INDEPENDENT AUDITORS' REPORT

To the Member of Volant Liquidity, LLC

We have audited the accompanying statement of financial condition of Volant Liquidity, LLC, (the "Company"), as of December 31, 2013 that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the statement of financial condition.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Volant Liquidity, LLC as of December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Report on Other Regulatory Requirements

Our audit was conducted for the purpose of forming an opinion on the financial statement as a whole. The information contained in the supplementary schedules is presented for the purpose of additional analysis and is not a required part of the financial statement, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statement. The information in the supplementary schedules has been subjected to the auditing procedures applied in the audit of the financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information in the supplementary schedules is fairly stated in all material respects in relation to the financial statement as a whole.

VOLANT LIQUIDITY, LLC

Notes to Statement of Financial Condition

December 31, 2013

1. Organization and Business

Volant Liquidity, LLC (the "Company"), a Delaware limited liability company, was formed in March 2009. The Company is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of several equity option exchanges, equity exchanges and futures exchanges. The Company engages in the proprietary trading of exchange-traded equity securities, equity and index options, futures and futures options contracts and U.S. Government securities. Volant Holding LLC is the Company's sole member.

2. Summary of Significant Accounting Policies

Revenue Recognition and Securities Valuation

The Company records all securities and futures transactions on a trade date basis, and, accordingly, gains and losses are recorded on unsettled securities transactions and open futures contracts. Dividends are recorded on the ex-dividend date and interest is recognized on the accrual basis. Investments in securities and securities sold, not yet purchased are recorded in the statement of financial condition at fair value in accordance with Accounting Standards Codification Topic 820 ("ASC 820") - Fair Value Measurement and Disclosures (see Note 11).

Use of Estimates

The preparation of financial statements in conformity with United States Generally Accepted Accounting Principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Income Taxes

No provision has been made for federal U.S. income taxes as the taxable income or loss of the Company is included in the respective income tax return of the sole member.

In accordance with U.S. GAAP, the Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for the years before 2010. Based on its analysis, there were no tax positions identified by management which did not meet the "more likely than not" standard as of and for the year ended December 31, 2013.

3. Exchange Memberships and Stock in Exchanges

The Company's memberships and stock in exchanges, required for corporate equity membership, are reflected in the statement of financial condition at cost (fair value is shown parenthetically). U.S. GAAP requires that such memberships be recorded at cost, or, if a permanent impairment in value has occurred, at a value that reflects management's estimate of the fair value. In the opinion of management, no permanent impairment has occurred during the year.

VOLANT LIQUIDITY, LLC

Notes to Statement of Financial Condition, Continued

December 31, 2013

4. Clearing Agreements

The Company has a Joint Back Office ("JBO") clearing agreement with ABN AMRO Clearing Chicago LLC ("AACC"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$10,000 in the preferred interest of AACC. The Company's investment in AACC is reflected in other assets in the statement of financial condition. Under the rules of the Chicago Board Options Exchange, the agreement requires that the Company maintain a minimum net liquidating equity of \$1 million with AACC, exclusive of its preferred interest investment. The Company also has a clearing agreement with NewEdge USA, LLC, who provides execution and clearing services for the Company in accordance with orders placed by the Company's traders.

5. Receivable from and Payable to Broker-Dealers

Receivables from and payables to broker-dealers includes cash balances held at the Company's brokers, unrealized gains and losses on open futures contracts and the net amount receivable or payable for securities transactions pending settlement. The Company's brokers provide execution, clearing and depository services for the Company's securities and futures trading activities.

6. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to or greater than \$250,000.

At December 31, 2013, the Company had net capital and net capital requirements of \$7,388,090 and \$250,000, respectively.

7. Concentration of Credit Risk

At December 31, 2013, a significant credit concentration consisted of approximately \$8.2 million, representing the fair value of the Company's trading accounts carried by one of its clearing brokers, AACC. Management does not consider any credit risk associated with this receivable to be significant.

8. Related Party Transactions

The Company has a facilities services agreement with Volant Holding, LLC, its sole member, under which the member provides use of traders, developers, support personnel, information technology support, office space, utilities, supplies, data content, data lines, exchange feeds, equipment, software, insurance and administrative services.

VOLANT LIQUIDITY, LLC

Notes to Statement of Financial Condition, Continued

December 31, 2013

9. Financial Instruments

Accounting Standards Codification Topic 815 ("ASC 815"), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit risk related contingent features in derivative agreements. The disclosure requirements of ASC 815 distinguish between derivatives, which are accounted for as "hedges" and those that do not qualify for such accounting. The Company reflects derivatives at fair value and recognizes changes in fair value through the statement of operations, and as such do not qualify for ASC 815 hedge accounting treatment.

In the normal course of business, the Company enters into transactions in derivative financial instruments that include futures contracts and exchange-traded options contracts as part of the Company's overall trading strategy. All derivative instruments are held for trading purposes. Fair values of options contracts are recorded in securities owned or securities sold short, as appropriate. Open trade equity in futures transactions is recorded as receivables from and/or payables to broker-dealers, as applicable. All positions are reported in the accompanying statement of financial condition at fair value and gains and losses from derivative financial instruments are reflected in trading gains in the statement of operations.

