## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Bill Few Securities, Inc.  
Pittsburgh, Pennsylvania

We have audited the financial statement of **Bill Few Securities, Inc.** (the "Company"), which is comprised of the statement of financial condition as of December 31, 2013, and the related notes to the financial statement.

### *Management's Responsibility for the Financial Statement*

Management is responsible for the preparation and fair presentation of this financial statement in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial condition of **Bill Few Securities, Inc.** as of December 31, 2013, in accordance with U.S. generally accepted accounting principles.

### *Other Matter*

As disclosed in note 5 to the financial statements, the Company has significant transactions with a related party.

**BILL FEW SECURITIES, INC.**  
**NOTES TO FINANCIAL STATEMENT**

**1 - ORGANIZATION**

Bill Few Securities, Inc. is a wholly owned subsidiary of Bill Few Financial Group, Inc. (the "Parent"). The Company was incorporated in January 1987 and was organized under the laws of the Commonwealth of Pennsylvania.

The Company operates as a securities broker-dealer, registered with the Financial Industry Regulatory Authority ("FINRA"). The Company executes principal (proprietary) and agency (customer) securities transactions and provides other investment services. The Company's customers are located primarily in Pennsylvania; accordingly, they are subject to the economic environment of this geographic area.

The Company is associated with Pershing LLC on a fully disclosed basis in connection with execution and clearance of the securities transactions effected by the Company and its customers. The Company does not carry securities accounts for customers or perform custodial functions relating to customer securities. As such, the Company operates under the (k)(2)(ii) exemptive provisions of the Securities and Exchange Commission ("SEC") Rule 15c3-3.

**2 - SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The financial statements of the Company are presented on the accrual basis of accounting and are prepared in conformity with U.S. generally accepted accounting principles ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC").

**Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could vary from the estimates that were used.

**Securities Transactions**

Proprietary securities transactions in regular-way trades are recorded on the settlement date. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a settlement date basis. Customers' securities and commodities transactions are reported on a settlement date basis with related commission income and expenses reported on a settlement date basis. In the opinion of management, the difference in settlement date versus trade date reporting is not considered material to the financial statements.

Securities are recorded at fair value in accordance with FASB ASC 820, *Fair Value Measurement*.

**Cash and Cash Equivalents and Concentrations of Credit Risk**

The Company maintains balances on deposit with financial institutions (banks) and its clearing organization. Those organizations are located in Pennsylvania (financial institutions) and New Jersey (clearing organization). The accounts maintained at banks are insured by the Federal Deposit Insurance Corporation ("FDIC"). The cash accounts maintained at the clearing organization are insured by the Securities Investor Protection Corporation ("SIPC"). At certain times during the year, the Company's cash balances may exceed the insured limits. The Company has not experienced any losses associated with these accounts.

**BILL FEW SECURITIES, INC.**  
**NOTES TO FINANCIAL STATEMENT**  
**(CONTINUED)**

**2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Cash and Cash Equivalents and Concentrations of Credit Risk (Continued)**

Financial instruments which potentially expose the company to concentrations of credit risk consist of cash, demand deposits, and highly-liquid investments with financial institutions.

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, institutional and individual investors, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument.

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, institutional investors, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument.

**Income Taxes**

The Company has elected treatment as a qualified subchapter S subsidiary (QSub) of its Parent for federal and state income taxation purposes. As a QSub, the Company's operating results are combined with its Parent's (an "S" corporation) income tax returns. This election relieves the Company of most federal and state income tax liability, with its income being taxable directly to its Parent's stockholders.

The Company follows the guidance of the FASB ASC topic on Income Taxes. No amounts have been recognized within the financial statements for taxes, interest, or penalties relating to uncertain tax positions. In addition, the Company does not anticipate any changes to their tax positions within the next twelve months. In general, the Company's tax positions for open tax years remain subject to examination by the tax authorities in the jurisdiction in which the Company operates.

**Subsequent Events Evaluation**

The accompanying financial statements include an evaluation of events or transactions that have occurred after December 31, 2013 and through February 11, 2014, the date the financial statements were issued.

**3 - FAIR VALUE**

***Fair Value Hierarchy***

FASB ASC topic on Fair Value Measurements defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by the FASB ASC topic, are used to measure fair value.

