INDEPENDENT AUDITORS' REPORT

The Board of Directors and Stockholders
Presidential Brokerage, Inc.
Greenwood Village, Colorado

Report on the Financial Statements

We have audited the accompanying statement of financial condition of Presidential Brokerage, Inc. (an S-Corporation) as of December 31, 2013, and the related statement of operations, retained earnings and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above present fairly, in all material respects, the financial position of Presidential Brokerage, Inc. as of December 31, 2013, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information contained in Schedules I and II is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information in Schedules I and II has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information in Schedules I and II is fairly stated in all material respects in relation to the financial statements as a whole.

PRESIDENTIAL BROKERAGE, INC.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2013

1. Summary of Significant Accounting Policies

Organization

Presidential Brokerage, Inc. (an S corporation) (the "Company") was incorporated in the state of California on June 25, 1991. The Company is a registered broker-dealer with the Securities and Exchange Commission and with the Financial Industry Regulatory Authority. The Company is also a member of the Securities Investor Protection Corporation (SIPC). The Company's securities business is limited to introducing and forwarding securities on a fully disclosed basis to a carrying broker-dealer. The Company as a matter of policy does not hold funds or securities for customers or owe money or securities to customers.

Revenue Recognition

Securities transactions and the related revenues and expenses are reflected in the financial statements on a settlement date basis, which is generally three business days after the trade date. Revenues and expenses on a trade date basis are not materially different from revenues and expenses on a settlement date basis.

Cash and Cash Equivalents

Investments with original maturities of three months or less are classified as cash equivalents.

Property and Equipment

Property and equipment are stated at cost. Depreciation is calculated principally by the straight-line method over a useful life of five to seven years. Leasehold improvements are amortized over a seven year life. Maintenance and repairs are expensed as incurred. Major betterments are capitalized. The Company takes advantage of Internal Revenue Code Section 179 allowing depreciation write-offs of up to \$500,000 in year of acquisition. This method of writing off up to \$500,000 in the year of acquisition is not a generally accepted accounting principle; however, the GAAP calculated depreciation did not vary materially from the tax method considering the financial statements taken as a whole.

PRESIDENTIAL BROKERAGE, INC.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2013

1. Summary of Significant Accounting Policies (Continued)

Income Taxes

The Company, with consent of its shareholders, has elected under the Internal Revenue Code to be an S corporation. In lieu of corporation income taxes, the shareholders of an S corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in these financial statements. However, the Company operates in California which imposes a minimum franchise tax of \$800.

Uncertain Tax Positions

The Company has adopted FASB ASC 740-10-25, Accounting for Uncertainty in Income Taxes. The Company records a liability for uncertain tax positions when it is more likely than not that a tax position would not be sustained if examined by the taxing authority. The Company continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings. The Company's evaluation on December 31, 2013 revealed no uncertain tax positions that would have a material impact on the financial statements. The 2010 through 2012 tax years remain subject to examination by the IRS. The Company does not believe that any reasonably possible changes will occur within the next twelve months that will have a material impact on the financial statements.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of temporary cash investments. The Company restricts temporary cash investments to financial institutions with high credit standing. Such temporary cash investments are often in excess of the FDIC insurance limit.

Advertising Costs

Advertising costs are expensed as incurred.

February 23, 2014

To The Board of Directors and Stockholders
Presidential Brokerage, Inc.
Greenwood Village, Colorado

In planning and performing our audit of the financial statements of Presidential Brokerage, Inc. (the "Company") as of and for the year ended December 31, 2013 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance

that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2013 to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, Financial Industry Regulatory Authority, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
