INDEPENDENT AUDITORS' REPORT

EuroConsult Capital, LLC

We have audited the accompanying statement of financial condition of EuroConsult Capital, LLC (the "Company") as of December 31, 2013 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statement.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of the statement of financial condition in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the statement of financial condition that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the statement of financial condition based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statement of financial condition. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statement of financial condition, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the statement of financial condition in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statement of financial condition.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of EuroConsult Capital, LLC as of December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

EUROCONSULT CAPITAL, LLC

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies

Nature of Business

EuroConsult Capital, LLC (the "Company") is a New York limited liability company, which was formed in November 2006. The Company, which is a wholly-owned subsidiary of EuroConsult, Inc. (the "Parent"), is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company's principal activity is to advise and consult with institutional investors and commercial entities concerning mergers and acquisitions.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

These financial statements were approved by management and available for issuance on February 18, 2014. Subsequent events have been evaluated through this date.

Revenue Recognition

Revenues are recorded in accordance with the terms of the respective agreements.

Income Taxes

The Company files its federal, state and city income tax returns on a consolidated basis with its Parent. Income taxes are allocated to each company within the consolidated group as if each company filed its income tax returns separately. The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax asset and liabilities are computed for difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the consolidated financial statements as appropriate. Accrued interest and penalties related to income tax matters are classified as a component of income tax expense.

In accordance with GAAP, the Company is required to determine whether a tax position of the Company is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement.

EUROCONSULT CAPITAL, LLC

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies (continued)

Income Taxes (continued)

De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce members equity. This policy also provides guidance on thresholds, measurement, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the amounts disclosed in the financial statements. Actual results could differ from those estimates.

2. Related party transactions

Service Agreement

Pursuant to service agreements, the Company's Parent provides various services and other operating assistance to the Company. These include professional services, physical premises, utilities, the use of fixed assets, travel, insurance, subscriptions, taxes, personnel and other general and administrative services. The total amount incurred and paid by the Company under these agreements was \$119,016 for the year ended December 31, 2013.

3. Net capital requirement

The Company, as a member of FINRA, is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2013, the Company's net capital was approximately \$54,600, which was approximately \$49,600 in excess of its minimum requirement of \$5,000.

EUROCONSULT CAPITAL, LLC

NOTES TO FINANCIAL STATEMENTS

4. Income taxes

At December 31, 2013, the Company had a net operating loss carry-forward ("NOL") of approximately \$296,000 for Federal, New York State, and City income tax purposes, expiring through 2033. The NOL creates a cumulative deferred tax asset of approximately \$101,000. The Company also recorded a valuation allowance for the same amount due to the uncertainty of realizing the future tax benefit.

5. Concentrations of risks

The Company maintains its cash balances in various financial institutions, which, at times, may exceed federally insured limits. The Company is subject to credit risk to the extent any financial institution with which it conducts business is able to fulfill contractual obligations on its behalf. Management monitors the financial condition of such financial institutions and does not anticipate any losses from these counterparties.

6. Exemption from Rule 15c3-3

The Company is exempt from SEC Rule 15c3-3 pursuant to the exemptive provision under sub-paragraph (k)(2)(i) and, therefore, is not required to maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers."
