Re: Health Net, Inc.: Paper Submission of Exhibit 10.81 to Annual Report on Form 10-K filed on February 27, 2015, in accordance with Rule 201 of Regulation S-T

Dear Sir or Madam:

On behalf of Health Net, Inc. (the "Company"), we hereby enclose Forms TH and SE along with four paper copies of Exhibit 10.81, Amended and Restated Master Services Agreement, dated as of November 21, 2014, by and between Cognizant Healthcare Services, LLC and Health Net, Inc., to the Company's Annual Report on Form 10-K for the year ended December 31, 2014 (the "10-K"), in accordance with Rule 201 of Regulation S-T.

On February 27, 2015, the Company filed its 10-K on EGDAR but experienced technical difficulty with filing Exhibit 10.81, as explained on the forms enclosed herewith.

Please contact the undersigned at 714.755.8016 or [shannon.trevino@lw.com](mailto:shannon.trevino@lw.com) if you have any questions regarding the foregoing.

Very truly yours,

*Shannon Treviño*

**Part I—Registrant**  
**Information**

Full Name of Registrant: Health Net, Inc.

Address of Principal Executive Office: 21650 Oxnard Street  
(Street and Number)

City, State and Zip Code; Country, if other than US: Woodland Hills, California 91367

**Part II—Information Relating to the**  
**Hardship**

**Furnish the following**  
**information:**

1. A description of the nature and extent of the temporary technical difficulties experienced by the electronic filer in attempting to submit the document in electronic format.

Health Net, Inc. uses the Workiva "WebFilings" SEC reporting software to file all of its Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and certain other filings with the SEC. Health Net had completed financial reviews, audit procedures and corporate governance approvals in preparation for a filing on February 26, 2015. On February 26,

2015, Health Net management spent considerable time trying to file Exhibit 10.81 as an exhibit to its Annual Report on Form 10-K for the year ended December 31, 2014. Exhibit 10.81 is nearly 3,000 pages in length. Due to the way the file is converted as part of the Edgarization process, each page of the document in converted into portable document format (PDF) and then treated within EDGAR as a separate page. Health Net's understanding is there is a 500-page aggregate limit on submissions and thus Exhibit 10.81 exceeded the file size. Health Net is now working with a different financial printer provider to Edgarize Exhibit 10.81 and expects to have that process completed on or around March 2, 2015.

2. A description of the extent to which the electronic filer has successfully submitted documents previously in electronic format with the same hardware and software, in test or required filings.

As mentioned above, Health Net, Inc. uses the Workiva "WebFilings" SEC reporting software to file all of its Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and certain other filings with the SEC. It has used this software since approximately May 2012, but has not previously filed an exhibit of this size through WebFilings.

3. A description of the burden and expense involved to employ alternative means to submit the electronic submission in a timely manner.

Health Net went to extraordinary lengths on February 26, 2015 to submit Exhibit 10.81 in a timely manner. After extensive efforts to submit the exhibit through Webfilings, including extensive liaising with Webfilings technical support, Health Net concurrently worked with two different outside legal counsel and their respective document support centers to convert the 3,000 page PDF document into smaller portions using a Microsoft Word format. It later became apparent that this conversion process was not going to be completed in time for Health Net's target filing date of no later than after-market on February 26, 2015. Early in the morning of February 27, 2015, Health Net coordinated with a new third party financial printer provider who has undertaken to Edgarize Exhibit 10.81 by March 2, 2015.

4. Any other reasons why an exemption is warranted.

**Part III — Representation of Intent to Submit Confirming Electronic Copy**

The filer shall include a representation that it shall cause to be filed a confirming electronic copy of the document filed in paper under cover of the Form TH and that its filing will be in accordance with Rule 201(b) of Regulation S-T (§232.201(b) of this chapter) and appropriately designated as a "confirming electronic copy" in accordance with the requirements of the EDGAR Filer Manual.

**Health Net, Inc. hereby represents it shall cause to be filed a confirming electronic copy of the document filed in paper under cover of the Form TH and that its filing will be in accordance with Rule 201(b) of Regulation S-T (§232.201(b) of this chapter) and appropriately designated as a "confirming electronic copy" in accordance with the requirements of the EDGAR Filer Manual.**

**Part IV — Contact Person**

Name and telephone number, and e-mail address of person to contact in regard to this filing under Form TH:

Samantha Caldwell                      818-676-8820                      samantha.caldwell@  
Name    Area Code Telephone No.                      e-mail address healthnet.com

**Part V — Signatures**

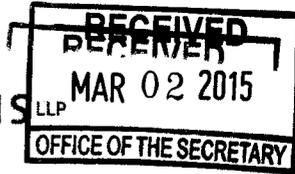

Health Net, Inc.

## Master Services Agreement

This Master Service Agreement, dated November 21, 2014, but effective as of November 2, 2014 (the “*Effective Date*”), is between Health Net, Inc., a Delaware corporation with its principal place of business located at 21650 Oxnard Street, Woodland Hills, CA 91367 (“*Health Net*”), and Cognizant Healthcare Services, LLC (“*Supplier*”), a Delaware limited liability company having an office at 500 Frank W. Burr Blvd., Teaneck, New Jersey 07666 (each, a “*Party*” and collectively, the “*Parties*”). The Parties agree that the following terms and conditions shall apply to the services to be provided by Supplier to Health Net under this Agreement, in consideration of certain payments to be made by Health Net, all as more specifically described below.

References to “Supplier” in this Agreement may include Supplier Personnel where such interpretation is required by the context of the particular clause or provision in question. The interpretation will be adopted which best preserves the Parties’ mutual intention that certain Supplier obligations to Health Net pursuant to the Agreement are to be executed by Supplier Personnel performing such actions.

### 1. PREAMBLE

#### 1.1 Background and Purpose

This Agreement is made and entered into with reference to the following:

- (a) Health Net is among the nation’s largest publicly traded managed health care companies. Its mission is to help people be healthy, secure and comfortable. The company’s health plans and government contracts subsidiaries provide health benefits to individuals across the country through group, individual, Medicare (including the Medicare prescription drug benefit commonly referred to as “Part D”), Medicaid, Department of Defense, including TRICARE, and Veterans Affairs programs. Health Net’s behavioral health services subsidiary, Managed Health Network, Inc., provides behavioral health, substance abuse and employee assistance programs to individuals, including Health Net’s own health plan members. Health Net’s subsidiaries also offer managed health care products related to prescription drugs, and offer managed health care product coordination for multi-region employers and administrative services for medical groups and self-funded benefits programs.
- (b) Supplier and its Affiliates are providers of business process and information technology outsourcing services and have provided various business process and information technology services to Health Net since 2006.
- (c) Health Net and Cognizant Technology Solutions U.S. Corporation (CTSUS) are parties to the following existing agreements (collectively, the “*Existing Agreements*”):
  - (i) that certain Master Staff Augmentation and Application Development Services Agreement dated May 3, 2006, as amended (the “*SA/AD Agreement*”);
  - (ii) that certain Master Services Agreement dated September 30, 2008, as amended (the “*AO Agreement*”); and

- (iii) that certain Master Services Agreement dated January 23, 2009, as amended (the “*Original BPO Agreement*”).
- (d) Supplier is a wholly owned subsidiary of CTSUS, which is a wholly owned subsidiary of Cognizant Technology Solutions Corporation.
- (e) Supplier is interested in expanding its existing business process outsourcing offerings and establishing a business process as a service (“*BPaaS*”) service offering for health insurance companies, including to Health Net. Supplier plans to launch its BPaaS offering with Health Net (utilizing certain assets to be conveyed by Health Net to Supplier) to attract and engage BPaaS customers in the health care industry.
- (f) Supplier is also interested in providing IT and perhaps other types of services to Health Net, and Health Net is interested in procuring such BPaaS services, IT services and perhaps other services from Supplier. After a comprehensive evaluation and negotiation process, Health Net selected Supplier to provide the Services described in this Agreement, during the Term of this Agreement and pursuant to the terms and conditions of this Agreement.
- (g) The Parties reached agreement on contract terms and entered into that certain Master Services Agreement effective as of November 2, 2014 (the “*Original Agreement*”). Concurrently with the execution of the Original Agreement, Supplier and Health Net entered into an Asset Purchase Agreement (“*APA*”) for the sale by Health Net to Supplier of the Acquired Assets, including the ABS Platform, for Supplier’s use in providing BPaaS Services under this Master Services Agreement.
- (h) After entering into the Original Agreement, the Parties agreed to make certain modifications to certain of the contract documents. The Parties are entering into this Amended and Restated Master Services Agreement to implement such modifications. The Parties further agree that:
  - (i) the Effective Date of the Original Agreement (i.e., November 2, 2014) shall be the Effective Date of this Amended and Restated Master Services Agreement;
  - (ii) this Amended and Restated Master Services Agreement replaces and supersedes in all respects the Original Agreement, and any remaining references herein to the Original Agreement (including references to the Master Services Agreement) shall be deemed to be a reference to this Amended and Restated Master Services Agreement;
  - (iii) references in the following agreements relating to the Master Services Agreement dated as of November 2, 2014 shall be understood to refer to this Amended and Restated Master Services Agreement, as it may be amended from time to time in accordance with this Agreement: (A) Schedule V (Guaranty)(including the actual signed version of this agreement), (B) Schedule 1-A to the Supplemental Terms and Conditions for BPaaS Services (Escrow Agreement)(including the actual signed version of this agreement), (C) the Initial SOWs, (D) the APA, (E) the Business Associate Agreement, (F) the Transition Manual, and (G) Amendment #5 to Master Services Agreement (the AO Amendment); and
  - (iv) the term “Amended and Restated Master Services Agreement” is interchangeable with the term “Agreement” as used throughout this Agreement.

## 1.2 Goals and Objectives

- (a) Health Net and Supplier have the following over-arching goals and objectives associated with the execution of this Agreement and their performance hereunder:
- (i) Expand the Parties' existing long term strategic relationship;
  - (ii) A seamless transition of functions from Health Net and its vendors to Supplier in a manner that is designed to ensure minimal business disruption and business risk to both Parties;
  - (iii) Convert Health Net's existing BPO services model into an outcome-based service delivery model;
  - (iv) Establish a relationship that could provide the basis for Supplier to create an industry-leading BPaaS delivery model for Supplier to then deliver BPaaS Services to Health Net as well as additional Supplier customers;
  - (v) Through Supplier's provision of the Services to Health Net, allow Health Net to focus its efforts on creating membership growth for its existing products and plans as well as driving business expansion into new service offerings (which may include dual eligibility and TRICARE);
  - (vi) Improve the quality, effectiveness and efficiency of Health Net's operations, including through Supplier's modernization of the Acquired Assets, ABS Platform and the overall solution and service delivery method so as to:
    - (A) more accurately track activities related to the compliance with Laws, including compliance with the Patient Protection Affordable Care Act (PPACA) and compliance of reporting Quality Improvement expenses; and
    - (B) generally permit Health Net to focus on providing higher quality of care to its Beneficiaries.
  - (vii) Improve customer service and stakeholder satisfaction including consistent repeatable process models to reduce compliance risk;
  - (viii) Where applicable, provide Health Net with a predictable and inclusive pricing model based on Health Net business metrics;
  - (ix) Redesign and streamline existing complex service level agreements to simplify service level administration while continuing to provide a quantifiable means by which Health Net can measure the accuracy, timeliness and quality of Supplier's delivery of services;
  - (x) A mutually beneficial relationship with a professional service provider;

- (xi) Implement a smooth and timely Transition and Transformation of personnel, systems, suppliers and processes (including the transfer to Supplier of Health Net's strategic information technology assets and process delivery knowledge) with no disruption in Supplier's provision of service to Health Net and no disruption to Health Net in its general conduct of its business; and
  - (xii) Support Supplier's strategic goal of leveraging this industry leading delivery model developed by Supplier from Health Net's existing delivery solution and the Acquired Assets to provide like services to other Supplier customers.
- (b) The goals and objectives set out in this Section 1.2 are intended to be a general introduction to, and statement of the spirit of, this Agreement. Although this Section 1.2 does not expand or reduce the scope of the Parties' obligations under this Agreement, other portions of this Agreement may measure Supplier's performance, in part, based on the extent to which Supplier achieves certain objectives.

### 1.3 Structure of Agreement

This document (the "***Terms and Conditions***") sets out the basic terms and conditions under which the Parties will conduct the transactions contemplated by this Agreement. In addition, there will be a number of schedules attached to the Terms and Conditions, including:

#### Schedule A (*Cross Functional Services*)

Schedule A-1 (*Cross Functional Solution Description*)

Schedule A-2 [Reserved]

Schedule A-3 (*Future SOW Template*)

Schedule A-4 (*IT Continuity and Disaster Recovery Services*)

#### Schedule B (*Service Levels*)

Schedule B-1 (*Certain Service Levels*)

Schedule B-2 (*Compliance Service Level Metrics*)

Schedule B-3 (*Performance Guarantee Group Service Level Metrics*)

Schedule B-4 (*Stakeholder Satisfaction Survey*)

#### Schedule C (*Charges*)

Schedule C-1 (*BPaaS - PMPM Variable Rates*)

Schedule C-2 (*BPaaS - Detailed LOB Structure and Tower-Level PMPM Variable Rates*)

Schedule C-3 (*Forecasted Supplier-Procured IT Assets Charge*)

- Schedule C-4 (*BPaaS Membership Baseline*)
- Schedule C-5 (*AD Projects - Examples*)
- Schedule C-6 (*IT SOW – Resource Categories*)
- Schedule C-7 (*IT SOW – Annual Services Charge*)
- Schedule C-8 (*IT SOW – Resource Baselines*)
- Schedule C-9 (*IT SOW – ARC/RRC Rates*)
- Schedule C-10 (*IT SOW – Supplier-Procured Assets*)
- Schedule C-10-1 (*BOM with Pricing*)
- Schedule C-11 (*Financial Responsibility Matrix*)
- Schedule C-12 (*Termination Charges*)
- Schedule C-13 (*BPO T&M Rates*)
- Schedule C-14 (*IO T&M Rates*)
- Schedule C-15 (*T&M Time Codes*)
- Schedule C-16 (*Medical Management Rates*)
- Schedule C-17 (*Pass-Through Expenses*)

Schedule D (*Key Supplier Positions*)

Schedule E (*Transitioned Employees*)

Schedule F (*Supplier Facilities*)

Schedule G (*Governance*)

Schedule G-1 (*Supplier Organization*)

Schedule G-2 (*Meeting Framework*)

Schedule G-3 (*Management Reports*)

Schedule H (*Change Control Process*)

Schedule H-1 (*Change Control Notice*)

Schedule I (*Insurance*)

Schedule J (*Project Framework*)

Schedule J-1 (*Deliverable Acceptance Procedures*)

Schedule J-2 (*Form of Work Order*)

Schedule J-3 (*Project Estimation Model*)

Schedule K (*Regulatory Compliance Addendum*)

Schedule K-1 (*Supplemental Regulatory Detail*)

Schedule K-2 (*CMS Offshore Attestation Requirements*)

Schedule K-3 (*AHCCS Subcontract*)

Schedule L (*Disengagement Assistance*)

Schedule M (*Supplier Competitors*)

Schedule N (*Non-Disclosure Agreement*)

Schedule O (*Health Net Provided Resources*)

Schedule P (*Health Net Policies*)

Schedule Q (*Security Requirements*)

Schedule R (*Critical Deliverables*)

Schedule S (*Procedures Manual TOC*)

Schedule T (*Joinder Agreement*)

Schedule U (*Aspect Assignment and Assumption Agreement*)

Schedule V (*Guaranty*)

Schedule W (*Glossary*)

Schedule X (*In-Flight and Accelerated Projects*)

Schedule X-1 (*In-Flight Project List*)

Schedule X-2 (*Accelerated Project List*)

Schedule Y (*Offshore Prohibitions and Requirements*)

Schedule Z (*Transition*)

Schedule Z-1 (*Acceptance of Transition Deliverables and Milestones*)

Schedule Z-2 (*Summary of Onshore and Offshore Counts and Ratios*)

Schedule Z-3 (*Health Net Transition Support Role Descriptions*)

Schedule Z-4 (*Health Net Transition Support Personnel Levels*)

Schedule Z-5 (*Health Net Provided Transition Work Space*)

Schedule Z-6 (*Ramp-Down Plan*)

Schedule Z-7 (*Offshore Ramp-Up Plan*)

Schedule Z-8 (*Required Onshore Positions*)

Schedule Z-9 (*Staff Augmentation Plan*)

Schedule Z-10 (*Consolidated BPaaS Transition Plans*)

Schedule Z-11 (*IT Transition Plan*)

Schedule Z-12 (*Call Center Transition Plan*)

Annex 1 (*Supplemental Terms and Conditions for BPaaS Services*)

Schedule 1-A (*Escrow Agreement*)

#### **1.4 Construction of Preamble**

The provisions of this Section 1 (Preamble) are intended to provide a general introduction to this Agreement and a context in which to interpret this Agreement's terms and conditions in circumstances where their meanings are unclear or ambiguous. It is not intended to alter the plain meaning of this Agreement or to alter the scope of the Parties' express obligations under it.

## **2. DEFINITIONS**

### **2.1 Defined Terms**

The following capitalized terms, when used in this Agreement, will have the meanings given them below:

- (a) "**ABS Platform**" has the meaning given to it in the APA.
- (b) "**Accelerated Projects**" has the meaning given in Schedule C (*Charges*).
- (c) "**Adverse Change in Supplier's Financial Circumstances**" means if Supplier (i) files a petition in bankruptcy; (ii) has an involuntary petition in bankruptcy filed against it which is not challenged within twenty (20) days and dismissed within sixty (60) days; (iii) becomes insolvent; (iv) makes a general assignment for the benefit of creditors; (v) admits in writing its inability to pay its debts as they mature; or (vi) has a receiver appointed for its assets.
- (d) "**Affected Employees**" has the meaning given in Schedule E (*Transitioned Employees*).

- (e) “**Affected Services**” mean Services for which Health Net is requesting Disengagement Assistance.
- (f) “**Affiliate**” means, with respect to an entity, any other entity or person Controlling, Controlled by or under common Control with such entity.
- (g) “**Agreement**” means this Terms and Conditions document as well as all Schedules, Annexes and attachments attached hereto, and any SOWs entered into pursuant to this Agreement as well as all Exhibits thereto, the Transition Manual, all as may be amended by the Parties from time to time in accordance with Section 27.5 (Contract Amendments & Modifications) or as otherwise provided in the Agreement.
- (h) “**APA**” has the meaning given in Section 1.1(g).
- (i) “**Application**” or “**Application Software**” means Software that performs specific End User-related data processing, data management and telecommunications tasks.
- (j) “**Acquired Assets**” will have the meaning set forth in the APA.
- (k) “**Auditor**” has the meaning set forth in Section 18.1 of the Agreement.
- (l) “**Beneficiary**” means a person who has enrolled in and/or is eligible to receive services under a Benefit Program at the time services are rendered. The Parties acknowledge that the term “member,” “enrollee” and “insured” may be used by Health Net, and for purposes of this Agreement, the term Beneficiary includes the term “member,” “enrollee” and “insured” wherever used.
- (m) “**Benefit Program**” means a plan offered or administered by Health Net, its Affiliates or any of their respective customers whereby any of the foregoing are obligated to provide or arrange for health care services, or compensation therefore, to Beneficiaries in accordance with the provisions contained in such plans.
- (n) “**BPaaS Discretionary Projects**” has the meaning given in Schedule C (*Charges*).
- (o) “**BPaaS Non-Discretionary Projects**” has the meaning given in Schedule C (*Charges*).
- (p) “**BPaaS Roadmap Projects**” has the meaning given in Schedule C (*Charges*).
- (q) “**BPaaS Services Commencement Date**” shall mean the later to occur of (i) the date that is ten (10) Business Days after the date that Health Net receives the last required approval from the Regulators to proceed with the transactions contemplated by this Agreement, and (ii) March 1, 2015.
- (r) “**BPaaS Services**” means collectively the Services to be provided by Supplier under this Agreement, excluding the Non-BPaaS IT Services and any other Services that may be expressly designated as not part of the BPaaS Services in any Future SOWs.
- (s) “**Breakup Fee**” means a fee in the amount of \*\*\* to be paid by Health Net if Health Net exercises its right to terminate this Agreement pursuant to Section 16.1(n).
- (t) “**Business Day**” has the meaning given in Schedule B (*Service Levels*).

- (u) “**Business Hours**” means 08:00 – 17:00, local time (from the perspective of the applicable Service Recipient), during a Business Day, provided that the foregoing shall not supersede any business, operational or similar hours set forth in a SOW (including Solution documents attached thereto).
- (v) “**Commercially Available**” means Software that is routinely licensed to the general public by Supplier or a third party, as applicable, through separately established standard terms and conditions and standard charges, and for which such Software Supplier or the third party (as applicable) provides ongoing maintenance, support and Software Updates.
- (w) “**Commercially Reasonable Efforts**” means taking all such steps and performing in such a manner as a well-managed company would undertake where it was acting in a determined, prudent and reasonable manner to achieve a particular desired result for its own benefit.
- (x) “**Control**” and its derivatives, such as “**Controlling**” means with regard to any entity the legal, beneficial or equitable ownership, directly or indirectly, of: (i) fifty percent (50%) or more of the capital stock (or other ownership interest if not a stock corporation) of such entity ordinarily having voting rights; or (ii) (A) twenty percent (20%) or more of the capital stock (or other ownership interest if not a stock corporation) and (B) either (1) a greater percentage than any other juridical person or (2) management control in fact or by agreement.
- (y) “**Disengagement Assistance**” means, collectively, the Functions that Health Net requests from Supplier to enable an orderly transfer of Services from Supplier to Health Net or its designees without interruption or adverse effect to Health Net in connection with the reduction or cessation of any Services (in whole or in part), or the expiration or earlier termination (for any reason) of this Agreement (in whole or in part) or any SOW (in whole or in part), including (i) the Functions described in Section 16.5 (Disengagement Assistance) and Schedule L (*Disengagement Assistance*), and (ii) as requested by Health Net, any or all of the Affected Services provided by Supplier prior to the effective date of reduction, cessation, termination or expiration of the Affected Services, which for clarity Health Net may require Supplier to perform after expiration or termination of the Agreement with respect to such Affected Services.
- (z) “**Disengagement Assistance Period**” means, for each request by Health Net for Disengagement Assistance, the period of time requested by Health Net for Supplier to provide Disengagement Assistance pursuant to Section 16.6 (*Disengagement Assistance*), provided that in no event shall any Disengagement Assistance Period extend beyond the date that is \*\*\* following the effective date of expiration or termination of this Agreement in whole, as such effective date may be extended pursuant to Section 16.4.
- (aa) “**DMHC**” means the Department of Managed Health Care of the State of California.
- (bb) “**Documentation**” means written materials (including materials published on an Internet or Intranet site or otherwise online) that are available or necessary to instruct or assist End Users, operators or systems personnel in the installation, development, maintenance, operation, use or modification of any Equipment, Software, system, or Deliverable (including applicable functional and technical specifications), as such documentation is updated from time to time.

- (cc) “**Effective Date**” has the meaning set forth in the first paragraph of the Terms and Conditions of this Agreement.
- (dd) “**Employee Transfer Date**” has the meaning given in Schedule E (*Transitioned Employees*).
- (ee) “**End Users**” means direct users of the Services provided under this Agreement.
- (ff) “**Equipment**” means any computer and telecommunications machines or other hardware (without regard to the entity owning or leasing it), including all associated attachments, features, accessories and peripheral devices and related services (*e.g.*, maintenance and support services, upgrades, and subscriptions services). For purposes of allocating financial, operational, management, or other responsibilities with respect to Equipment, references to Equipment shall also include any associated maintenance and services agreements relating to such Equipment that are in effect and disclosed by the contracting Party to the other Party.
- (gg) “**Exchange**” shall mean the California Health Benefit Exchange (“Covered California”) and any Laws applicable to such entity, and any other comparable entity operating in a state in which Health Net or a Health Net Affiliate conducts business.
- (hh) “**Exchange Agreement**” shall mean the agreement between Health Net and the Exchange in California that establishes the terms under which Health Net shall participate in the Exchange’s Covered California program, and any comparable agreement between Health Net or a Health Net Affiliate and an Exchange in a state in which Health Net or a Health Net Affiliate conducts business.
- (ii) “**Financial Responsibility**” means having responsibility for furnishing, maintaining and paying for resources (or certain services related to such resources) without seeking reimbursement from the other Party.
- (jj) “**Former Health Net Affiliate**” means: (i) any entity Affiliated with Health Net at any time during the Term (such designation expiring at the end of the twenty-fourth (24th) month after the date that such entity ceases to Control, be Controlled by, or be under common Control with, Health Net); or (ii) the purchaser of all or substantially all of the assets and/or customers of any line of business of Health Net or any of its Affiliates (such designation (A) applying only with respect to the business or customers so acquired; and (B) expiring at the end of the twenty-fourth (24th) month after the date of such purchase.) At Health Net’s option, each Former Health Net Affiliate shall be deemed to be an Affiliate of Health Net.
- (kk) “**Functions**” has the meaning given in Section 3.1(a) (Services, Defined).
- (ll) “**Health Insurance Portability and Accountability Act**” or “**HIPAA**” means Public Law 104-191 and its implementing regulations.
- (mm) “**Health Net Data**” means all data and information in any form (and all Derivative Works thereof), including Confidential Information, payment card information, Protected Health Information and Personally Identifiable Information, belonging to or concerning any of Health Net; its Affiliates; its Service Recipients; and each of their respective and prospective members, customers, employees, providers or other suppliers that (i) is present in Software or Equipment operated by Supplier for the benefit of Health Net, a Health Net

Affiliate or another Service Recipient, or (ii) is directly or indirectly accessed or obtained by Supplier from, in connection with, or as a result of the Services, or is derived therefrom. For the avoidance of doubt, “Health Net Data” does not include publicly available information or Supplier Confidential Information.

- (nn) “**Health Net Facilities**” means facilities that are owned or leased by Health Net (or a Health Net Affiliate).
- (oo) “**Health Net Leased Equipment**” means Equipment leased by Health Net (or a Health Net Affiliate).
- (pp) “**Health Net Licensed Software**” means Software owned (*i.e.*, in which the copyright is owned) by a party other than Health Net (or a Health Net Affiliate) that is licensed by Health Net (or a Health Net Affiliate).
- (qq) “**Health Net Owned Equipment**” means Equipment owned by Health Net (or a Health Net Affiliate).
- (rr) “**Health Net Owned Software**” means Software owned (*i.e.*, in which the copyright is owned) by Health Net (or a Health Net Affiliate).
- (ss) “**Health Net Policies**” means the applicable standards, policies and procedures of Health Net (and its Affiliates) provided to Supplier in connection with this Agreement (including by Health Net providing Supplier a link to an online repository where they may be accessed), whether existing as of the Effective Date (including those policies identified in Schedule P (*Health Net Policies*) or in any SOW) or adopted by Health Net during the Term, and in each case as may be modified by Health Net during the Term.
- (tt) “**Health Net Third Party Service Contracts**” means third party service contracts of Health Net (or a Health Net Affiliate). For clarity, maintenance and support and services agreements relating to Software that are in effect and that are disclosed by Health Net to Supplier shall be deemed to be part of the Software and not Health Net Third Party Service Contracts.
- (uu) “**Identity-Related Costs**” means the following costs that are reasonable and incurred by Health Net relating to a Security Breach: \*\*\*
- (vv) “**Indemnity Claim**” means any demand, or any civil, criminal, administrative or investigative notice, inquiry, claim, action, or proceeding (including arbitration) sent to, or commenced or threatened against, an entity or person.
- (ww) “**Initial SOWs**” shall mean collectively the following Statements of Work:
  - (i) Statement of Work # 1 (*Claims Management Services*),
  - (ii) Statement of Work # 2 (*Membership and Configuration Services*),
  - (iii) Statement of Work # 3 (*Contact Center Services*),
  - (iv) Statement of Work # 4 (*IT Services*),

- (v) Statement of Work # 5 (*Quality Assurance Services*),
  - (vi) Statement of Work # 6 (*Appeals and Grievances Services*), and
  - (vii) Statement of Work # 7 (*Medical Management Services*).
- (xx) “**IPRs**” or “**Intellectual Property Rights**” means all intellectual and industrial property rights recognized in any jurisdiction, including copyrights, mask work rights, moral rights, trade secrets, patent rights, rights in inventions, trademarks, trade names and service marks (including applications for, and registrations, extensions, renewals, and re-issuances of, the foregoing).
- (yy) “**Law**” means, if and to the extent applicable: (i) any law, statute, regulation, ordinance or subordinate legislation in force from time to time, including any such item that relates to TRICARE, the Veteran’s Administration, and the Centers for Medicare and Medicaid (“CMS”); (ii) the common law; (iii) any binding court order, judgement or decree (including consent agreements); (iv) any directive, policy, rule, order, corrective action plan, communication, standards or other mandate that is made or given by any government, an agency thereof, or any regulatory body (including an Exchange, the DMHC and the U.S. Department of Health and Human Services), of any country, the European Union, or other national, federal, commonwealth, state, provincial or local jurisdiction, and of any exchange or association (including the New York Stock Exchange, the National Association of Securities Dealers whose regulations are binding on either Party pursuant to a self-regulating mechanism approved by a governmental entity; and (v) any communication from a Regulator to Health Net or Supplier indicating a course of action be taken or not taken that, if disclosed by the Regulator to Health Net is thereafter disclosed by Health Net to Supplier.
- (zz) “**Line of Business**” means the lines of business established by Health Net into which its operations relevant to the scope of the Services are organized for certain purposes. As of the Effective Date, there are five (5) such Lines of Business, as follows: (i) Individual – Commercial; (ii) Group – Commercial; (iii) Medicare; (iv) State Health Programs; and (v) Duals. The Lines of Business shall also include any additional Lines of Business for which pricing is developed pursuant to Schedule C (Charges).
- (aaa) “**Losses**” means all losses, liabilities, damages, liens, claims and costs, and all related expenses and other charges suffered or reasonably incurred as a result of or in connection with an Indemnity Claim, including reasonable attorneys’ fees and disbursements, costs of investigation, litigation, settlement, and judgment, and any taxes, interest, penalties, and fines.
- (bbb) “**Minimum Revenue Commitment**” or “**MRC**” has the meaning given in Schedule C (Charges).
- (ccc) “**Non-BPaaS IT Projects**” has the meaning given in Schedule C (Charges).
- (ddd) “**Non-BPaaS IT Services**” has the meaning in SOW #4 (*IT Services*).
- (eee) “**Non-Commercially Available**” means, with respect to Software, Software that is not Commercially Available.

