Independent Auditor's Report

To the Board of Directors
Brauvn Securities, Inc.

Report on the Financial Statement

We have audited the accompanying statement of financial condition of Brauvn Securities, Inc. (the Company) as of December 31, 2013 that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes (the financial statement).

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Brauvin Securities, Inc. as of December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Brauvin Securities, Inc.

Notes to Statement of Financial Condition

Note 1. Nature of Operations and Significant Accounting Policies

Nature of operations: Brauvin Securities, Inc. (the Company) is an Illinois corporation formed on December 3, 1983. The Company is a securities broker-dealer registered with the Securities and Exchange Commission (the SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company earns all income by acting as an agent for an affiliate, related by common ownership.

The Company operates under the provisions of Paragraph (k)(2)(i) of Rule 15c3-3 of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The requirements of paragraph (k)(2)(i) provide that the Company carry no margin accounts, promptly transmit all customer funds and deliver all securities received in conjunction with its activities as a broker-dealer and does not hold funds or securities for or owe money or securities to customers.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue recognition: Commissions and related expenses are recognized at the time the transaction is completed and the income is reasonably determinable.

Note 2. Transactions with Affiliates

As of December 31, 2013, the Company has a receivable of \$2,822 from an affiliate related by common ownership. In addition, as of December 31, 2013, the Company has a receivable of \$150,000 from another affiliate related to the commissions due.

Office space and other services are provided to the Company by another affiliate, related by common ownership.

Note 3. Income Taxes

The Financial Accounting Standards Board (FASB) has issued guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. Through December 31, 2013, management has determined there are no material uncertain tax positions. The Company is generally not subject to U.S. federal, state or local income tax examinations for tax years before 2010.

Brauvin Securities, Inc.

Notes to Statement of Financial Condition

Note 4. Net Capital Requirements

The Company, as a registered broker-dealer, is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1) and is required to maintain minimum net capital. Under this rule, the Company is required to maintain "minimum net capital" equivalent to the greater of \$5,000 or 6-2/3 percent of "aggregate indebtedness," as these terms are defined, and requires that the ratio of aggregate indebtedness to net capital, both as defined, not to exceed 15 to 1. The rule also provides that equity capital may not be withdrawn if the resulting net capital ratio would exceed 10 to 1.

At December 31, 2013, the Company had net capital of \$59,223, which was \$51,223 in excess of its required net capital of \$8,000. The net capital requirements may effectively restrict the payment of cash dividends.

Note 5. Subsequent Events

The Company has evaluated subsequent events for potential recognition and/or disclosure through the date the financial statements were issued and determined that there are none.
