Report of Independent Registered Public Accounting Firm

We have reviewed management's statements, included in the accompanying "*Management Assertion Regarding Exemption Provisions*", in which (1) Essex Financial Services, Inc. identified the following provisions of 17 C.F.R. § 15c3-3(k) under which Essex Financial Services, Inc. claimed an exemption from 17 C.F.R. § 240.15c3-3: 15c 3-3 (k)(2)(ii) (the "exemption provisions") and (2) Essex Financial Services, Inc. stated that Essex Financial Services, Inc. met the identified exemption provisions throughout the period from June 1, 2014 through September 30, 2014. Essex Financial Services, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Scope

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Essex Financial Services, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Review Results

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

Mr. William J. Terribile, Jr., Compliance Officer
Essex Financial Services, Inc.
176 Westbrook Road
Essex, CT 06426

Dear Mr. Terribile:

In planning and performing our audit of the financial statements of Essex Financial Services, Inc. (the Company) as of and for the year ended September 30, 2014, we considered its internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control. Although our audit was not designed to provide assurance on the internal control, we noted no matters involving the internal control or its operation, nor did we find any material inadequacies to exist between the original filing of the FOCUS IIA and the net capital report in the Audited Annual Report.

There were no audit adjustments or significant unbooked adjustments. The reconciliation of the Audited Computation of Net Capital and Computation of 15c3-3 Reserve Requirements, which appears in the Company's audited financial statements, agrees to the amended FOCUS report as filed by the Company for the period ended September 30, 2014.

Our understanding is that the Company filed its original FOCUS report for the September 30, 2014 quarter prior to the completion of all of the necessary and normal year-end closing adjustments. These adjustments were recorded to the Company's books and records prior to the completion of our audit of the financial statements.

If you require any additional information regarding this matter, please do not hesitate to contact us.

Sincerely,

Barbara J. Snyder, CPA

Report on the Financial Statements

We have audited the accompanying statements of financial condition of Essex Financial Services, Inc. (the "Company") as of September 30, 2014 and 2013 and the related statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Scope

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects the financial position of Essex Financial Services, Inc. as of September 30, 2014 and 2013, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The information contained in Schedule 1 has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the identified supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The accompanying notes are an integral part of the financial statements.

1. Description of Business

Essex Financial Services, Inc., (the “Company”) is a fully disclosed introducing broker-dealer and registered investment advisor. The Company is a member of the Financial Industry Regulatory Authority (FINRA) and is a member of the Securities Investors Protection Corporation (SIPC). Commissions and investment advisory fee income is generated in connection with sales of securities, insurance products and investment advisory services.

2. Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) for business enterprises in general. However, broker-dealers are further subject to Rule 17a-5 of the Securities and Exchange Commission (SEC) and the Financial and Operational Combined Uniform Single (FOCUS) Report there under. That rule prescribes the presentational format of the accompanying financial statements as well as additional disclosures.

Management has evaluated subsequent events for potential recognition or disclosure in the financial statements through November 24, 2014, the date upon which the Company’s financial statements were available to be issued. No subsequent events were identified which require recognition or disclosure in the financial statements.

3. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Included in cash at September 30, 2014 is approximately \$116,400 held at Pershing, the Company’s clearing agent, \$100,000 of which is a clearing deposit required to be held as a condition of its contract.

Marketable Securities

The Company’s marketable securities are classified as trading securities and are stated at fair value, with unrealized gains and losses included in earnings. Fair value is determined by applying the valuation framework specified by GAAP. Gains and losses on sales of securities are recognized at the trade date on a specific identification basis

Furniture, Equipment and Leasehold Improvements

Furniture, equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. Major expenditures for property and equipment and those which substantially increase useful lives are capitalized. Maintenance, repairs, and minor renewals are expensed as incurred. Assets retired, or otherwise disposed of, are eliminated from the asset accounts along with related amounts of accumulated depreciation. Any gains or losses from disposals are included in income.

Depreciation is computed over the estimated useful life of the respective assets, ranging from three years to thirty-nine years. Depreciation expense for the year ended September 30, 2014 and 2013 of \$86,016 and \$65,983 respectively, was computed using the straight line and accelerated methods.

Commissions and Investment Advisory Income

Investment advisory fees are received quarterly in advance, and are recognized as earned on a pro rata basis over the term of the related investment advisory service period.

Commissions earned and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the bases of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will be deductible or taxable when the assets and liabilities are recovered or settled.

The Company is required to make a determination of an inventory of tax positions (Federal and State) for which the sustainability of the position, based upon the technical merits, is uncertain. The Company regularly evaluates all tax positions taken and the likelihood of those positions being sustained. If management is highly confident that the position will be allowed and there is a greater than 50% likelihood that the full amount of the tax position will be ultimately realized, the Company recognizes the full benefit associated with the tax position. Additionally, interest and penalties related to uncertain tax positions are included as a component of income tax expense.

Advertising Costs

The Company expenses all advertising costs as they are incurred. Total advertising costs were \$15,560 and \$28,552 for the year ended September 30, 2014 and 2013, respectively.

4. Financial Instruments

Cash and cash equivalents and marketable securities classified as trading securities are financial instruments for which the carrying value equals fair value. The Company has no financial instruments with off-balance sheet risk.

5. Marketable Securities

Securities owned consisted of the following as of September 30, 2014 and 2013:

	2014	2013
Marketable securities at fair value:		
Mutual funds	\$ 19,896	\$ 19,195

6. Fair Value Measurements

The Company records certain financial instruments at fair value in accordance with GAAP, which defines fair value and establishes a framework for measuring fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The guidance establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair values as follows:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

- Level 2 - Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability;
- Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The Company's only financial instrument measured at fair value is marketable securities. The fair value of these securities was determined using quoted prices in an active market, and is classified within Level 1 of the valuation hierarchy.

The following table details the financial instruments measured at fair value on a recurring basis as and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine the fair value at September 30, 2014 and 2013:
