Independent Auditor's Report

To the Board of Directors and Stockholder of GlobeOp Markets Limited:

We have audited the accompanying statement of financial condition of GlobeOp Markets Limited (the "Company"), as of December 31, 2013.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the statement of financial condition in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the statement of financial condition based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statement of financial condition. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the statement of financial condition, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the statement of financial condition in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statement of financial condition. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the statement of financial condition referred to above present fairly, in all material respects, the financial position of GlobeOp Markets Limited at December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

2. Summary of Significant Accounting Policies

Basis of Presentation

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

Notes to Statement of Financial Condition (Continued)

December 31, 2013

Deferred Taxation

Deferred tax is recognized in respect of all temporary differences that have originated but not reversed at the statement of financial condition date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the statement of financial condition date. Temporary differences are differences between the Company's taxable results and its results as stated in the financial statements. However, deferred tax assets are recognized as recoverable and therefore recognized, only when, on the basis of all available evidence, the Company considers that it is more likely than not there will be suitable profits, from which the future reversal of the underlying timing differences can be realized. Deferred tax is measured at the expected tax rates that apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the statement of financial condition date.

Foreign Currency Translation

Foreign currency transactions are accounted for at the exchange rate prevailing at the date of the transaction; gains and losses resulting from the settlement of such transactions are recognized as a gain/loss on foreign exchange. The assets and liabilities of the Company are translated at year end exchange rates, and revenues and expenses are translated at an average rate for the year. The resulting translation adjustment is reflected in accumulated other comprehensive income within the statement of financial condition.

Guarantees

ASC 460, Guarantees, requires the disclosure of representations and warranties which the Company enters into which may provide general indemnifications to others. The Company in its normal course of business may enter into legal contracts that contain a variety of these representations and warranties that provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be against the Company that have not yet occurred. However, based on its experience, the Company expects the risk of loss to be remote.

Employee Benefit Plan

The Company has no legal or constructive obligations to pay further contributions if the plan does not hold sufficient assets to pay all employees the benefits relating to employee service in the current or prior periods.

3. Related party transactions

The Company incurs costs from GFS Limited and GFS LLC. Occupancy and office costs incurred by GFS Limited and GFS LLC are allocated to the Company based on employee headcount.

In 2013, the amount receivable from affiliate is the amount owed by GFS Limited, \$746,682 (2012: \$614,266 receivable from GFS Limited). The amount receivable from affiliate is repayable as soon as practical.