- (fff) “**Object Code**” shall mean Software code resulting from the translation or processing of Software in Source Code form by a computer into machine language, which is a form that is not convenient to human understanding of the Software.
- (ggg) “**Open Source Code**” means any Software that requires as a condition of its use, modification or distribution that it be disclosed or distributed in source code form or made available at no charge. Open Source Code includes software licensed under the GNU General Public License (GPL) or the GNU Lesser/Library GPL.
- (hhh) “**Open Source License**” means a license to Software that complies with the Open Source Initiative’s definition of “Open Source.”
- (iii) “**Out-of-Pocket Expenses**” means reasonable, demonstrable and actual out-of-pocket expenses incurred by Supplier for Equipment, materials, supplies, or services provided to or for Health Net that are expressly subject to reimbursement by Health Net pursuant this Agreement, but not including Supplier’s actual or allocated overhead costs, administrative expenses or other mark-ups.
- (jjj) “**Protected Health Information**” and “**PHI**” shall have the meaning given to such term at 45 C.F.R. § 160.103, as may be amended by Law from time to time.
- (kkk) “**Personally Identifiable Information**” means any information about an individual including any information that could be used to identify an individual such as Protected Health Information.
- (lll) “**Proprietary Business Rules**” shall have the definition in the APA.
- (mmm) “**Regulator**” means any governmental or quasi-governmental entity (i) with investigatory or oversight capability regarding Health Net, a Health Net Affiliate, or a Former Health Net Affiliate, or of any Services under this Agreement, including CMS, DMHC and Arizona Health Care Cost Containment System (“**AHCCCS**”), or (ii) that is party to a Regulatory Contract.
- (nnn) “**Regulatory Contract**” means any contract between Health Net and a governmental or quasi-governmental entity under which the governmental or quasi-governmental entity is paying for services provided to Beneficiaries (e.g., Medicaid, Medi-Cal, CHIPs), but excluding contracts in which the governmental or quasi-governmental entity is merely acting as the employer paying for health insurance coverage for its employees.
- (ooo) “**Related SOW**” shall mean a SOW that is impacted by the event that gives rise to the right to terminate under Section 16, such as the SOW under which the breach or Service Level Failure occurred. Related SOW shall also include any SOW which Health Net, in its reasonable discretion, determines should also be terminated because of business, operational or financial reasons, including that the Services provided under the immediately impacted SOW should be grouped with Services under other SOWs in order to achieve a desired business, operational or financial result.
- (ppp) “**Required Consents**” means such consents as may be required for (i) the assignment to a Party, or the grant to a Party of rights of access and use, of resources otherwise provided to or licensed by the other Party, and (ii) with respect to any resource (e.g., Software, Equipment, third party services) for which the corresponding contract is to be assigned to

Health Net or its designee pursuant to Disengagement Assistance (including any resource utilized or introduced after the Effective Date during the Term), the disclosure of the corresponding contract terms to Health Net or its designee, or the assignment of such contract to Health Net or its designee, as part of Disengagement Assistance.

- (qqq) “**Security Breach**” means (i) any actual circumstance that compromises the privacy and/or security of any Health Net Data or Health Net Software or systems which are possessed or operated by (or for) or are under the control of Supplier or a third party that received such Health Net Data (directly or indirectly) through Supplier (with the exception of a third party to which Health Net directs Supplier in writing to provide Health Net Data, including auditors, regulators and contractors but excluding Subcontractors); or (ii) any loss or unauthorized acquisition, access, destruction, alteration, disclosure or use (in all cases whether intentional or not) of, or the inability to locate, Health Net Data which was delivered to, created, maintained or accessed by, Supplier or a third party that received such Health Net Data (directly or indirectly) through Supplier (with the exception of a third party to which Health Net directs Supplier in writing to provide Health Net Data, but excluding Subcontractors). For purposes of defining “in control” as that term is used in clause (i) of this definition, Supplier shall be deemed to be in control of Health Net Data, Health Net Software or systems in the IBM data center to the extent (A) Supplier provides or is required to provide systems monitoring or related management or other Services that affect the security of such Health Net Data, Health Net Software or systems, (B) Supplier is obligated to manage IBM or any other third party under this Agreement, (C) the provisions set forth in Schedule Q (*Security*) are applicable to the Services to be provided by Supplier with respect to such Health Net Data, Health Net Software or systems, or (D) any other circumstance in which Supplier’s acts or omissions could have prevented the Security Breach if Supplier had exercised due care and complied with its obligations under this Agreement.
- (rrr) “**Service Tower**” means the Services to be provided by Supplier under each Statement of Work, as well as the Cross Functional Services to support such Service Tower. The Service Towers as of the Effective Date are:
- (i) Cross Functional Services Tower means the Cross Functional Services as defined in Schedule A (*Cross Functional Services*);
  - (ii) Claims Service Tower means the Claims Services as defined in Statement of Work # 1 (*Claims Management Services*);
  - (iii) Membership Service Tower means the Membership and Configuration Services as defined in Statement of Work # 2 (*Membership and Configuration Services*);
  - (iv) Contact Center Service Tower means the Contact Center Services as defined in Statement of Work # 3 (*Contact Center Services*);
  - (v) Non-BPaaS IT Service Tower means the IT Services as defined in Statement of Work # 4 (*IT Services*);
  - (vi) Quality Assurance Service Tower means the Quality Assurance Services as defined in Statement of Work # 5 (*Quality Assurance Services*);

- (vii) Appeals and Grievances Service Tower means the Appeals and Grievances Services as defined in Statement of Work # 6 (*Appeals and Grievances Services*); and
- (viii) Medical Management Service Tower means the Medical Management Services as defined in Statement of Work # 7 (*Medical Management Services*).
- (sss) “**Software**” means (i) program code (in Object Code and Source Code forms) and all supporting documentation, media, on-line help facilities and tutorials, including any Software Updates, (ii) frameworks, utilities, macros, software configurations, templates and tools used to deliver services or enhance the productivity or quality of services, and (iii) Derivative Work of any item described in clauses (i) and (ii). For purposes of allocating financial, operational, management, or other responsibilities with respect to Software, references to Software shall also include any associated maintenance and support agreements relating to such Software that are in effect and are disclosed by the contracting Party to the other Party.
- (ttt) “**Software Update**” means any modification, enhancement, upgrade, update, new version or release, or Derivative Work of Software.
- (uuu) “**SOW Effective Date**” means, (i) with respect to the Initial SOWs, the Effective Date of this Agreement, and (ii) with respect to any Future SOW, the effective date set forth in the applicable SOW.
- (vvv) “**SOW Service Commencement Date**” means, with respect to Future SOWs, the date set forth in the applicable SOW that Supplier Personnel shall commence performing the applicable SOW Services in a live production environment.
- (www) “**SOW Services**” means, for each SOW, (i) the Services described in such SOW, and (ii) the Services described in Schedule A (*Cross Functional Services*) and elsewhere in the Agreement as they apply to the Services described in such SOW.
- (xxx) “**SOW Term**” has the meaning given in Section 4.1 (Initial Term).
- (yyy) “**Source Code**” means the computer code of Software in programming languages, including all comments and procedural code, and all related development documents (*e.g.*, flow charts, schematics, statements of principles of operations, End User manuals, architectural standards, documentation, and any other specification that are used to create or that comprise the computer code, of the Software concerned).
- (zzz) “**Statement of Work**” or “**SOW**” has the meaning given in Section 3.7(a).
- (aaaa) “**Subcontractor**” means (i) a third party engaged by Supplier to provide any portion of the Services, (ii) any entity to which a Subcontractor further subcontracts (or otherwise sub-delegates) any of its subcontracted duties or obligations, and (iii) any other entity to which any such subcontracted duties or obligations are further subcontracted (or otherwise sub-delegated), below the level of the agreement between Supplier and a Subcontractor.
- (bbbb) “**Supplier Competitor**” means those entities listed in Schedule M (*Supplier Competitor*).

- (cccc) “**Supplier Personnel**” means, collectively, any and all personnel furnished or engaged by Supplier to perform any part of the Services, including: (i) the employees of Supplier; (ii) Subcontractors; and (iii) the employees of such Subcontractors.
- (dddd) “**Supplier Provided Software**” means Software that is used by Supplier to provide the Services that is either (i) made available by Supplier to Health Net, its Affiliates, Former Health Net Affiliates and Service Recipients to receive or use the Services, or (ii) reasonably necessary for Health Net and its Affiliates’ and their respective service providers to provide and deliver, and for Health Net, its Affiliates, Former Health Net Affiliates and Service Recipients to receive and use, services that are substantially similar to the Services, during the Disengagement Assistance Periods and for two years thereafter as contemplated by Section 12.3.
- (eeee) “**Supplier Software**” means any Software that is owned by Supplier or its Affiliates.
- (ffff) “**Technology Platform**” has the meaning given in Annex 1 (*Supplemental Terms and Conditions for BPaaS Services*).
- (gggg) “**Terms and Conditions**” means this document, which is identified in the footer as the Terms and Conditions.
- (hhhh) “**Third Party Software**” means any Software that is owned by a third party (*i.e.*, not Health Net or its Affiliates or Supplier or its Affiliates).
- (iiii) “**Transition Documents**” has the meaning given in Section 13.4(a).
- (jjjj) “**Transition Manual**” shall mean that certain manual containing Transition-related plans and material agreed to by the Parties on or about the Effective Date.
- (kkkk) “**Transitioned Employees**” has the meaning given in Schedule E (*Transitioned Employees*).
- (llll) “**Use**” means to access, use, execute, display, copy, perform, distribute copies of, maintain, modify, enhance, and create Derivative Works of the subject material(s).

## 2.2 Other Terms

- (a) **Other Capitalized Terms.** Other capitalized terms used in this Agreement but not defined above are defined where they are used and have the meanings there indicated, and in the Glossary attached hereto as Schedule W (*Glossary*). Those terms, acronyms, and phrases utilized in the business process outsourcing or health and wellness industries which are not otherwise defined in this Agreement shall be interpreted in accordance with their generally understood meaning in such industry or business context.
- (b) **References to Schedules.** References to a Schedule include such Schedules at the Terms and Conditions level and the corresponding Exhibit covering the same topic at the SOW level. For example, a reference to Schedule P (*Health Net Policies*) also includes Exhibit F (*Health Net Policies*) to any SOW.

### 3. SERVICES

#### 3.1 Provision of the Services

- (a) Services, Defined. Supplier will provide the following services, functions, obligations, responsibilities, activities and tasks (collectively, “**Functions**”) as they may be supplemented, enhanced, modified or replaced pursuant to this Agreement (collectively, the “**Services**”):
- (i) the Functions described in Schedule A (*Services*), each SOW, and elsewhere in this Agreement, other than (1) those expressly designated as Functions for which Health Net is responsible, and (2) those prohibited by Law to be delegated by Health Net to a third party for performance;
  - (ii) any Functions performed during the twelve (12) months preceding the applicable SOW Effective Date:
    - (A) by Supplier pursuant to any of the Existing Agreements, excluding the SA/AD Agreement; or
    - (B) by Health Net’s or its Affiliates’ personnel (including employees and contractors) performing in a Service Tower who were displaced pursuant to this Agreement, or whose Functions were displaced pursuant to this Agreement;
  - (iii) any other Functions required in order for Supplier to be in compliance with the requirements of each Health Plan, product and provider network (collectively, “Health Net Plans”), whether existing as of the Effective Date or created by Health Net during the Term, and in each case as same may be modified by Health Net during the Term.
- (b) Services Commencement.
- (i) Initial SOWs. For the Initial SOWs, Supplier shall commence performance of the applicable SOW Services on the BPaaS Services Commencement Date.
  - (ii) Future SOWs. For each Future SOW, Supplier shall commence performance of the applicable SOW Services on the applicable SOW Service Commencement Date.
- (c) Relationship to the BPO Agreement.

For clarity, the BPO Agreement shall remain in effect until the BPaaS Services Commencement Date, at which time the BPO Agreement shall be automatically terminated and of no further force or effect, at no charge or cost to Health Net; provided, however, that such termination shall be without prejudice to any rights and remedies that may have accrued prior to the effective date of such termination.

#### 3.2 Implied Services

If any Functions (other than those Functions either (i) expressly retained as a Function to be performed by Health Net under this Agreement or (ii) prohibited by Law to be delegated by Health

Net to a third party for performance thereof), are reasonably required for, and incidental to or inherent in, the proper performance and provision of the Services (regardless of whether they are specifically described in this Agreement) they shall be deemed to be implied by and included within the scope of the Services to be provided by Supplier to the same extent and in the same manner as if specifically described in this Agreement.

### 3.3 Evolution of the Services

Throughout the Term, Supplier will seek to improve the quality, efficiency and effectiveness of the Services to keep pace with technological, business process outsourcing and Medicare Part D advances and support Health Net's (and its Affiliates') evolving business needs and efforts to maintain competitiveness in the markets in which it (and they) competes. Without limiting the generality of the foregoing, Supplier will: (i) identify and apply 'best practice' techniques and methodologies in performing and delivering the Services; and (ii) train Supplier Personnel in new techniques and technologies used generally within Supplier's organization or the business process outsourcing services industry, and (ii) make investments to maintain the currency of Supplier's tools, infrastructure and other resources used by Supplier to render the Services. Changes in the Services pursuant to this Section 3.3 will not be considered New Services (as defined in Section 3.8(a)).

### 3.4 Users of the Services

- (a) Supplier will provide the Services to Health Net and, as designated by Health Net from time to time, its Affiliates, Former Health Net Affiliates, licensees, customers, providers (e.g., physicians, medical groups, hospitals., etc), contractors and other entities with which Health Net has a business relationship (each such entity a "***Service Recipient***"). For purposes of this Agreement, Services provided to such entities shall be deemed to be Services provided to Health Net. The following apply with respect to all Service Recipients:
  - (i) Health Net shall be directly responsible for (A) the payment of all Charges associated with Supplier's provision of Services to Service Recipients under this Agreement and (B) as and to the extent related to any Service Recipient's use of the Services, the performance, breach or other wrongful conduct of any such Service Recipient; and
  - (ii) notice provided by Supplier to Health Net under this Agreement will constitute notice to Service Recipients, and Service Recipients will send notices required by this Agreement to Supplier only through Health Net.
- (b) With respect to Former Health Net Affiliates, Supplier will continue to provide the Services being provided as of the date of divestiture as is requested by Health Net for as long as such entity continues to meet the definition of "***Former Health Net Affiliate***" (or such shorter period of time designated by Health Net). There shall be no additional charge or fee (*i.e.*, in addition to the charges for the actual Services as provided in this Agreement) for the provision of Services to Former Health Net Affiliates.
- (c) The Services provided to Health Net, Health Net Affiliates and Former Health Net Affiliates under this Agreement may be utilized by Health Net, Health Net Affiliates and Former Health Net Affiliates for the benefit of members of health plans owned by Health Net, a Health Net Affiliate, a Former Health Net Affiliate or any third party (including any

third party which may have purchased such health plan from Health Net, a Health Net Affiliate or a Former Health Net Affiliate), or to meet its obligations under any contract that Health Net, a Health Net Affiliate or a Former Health Net Affiliate has with a third party to provide services of the type provided under this Agreement (including administrative services only (ASO) arrangements).

### 3.5 Non-Exclusive; Variability

- (a) This Agreement is non-exclusive. Subject to the minimum revenue commitment requirements set forth in Schedule C (*Charges*), nothing in this Agreement shall be construed to limit in any way Health Net's ability to reduce the volumes of the Services being provided by Supplier, or to provide itself, or have other third parties provide (or propose to provide), services that are the same as or similar to the Services, including with respect to any in-scope Functions. Nothing in this Agreement shall limit Supplier's ability to provide, or propose to provide, services to third parties that are the same as or similar to the Services, including with respect to any in-scope outsourcing Functions. Health Net (and its Affiliates) may contract with other suppliers for any products and services, including products and services that are similar to or competitive with the Services or that are part of the Services. In the case of Health Net's withdrawal of portions of the Services from Supplier (including a withdrawal by Health Net of any volumes of Services or in-scope Functions from the scope of this Agreement), the charges shall be adjusted in accordance with the terms provided in Schedule C (*Charges*) and the unit rates set forth therein.
- (b) The Services are variable in volume. Such variations are provided for in the charging mechanisms set forth in Schedule C (*Charges*). Supplier shall be responsible for adjusting the resources used to provide the Services to accommodate the changes in volume (regardless of the amount of time remaining in the Term) in such a manner as to comply with all Service Levels. In the case of Health Net's addition of Services to Supplier (including an increase by Health Net of any volumes of Services or in-scope Functions to the scope of this Agreement), the charges shall be adjusted in accordance with the terms provided in Schedule C (*Charges*) and the unit rate set forth therein. Supplier shall not be entitled to receive an adjustment to the Charges resulting from such variations in volume except as set forth in the applicable SOWs or Schedule C (*Charges*).
- (c) Except as set forth in Schedule C (*Charges*) regarding the minimum revenue commitment, Health Net (and its Affiliates) makes no commitment for any minimum or maximum volume, scope, or value of the Services under this Agreement or to any minimum or maximum payments to be made to Supplier.

### 3.6 Cooperation and Coordination with Other Parties

- (a) If Health Net performs itself, or retains a third party other than Supplier to perform, any services that interface or interact with the Services, or that formerly were part of the Services, Supplier will, in accordance with and subject to Section 3.6(b), cooperate and coordinate with Health Net or such third party as reasonably required for Health Net or the third party to perform such services subject in each case to the applicable requirements of Section 21.2 that pertain to the third party entering into a Non-Disclosure Agreement relating to Supplier's Confidential Information. Supplier's cooperation and coordination will include, as applicable: (i) providing reasonable access to the facilities being used by Supplier to provide the Services as necessary for Health Net or the third party to perform its

work; (ii) providing reasonable access to the Equipment and Software used in providing the Services except to the extent prohibited under any applicable agreements with third parties; provided that this clause (ii) shall not limit Health Net's rights under Sections 12 and 15; and (iii) providing such information regarding the operating environment, system constraints and other operating parameters as a person with reasonable commercial skills and expertise would find reasonably necessary for Health Net or the third party to perform its work.

- (b) Health Net shall require that third parties retained by Health Net who utilize Supplier's resources comply with Supplier's reasonable security and confidentiality requirements and, as relevant, with Supplier's reasonable work standards, methodologies and procedures, if provided in writing by Supplier to Health Net and such third parties. Supplier shall immediately notify Health Net if an act or omission of such a third party may cause a problem or delay in providing the Services and shall work with Health Net to prevent or circumvent such problem or delay.

### 3.7 "Master" Nature of the Terms and Conditions

- (a) The Parties intend that these Terms and Conditions serve as a "master" agreement which will govern the Services and any additional services which the Parties agree will be provided by Supplier to Health Net under this Agreement. The Parties shall enter into statements of work (each a "*Statement of Work*" or "*SOW*") that will reflect the terms under which Services shall be provided by Supplier to Health Net.
  - (i) As of the Effective Date, the Parties are entering into the Initial SOWs.
  - (ii) If, after the Effective Date, the Parties agree upon additional services that they desire to be governed by these Terms and Conditions, they shall enter into additional SOWs ("*Future SOWs*") each in substantially the same format and containing the same information as in the Initial SOWs and required by Schedule A-3 (*SOW Template*).
    - (A) Upon execution of any Future SOW, such Future SOW shall be governed by and subject to these Terms and Conditions and the other terms of this Agreement; provided, however, that a Future SOW may override any provision of these Terms and Conditions or any such other term of this Agreement only if, and to the extent that: (i) such Future SOW expressly identifies the provision(s) the Parties intend to override, (ii) such change applies solely to such SOW; and (iii) the executed version of such Future SOW has been approved by legal counsel for both Parties, as evidenced in writing on the executed version of it.
    - (B) With respect to each Future SOW, Health Net and Supplier will jointly determine whether it is necessary or desirable to update any schedule(s) to the Terms and Conditions.

### 3.8 New Services

- (a) "*New Services*" means Functions Health Net requests Supplier to perform under this Agreement

- (i) that are materially different from, and in addition to, the Services; and
  - (ii) for which there is no existing charging mechanism in this Agreement.
- (b) Supplier will not perform any additional Functions that would constitute New Services prior to informing Health Net what the additional charges would be for performing them, and receiving Health Net's prior written authorization to proceed, all in accordance with Section 17.5 and the Change Control Process. If Supplier does perform the additional Functions without Health Net's prior written authorization, they will be deemed to have been performed as part of the Services at no charge.

### 3.9 Joinder Agreements

- (a) General.
- (i) The Parties acknowledge and agree that certain Health Net Affiliates desire to contract directly with Supplier for the Services to be provided to such Health Net Affiliates. The Parties agree that any such Health Net Affiliate that wishes to do so may enter into a joinder agreement with Supplier in the form attached hereto as Schedule T (*Joinder Agreement*) (each such agreement a "***Joinder Agreement***", and each party to a Joinder Agreement, a "***Joinder Party***").
  - (ii) Except as provided in Section 3.9(d), any such Health Net Affiliate that enters into a Joinder Agreement (each, a "Health Net Joinder Party") shall be solely responsible for the Charges with respect to such Services provided to such Health Net Joinder Party by Supplier, and the Joinder Parties shall comply with the terms of such Joinder Agreement. For the avoidance of doubt, in no event shall a Health Net Joinder Party be responsible for any Charges for Services provided by Supplier to Health Net or any other Health Net Affiliate.
  - (iii) Except as otherwise expressly provided in a Joinder Agreement, all applicable provisions of this Agreement, as the same may be amended or modified from time to time in accordance with Section 25.3, shall be binding on the Joinder Parties to such Joinder Agreement. Any such amendment or modification to this Agreement shall be binding on such Joinder Parties without any further action by the Parties or such Joinder Parties.

(b) Resolution of Joinder Disputes.

Unless otherwise required by Law, any claim or dispute arising out of or related to a Joinder Agreement ("***Joinder Disputes***") may be brought pursuant to Section 26 by the applicable Joinder Party against the corresponding Joinder Party under such Joinder Agreement.

(c) Relationship of this Agreement and Joinder Agreements.

This Agreement and any Joinder Agreements are separate, but related agreements. In no event shall this Agreement or any Joinder Agreement be or form the basis for an agreement, directly or indirectly, between Health Net and any Health Net Joinder Party. All Joinder Agreements shall expire upon termination (for any reason) or expiration of this

Agreement. This Agreement shall remain in effect notwithstanding the termination (for any reason) or expiration of a Joinder Agreement.

(d) Guaranty.

Health Net hereby guarantees the payment of all sums payable by Health Net Joinder Party to Supplier under the Joinder Agreement and shall cause the due and punctual performance and observance by Health Net Joinder Party of all acts and obligations to be performed or observed by Health Net Joinder Party under the Joinder Agreement.

### 3.10 Contract documents to be completed after Effective Date

The Parties agree that they will work in good faith and cooperate with each other to complete the following documents within thirty (30) days after the Effective Date:

- (a) Schedule A-3 (*Future SOW Template*);
- (b) Schedule J (*Project Framework*);
  - (i) Schedule J-1 (*Deliverable Acceptance Procedures*);
  - (ii) Schedule J-2 (*Form of Work Order Project*);
  - (iii) and Schedule J-3 (*Project Estimation Model*); and
- (c) Schedule W (*Glossary*);
- (d) Schedule U (*Aspect Assignment and Assumption Agreement*).

Upon agreement in writing by the Parties to any such Schedule, it shall be deemed to be attached to this Agreement without the need for an amendment.

## 4. TERM AND REGULATORY APPROVALS

### 4.1 Initial Term

- (a) The term of this Agreement shall commence on the Effective Date and expire on the date that is seven (7) years after the BPaaS Services Commencement Date, unless it is terminated earlier or is extended pursuant to the terms of this Agreement (such period, together with all extensions thereof, the “**Term**”).
- (b) The term of each SOW shall commence on the SOW Effective Date for such SOW. The Initial SOWs shall expire on the date that this Agreement expires, unless this Agreement or such Initial SOW is terminated earlier or is extended pursuant to the terms of this Agreement. The Future SOWs shall expire on the date set forth in such Future SOWs, unless such Future SOW is terminated earlier or is extended pursuant to the terms of this Agreement. The foregoing period, together with all extensions thereof, is known as the “**SOW Term**”; provided, however, that no SOW Term will extend beyond the Term of this Agreement.

## 4.2 Renewal Terms

- (a) By giving notice to Supplier no less than three (3) months prior to the then-existing expiration date of this Agreement, Health Net may extend the Term for a period designated by Health Net of up to one (1) year (“Renewal Period”) on the terms and conditions (including any productivity improvements) then in effect, provided however, that the Parties agree that the charges in effect during any such renewal period shall be subject to the mutual agreement of the Parties.
- (b) Health Net shall have two (2) such extension options of up to one (1) year each. With respect to each SOW, Health Net shall have the same rights to extend the applicable SOW Term that it has to extend this Agreement under this Section; provided, however, that no SOW Term will extend beyond the Term of this Agreement.
- (c) Supplier shall follow the following process in connection with establishing the charges during the Renewal Periods.\*\*\*

## 4.3 Regulatory and Customer Approvals

- (a) The Parties acknowledge that Health Net must obtain both regulatory approvals and customer consents in order for the Functions that the Parties contemplate to be included in the scope of this Agreement to be actually included in the scope of this Agreement after the Effective Date. Health Net will keep Supplier informed of progress in obtaining such approvals. Health Net will notify Supplier of any regulatory filing or information request, prior to filing or disclosure, in which any Confidential Information of Supplier (not including this Agreement or the terms hereof) may be disclosed. In the event that any Confidential Information of Supplier will be disclosed, Health Net will request and use reasonable efforts to obtain confidential treatment of such information, if requested by Supplier.
- (b) In the event that Health Net is not able to obtain such a consent or approval, or in the event that Health Net obtains a regulatory approval or customer consent that is later revoked, (i) Health Net will notify Supplier and provide such information regarding such denial or revocation as is reasonably requested by Supplier (which information will be deemed Health Net Confidential Information), (ii) Health Net shall have the right to remove any impacted Services, reduce any volumes associated with such Services, reduce the number of Supplier Personnel associated with such Services (and otherwise modify their skill mix) and remove any impacted Functions from the scope of this Agreement, and (iii) Health Net shall have the right to terminate this Agreement (in whole or in part) or any SOW (in whole or in part) as of a date specified by Health Net by giving Supplier at least ninety (90) days prior written notice of such termination.
- (c) The Parties hereby agree that if any Regulator sends to Health Net an email, letter, or other written statement which indicates, in effect, that such Regulator considers the outsourcing of the Services which the Parties have added or may add after the Effective Date, the volumes associated with such Services, the business process Functions associated with such Services, or Supplier’s solution to provide such Services (e.g., location from which such Services will be performed), to make Health Net out of compliance with such Regulator, then (i) Health Net shall provide copies of such notices to Supplier, and (ii) in order to maintain compliance with such Regulator, Health Net shall have the right to remove any impacted Services, reduce any volumes associated with such Services, reduce

the number of Supplier Personnel associated with such Services and otherwise modify their skill mix, and remove any impacted Functions associated with such Services, from the scope of this Agreement, and (iii) terminate this Agreement (in whole or in part) or any SOW (in whole or in part) as of a date specified by Health Net by giving Supplier at least ninety (90) days prior written notice of such termination.

- (d) \*\*\*
- (ii) If Health Net provides Supplier with notice that Health Net is exercising its right under clauses 4.3(b)(ii) or 4.3(c)(ii) after the BPaaS Services Commencement Date, then such modification shall be addressed via the Change Control Process and any Charges associated with such Change Order shall be governed by Section 19.1(a) of Schedule C (*Charges*).
  - (iii) If Health Net provides Supplier with notice that Health Net is exercising its right under clauses 4.3(b)(iii) or 4.3(c)(iii) after the BPaaS Services Commencement Date, then Section 18.1 of Schedule C (*Charges*) shall govern.
- (e) To the extent relevant to the performance of the Services or any of Supplier's other obligations under this Agreement, Supplier shall comply with provisions arising out of Health Net's contracts for federal business, including restrictions against providing services from offshore and audit requirements, as such provisions are set forth in this Agreement, included in the Health Net Policies, or otherwise communicated to Supplier.

## 5. PERFORMANCE

### 5.1 Performance, Generally

Supplier is responsible for managing and successfully performing, completing, and delivering the Services, subject to the overall direction of Health Net and with the cooperation and support of Health Net as specified in this Agreement.

### 5.2 Place of Performance

- (a) Schedule F (*Supplier Facilities*) sets forth the Supplier and Approved Subcontractor facilities from which Supplier will perform the Services (collectively, the "***Supplier Facilities***"). Section 1 of Schedule F (*Supplier Facilities*) sets forth the offshore Supplier Facilities. Section 2 of Schedule F (*Supplier Facilities*) sets forth the onshore Supplier Facilities. Schedule F (*Supplier Facilities*) also sets forth the type of Services that Supplier is permitted to provide from each such Supplier Facility.
- (i) Supplier may not provide Services from a Supplier Facility unless (A) such Service is expressly permitted to be provided from such Supplier Facility as described in Schedule F (*Supplier Facilities*), or (B) Supplier has received Health Net's prior written consent for such Services to be provided from such Supplier Facility.
  - (ii) Health Net may specify, upon prior written notice to Supplier from time to time during the Term, which (if any) Services must be performed on-shore, and Supplier shall comply with any such notice; provided, that any cost impact from

such request, including the costs of performing the Services that are relocated, shall be addressed through the Change Control Process.

- (iii) Supplier shall perform the Services at (i) offshore Supplier Facilities in space that is dedicated to Health Net and with secure access; and (ii) at onshore Supplier Facilities in space that has secure access.
  - (iv) Supplier may also perform certain of the Services from Health Net Facilities, as described in Section 11.2(f).
- (b) During the Term, Supplier will not change any location from which it provides Services to Health Net, or materially reallocate the volume or nature of work processed between locations from which it provides Services to Health Net, without Health Net's prior written approval, which approval (i) may be granted or withheld in Health Net's discretion and (ii) may be conditioned upon Health Net (or the applicable Health Net Affiliate or Health Net lines of business) providing prior notification to, and receiving approval from, applicable Regulator(s) and customers.
- (c) Supplier will manage any approved relocations in accordance with this Agreement and provide a migration plan to be prepared by Supplier and approved in writing by Health Net. Prior to seeking Health Net's approval of any proposed relocation, Supplier will fully examine and evaluate the risks and anticipated effects of the contemplated relocation on the Services and Health Net, including the operational, technical, security, regulatory, and other effects, and will prepare and submit to Health Net an analysis of such effects. Supplier will be responsible for all costs, taxes and other expenses incurred by Supplier. Supplier will also be responsible for any new or additional costs, taxes and other expenses incurred by Health Net and reasonably demonstrated to Supplier that are related to any Supplier-initiated relocation of an operational facility from which the Services are provided, except such new or additional costs, taxes and other expenses incurred by Health Net, if any, that Health Net has expressly agreed in writing in its discretion to bear and not seek reimbursement from Supplier in connection with such Supplier proposed relocation.

