INDEPENDENT AUDITORS' REPORT

The Board of Directors of
ViewTrade Securities, Inc.

Report on the Financial Statements

We have audited the accompanying statement of financial condition of ViewTrade Securities, Inc. (the "Company") as of December 31, 2013 that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of ViewTrade Securities, Inc. as of December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

VIEWTRADE SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Business

ViewTrade Securities, Inc. (the "Company") was incorporated in Delaware in May 2000. The Company is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority, Inc. The Company is a wholly owned subsidiary of ViewTrade Holding Corporation ("VTH").

Clearing Agreement

The Company, under Rule 15c3-3(k)(2)(ii), is exempt from the reserve and possession or control requirements of Rule 15c3-3 of the Securities and Exchange Commission. The Company does not carry or clear customer accounts. Accordingly, all customer transactions are executed and cleared on behalf of the Company by its clearing broker on a fully disclosed basis. The Company's agreement with its clearing broker provides that as clearing broker, that firm will make and keep such records of the transactions effected and cleared in the customer accounts as are customarily made and kept by a clearing broker pursuant to the requirements of Rules 17a-3 and 17a-4 of the Securities and Exchange Act of 1934, as amended (the "Act"). It also performs all services customarily incident thereon, including the preparation and distribution of customer's confirmation and statements and maintenance margin requirements under the Act and the rules of the Self Regulatory Organizations of which the Company is a member.

Revenue recognition

The Company records proprietary transaction, commission revenue and related expenses on a trade date basis. Securities transactions are recorded on a trade-date basis and related charges in fair value are reflected in income.

Depreciation

The Company provides for depreciation of furniture, equipment and software on a straight-line basis over the estimated lives of the related assets ranging from 3 to 7 years.

Income Taxes

The Company files a consolidated income tax return with its parent and provides for income taxes as if the Company filed separately. The Company, however, does not file consolidated for state income tax purposes. The Company accounts for income taxes in accordance with Accounting Standards Classification Topic 740-10, "Accounting for Income Taxes." Under the asset and liability method of ASC Topic 740-10, deferred tax assets and liabilities are recognized for the estimated future tax consequences or benefits attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

VIEWTRADE SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

(Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes (concluded)

The Company is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any tax related appeals or litigation processes, based on the technical merits of the position. The Company files an income tax return in the U.S. federal jurisdiction, and may file income tax returns in various U.S. states. The Company is not subject to income tax return examinations by major taxing authorities for years before 2010. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Company recording a tax liability that reduces net assets. However, the Company's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof. The Company recognizes interest accrued related to unrecognized tax benefits and penalties related to unrecognized tax benefits in income taxes payable, if assessed. No interest expense or penalties have been recognized as of and for the year ended December 31, 2013.

Valuation of Securities

The Company values its using Account Standards Codification 820, "Fair Value Measurements" (ASC 820). Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

VIEWTRADE SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

(Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Valuation of Securities *(continued)*

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and blockage discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Company values investments in securities and securities sold, not yet purchased that are freely tradable and are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year.

VIEWTRADE SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

(Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Valuation of Securities (concluded)

Many cash and over the counter (OTC) contracts have bid-and-ask prices that can be observed in the marketplace. Bid prices reflect the highest price that the marketplace participants are willing to pay for an asset. Ask prices represent the lowest price that the marketplace participants are willing to accept for an asset. For securities whose inputs are based on bid-ask prices, the Company's valuation policies required the fair value be within the bid-ask range, the Company's policy for securities traded in the OTC markets and listed securities for which no sale was reported on that date are valued at their last reported "bid" price these securities are included in Level 1 of the fair value hierarchy.

Statement of Cash Flows

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - FAIR VALUE MEASUREMENTS

The Company's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820. See Note 1 for a discussion of the Company's policies.

The following table presents information about the Company's assets and liabilities measured at fair value as of December 31, 2013.

	Quoted Prices in Active Markets for Identical Assets <u>Level 1</u>	Significant Other Observable Inputs <u>Level 2</u>	Significant Unobservable Inputs <u>Level 3</u>	Balance as of <u>December 31, 2013</u>
Investments in securities, at fair value	\$ <u>56,585</u>	\$ <u>6,909</u>	\$ <u>-</u>	\$ <u>63,494</u>

VIEWTRADE SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

(Continued)

NOTE 2 - FAIR VALUE MEASUREMENTS (Concluded)

The Company did not have any significant transfers between Level 1 and Level 2 during the year ended December 31, 2013.

