INDEPENDENT AUDITOR'S REPORT

Board of Directors
Wm. H. Murphy & Co., Inc.

We have audited the accompanying consolidated financial statements of Wm. H. Murphy & Co., Inc. and Subsidiaries (the Company), which comprise the consolidated statement of financial condition as of December 31, 2013, and the related consolidated statements of income, changes in stockholder's equity, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

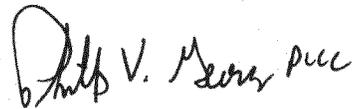

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Wm. H. Murphy & Co., Inc. and Subsidiaries as of December 31, 2013, and the results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the consolidated financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information in Schedule I has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information in Schedule I is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Notes to Consolidated Financial Statements
December 31, 2013

Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Business:

Wm. H. Murphy & Co., Inc., (Murphy & Co.), was organized in the state of Texas in 1990. Murphy & Co. is registered as a broker/dealer with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). Murphy & Co.'s customers are primarily individuals and corporations located throughout the United States.

Wm. H. Murphy & Co., Inc. and subsidiaries (Company) consolidated financial statements include the accounts of Murphy Ventures I, LLC, a Delaware limited liability company organized in February 2011, (MV I); Murphy Ventures II, LLC, a Delaware limited liability company organized in June 2011 (MV II), Murphy Ventures III, LLC, a Delaware limited liability company organized in October 2011 (MV III) and Murphy Ventures IV, LLC (MV IV) a Delaware limited liability company organized in October 2012. MV I, MV II, MV III, and MV IV are collectively referred to as Venture Entities.

Murphy & Co. operates pursuant to section (k)(2)(ii) exemptive provisions of Rule 15c3-3 of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. Murphy & Co. does not hold customer funds or securities, but as an introducing broker or dealer, will clear all transactions on behalf of customers on a fully disclosed basis through a clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer. Under these exemptive provisions, the Computation for Determination of Reserve Requirements and Information Relating to the Possession and Control Requirements are not required.

Significant Accounting Policies:

Principles of Consolidation

The accompanying consolidated financial statements include Murphy & Co. and its subsidiaries. Murphy & Co. consolidates all majority-owned and controlled subsidiaries. All significant intercompany transactions have been eliminated in consolidation.

Note 1 - Nature of Business and Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Marketable securities are held for investment purposes and are recorded at fair value in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*.

Substantially all of the Company's other financial asset and liability amounts reported in the statement of financial condition are short-term in nature and approximate fair value

Marketable Securities

Marketable securities are held for investment purposes and are recorded at fair value in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*. The increase or decrease in fair value is credited or charged to operations.

Derivatives

The Company uses derivatives to manage risks related to interest rate movements. Unrealized gains or losses, if any, on these derivatives are recorded currently in the statement of operations as investment banking revenue. The Company documents its risk management strategy and hedge effectiveness at the inception of and during the term of each hedge. The Company does not apply hedge accounting under ASC 815 *Derivatives and Hedging* as all financial instruments, including derivative financial instruments, are marked to market with changes in fair values reflected in earnings. Therefore, certain of the disclosures required under ASC 815 are generally not applicable with respect to these financial instruments.

The Company has entered into various transactions involving derivatives and other off-balance sheet financial instruments. These derivative financial instruments are used to manage the interest rate risk of the Venture Entities. Derivative transactions are entered into for trading purposes or to economically hedge other positions or transactions.

Notes to Consolidated Financial Statements
December 31, 2013

Note 1 - Nature of Business and Summary of Significant Accounting Policies Continued

Property and Equipment

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is provided for using accelerated methods over the estimated useful lives of primarily five to seven years.

Investment Banking Fees

The Company records investment banking fees when earned under the respective agreements.

Security Transactions

Security transactions and the related commission revenue and expense are recorded on a trade date basis.

Income Taxes

The Company files a consolidated federal tax return.

The Company is also subject to state income taxes.

As of December 31, 2013, open Federal tax years subject to examination include the tax years ended December 31, 2010 through December 31, 2012.