### 5.3 Time of Performance

- (a) Supplier will (and will provide the resources necessary to) perform and complete the Services diligently and in a timely manner and in accordance with any applicable time schedules set forth in this Agreement. The Parties agree that any "hard coded" dates set forth in this Agreement (i.e., references to specific calendar dates (such as a reference to "April 1, 2015" rather than a reference to "thirty (30) days after the BPaaS Services Commencement Date"), shall be extended on a day-for-day basis reflecting the number of days after March 1, 2015 that the BPaaS Services Commencement Date actually occurs unless and to the extent that the Parties agree otherwise in writing.
- (b) Supplier will promptly notify Health Net upon becoming aware of any circumstances that may reasonably be expected to jeopardize the timely and successful completion (or delivery) of any Service or other obligation of Supplier. Supplier will use Commercially Reasonable Efforts to avoid or minimize any delays in performance and will inform Health Net of the steps Supplier is taking or will take to do so, and the projected actual completion (or delivery) time.

- (c) If Supplier believes a delay in performance by Health Net (or a third party service provider engaged by or on behalf of Health Net other than Supplier, Supplier's Affiliates or subcontractors, or a Supplier Managed Third Party) has caused or will cause Supplier to be unable to perform its obligations on time, Supplier will promptly so notify Health Net and use Commercially Reasonable Efforts to perform its obligations on time notwithstanding Health Net's (or such third party service provider's) failure to perform. If Supplier's use of Commercially Reasonable Efforts to perform on time in such a circumstance would cause Supplier to incur Out-of-Pocket Expenses, Supplier will so notify Health Net. In that case, Supplier's obligation to continue its efforts to work around the Health Net-caused delay will be subject to Health Net agreeing to reimburse Supplier for its additional Out-of-Pocket Expenses incurred in the course of such efforts.

#### 5.4 Manner of Performance

- (a) Except as this Agreement expressly provides otherwise, Supplier will perform the Services and cause the Technology Platform to operate in compliance with the following:
- (i) all applicable Service Levels, whether existing as of the Effective Date or added during the Term in accordance with the methodologies and processes set forth in Schedule B (*Service Levels*),
  - (ii) the Procedures Manual;
  - (iii) the Health Net Policies, provided that:
    - (A) Supplier's obligation to comply with any Health Net Policy that is not listed in Schedule P (*Health Net Policies*) on the Effective Date (including the link to the on line repository for Health Net Policies as of the Effective Date) or is not listed in the applicable SOW as of the SOW Effective Date or with respect to any change to any Health Net Policy whether listed in Schedule P (*Health Net Policies*) or in an SOW, will commence ten (10) Business Days after the new Health Net Policy is disclosed to Supplier, or such shorter period of time as required by the circumstances;
    - (B) Health Net will deliver to Supplier copies of any changes made by Health Net (excluding changes proposed by Supplier) to Health Net Policies with which Supplier will be expected to comply, sufficiently in advance of the date such changes are to be effective to allow Supplier to plan for and implement changes in its procedures or performance to comply with the changes in the Health Net Policies; and
    - (C) Health Net shall utilize the Change Control Procedure to implement any modified or new Health Net Policy that can reasonably be expected to increase the expenses or obligations of Supplier in any non-de minimis way, provided that financial responsibility for modified and new Health Net Policies relating to a change in or a new Law shall be governed by Section 17.5(e)(ii)(B);
  - (iv) all other compliance obligations of Supplier under this Agreement, including compliance with data security requirements in Section 14 and compliance with Law obligations in Section 27.7;

- (v) the terms of Annex 1 (*Supplemental Terms and Conditions for BPaaS Services*), and Schedule Y (Offshore Prohibitions and Requirements); and
  - (vi) in cases where this Agreement does not prescribe or otherwise regulate the manner of Supplier's performance of the Services, proven best practices followed by the leading providers of similar services.
- (b) In cases where this Agreement does not prescribe or otherwise regulate the manner or quality of Supplier's performance, Supplier will render the Services with at least the same degree of accuracy, quality, timeliness, responsiveness and efficiency as was generally achieved or obtained by (or for) Health Net (and its Affiliates) prior to Supplier assuming responsibility under this Agreement for the affected Functions.
  - (c) Supplier shall conduct a risk assessment, no less than annually, that is consistent with and that supports Health Net's Enterprise Risk Assessment program and processes, which identifies risks to the proper performance of the Services and report on the results of such risk assessment to Health Net, along Supplier's plans to monitor and mitigate any identified risks.

## 5.5 Quality Assurance and Continuous Improvement

In performing the Services, Supplier will follow commercially reasonable quality assurance procedures designed to ensure that the Services are performed with a high degree of professional quality and reliability. Such procedures shall include checkpoint reviews, testing, acceptance, and other procedures for Health Net to confirm the quality of Supplier's performance. Supplier, as part of its total quality management process, will provide continuous quality assurance and quality improvement through: (i) the identification and application of proven techniques and tools from other installations within its operations; and (ii) the implementation of concrete programs, practices and measures designed to improve performance (including the Service Levels). Supplier will utilize project management tools, including productivity aids and project management systems, as appropriate in performing the Services.

## 5.6 Critical Deliverables

Supplier shall provide the Critical Deliverables to Health Net in accordance with Schedule R (*Critical Deliverables*).

## 6. SERVICE LEVELS

### 6.1 General

Quantitative performance standards for certain of the Services ("**Service Levels**") are set forth in Schedule B (*Service Levels*). Supplier's obligation to pay Service Level Credits is further described in Schedule B (*Service Levels*).

### 6.2 Failure to Perform

Supplier will place the Amount at Risk (as defined in Schedule B (*Service Levels*)) at risk each month for Service Level Credits. Health Net may allocate the Pool Percentage Available for Allocation among Critical Service Levels for the purpose of calculating Service Level Credits, as further described in Schedule B (*Service Levels*).

### 6.3 Removal of Performance Group Guarantee Customers.

- (a) If Supplier fails to meet the annual Performance Guarantee Group Service Levels with respect to a Performance Guarantee Group such that the failure for such Performance Guarantee Group is \*\*\* Health Net shall have the right to withdraw such Performance Guarantee Group from this Agreement. \*\*\*
- (b) \*\*\*
- (c) A withdrawal under this Section 6.3 shall be implemented via the Change Control Process.

## 7. SUPPLIER PERSONNEL

### 7.1 Provision of Suitable Personnel

Subject to any lesser qualifications of any Transitioned Employees, Supplier will assign an adequate number of Supplier Personnel to perform the Services who are properly educated, trained, familiar with and fully qualified for the Services they are assigned to perform, and Supplier shall ensure (to the extent reasonably possible) that any outgoing Supplier Personnel leaving the Health Net account spend a reasonable period of time training the new Supplier Personnel who will be replacing such outgoing personnel. Supplier is responsible for taking action at its own expense such that Supplier Personnel assigned to perform Services have the legal right to work in the countries in which they are assigned to work.

### 7.2 Screening and Background Checks

- (a) Supplier shall, at no additional expense to Health Net, and prior to placing any Supplier Personnel (other than a Transferred Personnel) at Health Net or on the Health Net account, complete background checks for all such personnel (“**Background Checks**”). Background Checks shall include, without limitation, verification of work history, I-9 completion (to the extent required by the laws of the United States), verification of passports, reference checks from at least three (3) prior employers (if such personnel have had three prior employers, and if not then from such personnel’s prior employers), drug testing and such other background checks as Health Net may request. Background Checks shall also identify State, county, federal and other applicable jurisdictions felonies and misdemeanor convictions and verify the social security number of such personnel, if applicable to such personnel. The personnel will be asked for education and, with respect to United States resident personnel, the last seven (7) years of residences. Background Checks shall also include a determination as to whether the person has been identified by the Department of Treasury Office of Foreign Assets Control (“**OFAC**”) as an individual with whom U.S. persons are prohibited from engaging in transactions. Also, all Supplier Personnel’s background checks will be done by an external agency that is contracted with Supplier.
- (b) Unless otherwise prohibited by applicable Law, Supplier Personnel may be tested for drugs and/or alcohol whenever Supplier or Health Net has reasonable suspicion that the personnel is under the influence of drugs and/or alcohol in the workplace or has violated the Health Net Policy on substance abuse. Such personnel have the right to refuse to submit to drug or alcohol testing; however, any personnel who do so will be subject to removal from the Health Net account. Results of Background Checks and drug testing will remain Supplier’s Confidential Information and will not be provided to Health Net, but any negative or questionable Background Check or drug test of personnel will require Supplier

to remove or not assign such personnel. Supplier shall hire all Supplier Personnel and other personnel involved in the Health Net account strictly in accordance with all Laws applicable to the hiring and employment of individuals including, without limitation, the Fair Labor Standards Act, Immigration Reform and Control Act and all equal employment opportunity Laws.

### 7.3 Responsibility for Supplier Personnel, Generally

Supplier will manage, supervise and provide direction to Supplier Personnel and cause them to comply with the obligations and restrictions applicable to Supplier under this Agreement. Supplier will make Supplier Personnel aware of, and cause them to comply with, Health Net Policies, including those pertaining to safety and security. As between Supplier and Health Net, Supplier is responsible for all wages, salaries and other amounts due Supplier Personnel, and for all tax withholdings, unemployment insurance premiums, pension and social welfare plan contributions, and other employer obligations with respect to Supplier Personnel. Supplier is responsible for the acts and omissions of Supplier Personnel under or relating to this Agreement.

### 7.4 Key Supplier Positions

- (a) **“Key Supplier Positions”** means the Supplier positions identified in Schedule D (*Key Supplier Personnel - Account Level*) and in each SOW. The Supplier Personnel approved by Health Net as of the Effective Date to fill the Key Supplier Positions are identified, as applicable, in Schedule D (*Key Supplier Personnel - Account Level*) and in each SOW. Notwithstanding anything to the contrary in Section 25.3, the Parties agree that such Supplier Personnel approved to fill Key Supplier Positions may be changed by either (i) amendment to the Agreement or the applicable SOW or (ii) an email exchange between the Parties. If any individual designated to fill a Key Supplier Position as of the Effective Date turns out to be out of scope before the BPaaS Services Commencement Date and therefore is not hired by Supplier, and (1) if such designated individual was a not a Transitioned Personnel, then the Parties will backfill that position and Health Net shall have the right to recommend a replacement for such person and Supplier shall give priority to such recommended replacement, or (2) if such designated individual was a Transitioned Personnel, then Health Net shall have the right to designate a replacement for such person from other rebadged personnel, provided Health Net engages in good faith discussions with Supplier as to such selection.
- (b) Supplier will cause each of the Supplier Personnel filling the Key Supplier Positions (whether as of the Effective Date, or replacement personnel filling such Key Supplier Position during the Term) to devote full time and effort to the provision of the Services, except as otherwise indicated in Schedule D (*Key Supplier Personnel - Account Level*).
- (c) Before the initial and each subsequent assignment of an individual to a Key Supplier Position, Supplier will notify Health Net of the proposed assignment, introduce the individual to appropriate Health Net representatives and, consistent with Supplier’s personnel practices, provide Health Net a curriculum vitae and other information about the individual reasonably requested by Health Net. Upon request, Supplier will provide Health Net representatives an opportunity to meet with the individual. If Health Net in good faith objects to the proposed assignment, the Parties will attempt to resolve Health Net’s concerns on a mutually agreeable basis. If the Parties have not been able to resolve Health Net’s concerns within five (5) Business Days, Supplier may not assign the individual to that position and must propose the assignment of another suitably qualified individual.

- (d) Health Net may from time to time change the positions designated as Key Supplier Positions under this Agreement. However, without Supplier's consent, the number of Key Supplier Positions may not exceed the then-current total number of Key Supplier Positions.
- (e) Without prior written approval by Health Net, Supplier will not reassign or replace any person assigned to a Key Supplier Position until (i) in the case of the Supplier Personnel initially assigned to a Key Supplier Position, one year after the completion of the Transition of the Functions for which such Key Supplier Position is responsible, and (ii) in the case of replacements of Supplier Personnel assigned to a Key Supplier Position, one year after the individual's assignment to the Key Supplier Position. Subject to the preceding sentence, Supplier will give Health Net, where reasonably possible, at least sixty (60) days advance notice of a proposed change in personnel filling a Key Supplier Position, and will discuss with Health Net any objections Health Net may have. Supplier will arrange, at no charge for the proposed replacement to work side-by-side with the individual being replaced during the notice period to effectuate a seamless transfer of knowledge prior to the incumbent leaving the Key Supplier Position. Individuals filling Key Supplier Positions may not be transferred or re-assigned until a suitable replacement has been approved by Health Net, and no such re-assignment or transfer may occur at a time or in a manner that would have an adverse impact on delivery of the Services or Health Net's operations. Supplier will establish and maintain an up-to-date succession plan for the individuals serving in Key Supplier Positions. Supplier may remove an individual filling a Key Supplier Position after notification to Health Net for reasons of death, disability, resignation or termination from employment by Supplier, or otherwise as mutually agreed by the Parties. In addition, Supplier may suspend an individual filling a Key Supplier Position after notification to Health Net if the individual is under investigation in connection with a Security Breach.

#### **7.5 Removal and Replacement of Supplier Personnel**

- (a) Health Net may immediately remove any Supplier Personnel from any Health Net Facilities if the person is threatening or abusive, commits a crime, engages in an act of dishonesty while performing Services for Health Net or violates any Health Net Policy pertaining to safety, security or use of Health Net Facilities. If Health Net determines in good faith that the continued assignment to Health Net's account of any of the Supplier Personnel is not in the best interests of Health Net, then, at Health Net's request, Supplier shall promptly remove such Supplier Personnel from the Health Net account.
- (b) Supplier shall not reassign any Supplier Personnel providing services under the AO Agreement to work on the TriZetto platform or provide services to a Supplier customer utilizing the TriZetto platform for two (2) years after the Effective Date without first obtaining Health Net's prior written consent. No Supplier Personnel performing services under the AO Agreement shall be removed until there has been proper and sufficient knowledge transfer to his or her designated replacement.

#### **7.6 Controlling Turnover of Supplier Personnel**

Health Net and Supplier agree that it is in their mutual best interests to keep the turnover rate of Supplier Personnel to a reasonably low level. Accordingly, if Health Net believes that Supplier's turnover rate is excessive, and so notifies Supplier, Supplier will provide data concerning its turnover rate and meet with Health Net to discuss the reasons for, and impact of, the turnover rate. If appropriate, Supplier will submit to Health Net its proposals for reducing the turnover rate and the

Parties will mutually agree on a program to bring the turnover rate down to an acceptable level. In any event, Supplier will use Commercially Reasonable Efforts to keep the turnover rate to a reasonably low level. Notwithstanding any turnover of Supplier Personnel, Supplier remains obligated to perform the Services in compliance with the requirements of this Agreement.

## 7.7 Subcontracting

Supplier may subcontract or delegate the performance of Services only in accordance with the following:

- (a) Supplier may subcontract the performance of Services to any of its wholly-owned Affiliates.
- (b) Supplier shall enter into and maintain a subcontract with TPUSA, Inc. (“*TPUSA*”) for the performance of the Contact Center Services provided to Health Net by TPUSA as of the Effective Date. Except in cases of TPUSA’s gross negligence, willful misconduct or material breach of a material provision, or significant liability or financial risk to either Health Net or Supplier, Supplier shall not terminate or allow such subcontract to expire without Health Net’s prior written consent. If Supplier terminates the TPUSA subcontract, Supplier shall provide Health Net with written notice of such termination within forty eight (48) hours of sending such termination notice. Any replacement of TPUSA shall be subject to Health Net’s prior written consent in accordance with Section 7.7(d) and carried out pursuant to a transition plan developed by Supplier and approved by Health Net. Health Net’s consents and approvals required under this paragraph shall not be unreasonably withheld or delayed.
- (c) Supplier may, in the ordinary course of business, subcontract for third party services or products (which include services and products from non-wholly owned Supplier Affiliates) that satisfy each of the following conditions: (i) are not dedicated to performance of Services for Health Net, (ii) are not material to a Function constituting a part of the Services, (iii) do not result in a material change in the way Supplier conducts its business, and (iv) any such third party does not have access to Health Net’s Confidential Information (including Protected Health Information); provided (1) such subcontract does not adversely affect Health Net; and (2) in each case Supplier provides at least forty-five (45) days prior written notice of the same to Health Net. If Health Net expresses concerns to Supplier about a subcontract covered by this paragraph, Supplier will discuss such concerns with Health Net and work to resolve Health Net’s concerns on a mutually acceptable basis.
- (d) Except as provided in Sections 7.7(a), 7.7(b) and 7.7(c), Supplier shall not subcontract for performance of, or delegate any of its responsibilities under this Agreement without first obtaining the prior written approval of Health Net, which approval (i) may be granted or withheld in Health Net’s discretion, (ii) may be conditioned upon Health Net (or the applicable Health Net Affiliate or Health Net lines of business) providing prior notification to, and receiving approval from, applicable Regulator(s) and customers, and (iii) may be conditioned on Supplier’s obtaining the right from the proposed Subcontractor to assign the related subcontract to Health Net upon the expiration or any earlier termination of the Services being provided by such Subcontractor, and at such time and upon Health Net’s request, Supplier shall so assign the subcontract to Health Net. When seeking such approval, Supplier will (i) give Health Net forty-five (45) days prior written notice specifying the components of the Services affected, the scope of the proposed subcontract,

the identity and qualifications of the proposed Subcontractor and the results of any due diligence carried out with regard to the proposed Subcontractor; and (ii) at Health Net's request, provide Health Net a description of the scope and material terms (other than financial) of the proposed subcontract. Health Net may require Supplier to replace any previously approved Subcontractor found, in the reasonable judgment of Health Net, to be unacceptable. Any Subcontractor authorized by this Section 7.7 or approved by Health Net, in its discretion, shall be an "**Approved Subcontractor**" hereunder.

- (e) Approved Subcontractors for each SOW as of the SOW Effective Date are listed in the applicable SOW. Notwithstanding anything to the contrary in Section 25.3, after the SOW Effective Date, the Parties may add additional Approved Subcontractors, or remove previously approved Approved Subcontractors, by an amendment or by execution of a letter or other informal written document with a signed counter-signature by the receiving Party.
- (f) Supplier will require (i) all Subcontractors with whom Supplier enters into a subcontracting agreement after the Effective Date for performance of any Services to be bound to Supplier by all applicable terms of this Agreement and to assume toward Supplier all of the applicable obligations and responsibilities that Supplier, by this Agreement, has assumed toward Health Net, and (ii) all Subcontractors (other than those covered by subsection (i)) with whom Supplier entered into a subcontracting agreement for performance of the services provided to Health Net under the Original BPO Agreement to be bound to Supplier as required by the Original BPO Agreement.
- (g) Supplier may use Approved Subcontractors to perform the Services to the extent permitted by Health Net's approval. Supplier is responsible for managing all Subcontractors. Supplier remains responsible for all Functions delegated to Subcontractors to the same extent as if such Functions were to be performed by Supplier acting through its officers, directors, employees, and agents and, for purposes of this Agreement, such Functions will be deemed Functions performed by Supplier. Supplier will be Health Net's sole point of contact regarding the Services, including with respect to payment.
- (h) Supplier may disclose Health Net Confidential Information only to Approved Subcontractors who have agreed in writing to protect the confidentiality of such Confidential Information in a manner substantially equivalent to that required of Supplier under this Agreement and to permit both Supplier and Health Net, or both, to enforce such terms directly against such Subcontractor. As between the Parties, Supplier shall be responsible for all acts and omissions of (i) Supplier's independent contractors and other Subcontractors as if they were Supplier's employees and (ii) any third party to whom Supplier permits access to Health Net Data or Health Net Confidential Information.
- (i) Supplier shall not restrict or prevent (including by contract) any Subcontractor from entering into an agreement with Health Net to perform services directly for Health Net.

#### **7.8 Supplier Personnel No Longer on Health Net Account**

Subject to Section 7.4(e), in the event any one of the Supplier Personnel in a Key Supplier Position leaves the Health Net account for any reason (*e.g.*, termination, voluntary departure from Supplier, etc.), Supplier will use commercially reasonable efforts to notify Health Net of such occurrence within seventy-two (72) hours.

## 7.9 Training

- (a) **Health Net Required Training.** In addition to the training required by Schedule K (*Regulatory Compliance Addendum*), Supplier Personnel are required to take the then-current Health Net-provided training (administered online via Health Net's HR link). As of the Effective Date, the required Health Net training, for which Health Net will provide the content and materials at its own cost, includes:
- (i) HIPAA: An Overview;
  - (ii) Business Code of Conduct at Health Net (Ethics);
  - (iii) The Painful Price of Healthcare Fraud;
  - (iv) Getting the Records Straight;
  - (v) Health Net General Compliance;
  - (vi) Medicare Part D: Fraud, Waste and Abuse (for all associates whose job functions cover or may cover Medicare Part D); and
  - (vii) Other training courses related to the Functions that Health Net requires its employees or contractors to take.
- (b) Each Supplier Personnel shall complete the above training within sixty (60) days after being assigned to the Health Net account, and annually thereafter.
- (c) **Health Net Customer Required Training.** Supplier Personnel are also required to take any training that a customer of Health Net (e.g., LAUSD) would ordinarily require Health Net personnel to take if Health Net personnel were performing the Services.

## 8. HEALTH NET RESPONSIBILITIES

### 8.1 Appointment of Health Net Program Management Office (PMO) Personnel

Health Net will designate an individual to serve as Health Net's "**Program Manager**", who will be Supplier's principal point of contact for obtaining decisions, information, approvals and acceptances required from Health Net.

### 8.2 Health Net Cooperation Duties

- (a) In support of Supplier's performance of the Services and subject to Section 8.3, Health Net will perform the Functions expressly identified in this Agreement, including in each SOW, as retained Health Net Functions and provide or make available to Supplier the Equipment, Software, and other resources specified in (i) for the Initial SOWs, Schedule O (*Health Net Provided Resources*), and (ii) each Future SOW, as applicable.
- (b) Health Net will cooperate with Supplier, including by making available management decisions, information, approvals and acceptances, as reasonably requested by Supplier so that Supplier may accomplish its obligations and responsibilities under this Agreement.

### 8.3 Savings Clause

Health Net's failure to perform its responsibilities set forth in this Agreement (or cause them to be performed) will not constitute grounds for termination by Supplier except as provided in Section 16.3 (Termination by Supplier). Supplier's nonperformance of its obligations under this Agreement will be excused if and to the extent (a) such Supplier nonperformance results from (i) the failure by Health Net (including failure by a Health Net contractor, agent or other party for which Health Net is responsible, but excluding Supplier) to perform an express obligation of Health Net under this Agreement, (ii) the failure of a Health Net Provided Resource provided that such failure shall not be an excuse if it arises out of Supplier's failure to perform its obligations to manage and provide other Services with respect to such Health Net Provided Resource and the related third party from which Health Net procures such Health Net Provided Resource, and/or (iii) a breach by Health Net of its obligations under this Agreement that prevents Supplier from performing in accordance with this Agreement, and (b) Supplier provides Health Net with reasonable notice of such nonperformance and uses Commercially Reasonable Efforts to perform notwithstanding Health Net's failure to perform or breach. If Supplier's use of Commercially Reasonable Efforts to perform in such a circumstance would cause Supplier to incur Out-of-Pocket Expenses, Supplier may so notify Health Net. If it does, Supplier's obligation to continue its efforts to work around Health Net's failure to perform will be subject to Health Net agreeing to reimburse Supplier for its Out-of-Pocket Expenses incurred in the course of such efforts. SUPPLIER ACKNOWLEDGES THAT HEALTH NET WOULD NOT BE WILLING TO ENTER INTO THIS AGREEMENT WITHOUT ASSURANCE THAT THIS AGREEMENT MAY NOT BE TERMINATED BY SUPPLIER AND THAT SUPPLIER SHALL NOT HAVE THE RIGHT TO SUSPEND PERFORMANCE OF THE SERVICES EXCEPT, AND ONLY TO THE EXTENT, EXPLICITLY PROVIDED HEREIN.

### 8.4 Minimum Revenue Commitment.

Schedule C (*Charges*) sets out the terms and conditions of Health Net's obligation to satisfy the Minimum Revenue Commitment.

## 9. CHARGES

Schedule C (*Charges*) sets forth all the charges payable to Supplier for performing the Services applicable to such SOW. Health Net will not be required to pay Supplier any amounts for or in connection with performing the Services and fulfilling Supplier's obligations under this Agreement other than those amounts expressly payable to Supplier under this Agreement.

### 9.1 Pass-Through Expenses

- (a) "***Pass-Through Expenses***" means third party charges that are to be both (i) paid by Health Net (either (A) directly to the third party or (B) to Supplier, which, in turn, pays the third party) on an Out-of-Pocket Expenses basis, and (ii) administered by Supplier. Any Pass-Through Expenses shall be agreed upon in accordance with Section 19.4 of Schedule C (*Charges*). Supplier shall arrange for delivery by third parties to Supplier of invoices for Pass-Through Expenses, and Supplier promptly shall review such invoices and provide Health Net with the original invoice together with a statement identifying which charges are proper and valid and should be paid by Health Net.
- (b) Supplier shall use Commercially Reasonable Efforts to minimize the amount of Pass-Through Expenses. With respect to services or materials paid for on a Pass-Through

Expenses basis, Health Net reserves the right to: (i) obtain such services or materials directly from a third party; (ii) designate the third party source for such services or materials; (iii) designate the particular services or materials (*e.g.*, equipment make and model) Supplier shall obtain; (iv) designate the terms for obtaining such services or materials (*e.g.*, purchase or lease and lump sum payment or payment over time); (v) require Supplier to identify and consider multiple sources for such services or materials or to conduct a competitive procurement; and (vi) review and approve the applicable Pass-Through Expenses before entering into a contract for particular services or materials.

## 9.2 Incidental Expenses

Supplier acknowledges that, except as may be otherwise provided in this Agreement, expenses that Supplier expects to incur in performing the Services (including travel and lodging, document reproduction and shipping, and long-distance telephone) are included in Supplier's Charges and rates set forth in this Agreement. Accordingly, such Supplier expenses are not separately reimbursable by Health Net unless, on a case-by-case basis for unusual expenses, Health Net has agreed in advance and in writing to reimburse Supplier for the expense.

## 9.3 Taxes

The Parties' respective responsibilities for taxes arising under or in connection with this Agreement shall be as follows:

- (a) Each Party shall be responsible for any personal property taxes on property it owns or leases, for franchise and privilege taxes on its business, and for taxes based on its net income or gross receipts.
- (b) Supplier shall be responsible for any sales, use, excise, value-added, services, consumption and other taxes and duties payable by Supplier on the goods or services used or consumed by Supplier in providing the Services where the tax is imposed on Supplier's acquisition or use of such goods or services and the amount of tax is measured by Supplier's costs in acquiring such goods or services.
- (c) Health Net shall be responsible for any applicable sales, use, excise, value-added, services, consumption or other tax that is assessed on the provision of the Services as a whole, or on any particular Service by any governmental or taxing authority within the United States; provided, however, that (i) Supplier invoices reflect on a current basis (and in any event before any such tax becomes due and payable) the amount of any such tax in each jurisdiction and the taxable Services to which such tax relates, (ii) if Supplier fails to reflect on its invoice any such tax on a current basis, Supplier shall be financially responsible for any penalties and interest assessed by the taxing authority with respect to such tax, and (iii) if Supplier fails to reflect any such tax on a Supplier invoice within twelve (12) months after the date that such tax is due and payable, Supplier shall be financially responsible for the full amount of such tax, including any penalties and interest.
- (d) Supplier shall be responsible for any sales, use, excise, value-added, services, consumption or other tax that is assessed on the provision of the Services as a whole, or on any particular Service, by any governmental or taxing authority outside the United States as of the Effective Date or during the Term, except (i) where the Parties agree in writing that a Supplier Affiliate located in a jurisdiction outside of the United States may invoice Health Net or a Health Net Affiliate directly or (ii) where the Parties agree in writing that Supplier

will provide centralized billing, wherein a Health Net Affiliate located in a jurisdiction outside of the United States will receive Services from a Supplier Affiliate located in a jurisdiction outside of the United States and invoicing for such Services is between a Health Net Affiliate located in the United States and a Supplier Affiliate located in the United States.

- (e) Supplier shall be responsible for any payments required to compensate Supplier Personnel for compensatory tax treatment resulting from Supplier Personnel traveling to perform services, subject to the remainder of this paragraph. In the event that the assignment (or potential assignment) of particular Supplier Personnel to perform Services for Health Net has reached a point such that the continued assignment of such particular personnel is likely to trigger compensatory tax treatment of the travel related expenses reimbursed to such particular Supplier Personnel, Supplier may inform Health Net in writing that Supplier is close to becoming subject to compensatory tax treatment as a result of such assignment, and shall provide an estimate of the amount of such compensatory tax liability. If Supplier fails to so notify Health Net, Supplier shall remain responsible for any amounts resulting from compensatory tax treatment of such particular Supplier Personnel. Following such notice by Supplier, Health Net may then elect by sending written notice to Supplier to be financially responsible for any payments required to compensate Supplier with respect to such particular Supplier Personnel in an amount equal to the compensatory taxes assessed to such particular Supplier Personnel as the result of such assignment to the Health Net account. If Health Net does not so elect, Supplier shall remain responsible for any amounts resulting from compensatory tax treatment of such particular Supplier Personnel, provided, however, Supplier may then relocate such Supplier Personnel to avoid such taxes, and the Parties shall cooperate to make other arrangements so that the Services will be performed without interruption.
- (f) In the event that a sales, use, excise, value added, services, consumption or other tax is assessed on the provision of any of the Services, the Parties shall work together to segregate the payments under this Agreement into three (3) payment streams:
  - (i) those for taxable Services;
  - (ii) those for which Supplier functions merely as a payment agent for Health Net in receiving goods, supplies, or services (including leasing and licensing arrangements); and
  - (iii) those for other nontaxable Services.
- (g) The Parties agree to cooperate with each other to enable each to more accurately determine its own tax liability and to minimize such liability to the extent legally permissible, provided however, where the Parties have made a joint assessment in writing as contemplated in this sentence and a taxing authority subsequently determines that a tax should have been collected and/or paid, the limitation in Section 9.3(c)(iii) will not apply. Supplier's invoices shall separately state the amounts of any taxes Supplier is collecting from Health Net, and Supplier shall remit such taxes to the appropriate authorities. Each Party shall provide and make available to the other any resale certificates, information regarding out-of-state or out-of-country sales or use of equipment, materials or services, and other exemption certificates or information reasonably requested by the other Party.