NOTE 3 - COMMITMENTS AND RELATED PARTY TRANSACTIONS

The Company had leased office space, facilities and equipment from unrelated parties under noncancellable operating leases which expired in 2013. The leases were extended on a month to month basis through a portion of 2014 until a new lease was entered into. At December 31, 2013, aggregate minimum future rental commitments under these leases with initial or remaining terms in excess of one year are as follows:

<u>Year</u>	<u>Amount</u>
2014	\$ 37,525
2015	65,453
2016	67,428
2017	69,455
2018	71,544
2019	30,178
	<u>\$ 341,583</u>

Total rental expense of \$232,254 including the noncancellable lease referred to above, was charged to operations during the year ended December 31, 2013.

In addition, at December 31, 2013, the Company had advances to its parent of \$2,159,512. The advances are non-interest bearing, and are due on demand.

NOTE 4 - INCOME TAXES

For the year ended December 31, 2013, the Company recorded an income tax provision resulting from income recorded on a separate company basis. The recorded income tax provision of \$390,525 is higher than the expected 34% income tax rate due to state income taxes and federal statutory rates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

NOTE 5 - NET CAPITAL REQUIREMENTS

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. At December 31, 2013, the Company had net capital and net capital requirements of \$969,777 and

VIEWTRADE SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

(Continued)

NOTE 5- NET CAPITAL REQUIREMENTS (Concluded)

\$100,000. The Company's net capital ratio (aggregate indebtedness to net capital) was .72 to 1. According to Rule 15c3-1, the Company's net capital ratio shall not exceed 15 to 1.

NOTE 6 - LIABILITIES SUBORDINATED TO CLAIMS OF GENERAL CREDITORS

At December 31, 2013 the liabilities subordinated to claims of general creditors shown on the accompanying statement of financial condition represents amounts owed to individuals under three separate subordinated loan agreements. The notes bear interest at 7% and are due on November 15, 2014. The notes are approved by the Financial Industry Regulatory Authority, Inc. as subordinated loans, and thus are available in the computation of net capital under the Securities and Exchange Commission's uniform net capital rule. To the extent that such borrowings are required for the Company's continued compliance with the minimum net capital requirements, they cannot be repaid.

NOTE 7 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISKS AND UNCERTAINTIES

The Company is in business as a securities broker-dealer registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority, Inc. The Company is a retail brokerage house and deals primarily in equity securities (in which it may act as a market maker) which it buys and sells on behalf of its customers on a fully disclosed basis, and for itself in its own trading activities.

In the normal course of business, the Company's client activities ("clients") through its clearing broker involve the execution, settlement, and financing of various client securities transactions. These activities may expose the Company to off-balance sheet risk. In the event the client fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices in order to fulfill the client's obligations.

The Company is involved in various disputes arising in the normal course of business, some of which are indeterminable in amount. Management, after review and discussion with counsel, believes the Company has meritorious defenses and intends to vigorously defend itself in these matters, but it is not feasible to predict the final outcome at the present time.

In the Company's trading activities, the Company has purchased securities for its own account and may incur losses if the market value of these securities declines subsequent to December 31, 2013.

The Company's financial instruments, including cash and cash equivalents, receivables, other assets, payables and other liabilities are carried at amounts that approximate fair value, due to the short-term nature of the instruments. Securities owned are valued at fair value using quoted market prices.

VIEWTRADE SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

(Concluded)

**NOTE 7 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISKS
AND UNCERTAINTIES (Concluded)**

In addition, the Company bears the risk of financial failure by its clearing broker. If the clearing broker should cease doing business, the Company's receivable and deposit from this clearing broker could be subject to forfeiture. Also the Company has deposits in banks in excess of the federally insured amount of \$17,042 which is subject to loss should the bank cease business.

NOTE 8 - SUBSEQUENT EVENTS

The Company has performed an evaluation of subsequent events through the date that the financial statements were issued. The evaluation did not result in any subsequent events that required disclosures and/or adjustments.
