To the Stockholders  
**KENSINGTON CAPITAL CORP.**  
Brooklyn, New York

I have audited the accompanying statement of financial condition of KENSINGTON CAPITAL CORP., a New York corporation as of December 31, 2013 and the related statements of income, retained earnings and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934 and Regulation 1.16 under the Commodity Exchange Act. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of KENSINGTON CAPITAL CORP., as of December 31, 2013 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

KENSINGTON CAPITAL CORP.  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

KENSINGTON CAPITAL CORP. (the Company) was organized and commenced operations in June 1982. The Company is a non-clearing broker-dealer and is exempt from provisions of Rule 15c3-3 because all customers' accounts are carried by a clearing broker, on a fully disclosed basis. For financial statement and income tax purposes the Company records income and expenses using the accrual basis of accounting.

Cash and Cash Equivalents:

The Company considers all highly liquid investments with maturities of three months or less at the time of the purchase to be cash equivalents.

Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation is computed on the straight-line method (half-year convention) or modified accelerated cost recovery method over the estimated useful lives. The estimated useful lives of property and equipment are from 3 to 5 years. Expenditures for maintenance and repairs are charged against operations. Renewals and betterments that materially extend the life of the assets are capitalized.

Depreciation:

Depreciation is computed for both financial reporting purposes and federal income tax purposes using the straight-line method or modified accelerated cost recovery method. The effect of this departure from a generally accepted depreciation method has been determined to have no material effect on the financial statements.

Advertising

Advertising costs are expensed as incurred. Advertising expense was \$ 102,958 for the year ended December 31, 2013.

Provision for Bad Debts

The Company uses the direct write off method for reporting its bad debts.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances may result in revised estimates.

See Accountants' Report.

**Report of Independent Registered Public Accounting Firm  
on Internal Control Pursuant to Securities and Exchange commission Rule 17a-5  
and Commodity Futures Trading Commission Regulation 1.16**

To the Stockholders  
KENSINGTON CAPITAL CORP.  
Brooklyn, New York

February 23, 2014

In planning and performing my audit of the statement of financial condition of Kensington Capital Corp. as of and for the year ended December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, I considered the Company's internal control over financial reporting ( internal control ) as a basis for designing my auditing procedures for the purpose of expressing my opinion on the statement of financial condition, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, I do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in the following:

1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e);
2. Making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13.

I have examined the accompanying financial statements of Kensington Capital Corp. for the year ended December 31, 2013, and have issued my report thereon dated February 23, 2014. As part of my examination, I made a study and evaluation of the Companies system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of my study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

To the Stockholders  
KENSINGTON CAPITAL CORP.

I also made a study of the practices and procedures followed by the Company under Rule 17a-5(g)(1) and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. I did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governor of the Federal Reserve System because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control procedures or the practices and procedures referred to above, errors or irregularities may, nevertheless, occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

My study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, I do not express an opinion on the system of internal accounting control of KENSINGTON CAPITAL CORP. taken as a whole. However, my study and evaluation disclosed no condition that we believed to be a material weakness.

To the Stockholders  
KENSINGTON CAPITAL CORP.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and regulation 1.16 under the Commodity Exchange Act and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, I believe that the Company's practices and procedures were adequate at December 31, 2013 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and the New York Stock Exchange and should not be used for any other purpose.