- (h) Supplier shall promptly notify Health Net of, and coordinate with Health Net the response to and settlement of, any claim for taxes asserted by applicable taxing authorities for which Health Net is responsible hereunder, it being understood that with respect to any claim arising out of a form or return signed by a Party to this Agreement, such Party shall have the right to elect to control the response to and settlement of the claim, but the other Party shall have all rights, at its sole cost and expense, to participate in the responses and settlements that are appropriate to its potential responsibilities or liabilities. If Health Net requests Supplier to challenge the imposition of any tax, Supplier shall do so in a timely manner and Health Net shall reimburse Supplier for the reasonable legal fees and expenses it incurs. Health Net shall be entitled to any tax refunds or rebates granted to the extent such refunds or rebates are of taxes that were paid by Health Net.

#### 9.4 Estimating Model

Schedule J (*Project Framework*) sets forth the project estimation model Supplier will use for the Non-BPaaS IT Services (the “*PEM*”). The Parties will baseline and assess the PEM annually to address accuracy and institute improvements in Q2 of each calendar year.

#### 9.5 \*\*\*

- (a) \*\*\*.
- (b) \*\*\*.
- (c) \*\*\*.
- (d) \*\*\*.

### 10. INVOICING AND PAYMENT

#### 10.1 Invoicing

- (a) Supplier shall invoice Health Net for all amounts due under this Agreement on a monthly basis in arrears (*i.e.*, Charges for Services delivered in August will be invoiced on the invoice delivered to Health Net in September), or as otherwise agreed by the Parties in writing. Each invoice shall provide, for each Charge, information regarding the Services to which such Charge relate which is sufficient to enable Health Net to determine the contractual basis for such Charge. Supplier shall include the calculations utilized to establish the Charges.
- (b) To the extent a credit may be due Health Net pursuant to this Agreement, Supplier shall provide Health Net with an appropriate credit against amounts then due and owing. If no further payments are due to Supplier, Supplier shall pay such amounts to Health Net within \*\*\* days of the date of request for such credit by Health Net.
- (c) Supplier shall render a single consolidated invoice for each month’s Charges showing such details as reasonably specified by Health Net, including as necessary to satisfy Health Net’s internal accounting and chargeback requirements (such as allocating Charges among Service components, locations and departments). The form of invoice shall be mutually agreed by the Parties during Transition and any changes to such form invoice during the Term must be approved by Health Net.

- (d) Supplier shall use good faith efforts to submit complete invoices that include all Charges incurred in the applicable month, and may include additional Charges on a later invoice, provided that in no event shall Charges be billed more than \*\*\* days after the month during which the invoice for such Charges should have been provided to Health Net pursuant to Section 10.1(a).

## 10.2 Payment Due

Subject to the other provisions of this Section 10.2, invoices provided under Section 10.1 and properly submitted to Health Net pursuant to this Agreement shall be paid by Health Net within \*\*\* days after receipt thereof. Any amount due under this Agreement for which a time for payment is not otherwise specified shall be paid within \*\*\* days after receipt of a proper invoice for such amount.

## 10.3 Accountability

Supplier shall maintain complete and accurate records of and supporting documentation for the amounts billable to and payments made by Health Net hereunder in accordance with generally accepted accounting principles applied on a consistent basis. Supplier agrees to provide Health Net with documentation and other information with respect to each invoice as may be reasonably requested by Health Net to verify accuracy and compliance with the provisions of this Agreement.

## 10.4 Proration

Except as may be otherwise provided in this Agreement, periodic Charges under this Agreement are to be computed on a calendar month basis, and shall be prorated for any partial month.

## 10.5 Refundable Items

- (a) Prepaid Amounts. Where Health Net has prepaid for a service or function for which Supplier is assuming Financial Responsibility under this Agreement, Supplier shall refund to Health Net, upon either Party identifying the prepayment, that portion of such prepaid expense which is attributable to periods on and after the Effective Date.
- (b) Refunds and Credits. If Supplier should receive a refund, credit or other rebate for goods or services previously paid for by Health Net, Supplier shall promptly notify Health Net of such refund, credit or rebate and shall promptly pay the full amount of such refund, credit or rebate, as the case may be, to Health Net.

## 10.6 Deductions

With respect to any amount to be paid by Health Net hereunder, Health Net may deduct from such amount any amount that Supplier is obligated to pay Health Net hereunder.

## 10.7 Disputed Charges

Subject to Section 10.6, Health Net shall pay undisputed Charges when such payments are due under this Section 10.7. Health Net may withhold and/or set off payment of particular Charges that Health Net disputes in good faith, and may set off amounts due and owing to Health Net as credits against Charges payable to Supplier under this Agreement. If any such disputed Charges have already been paid, Health Net may deduct such disputed Charges or amounts due from future

amounts owed by Health Net to Supplier. If an invoiced amount is disputed in good faith by Health Net, then Health Net shall provide written notification to Supplier of the dispute and the basis for such dispute, and the Parties shall utilize the procedures in Section 26.1 to resolve the issue. In the event that Charges cover both disputed and undisputed items, then subject to the above in this Section 10.7, Health Net shall pay all undisputed items in accordance with this Agreement. If, after following the procedures in Section 26.1, it is determined that Health Net should have paid all or a portion of the disputed amounts, (a) Supplier shall submit to Health Net an invoice for an amount equal to the amount of disputed charges that Health Net should have paid, and (b) Health Net will endeavor to remit payment for such invoice as promptly as possible, but in no event more than \*\*\* days from receipt of such invoice.

## 11. TRANSFER OR USE OF RESOURCES

This Section 11 sets forth the processes by which certain resources used by Health Net prior to the Effective Date will be transferred or otherwise made available to Supplier for use in providing the Services. For avoidance of doubt, this Section 11 does not address Acquired Assets which are being transferred by Health Net to Supplier pursuant to the APA. RIGHTS OF USE GRANTED BY HEALTH NET TO SUPPLIER UNDER THIS SECTION 11 ARE GRANTED ON AN 'AS-IS, WHERE-IS' BASIS, WITHOUT WARRANTIES OF ANY KIND.

### 11.1 Transfer of Resources

Schedule E (*Transitioned Employees*) sets forth the terms and conditions governing the recruitment and transition of Health Net personnel to Supplier. If Supplier is obligated to make employment offers to any Health Net personnel in connection with Services to be provided by Supplier under this Agreement, such personnel shall be the Affected Employees as defined in Schedule E (*Transitioned Employees*), and the terms of Schedule E (*Transitioned Employees*) shall govern.

### 11.2 Use of Health Net Resources

- (a) **General.** Health Net's obligation to provide the Health Net Third Party Service Contracts, the Health Net Owned Software, the Health Net Licensed Software, the Health Net Owned Equipment and the Health Net Leased Equipment pursuant to Sections 11.2(b), (c) and (d) below (collectively, "**Health Net Provided Resources**") and Supplier's right to use such Health Net Provided Resources, shall be subject to the terms of Section 11.2(e) below.
- (b) **Health Net Third Party Service Contracts.**
  - (i) The Health Net Third Party Service Contracts that are to be made available to Supplier for use in providing the Services are listed in Schedules O-5-1, O-5-1 and O-5-3 (*Health Net Provided Resources*). Health Net (and each of its Affiliates) retains all of its right, title and interest in and to the referenced Health Net Third Party Service Contracts, subject to Supplier's rights in this Agreement.
  - (ii) As of the applicable SOW Effective Date, Health Net grants to Supplier, without assignment of any such Health Net Third Party Service Contract, but subject to the Parties obtaining any Required Consents pursuant to Section 11.3 (*Required Consents*), the right to use the services provided to Health Net under such Health Net Third Party Service Contracts relevant to such SOW, if any, until such time as determined in accordance with Section 11.2(e) below.

- (iii) In the event Health Net or any Health Net Affiliate (*e.g.*, Health Net of California, Inc.) enters into any third party contracts that are designated “Health Net Third Party Service Contracts” made available to Supplier under this Section 11.2(a), Health Net and/or such Health Net Affiliate will file a list of them with the applicable Regulator. The filing by Health Net and/or such Health Net Affiliate is intended to demonstrate that the availability of such contracts to Supplier will not prevent Health Net and/or such Health Net Affiliate from complying with the requirements of any applicable Law (*e.g.*, the Knox-Keene Act of California).
- (c) **Health Net Owned Software and Health Net Licensed Software.**
- (i) For purposes of this Section 11, Health Net Owned Software includes Health Net proprietary configurations of third party Software other than the Configurations acquired by Supplier from Health Net pursuant to the APA.
  - (ii) The Health Net Owned Software and Health Net Licensed Software that are to be made available to Supplier for use in providing the Services, are listed in Schedules O-1 and O-2, respectively (*Health Net Provided Resources*). Health Net (and each of its Affiliates) retains all of its right, title and interest in and to the referenced Health Net Owned Software and Health Net Licensed Software.
  - (iii) As of the applicable SOW Effective Date, Health Net grants to Supplier until such time as determined in accordance with Section 11.2(e) below and except as provided in Section 5.1(a) of Schedule C (*Charges*):
    - (A) a fully paid-up, nonexclusive, worldwide license to Use the referenced Health Net Owned Software relevant to such SOW, if any, in both object and Source Code versions, and
    - (B) subject to the Parties having obtained any Required Consents pursuant to Section 11.3 (*Required Consents*) with respect to the referenced Health Net Licensed Software, and without assignment of the license, such rights as Health Net has (or later obtains) to use the referenced Health Net Licensed Software relevant to such SOW except as in object and, if permissible within the terms of the applicable Required Consent and if approved in writing by Health Net, the right to modify and adapt the Health Net Licensed Software and access to the Source Code,

in each case, via Citrix or other similar method of remote access.
  - (iv) The rights granted in clause (ii) above shall be in effect until such time as determined in accordance with Section 11.2(e) below.
- (d) **Health Net Owned Equipment and Health Net Leased Equipment.**
- (i) The Health Net Owned Equipment and Health Net Leased Equipment that are to be made available to Supplier for use in providing the Services, are listed in Schedules O-3 and O-4 (*Health Net Provided Resources*). Additionally terms relating to provision of desktop computers, laptops, cell phones and similar devices are set forth in and governed by Section 11.4(b). Health Net (and each of

its Affiliates) retains all of its right, title and interest in and to the referenced Health Net Owned Equipment and Health Net Leased Equipment.

- (ii) As of the applicable SOW Effective Date, Health Net grants to Supplier:
    - (A) a fully paid-up, nonexclusive, license to use the referenced Health Net Owned Equipment relevant to such SOW, and
    - (B) subject to the Parties having obtained any Required Consents pursuant to Section 11.3 (*Required Consents*) with respect to the referenced Health Net Leased Equipment, and without assignment of the leases, such rights as Health Net has (or later obtains) to use the referenced Health Net Leased Equipment relevant to such SOW.
  - (iii) The rights granted in clause (ii) above shall be in effect until such time as determined in accordance with Section 11.2(e) below. After such time, Supplier will return such Equipment to Health Net in substantially the same condition as it was when Supplier began use of it, subject to reasonable wear and tear.
- (e) Terms Regarding Supplier's use of Health Net Provided Resources. The following shall apply to the Health Net Provided Resources:
- (i) Supplier shall utilize the Health Net Provided Resources solely to provide Services to Health Net (and other Service Recipients) under this Agreement. Supplier is not permitted to use the Health Net Provided Resources for the benefit of any entity other than Health Net (and other Service Recipients under this Agreement) without the prior written consent of Health Net, which may be withheld in Health Net's discretion.
  - (ii) Supplier will comply with the duties and obligations imposed on Health Net by the Health Net Third Party Service Contracts, software licenses (and related maintenance, support and service agreements), and equipment leases (and related maintenance and service agreements) related to the Health Net Provided Resources, as promptly as practicable after such Health Net Third Party Service Contracts and related agreements have been disclosed to Supplier (but in no event later than thirty (30) days after such contracts and agreements have been provided to Supplier), provided that Health Net provides to Supplier any commercially reasonable support necessary from Health Net if available for Supplier to so comply. Supplier shall not seek to revoke or modify the terms of any such agreement. Health Net may revoke or modify the terms of any such agreement, which revocation or modification may give rise to a Change, in which case the Change Control Process will apply.
  - (iii) Health Net shall make the Health Net Provided Resources available to Supplier commencing on the BPaaS Services Commencement Date and continuing through Phase 2, provided that (i) it is permitted under the existing terms of any applicable third party agreements as of the Effective Date, and (ii) Supplier shall be responsible for providing Managed Third Party Contract Services (as defined in Schedule A (*Cross Functional*)) with respect to the Health Net Provided Resources after the BPaaS Services Commencement Date, even though Health Net is retaining (subject to Schedule C (*Charges*)), including the Financial Responsibility

Matrix attached as Schedule C-11 to Schedule C (*Charges*) Financial Responsibility through Phase 2. After Phase 2, Health Net shall have no further obligation to provide such Health Net Provided Resources, subject to clause (iv) below.

- (iv) Terms for making resources available beyond Phase 2.
- (A) If Supplier desires Health Net to continue to provide any of the Health Net Provided Resources after Phase 2, Supplier shall give written notice of such fact to Health Net as soon as reasonably possible, but not less than ninety (90) days prior to the date by which Health Net would need to (i) notify the applicable contract counter-party in order to effect a renewal or extension of the affected contract beyond Phase 2, or (ii) in order to avoid the payment of license, maintenance, support, service or other fees extending after Phase 2 if Supplier does not intend to utilize the applicable resource during such period after Phase 2 (a “**Resource Extension Notice**”).
- (B) Provided that Health Net is permitted under the existing terms of any applicable third party agreements, Health Net shall make the Health Net Provided Resources identified in the Resource Extension Notice available after Phase 2, provided that Supplier shall be financially responsible for any and all costs incurred by Health Net relating to such Health Net Provided Resources with respect to the period after Phase 2 (“**Health Net Resources Costs**”), and Supplier shall reimburse Health Net for any and all such costs, such costs to include:
- (1) Any costs incurred by Health Net under any of the Health Net Provided Resources, including fees under the third party Software license fees and fees for maintenance, support and services agreements related to such resources;
  - (2) Any reasonable internal costs to maintain and support any of such resources; and
  - (3) The reasonable internal administrative and personnel costs incurred by Health Net relating to any such resources.
- (C) Notwithstanding the foregoing, in no event shall (i) Health Net be obligated to make available the contracts identified in Schedule O-5-1 after Phase 2, and (ii) Health Net be obligated to make any Health Net Provided Resource available to Supplier after the date that is two years after the end of Phase 2.
- (D) Health Net shall invoice Supplier for the Health Net Provided Resources Costs to be reimbursed by Supplier pursuant to this Section 11.2(e). Such invoices shall be paid by Supplier to Health Net within forty-five (45) days after receipt thereof.
- (E) Section 5.1 of Schedule C (*Charges*) contains additional terms relating to the Health Net Provided Resources.

- (v) Supplier will return any such Health Net Provide Resource to Health Net or, at Health Net's election, destroy it and certify the destruction of all copies in Supplier's (or any of its Subcontractor's) possession or control, at such time as Health Net is no longer obligated to provide such Health Net Provided Resource pursuant to this Section 11.2(e).
  - (vi) In the event that Health Net makes any additional Health Net Provided Resources available after the Effective Date, any such additional item shall be subject to the applicable Section 11.2(b), (c) or (d) above, as well as this Section 11.2(e).
  - (vii) Supplier shall create a list of the dates by which Supplier must provide the Resource Extension Notice with respect to each Health Net Provided Resource in order to comply with the requirements of Section 11.2(e)(iv)(A). Supplier shall provide such list to Health Net on or before the date that is forty-five (45) days after the BPaaS Services Commencement Date provided that with respect to any contract that is not provided to Supplier as of the BPaaS Services Commencement Date, Supplier shall have an additional forty-five (45) days after being provided such contract to update the list with the date for such contract in order to be in compliance with Section 11.2(e)(iv)(A). Any inaccuracies in such list shall not relieve Supplier of its obligations under this Section 11.
- (f) Health Net Facilities.
- (i) Subject to the Parties having obtained any Required Consents pursuant to Section 11.3, Health Net grants to Supplier the right, to access the Health Net Facilities, to the extent permitted by applicable lease agreements, solely to perform the Services. Such space to be made available is described on Schedule O (*Health Net Provided Resources*).
  - (ii) Such facilities shall be provided from the BPaaS Services Commencement Date until the end of Phase 2. If Supplier desires to occupy the Health Net facilities after Phase 2, Supplier shall pay Health Net for such space in accordance with the following. Supplier shall provide written notice to Health Net that it desires to occupy such space after Phase 2 not less than six (6) months prior to the end of Phase 2. The Parties shall discuss and determine a fair market rent for such space.
  - (iii) Supplier will comply with the duties imposed on Health Net (or its Affiliate) by each lease for the Health Net Facilities, commencing ten (10) Business Days after such duties have been disclosed to Supplier in writing.
- (g) Terms Applicable to Health Net Facilities, Generally.
- (i) The following provisions are applicable with respect to the Health Net Facilities: Health Net retains responsibility for management and maintenance of the building and property electrical systems, water, sewer, lights, heating, ventilation and air conditioning ("*HVAC*") systems, physical security services and general custodial/landscape services (including monitoring and maintaining the uninterruptible power supply ("*UPS*") system, air handlers and water chillers that are primary support for the raised-floor environment in Health Net Facilities).

- (ii) Supplier is responsible for providing all other the facilities and facilities-related support it needs to provide the Services.
- (iii) Health Net will inform Supplier of any plans or determination to relocate the Health Net Facilities so that Supplier will have a reasonable amount of time to prepare for and implement such relocation as it affects Supplier.
- (iv) Supplier's use of the Health Net Facilities shall be for the sole and exclusive purpose of providing the Services and shall be subject to the terms set forth in this Section 11.2(f). Any other uses are subject to the prior approval of Health Net in its discretion. Supplier's use of Health Net Facilities does not constitute a leasehold or other property interest in favor of Supplier.
- (v) Supplier will use the Health Net Facilities in an efficient manner and in a manner that is coordinated and does not interfere with Health Net's business operations. Supplier is responsible for any damage to Health Net Facilities resulting from the negligent or intentional misconduct of Supplier (or its Subcontractors or other guests) or other failure to comply with its obligations under this Agreement respecting the Health Net Facilities.
- (vi) Supplier will keep the Health Net Facilities in good order, not commit or permit waste or damage to them or use them for any unlawful purpose or act. Supplier will comply with Health Net Policies and with applicable leases made available to Supplier regarding access to and use of the Health Net Facilities, including procedures for the physical security of the Health Net Facilities.
- (vii) Supplier will permit Health Net and its agents and representatives to enter any portions of the Health Net Facilities occupied by Supplier Personnel.
- (viii) Supplier may not make improvements or changes involving structural, mechanical or electrical alterations to the Health Net Facilities without Health Net's prior written approval. Any improvements to the Health Net Facilities will become the property of Health Net.
- (ix) When Health Net Facilities are no longer required for performance of the Services, or in any event upon expiration or termination of this Agreement (or the applicable lease term, if shorter), Supplier will return them to Health Net in substantially the same condition as when Supplier began use of them, subject to reasonable wear and tear.

### 11.3 Required Consents

- (a) Health Net, with the cooperation of Supplier, is responsible for obtaining Required Consents under any of the leases, contracts and licenses referred to in this Section 11 (Transfer or Use of Resources) (the "**Used Resources**"). Health Net will work diligently to obtain such Required Consents as soon as practicable after:
  - (i) the Effective Date with respect to the Used Resources known as of the Effective Date, or

- (ii) such later date as agreed by the Parties with respect to new Used Resources agreed to by the Parties after the Effective Date, if any.
- (b) To the extent a Required Consent under this Section 11 has not been obtained prior to the Transfer Date of the applicable Health Net Personnel who have a role in obtaining a given Required Consent, then once such Health Net Personnel are Transitioned Employees, Supplier will utilize such Transitioned Employee to obtain such Required Consents, provided that this shall not relieve Health Net from any legal obligation (including the obligations Health Net may have to the third parties from which such Required Consents are sought) to obtain their consent to the transactions contemplated by this Agreement.
- (c) The Parties will equally bear any fees (such as transfer or upgrade fees) required to obtain a Required Consent relating to the Used Resources. Unless and until each such Required Consent has been obtained, to the extent practical Supplier will determine and adopt, subject to Health Net's prior written approval, such alternative approaches to provide the Services without the Required Consent. The Parties shall equally bear the costs to implement such alternative approaches.
- (d) If either Party is not able to obtain any such Required Consent, or if it elects not to obtain a Required Consent because of the cost or other terms required to obtain such Required Consent, Health Net reserves the right to remove from the scope of this Agreement any affected Services (or reduce the volume of any affected Services). If the failure to obtain the Required Consent has a material impact on Supplier's ability to provide the remaining Services or its Charges, Supplier may remove from the scope of this Agreement any affected Services (or reduce the volume of any affected Services). In either such event (i) the Charges shall be reduced using the charging methodologies provided in Schedule C (*Charges*) and unit rates set forth in the applicable SOW, or otherwise in an equitable manner to the extent such unit rates and charging methodologies do not provide a means to determine what the reduction of Supplier's Charges should be, and (ii) Health Net shall have the right to rehire Transitioned Employees that are performing or will perform the Services removed from the scope of this Agreement. Health Net's right in such case to remove or reduce Services (and the corresponding adjustment to charges and right to rehire Transitioned Personnel) shall extend to other Services that relate to Services for which a Required Consent is not obtained if, in Health Net's reasonable determination, such other Services should be grouped together for operational, maintenance or other reasons. The removal or reduction of Services pursuant to this Section 11.3(d) will be subject to the Change Control Process and Schedule G (*Governance*).

#### **11.4 Health Net Resources Provided to Supplier Personnel Working On-site**

- (a) "***On-site Health Net Resources***" means the reasonable office space, furniture, fixtures, telephones, office supplies, and other mutually agreed resources to be provided or made available by Health Net (or its Affiliates) to Supplier Personnel assigned by mutual agreement of the Parties to work on-site at facilities of Health Net (or its Affiliates).
- (b) Except as otherwise provided in this Agreement, Health Net will provide to Supplier Personnel located and authorized to work on-site at Health Net Facilities the On-site Health Net Resources reasonably necessary for the Transitioned Employees to continue to perform the Functions that they were providing prior to the Transfer Date; provided however, that:

- (i) For those Transitioned Employees utilizing a Health Net-provided cell phone, Health Net will continue to provide such cell phones until the earlier of (A) the date the lease or contract for each phone expires or terminates, or (B) the end of Phase 2, after which Supplier shall provide same;
  - (ii) With respect to laptops and desktops, Health Net will provide such PCs for the Transitioned Employees until the earlier of (A) the date the lease on such PC expires or terminates, or (B) the end of Phase 2, after which Supplier shall provide same.
  - (iii) Health Net will not be responsible for providing any other portable computing or communications devices to Supplier Personnel.
- (c) Supplier shall comply and cause Supplier Personnel to comply with Health Net's Policies regarding access to and use of the On-site Health Net Resources to Supplier, including procedures for the physical and logical security. Health Net may conduct periodic compliance inspections and audits to confirm that Supplier's use of the On-site Health Net Resources complies with the terms of this Agreement.
  - (d) Supplier will use the On-site Health Net Resources in an efficient manner and for the sole purpose of providing the Services. Supplier will be responsible for damage to the On-site Health Net Resources caused by the negligence or intentional misconduct of Supplier Personnel. When the On-site Health Net Resources are no longer required for performance of the Services, Supplier will return them to Health Net in substantially the same condition as they were in when Supplier began use of them, subject to reasonable wear and tear.

#### **11.5 Service Description Update**

- (a) On or before the date that is forty-five (45) days after the Effective Date, Supplier shall provide a plan to Health Net describing Supplier's proposed approach for conducting a true-up of the Services descriptions to determine if there are any additional Functions that were being performed by the Affected Employees during the twelve (12) months prior to the Effective Date that are not described in the Initial SOWs. Such plan shall be subject to Health Net's review and approval.
- (b) Promptly after the BPaaS Services Commencement Date, Supplier shall implement the approved plan described in Section 11.5(a) above. Supplier shall create a list and description of any Functions that are not covered in the Initial SOWs and provide same to Health Net on or before the date that is forty-five (45) days after the BPaaS Services Commencement Date. In assembling such list of omitted Functions, Supplier shall not exclude or delete any Function identified by a Transitioned Employee in connection with such effort. The Initial SOWs shall be updated with any additional Functions and descriptions that the Parties agree were not described in the applicable Initial SOW. There shall be no increase in the Charges as a result of the updating process described in this Section.

## 12. RESOURCE ACQUISITIONS DURING THE TERM

### 12.1 General Responsibility and Compatibility

- (a) Except for (i) any resources set forth in Schedule O (*Health Net Provided Resources*), for which Health Net has Financial Responsibility and (ii) items which are shown as Health Net Retained Expenses in the Financial Responsibility Matrix attached as Schedule C-11 to Schedule C (*Charges*), Supplier is solely responsible (and has Financial Responsibility) for providing all Equipment, Software, connectivity, facilities, personnel, third party services and other resources required to perform and render the Services in accordance with this Agreement, including modifications, upgrades, enhancements, additions and replacements of Equipment, Software, and other resources as necessary or appropriate to render the Services in compliance with this Agreement.
- (b) Without limiting the generality of the foregoing, unless otherwise provided in Schedule O (*Health Net Provided Resources*), Supplier is also responsible (and has Financial Responsibility) for:
  - (i) providing network connectivity between facilities necessary to provide the Services, including connectivity from Health Net Facilities or Health Net's outsourcing vendor facilities to Supplier's facilities, onshore and offshore. The Parties shall work together to determine the bandwidth, access, security and other requirements for such network connectivity;
  - (ii) acquiring additional third party services as necessary or appropriate to render the Services in compliance with this Agreement;
  - (iii) providing personal computers for Supplier Personnel and any additional Equipment (including modifications, upgrades, enhancements, additions and replacements of Equipment) as necessary or appropriate to render the Services in compliance with this Agreement, and the installation, operation, maintenance and refresh of such Equipment; and
  - (iv) providing or acquiring all Software as necessary or appropriate to render the Services in compliance with this Agreement, including any office productivity Software for Supplier Personnel.
- (c) Supplier shall provide the Services using tools and processes that are compatible with those used by Health Net and its other service providers to provide other services within the Health Net environment. This includes implementing and maintaining interfaces with Health Net and other service provider problem management, change control, and configuration management systems to the extent required to maintain such compatibility.
- (d) Notwithstanding anything to the contrary in Section 25.3, the Parties agree that Schedule O (*Health Net Provided Resources*) may be changed through the Change Control Process without the need for a formal amendment to this Agreement.

### 12.2 Software Used to Provide the Services

- (a) Upon Health Net's request (made not more than twice per annum) Supplier will provide to Health Net a list of all Supplier Provided Software. Supplier Provided Software excludes

any Health Net Software or third party Software to be provided by Health Net for Supplier's use under this Agreement. Each list of Supplier Provided Software required under this Section 12.2(a) will separately identify:

- (i) Supplier Software that is Commercially Available,
  - (ii) Supplier Software that is Non-Commercially Available,
  - (iii) Third Party Software that is Commercially Available, and
  - (iv) Third Party Software that is Non-Commercially Available.
- (b) If, after the Effective Date, Supplier intends to use any Supplier Software or Third Party Software that would constitute Supplier Provided Software, Supplier may do so without obtaining Health Net's prior written consent (except as provided in Section 12.3(b)(ii)(B)(1)) provided that (i) Supplier's implementation and use of such Software does not constitute a Change (and if it does, Supplier's implementation and use of it will be subject to the Change Control Process), and (ii) Supplier has all necessary rights and agrees to provide to Health Net at the end of the Term the applicable license rights set forth in Section 12.3 with respect to such Software.
- (c) Notwithstanding anything else in this Section 12.2 to the contrary, if Supplier makes available to Health Net, or otherwise makes receipt of the Services dependent upon, any Software and fails to follow the process set forth in this Section 12.2, such use shall not limit Supplier's obligations or Health Net's rights set forth in Section 12.3 below.
- (d) Any Software and associated contracts acquired by Supplier for which Health Net is financially responsible shall be acquired in the name of Health Net unless Health Net otherwise agrees in writing.

### **12.3 Health Net Rights to Certain Software**

The intent of this Section 12.3 is to provide the means for Health Net to have the ability to access and Use, both during the Term and Disengagement Assistance Period and thereafter as Health Net may require as contemplated herein, all Supplier Provided Software, it being the mutual intent of the Parties to provide Health Net a means to acquire licenses to whichever of the Supplier Provided Software that Health Net may desire to continue using after the Term and any Disengagement Assistance Period as outlined herein.

- (a) License During Term.
- (i) Supplier hereby grants to Health Net during the Term and any Disengagement Assistance Period, the right to use Software made available by Supplier to Health Net during the Term (including any updates and upgrades to such Software provided by Supplier), solely for Health Net (and its Affiliates and Service Recipients) to receive and use the Services.
  - (ii) Supplier hereby grants to Health Net, its Affiliates and the Service Recipients during the Term and any Disengagement Assistance Period, the right to access

and Use - appropriate to their designated roles for Health Net and its Affiliates and consistent with Health Net's and its Affiliates' practices prior to the execution of this Agreement - the systems used by Supplier to provide the Services (and Health Net Data stored or processed in such systems) solely for Health Net, its Affiliates and the Service Recipients to perform their designated roles for Health Net and its Affiliates as reasonably required to receive and use the Services and otherwise reasonably required to carry on Health Net's and its Affiliates business operations. By way of example and not limitation, Health Net's rights include the right to access the systems used by Supplier to provide the Services in order to access Health Net Data, generate queries, run reports and perform retained Functions.

