## INDEPENDENT AUDITORS' REPORT

The Member of  
Swiftsure Securities LLC

### *Report on the Financial Statements*

We have audited the accompanying statement of financial condition of Swiftsure Securities LLC (the "Company") as of December 31, 2013 that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934 and the related notes to the financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of the Company as of December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

## SWIFTSURE SECURITIES LLC

### NOTES TO FINANCIAL STATEMENTS

#### **NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **Organization and Business**

Swiftsure Securities LLC (the "Company") is a Washington limited liability company formed on February 6, 2006 doing business in Washington as a registered broker-dealer in securities pursuant to the Securities Exchange Act of 1934, as amended, and is a member of the Financial Industry Regulatory Authority, Inc. The Company provides investment banking services, primarily private placements and merger and acquisition services.

##### **Rule 15c3-3**

The Company, under Rule 15c3-3(k)(2)(i), is exempt from the reserve and possession or control requirements of Rule 15c3-3 of the Securities and Exchange Commission.

##### **Revenue Recognition and Securities Transactions**

Investment banking revenues include fees arising from securities offerings in which the Company acts as an agent. Investment banking fees are recorded on the completion date of the private securities offering.

##### **Valuation of Investments**

The Company values its investments in accordance with Accounting Standards Codification 820 - Fair Value Measurements ("ASC 820"). Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and blockage discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

SWIFTSURE SECURITIES LLC

NOTES TO FINANCIAL STATEMENTS

**NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**  
(continued)

**Valuation of Investments** (continued)

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Company's investments in private companies consist of direct private equity investments. The transaction price, excluding transaction costs, is typically the Company's best estimate of fair value at inception. When evidence supports a change to the carrying value from the transaction price, adjustments are made to reflect expected exit values. Ongoing reviews by the Company's management are based on an assessment of each underlying investment, incorporating valuations that consider the evaluation of financing and sale transactions with third parties, comparable transactions and the overall stability of the principal market where the security would trade if the security were public. These nonpublic securities are included in Level 3 of the fair value hierarchy.

**SWIFTSURE SECURITIES LLC**  
**NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**  
*(concluded)*

**Income Taxes**

The Company is a limited liability company and, accordingly, all income or loss accrues to the individual member individually.

**Fair Value of Financial Instruments**

The carrying amounts reflected in the financial statements for cash, receivables, accounts payable and accrued expenses approximate their respective fair values due to the short maturities of these instruments. The Company values its investments as described above.

**Cash Equivalents**

For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

**Use of Estimates**

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 2 - RELATED PARTIES**

The Company has an expense sharing agreement with its parent whereby, it pays its parent for rent, office supplies, postage, telephone, internet and management fees. For the year ended December 31, 2013, the Company paid \$460,176 for these services.

**NOTE 3 - NET CAPITAL REQUIREMENTS**

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. At December 31, 2013, the Company had net capital and net capital requirements of \$108,703 and \$5,000 respectively. The Company's net capital ratio (aggregate indebtedness to net capital) was 0.39 to 1. According to Rule 15c3-1, the Company's net capital ratio shall not exceed 15 to 1.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 4 - FAIR VALUE MEASUREMENTS**

The Company's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820. See Note 1 for a discussion of the Company's policies.

The following table presents information about the Company's assets measured at fair value as of December 31, 2012:

	<b>Quoted Prices in</b>			
	<b>Active Markets for</b>	<b>Significant Other</b>	<b>Significant</b>	
	<b>Identical Assets</b>	<b>Observable Inputs</b>	<b>Unobservable</b>	<b>Balances at</b>

<b>Assets:</b>				
Investments, at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 191,457</u>	<u>\$ 191,457</u>

The following table presents additional information about Level 3 assets measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions that the Company has classified within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category may include changes in fair value that were attributable to both observable and unobservable inputs.

Changes in Level 3 assets measured at fair value for the year ended December 31, 2013 are as follows:

	<b>Balance as</b>	<b>Realized and</b>	<b>Net</b>	<b>Balance as</b>	<b>Change in</b>

**NOTES TO FINANCIAL STATEMENTS**

***NOTE 5 - CONTINGENCIES AND OFF-BALANCE SHEET RISK***

The Company is engaged in various corporate financing activities with counterparties that primarily include issuers with which the Company has an investment banking assignment. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

The Company holds investments for its own account and may incur losses if the fair value of its investments decreases subsequent to December 31, 2013.

***NOTE 6 - SUBSEQUENT EVENTS***

The Company has performed an evaluation of subsequent events through the date the financial statements were issued. The evaluation did not result in any subsequent events that required disclosures and/or adjustments.
