar amount that is actually received by the United States holder may differ from the amount determined under the preceding sentence, since the U.S. dollar amount of the payment will be determined by reference to the IDR Rate on the relevant Rate Fixing Date. Accordingly, a United States holder of the Notes may recognize United States source foreign currency gain or loss in an amount equal to such difference (in addition to any foreign currency gain or loss otherwise recognized upon the receipt of an interest payment or a sale or retirement of the Notes). The U.S. Internal Revenue Service could take

the position, however, that the amounts received by a United States holder in respect of a Note should be equal to the U.S. dollar amount that is actually received by the United States holder. Prospective United States holders of the Notes should consult their tax advisors regarding these rules.

Treasury Regulations Requiring Disclosure of Reportable Transactions. Treasury regulations require United States taxpayers to report certain transactions that give rise to a loss in excess of certain thresholds (a “Reportable Transaction”). Under these regulations, because the Notes are denominated in a foreign currency, a United States holder that recognizes a loss with respect to the Notes that is characterized as an ordinary loss due to changes in currency exchange rates (under any of the rules discussed under the “Tax Matters” section of the Prospectus) would be required to report the loss on IRS Form 8886 (Reportable Transaction Statement) if the loss exceeds the thresholds set forth in the regulations. For individuals and trusts, this loss threshold is \$50,000 in any single taxable year. For other types of taxpayers and other types of losses, the thresholds are higher. Holders should consult with their tax advisors regarding any tax filing and reporting obligations that may apply in connection with acquiring, owning and disposing of notes.

Information with Respect to Foreign Financial Assets. Owners of “specified foreign financial assets” with an aggregate value in excess of \$50,000 (and in some circumstances, a higher threshold) may be required to file an information report with respect to such assets with their tax returns. “Specified foreign financial assets” may include financial accounts maintained by foreign financial institutions, as well as the following, but only if they are held for investment and not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Holders are urged to consult their tax advisors regarding the application of this reporting requirement to their ownership of the Notes.

Medicare Tax. A United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax (the “Medicare tax”) on the lesser of (1) the United States holder’s “net investment income” (or “undistributed net investment income” in the case of an estate or trust) for the relevant taxable year and (2) the excess of the United States holder’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals is between \$125,000 and \$250,000, depending on the individual’s circumstances). A holder’s net investment income generally includes its interest income and its net gains from the disposition of Notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). United States holders that are individuals, estates or trusts are urged to consult their tax advisors regarding the applicability of the Medicare tax to their income and gains in respect of their investment in the Notes.

3. Additional Investment Considerations:

The Notes offered by this Pricing Supplement are complex financial instruments and may not be suitable for certain investors. Investors intending to purchase the Notes should consult with their tax and financial advisors to ensure that the intended purchase meets the investment objective before making such purchase.

There are various risks associated with the Notes including, but not limited to, exchange rate risk, price risk and liquidity risk. Investors should consult with their own financial, legal and accounting advisors about the risks associated with an investment in these Notes, the appropriate tools to analyze that investment, and the suitability of the investment in each investor's particular circumstances. Holders of the Notes should also consult with their professional tax advisors regarding tax laws applicable to them.

Payment of each Interest Amount and the Redemption Amount will be based on the IDR Rate, which is a measure of the rate of exchange between the Indonesian Rupiah and the USD. Currency exchange rates are volatile and will affect the holder's return. In addition, the government of Indonesia can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes, as well as the yield (in USD terms) on the Notes and the amount payable at maturity or upon acceleration. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in Indonesia or elsewhere could lead to significant and sudden changes in the exchange rate between the Indonesian Rupiah and the USD.

The Indonesian Rupiah is an emerging market currency. Emerging market currencies may be subject to particularly substantial volatility, as well as to government actions including currency controls, devaluations and other matters which could materially and adversely affect the value of the Notes.

The methodologies for determining the IDR Rate may result in a Redemption Amount (or Early Redemption Amount, as the case may be) of the Notes, or an Interest Amount on the Notes, being significantly less than anticipated or less than what an alternative methodology for determining the IDR-USD exchange rate would yield.