(b) Additional Licenses to Use Certain Software.

This Section 12.3(b) shall apply to the Initial SOWs and any Future SOWs entered into by the Parties, provided that with respect to any Future SOW, the Parties may mutually agree in writing that this Section 12.3(b) shall not apply to such SOW, provided further that such agreement shall require the written agreement of the Health Net Legal Department.

(i) Supplier Software

(A) Commercially Available Supplier Software

(1) With respect to Supplier Provided Software that is Commercially Available Supplier Software, Supplier (on behalf of itself and those Supplier Affiliates that own any such Software) grants to Health Net and its Affiliates (and for the sole purpose of providing services to Health Net, its Affiliates, Former Health Net Affiliates and Service Recipients, to Health Net's and its Affiliates' service providers), a license to Use such Software under the then-current license terms made available by Supplier to commercial customers comparable to Health Net in terms of use of the Software, during all Disengagement Assistance Periods for any Service for which such Software is used, and continuing thereafter, provided however that:

- a. if such then-current terms do not grant Health Net rights to Use such Software in the same manner and for the same purposes it was used under this Agreement, then such license shall be deemed to include such additional rights of Use without additional charge; and
- b. if Health Net and Supplier have an existing license agreement applicable to such Software, the terms of such license agreement shall apply.

The foregoing licenses shall be provided at the fees that are ordinarily charged by Supplier to licensees of such Software, for the period after the applicable Disengagement Assistance Periods; provided, however, that if the fees that are ordinarily charged are for a perpetual license and Health Net desires to use such

Software for only a limited time period after the applicable Disengagement Assistance Periods, Health Net shall not be required to purchase a perpetual license for such Software (or pay the equivalent of a perpetual license fee).

- (2) Supplier will offer to provide to Health Net, generally available Software Updates, maintenance, support and other services for such Supplier Software on Supplier's then-current standard terms and conditions for such services, including pricing not in excess of that customarily charged to Supplier's other commercial customers comparable to Health Net in terms of use of the Software. If Health Net elects to receive such services, (a) Health Net shall only be obligated to pay for such services to the extent applicable to the period after the applicable Disengagement Assistance Periods; and (b) the charges for such services will reflect that maintenance and support on such Software is current (i.e., no "catch-up" or similar payments shall be required to be made by Health Net because maintenance and support may have lapsed – if maintenance and support has lapsed, Supplier shall pay charges necessary to bring maintenance and support current).

(B) Non-Commercially Available Supplier Software

- (1) Supplier (on behalf of itself and those Supplier Affiliates that own any Supplier Provided Software that is Non-Commercially Available Supplier Software) grants to Health Net and its Affiliates (and for the sole purpose of providing services to Health Net, its Affiliates, Former Health Net Affiliates and Service Recipients, to Health Net's and its Affiliates' respective service providers), a worldwide, irrevocable, fully paid-up, royalty-free, non-exclusive, non-transferable (except pursuant to a permitted assignment of the Agreement pursuant to Section 27.1) license to Use (solely to the extent such Use is reasonably necessary for use and receipt of the applicable Services being disengaged or for Health Net, its Affiliates and their respective service providers to provide and deliver to Health Net, Health Net Affiliates, Former Health Net Affiliates and Service Recipients services that are substantially similar to the Services being disengaged) Supplier Provided Software that is Non-Commercially Available Supplier Software (including technical interfaces, Documentation, artifacts, manuals and other materials useful in connection with the authorized Use of such Software), during all Disengagement Assistance Periods for any Service for which such Software is used, and continuing through the date that is two (2) years after the last day of the Disengagement Assistance Period pertaining to the applicable Services being disengaged.
- (2) If Health Net requests, the Parties will mutually agree on applicable terms for Supplier's maintenance and support of such Non-Commercially Available Supplier Software, and performance of software development requested by Health Net

relating to such Software, after such termination or expiration of the Agreement (in whole or in part) or termination of Services for which such Supplier Software was used; provided that:

- a. Health Net shall only be obligated to pay for such maintenance and support and development services for the period after the applicable Disengagement Assistance Periods; and
  - b. If Health Net elects, such Software maintenance and support and development services shall be performed (i) under the AO Agreement, in which event the Parties shall negotiate in good faith an appropriate amendment or work order to the AO Agreement, or (ii) on a time and materials basis, including using the professional service rates for applicable skill sets set forth in Schedule C (*Charges*).
  - c. If Supplier fails to provide commercially reasonable maintenance and support and development services for such Non-Commercially Available Supplier Software at the charges described in this Section 12.3(b)(i)(B)(2), then within ten (10) days of Health Net's request, Supplier shall provide Health Net and its designees access to the reasonably necessary Source Code for such Software in a Supplier-provided development environment during the period of Health Net's license to such Software described above, in order to enable Health Net and its designees to perform such maintenance and support and development work on such Software, subject to the license limitations set forth in Section 12.3(b)(ii)(B)(1). Supplier shall reasonably cooperate with Health Net and its designees in connection therewith to enable Health Net to realize the benefits of the license granted under Section 12.3(b)(i)(B)(1).
  - d. If Supplier fails to provide the access and cooperation described in the preceding Section 12.3(b)(i)(B)(2)(c), then within ten (10) days of Health Net's request Supplier shall provide the Source Code to such Non Commercially Available Supplier Software for Use in accordance with the license granted in Section 12.3(b)(i)(B)(1).
- (ii) Third Party Software
- (A) Commercially Available Third Party Software. Supplier shall provide written notice to Health Net identifying any Supplier Provided Software that is Third Party Commercially Available Software as set forth in Section 12.2(a) above.
  - (B) Non-Commercially Available Third Party Software.

- (1) Supplier shall not utilize any Non-Commercially Available Third Party Software that would constitute Supplier Provided Software without Health Net's prior written consent, which consent Health Net may withhold in its discretion.
- (2) Without limiting Health Net's rights under this Section, no consent of Health Net shall be valid unless such consent outlines Health Net's material rights to such Software during the Term and during any Disengagement Assistance Periods and for the two years after the applicable Disengagement Assistance Period. Unless Health Net expressly (i) consents to other specifically outlined license rights in writing in which this Section 12.3(b)(ii)(B)(2) is cross referenced as being superseded, (ii) enters into a license agreement with the applicable third party under different terms or (iii) otherwise waives in such written consent the following requirements, such Health Net material rights shall include the following:
  - a. a world-wide, irrevocable, fully-paid up, royalty-free, non-exclusive license for Health Net and its Affiliates (and for the sole purpose of providing services to Health Net, its Affiliates, Former Health Net Affiliates and Service Recipients, to Health Net's and its Affiliates' respective service providers) to Use such Non-Commercially Available Third Party Software (including Source Code, programmer interfaces, Documentation, artifacts, manuals and other materials useful in connection with the Use of such Software), at no additional charge, during any Disengagement Assistance Periods for any Services for which such Software is used, and continuing through the date that is two (2) years after the last day of the Disengagement Assistance Period with the latest end date, or such other license terms as Health Net may agree in writing to accept, and
  - b. a commercially reasonable maintenance and support agreement for such Software from the licensor of such Third Party Software, provided that:
    - i. if Health Net elects to receive such maintenance and support, Health Net will be responsible for charges under such maintenance and support agreement only with respect to the period after the end of the Disengagement Assistance Period with the latest end date, and
    - ii. the charges under such maintenance agreement shall reflect the fact that maintenance and support on such Software is current (i.e., no "catch-up" or similar payments shall be required to be made by Health Net because maintenance and support

may have lapsed during the Term or Disengagement Assistance Period).

- (C) If Supplier fails to comply with its obligations under Section 12.3(b)(ii)(B)(1) or (2), such failure shall constitute a breach of this Agreement. In such event, by way of endeavoring to mitigate Health Net's damages resulting from the failure, Supplier shall use all Commercially Reasonable Efforts, at Supplier's cost and expense to (i) promptly secure for Health Net a license comparable to a Deliverables License for the Non-Commercially Available Third Party Software, or (ii) if this cannot be accomplished with Commercially Reasonable Efforts, replace the Non-Commercially Available Third Party Software without degrading the functionality or performance of the Services and bear any costs of implementing the replacement Software, and secure for Health Net a license for such replacement Software as follows: (i) if such replacement Software is Non Commercially Available Third Party Software, then a license comparable to a Deliverables License, and (ii) if such replacement Software is Commercially Available, then a license on the standard terms on which such Software is licensed to customers comparable to Health Net.
- (c) Relationship to License in Section 15 (IP Rights). Nothing set forth in this Section 12.3 shall limit Health Net's rights under Section 15 (Intellectual Property Rights).

#### 12.4 Colocation Facilities.

- (a) Prior to the Effective Date, Supplier entered into agreements (each a "**Colocation Agreement**") to procure certain colocation space in a data center in Centennial, Colorado and a data center in Chandler, Arizona. Supplier intends to exercise an option to procure additional colocation space under each of the Agreements for use in providing the Services to Health Net ("**Health Net Colocation Space**").
- (b) Health Net shall have the option, at any time after it has requested Disengagement Assistance from Supplier and continuing through the date that is two (2) years after the last day of the Disengagement Assistance Period pertaining to the applicable Services, to assume Supplier's rights and obligations under the Colocation Agreements with respect to such Health Net Colocation Space only. Supplier represents and warrants that each of the providers of such Health Net Colocation Space ("**Colocation Providers**") has consented to such arrangement.
- (c) If Health Net elects to exercise such option, Health Net shall give written notice to Supplier. Supplier will assign the Colocation Agreement to Health Net or, if Health Net so elects, provide Health Net with reasonable cooperation and support in Health Net's efforts to procure a replacement agreement with the Colocation Provider for use of such Health Net Colocation Space.

### 13. TRANSITION

### 13.1 Overview

- (a) This Article 13 (Transition) addresses at a high level the transition of the Functions comprising the Services from Health Net to Supplier. Schedule Z (*High-Level Transition Information*) provides a consolidated view of Transition across all of the Initial SOWs and, in addition, each of the Initial SOWs contains an exhibit describing the Transition approach and plans for the relevant Service Tower.
- (b) The Transition approaches, plans and schedules set forth in Schedule Z (*High-Level Transition Information*) and the Initial SOWs reflect the Parties' preliminary understanding as to how the Transition will be conducted, but they do not contain the necessary level of detail to serve as executable Transition plans. Promptly following the execution of this Agreement, Supplier will work diligently with Health Net's team leads for each Service Tower to develop and submit executable Transition plans containing the necessary level of operational detail, as set forth in Section 13.4(b).
- (c) The Transition will be carried out in sequential phases and discrete 'waves' encompassing different Functions and work streams. Some waves are independent from other waves, and some are dependent on the progress and results of other waves. To help ensure that the Transition proceeds smoothly and with minimal disruption to Health Net's business operations, the Parties will establish and include in the executable Transition plans appropriate 'check-point gates' intended to assess and validate the progress of Transition waves at logical points along the way, both to ensure that problems encountered during a Transition wave are resolved before dependent work proceeds and that lessons learned from performance of Transition waves are documented and communicated to the Transition teams working on other waves in order to minimize the recurrence of problems during Transition.

### 13.2 "Transition" Defined

- (a) "**Transition**" means the process (and associated time period) of migrating performance of the Services from Health Net or from Health Net's then-current service provider to Supplier, completing any contemplated movement of services from onshore locations to alternate onshore locations, near shore locations and offshore locations (each as contemplated by the applicable Transition Documents), making any planned improvements to the process and methods and infrastructure used to perform and deliver the Services that are intended to be made during the period of Transition, and causing any required knowledge transfer from Health Net personnel to Supplier Personnel.
- (b) The Transitions for each of the Initial SOWs (each, an "**Initial SOW Transition**") shall commence on the BPaaS Services Commencement Date, and continue through the date that Supplier has assumed all responsibility with respect to the SOW Services covered by the Initial SOWs and completed the transition to the contemplated off-shore service delivery model. The Parties expectation is that Transition will occur over an approximately two (2) year period after the BPaaS Services Commencement Date.
- (c) The Transition for each Future SOW (each, a "**Future SOW Transition**") shall commence on the applicable SOW Effective Date, and continue through the date that Supplier has assumed all responsibility with respect to the SOW Services covered by such Future SOW and completed the transition to the contemplated off-shore service delivery model (if any).

- (d) The Transition for the Initial SOWs includes the closing of the transaction contemplated by the APA. Health Net and Supplier shall close on such transaction in accordance with the terms of the APA.

### 13.3 Transition Changes

- (a) Given the breadth, complexity and criticality of the Functions being outsourced by Health Net to Supplier under the Initial SOWs, a well-planned, orderly, well-executed Transition is critical to preventing damage to Health Net, its Members, Providers, and employer Groups and to the continued, uninterrupted operation of Health Net's and its Affiliates businesses during the Term. Accordingly, it is agreed and understood that If Health Net determines in good faith that the Transition, or any part of the Transition, poses a meaningful risk or hazard to Health Net's business interests (a "**Transition Risk**"), Health Net may request a suspension of or alteration to the Transition (each a "**Transition Change**").
- (b) Upon Supplier receiving a Transition Change request from Health Net:
  - (i) Notwithstanding anything else to the contrary in this Section 13.3, Supplier shall immediately suspend the Transition or those aspects of the Transition that Health Net requests be suspended; and
  - (ii) the Parties' respective Transition Management Offices shall immediately begin conferring to determine how to implement the Transition Change going forward (i.e., after any suspension) so as to eliminate the Transition Risk in the least disruptive and least costly way, taking into account the risk to Health Net's business and the financial impact on Supplier, but giving priority to minimizing the risk to Health Net's business.
- (c) If the Parties have not reached agreement as to the nature of the Transition Change to be made going forward or the manner in which it is to be made within a reasonable amount of time after Health Net's sending the notice of Transition Change to Supplier, the dispute shall immediately be escalated to the Executive Council.
- (d) If the Executive Council has not resolved the disagreement within a reasonable amount of time after referral of the disagreement to the Executive Council, Health Net's Chief Executive Officer shall have the final say on the nature and manner of the Transition Change, taking into account the risk to Health Net's business and the financial impact on both Parties, but giving priority to minimizing the risk to Health Net's business. In all events, Health Net's Chief Executive Officer must act reasonably and in good faith and shall choose a manner of Transition Change that, all else being equal, seeks to address the Transition Risk in a satisfactory way to Health Net while minimizing the incremental financial burden on Supplier.
- (e) Supplier will bear financial responsibility for its cost impacts from the Transition Change if the Transition Risk giving rise to the Transition Change met the threshold of posing a meaningful risk or hazard to Health Net's routine business operations (an "**Operational Transition Risk**"), except to the extent that such Operational Transition Risk has resulted from the failure by Health Net (including failure by a Health Net contractor, agent or other party for which Health Net is responsible, but excluding Supplier) to perform an express obligation of Health Net under this Agreement. The foregoing allocation of cost, if any,

will be subject to Supplier following the procedures outlined in Section 8.3 (Savings Clause). If not, Health Net will bear financial responsibility for Supplier's cost impacts from the Transition Change.

- (f) If the Executive Council cannot agree on whether (i) the risk threshold stated in Section 13.3(a) has been met, or (ii) Health Net was partially at fault in creating the Transition Risk and, if so, what portion of Supplier's cost impact is therefore equitably allocable to Health Net, then either Party may refer the disagreement for resolution to a third party subject matter expert (“Mediator”) for non-binding resolution. In order to avoid conflicts of interests, the fees for such Mediator shall be paid for by both Parties equally. The selection of the Mediator shall be approved by at least three (3) members of the Executive Council. Both Parties shall cooperate fully with the Mediator and provide any reasonably requested information as promptly as practicable. The Mediations shall be completed in not more than thirty (30) days. If either Party disagrees with the non-binding resolution(s) proposed by the Mediator, , then such Party may refer the disagreement for resolution via litigation in accordance with Section 26.2 (Litigation); provided, however, that the existence of such disagreement (at any stage) and the mediation process shall not constitute grounds for delaying or altering the Transition Change while the dispute is being resolved if so directed by Health Net.
- (g) Where possible, all Transition Changes shall be processed via the Change Control Process on an expedited basis, including as an Emergency Change when necessary under the circumstances.

#### 13.4 Transition Documents

- (a) Each Transition shall be conducted in accordance with a written plan and documents (the “**Transition Documents**”) which shall include: (i) a description of the operations being transitioned; (ii) a general description of the methods and procedures, personnel and organization Supplier will use to perform the Transition; (iii) a schedule of the Transition activities; (iv) a detailed description of the respective roles and responsibilities of Health Net and Supplier; (v) such other information and planning as are necessary to conduct the Transition in accordance with the other terms in this Agreement.
  - (i) A draft of the Transition Documents for the Initial SOWs Transition is attached to the Transition Manual for each SOW as Exhibit A-2 (*Transition Description*), Exhibit A-2-1 (*Transition Project Plan*) and Exhibit A-2-2 (*Transition Staffing Plan*) and Schedule Z (*High-Level Transition Information*); and
  - (ii) A draft of the Transition Documents for any Future SOW Transition shall be included as part of the applicable Future SOWs as contemplated by Schedule R (*SOW Template*).
- (b) Following the Effective Date with respect to the Initial SOW Transitions or the applicable SOW Effective Date for any Future SOW Transition, Supplier shall be responsible for revising and finalizing the applicable Transition Documents, provided that: (i) Supplier shall cooperate and work closely with Health Net in finalizing such Transition Documents (including incorporating Health Net’s reasonable comments); and (B) all changes to such Transition Documents shall be subject to the prior written approval by Health Net.

### 13.5 Conduct of the Transition

Supplier will carry out and complete the Initial SOW Transitions and any Future SOW Transition in accordance with the applicable Transition Documents, including its time schedule. Except as otherwise expressly provided in the applicable Transition Documents, Supplier's responsibilities with respect to each Transition include:

- (a) performing and managing the Transition and In-Flight Projects and activities;
- (b) establishing communications lines and network connections, and providing Equipment, Software, tapes, records and supplies, as made necessary by the Transition;
- (c) performing the Transition without interruption, and without disrupting Health Net's business operations;
- (d) paying Supplier's costs associated with the Transition, including communications circuit costs (both installation/de-installation and ongoing) except as otherwise expressly provided in this Agreement; and
- (e) otherwise performing such migration tasks as are necessary to enable Supplier to complete the Transition and provide the Services.

### 13.6 Health Net Cooperation and Support

Health Net will cooperate with Supplier in the conduct of each Transition and provide support as described in the applicable Transition Documents.

### 13.7 In Flight Projects

As part of the Transition, Supplier will also assume responsibility for completing the projects listed or described in Schedule X (*In-Flight and Accelerated Projects*), which are in progress as of the SOW Effective Date or expected to commence promptly following the Effective Date (the "*In-Flight and Accelerated Projects*").

### 13.8 Completion of Transition Projects

- (a) Health Net reserves the right to monitor, test and otherwise observe and participate in each Transition. Supplier will notify Health Net without delay if any Health Net monitoring, testing or participation has caused (or Supplier expects it to cause) a problem or delay in a particular Transition and work with Health Net to prevent or circumvent the problem or delay.
- (b) Health Net's as-is operations will not be disabled until Supplier demonstrates to Health Net's reasonable satisfaction that the affected processes and operations have been successfully migrated to Supplier and are functioning properly.
- (c) If any of the Transition activities are not completed on schedule and the delay is not due to the fault of Health Net (or its Affiliates, customers or other suppliers), Force Majeure, or a failure to secure required Regulatory Consents, then for the period of delay:

- (i) if Supplier's charges to Health Net are greater than they would have been if the delayed Transition activity had been completed on schedule, Health Net will receive a credit against Supplier's monthly charges in an amount equal to the difference between Supplier's actual charges and what Supplier's charges would have been if the delayed Transition activity had been completed on schedule; and
  - (ii) Supplier will give Health Net an additional credit against Supplier's monthly charges in an amount sufficient to reimburse Health Net for any excess or continuing costs incurred for personnel, third-party equipment, Software and/or services that would not have been incurred if the delayed Transition activity had been completed on schedule.
- (d) Provided that a Transition is on schedule and that there are no problems with such Transition, Supplier may request the approval of Health Net to accelerate a wave of such Transition, provided that granting of such approval shall be in Health Net's reasonable discretion.

## **14. DATA SECURITY AND PROTECTION**

### **14.1 [Reserved.]**

### **14.2 Health Net Data, Generally**

- (a) As between the Parties, Health Net Data will be and remain the property of Health Net. Supplier may not use Health Net Data for any purpose other than to render the Services. No Health Net Data will be sold, assigned, leased or otherwise disposed of to third parties or commercially exploited by or on behalf of Supplier (or any of its Subcontractors). Neither Supplier nor any of its Subcontractors may possess or assert any lien or other right against or to Health Net Data. Without limiting the generality of the foregoing, (a) Supplier may only use Health Net Data as strictly necessary to render the Services and must restrict access to such information to Supplier Personnel on a strict need-to-know basis, and (b) Supplier shall not download, copy, transmit or make available any Health Net Data to any third party (other than an Approved Subcontractor) except as expressly permitted by this Agreement.
- (b) At Health Net's request at any time during the Term, Supplier shall provide Health Net with access to and/or copies of (in format reasonably requested by Health Net) any Health Net Data stored on Supplier systems or otherwise under the control of Supplier.

### **14.3 Data Security**

- (a) When present at Health Net Facilities or accessing Health Net systems or Health Net Data (whether such data is in Health Net's systems or Supplier's systems), Supplier will observe and comply with Health Net's Policies regarding data security procedures that have been communicated to Supplier. Prior to performing Services from any new service location (*i.e.*, any service location other than those set forth in Schedule F (*Supplier Facilities*)), Supplier shall complete a security questionnaire, which Health Net requires before Services are permitted to be provided from a new service location. If Health Net requests, Supplier shall provide Health Net with access to any new service location for due diligence purposes.

- (b) Supplier will establish and maintain reasonable safeguards designed to protect against the occurrence of any Security Breach, including by establishing and maintaining appropriate network and internet security procedures, protocols, security gateways and firewalls with respect to Health Net Data.
- (c) Supplier shall comply with the security requirements and standards set forth in Schedule Q (*Security Addendum*), which represent the minimum security requirements and standards with which Supplier must comply. Supplier shall also comply with:
  - (i) All applicable Laws relating to privacy and information security, as they may evolve during the Term, including those establishing federal services requirements (such as the Federal Information Processing Requirements and FIPS 140-2), the National Institute of Standards and Technology (NIST) and as may be required for Health Net to qualify for the safe harbor exemption for de-identified health information under the HIPAA Privacy Rule (45 CFR 164.502(d));
  - (i) the Payment Card Industry Data Security Standards (promulgated by the PCI Data Security Standards Council) ("*PCI DSS*");
  - (ii) the applicable legal or regulatory requirements of the Exchange Agreement, to the extent provided to Supplier reasonably in advance of the need to implement any such requirements; and
  - (iii) the legal or regulatory requirements, obligations or other terms with which Health Net must comply under any Regulatory Contract that are provided to Supplier reasonably in advance of the need to implement any such requirements.
- (d) Supplier shall be responsible for implementing additional security measures as may be necessary to protect Health Net Data from any unauthorized access or use and to prevent any Security Breach in accordance with this Agreement.
- (e) Supplier shall meet with Health Net not less frequently than once every six (6) months to review the continually evolving security threat environment and potential changes to the applicable security standards to address the same.
- (f) No Health Net Data may be stored outside of the United States. No Health Net Data may be accessed from outside of the United States without Health Net's prior written consent, which may be granted or withheld in Health Net's discretion. Supplier may access Health Net Data from those Supplier Facilities shown on Schedule F (*Supplier Facilities*), and Supplier may store Health Net Data at those on-shore Supplier Facilities shown on Schedule F (*Supplier Facilities*), that are denoted as facilities from which Supplier may access and store (as applicable) Health Net Data.
- (g) Health Net will be provided with backup copies of Health Net Data from the Supplier upon written request. Supplier must store and transmit backup Health Net Data in accordance with Schedule Q (*Security Addendum*). Supplier will document such safeguards in the Procedures Manual.
- (h) Without limiting the generality of the foregoing:

- (i) Supplier's information security policies shall provide for (A) regular assessment and re-assessment of the risks and vulnerabilities to the confidentiality, integrity, and availability of Health Net Data, including electronic data, and systems acquired or maintained by Supplier and its agents and contractors, including (1) identification of internal and external threats that could result in a Security Breach, (2) assessment of the likelihood and potential damage of such threats, taking into account the sensitivity of such data and systems, and (3) assessment of the sufficiency of policies, procedures, and information systems of Supplier and its agents and subcontractors, and other arrangements in place, to control risks; (B) protection against such risks; and (C) establishment and monitoring of key risk indicators (KRIs). Supplier shall provide such policies, and conduct and report on the results of such assessments to Health Net.
- (ii) Supplier shall (A) require all users to enter a user identification and password prior to gaining access to the information systems; (B) control and track the addition and deletion of users; (C) control and track user access to areas and features of Supplier's information systems, and (D) encrypt Health Net Data in accordance with Schedule Q (*Security Addendum*).
- (iii) Supplier Personnel will not attempt to access, or allow access to, any Health Net Data that they are not permitted to access under this Agreement. Without limiting any of Supplier's other obligations in respect of a Security Breach, including those set forth in Section 14.7, as soon as Supplier first becomes aware that unauthorized access to Health Net Data has been attained, (i) Supplier will report such unauthorized access to Health Net, describing to the best of Supplier's knowledge the Health Net Data that was accessed, and (ii) Supplier shall take all necessary measures to stop the access, prevent recurrences, and return to Health Net any copied or removed Health Net Data.
- (iv) Except as provided in Section 21 (Confidentiality), Supplier shall (A) remove all Health Net Data from any media within the scope of the Services that is taken out of service; (B) destroy or securely erase such media in accordance with Health Net Policies and otherwise in a manner designed to protect against Security Breaches; and (C) provide to Health Net, within five (5) business days after a receipt of a request from Health Net, a notification of destruction, which may be provided via an automated solution that creates an auditable record.

#### 14.4 Intrusion Detection/Interception

Supplier will provide Health Net and its representatives with:

- (a) reasonable access to the alerts, logs and data feeds from Supplier's and its Subcontractors' network intrusion detection systems, host intrusion detection systems and anti-virus tools on assets at Health Net Facilities or in data center(s) being used for the Services each to the extent used exclusively to provide Services to Health Net in order to enable Health Net to have adequate and timely access to system data regarding security incidents that have a nexus to Health Net, including Security Breaches;
- (b) access to Supplier's information security policies and Supplier's procedures relating to intrusion detection and interception with respect to the Supplier systems used to provide

the Services for the purpose of examining and assessing those policies and procedures in accordance with Section 18 (Audits and Records); and

- (c)
- (d) the other requirements set forth in Schedule A (*Services*) or an SOW.

#### 14.5 Litigation and Investigation Requests

- (a) Supplier recognizes that (i) Health Net may, from time to time, sue third parties, be sued by third parties, or have grounds to believe that one or more lawsuits will be filed for or against Health Net, (ii) Health Net may be the subject of governmental, regulatory or similar investigations and requests or demands for information from third parties, and (iii) Health Net may conduct internal investigations at its own prerogative (including investigations conducted by or on behalf of its Organization Effectiveness, Legal and/or Special Investigations business units). Upon any of the foregoing events occurring (for avoidance of doubt, these events do not include any legal proceeding directly between Health Net and Supplier, or their respective Affiliates), Supplier hereby agrees to fully cooperate with Health Net and its legal counsel, and to create and implement a process sufficient to comply, in a timely manner, with any requests from Health Net or its legal counsel to categorize, identify, view, preserve, extract, produce, filter, convert and and/or provide to Health Net or its designee (in the format reasonably requested by Health Net), any hard copy documents or electronically stored information or data of any type that is associated with the Services, that results from or reflects the Services, or that evidences or memorializes Supplier's efforts on behalf of Health Net pursuant to this Agreement (hereinafter, the "**Requested Information**"). Requested Information may include: claims data, email data, home drive data, server data, common drive data, data stored in cloud repositories, data on smartphones or peripheral devices, and data stored with any third-parties on Supplier's behalf. Requested Information may include any type of reports or other information received, created or collected as part of the Services, all information created by or for Health Net or Health Net's employees, or at their request, and any information or "metadata," associated with other types of Requested Information. Requested Information may include any type of information relating to the foregoing within Supplier's possession, custody or control, including information entrusted to its employees or third parties, or housed in any type of repository or media whatsoever, such as servers, systems, applications, discs, equipment, tapes, or other locations. Supplier shall use best efforts to provide requested information in a timely manner to enable Health Net to meet regulatory and internal deadlines.
- (b) Supplier acknowledges and agrees that Supplier may, in some instances, be required to utilize or required to involve outside professionals to utilize forensic extraction methods and techniques to obtain Requested Information without alteration, to set-up a new or use an existing non-production environment to retrieve and provide Requested Information, and if requested by Health Net, Supplier shall provide access to such environment or Requested Information so that Health Net and/or its designee may access, view, download and extract the Requested Information, including reasonable access to third-party litigation support providers selected by Health Net to facilitate requests for Requested Information. Supplier shall maintain and support an access method for allowing such access and extractions, as determined by Health Net (*e.g.*, SFTP connections, remote access, on-site access). Supplier will use its best efforts to provide all Requested Information within the

time period specified by Health Net or its legal counsel, and, if such deadlines cannot be met, Supplier shall promptly notify Health Net of the reason and extent of any delay.

- (c) Health Net shall direct any request under this Section 14.5 (Litigation and Investigation Requests) to the Supplier Account Executive. Upon Health Net's request, Supplier shall promptly designate a Supplier attorney to work with Health Net and who can facilitate any Health Net request under this Section. In the event that Health Net is the target of a governmental inquiry or investigation, Health Net shall retain all responsibility for directly interacting with such governmental entity regarding such inquiry or investigation. Supplier shall comply with and follow all restrictions and requirements reasonably imposed by Health Net or its legal counsel to maintain the protections of the attorney-client privilege and attorney work-product doctrine for all efforts and communications connected with requests and efforts made under this section 14.5.

If requests for Requested Information do not comprise Services under this Agreement, and require additional time or resources to meet the specifications of Health Net or its legal counsel, then such requests shall be responded to through the Change Control Process, but Health Net shall have the right to direct that any such request constitutes an Emergency Change under such process requiring expedited handling and fulfillment.

