INDEPENDENT AUDITOR'S REPORT

To the Member of
Brownstone Investment Group, LLC:

We have audited the accompanying statement of financial condition of Brownstone Investment Group, LLC as at December 31, 2013, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of the statement of financial condition in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial condition that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the statement of financial condition based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statement of financial condition. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statement of financial condition, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the statement of financial condition in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statement of financial condition.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Brownstone Investment Group, LLC as at December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

BROWNSTONE INVESTMENT GROUP, LLC
NOTES TO STATEMENT OF FINANCIAL CONDITION
AS AT DECEMBER 31, 2013

ORGANIZATION AND NATURE OF BUSINESS:

Brownstone Investment Group, LLC (the "Company") is organized under the laws of the State of New York. The Company is registered as a broker-dealer in securities with the Securities and Exchange Commission ("SEC") and Municipal Securities Rulemaking Board ("MSRB") and is also a member of Financial Industry Regulatory Authority, Inc. ("FINRA") and the New York Stock Exchange ("NYSE"). The Company operates primarily to engage in corporate debt securities transactions solely for its own account. Revenue is derived principally from trading profits executed for the Company's own account.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

METHOD OF ACCOUNTING - The accompanying financial statements have been prepared on the accrual basis of accounting. The accrual basis of accounting recognizes revenues in the accounting period in which revenues are earned regardless of when cash is received, and recognizes expenses in the accounting period in which expenses are incurred regardless of when cash is disbursed.

MANAGEMENT'S USE OF ESTIMATES AND ASSUMPTIONS - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

REVENUE RECOGNITION - Securities transactions and the related revenue are recorded on a trade date basis, which is the day the transaction is executed.

CASH AND CASH EQUIVALENTS - Cash equivalents consist of highly liquid investments with original maturities of three months or less.

SECURITIES - Securities owned and securities sold short are recorded on trade date and are valued at fair value in accordance with FASB ASC 820 as described below. Realized and unrealized gains and losses from securities traded in the normal course of business and applicable interest and dividends are reflected in net gain from principal transactions on the statement of income.

FURNITURE, FIXTURES, EQUIPMENT AND DEPRECIATION - Furniture, fixtures and equipment are recorded at cost. Depreciation for financial accounting purposes is computed on the straight-line method over their estimated useful lives of 5 to 7 years.

LEASEHOLD IMPROVEMENTS AND AMORTIZATION - Leasehold improvements are recorded at cost. Amortization is computed over the life of the lease including the renewable option years.

INCOME TAXES - The Company is not subject to income taxes. Taxes, if any, are the responsibility of the member. The member is required to report separately on its income tax return its distributive share of the taxable income or loss of the Company.

AS AT DECEMBER 31, 2013

MARKETABLE SECURITIES MEASURED AT FAIR VALUE ON A RECURRING BASIS:

The Company uses FASB ASC 820, Fair Value Measurements and Disclosures, for fair value measurements and disclosures. FASB ASC 820 defines fair value and establishes a framework for measuring fair value. It also expands the disclosure about the use of fair value to measure assets and liabilities.

The Company has categorized its financial instruments, based on priority of inputs to the valuation technique, into a three-level fair value hierarchy. The fair value gives the highest priority to quoted prices in active markets for identical assets or liabilities (level 1), then to quoted prices for similar assets or liabilities and other observable inputs (level 2) and the lowest priority to unobservable inputs (level 3). If the inputs used to measure financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Securities owned and securities sold short are measured at fair value on a recurring basis. At December 31, 2013, the amounts consist of:

	<u>Securities Owned</u>	<u>Securities Sold Short</u>
Corporate bonds.....	\$ 74,079,649	\$ 47,915,988
Equity securities.....	4,597,533	1,544,071
Municipal bonds.....	45,662,520	
U.S. Treasury.....	2,426,134	1,647,943
Options.....	126,563	
Other.....	6,153,527	
	<u>\$133,045,926</u>	<u>\$ 51,108,002</u>

For corporate bonds, equity securities, municipal bonds, options and US Treasury, fair value is determined by reference to quoted market prices and other observable inputs (level 2). Other observable inputs are inputs that reflect assumptions that market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. The other amount in securities owned of \$6,153,527 represents private investments valued using performance measures of comparable marketable assets (level 3).
