AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error.

In making those risk assessments, the auditors consider internal control relevant to the procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluating the overall presentation of the financial statement.

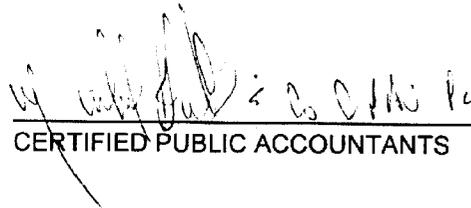

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Note 2 - Summary of Significant Accounting Policies (continued)

Income Taxes

No provision for federal and state income taxes has been recorded because the Company is a limited liability company. Accordingly, the individual members report their share of the Company's income or loss on their income tax returns. The Company is subject to the New York City Unincorporated Business Tax ("UBT").

The Company complies with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax asset and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The deferred city income tax liability is the result of differences between the accrual method of accounting for financial reporting and the cash basis for income tax reporting.

The Company's federal, state and local tax returns are subject to possible examination by the taxing authorities until expiration of the related statutes of limitations on those tax returns. In general, the federal and state income tax returns have a three year statute of limitations. The Company would recognize accrued interest and penalties associated with uncertain tax positions, if any, as part of the income tax provision.

The Company's local tax returns for the years 2009 through 2012 are currently under examination. While management is unable to predict with certainty the outcome of the examinations, based on current knowledge, the Company does not expect the ultimate resolution of the pending examinations will have a material adverse effect on the Company's financial statement.

The adoption of ASC 820 had no effect on the Company's financial statements. ASC 820 accomplishes the following key objectives:

Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date;

Establishes a three-level hierarchy (the "Valuation Hierarchy") for fair value measurements;

Requires consideration of the Company's creditworthiness when valuing liabilities; and

Expands disclosures about instruments measured at fair value.

XT CAPITAL PARTNERS, LLC
NOTES TO FINANCIAL STATEMENT
December 31, 2013

Note 9 – Fair Value (continued)

The Valuation Hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the Valuation Hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the Valuation Hierarchy and the distribution of the Company's financial assets within it are as follows:

Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – inputs to the valuation methodology included quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Certain financial instruments are carried at cost on the balance sheet, which approximates fair value due to their short-term, highly liquid nature. These instruments include cash and cash equivalents, accounts receivable, accrued expenses and other liabilities, and deferred revenue.

Note 10 – Subsequent Events

These financial statements were approved by management and available for issuance on February 27, 2014. Subsequent events have been evaluated through this date.