#### **14.6 Compliance with Data Privacy and Data Protection Laws, Regulations and Policies**

- (a) In carrying out its activities under this Agreement, and without limiting Section 27.7 (Compliance with Laws), each Party will observe and comply with all applicable data privacy and data protection Laws. In addition, when accessing or handling any Health Net Data that contains personal identifying information, Supplier will comply with Health Net Policies that have been disclosed to Supplier relating to the use and disclosure of such information.
- (b) The Parties hereby reaffirm their agreement to the terms of the Business Associate Agreement between the Parties which is being executed on or about the Effective Date ("***Business Associate Agreement***"). The Business Associate Agreement is hereby incorporated into this Agreement by reference and made a part of this Agreement. In the event of any conflict between the terms of this Section 14 (Data Security and Protection), Section 21 (Confidentiality) and the terms and conditions of the Business Associate Agreement, the terms and conditions that are more protective of the Protected Health Information (as such term is defined in HIPAA) shall govern to the extent of that conflict.

#### **14.7 Security Breach.**

- (a) If Supplier becomes aware of (or if Health Net notifies Supplier of) any Security Breach (even if such Security Breach arises out of events or items that are not in the possession of or operated by (or for) or under the control of Supplier or a third party which receives Health Net Data (directly or indirectly) through Supplier, notwithstanding the limitations in the definition of Security Breach), Supplier shall:
  - (i) notify Health Net's Chief Information Security Officer (or his or her identified delegate) of such Security Breach in accordance with Section 14.3(f)(iii) and, thereafter, perform a root cause analysis thereon, the results of which shall be provided to Health Net;

- (ii) investigate such Security Breach and report its findings to Health Net, including providing updates of such investigation as they occur and promptly responding to requests for information from Health Net;
  - (iii) unless such investigation shows that a suspected or threatened Security Breach was unsuccessful, provide Health Net with a remediation plan, acceptable to Health Net in Health Net's reasonable discretion, to address the Security Breach and which is designed to prevent any further similar incidents;
  - (iv) remediate such Security Breach in accordance with such approved plan;
  - (v) after consulting with Health Net's Chief Privacy Officer, conduct a forensic investigation to determine what systems, data and information have been affected by such event, and provide Health Net with daily updates of the results of such investigation;
  - (vi) cooperate with Health Net's investigation of the Security Breach, including promptly providing any information that Supplier (or a Subcontractor) has with respect to the Security Breach; and
  - (vii) at Health Net's request, cooperate with any law enforcement or regulatory officials, credit reporting companies, and credit card associations investigating such Security Breach.
- (b) Where permitted by Law, Health Net shall, acting reasonably, make the final decision on notifying Health Net's members, employees, suppliers and/or the general public of such Security Breach, and the implementation of the remediation plan.
- (c) With respect to such Security Breach:
- (i) Except to the extent that Supplier is able to demonstrate that the Security Breach was caused by Health Net's negligence, willful misconduct or breach of this Agreement, Supplier shall be responsible at its own expense for performing the activities described in Section 14.7(a) and for all other costs and expenses incurred by Supplier (and its Subcontractors) in relation to the Security Breach;
  - (ii) Supplier shall have Financial Responsibility for all costs and expenses incurred by Health Net (and Health Net's Affiliates) in relation to the Security Breach, including Identity-Related Costs, except as provided in Section 14.7(c)(iii) ; and
  - (iii) To the extent the Security Breach arises out of Health Net Data that was compromised ("**Compromised Data**") due to any Health Net-provided technologies, Software, or other assets prior to the time that such Compromised Data was scheduled to be relocated to a Supplier-furnished data center as set forth in the Transition Documents for SOW#4 attached to the Transition Manual as Exhibit A-2 (*Transition Description*), Exhibit A-2-1( *Transition Project Plan*), and Exhibit A-2-3 (*Transition ITO Plan (Phase 2 Implementation)*) (as such documents are updated by the Parties pursuant to Section 13.3 (Transition Documents) and Section 1 of Schedule Z (Transition)), and provided the Security Breach was not attributable to (A) Supplier's failure to adhere to the information, data and physical security practices and standards observed by Health Net and at

the affected data center as of the BPaaS Services Commencement Date, or (B) Supplier's acts, omissions, negligence, willful misconduct, breach of this Agreement or failure to take reasonable actions or employ industry best practices to protect the Health Net Data, Health Net Software or systems in question, then (x) Supplier shall not have Financial Responsibility for such Security Breach other than as provided in Section 14.7(c)(i), and (y) Supplier shall not have Financial Responsibility for remediating the Security Breach under Section 14.7(a)(iv).

- (d) Supplier shall reimburse Health Net on demand for all costs and expenses described in Sections 24.2(f)(x) and 24.2(f)(xi) relating to any Security Breach.

#### 14.8 Import/Export Controls

- (a) The Parties acknowledge that certain software and technical data exchanged pursuant to this Agreement may be subject to import/export controls under the Laws of the United States and other countries. Neither Party will import, export or re-export any such items, any direct product of those items, or any technical data in violation of applicable import/export control Laws.
- (b) Each Party will be responsible for compliance with import/export control Laws with respect to any items it is deemed under such Laws to have imported or exported, including responsibility for preparing and filing all required documentation and obtaining all licenses, permits and authorizations required for compliance. Each Party will cooperate with the other Party in that Party's efforts to comply with applicable import/export control Laws.
- (c) Supplier will include with copies of all Software provided to Supplier by Health Net's U.S.-based personnel that Supplier will use outside of the United States documentation stating that "These commodities, technology or software were exported from the United States in accordance with Export Administration Regulations. Diversion or re-export contrary to U.S. law is prohibited."

#### 14.9 Compliance with Gramm-Leach-Bliley

- (a) "**GLB Act**" means the Gramm-Leach-Bliley Act, 15 USC §6801 *et. seq.*, and the implementing regulations and regulatory interpretations thereto, as amended from time to time. Supplier acknowledges that Health Net is subject to Title V of the GLB Act, pursuant to which Health Net is required to obtain certain undertakings from Supplier with regard to the privacy, use and protection of nonpublic personal financial information of Health Net's (or of any Health Net Affiliate's or Service Recipient's) customers or prospective customers ("**Health Net Non-public Data**"). Therefore, notwithstanding anything to the contrary contained in this Agreement and in addition to (and not in substitution for) Supplier's other obligations hereunder, Supplier agrees that:
  - (b) it will not disclose or use any Health Net Non-public Data except to the extent necessary to carry out its obligations under this Agreement and for no other purpose;
    - (i) it will not disclose Health Net Non-public Data to any third party, including, without limitation, its third party service providers without the prior consent of Health Net and an agreement in writing from the third party to use or disclose such

Health Net Non-public Data only to the extent necessary to carry out Supplier obligations under this Agreement and for no other purposes; and

- (ii) it will maintain, and will require all third parties approved under Section 7.7 (Subcontracting) to maintain, effective information security measures to protect Health Net Non-public Data from unauthorized disclosure or use; and it will provide Health Net with information regarding such security measures upon the reasonable request of Health Net and promptly provide Health Net with information regarding any failure of such security measures or any security breach related to Health Net Non-public Data.
- (c) The obligations set forth in this Section 14.9 (*Compliance with Gramm-Leach-Bliley*) will survive termination or expiration of this Agreement. For purposes of this Agreement, Health Net Non-public Data includes the nonpublic personal information (as defined in 15 USC §6809(4)) received by Supplier in connection with the performance of its obligations hereunder, including (i) an individual's name, address, e-mail address, IP address, telephone number and/or social security number; (ii) the fact that an individual has a relationship with Health Net; and (iii) an individual's account information. For the avoidance of doubt, Health Net Non-public Data does not include (A) information collected from Health Net employees (in their capacity as employees, and not as Health Net's customers) by Supplier for the purpose of administering and providing the Services, and (B) nonpublic information collected from a source other than Health Net that has been obtained on a non-confidential basis and which is not subject to the GLB Act.

## 15. INTELLECTUAL PROPERTY RIGHTS

This Article 15 sets forth the Parties' respective rights in Work Product and other materials provided or created pursuant to this Agreement. As between the Parties, the rights apply as set forth in this Article 15 whether the work in question is performed solely by Supplier Personnel or by Supplier Personnel working jointly with others.

### 15.1 Certain IP-related Definitions

- (a) "**Derivative Work**" means a work of authorship or expressive creation (i) that includes more than a de-minimis amount of copyright-protected elements of a pre-existing work, or (ii) such work is incapable of being used without the pre-existing work or in conjunction with the pre-existing work, including a work in which a pre-existing work has been modified, enhanced, recast, transformed, or adapted.
- (b) "**Independent IP**" of a party (including a third party) means any materials, methods, processes, and other forms of intellectual property that either (i) were created or acquired by or for the party on or prior to the Effective Date, or (ii) are subsequently created or acquired by or for the party outside the scope of and independent from this Agreement, and (iii) any Derivative Works of either of the foregoing. Supplier Independent IP includes the Acquired Seller Intellectual Property Rights as defined in the APA.
- (c) "**New Work**" means any Material produced by Supplier Personnel specifically for Health Net in the course of performing the Services that is not a Derivative Work.

## 15.2 Independent IP, Generally

- (a) The Parties agree that:
- (i) As between the Parties, each Party will have and retain all ownership of all right, title and interest, including Intellectual Property Rights, in and to its Independent IP, and will be entitled to seek Intellectual Property Rights protection for its Independent IP as it deems appropriate;
  - (ii) a Party will not submit patent applications or otherwise seek to file for or obtain Intellectual Property Rights protection with respect to or based upon the other Party's Independent IP without the other Party's prior written consent, which may be withheld at the other Party's sole discretion;
  - (iii) a Party will not be permitted to use the other Party's Independent IP except as otherwise expressly provided in this Agreement or in any other written agreement between the Parties;
  - (iv) EXCEPT AS OTHERWISE EXPRESSLY PROVIDED IN THIS AGREEMENT OR IN ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES, ANY RIGHTS OF USE OF A PARTY'S INDEPENDENT IP GRANTED IN THIS AGREEMENT ARE GRANTED ON AN 'AS-IS, WHERE-IS' BASIS WITHOUT EXPRESS OR IMPLIED WARRANTIES OF ANY KIND; and
  - (v) If Health Net provides any of its Independent IP to Supplier for use in rendering the Services, Health Net hereby grants to Supplier a nonexclusive, non-transferable, worldwide, fully paid-up right and license during the Term and any Disengagement Period to Use such Independent IP solely to perform the Services, with the right to sublicense Approved Subcontractors to do the same on Supplier's behalf, subject to any limitations or restrictions set forth in agreements between Health Net (or its Affiliate) and third party licensors of the Health Independent IP that are disclosed in writing, in advance by Health Net to Supplier. Supplier may not Use Health Net's Independent IP for the benefit of any entities other than Health Net and Health Net's Affiliates (and their respective Service Recipients under this Agreement) without the prior written consent of Health Net, which may be granted or withheld in Health Net's discretion.

## 15.3 Rights in Deliverables

- (a) “**Deliverable**” means any material that is produced by Supplier Personnel specifically for Health Net (or another Service Recipient) in the course of performing Services and is either (i) listed or described in an SOW (or Work Order, Project plan or any other document signed or agreed to in writing by the Parties) as a Deliverable, or (ii) actually delivered or otherwise required to be delivered to Health Net (or another Service Recipient) as an intended output of the Services. A Deliverable may be a one-off material resulting from performance of Project Services (e.g., a Software application) or, alternatively, a recurring form of material resulting from performance of BPaaS Services (e.g., a document containing processed Health Net Data or a periodic operational or management report).
- (b) “**Software Deliverable**” means any Deliverable that is (or contains) Software.

- (c) Except as otherwise expressly provided in a subsequent written agreement between the Parties, the Parties' respective Intellectual Property Rights in Deliverables shall be as follows:
- (i) If the Deliverable is developed as part of an Accelerated Project, a BPaaS Roadmap Project a BPaaS Non-Discretionary Project, or any other type of Project under this Agreement that is not a BPaaS Discretionary Project, Supplier will be the owner of the Deliverable, and Supplier hereby grants to Health Net, during the Term and any Disengagement Period, a nonexclusive, world-wide, fully paid-up, non-transferable (except as part of a permitted assignment pursuant to Section 27.1 (Binding Nature and Assignment)) right and license for Health Net (or its Affiliate or another Service Recipient) to Use (or have Used on its behalf) the Deliverable solely in connection with Health Net's (or its Affiliate's or such other Service Recipient's) receipt and use of the BPaaS Services, subject to any additional limitations that may be set forth in a written agreement between the Parties. Health Net license rights with respect to Software Deliverables owned by Supplier (including those developed as part of an Accelerated Project, a BPaaS Roadmap Project or a BPaaS Non-Discretionary Project) following the Term and any Disengagement Period shall be pursuant to the terms of Section 12.3 (Health Net Rights to Use Certain Software) of this Agreement and Section 4 of the BPaaS Supplemental Terms and Conditions for BPaaS Services.
  - (ii) If the Deliverable is developed as part of a BPaaS Discretionary Project and consists solely of New Work (or does not contain any Independent IP of Supplier or a third party who has licensed Independent IP to Supplier), the Deliverable and all Intellectual Property Rights in and to the Deliverable will be owned by Health Net from the moment it is created, and the Deliverable will be deemed to be a 'work made for hire' for Health Net under applicable copyright Laws. To the extent that title and ownership rights in the Deliverable may not originally vest in Health Net as contemplated herein, Supplier hereby irrevocably assigns, transfers and conveys to Health Net all such right, title and interest without further consideration. Supplier agrees to execute such other documents or take such other actions as Health Net may reasonably request to file, record, perfect, and enforce Health Net's Intellectual Property Rights in and to the Deliverable, as set forth herein, including obtaining any necessary assignments, consents, or waivers from individual authors, creators, or inventors.
  - (iii) If the Deliverable is developed as part of a BPaaS Discretionary Project and does contain some Independent IP of Supplier, Supplier will be the owner of the Deliverable (including any New Work incorporated into the Deliverable), and Supplier hereby grants to Health Net a nonexclusive, perpetual, irrevocable, fully paid-up, world-wide, transferable and sub-licensable (through multiple levels of sub-licensees) right and license to Use (or have Used on its behalf) such Deliverable, including the Supplier Independent IP incorporated in such Deliverable, including for the creation and use of Derivative Works, without any further consideration or duty of accounting to Supplier or any third party (a "***Deliverables License***") provided, however, that if such Supplier Independent IP comprises Software, in no event shall such Supplier Independent IP be unbundled or separated from the applicable Deliverable or used as a stand-alone product or development tool. In addition, unless and except as expressly provided in the proviso contained in the following sentence or as Health Net otherwise expressly

agrees in a written agreement with Supplier, Supplier shall be restricted to using such Deliverable solely to provide the Services under this Agreement (each such Deliverable, a “***Restricted Use Deliverable***”). Health Net shall be obligated to compensate Supplier separately for providing ongoing maintenance and support services for any Restricted Use Deliverable, in a per annum amount equal to fifteen percent (15%) of Supplier’s charges to Health Net for developing the Restricted Use Deliverable, or such other amount as may be agreed in writing between the Parties; **provided, however**, that Health Net shall have the right to provide written notice to Supplier at any time that Health Net no longer requires that such Deliverable be a Restricted Use Deliverable, in which event Supplier shall thereafter provide maintenance and support for such Restricted Use Deliverable at no additional charge to Health Net for the remainder of the Term and any Disengagement Period.

- (d) Any representations and warranties of Supplier that are applicable to a Deliverable shall apply equally to any Independent IP of Supplier or a third party incorporated into such Deliverable.
- (e) If the Deliverable is owned by Health Net or is a Restricted Use Deliverable, Supplier will mark the Deliverable with such proprietary rights and confidentiality legend(s) as Supplier may be reasonably instructed by Health Net to use.
- (f) If Supplier desires to use any Deliverable that is owned by Health Net or is a Restricted Use Deliverable, or a Derivative Work of thereof, in connection with providing services to another customer, Supplier shall notify Health Net of its proposal. If Health Net consents to Supplier’s proposed use of such Deliverable, Supplier may use such Deliverable to perform services for other customers in the manner and on the terms and conditions set forth in Health Net’s written consent.

#### **15.4 Incorporation of Third-Party Independent IP in a Deliverable**

- (a) Supplier Personnel shall not incorporate any Independent IP of a third party into a Deliverable without first notifying Health Net of its nature and obtaining Health Net’s written consent to do so unless Supplier has all necessary rights to grant Health Net a Deliverables License in and to such third party Independent IP as set forth herein. If Supplier does not have all such rights (or if Supplier is unwilling to grant Health Net a Deliverables License in and to such Supplier Independent IP), then prior to incorporating the third party Independent IP into the Deliverable, Supplier shall enter into with Health Net, or procure for Health Net or assist Health Net in procuring, a license to Use the incorporated third party Independent IP on terms that are acceptable to Health Net.
- (b) If Supplier incorporates any Independent IP of a third party into a Deliverable without first notifying Health Net of its nature and obtaining for Health Net, or confirming that Health Net has obtained, the necessary rights of use as provided in Section 15.4(a), such failure shall constitute a breach of this Agreement. In such event, by way of endeavoring to mitigate Health Net’s damages resulting from the failure, Supplier shall, at Supplier’s cost and expense: (i) use all Commercially Reasonable Efforts to promptly secure for Health Net a license comparable to a Deliverables License for the incorporated third party Independent IP, or (ii) if this cannot be accomplished on commercially reasonable terms with Commercially Reasonable Efforts, replace or modify the Deliverable to remove the incorporated third party Independent IP without degrading the functionality or

performance of the Deliverable and without adversely affecting Supplier's performance of the Services, and Supplier shall bear any costs of implementing the replaced or modified Deliverable.

### 15.5 Work Products

- (a) "**Work Product**" means any material produced by Supplier Personnel in the course of performing the Services that is not a Deliverable.
- (b) Supplier will own all Intellectual Property Rights in and to all Work Products; provided, however, that if a Work Product contains any Health Net Data or other Health Net material, Health Net will retain all of its Intellectual Property Rights in and to such Health Net material (and Derivative Works thereof) contained in the Work Product. Health Net hereby grants to Supplier a nonexclusive, non-transferable, worldwide, fully paid-up right and license during the Term and any Disengagement Period to Use the subject Health Net materials solely to perform the Services, with the right to sublicense Approved Subcontractors to do the same on Supplier's behalf.
- (c) If a Work Product is (or incorporates) Software, Health Net's rights with respect to such Software shall be as set forth in Section 12.3 (Health Net Rights to Certain Software).
- (d) If a non-Software Work Product is necessary or useful for Health Net's (or another Service Recipient's) use of a Deliverable for its intended purpose or receipt and use of the Services, then, unless Health Net agrees to enter and does enter into another form of license with Supplier with respect to the Work Product, Supplier hereby grants to Health Net, during the Term and any Disengagement Period, a nonexclusive, world-wide, fully paid-up, non-transferable (except as part of a permitted assignment pursuant to Section 27.1 (Binding Nature and Assignment)) right and license for Health Net or another Service Recipient to Use (or have Used on its behalf) the Work Product as necessary or useful for Health Net's (or such other Service Recipient's) use of the Deliverable or receipt and use of the Services.

### 15.6 Delivery of Deliverables and Other Materials

Upon expiration or termination of this Agreement or any SOW or Services, to the extent Supplier has not already done so, Supplier will turn over to Health Net all Deliverables and other materials owned by Health Net or to which Health Net has been granted (or is to be granted) license rights pursuant to this Agreement.

### 15.7 Use of Material Subject to Open Source Licenses

Without Health Net's prior written approval, which Health Net may grant or withhold in its sole discretion, no Deliverable will incorporate, link to or call upon any components subject to an Open Source License (including the GNU General Public License). The provisions of this Section 15.7 (Use of Material Subject to Open Source Licenses) shall not apply to any Deliverable that forms part of the ABS Platform.

### 15.8 Intellectual Property Rights Agreements with Supplier Personnel

Supplier is responsible for having in place with all Supplier Personnel (either directly or indirectly through their respective employers) such agreements respecting Intellectual Property Rights as are necessary for Supplier to fulfill its obligations under this Section 15 (Intellectual Property Rights).

## 15.9 Bankruptcy

All licenses and rights of Use granted under or pursuant to this Agreement shall be deemed to be, for the purposes of Section 365(n) of the United States Bankruptcy Code (the “*Bankruptcy Code*”), licenses to rights in “intellectual property” as defined under the Bankruptcy Code. Accordingly, the licensee of such rights shall retain and may fully exercise all of its rights and elections under the Bankruptcy Code. Upon the commencement of bankruptcy proceedings by or against either Party under the Bankruptcy Code, the other Party shall be entitled to retain all of its license rights and Use rights granted under this Agreement.

## 15.10 Mental Impressions

- (a) “*Mental Impressions*” means general ideas, concepts, know-how and techniques relating to data processing and computer programming that are learned and retained in the unaided memory of a Party’s and or any of its Affiliates’ personnel involved in performance of this Agreement who have had access to Confidential Information or materials of the other Party and its Affiliates without deliberately memorizing them for purposes of reuse.
- (b) Each Party and its Affiliates may use the Mental Impressions of their personnel in their business activities provided that in doing so they do not disclose Confidential Information of the other Party in violation of Section 21 (Confidentiality) or misappropriate or infringe the Intellectual Property Rights of the other Party, its Affiliates, or third parties who have licensed or provided materials to the other Party or its Affiliates.

## 16. TERMINATION

### 16.1 Termination By Health Net

- (a) Termination for Cause. If Supplier (i) commits a material breach of this Agreement or any SOW and fails to cure such breach within thirty (30) days after receiving notice of the breach from Health Net, or (ii) commits multiple breaches of this Agreement or any SOW, whether material or non-material, that collectively constitute a material breach of a material provision of this Agreement or any Related SOW(s), (iii) fails to close on the transaction contemplated by the APA in breach thereof, or (iv) commits a material breach of its obligations under Section 3.6 of Schedule E (*Transitioned Employees*), then Health Net may, by giving written notice to Supplier, terminate this Agreement (in whole or in part) or any Related SOW(s) (in whole or in part) for cause as of a date specified in the notice of termination. Any termination by Health Net shall not constitute an election of remedies and shall be without prejudice as to Health Net’s other rights and remedies under this Agreement or at law or in equity.
- (b) Termination for Convenience. Health Net may terminate this Agreement (in whole or in part) or any SOW (in whole or in part) at any time for convenience (*i.e.*, for any reason or no reason) by giving Supplier at least three (3) months’ prior written notice specifying the terminated Services and designating the termination date.
- (c) Termination for Certain Service Level Failures. If (i) the amount of Service Level Credits (excluding those associated with Non-BPaaS IT Services) that Supplier is obligated to credit to Health Net equals the entire BPaaS Amount at Risk for \*\*\* or more months in any rolling \*\*\* continuous month period, or (ii) the amount of Service Level Credits relating to the Non-BPaaS IT Services that Supplier is obligated to credit to Health Net equals the

entire Non-BPaaS Amount at Risk for \*\*\* or more months in any rolling \*\*\* continuous month period, then Health Net may, by giving notice to Supplier, terminate this Agreement (in whole or in part) or any Related SOW(s) (in whole or in part), as of a date specified in the notice of termination. The foregoing rights to terminate shall not be construed as precluding Health Net from claiming that any other Service Level Failure (or combination thereof) is a material breach of this Agreement and to exercise any available remedies in connection with such material breach.

- (d) Termination Following a Change of Control of Health Net. “**Change of Control of Health Net**” means an announcement by Health Net (i) that any other entity, person or “group” (as such term is used in Section 13(d) of the Securities Exchange Act of 1934, as amended) will acquire Control, of all or substantially all of the assets or customers, of Health Net (or any parent company of Health Net), whether directly or indirectly, in a single transaction or series of related transactions, or (ii) that Health Net (or any parent company of Health Net) will consolidate with, or be merged with or into, another entity, or will sell, assign, convey, transfer, lease or otherwise dispose of all or substantially all of its assets or customers to another person(s) or entity(ies). At any time within one year after the effective date of the consummation of the transaction described in (i) or (ii) above, Health Net may terminate this Agreement (in whole or in part) or any Related SOW(s) (in whole or in part) by giving Supplier at least ninety (90) days prior written notice specifying the terminated Services and designating the termination date.
- (e) Termination Following a Change of Control of Supplier. A “**Change of Control of Supplier**” means an announcement by Supplier (A) that any other entity, person or “group” (as such term is used in Section 13(d) of the Securities Exchange Act of 1934, as amended) that is a health plan, or offers a health plan to its customers, will acquire Control, of all or substantially all of the assets, of Supplier (or any parent company of Supplier), whether directly or indirectly, in a single transaction or series of related transactions, or (B) that Supplier (or any parent company of Supplier) will consolidate with, or be merged with or into, another such entity, or will sell, assign, convey, transfer, lease or otherwise dispose of all or substantially all of its assets to another such person(s) or entity(ies). At any time within \*\*\* after the effective date of the consummation of the transaction described in subsections (i) or (ii) above, Health Net may terminate this Agreement (in whole) or in part (provided that such in part termination is limited to termination of all BPaaS Services or all Non-BPaaS IT Services) by giving Supplier at least ninety (90) days’ prior written notice specifying the terminated Services and designating the termination date.
- (f) Termination in the Event of a Force Majeure. Health Net may terminate this Agreement (in whole or in part) or any Related SOW(s) (in whole or in part) as provided in Section 24.3 (Force Majeure).
- (g) Termination Due to Change in Law. Health Net may terminate this Agreement (in whole or in part) or any Related SOW(s) (in whole or in part) by giving Supplier at least ninety (90) days’ prior written notice specifying the terminated Services and designating the termination date if a Law enacted after the Effective Date (i) precludes or substantially restricts Health Net from using or receiving Services or (ii) substantially increases Health Net’s cost of using or receiving Services.
- (h) [Reserved.]

- (i) Termination Due To Adverse Changes in Supplier's Financial Circumstances. If an Adverse Change in Supplier's Financial Circumstances occurs then Health Net may terminate this Agreement by giving written notice to Supplier designating the termination date. Supplier shall notify Health Net as soon as possible after becoming aware of an actual or likely Adverse Change in Supplier's Financial Circumstances. Supplier shall (i) endeavor to certify to Health Net at least annually, and (ii) otherwise certify within ten (10) days of a request by Health Net, that an Adverse Change in Supplier's Financial Circumstances has not occurred as of the date of certification or, to the best of Supplier's knowledge, is not likely to occur within twenty (24) months after the date of certification.
- (j) Termination Relating to Customer Consents or Regulatory Approval. Health Net may terminate this Agreement (in whole or in part) or any SOW (in whole or in part), as provided in Section 4.3 (Regulatory and Customer Approvals).
- (k) Termination if Supplier Becomes a Competitor of Health Net. If Supplier develops or acquires a business line or service offering that is a health plan or offers health plans to its customers and is competitive with Health Net's business, Health Net may terminate this Agreement (in whole or in part) or any SOW(s) (in whole or in part) by giving Supplier at least ninety (90) days' prior written notice specifying the terminated Services and designating the termination date; provided however, that this Section 16.1(k) shall not be considered to apply to Supplier's provision of Services to a third party that competes with Health Net's business.
- (l) Termination Relating to Supplier's Liability Cap. If Supplier owes or has paid to Health Net damages in an amount greater than \*\*\* of the Liability Cap evidenced by one or more of the following:
- (i) an agreement by Supplier that it owes Health Net such damages,
  - (ii) a settlement agreed to by the Parties, or
  - (iii) an order from a court of competent jurisdiction or an arbitration award,
- and Supplier does not agree to refresh the Liability Cap to its original amount (i.e., meaning that none of such damages incurred prior to the date of Health Net's request for Supplier to refresh the Liability Cap shall, after such refresh, be considered to apply against the refreshed Liability Cap) within thirty (30) days after a Health Net written request to Supplier to refresh the Liability Cap, then Health Net may terminate this Agreement (in whole or in part) or any Related SOW(s) (in whole or in part) upon not less than thirty (30) days' prior written notice to Supplier.
- (m) Termination Relating to Business Associate Agreement. Health Net may terminate this Agreement as provided in the Business Associate Agreement.
- (n) Pre-BPaaS Services Commencement Date Termination. Health Net shall have the right to terminate this Agreement prior to the BPaaS Services Commencement Date by sending written notice to Supplier and paying to Supplier the Breakup Fee.

## 16.2 Termination Related Payments.

- (a) Health Net and/or Supplier, as applicable, may exercise its rights to terminate under this Article 16 or Section 4.3(d)(iii) without charge, except that, subject to Section 16.2(a)(iii), on the effective date of any termination under this Article 16 or Section 4.3, Health Net shall pay to Supplier:
- (i) the Break-Up Fee (and no other amounts) if the termination of the entire Agreement is prior to the BPaaS Services Commencement Date; or
  - (ii) the following if the termination is on or after the BPaaS Services Commencement Date:
    - (A) outstanding charges (if any) for all terminated Services completed in accordance with the Agreement through to the effective date of termination (including for work in progress);
    - (B) the applicable termination fee calculated pursuant to Section 18 of Schedule C (*Charges*); and
    - (C) any due and unpaid payments relating to the applicable Minimum Revenue Commitment fee through to the effective date of termination, calculated pursuant to Section 17 of Schedule C (*Charges*);

provided that nothing set forth herein shall limit Health Net's right to dispute Charges under Section 10.7.
  - (iii) For any termination under Sections 16.1(a), 16.1(c), 16.1(l) or 16.1(m),
    - (A) Health Net shall have the right to offset against the amounts owed under Section 16.2(a)(ii)(A), any damages that can be reasonably quantified as having been incurred by Health Net and arising directly out of the event(s) giving rise to the termination; and
    - (B) Health Net shall pay any remaining amounts owed to Supplier (if any) under Section 16.2(a) concurrently with the final resolution of Health Net's underlying damage(s) claims, rather than on the effective date of termination.
- (b) Nothing set forth in this Section 16.2 shall limit Health Net's right to make a claim for damages or to exercise any other remedies available under this Agreement, at law or at in equity.
- (c) Termination Not Supported By Competent Authority. If a purported termination by Health Net under any of Sections 16.1(a) or 16.1(c) – 16.1(n) is found by a competent authority not to be a proper termination under such section, then such termination will be deemed to be a termination for convenience by Health Net under Section 16.1(b).

### 16.3 Termination By Supplier

If Health Net fails to pay Supplier when due material undisputed charges totaling at least \*\*\* \*\* Charges under this Agreement, and fails to make such payment within sixty (60) days after the date Health Net receives notice of non-payment from Supplier, then Supplier may terminate this Agreement by sending written notice to Health Net, in which event this Agreement shall terminate as of the date specified in the notice of termination. Following Supplier's termination pursuant to this Section 16.3 (Termination By Supplier), Health Net shall pay to Supplier all fees and charges set forth in Section 16.2(a)(ii).