Note 2 - Transactions with Clearing Broker Dealer

The agreement with the clearing broker/dealer provides for clearing charges at a fixed rate multiplied by the number of tickets traded by the Company. The agreement also requires the Company to maintain a minimum of \$8,000 as a deposit in an account with the clearing broker/dealer.

Note 3 - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2013, the Company had net capital of \$47,897, which was \$42,897 in excess of its net capital requirement of \$5,000. The Company's net capital ratio was 0.49 to 1.

WM. H. MURPHY & CO., INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Note 4 - Fair Value / Marketable Securities

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Common Stock: Securities which are traded on securities exchanges are valued at the last sale price on the exchange on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any reported sales, at the mean between the last available bid and asked price.

Note 4 - Fair Value / Marketable Securities (continued)

The following table summarized the valuation of the Company's investments by the fair value hierarchy levels as of December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Marketable securities	\$ 17,181	\$ -	\$ -	\$ 17,181

Marketable securities consist of holdings of one common stock. Cost and fair value of marketable securities at December 31, 2013, are as follows:

	<u>Amortized Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>
Marketable equity securities	\$ 826	\$ 16,355	\$ -	\$ 17,181

Note 5 - Investment Transactions

MV I, MV II, MV III, and MV IV, entered into various agreements with four unrelated third parties to provide interest-rate hedges on behalf of the third parties. These agreements consist of long-term forward contracts, funding loans, and interest rate caps.

MV I

In February 2011, MV I entered into a forward contract with an unrelated third party, which was funded in part by the issuance of a loan in the amount of \$20,000,000. Repayment of the loan will consist of ten annual payments of \$2,590,091, including interest at a rate of 5%, through February 2021.

The holder of the forward contract has the right and obligation to receive an annual payment of a face amount of certain bonds, the amount of which will be determined based on future interest rates, in exchange for a payment of a fixed strike price. Each such face amount of bonds has a strike price of \$1,649,909 and a notional amount of \$4,000,000.

WM. H. MURPHY & CO., INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
December 31, 2013

Note 5 - Investment Transactions (continued)

MV I (continued)

MV I has an interest rate cap agreement with an international financial services group. The agreement provides payments to MV I in the event of a rise in interest rates over the term of the forward contract. The interest rate cap agreement provides MV I with the exact difference in cash flow between the forward contract it holds as a liability, and the funding loan it holds as an asset; therefore, MV I holds a completely hedged net position.

The net value of these instruments is accounted for as a single item, rather than as separate assets and liabilities, as MV I and the third party have agreed to a master netting arrangement. At December 31, 2013, the net present value of the future cash flows of these instruments and the market value netted to zero; therefore, there are no related assets or liabilities shown in the accompanying consolidated statement of financial condition.

MV II

In June 2011, MV II entered into a forward contract with an unrelated third party, which was funded in part by the issuance of a loan in the amount of \$36,000,000. Repayment of the loan will consist of nine annual payments of \$1,880,000, including interest at a rate of 5%, and one final annual payment of all outstanding and unpaid interest and principal on June 30, 2021.

The holder of the forward contract has the right and obligation to receive an annual payment of a face amount of certain bonds, the amount of which will be determined based on future interest rates, in exchange for a payment of a fixed strike price. Each such face amount of bonds has a strike price of \$2,360,000 for the initial nine bond deliveries, and the tenth bond delivery has a strike price of \$3,366,230. All ten bond deliveries have a notional amount of \$4,000,000.

MV II has an interest rate cap agreement with an international financial services group. The agreement provides payments to MV II in the event of a rise in interest rates over the term of the forward contract. The interest rate cap agreement provides MV II with the exact difference in cash flow between the forward contract it holds as a liability, and the funding loan it holds as an asset; therefore, MV II holds a completely hedged net position.

MV III (continued)

The net value of these instruments is accounted for as a single item, rather than as separate assets and liabilities, as MV II, and the third party have agreed to a master netting arrangement. At December 31, 2013, the net present value of the future cash flows of these instruments and the market value netted to zero; therefore, there are no related assets or liabilities shown in the accompanying consolidated statement of financial condition.

