INDEPENDENT AUDITORS' REPORT

Board of Directors
Wisconsin Discount Securities Corporation
Glendale, Wisconsin

We have examined the accompanying statement of financial condition of Wisconsin Discount Securities Corporation as of December 31, 2013 and 2012, and the related statement of income, changes in stockholders' equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the 2013 and 2012 financial statements referred to above present fairly, in all material respects, the financial position of Wisconsin Discount Securities Corporation at December 31, 2012 and 2011, and the results of their operations, and their cash flows for the years then ended, in conformity with generally accepted accounting principles.

Wisconsin Discount Securities Corporation is a member of both the National Association of Securities Dealers and the Municipal Securities Rulemaking Board and is a registered broker-dealer with the Securities and Exchange Commission. The Company is an introducing broker-dealer who forwards all its transactions to a clearing broker-dealer on a fully-disclosed basis. Substantially all commissions earned are received from this clearing broker-dealer. The Company holds no funds or securities for, nor owes funds or securities to, its customers.

The significant accounting policies affecting the financial statements are summarized below to assist the reader in understanding the financial information presented in this report.

Investments:

Investments are stated at cost which approximates market value.

Depreciable assets are stated at cost less accumulated depreciation. Provisions for depreciation are computed on straight-line and accelerated methods over the estimated useful lives of the assets, which range from 5 to 7 years.

Income taxes are computed based on income for financial reporting purposes. Deferred income taxes are reported for timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes. INDEPENDENT AUDITORS' REPORT ON THE
INTERNAL CONTROL STRUCTURE REQUIRED BY SEC RULE 17a-5

February 24, 2014

Board of Directors
Wisconsin Discount Securities Corporation
Glendale, Wisconsin

In planning and performing our audit of the financial statements of Wisconsin Discount Securities for the years ended December 31, 2013 and 2012, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures followed by Wisconsin Discount Securities Corporation that we considered relevant to the objectives stated in Rule 17a-5(g)(1) in making the periodic computation of aggregate indebtedness and net capital under Rule 17a-3(11) and (2) procedures for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures, followed by the Company (1) in making the quarterly securities examinations, counts, verifications and comparisons, and the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; (2) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3 because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for determining compliance with the exemption provisions of Rule 15c3-3, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2013 and 2012 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and the National Association of Securities Dealers, Inc., and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
