RE: DelphyX Services Corporation – December 31, 2013 Annual Audit Report

Dear Mr. Fondren:

This letter is to inform you that your firm's December 31, 2013 annual filing of audited financial statements ("filing") is deficient under Securities Exchange Act Rule 17a-5 because it did not contain a Reconciliation, including appropriate explanations, of the audited Computation of Net Capital and the broker/dealer's corresponding Unaudited Part IIA, if material differences existed. If no material differences existed, a statement so stating should be submitted. This reconciliation should be between the audited financials and the original FOCUS filing.

We urge you to review this letter with your independent accountant as soon as possible.

We request that you re-submit the entire audit, including all documents as required above, through the FINRA Firm Gateway interface found on the FINRA website. Additionally, one copy must be filed with the appropriate SEC Regional District Office and two copies with the SEC's Washington, DC Office. Your submissions must include a new completed Form X-17A-5 Part III Facing Page.

Your firm must respond by March 26, 2014. Questions may be addressed to the undersigned at (215) 963-2611.

Very truly yours,

Eric T. Gray
Principal Regulatory Coordinator

To the Stockholders
DelphX Services Corporation
5 Great Valley Parkway
Malvern, PA 19355

In planning and performing our audit of the financial statements of DelphX Services Corporation (the "Company") as of and for the year ended December 31, 2013, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1) Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
- 2) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2013, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT

To the Stockholder
DelphX Services Corporation
Malvern, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of DelphX Services Corporation (a development stage company) (the "Company"), which comprise the statement of financial condition as of December 31, 2013, and the related statements of operations, changes in stockholders' equity, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of DelphX Services Corporation as of December 31, 2013, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information contained in Schedules I, II, and III is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information in Schedules I, II, and III has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information in Schedules I, II, and III is fairly stated in all material respects in relation to the financial statements as a whole.

DelphX Services Corporation

(A Development Stage Company)

Notes to the Financial Statements For the Year Ended December 31, 2013

1. Nature of Business and Summary of Significant Accounting Policies

Nature of Business – DelphX Services Corporation (the “Company”) was incorporated in the State of Delaware on February 2, 2006. The Company is dedicated to exclusively engaging in the business of referring to other unrelated broker/dealer firms certain institutional customers of the Company’s market-data and technology affiliate, DelphX, LLC (“DelphX”), as prospective new customers of those unrelated firms. For prospective customers that, in fact, become customers of one or more of those broker/dealers (“Referred Customers”), the Company will also refer to the applicable broker/dealer certain orders entered by their Referred Customers on the order-routing and matching systems developed and operated by DelphX. In return for those prospective customer and order referrals, the Company will receive transaction-based referral fees from those unrelated broker/dealers.

The Company has never had customers, and the limited scope of its exclusive referral-only services preclude its need to recruit customers in the future. Accordingly, the Company does not, and will not in the foreseeable future, hold any customer funds or securities. However, as the Company will receive revenue that is indirectly related to securities transactions, it is, and must remain a member in good standing of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC).

Inherent in the Company’s business are various risks and uncertainties, including the Company’s limited operating history and the need for sources of financing to fund the Company’s operations, which have not been obtained as of the date of the financial statements. The Company’s success depends on the ability of it and DelphX to acquire adequate financing and the Company’s ability to generate the revenues described above.

Cash and Cash Equivalents – All highly liquid investments with a maturity date of three months or less when purchased are considered to be cash equivalents.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of income and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes – The Company has elected to be an S corporation for federal and state income tax purposes. Profits or losses pass through to the stockholder to be included in their individual income tax returns. Therefore, no provision or liability for federal and state income taxes has been included in these financial statements.

Accounting Standards Codification 740, *Income Taxes*, clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements, and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

DelphX Services Corporation

(A Development Stage Company)

Notes to the Financial Statements **For the Year Ended December 31, 2013**

There were no uncertain tax positions identified that would have a material effect on the financial statements for the year ended December 31, 2013. Tax periods that are open to examination by the IRS include years 2010 through 2012, although no such examinations were known to exist as of the report date.

2. Related Party Transactions

Effective July 9, 2013, the Company entered into an expense sharing and administrative services agreement with DelphX, a company majority-owned and controlled by the sole stockholder of the Company. The agreement provides for DelphX to pay all expenses of the Company with the exception of annual assessments, dues and subscriptions, securities – related commissions to third parties, federal and state corporate taxes (other than income taxes) and SRO initial and annual licensing and registration fees, which are to be paid for by the Company. Pursuant to the agreement, the Company has no obligation to repay DelphX, or any related affiliate, for any expense paid by DelphX on behalf of the Company. Should this agreement be amended, terminated or replaced by any other understanding between the parties, the Company is required to promptly notify FINRA of such event. There was no allocation of expenses for the year ended December 31, 2013.

3. Changes in Liabilities Subordinated to Claims of General Creditors

As of December 31, 2013, the Company had no liabilities subordinated to claims of general creditors.

4. Minimum Net Capital

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15:1. The Company qualifies as an “other broker or dealer” under SEC Rule 15c3-1(a)(2)(vi) and therefore, is required to maintain minimum net capital of \$5,000. Net capital and aggregate indebtedness change day to day, but net capital as of December 31, 2013 was \$10,714, which was \$5,714 in excess of its required minimum net capital of \$5,000, and the Company’s ratio of aggregate indebtedness to net capital was 0:1, well within the 15:1 maximum ratio allowable for a broker dealer.

5. Subsequent Events

Management has evaluated subsequent events through February 24, 2014, the date the financial statements were available to be issued.

SUPPLEMENTARY INFORMATION

DelphX Services Corporation
(A Development Stage Company)

Schedule I - Computation of Net Capital Pursuant to Rule 15c3-1
