INDEPENDENT AUDITOR'S REPORT

To the Members
Essex Radez, L.L.C.
Chicago, Illinois

Report on the Financial Statement

We have audited the accompanying statement of financial condition of Essex Radez, L.L.C. (the Company) as of December 31, 2013 that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of statement of financial condition that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the statement of financial condition based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the statement of financial condition in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statement of financial condition.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the statement of financial condition referred to above present fairly, in all material respects, the financial position of Essex Radez, LLC as of December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

ESSEX RADEZ, L.L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

Essex Radez, L.L.C. (The "Company") was organized under the Illinois Limited Liability Company Act on November 1, 2002. The Company has been registered as a Broker/Dealer with the Securities and Exchange Commission (SEC) and a member of the Chicago Board Options Exchange since 2003. The predecessor of the Company was a member of the CBOE since 1977. The Company is exempt from certain filing requirements under SEC Rule 17a-5 since it operates pursuant to Rule 15c3-1(a)(6) and the Company does not trade on behalf of customers, effects transactions only with other broker dealers, and is a clearing member of the Exchange. The company is engaged in the trading of stock and options on organized exchanges in the United States.

NOTE 2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amount of assets and liability and disclosures or contingent assets and liabilities at the date of the financial s statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities and Derivatives Owned

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities and commodities transactions entered into for the amount and risk of the Company are recorded on a trade date basis.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial position.

Securities are recorded at fair value in accordance with FASB ASC 820, *Fair Value Measurements*.

ESSEX RADEZ, L.L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

Revenue Recognition

Proprietary securities transactions together with related revenues and expenses are recorded on a trade date basis. Securities and commodities owned are reflected at market value with the resulting unrealized gains and losses reflected in income. In the normal course of business, the Company enters into transactions in exchange-traded financial futures contracts, including options thereon and options on securities which are used primarily to hedge certain proprietary securities and commodities positions and commitments. The contracts are valued at market with the resulting unrealized gains and losses reflected currently in income.

Fixed Assets

Office equipment/furniture and fixtures is stated at cost, and is depreciated over a five year life using a straight line method. Depreciation expense for the year ending was \$10,262.

Income Taxes

A Limited Liability Company ("LLC") does not pay federal income taxes. Each member is responsible for reporting income (loss) based upon his or her share of the profits of the Company.

NOTE 3. Fair Value

Fair Value Measurement

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

ESSEX RADEZ, L.L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2013.

Financial Statement Presentation and Classification
Fair Value Measurements on a Recurring Basis
As of December 31, 2013

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Netting and Collateral</u>	<u>Total</u>
ASSETS					
Cash and securities segregated under federal and other regulations	\$2,372,782				\$2,372,782
Securities owned:					
Equities	<u>9,679</u>				<u>9,679</u>
TOTALS	<u>\$2,382,461</u>				<u>\$2,382,461</u>
LIABILITIES					
Securities sold not yet purchased	<u>\$17,648</u>				<u>\$17,648</u>

ESSEX RADEZ, L.L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 4. Receivable From and Payable to Broker-Dealers and Clearing Organizations

Amounts receivable from broker-dealers and clearing organizations at December 31, 2013, consist of the following:

	<u>Receivable</u>
Receivable from clearing organizations	<u>\$1,191,778</u>

NOTE 5. Financial Instruments

Derivatives financial instruments used for trading purposes, including economic hedges of trading instruments, are carried at fair value. Fair value for exchange-traded derivatives, principally futures and certain options, are based on quoted market prices. Fair values for over-the-counter derivative financial instruments, principally forwards, options, and swaps, are based on internal pricing models as no quoted market prices exist for such instruments. Factors taken into consideration in estimating fair value of OTC derivatives include credit spreads, market liquidity, concentrations, and funding and administrative costs incurred over the life of the instruments.

