NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2013

NOTE 1. ORGANIZATION AND NATURE OF BUSINESS

SMF Trading Inc, (the "Company") began operations under the current management in December 2011. The Company, D/B/A World-Xecution Strategies as of October 3, 2012, is a broker-dealer registered with the Securities Exchange Commission ("SEC"), and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company is a New York Corporation and, as of September 11, 2013, is wholly owned by World-X Holdings, LLC (the "Parent"). The Company will continue indefinitely, unless terminated sooner by Management.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company prepares its financial statements on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with United States of America generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Company complies with FASB ASC 740, Income Taxes which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. ASC 740 also requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns

to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year.

The Company has a combined deferred federal, state and city deferred income tax asset of \$301,248 at December 31, 2013 related to the current year net loss and to net operating loss carry forwards. A valuation allowance has been established offsetting the \$301,248 as the ultimate realization of these benefits is uncertain. The Company had federal net operating loss carry forwards of \$672,308 as of December 31, 2013 which begin to expire in 2031.

The valuation allowance increased by \$142,732 for the year ended December 31, 2013.
