INDEPENDENT AUDITORS' REPORT

To the Members
Empirical Research Partners LLC

We have audited the accompanying statement of financial condition of Empirical Research Partners LLC (a limited liability company) (the "Company") as of December 31, 2013, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the statement of financial condition.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Empirical Research Partners LLC as of December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

EMPIRICAL RESEARCH PARTNERS LLC
(A Limited Liability Company)
NOTES TO STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2013

1. ORGANIZATION

Empirical Research Partners LLC (the "Company") is a limited liability company formed pursuant to and in accordance with the Delaware Limited Liability Company Act. The Company commenced operations in 2003. The Company is a broker-dealer registered with the Securities and Exchange Commission (the "SEC") and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

As a limited liability company, the members are not personally liable for any of the debts, obligations, losses, claims, or judgments on any of the liabilities of the Company, whether arising in tort, contract, or otherwise, except as provided by law.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the Statement of Financial Condition in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the Statement of Financial Condition. Actual results could differ from those estimates.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is based on the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the life of the lease.

Concentrations of Credit Risk

The Company maintains its cash and cash equivalents at more than one commercial bank in amounts that at times may exceed the federal insurance limit. The Company's money market funds are comprised of two funds that are managed by one financial institution.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with maturities of three months or less when purchased to be cash equivalents.

Income Taxes

The Company recognizes and measures its unrecognized tax benefits in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740, *Income Taxes*. Under that guidance, the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the Statement of Financial Condition for the changes in deferred tax liabilities or assets between years.

The Company is not subject to federal or state income taxes. Taxes payable, if any, are the responsibility of the individual members. The Company is subject to the New York City Unincorporated Business Tax. With few exceptions, the Company is no longer subject to local income tax examinations by taxing authorities for years before 2010.

EMPIRICAL RESEARCH PARTNERS LLC
(A Limited Liability Company)
NOTES TO STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2013

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurements

The Company follows the guidance in FASB ASC 820, *Fair Value Measurement*. Using that guidance, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

Using the provisions within FASB ASC 820, the Company has characterized its investments in securities, based on the order of liquidity of the inputs used to value the investments, into a three-level fair value hierarchy. The fair value hierarchy gives the highest order of liquidity to quoted prices in active markets for identical assets or liabilities [Level 1], and the lowest order of liquidity to unobservable inputs [Level 3]. If the inputs used to measure the investments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the investment.

The Company's fair value measurements are classified into one of three categories as follows based on the measurement inputs:

Level 1. These are investments where values are based on unadjusted quoted prices for identical assets in an active market the Company has ability to access. The investments are exchange-traded equity and over-the-counter securities.

Level 2. These are investments where values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the investments. These investments would be comprised of less liquid restricted securities and warrants that trade less frequently. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. These are investments where values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect assumptions of management about the assumptions that market participants would use in pricing the investments.

Commissions and Fees Receivable

Commission and fees receivable are stated at the amount the Company expects to collect. At December 31, 2013, there was no allowance for doubtful accounts. If the financial conditions of the Company's customers were to deteriorate, adversely affecting their ability to make payments, allowances for doubtful accounts would be provided.

EMPIRICAL RESEARCH PARTNERS LLC
(A Limited Liability Company)
NOTES TO STATEMENT OF FINANCIAL CONDITION

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition

The Company prepares research in the areas of portfolio strategy, quantitative modeling for stock selection, and money management business strategy, which is provided to institutional investors. These include mutual funds, banks, insurance companies, pension funds, and hedge funds. The Company is compensated and receives its fee income for its research in three ways:

1. Commissions earned on transactions in which the Company acts as an introducing broker. The Company shares in this revenue with its clearing brokers.
2. Payments from other brokerage firms representing the transfer of commissions as directed by their clients.
3. Payments directly from clients.

For category one, revenue is recognized on a trade-date basis, while in categories two and three, it is recognized when the research is utilized by the customer and the customer advises the Company of its usage.

3. RECEIVABLE FROM CLEARING BROKERS

The clearing and depository operations for the Company's security transactions are provided primarily by brokers pursuant to clearance agreements. At December 31, 2013, the amount receivable from clearing brokers represents commissions earned as an introducing broker for the transactions of its customers.

