Report of Independent Auditors

The Member
Greenwich Energy Capital Advisors, LLC

We have audited the accompanying statement of financial condition of Greenwich Energy Capital Advisors, LLC, as of December 31, 2013 and 2012. This statements of financial condition is the responsibility of management of Greenwich Energy Capital Advisors, LLC. Our responsibility is to express an opinion on the statement of financial condition, based on our audit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the statement of financial condition in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of statement of financial condition that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the statement of financial condition based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statement of financial condition. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statement of financial condition, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statement of financial condition in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statement of financial condition.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the statement of financial condition referred to above present fairly, in all material respects, the financial position of Greenwich Energy Capital Advisors, LLC. As of December 31, 2013 and 2012, in accordance with accounting principles generally accepted in the United States.

Greenwich Energy Capital Advisors, LLC
Notes to Financial Statements
December 31, 2013

Note 1 - Description of operations and significant accounting policies

Greenwich Energy Capital Advisors, LLC (the "Company") was organized in December 2010 and began operating as a broker-dealer registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulation Authority ("FINRA") in November 2011.

The Company's activities consist principally of its role as an intermediary and advisor in merger and acquisition transactions. Accordingly, the Company claims exemption from Securities Exchange Commission Rule 15c3-3 because it does not carry customer funds or handle customer securities.

Basis of accounting

The Company maintains its books on the accrual basis of accounting.

Cash and cash equivalents

For purposes of the statement of cash flows, the Company considers all temporary investments to be cash or cash equivalents. The Company maintains its cash balances in a large financial institution located in Connecticut. The balances are insured by the Federal Deposit Insurance Corporation up to \$250,000.

Estimated Fair Value of Financial Instruments

Accounting principles generally accepted in the United States require the disclosure of the fair value of financial instruments, including assets and liabilities recognized on the statement of financial condition. Management estimates that the aggregate net fair value of financial instruments recognized on the statement of financial condition (including receivables, payables and accrued expenses) approximates their carrying values, as such financial instruments are short-term in nature or bear interest at current market rates.

Allowance for uncollectible accounts receivable

The Company uses the allowance method to account for uncollectible accounts receivable. Under this method, the Company reviews all receivables for any problems with collectability. If the Company feels that there may be a problem with collections, an allowance is provided for the receivable. When attempts to collect a specific receivable are unsuccessful, the account is considered uncollectible and is written off against the allowance.

Greenwich Energy Capital Advisors, LLC
Notes to Financial Statements
December 31, 2013

Note 1 - Description of operations and significant accounting policies (continued)

Property and equipment

Property and equipment are recorded at cost. Depreciation is computed using the accelerated methods, including bonus first year amounts, over an estimated useful life of five years. The Company generally capitalizes additions of \$1,000 or more.

Income Taxes

The Company has elected to be taxed under the provisions of Section 1065 of the Internal Revenue Code. Under these provisions, the Company is not subject to federal taxes on income. Instead, its member includes his share of the Company's taxable income on his individual income tax returns.

The Company has adopted accounting principles generally accepted in the United States relating to the accounting for uncertainty in income taxes. Adoption of the provisions did not have a material impact on the Company's liability for unrecognized tax benefits. Management believes that the Company has adequately addressed all tax positions and that there are no unrecorded tax liabilities. Tax years 2011 to 2012 are open for examination by the Internal Revenue Service.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 - Net capital requirement

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule 15c3-1 of the SEC (the "Rule"). The Rule requires the maintenance of minimum net capital, as defined under the Rule, equivalent to the greater of \$5,000 or 6.67% of aggregate indebtedness, as defined under the Rule.

Greenwich Energy Capital Advisors, LLC
Notes to Financial Statements
December 31, 2013

Note 2 - Net capital requirement (continued)

At December 31, 2013, the Company had net capital, as defined under the Rule, of \$20,252 (2012 - \$11,681) which exceeded the minimum requirement of \$5,000 by \$15.252 (2012 - \$6,681). The Company's aggregate indebtedness, as defined under the Rule, was \$4,250 (2012 - \$5,789).

Note 3 - Liabilities subordinated to the claims of general creditors

As of December 31, 2013, the Company had not entered into any subordinated loan agreements.

Note 4 - Rule 15c3-3

The Company is exempt from the provisions of Rule 15c3-3 under paragraph (k)(2)(i) in that the Company carries no customer accounts.

Note 5 - Subsequent events

The Company evaluated subsequent events for recognition and disclosure through the date which these financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2013 that required recognition or disclosure in such financial statements.
