### **Independent Auditor's Report**

The Member,  
Feldstein Financial Group, LLC

We have audited the accompanying financial statements of Feldstein Financial Group, LLC, which comprise the balance sheet at December 31, 2013 and the related statements of operations, changes in member equity, and cash flows for the year then ended, and the related notes to the financial statements.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to error or fraud.

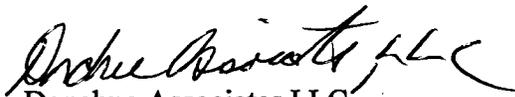

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financials statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements presented are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Feldstein Financial Group, LLC as of December 31, 2013 and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

**Feldstein Financial Group, LLC**  
**Notes to the Financial Statements**  
**For the Year Ended December 31, 2013**

**1. Organization**

Feldstein Financial Group, LLC (the Company) is a privately held limited liability company formed in New Jersey in 2002 for the purpose of conducting business as a securities broker dealer (BD). As s a BD, the Company is registered with the Financial Industry Regulatory Authority (FINRA) to market investments in registered securities. Through its clearing broker, the Company clears securities transactions on a fully disclosed basis for its clients. The Company operates under the exempt provisions of the Security and Exchange Commission Rule 15c3-3(k)(2)(b).

**2. Summary of Significant Accounting Policies**

*Use of Estimates-* The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make reasonable estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses at the date of the financial statements and for the period they include. Actual results may differ from these estimates.

*Commission income-* Commission revenues and related fees are recorded on a trade date basis and the Company is reasonably assured of their collection.

*Cash-* For the purpose of calculating changes in cash flows, cash includes all cash balances and highly liquid short-term investments with original maturity date of three months or less.

*Income taxes-* The Company has elected to be taxed as a single member limited liability company under the Internal Revenue Service Code. Accordingly, under such an election, the Company's taxable income is reported by the individual member and therefore, no provision for federal income taxes has been included in these consolidated financial statements.

### **3. Fair Value of Financial Instruments**

*Fair Value Measurements* under generally accepted accounting principles clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements are separately disclosed by level within the fair value hierarchy as follows.

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed and is determined based on the lowest level input that is significant to the fair value measurement.

Cash, prepaid expenses, receivables from clearing broker, and accounts payable and accrued expenses in the balance sheet are estimated to approximate fair market value at December 31, 2013 because of their short term nature.

### **4. Related Party Transactions**

The Company has executed an expense sharing agreement with a company related to the Company by common ownership, whereby the related company pays for certain allocated overhead costs.

## 5. Net Capital Requirement

As a BD, the Company is subject to Rule 15c3-1 of the Security Exchange Act of 1934 which requires the Company to maintain a minimum net capital, as defined under the provisions, of \$5,000. The computation of net capital pursuant to Uniform Net Capital Rule 15c3-1 is as follows.

### CREDIT:

Member's equity	\$58,843
-----------------	----------

### DEBITS:

Nonallowable assets:	
Prepaid expenses	<u>(3,596)</u>

### NET CAPITAL

\$55,247

Haircuts

0

### ADJUSTED NET CAPITAL

\$55,247

Minimum requirements of 6-2/3% of aggregate indebtedness  
or \$5,000, whichever is greater.

5,000

### EXCESS NET CAPITAL

\$50,247

### AGGREGATE INDEBTEDNESS:

Accounts payable & accrued expenses	\$3,177
-------------------------------------	---------

### RATIO OF AGGREGATE INDEBTEDNESS TO NET CAPITAL

5.75%

Excess net capital previously reported

\$43,259

Audit adjustment to accrued expenses

(577)

Related party expense accrual per FOCUS (not booked)

7,565

Excess net capital per this report

\$50,247

## **6. Off-Balance Sheet Risk**

The Company executes various transactions for the benefit of customers through the clearing broker dealer on a fully disclosed basis. This business activity subjects the Company to certain off balance sheet risk, which may be in excess of the liabilities reported in the balance sheet. In the event that a customer is in default of an obligation to the clearing broker, the clearing broker will require the Company to fulfill the obligation on behalf of its customer.

The Company seeks to control these risks by monitoring the transactions of customer accounts on a daily basis. The Company has the authority to liquidate position in customer accounts at its discretion in order to ensure the account is in financial compliance with established requirements imposed by the clearing broker.

## **7. Subsequent Events**

The Company has made a review of material subsequent events from December 31, 2013 through the date of this report and found no material subsequent events reportable during this period.

**DONAHUE ASSOCIATES, L.L.C.**

**Phone: (732) 229-7723**

The Member  
Feldstein Financial Group, LLC

In planning and performing our audit of the financial statements of Feldstein Financial Group, LLC for the year ended December 31, 2013, we considered its internal control structure, including procedures for safeguarding customer and firm assets, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11); and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3; and for safeguarding the occasional receipt of securities and cash until promptly remitted to the Company's clearing brokers. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or complying with the requirements for prompt payment for securities under section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities. The Company claims an exemption from SEC Rule 15c3-3 under the (k)(2)(i) provision, and therefore, no computation for determination of reserve requirements was necessary.

The management of the Corporation is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that the assets for which the Corporation has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally

accepted accounting principles in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of the inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changing conditions or the effectiveness of their design may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level of risk that the errors or irregularities in material amounts in relation to the financial statements taken as a whole may occur and not be detected within a timely period by the employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we considered to be a material weakness as defined above.

We understand that the internal control structure that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that an internal control structure that does not accomplish such objectives in all material respects indicate material inadequacy for such purposes. Based on this understanding and our study, we believe the Company's practices and procedures were adequate as of December 31, 2013 to meet the Commission's objectives.

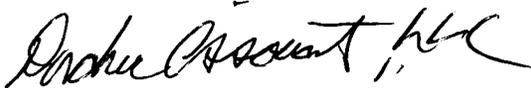

In addition, our review indicated the Company to be in compliance with the conditions of exemption from Rule 15c3-3 pursuant to paragraph k(2)(i) as of December 31, 2013, and no facts came to our attention to indicate such conditions had not been complied with during the year.

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the assessments and payments to the Security Investor Protection Corporation (SIPC) for the year ended December 31, 2012 in order to assist you and interested third parties in evaluating the Company's compliance with applicable instructions of the Transitional Assessment Reconciliation (Form SIPC-7T). The Company is responsible for compliance with these requirements. These agreed-upon procedures were conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report

has been requested or for any other purpose. The procedures performed and our findings are as follows.

1. We compared the listed assessment payments in Form SIPC-7T with respective cash disbursement records entries in the general ledger noting no differences.
2. We compared amounts reported on the audited Form X-17A-5 for the year ended December 31, 2013, as applicable, with the amounts reported in Form SIPC-7T for the year ended December 31, 2013 and noted no differences.
3. We compared any adjustments reported in Form SIPC-7T with supporting schedules and other working papers and noted no differences.
4. We proved the arithmetic accuracy of the calculations reflected in Form SIPC-7T and the related schedules supporting the adjustments and noted no differences.
5. We compared the amount of any overpayment applied to the current assessment with the Form SIPC-7T on which it was originally computed and noted no differences.

With regard to the SIPC fee assessment testing, we were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.
