Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number.
In planning and performing our audit of the financial statements of Allen & Company of Florida, Inc. ("Company") as of and for the year ended December 31, 2013, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting ("internal control") as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control. Matters communicated in this letter are classified as follows.

- **Deficiency** – A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

- **Significant Deficiency** – A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control that we are required to or wish to communicate to you.

<tbody>
<tr>
<td><strong>Observation:</strong></td>
<td>Segregation of duties is not optimal.</td>
</tr>
<tr>
<td><strong>Recommendation:</strong></td>
<td>Internal controls are designed to safeguard assets and help detect losses from employee dishonesty or error. A fundamental concept in a good system of internal control is segregation of duties. Although the size of the Company’s accounting staff prohibits complete adherence to this concept, we believe that the following practices could be implemented to improved existing internal control without impairing efficiency: Mail is currently opened by the individuals that work the cage, which is appropriate with regard to segregation of duties. Cash receipts could be recorded and the deposit prepared by this individual. The cash receipts journal, supplemented by remittance advices, could be forwarded to the accounting staff for postings to the general ledger. Bank statements and appropriate advices should be received by someone other than employees maintaining cash records. Such items could be periodically reviewed prior to turning them over for reconciliation. Unusual items noted during review should be investigated promptly. Signed checks should be mailed without allowing them to be returned to the employee responsible for accounts payable. We understand that in the past the cost versus benefit analysis that has been performed as a result of this need has not allowed for the hiring of an additional accounting individual. We recommend that the costs and benefits continue to be evaluated.</td>
</tr>
<tr>
<td><strong>Management Response:</strong></td>
<td>Each and every year we continue to evaluate and improve on the segregation of duties within the firm. Last year we hired another associate to work in Finance, and completely separated accounts receivable and payable. All items reconciled by one associate are reviewed and approved by another associate. There are numerous checks and balances. We will continue to improve on the segregation of duties with the 4 associates in the Finance department.</td>

Report of Independent Accountants on Applying Agreed-Upon Procedures

Board of Directors of
Allen & Company of Florida, Inc.
Lakeland, Florida

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying General Assessment Reconciliation (Form SIPC-7) to the Securities Investor Protection Corporation (SIPC) for the year ended December 31, 2013, which were agreed to by Allen & Company of Florida, Inc. ("the Company"), the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc. and the SIPC, solely to assist the Company and the other specified parties in evaluating the Company's compliance with those requirements to Form SIPC-7. The Company's management is responsible for its Form SIPC-7. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures were performed and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 for the year ended December 31, 2013, with respective cash disbursement records entries noting no differences;

2. Compared with the total revenue amounts reported in the audited financial statements included on Form X-17A-5 to the amounts reported in Form SIPC-7 for the year ended December 31, 2013, noting no difference;

3. Compared any adjustments reported in Form SIPC-7 for the year ended December 31, 2013, with supporting schedules and working papers, including excel spreadsheets derived from the Company's general ledger and subsidiary ledgers, noting no differences;

4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 for the year ended December 31, 2013, and in the related schedules and working papers supporting the adjustments noting no differences.

5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 for the year ended December 31, 2013, on which it was originally computed noting there was no overpayment applied to the current assessment.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on the Company's Form SIPC-7 or its items. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