The Company has agreed to indemnify its clearing brokers for losses that the clearing brokers may sustain from customer accounts introduced by the Company. At December 31, 2013, there were no significant unsecured amounts owed to the clearing brokers by these customers in connection with normal margin, cash, and delivery against payment transactions.

4. PROPERTY AND EQUIPMENT

Property and equipment consisted of the following at December 31, 2013:

		Estimated <u>Useful Life</u>
Furniture, fixtures and equipment	\$ 634,133	3-5 years
Leasehold improvements	<u>426,022</u>	Lease term
	1,060,155	
Less: accumulated depreciation	<u>503,699</u>	
Property and equipment, net	<u>\$ 556,456</u>	

EMPIRICAL RESEARCH PARTNERS LLC
(A Limited Liability Company)
NOTES TO STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2013

5. EMPLOYEE BENEFIT PLAN

In 2006, the Company adopted a 401(k) retirement savings plan for all eligible employees. Under the plan, eligible participating employees may elect to contribute the maximum allowed by law. The Company may make profit-sharing contributions that are determined by the managing member according to a discretionary formula in an amount determined each year. Participants are fully vested in their contributions at all times, and the Company's profit-sharing contributions vest immediately. Profit-sharing contributions were not declared by the managing member for 2013.

6. COMMITMENTS AND CONTINGENCIES

Operating lease commitment

The Company leases office space under an operating lease that expires in 2022. During 2013 rental expense was \$684,681. The approximate minimum future rental payments required as of December 31, 2013, over the term of the lease is as follows:

For the Years Ending December 31,:

2014	\$ 594,000
2015	594,000
2016	594,000
2017	624,000
2018	624,000
Thereafter	<u>2,149,000</u>
	<u>\$5,179,000</u>

Prepaid expense and other assets includes certificates of deposit which collateralizes letters of credit for the benefit of the landlord in the amount of \$397,970.

Sales tax matter

The Company is currently undergoing two separate sales tax audits by New York State covering the periods from March 2003 through February 2009 and March 2009 through November 2012. During March 2013, the New York State Department of Taxation and Finance issued a Notice of Determination to the Company asserting that it owes sales and use tax plus interest thereon for the periods under audit. The determination is based on the State's position that the Company's research services are taxable information services. The Company requested a Conciliation Conference that took place on January 16, 2014. The Company is awaiting the Conferee's determination and intends to challenge the proposed assessment in the event it is upheld by the Conciliation Conferee. The managing member believes that the Company has been operating substantially in compliance with all relevant sales tax provisions of New York State. As of December 31, 2013, the Company has not recorded any provisions for these matters, as management intends to vigorously defend its position if challenged by New York State, and believes that any liability it may incur related to this matter would not have a material adverse effect on its financial condition or its results of operations.

EMPIRICAL RESEARCH PARTNERS LLC
(A Limited Liability Company)
NOTES TO STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2013

7. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques. The valuation techniques are as follows:

- (a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- (b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and
- (c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following table summarizes the Company's assets required to be measured at fair value on a recurring basis at December 31, 2013:

<u>Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>	<u>Valuation Technique</u>
Money market funds	\$ 27,760,080	\$ -	\$ -	\$ 27,760,080	(a)

As of December 31, 2013, all of the Company's money market fund accounts were considered to be Level 1 in the valuation hierarchy, valued based upon quoted prices in markets that are active and which the Company has the ability to access.

There were no liabilities required to be measured at fair value on a recurring basis at December 31, 2013.

8. NET CAPITAL REQUIREMENT

As a broker-dealer and member organization of FINRA, the Company is subject to the SEC's Uniform Net Capital Rule ("SEC Rule 15c3-1"), which requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, not exceed 15:1. Net capital and aggregate indebtedness change from day to day. At December 31, 2013, the Company had net capital of \$17,602,234, which was \$16,866,342 in excess of its requirement of \$735,892. At December 31, 2013, the Company's percentage of aggregate indebtedness to net capital was 63%.

9. SUBSEQUENT EVENTS

Management of the Company has evaluated events and transactions that have occurred since December 31, 2013 and determined that there are no material events that would require disclosures in the Company's financial statements