**BILL FEW SECURITIES, INC.**  
**NOTES TO FINANCIAL STATEMENT**  
**(CONTINUED)**

**3 - FAIR VALUE (CONTINUED)**

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1: Valuations based on unadjusted quoted prices available in active markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.
- Level 2: Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3: Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

***Processes and Structure***

Management is responsible for the Company's fair value valuation policies, processes, and procedures. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and that the assumptions are reasonable.

***Fair Value Measurements***

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that the Company believes market participants would use in pricing the asset or liability at the measurement date.

A description of the valuation techniques applied to the company's major categories of assets and liabilities measured at fair value on a recurring basis follows.

There have been no changes in the methodologies used at December 31, 2013.

Municipal bonds are valued at the closing price reported on the market on which the individual bonds are traded.

**BILL FEW SECURITIES, INC.**  
**NOTES TO FINANCIAL STATEMENT**  
**(CONTINUED)**

**3 - FAIR VALUE (CONTINUED)**

The following table summarizes the valuation of the assets by the fair value hierarchy as described above as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Municipal Bonds	\$ -	\$ 2,400,623	\$ -	\$ 2,400,623

There were no transfers between Level 1 and Level 2 during the year.

**4 - DUE TO/FROM CLEARING ORGANIZATION**

The Company clears its proprietary transactions and customer transactions on a fully disclosed basis through Pershing LLC. Accounts with the Company's clearing organization at December 31, 2013 consisted of the following:

Deposits With Clearing Organization	\$ 100,000
Payable to Clearing Organization	<u>(1,752,331)</u>
	<u>\$ (1,652,331)</u>

**5 - RELATED PARTY TRANSACTIONS**

The Company provides securities brokerage services to Bill Few Associates, Inc., a company related by common ownership. The agreement is on a month-to-month basis. Under the terms of this agreement, the Company is also committed to pay a fee to this related party for securities transactions clearing through the Company. In addition, the company has entered into a month-to-month cost sharing agreement with this related party.

In 2013, the fee payments to the related party under the brokerage service agreement were approximately \$1,099,900 and \$44,000 under the cost sharing arrangement.

During 2013, the Company recognized brokerage services income with Bill Few Associates totaling \$240,000.

**6 - PROFIT SHARING AND 401(k) SAVINGS PLAN**

The Parent maintains a defined contribution profit sharing plan, which covers all employees of its Parent and related subsidiaries who meet the plan's eligibility requirements, as defined. Contributions to the plan are determined at the discretion of the Board of Directors. Additionally, qualifying employees may participate in a 401(k) savings plan, whereby eligible employees can make contributions pursuant to a salary reduction agreement. The Parent may elect to make a matching contribution of participating employees' deferrals up to six percent (6%) of compensation. An employer contribution was made for 2013.

**BILL FEW SECURITIES, INC.**  
**NOTES TO FINANCIAL STATEMENT**  
**(CONTINUED)**

**7 - NET CAPITAL REQUIREMENTS**

The Company, as a registered broker-dealer in securities, is subject to the net capital rule adopted by the Securities and Exchange Commission and administered by the Financial Industry Regulatory Authority. This rule requires that the Company's "aggregate indebtedness" not exceed fifteen times its "net capital," as defined. The Financial Industry Regulatory Authority may require a broker-dealer to reduce its business activity if the capital ratio should exceed 12 to 1 and may prohibit a broker-dealer from expanding business if the ratio exceeds 10 to 1. At December 31, 2013, the Company's net capital under the uniform net capital rule was approximately \$895,000 which exceeded the minimum capital requirements by approximately \$738,000. The Company's ratio of aggregate indebtedness to net capital at December 31, 2013, was 2.64 to 1.

**8 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK**

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or underlying the contract at a loss.

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customer's accounts. In connection with these activities, the Company executes customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, require the customer to deposit additional collateral or to reduce positions when necessary.

The Company's customer financing and securities settlement activities require the Company to pledge customer securities as collateral in support of various secured financing sources such as bank loans and securities loaned. In the event the counterparty is unable to meet its contractual obligation to return customer securities pledged as collateral, the Company may be exposed to the risk of acquiring the securities at prevailing market prices in order to satisfy its customer obligations. The Company controls this risk by monitoring the fair value of securities pledged on a daily basis and by requiring adjustments of collateral levels in the event of excess market exposure. In addition, the Company establishes credit limits for such activities and monitors compliance on a daily basis.

**9 - CONTINGENCIES**

In the normal course of business, the Company is subject to proceedings, lawsuits, and other claims. However, in the opinion of management no claims presently exist, which after final disposition would have a resulting financial impact that would be material to the annual financial statements.