MV III

In November 2011, MV III entered into a forward contract with an unrelated third party, which was funded in part by the issuance of a loan in the amount of \$31,250,000. Repayment of the loan will consist of nine annual payments of \$1,600,000, including interest at a rate of 4.8%, and one final annual payment of all outstanding and unpaid interest and principal on November 22, 2021.

The holder of the forward contract has the right and obligation to receive an annual payment of a face amount of certain bonds, the amount of which will be determined based on future interest rates, in exchange for a payment of a fixed strike price. Each such face amount of bonds have strike prices and notional amounts as follows:

<u>Forward Contract</u> <u>Year End</u>	<u>Notional</u> <u>Amount</u>	<u>Strike</u> <u>Price</u>

The interest rate cap agreement provides MV III with the exact difference in cash flow between the forward contract it holds as a liability, and the funding loan it holds as an asset; therefore, MV III holds a completely hedged net position.

The net value of these instruments is accounted for as a single item, rather than as separate assets and liabilities, as MV III, and the third party have agreed to a master netting arrangement. At December 31, 2012, the net present value of the future cash flows of these instruments and the market value netted to zero; therefore, there are no related assets or liabilities shown in the accompanying consolidated statement of financial condition.

MV IV

In November 2012, MV IV entered into a forward contract with an unrelated third party, which was funded in part by the issuance of a loan in the amount of \$97,565,250. Repayment of the loan will consist of nine annual payments of \$5,125,000, including interest at a rate of 5.12%, and one final annual payment of all outstanding and unpaid interest and principal on November 2, 2022.

The holder of the forward contract has the right and obligation to receive an annual payment of a face amount of certain bonds, the amount of which will be determined based on future interest rates, in exchange for a payment of a fixed strike price. Note 7 - Income Taxes

The Company has a current year tax loss; therefore, there is no provision for current federal income taxes. The Company has a federal net operating loss carry forward of approximately \$416,000 available to offset future taxable income, which begins expiring in 2017. The net operating loss carry forward and the accumulated unrealized gains on marketable securities create a net deferred tax asset of approximately \$60,000; however, the entire amount has been offset by valuation allowance, therefore, there is no deferred tax asset recognized in the accompanying consolidated statement of financial condition.

Note 8 - Office Lease

The Company leases office space under a noncancelable operating lease through December 2014. A portion of the leased space is subleased to two unrelated parties under month-to-month leases. The Company's lease expense is offset by payments due under the subleases. Office rent expense for the year totaled \$51,873, and rental income under the subleases for the year totaled \$23,201. These amounts are reflected in the accompanying consolidated statement of income as occupancy and equipment costs.

Note 9 - Off-Balance-Sheet Risk and Concentration of Credit Risk

As discussed in Note 1, the Company's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers of the Company and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

The Company has \$521,506, or approximately 81%, of its total assets in advances to related parties. These advances are non-interest bearing and due on demand.

Note 10 - Contingencies

There are currently no asserted claims or legal proceedings against the Company, however, the nature of the Company's business subjects it to various claims, regulatory examinations, and other proceedings in the ordinary course of business. The ultimate outcome of any such action against the Company could have an adverse impact on the financial condition, results of operations, or cash flows of the Company.

SEC RULE 17a-5(g)(1) FOR A BROKER-DEALER CLAIMING AN EXEMPTION
FROM SEC RULE 15c3-3**

Board of Directors
Wm. H. Murphy & Co., Inc.

In planning and performing our audit of the consolidated financial statements of Wm. H. Murphy & Co., Inc. and Subsidiaries (the Company), as of and for the year ended December 31, 2013, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of consolidated financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

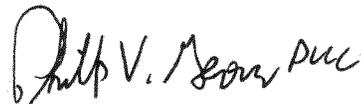

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's consolidated financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2013, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, Financial Industry Regulatory Authority, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
