### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Wealth Management, Inc. as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### Other Matter

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules 1, 2, and 3 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Act of 1934. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information in schedules 1, 2, and 3 has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information contained in Schedules 1, 2, and 3 is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

AMERICAN WEALTH MANAGEMENT, INC.  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2013 AND 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. The Company was formed November 1, 1989, primarily for the purpose of qualifying and operating as a broker-dealer of securities. The Company is registered with the Securities and Exchange Commission, FINRA, and various states' securities commissions. The Company operates as a general securities broker-dealer executing trades for retail and institutional customers. The Company does not carry customer accounts or perform custodial functions relating to customer securities. Customers of the Company are introduced to a carrying broker-dealer (clearing agent) on a fully disclosed basis. The Company's customers are located throughout the United States.
- B. Property is recorded at cost and is depreciated over a five year estimated useful life using the straight-line method. Maintenance and repairs are charged to income, and renewals and betterments over \$1,000 are capitalized.
- C. Commission income and the related expense are recorded on a trade date basis as transactions occur.
- D. Cash and cash equivalents include cash on hand, money market accounts, and short term investments with maturities of less than 90 days. For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.
- E. Use of Estimates - The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- F. Income taxes - Deferred taxes at December 31, 2013 and 2012 arise primarily from net operating loss carryforwards. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled.

The above mentioned differences result in deferred income taxes. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

The Company files income tax returns in the U.S. federal and the state of Georgia jurisdictions. The Company is generally no longer subject to U.S. federal examinations for years before 2010.

AMERICAN WEALTH MANAGEMENT, INC.  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2013 AND 2012

Income taxes- (Continued)

The Company follows the provisions for uncertain tax positions as addressed in FASB Accounting Standards Codification 740-10-65-1. For the years ended December 31, 2013 and 2012, management believes there are no material amounts of uncertain tax positions.

- G. Clearance Agreement- In January 1990, the Company entered into an agreement with Raymond James, an independent broker-dealer, to provide clearing, execution, and data processing services on a fully disclosed basis for the customer accounts of the Company. The Company is required to keep a minimum deposit of cash or securities of \$25,000 with the clearing broker-dealer.
- H. Subsequent Events - The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through February 14, 2014, the date in which the financial statements were available to be issued.
- I. Fair Value- FASB ASC 820 defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:
- Level 1    Inputs are unadjusted quoted prices in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2    Inputs are inputs (other than quoted prices included in level 1) that are observable for the assets or liability, either directly or indirectly.
- Level 3    Unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

AMERICAN WEALTH MANAGEMENT, INC.  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2013 AND 2012

Fair Value (continued)

The Company's investments are comprised of equity securities, all of which are classified as held for investment and are carried at their level 1 fair value based on the quoted market prices of the securities at December 31, 2013.

Following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2013:

Fair Value Measurement on a Recurring Basis  
As of December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Securities Owned:				
Equities-Trading	\$32,785	-0-	-0-	\$32,785

Fair Value Measurement on a Recurring Basis  
As of December 31, 2012:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Securities Owned:				
Equities-Trading	\$15,553	-0-	-0-	\$15,553

Change in unrealized gain relating to assets held at December 31, 2013, and 2012 is \$4,640 and \$4,059, respectively.

2. INCOME TAXES

The amount of current and deferred tax payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years and for benefits of net operating loss carry forward. The Company recognizes and measures its unrecognized tax benefit in accordance with FASB ASC 740, Income Taxes. Under that guidance, the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires change.

AMERICAN WEALTH MANAGEMENT, INC.  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2013 AND 2012

INCOME TAXES (Continued)

The components of income tax (benefit) provision are as follows:

	2013			2012		
	Total	Deferred	Current	Total	Deferred	Current
Federal	\$ (144)	\$ (144)	-	\$ 3,028	\$ 3,028	\$ -
State	(58)	(58)	-	1,211	1,211	-
	\$ (202)	\$ (202)	-	\$ 4,239	\$ 4,239	\$ -

Net Operating Loss Carry forwards:

The Company has loss carry forwards that total \$43,129 at December 31, 2013 and \$42,167 at December 31, 2012 that may be offset against future taxable income. The December 31, 2013 loss carry-forwards will expire as follows:

December 31, 2031	\$ 43,129
-------------------	-----------

Deferred Tax Assets:

The Company's deferred tax reflect the net tax effects of differences between the carrying amount of assets and liabilities for financial statement purposes and the amounts used for income tax purposes as follows:

	2013	2012
Net Operating Loss Carry forward	\$ 43,129	\$ 42,167

In 2013 and 2012, the Company had permanent differences primarily related to non-deductible penalties and meal and entertainment that increased taxable income and caused the actual tax provision in the accompanying Statement of Income to differ from the expected rate.

3. CREDIT RISK

The Company is engaged in various activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

AMERICAN WEALTH MANAGEMENT, INC.  
STATEMENTS OF EXEMPTION FROM COMPLIANCE WITH RULE 15c3-3  
AND STATEMENTS OF SUBORDINATED LIABILITIES  
December 31, 2013

The Company is exempt from compliance with Rule 15c3-3 of The Securities Exchange Act of 1934, pursuant to paragraph (k)(2)(ii) of the rule, all transactions with and for customers are cleared on a fully disclosed basis with a clearing member, which carries all customer accounts and maintains and preserves all books and records pertaining thereto. The Company does not carry security accounts for customers or perform custodial functions relating to customer securities. The Company was in compliance with the conditions of the exemption during the year ended December 31, 2013.

The Company had no liabilities subordinated to the claims of creditors during 2013.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

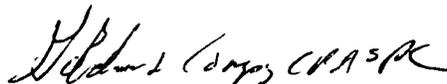

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented or detected or corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the paragraphs 1-2 above and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any weaknesses involving internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the first and second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes.
