## Independent Auditor's Report

To the Board of Directors and Stockholder  
Keeley Investment Corp.  
Chicago, Illinois

### Report on the Financial Statement

We have audited the accompanying statement of financial condition of Keeley Investment Corp. (the Company) as of December 31, 2013 that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes (the financial statement).

### Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Keeley Investment Corp. as of December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

## Keeley Investment Corp.

### Notes to Statement of Financial Condition

---

#### Note 1. Nature of Business and Significant Accounting Policies

**Organization and nature of business:** Keeley Investment Corp. (the Company) is a wholly-owned subsidiary of Keeley Holdings, Inc. (KHI), and KHI is a wholly-owned subsidiary of Joley Corp. (the Parent Company). The Parent Company is the parent of the Company, Keeley Asset Management Corp. (KAMCO), an investment adviser registered with the Securities and Exchange Commission (SEC), and KHI. The Parent Company thus controls the Company, KAMCO and KHI.

The Company is a registered broker-dealer with the SEC and a member of the Financial Industry Regulatory Authority (FINRA). The Company introduces its customers to a clearing broker on a fully disclosed basis. The Company may enter into transactions in derivative financial instruments, including options, in order to facilitate its trading activities.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that Rule. The requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

A summary of the Company's significant accounting policies follows:

The Company follows Generally Accepted Accounting Principles (GAAP), as established by the Financial Accounting Standards Board (the FASB), to ensure consistent reporting of financial condition, results of operation, and cash flows.

**Use of estimates:** The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Revenue recognition:** Commission income and related expenses from customer transactions are recorded on a trade-date basis as securities transactions occur. Distribution and underwriting income arise from securities offerings in which the Company acts as an underwriter or agent and are recorded on the accrual basis. Interest income is recorded on the accrual basis.

**Income taxes:** The Company has elected to be treated as a qualified subchapter "S" subsidiary under the Internal Revenue Code. The Company is included in the consolidated federal income tax returns filed by the Parent Company. Federal income taxes are calculated as if the companies filed on a separate return basis, and the amount of the current tax calculated is remitted by the Parent Company.

The Company is required to pay an Illinois Replacement Tax of 1.5 percent of taxable income. As the ultimate payment is remitted by the Parent Company, the Company records an inter-company payable to remit its share of Illinois Replacement Tax to KHI, which will in turn remit payment to the Parent Company. The accrued replacement tax for the year ended December 31, 2013, totaled \$128,000, which is included in accounts payable, accrued expenses and other liabilities in the accompanying statement of financial condition.

**Keeley Investment Corp.**

**Notes to Statement of Financial Condition**

---

**Note 1. Nature of Business and Significant Accounting Policies (Continued)**

FASB guidance requires the evaluation of income tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the income tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Income tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. For the year ended December 31, 2013 management has determined that there are no material uncertain income tax positions. The Company is included in the Parent Company's consolidated income tax returns in U.S. federal jurisdiction, and various states. The Parent Company is generally not subject to examination by United States federal or state taxing authorities for tax years before 2010.

**Subsequent events:** The Company has evaluated subsequent events for potential recognition and/or disclosure through the date these financial statements were issued, noting none.

**Note 2. Receivable from Clearing Broker-Dealer**

Amounts receivable from clearing broker-dealer consist of \$4,185,266 of money market fund investments and \$721,745 of commissions receivable owed to the Company for execution services at December 31, 2013.

**Note 3. Transactions with Related Parties**

The Company provides clerical support and other administrative services to KAMCO under the terms of an agreement for a negotiated amount. Pursuant to an expense sharing agreement, the Company has a receivable from KAMCO for \$470,719 as of December 31, 2013 which is included in Other Assets on the statement of financial condition.

The Company may receive front-end sales charge income when certain share classes of the Funds are sold by its representatives. The Company also receives 0.50 percent of all sales made with a front-end sales charge regardless of whether the selling representative is employed by the Company.

The Company also provides brokerage services to the Funds and has received brokerage commissions for these services.

The Company is the distributor of a family of affiliated mutual funds, the Keeley Funds, Inc. (the Funds). The Company received income from the Funds pursuant to an approved Rule 12b-1 distribution plan. The Company also received Rule 12b-1 distribution plan reimbursements from the Funds, which the Company in turn remitted to various third-parties. The Company has a receivable balance of \$296,561 included in distribution and shareholder services expense reimbursement receivable in the statement of financial condition at December 31, 2013.