Futures contracts provide for the delayed delivery/receipt of the underlying instrument. As a writer of options contracts, the Company receives a premium in exchange for giving the counterparty the right to buy or sell the underlying instrument at a future date at a contracted price. The contractual or notional amounts related to these financial instruments reflect the volume and activity and do not reflect the amounts at risk. Futures contracts are executed on an exchange, and cash settlement is made on a daily basis for market movements. Accordingly, futures contracts generally do not have credit risk. The credit risk for options contracts is limited to the unrealized fair valuation gains recorded in the statement of financial condition. Market risk is substantially dependent upon the value of the underlying instruments and is affected by market forces such as volatility and changes in interest and foreign exchange rates.

Securities sold short represent obligations of the Company to deliver the security or underlying instrument and, thereby, create a liability to repurchase the security or underlying instrument in the market at prevailing prices. Accordingly, these transactions result in risk as the Company's satisfaction of the obligations may exceed the amount recognized in the statement of financial condition.

The Company is engaged in various trading activities in which counterparties primarily include broker-dealers. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

VOLANT LIQUIDITY, LLC

Notes to Statement of Financial Condition, Continued

December 31, 2013

10. Guarantees

Accounting Standards Codification Topic 460 ("ASC 460"), Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others.

Certain derivatives contracts that the Company has entered into meet the accounting definition of a guarantee under ASC 460. Derivatives that meet the ASC 460 definition of guarantees include futures contracts and written options. The maximum potential payout for these derivatives contracts cannot be estimated as increases in interest rates, foreign exchange rates, securities prices, commodities prices and indices in the future could possibly be unlimited.

The Company records all derivative contracts at fair value. For this reason, the Company does not monitor its risk exposure to derivatives contracts based on derivative notional amounts; rather the Company manages its risk exposure on a fair value basis. The Company believes that the notional amounts of the derivative contracts generally overstate its exposure. Aggregate market risk limits have been established, and market risk measures are routinely monitored against these limits. The Company believes that market risk is substantially diminished when all financial instruments are aggregated.

11. Fair Value Measurement and Disclosures

ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

VOLANT LIQUIDITY, LLC

Notes to Statement of Financial Condition, Continued

December 31, 2013

11. Fair Value Measurement and Disclosures, continued

- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

	Level 1	
	Assets	Liabilities
	Securities Owned	Securities Sold Short
Equities	\$ 118,278,252	\$ 69,417,102
Options	639,109,817	502,473,502
	<u>\$ 757,388,069</u>	<u>\$ 571,890,604</u>

At December 31, 2013, the Company had net unrealized gains on open futures contracts totaling \$27,081,651, which were Level 1 investments. This amount is reflected in payable from broker-dealer in the statement of financial condition. At December 31, 2013, the Company held no Level 2 or Level 3 investments.

12. Contingencies

In the normal course of business the Company is subject to various regulatory inquiries that may result in claims from potential violations which may possibly involve sanctions and or fines. These matters are rigorously defended as they arise.

13. Subsequent Events

The Company's management has evaluated events and transactions through February 25, 2014, the date the financial statements were issued, noting no material events requiring disclosure in the Company's financial statements, except those noted below.

Through January 31, 2014, the Company had capital contributions totaling \$350,000.

SUPPLEMENTAL SCHEDULES

VOLANT LIQUIDITY, LLC

Computation of Net Capital for Broker and Dealers pursuant to Rule 15c3-1

December 31, 2013

Computation of net capital

Total member's equity		\$	12,032,668
Deductions and/or charges:			
Nonallowable assets:			
Memberships and stock in exchanges, at cost	\$	1,769,132	
Other assets		<u>1,030,293</u>	(2,799,425)
Commodity futures contracts and spot commodities proprietary capital charges		<u>1,845,153</u>	<u>(1,845,153)</u>
Net capital before haircuts on securities positions			7,388,090
Haircuts on securities:			
Trading and investment securities:			<u>-</u>
Net capital		\$	<u><u>7,388,090</u></u>

Computation of alternative net capital requirement

Minimum dollar net capital requirement of reporting broker or dealer and minimum net capital requirement of subsidiaries computed in accordance with Note (A)			250,000
Net capital requirement			<u>250,000</u>
Net capital in excess of net capital requirement		\$	<u><u>7,138,090</u></u>

Note (A) The minimum net capital requirement should be computed by adding the minimum dollar net capital requirement of the reporting broker dealer and, for each subsidiary to be consolidated, the greater of:

1. Minimum dollar net capital requirement, or
2. 6-2/3% of aggregate indebtedness or 2% of aggregate debits if alternative method is used.

There are no material differences between the above computation and the Company's corresponding amended unaudited Form FOCUS Part II filing as of December 31, 2013.

See accompanying notes.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

To the Member of
Volant Liquidity, LLC

In planning and performing our audit of the statement of financial condition of Volant Liquidity, LLC (the "Company"), as of December 31, 2013, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
- (2) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2013, to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, FINRA, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers-dealers, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads 'Ryan & Juraska'. The signature is written in a cursive, flowing style.