### 16.4 Extension of Termination/Expiration Date

Health Net may extend the effective date of any termination/expiration of this Agreement or a SOW one or more times as it elects in its discretion. However, the total of all such extensions for any single termination/expiration may not exceed one hundred eighty (180) days following the effective date of termination/expiration in place immediately prior to the initial extension under this Section 16.4. If any extension notice provided to Supplier within thirty (30) days of the then-scheduled date of termination/expiration would cause Supplier to incur Out-of-Pocket Expenses, Supplier may so notify Health Net. In that case, the extension will be subject to Health Net agreeing to reimburse Supplier for its Out-of-Pocket Expenses incurred as a result of the extension notice being provided within thirty (30) days of the then-scheduled date of termination/expiration. If Supplier terminated pursuant to Section 16.3 (Termination By Supplier), then Health Net will pay for any such extension Services thirty (30) days in advance based on projected usage, with the following month's invoice showing a true up or true down to account for actuals.

### 16.5 Partial Termination

- (a) Partial Terminations by Health Net. With respect to any partial terminations described herein, included those set forth in this Article 16 or Section 4.3, Health Net may only terminate by Line of Business or by Service Tower. All other purported partial terminations hereunder will be considered a reduction in Services unless otherwise agreed to by the Parties.
- (b) If this Agreement or any SOW is terminated in part:
  - (i) the portions of this Agreement (or the applicable SOW) not terminated will continue in force according to the terms of this Agreement and the applicable SOW;
  - (ii) if this Agreement (or the applicable SOW) does not otherwise specify the basis for determining Supplier's charges for the continuing Services that are not terminated, the charges payable under this Agreement (or the applicable SOW) will be equitably adjusted to reflect the Services that have been terminated, taking into account any increased per-unit charges for remaining Services;
  - (iii) the amounts (if any) payable by Health Net pursuant to Section 16.2 in respect of such termination will be, where applicable, equitably adjusted to reflect the portion of the Services being terminated and any changes in Supplier's costs; and

- (iv) the Agreement documents specifying the termination-related payments for which Health Net is responsible will be revised to reflect the amounts paid by Health Net pursuant to Section 16.2.
- (c) For clarity, Health Net's reduction in volume of a particular Service (e.g., a reduction in the number of Claims or Members) shall not constitute a termination in part pursuant to Section 16.1 unless Health Net provides written notice to Supplier terminating this Agreement in part or an SOW in part pursuant to Section 16.1.

## 16.6 Disengagement Assistance

- (a) General.
  - (i) During each Disengagement Assistance Period, Supplier shall provide Disengagement Assistance to Health Net, or at Health Net's request to Health Net's designee. For the avoidance of doubt, there may be more than one Disengagement Assistance Period for any Affected Services.
  - (ii) The Parties further agree that:
    - (A) Health Net's request for (and Supplier's provision of) Disengagement Assistance may be in the context of any reduction or removal of a portion of the Services (or volumes of Services) or Functions that is in accordance with this Agreement or any SOW, although this Agreement or the applicable SOW is not itself expiring or being terminated; and
    - (B) Disengagement Services provided by Supplier shall be subject to the other applicable provisions of this Agreement.
- (b) Except as may be permitted by Section 16.6(c), the quality of Services (including the Affected Services) provided by Supplier, and Supplier's performance of the Services, will not be materially degraded during the period Supplier is providing Disengagement Assistance. Supplier shall not (i) make any changes to the number of the Supplier Personnel providing the Services during the applicable Disengagement Assistance Period, or (ii) reassign any Supplier Personnel away from performing Services under this Agreement during the applicable Disengagement Assistance Period, in each case except as otherwise permitted by this Agreement or set forth in any disengagement plan mutually agreed to by the Parties.
- (c) Except to the extent permitted by this Section 16.6(c), Supplier shall provide Disengagement Assistance utilizing Supplier Personnel then being regularly utilized to provide the Services ("**Existing Supplier Personnel**").
  - (i) If Supplier believes in good faith that providing Disengagement Assistance utilizing Existing Supplier Personnel will prevent Supplier from meeting the Service Levels or otherwise complying with other obligations under this Agreement, Supplier shall provide written notice to such effect to Health Net, describing the circumstances in which the provision of such Disengagement Assistance by some or all Existing Supplier Personnel would prevent Supplier from meeting Service Levels or comply with its obligations under this Agreement.

- (ii) Upon receipt of such notice, Health Net may (in its sole discretion), elect to either:
  - (A) Permit Supplier to utilize personnel in addition to the Existing Supplier Personnel to provide the Disengagement Assistance, or
  - (B) Waive the Service Level Credits and any other remedy for failure to meet the applicable Service Levels and other affected obligations of Supplier, in which case Supplier shall only utilize the Existing Supplier Personnel to provide the Disengagement Assistance, and shall nonetheless use good faith efforts to continue to meet the Service Levels and perform in accordance with its obligations under this Agreement.
- (d) Charges for Disengagement Assistance. Charges for Disengagement Services shall be as follows:
  - (i) For Disengagement Assistance for which there is a predetermined charge in Schedule C (*Charges*) (e.g., a charge to maintain and support a server), such pre-determined charge in the applicable SOW shall apply.
  - (ii) For Disengagement Assistance for which (1) there are no predetermined charges in Schedule C (*Charges*) (i.e., for assistance that is not part of the routine Services) and (2) Supplier is permitted under Section 16.6(c) to utilize (and does in fact utilize) personnel in addition to the Existing Supplier Personnel to provide such Disengagement Assistance, then the Services performed by such additional Supplier Personnel will be chargeable on a time and material basis pursuant to Section 16.1(b) of Schedule C (*Charges*).
  - (iii) If Supplier terminates for non-payment by Health Net under Section 16.3, Supplier shall have the right to request payment of the charges for the Disengagement Assistance monthly, in advance.

## 16.7 Survival

Any provision of this Agreement that contemplates or governs performance or observance subsequent to termination or expiration of this Agreement will survive the expiration or termination of this Agreement for any reason, including the following Sections:

- (a) Article 2 (Definitions);
- (b) Article 10 (Invoicing and Payment);
- (c) Section 12.3 (Health Net Rights to Certain Software);
- (d) Article 15 (Intellectual Property Rights);
- (e) Section 16.6 (Disengagement Assistance);
- (f) Section 18.6 (Records Retention);
- (g) Section 19.4 (Deliverable);
- (h) Section 19.7 (Non-Infringement);

- (i) Section 19.9 (Disabling Code);
- (j) Article 21 (Confidentiality);
- (k) Article 23 (Indemnification);
- (l) Article 24 (Liability);
- (m) Article 25 (Rules of Construction);
- (n) Section Sections 4 and 5 of Annex 1 (*Supplemental Terms and Conditions for BPaaS Services*); and
- (o) Software Escrow Agreement.

#### **16.8 Bid Assistance**

- (a) In the process of deciding whether to undertake or allow any cessation of Services, or any termination, expiration or renewal of this Agreement (or a SOW), in whole or in part, Health Net may consider or seek offers for performance of services similar to the Services. As and when reasonably requested by Health Net for use in any such process, Supplier will provide to Health Net such information and other cooperation regarding performance of the Services as would be reasonably necessary to enable Health Net to prepare a request for proposal relating to some or all of such services, and for a third party to conduct due diligence and prepare an informed, non-qualified offer for such services.
- (b) Without limiting the generality of Section 16.8(a), the types of information and level of cooperation to be provided by Supplier pursuant to this Section 16.8 will be no less than those initially provided by Health Net to Supplier prior to the Effective Date, and shall include the following information which Health Net may distribute to third-party bidders in a request for proposal(s), request for information, specification, or any other solicitation relating to the Services and as necessary to support any related due diligence activities:
  - (i) General organization charts showing the overall structure of Supplier's organization supporting Health Net, and a description of the roles and responsibilities of the various functions described in such organization charts;
  - (ii) General organization charts showing the overall structure of the organization supporting the Services and a description of the roles and responsibilities of the various Functions described in such organization charts;
  - (iii) The number of personnel at each location used to provide Services classified by job title, skill level, and experience;
  - (iv) Generic descriptions of the functions and classifications of the personnel used to provide the Services;
  - (v) New training materials, policies and procedures, work instructions, and other written Deliverables created as a result of the Services;

- (vi) First order descriptions of Health Net's IT infrastructure environment, including a listing of major infrastructure components and locations;
- (vii) Up-to-date Service Level performance histories, asset inventories (including Equipment and Software) with current book values, third party contracts, and (where possible) then-current work volumes and general information relating to projects underway; and
- (viii) Detailed network topographies.

## 17. GOVERNANCE AND MANAGEMENT

### 17.1 Contract Governance Structure and Processes

- (a) Supplier acknowledges that it is a key business requirement of Health Net that Supplier provide the Services in a consistent, integrated manner. Schedule G (*Governance*) describes the Contract Governance (as defined therein) and the related framework and processes to manage the relationship between the Parties and Supplier's performance under this Agreement.
- (b) Notwithstanding anything set forth in this Agreement to the contrary, any term in this Agreement that states that a matter shall be referred to or resolved in accordance with Schedule G (Governance) shall not affect either Party's right to escalate such matter to the dispute resolution provisions in Article 26.

### 17.2 Procedures Manual

- (a) The "***Procedures Manual***" is a document (or set of documents) to be prepared by Supplier describing how Supplier will perform and deliver the Services under this Agreement, the Equipment and Software used, and the documentation (*e.g.*, operations manuals, user guides, specifications) that provide further details of the activities. The Procedures Manual will:
  - (i) describe the activities Supplier shall undertake in order to provide the Services, including those direction, supervision, monitoring, staffing, reporting, planning and oversight activities normally undertaken to provide services of the type Supplier is to provide under this Agreement;
  - (ii) include Supplier's escalation procedures and the other standards and procedures of Supplier pertinent to Health Net's interactions with Supplier in obtaining the Services; and
  - (iii) include such other information as would be reasonably necessary to an Auditor when performing audits as permitted by this Agreement.

The Procedures Manual shall describe the aforementioned information in sufficient detail so as to permit a reader to understand how the Services are being provided. The table of contents for the Procedures Manual is set forth in Schedule S (*Procedures Manual TOC*).

- (b) Working in consultation with Health Net, Supplier will deliver to Health Net a detailed outline of the Procedures Manual describing the Services to be transitioned from Health

Net to Supplier within ninety (90) days after the Effective Date. Health Net may review the draft Procedures Manual to confirm that it is sufficiently comprehensive to enable Health Net to understand how the Services are being provided. In the event Health Net identifies any deficiencies, Supplier will address such deficiencies and will finalize the Procedures Manual with respect to each wave, within one hundred eighty (180) days after the occurrence of such wave. The final Procedures Manual will be subject to the approval of Health Net for the limited purposes described above.

- (c) The Procedures Manual will be considered an operational document, which Supplier shall revise and periodically update to reflect changes in the operations or procedures described in it. Updates of the Procedures Manual will be provided to Health Net for review, comment and approval, which approval shall be for the limited purposes described in Section 17.2(b).
- (d) Supplier will perform the Services in accordance with the most recent Procedures Manual. In the event of a conflict between the provisions of this Agreement and the Procedures Manual, the provisions of this Agreement will control.
- (e) Notwithstanding anything to the contrary in Article 15 (Intellectual Property Rights), Health Net and its Affiliates may retain and Use the Procedures Manual in their businesses and for their benefit both during the Term and following the expiration or termination of this Agreement for any reason. Subject to appropriate non-disclosure agreements for the limited purpose of protecting any Independent IP of Supplier incorporated into the Procedures Manual, Health Net and its Affiliates may permit any of their other service providers to use the Procedures Manual during and after the Term, but solely in connection with their provision of services for Health Net and its Affiliates.

### 17.3 Technology Plans

Supplier will update Health Net's annual technology plan in accordance with the provisions of this Section 17.3 (*Technology Plan*) (the "**Technology Plan**"). Each Technology Plan updated by Supplier will include a review and assessment of the immediately preceding Technology Plan. The Technology Plan will consist of a three-year plan and an annual implementation plan as described below.

- (a) Contents of the Technology Plan.
  - (i) The Technology Plan will include a comprehensive assessment and strategic analysis of Health Net's then-current technology environments that are in-scope hereunder for the next three (3) years, including an assessment of the appropriate direction for Health Net's systems and services in light of Health Net's business priorities and strategies and competitive market forces (to the extent such business information is available or provided to Supplier). The Technology Plan will include a specific identification of proposed Software and Equipment strategies and direction, a cost projection, a costs-vs.-benefits analysis of any proposed Changes, a description of the types of personnel skills and abilities needed to respond to any recommended Changes or upgrades in technology, a general plan and a projected time schedule for developing and achieving the recommendations made, and references to appropriate operating platforms that support Service Level requirements, exploit industry trends in production capabilities and provide potential price-performance improvement opportunities.

- (ii) As necessary to support the overall objectives and directions of the three (3)-year plan, the annual implementation plan will provide specific guidance as to the information services requirements, projects and plans for the upcoming year, including details on operations, maintenance backlog and development activities. The annual implementation plan will include a summary review of Supplier's performance of the Services in the year then concluding, and will provide updates and revisions of the long-term plan as appropriate. Supplier will prepare an annual implementation plan for each year of the Term.
- (b) Process for Developing the Technology Plan.
- (i) As part of the process of preparing the annual implementation plan, (A) Health Net will inform Supplier of its strategic direction, (B) the Parties will mutually agree on the content of the Technology Plan, and (C) the Parties will review the overall operation of this Agreement to ensure that the Services continue to be aligned with Health Net's strategic business and IT requirements.
  - (ii) Supplier will submit for Health Net's review and approval a draft Technology Plan that reflects the content agreed to pursuant to Section 17.3(b)(i). Supplier will submit the final Technology Plan to Health Net within fifteen (15) days after receiving Health Net's comments on the draft. Supplier will submit the draft of the Technology Plan within nine (9) months after the Effective Date.

The schedule for developing and delivering each Technology Plan will be coordinated to support Health Net's annual business planning cycle. Supplier will update the Technology Plan during the year as necessary to reflect changes to Health Net's and its Affiliates' businesses that materially affect the validity of the then-current Technology Plan. Supplier will recommend modifications to the Technology Plan as it deems appropriate, and will revise the Technology Plan as requested or approved by Health Net.

#### 17.4 Action Plans and Step In Rights

- (a) Triggers for an Action Plan. If Supplier fails to perform any material or critically important Function or material portion thereof for which it is responsible in accordance with the requirements of this Agreement or the applicable SOW, Supplier shall perform a root cause analysis to determine the underlying cause of such failure to perform, and Health Net may request an action plan from Supplier (the "**Action Plan**"). If Health Net requests an Action Plan, Supplier will prepare and deliver, at Supplier's expense an Action Plan for Health Net's review and approval within five (5) business days after receiving the request, unless a communication from a Regulator requires an earlier date, in which case Supplier will use its best efforts to accelerate the production of the plan.
- (b) Contents of Action Plan. Each Action Plan must be submitted using a Health Net-provided corrective action plan template (or other Health Net-approved format). Each Action Plan must specify in detail reasonably satisfactory to Health Net:
  - (i) a description of the problem or problems (each, an "Underlying Problem") or the process for identifying the Underlying Problem(s) that caused the failure that lead to Health Net's request for an Action Plan;

- (ii) where remedy of the Underlying Problem is possible, the actions that will be implemented by Supplier to effect that remedy;
  - (iii) the actions that will be implemented by Supplier to prevent the same or a substantially similar Underlying Problem from occurring in the future;
  - (iv) a timeline for the implementation of the Action Plan; and
  - (v) any other content that may reasonably be requested by Health Net.
- (c) Health Net's Response to Draft Action Plan.
- (i) After receiving the draft Action Plan, Health Net may give Supplier notice that it approves the draft Action Plan or comment on the draft Action Plan, in which case Supplier must (i) at the reasonable request of Health Net, meet at Supplier's sole expense to discuss Health Net's comments; and (ii) within two (2) Business Days (or such longer period as Health Net may set in writing) after the meeting, or receipt of Health Net's comments where no meeting is required by Health Net (unless as otherwise agreed by the Parties), prepare at Supplier's sole expense a revised Action Plan addressing Health Net's comments and submit it to Health Net for its approval.
  - (ii) This Section 17.4(c) applies to any proposed Action Plan until it has been approved by Health Net.
- (d) Implementation of Action Plan. Supplier will only implement an Action Plan if Health Net has approved it and in the form approved by Health Net.
- (e) Exercise of Step In Rights.
- (i) In the event:
    - (A) Supplier fails to comply in a timely manner with Supplier's obligations regarding the creation or implementation of an Action Plan, or
    - (B) the implementation of the Action Plan does not and will not (within a reasonable period of time) result in the resolution of the Underlying Problem and the prevention of the same or a substantially similar Underlying Problem from occurring in the future; or
    - (C) an event (or multiple events) has occurred that Health Net reasonably believes could lead to the right for Health Net to terminate the Agreement (in whole or in part) or any SOW (in whole or in part), then

Health Net may by giving written notice to Supplier have Health Net personnel and/or contractors retained by Health Network along-side Supplier personnel to assist Supplier in resolving the Underlying Problem and preventing its recurrence (a "*Step In*"). Health Net's Step In rights shall include the right to access the Health Net Colocation Space and Supplier shall facilitate such access with the Colocation Providers.

- (ii) If Health Net Steps In, Supplier must cooperate fully with Health Net and its personnel and will provide, at no additional charge to Health Net, all assistance reasonably required by Health Net as soon as possible, including providing all reasonable access to Supplier Personnel and all relevant Equipment, premises and Software under Supplier's control to facilitate the purpose of the Step In.
- (iii) Health Net's right to Step In will end when Supplier demonstrates to Health Net's reasonable satisfaction that Supplier has resolved the Underlying Problem and Supplier is capable of providing the affected Service in accordance with the requirements of this Agreement and the affected SOW.
- (iv) Supplier must reimburse Health Net for its out-of-pocket expenses incurred by Health Net in the event Health Net exercises its right to Step In for up to \*\*\* months.
- (v) For the avoidance of doubt, Health Net's election to Step In:
  - (A) does not act to relieve Supplier of its obligations under this Agreement; and
  - (B) shall not be construed as limiting any rights and remedies Health Net may have under this Agreement, or at law or equity, in connection with any Underlying Problem, the resulting failure(s) by Supplier to perform in accordance with the Agreement.

## 17.5 Change Control

- (a) "**Change**" means any addition to, modification or removal of any aspect of the Services "**Change Control Process**" means the written procedure set forth in Schedule H (*Change Control Process*) for considering, analyzing, approving and carrying out Changes, which is designed to ensure that only desirable Changes are made and that Changes made by or on behalf of Supplier are carried out in a controlled manner with minimal disruption to the Services and Service Recipients' business operations.
- (b) Except as otherwise expressly provided in Schedule A (*Services*) or in an SOW, Health Net has retained responsibility for establishing the standards (including security standards) and strategic direction of Health Net (and its Affiliates) with respect to outsourcing.
- (c) The Parties agree that a Change might not require changes to the Charges. Supplier shall not be entitled to request an additional charge for a Change unless, and then only to the extent that, (i) such Change (A) is either (1) not within the scope of the Services and is not otherwise Supplier's financial responsibility under this Agreement or (2) even if it is within such scope or financial responsibility and except as otherwise provided in Section 17.5(e), is a non-de minimus change requested by Health Net in the required manner or location of performance of the Services, and (B) would demonstrably increase Supplier's costs to implement the Change or to deliver the Services in accordance with such Change; and (ii) the additional charge requested by Supplier for such Change must be directly and reasonably related to the net additional costs incurred by Supplier arising out of the Change (after taking into account any reductions to Supplier's costs arising out of the Change). Supplier shall include in the applicable Change Order a proposal on how Charges for the affected Services will change.

- (d) Supplier will not make any Changes, except in accordance with the Change Control Process and with Health Net's prior written approval; provided, however, that Supplier operational changes that do not fall within clauses (i), (ii) or (iii) and are not subject to other agreed restrictions shall not be subject to such approval. Health Net's approval of any Change may be withheld in its discretion for any Change that may reasonably be expected to do or result in any of the following in any non- de minimis way: (i) adversely affect the specifications, functionality, performance or resource efficiency of any Services; (ii) increase Health Net's internal costs, Supplier's charges to Health Net under this Agreement or charges by other Health Net suppliers to Health Net; (iii) disrupt or adversely affect any of Health Net's or its Affiliates' business or operations; or (iv) discontinuing the use of the ABS platform or claim edit system (ihealth) to provide the Services. If Supplier implements any Change without securing Health Net's prior written approval via the Change Control Process, the Change will be deemed to be provided as part of the Services at no additional charge.
- (e) With respect to any change in a Law or Health Net Policy (or any new Law or Health Net Policy) that either Party determines may require a potential Change to the Services:
- (i) The Parties will mutually discuss the potential Change to the Services, and based on such discussions, Supplier shall provide a proposed Change Order addressing such Change, to reflect how the Services would be modified to be in compliance with such changed or new Law or Health Net Policy (as applicable).
  - (ii) With respect to any Change resulting from (x) a change in or a new Law, or (y) a change in or a new Health Net Policy (but only to the extent such change in or new Health Net Policy was required in order to comply with an existing Law or caused by a change in or a new Law):
    - (A) Supplier shall use Commercially Reasonable Efforts to implement the Change sufficiently in advance of the effective date of compliance with such changed or new Law such that Health Net has a reasonable amount of time to perform testing of any of Health Net's equipment, systems, processes or other items that may be impacted by such Change; and
    - (B) Supplier shall have financial responsibility for any such Change, except to the extent that Health Net is financially responsible as expressly set forth in Section 13 of Schedule C (Charges).
- (f) If an approved Change would result in:
- (i) New Services or a change to an existing SOW, then (unless otherwise agreed by Health Net to be documented in a Change Notice) the Change must be authorized via, as applicable, a Future SOW pursuant to Section 3.7 or an amendment or modification to an existing SOW made pursuant to Section 25.3 (*Contract Amendments and Modifications*) or documentation resulting from agreeing to such Change pursuant to the Change Control Procedure; or
  - (ii) A change to any other terms of this Agreement, the Change must be authorized via a contract amendment or modification made pursuant to Section 25.3 (*Contract Amendments and Modifications*).

## 18. AUDITS AND RECORDS

### 18.1 Audit Rights

- (a) Health Net and its agents, auditors (internal and external), Regulators, Health Net customers, provider groups and hospitals (and their respective auditors), and other representatives as Health Net may designate (collectively, “*Auditors*”) will have the right to reasonably inspect, examine and audit those portions of the systems, records (including financial records), facilities, data, practices and procedures of Supplier and its Subcontractors that are used in rendering the Services or pertain to the Services (collectively, “*Audits*”) for any of the following purposes:
- (i) to verify the accuracy of Supplier’s invoices;
  - (ii) to verify the integrity of those elements of Health Net’s corporate control processes that are performed by Supplier, in order to permit Health Net’s management and independent auditors to make certifications required by the securities or other Laws of any country;
  - (iii) to verify the integrity of Health Net Data and Supplier’s compliance with the data privacy, data protection, confidentiality and security requirements of this Agreement;
  - (iv) to examine Supplier’s performance of the Services and to verify Supplier’s compliance with this Agreement, including (to the extent applicable to the Services and to the charges therefore), performing audits of:
    - (A) practices and procedures;
    - (B) systems, equipment, and Software;
    - (C) general controls and security practices and procedures;
    - (D) disaster recovery and back-up procedures;
    - (E) the validity of Supplier’s charges, but Auditors shall not be given access to information concerning Supplier’s costs except in relation to the following: (1) charges billed on a time and materials basis or using another form of ‘price x quantity’ charging model, (2) Supplier’s proposed charges for Changes, and (3) invoiced charges for reimbursement of Out-of-Pocket Expenses;
    - (F) as necessary to enable Health Net to meet, or to confirm that Supplier is meeting, applicable regulatory and other legal requirements; and
    - (G) Supplier’s methodology and approach for estimating the charges for Projects;
  - (v) to satisfy the requirements of the Health Net audit committee and the requirements of Regulators (including with respect to the requirements of any corrective action plan);

- (vi) to verify Health Net's compliance with applicable Laws and Health Net's agreements with customers and employer groups;
  - (vii) to verify Supplier's compliance with Section 9.5 (*Most Favored Customer*); and
  - (viii) to perform mock Audits.
- (b) Health Net shall also have the right to retain a third party to perform Audits of Supplier's Service Level measurements, calculations and reporting, and to confirm statistically valid random sampling.
- (c) All Audits shall be subject to the following limitations:
- (i) Audits will be conducted during Business Hours and upon reasonable advance notice to Supplier except in the case of Audits by Regulators, emergency or security Audits and Audits investigating claims of illegal behavior;
  - (ii) Health Net and its Auditors will comply with Supplier's reasonable security and confidentiality requirements, guidelines and other policies of Supplier when accessing facilities or other resources owned or controlled by Supplier with respect to the Audit;
  - (iii) Use of any third party auditor that is a Supplier Competitor, shall be subject to Supplier's prior written approval, such approval not to be unreasonably withheld or delayed;
  - (iv) Health Net and its Auditor(s) must obtain Supplier's written approval prior to utilizing tools or utilities within Supplier's computer systems and network, and Supplier shall have the opportunity to thoroughly test such tools prior to granting such approval, such approval not to be unreasonably withheld or delayed.
- (d) Supplier will cooperate with Health Net, its Regulators and its and their Auditors conducting Audits and provide such assistance as they reasonably require to carry out the Audits, including providing audit support as contemplated in any SOWs and providing knowledgeable staff to assist them in conducting Audits. Furthermore, Supplier will comply with Health Net's internal audit methodology, as it is provided to Supplier by Health Net. Subject to the foregoing, Auditors will be provided reasonable access to systems or Supplier facilities used in the performance of the Services, provided that the Auditors will not have access to any data of any customer of Supplier other than Health Net.

## 18.2 Supplier Audits

- (a) Supplier will conduct its own audits pertaining to the Services consistent with the audit practices of well-managed companies that perform services similar to the Services. Without limiting the generality of the foregoing, Supplier will conduct the following audits upon Health Net's request (provided that Health Net shall not request any audit more frequently than annually) at each Supplier Facility and obtain the appropriate compliance certification:
- (i) a security (including physical security) audit;

- (ii) an audit of privacy practices as related to the Services;
- (iii) a Statement on Standards for Attestation Engagements No. 16, Service Organization Control 2, Type 2 (“*SSAE 16*”) audit as defined by the American Institute of Certified Public Accountants (or an equivalent ISAE 3402 Type 2 audit or an audit made pursuant to any other guidance that supersedes or replaces SSAE 16 SOC 1 and 2, Type 2). Supplier will provide copies of SSAE 16 or International Standard on Assurance Engagements 3402 (“*ISAE 3402*”) audit reports for the Services. Supplier will provide such audit reports for the Term of this Agreement. The Audits will be conducted in accordance with third party auditor’s control requirements and industry standards or guidelines. Such audits will be performed on a service or facility basis and not on a customer specific basis;
- (iv) ISO 20000-1 audits (or similar audits based upon industry-recognized successor standards) to be performed by a reputable, independent third party auditor;
- (v) a corporate-wide ISO 9001:2008 audit (or similar audit based upon an industry-recognized successor standard); and
- (vi) an ISO 27001 audit; and
- (vii) such other audits in order to verify compliance with the provisions of the Sarbanes-Oxley Act of 2002, as such Act may be amended from time to time.

(such audits referenced in this Section 18.2 collectively the “*Required Supplier Audits*”). Supplier's SSAE 16/ISAE 3402 audits will cover the time period on an overlapping six (6) month basis of each calendar year. Each calendar year, one of Supplier's SSAE 16/ISAE 3402 audits will cover a six (6) month period ending no later than two (2) months prior to the end of such calendar year, and no earlier than three (3) months prior to the end of such calendar year, with the related SSAE 16/ISAE 3402 report provided to Health Net within three (3) months after the end date of the period under audit.

- (b) If Supplier receives a qualified opinion resulting from a Supplier Audit, Supplier will promptly remediate the audited services and provide Health Net with a supplemental audit report removing the qualification.
- (c) As requested by Health Net for a Required Supplier Audit as of a date that is specified by Health Net in such request and that is within the period in which such Required Supplier Audit remains valid, Supplier shall provide Health Net with a “bring down” certification letter, signed by an appropriate Supplier employee, which certifies that such Required Supplier Audit remain materially accurate.
- (d) Supplier shall make available promptly to Health Net (i) the results of any review or audit conducted by or for Supplier or its Affiliates relating to Supplier’s operating practices or procedures, to the extent relevant to the Services or Health Net, and (ii) summaries of business continuity test results to the extent relevant to the Services or Health Net, which shall include frequency of the testing, that which was tested, and a summary of the outcome of those tests; and which shall be no less detailed than similar information that which Supplier provides to government or other customers similar to Health Net. In addition, Supplier will cause its account management team to maintain an awareness of any material issues that relate to Health Net and that are discovered by Supplier or its auditors (including

as part of any internal review or audit). If any such resulting review or audit report is relevant to Health Net, its Affiliates or other Service Recipients, Supplier will provide a copy of the audit report to Health Net and its independent auditors for review and comment as soon as reasonably possible, and in any event within thirty (30) days after completion of the audit report. Supplier will also provide information regarding its plans to correct, and will correct, any material errors or problems identified in the audit report.

### **18.3 Supplier's Internal Controls**

- (a) Supplier will develop and maintain internal control processes and controls that are designed to prevent and detect a material misstatement in financial information processed or generated by Supplier, as required to achieve and maintain compliance with the provisions of the Sarbanes-Oxley Act of 2002, as such Act may be amended from time to time.
- (b) Supplier will permit Health Net access to Supplier's processes and controls relevant to the Services and provide such documentation as reasonably requested by Health Net to the extent reasonably necessary for Health Net to complete its internal control testing to satisfy the Sarbanes-Oxley Act of 2002.