Derivatives used for economic hedging purposes include swaps, forwards, futures, and purchased options. Unrealized gains or losses on these derivative contracts are recognized currently in the statement of income as principal transactions. The Company does not apply hedge accounting as defined in FASB ASC 815, *Derivatives and Hedging*, as all financial instruments are recorded at fair value with changes in fair values reflected in earnings. Therefore, certain of the disclosures required under FASB ASC 815 are generally not applicable with respect to these financial instruments.

During 2013 the Company's principal transaction revenues consisted of equity trading activities and a share of trading income from an agreement.

ESSEX RADEZ, L.L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

Financial Instruments With Off-Balance-Sheet Risk

The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include futures, forward and foreign exchange contracts, exchange-traded and over-the-counter options, delayed deliveries, mortgage-backed TBAs, securities purchased and sold on a when-issued basis (when-issued securities), and interest rate swaps. These derivative financial instruments are used to conduct trading activities, and manage market risks and are, therefore, subject to varying degrees of market and credit risk. Derivative transactions are entered into for trading purposes or to economically hedge other positions or transactions.

Futures and forward contracts and TBAs and when-issued securities provide for the delayed delivery of the underlying instrument. Futures contracts are executed on an exchange, and cash settlement is made on a daily basis for market movements. Accordingly, futures contracts generally do not have credit risk. The credit risk for forward contracts, TBAs, options, swaps, and when-issued securities is limited to the unrealized fair valuation gains recorded in the statement of financial condition. Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest and foreign exchange rates.

Concentrations of Credit Risk

The Company and its subsidiaries are engaged in various trading activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

ESSEX RADEZ, L.L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 6. OPERATING LEASE

The Company leases operating facilities under an operating lease. The lease was five year lease ending December 31, 2013 and was amended and extended to December 31, 2015. Rent expense for the year ended December 31, 2013, was approximately was \$69,162.

Minimum future payments under non-cancelable operating leases having remaining terms in excess of one year as of January 1, 2014, for each of the next two years and in the aggregate are:

<u>Fiscal Year</u>	<u>Amount</u>
2014	\$ 70,314
2015	<u>71,017</u>
Total minimum future rental payment	\$ <u>141,331</u>

NOTE 7. GUARANTEES

Derivative Contracts

Certain derivative contracts that the Company has entered into meet the accounting definition of a guarantee under FASB ASC 460. Derivatives that meet the FASB ASC 460 definition of guarantees include certain written options and credit default swaps. Because the Company does not track the counterparties' purpose for entering into a derivative contract, it has disclosed derivative contracts that are likely to be used to protect against a change in an underlying financial instrument, regardless of their actual use.

The maximum potential payout for certain derivative contracts, such as written interest rate caps and written foreign currency options, cannot be estimated as increases in interest or foreign exchange rates in the future could possibly be unlimited. Therefore, in order to provide information regarding the maximum potential amount of future payments that the Company could be required to make under certain derivative contracts, the notional amount of the contracts has been disclosed.

ESSEX RADEZ, L.L.C.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2013

The Company records all derivative contracts at fair value. For this reason the Company does not monitor its risk exposure to derivative contracts based on derivative notional amounts; rather the Company manages its risk exposure on a fair value basis. Aggregate market risk limits have been established, and market risk measures are routinely monitored against these limits. The Company also manages its exposure to these derivative contracts through a variety of risk mitigation strategies, including, but not limited to, entering into offsetting economic hedge positions. The Company believes that the notional amounts of the derivative contracts generally overstate its exposure.

NOTE 8. INCOME TAXES

FASB ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more likely than not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax position not deemed to meet the more-likely than not threshold would be recorded as a tax benefit or expense and in the current year. Management has determined that there are no material uncertain income tax positions through December 31, 2013.

NOTE 9. SUBSEQUENT EVENTS

FASB Statement No. 165, *Subsequent Events*, as codified in FASB ASC 855, provides guidance on subsequent events, including the time period through which subsequent events should be evaluated and the required disclosures. The standard requires disclosure of the date through which the Company has evaluated subsequent events and whether that date represents the date the financial statements were issued or were available to be issued.

Management has evaluated subsequent events through February 28, 2014, the date the financial statements were issued.