## Keeley Investment Corp.

### Notes to Statement of Financial Condition

---

#### Note 3. Transactions with Related Parties (Continued)

The Company is the shareholder servicing agent for the Funds and accordingly, receives a monthly fee at the annual rate of 0.05 percent of the Funds' average daily net assets for shareholder services. The Company has a receivable balance of \$163,735 included in distribution and shareholder services expense reimbursement receivable in the statement of financial condition at December 31, 2013.

#### Note 4. Fair Value Measurements

The Company records its investments at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company utilizes valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets and liabilities recorded at fair value are categorized within the fair value hierarchy based upon the level of judgment associated with the inputs used to measure their value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1. Unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date.

Level 2. Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3. Inputs that are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The Company carried \$4,185,266 in money market mutual funds, which is included in receivables from clearing broker-dealer in the statement of financial condition, as of December 31, 2013. These financial instruments are considered Level 1, measured at fair value on a recurring basis based on quoted prices for identical assets in active markets. The Company did not hold any Level 2 or Level 3 assets or liabilities as of or during the year ended December 31, 2013.

The Company assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Company's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. There were no transfers among Levels 1, 2, and 3 during the year.

## **Keeley Investment Corp.**

### **Notes to Statement of Financial Condition**

---

#### **Note 5. Commitments and Contingencies**

The Parent Company has pledged the stock of the Company to serve as collateral on a senior secured credit facility of the Parent Company.

The Company has a standby unsecured letter of credit of \$50,000 that matures on January 31, 2015. The beneficiary of the letter is the Company's clearing broker-dealer (National Financial Services LLC).

#### **Note 6. Indemnifications**

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

#### **Note 7. Employee Benefit Plans**

The Company has a defined contribution profit sharing plan which covers substantially all full-time employees and provides for discretionary annual contributions based upon a percent of compensation paid. The discretionary contribution of \$261,855 remains payable and is included in employee compensation and benefits payable in the statement of financial condition at December 31, 2013. Contributions made by the Company vest based upon eligible years of service with a 25 percent vesting after one year and 100 percent vesting occurring in the third year.

The Company also has a 401(k) plan which covers substantially all full-time employees. The Company makes matching contributions up to 6 percent of compensation not to exceed a stated maximum. The matching contribution of \$344,570 remains payable and is included in employee compensation and benefits payable in the statement of financial condition at December 31, 2013.

#### **Note 8. Off-Balance-Sheet Risk and Concentration of Credit Risk**

Securities transactions of customers are introduced to and cleared through a clearing broker-dealer. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the clearing broker-dealer, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral or reduce positions when necessary.

Securities owned may be used as collateral by the clearing broker-dealer for amounts owed to such clearing broker. The Company did not have any material payables to the clearing broker-dealer at December 31, 2013.

The clearing and depository operations for the Company's security transactions are performed by its clearing broker pursuant to a clearance agreement. The Company consistently monitors the creditworthiness of the clearing broker to mitigate the Company's exposure to credit risk.

**Keeley Investment Corp.**

**Notes to Statement of Financial Condition**

---

**Note 8. Off-Balance-Sheet Risk and Concentration of Credit Risk (Continued)**

The Company is engaged in various trading activities whose counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business. The Company is engaged in brokerage activities whose counterparties primarily include broker-dealers, banks, and other financial institutions.

The Company does not anticipate nonperformance by clients or counterparties in the preceding situations. If either a customer or counterparty fails to perform, the Company may be required to discharge the obligation of the nonperforming party and, in such circumstances, the Company may sustain a loss. The Company has a policy of reviewing, as considered necessary, the credit standing of each counterparty with which it conducts business.

The Company maintains accounts with financial institutions which, at times, may exceed FDIC insurance limits. The Company has not incurred any losses on these accounts in the past and does not expect any such losses in the future.

**Note 9. Regulatory Requirements**

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting ratio would exceed 10 to 1). At December 31, 2013, the Company had net capital of \$2,362,801, which was \$2,112,801 in excess of its required net capital of \$250,000. The Company's net capital ratio was 1.13 to 1.

Pursuant to a senior credit facility of KHI, the Company must distribute to KHI any net capital in excess of \$5,000,000 on a quarterly basis.
