NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2013 and 2012

NOTE 1 - Summary of Significant Accounting Policies

Nature of Business

Aethlon Capital, LLC (the Company) was formed in October 1996 as a limited liability company under Chapter 322B of the Minnesota statutes. The Company will continue until October 30, 2026 unless terminated prior to that time.

The Company is a licensed securities broker-dealer and specializes in providing investment banking services for public and private emerging growth companies. Services provided include private placement of equity or debt and general corporate finance advisory services.

The Company is a member of the Securities Investors Protection Corporation (SIPC) and Financial Industry Regulatory Authority (FINRA).

Cash and Cash Equivalents

The Company considers all cash accounts, which are not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash balances in excess of Federal Deposit Insurance Corporation (FDIC) and similar insurance coverages are subject to the usual banking risks associated with funds in excess of those limits.

Marketable Securities

Marketable securities consist of publicly traded common stock and are classified as trading securities. Trading securities are reported at fair market value with all unrealized gains (losses) included in other income on the statements of operations.

<u>Marketable securities</u>	<u>Aggregate fair value</u>	<u>Cost</u>	<u>Gross unrealized gains</u>
December 31, 2013	\$ 133,926	\$ 87,749	\$ 46,177
December 31, 2012	\$ 93,260	\$ 87,749	\$ 5,511

Commissions Receivable

Commissions receivable are unsecured and do not accrue interest. No allowance for doubtful accounts was considered necessary as of December 31, 2013.

Property and Equipment, Net

Property and equipment consists of computer equipment, furniture and software and are recorded at cost and being depreciated using the straight-line method over estimated useful lives of 3 to 7 years. Repairs and maintenance costs are expensed as incurred.

NOTE 1 - Summary of Significant Accounting Policies (cont.)

Revenue Recognition

The Company's revenues are derived from consulting fees and commissions from private placements. Consulting fees are nonrefundable deposits received during the initial stages of a private placement. Consulting fees may be deductible against the total commissions to be received upon the closing of a placement. Consulting fees are recognized upon receipt. Commission revenue is recognized at the time of the placement's closing.

Income Taxes

The Company is a single member limited liability company classified as a "disregarded entity" for income tax purposes. Accordingly, these financial statements do not include any provision or liability for income taxes since the income and expenses are reported on the individual income tax returns of the sole member and the applicable income taxes, if any, are paid by the member.

With few exceptions, the Company is no longer subject to U.S. federal, state or local income tax examinations by tax authorities for the years before 2010. The Company is not currently under examination by any taxing jurisdiction. In the event of any future tax assessments, the Company has elected to record the income taxes and any related interest and penalties as income tax expense on the Company's statements of operations.

Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Net capital and the related net capital ratio fluctuate on a daily basis. As of December 31, 2013 and 2012, the Company had net capital of \$25,615 and \$62,401 which was \$20,073 and \$57,401 in excess its required net capital of the greater of \$5,000 or 1/15 of aggregate indebtedness. The Company's net capital ratio was 3.25 to 1 and .13 to 1 as of December 31, 2013 and 2012.

No material differences exist between the net capital calculated above and the net capital computed and reported in the Company's amended December 31, 2013 FOCUS filing. Per Rule 15c3-3 of the Securities and Exchange Commission Uniform Net Capital Rule, the Company is exempt under the (k)(2)(i) exemption.

NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2013 and 2012

NOTE 3 - Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company values and records all investment securities transactions on a trade date basis. Securities listed on a national or regional securities exchange are valued at their last reported sales price on the last business day of the period. Securities which are not traded on a major exchange or for which no sale was reported on that date are valued at the average of their last quoted "bid" price and "asked" price. Short positions are valued at the last quoted "asked" price. Inputs used in the valuation methods can be either readily observable, market corroborated, or generally unobservable inputs. Whenever possible the Company attempts to utilize valuation methods that maximize the use of observable inputs and minimizes the use of unobservable inputs. Based on the observability of the inputs used in the valuation methods the Company determines fair value based on quoted market prices in active markets for identical assets and liabilities.

NOTE 4 - Property and Equipment, Net