### **18.4 Audit Follow-up**

- (a) Following an Audit or examination, Health Net may conduct, or request its external Auditors or examiners to conduct, an exit conference with Supplier to obtain factual concurrence with issues identified in the review. Supplier will make available promptly to Health Net the results of any review or audit conducted by Supplier and Supplier's Affiliates (including by internal audit staff or external auditors), or by inspectors, Regulators or other representatives, relating to Supplier's operating practices and procedures to the extent relevant to the Services or Health Net. Supplier shall comply with Health Net's internal audit methodology as Health Net makes it known to Supplier in order to resolve any issues that arise from the audit.
- (b) At Health Net's request, Supplier will meet with Health Net to review each audit report promptly after the issuance thereof and to mutually agree upon the appropriate manner, if any, in which to respond to the changes suggested by the audit report. Supplier and Health Net agree to develop operating procedures for the sharing of audit and regulatory findings and reports related to Supplier's operating practices and procedures produced by auditors or regulators of either Party. Supplier shall comply with Health Net's internal audit methodology as Health Net makes it known to Supplier.

### **18.5 Confidentiality of Audits**

All Audit results and disclosed records of Supplier's performance of the Services will be treated as Supplier Confidential Information (except to the extent they contain Health Net Confidential Information or fall within an exception in Section 21.1(b)) and shall not be used for any purpose except to verify Supplier's compliance with its obligations under this Agreement and except that such results and records may be disclosed to Regulators in accordance with Section 21.2(d).

### **18.6 Records Retention**

- (a) In support of Health Net's Audit rights, Supplier will keep and maintain (i) financial records relating to this Agreement in accordance with generally accepted accounting principles applied on a consistent basis, (ii) records substantiating Supplier's invoices, (iii) records pertaining to Supplier's compliance with the Service Levels, including root cause

analyses, and (iv) such other operational records pertaining to performance of the Services as Supplier keeps in the ordinary course of its business.

- (b) Supplier will retain such records and provide access to them upon request for Audits until the last to occur of the following: (i) ten (10) years after expiration or termination of this Agreement; (ii) all pending matters relating to this Agreement (including disputes) are closed; and (iii) the information is no longer required to meet the Health Net Policy on records retention. Before destroying or otherwise disposing of such records, Supplier will provide Health Net with sixty (60) days prior notice and offer Health Net the opportunity to recover the records or to request Supplier to deliver the records to Health Net, with Health Net paying Supplier's Out-of-Pocket Expenses.
- (c) Supplier will cause any Subcontractor of Supplier under this Agreement to make such Subcontractor's books and records with respect to the Services available for inspection, examination and copying by the applicable Regulator and to retain such books and records in accordance with applicable Laws (e.g., the California Knox-Keene Act requirements), which requirements shall be provided by Health Net to Supplier. In the event that Health Net or its Affiliates receives any notice that a Regulator requires such access to a Subcontractor's books and records, it will notify Supplier promptly to allow Supplier to notify the applicable Subcontractor, if not prohibited by Law. If Supplier or Subcontractor requests that any information disclosed to Regulators be given confidential treatment by the Regulator, Health Net or the applicable Affiliate will make such request, will cooperate reasonably with Supplier in communicating with the Regulator and will take all reasonable actions to obtain confidential treatment.

#### **18.7 Financial Reports**

At Health Net's request, Supplier will provide to Health Net copies of all publicly-available audited and unaudited financial statements of Supplier and its Controlling Affiliates.

#### **18.8 Overcharges**

- (a) If as a result of an audit or otherwise it is determined that Supplier has overcharged Health Net, Supplier shall credit Health Net's account (or, at Health Net's option, pay Health Net directly) an amount equal to the overcharge plus interest at \*\*\* above the prime rate (as shown in The Wall Street Journal) calculated from the date the overcharge was paid by Health Net.
- (b) If an audit of the charges discloses that Supplier's overcharges exceeded \*\*\* percent of the audited charges during the period audited, Supplier shall also reimburse Health Net for the reasonable cost of such audit.

### **19. REPRESENTATIONS, WARRANTIES AND COVENANTS OF SUPPLIER**

#### **19.1 Work Standards**

Supplier covenants that the Services will be rendered with promptness and diligence and be executed in a professional and workmanlike manner in accordance with the practices and standards observed by the leading companies in Supplier's industry when performing similar services. Supplier covenants that it will use adequate numbers of qualified Supplier Personnel with suitable training, education, experience and skill to perform the Services in accordance with timing and other requirements of this Agreement.

## 19.2 Maintenance

Supplier represents, warrants and covenants that it will maintain the Equipment and Software for which it has operational responsibility or Financial Responsibility so they operate in accordance with their specifications, including (i) maintaining Equipment in good operating condition, subject to normal wear and tear; (ii) undertaking repairs and preventive maintenance on Equipment in accordance with the applicable Equipment manufacturer's recommendations; and (iii) performing Software maintenance in accordance with the applicable Software vendor's documentation and recommendations.

## 19.3 Efficiency and Cost-Effectiveness

Supplier covenants that it will use Commercially Reasonable Efforts to use efficiently the resources or services necessary to provide the Services. Supplier covenants that it will use Commercially Reasonable Efforts to perform the Services in a cost-effective manner consistent with the required level of quality and performance.

## 19.4 Deliverable

Supplier represents, warrants and covenants that each Deliverable produced by Supplier under this Agreement will not, during the Warranty Period, deviate in any material respect from the specifications and requirements for such Deliverable set forth or referred to in this Agreement (or a SOW, work order, service request, project plan or similar document developed pursuant to this Agreement). If Health Net notifies Supplier of a breach of the foregoing warranty within the Warranty Period, Supplier will promptly correct and redeliver the affected Deliverable at no additional charge to Health Net without delay. "*Warranty Period*" shall mean the period of time commencing on the date of delivery of the Deliverable to Health Net and continuing for ninety (90) days ; provided that with respect to Deliverables that are modifications or enhancements or additions to the Technology Platform, the Warranty Period shall be the period of time commencing on the earlier to occur of (i) the date of delivery of such Deliverable to Health Net, and (ii) use of such Deliverable to provide the Services, and continuing for the duration of the Term and all Disengagement Assistance Periods.

## 19.5 Documentation

Supplier represents, warrants and covenants that any Documentation developed for Health Net by or on behalf of Supplier under this Agreement, except portions of the Documentation provided by Health Net, will (a) accurately and with reasonable comprehensiveness describe the operation, functionality and use of the item described in such Documentation, and (b) for Application Software, accurately describe in terms understandable to a typical End User the functions and features of such item and the procedures for exercising such functions and features.

## 19.6 Compatibility

Supplier represents, warrants and covenants that, during the Warranty Period, Deliverables that are developed and that are intended to interact or otherwise work together as part of a functioning system, including with other technology components that exist at the time such Deliverables are created, will be compatible and will properly inter-operate and work together as components of an integrated system.

## 19.7 Non-Infringement

- (a) Subject to Section 19.7(b), Supplier represents, warrants and covenants that:
- (i) Supplier will perform their responsibilities under this Agreement in a manner that does not infringe or constitute an infringement or misappropriation of any Intellectual Property Rights of any third party;
  - (ii) Supplier has all rights and licenses necessary to convey to Health Net (and to its Affiliates, where applicable) the ownership of or license rights to, as applicable, all Software, Work Product, Independent IP, and other items provided to Health Net by or on behalf of Supplier; and
  - (iii) no Software, Work Product, Independent IP, or other item used to provide the Services or otherwise provided to Health Net by or on behalf of Supplier, nor their use by Health Net or other Service Recipients in accordance with the applicable Documentation (if any), will infringe or constitute an infringement or misappropriation of any Intellectual Property Right of any third party.
- (b) Supplier will not be considered in breach of the representations, warranties and covenants set forth in Section 19.7(a) to the extent (but only to the extent) that any claimed breach, infringement or misappropriation (if true) would be attributable to any of the following:
- (i) Health Net's modification of an item provided by or on behalf of Supplier unless the modification was expressly authorized, approved or made by Supplier; or
  - (ii) Health Net's combination, operation or use of an item provided by or on behalf of Supplier with other specific items not furnished by, through or at the specification of Supplier or its Subcontractors; provided, however, that this exception will not be deemed to apply to the combination, operation or use of an item with other commercially available products that could reasonably have been anticipated by Supplier that Health Net would likely use in combination with the item provided by or on behalf of Supplier (e.g., the combination, operation or use of application Software provided by Supplier with a commercially available computer and operating systems Software not provided by Supplier); or
  - (iii) Any aspect of Health Net's Software, Documentation or data which existed prior to Supplier's performance of Services provided the claimed breach, infringement or misappropriation (if true) would not be attributable to any work performed by (or on behalf of) Supplier for Health Net or a Health Net Affiliate; or
  - (iv) Claims relating to the ABS Platform in respect of which Health Net is obligated to indemnify Supplier under the APA; or
  - (v) Any instruction, information, design or other materials furnished to Supplier hereunder by or on behalf of Health Net; or
  - (vi) Health Net's continuing the allegedly infringing activity after (A) being notified thereof, and (B) being provided with modifications that would have avoided the alleged infringement without adversely affecting Health Net's use of or the functionality of the applicable item or Health Net's receipt of the Services.

## 19.8 Viruses

“*Virus*” means (i) program code or programming instruction(s) or set(s) of instructions intentionally designed to disrupt, disable, harm, interfere with or otherwise adversely affect computer programs, data files or operations; or (ii) other code typically described as a virus, Trojan horse, worm, back door or other type of harmful code. Supplier covenants that Supplier Personnel will not knowingly introduce a Virus or allow a Virus to be introduced into Health Net’s or any other Service Recipient’s system or any system used to provide the Services. In addition, Supplier will use Commercially Reasonable Efforts to prevent Supplier Personnel from unknowingly introducing a Virus or allowing a Virus to be introduced into Health Net’s or any other Service Recipient’s system or any system used to provide the Services. If a Virus is found to have been introduced into Health Net’s or other Service Recipients’ systems or the systems used to provide the Services as a result of a breach of the foregoing representation, warranty and covenant, Supplier will use Commercially Reasonable Efforts at no additional charge to assist Health Net in eradicating the Virus and reversing its effects and, if the Virus causes a loss of data or operational efficiency, to assist Health Net in mitigating and reversing such losses.

## 19.9 Disabling Code

Supplier covenants that in the course of providing the Services it will not intentionally insert into Software or any systems used to provide the Services any code that would have the effect of disabling or otherwise shutting down all or any portion of the Services. With respect to any disabling code that was already part of Software or systems used to provide the Services, Supplier covenants that it will not intentionally invoke such disabling code or knowingly permit it to be invoked at any time without Health Net’s prior written consent. For purposes of this covenant, programming errors will not be deemed disabling code to the extent Supplier can demonstrate that such errors were not made with the intention of disabling or otherwise shutting down all or any portion of Health Net’s or any other Service Recipient’s systems or any system used to provide the Services.

## 19.10 Date and Currency Compliance

Supplier represents, warrants and covenants to Health Net that the Services and any Deliverable provided by Supplier do and will, operate in a manner which prevents ambiguous or erroneous output with respect to all (a) date-related data and functions and (b) currency-related data and functions.

## 19.11 Corporate Social Responsibility

Supplier represents, warrants and covenants to Health Net that Supplier and Supplier Facilities comply, and during the Term will comply, with the following:

- (a) Supplier will not use forced or compulsory labor in any form, including prison, indentured, political, bonded or otherwise.
- (b) Supplier will not follow policies promoting or resulting in unacceptable worker treatment such as the exploitation of children, physical punishment, female abuse, involuntary servitude, or other forms of abuse.
- (c) Supplier will not discriminate based on race, creed, gender, marital or maternity status, class or caste status, religious or political beliefs, age or sexual orientation. Supplier’s

decisions related to hiring, salary, benefits, advancement, termination or retirement will be based solely on the ability of an individual to do the job, Supplier's business and technical requirements, and those of Supplier's customers.

- (d) Supplier's management practices will recognize the dignity of the individual employee and the right to a work place free of harassment, abuse or corporal punishment, and will respect Supplier's employees' voluntary freedom of association.
- (e) Supplier will comply with all applicable Laws concerning the conditions of employment of its employees, including those relating to pay, benefits, and working conditions.
- (f) Supplier will maintain on file all documentation needed to demonstrate compliance with these standards and shall make these documents available for Health Net and its auditors with or without prior notice. Supplier will publicize to its employees and enforce a non-retaliation policy that permits Supplier's employees to speak with Health Net and Health Net's auditors without fear of retaliation by Supplier or Supplier's management.

#### **19.12 Subcontractor Confidentiality and Data Protection**

Supplier will ensure that each of Supplier's Subcontractors performing the Services will, prior to performing any Services, have executed an agreement satisfying the confidentiality and data protection obligations provided in this Agreement.

#### **19.13 No Improper Inducements**

Supplier represents, warrants and covenants to Health Net that it has not violated any applicable Laws or any Health Net Policy regarding the offering of unlawful or improper inducements in connection with this Agreement. If at any time during the Term, Health Net determines that the foregoing representation, warranty and covenant is inaccurate, then, in addition to any other rights Health Net may have at law or in equity, Health Net may terminate this Agreement for cause without affording Supplier an opportunity to cure.

#### **19.14 Foreign Corrupt Practices Act**

- (a) Supplier represents, warrants and covenants that it has not and will not offer, pay, promise to pay, or authorize the payment of any money, or offer, give, promise to give, or authorize the giving of anything of value to a foreign official (as defined in the Foreign Corrupt Practices Act (P.L. 95-213), as amended), to any foreign political party or official thereof or any candidate for foreign political office, or to any person, while knowing or being aware of a high probability that all or a portion of such money or thing of value will be offered, given or promised, directly or indirectly, to any foreign official, to any foreign political party or official thereof, or to any candidate for foreign political office, for the purposes of:
  - (i) influencing any act or decision of such foreign official, political party, party official, or candidate in his or its official capacity, including a decision to fail to perform his or its official functions; or
  - (ii) inducing such foreign official, political party, party official, or candidate to use his or its influence with the foreign government or instrumentality thereof to affect or influence any act or decision of such government or instrumentality, in order to

assist Health Net or Supplier in obtaining or retaining business for or with, or directing business to Health Net or Supplier.

- (b) Supplier further represents, warrants and covenants that it will not violate the Foreign Corrupt Practices Act or any other applicable anti-corruption laws or regulations. Supplier agrees that if subsequent developments after the Effective Date cause the representations, warranties, covenants and information reported herein to be no longer accurate or complete, Supplier will promptly furnish Health Net with a supplementary report detailing such change in circumstances.

#### **19.15 Claims Procedures, Appeals and External Review**

Supplier shall ensure that its decisions regarding hiring, compensation, termination, promotion, or other similar matters with respect to Supplier Personnel (such as a claims adjudicator, appeals processor, or medical expert) shall not be made based upon the likelihood or perceived likelihood that the individual will support or tend to support the denial of benefits for Health Net members and/or customers.

#### **19.16 ABS Platform**

The representations, warranties, covenants and other provisions contained in Sections 19.1-19.12 shall not apply to any part of the ABS Platform developed by or for Health Net (other than by Supplier) prior to the BPaaS Services Commencement Date.

### **20. MUTUAL REPRESENTATIONS AND WARRANTIES; DISCLAIMER**

#### **20.1 Mutual Representations and Warranties**

Each Party represents, warrants and covenants to the other that:

- (a) It has the requisite corporate power and authority to enter into this Agreement and to carry out the transactions and activities contemplated by this Agreement;
- (b) The execution, delivery and performance of this Agreement and the consummation of the transactions contemplated by this Agreement have been duly authorized by the requisite corporate action on the part of such Party, are a valid and binding obligation of such Party, and do not constitute a violation of any existing judgment, order or decree;
- (c) The execution, delivery and performance of this Agreement and the consummation of the transactions contemplated by this Agreement do not constitute a material default under any existing material contract by which it or any of its material assets is bound, or an event that would, with notice or lapse of time or both, constitute such a default; and
- (d) There is no proceeding pending or, to the knowledge of the Party, threatened that challenges or could reasonably be expected to have a material adverse effect on this Agreement or the ability of the Party to perform and fulfill its obligations under this Agreement.

## 20.2 Disclaimer

OTHER THAN AS PROVIDED IN THIS AGREEMENT, THERE ARE NO EXPRESS WARRANTIES AND THERE ARE NO IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE EXPRESSLY DISCLAIMED EXCEPT WHERE REQUIRED BY LAW.

## 21. CONFIDENTIALITY

### 21.1 “Confidential Information” Defined

- (a) “**Confidential Information**” of a Party means any non-public, commercially sensitive information (or materials) belonging to, concerning or in the possession or control of the Party or any of its Affiliates (and, in the case of Health Net, any of the Service Recipients) (the “**Furnishing Party**”) that is furnished, disclosed or otherwise made available (directly or indirectly) to the other Party (the “**Receiving Party**”) (or entities or persons acting on the other Party’s behalf) in connection with this Agreement and which is either marked or identified in writing as confidential, proprietary, secret or with another designation sufficient to give notice of its sensitive nature, or is of a type that a reasonable person would recognize it to be confidential. In the case of Health Net, “**Confidential Information**” includes any (i) information to which Supplier has access in Health Net Facilities or Health Net systems (or those of any Health Net Affiliates or Service Recipients) (ii) information belonging to or concerning Health Net, any Health Net Affiliates or any of the Service Recipients in Supplier Facilities or systems used to provide the Services; (iii) Deliverables and information pertaining to them, (iv) Health Net Data, Health Net Owned Software, Health Net Licensed Software, and systems access codes, (v) information concerning Health Net’s and/or its Affiliates’ and/or Service Recipients’ products, marketing strategies, financial affairs, employees, customers or suppliers, (vi) personal information and Personally Identifiable Information of Health Net’s employees and members and any information protected under the Business Associate Agreement (including Protected Health Information), (vii) Proprietary Business Rules and (viii) all data and information in any form derived from any of the foregoing, in each case regardless of whether or how any of the foregoing is marked. In the case of Supplier, “**Confidential Information**” includes any (a) information regarding Supplier’s systems, marketing plans, Software, processes and controls, products and services, (b) Work Product (other than Deliverables) and Supplier’s Independent IP, and (c) any part of the Required Information that is not Health Net Data, in each case regardless of whether or how any of the foregoing is marked. Any notes, memoranda, compilations, derivative works, data files or other materials prepared by or on behalf of the Receiving Party that contain or otherwise reflect or refer to Confidential Information of the Furnishing Party will also be considered Confidential Information of the Furnishing Party.
- (b) “**Confidential Information**” does not include any particular information (other than personal information, -Personally Identifiable Information and Protected Health Information) that the Receiving Party can demonstrate: (i) was rightfully in the possession of, or was rightfully known by, the Receiving Party without an obligation to maintain its confidentiality prior to receipt from the Furnishing Party; (ii) was or has become generally known to the public other than as a result of breach of this Agreement or a wrongful disclosure by the Receiving Party or any of its agents; (iii) after disclosure to the Receiving Party, was received from a third party who, to the Receiving Party’s knowledge, had a

lawful right to disclose such information to the Receiving Party without any obligation to restrict its further use or disclosure; or (iv) was independently developed by the Receiving Party without use of or reference to any Confidential Information of the Furnishing Party.

## 21.2 Obligations of Confidentiality

- (a) Each Party acknowledges that it may be furnished, receive or otherwise have access to Confidential Information of the other Party in connection with this Agreement.
- (b) The Receiving Party will not use, disclose or reproduce Confidential Information of the Furnishing Party except as reasonably required to accomplish the purposes and objectives of this Agreement. The Receiving Party will not disclose the Confidential Information of the Furnishing Party to any person or appropriate it for the Receiving Party's own use, or for any other person's use or benefit, except as specifically permitted by this Agreement or approved in writing by the Furnishing Party.
- (c) The Receiving Party will keep the Confidential Information of the Furnishing Party confidential and secure and will protect it from unauthorized use or disclosure by using at least the same degree of care as the Receiving Party employs to avoid unauthorized use or disclosure of its own Confidential Information, but in no event less than reasonable care.
- (d) As necessary to accomplish the purposes and objectives of this Agreement, the Receiving Party may disclose Confidential Information of the Furnishing Party to any employee, officer, director, contractor, Service Recipient, agent or representative of the Receiving Party who is bound to the Receiving Party to protect the confidentiality of the information in a manner substantially equivalent to that required of the Receiving Party under this Agreement. As necessary to accomplish the purposes and objectives of this Agreement, Health Net may also provide Confidential Information of Supplier to contractors (including outsourcing suppliers that may replace Supplier under this Agreement) who provide services to Health Net, provided any such contractor and outsourcing supplier (but not their employees) (i) is bound to Health Net to use such Confidential Information for the sole purpose of providing services to Health Net, and (ii) shall, prior to receipt of any Confidential Information, execute a non-disclosure agreement for Supplier substantially in the form set forth in Schedule N (the "**Non-Disclosure Agreement**"), provided further that (A) Supplier has the right to make reasonable modifications to the form of Non-Disclosure Agreement, and (B) Supplier shall consider in good faith any changes to the form Non-Disclosure Agreement reasonably requested by a contractor or outsourcing supplier and shall not unreasonably withhold agreement to any such changes. The Receiving Party may also disclose Confidential Information of the Furnishing Party to the Receiving Party's Auditors provided they are made aware of the Receiving Party's obligations of confidentiality with respect to the Furnishing Party's Confidential Information and such Auditors are obligated to maintain the confidentiality of such Confidential Information on terms that are substantially equivalent to the terms of this Section 21 (Confidentiality). Health Net and its Affiliates may also disclose Supplier Confidential Information, including this Agreement and the transactions contemplated by this Agreement, in any reports furnished, filed or required to be filed with the Securities and Exchange Commission ("**SEC**") pursuant to the rules and regulations promulgated by the SEC, as well as to the New York Stock Exchange and any other Regulator charged with the administration, oversight or enforcement of regulations applicable to any business conducted by Health Net or any of its Affiliates (collectively, the "**SEC and Regulatory Filing Requirements**"). In the event that Health Net or its Affiliates intend to disclose

Supplier Confidential Information as permitted by the immediately preceding sentence it will, to the extent commercially practicable, notify Supplier prior to disclosing the information and provide copies of the intended disclosure to allow Supplier to comment on such disclosures. If Supplier requests that Health Net or its Affiliates request confidential treatment of the Confidential Information by the SEC or other Regulator, Health Net or the applicable Affiliate will make such request and will take all commercially reasonable actions to obtain confidential treatment. Notwithstanding the foregoing, Health Net shall maintain sole discretion regarding compliance with SEC and Regulatory Filing Requirements.

- (e) If any unauthorized use, disclosure, loss of, or inability to account for any Confidential Information of the Furnishing Party occurs, the Receiving Party will promptly so notify the Furnishing Party and will cooperate with the Furnishing Party and take such actions as may be necessary or reasonably requested by the Furnishing Party to minimize the violation and any damage resulting from it.

### **21.3 No Implied Rights**

Each Party's Confidential Information will remain the property of that Party. Nothing contained in this Section 21 (Confidentiality) will be construed as obligating a Party to disclose its Confidential Information to the other Party, or as granting to or conferring on a Party, expressly or by implication, any rights or license to the Confidential Information of the other Party. Any such obligation or grant will only be as provided by other provisions of this Agreement.

### **21.4 Compelled Disclosure**

If the Receiving Party becomes legally compelled to disclose any Confidential Information of the Furnishing Party in a manner not otherwise permitted by this Agreement, the Receiving Party will provide the Furnishing Party with prompt notice of the request so that the Furnishing Party may seek a protective order or other appropriate remedy. If a protective order or similar order is not obtained by the date by which the Receiving Party must comply with the request, the Receiving Party may furnish that portion of the Confidential Information that, after consulting with legal counsel, it determines it is legally required to furnish. The Receiving Party will exercise reasonable efforts to obtain assurances that confidential treatment will be accorded to the Confidential Information so disclosed.

### **21.5 Confidential Treatment of this Agreement**

Each Party may disclose the existence and general nature of this Agreement as permitted by Section 27.9 (Public Disclosures), but otherwise the terms and conditions of this Agreement will be considered the Confidential Information of each Party; provided however, that this Agreement may be disclosed by either Party in connection with an actual or good-faith proposed merger, acquisition, divestiture or similar transaction, so long as such receiving entity first agrees in writing to obligations substantially similar to those described in this Section 21 (Confidentiality).

### **21.6 Disclosure of Information Concerning Tax Treatment**

Notwithstanding anything to the contrary in this Section 21 (Confidentiality), each Party (and its Affiliates), and any person acting on their behalf, may disclose to any person or entity the "tax structure" and "tax treatment" (as such terms are defined in the U.S. Internal Revenue Code and regulations under it) of the transactions effected by this Agreement and any materials provided to

that Party (or its Affiliates) describing or relating to such tax structure and tax treatment; *provided, however*, that this disclosure authorization will not be interpreted to permit disclosure of (i) any materials or portions of materials that are not related to the transaction's tax structure or tax treatment, or (ii) any materials or information that the Party (or its Affiliate(s)) must refrain from disclosing to comply with applicable securities Laws.

### **21.7 Return or Destruction**

- (a) As requested by the Furnishing Party during the Term, the Receiving Party will return or provide the Furnishing Party a copy of any designated Confidential Information of the Furnishing Party. When Confidential Information of the Furnishing Party is no longer required for the Receiving Party's performance under this Agreement, or in any event upon expiration or termination of this Agreement, the Receiving Party will return all materials that contain, refer to, or relate to Confidential Information of the Furnishing Party or, at the Furnishing Party's election, destroy them. In addition, Supplier shall, within sixty (60) days of the expiration or termination of this Agreement, delete all of Health Net's Confidential Information from its databases, servers, personal computers, web site and other electronic media that exist now or in the future.
- (b) The Receiving Party may, however, keep (i) any Confidential Information of the Furnishing Party that the Receiving Party has a license to continue using, (ii) in the files of its legal department or outside counsel, for record purposes only, one copy of any material requested to be returned or destroyed, (iii) archival copies as may be necessary to comply with document retention laws and regulations applicable to such Party's business operations, and (iv) data that is necessary to be retained by Supplier in order to comply with Supplier's back-up policies and procedures; provided that any electronic Confidential Information that is stored on routine back-up media for the purpose of disaster recovery will be subject to destruction in due course. Additionally, the Receiving Party shall have no obligation to destroy any Confidential Information that is subject to a claim, dispute, lawsuit, or subpoena or in any other circumstances in which such Party reasonably believes that destruction of such Confidential Information would be unethical or unlawful. Any Confidential Information of the Furnishing Party that is retained by the Receiving Party pursuant to the foregoing shall continue to be subject to the confidentiality obligations of this Agreement.
- (c) At the Furnishing Party's request, the Receiving Party will certify in writing to the Furnishing Party that it has returned or destroyed all copies of the Furnishing Party's Confidential Information in the possession or control of the Receiving Party's or any of its Affiliates or contractors that are required to be returned or destroyed pursuant to this Section 21.7 (Return or Destruction).

### **21.8 Duration of Confidentiality Obligations**

The Receiving Party's obligations under this Section 21 (Confidentiality) apply to Confidential Information of the Furnishing Party disclosed to the Receiving Party before or after the Effective Date and will continue during the Term and survive the expiration or termination of this Agreement as follows:

- (a) The Receiving Party's obligations under Section 21.7 (Return or Destruction) will continue in effect until fully performed;

- (b) As to any portion of the Furnishing Party's Confidential Information that constitutes a trade secret under applicable Law, the obligations will continue for as long as the information continues to constitute a trade secret;
- (c) As to all other Confidential Information of the Furnishing Party, the obligations will survive for four (4) years after the Receiving Party's fulfillment of its obligations under Section 21.7 (Return or Destruction) with respect to the Confidential Information in question; and
- (d) With respect to personal information, Personally Identifiable Information and Protected Health Information, the obligations shall survive indefinitely.

## 22. INSURANCE

Supplier represents that it has, as of the Effective Date, and agrees to maintain in force throughout the Term at least the types and amounts of insurance coverage specified in Schedule I (*Supplier Insurance*).

## 23. INDEMNIFICATION

### 23.1 Indemnification By Supplier

Supplier will at its expense indemnify, defend and hold harmless Health Net and its Affiliates, and their respective officers, directors, customers, employees, agents, representatives, successors and assigns (collectively, "*Health Net Indemnitees*") from and against any and all Losses suffered or incurred by any of them arising from, in connection with, or based on any of the following, whenever made, except to the extent caused by Health Net or an Health Net Affiliate:

- (a) Any Indemnity Claim by, on behalf of or relating to any of the Affected Employees relating to Supplier's employee selection, communications, recruitment or hiring process or a breach by Supplier of Schedule E (*Employee Transfer*);
- (b) Any Indemnity Claim by, on behalf of or relating to any of the Transitioned Employees with respect to matters arising out of acts or omissions of Supplier occurring on or after the Transfer Date, excluding Indemnity Claims for which Health Net is required to indemnify under Section 23.3(b);
- (c) Any Indemnity Claim (i) by a Subcontractor or by other Supplier Personnel, including claims by such personnel that Health Net is liable to such personnel for employee benefits or as the employer or joint employer of such personnel, except to the extent, if any, that Health Net is required by this Agreement to indemnify Supplier in respect of the Indemnity Claim, or (ii) based upon the acts or omissions of any Subcontractor in performance of or relating to the Services to the same extent as if Supplier had committed the act or omission;
- (d) Any Indemnity Claim arising out of Supplier's breach of its obligations under Section 14 (*Data Security and Protection*) or Section 21 (*Confidentiality*) or the Business Associate Agreement;
- (e) Any Indemnity Claim arising out of a Security Breach, except to the extent that such Security Breach was caused by Health Net's negligence, willful misconduct or breach of this Agreement;

- (f) Any Indemnity Claim arising out of Supplier's breach of Section 19.7(a) (Non-Infringement);
- (g) Any Indemnity Claim arising out of Supplier's breach of its obligations under Section 27.7 (Compliance with Laws)
- (h) Any Indemnity Claim for death or bodily injury, or the damage, loss or destruction of real or tangible personal property of any third party (including employees of Health Net or Supplier or their respective subcontractors) brought against a Health Net Indemnitee alleged to have been caused by the tortious acts or omissions of Supplier, Supplier Personnel or anyone else for whose acts Supplier is responsible. However, Supplier will have a right of contribution from Health Net with respect to the Indemnity Claim to the extent Health Net's comparative negligence is responsible for causing the alleged injury or damage, loss or destruction;
- (i) Any Indemnity Claim with respect to Supplier's use of any Health Net Provided Resources made available by Health Net to Supplier or Subcontractors pursuant to Section 11 to the extent the loss results from a breach by Supplier or any Subcontractor of, or an act or omission of Supplier which creates liability for Health Net pursuant to (A) a Health Net Provided Resource or an agreement between Health Net and a third party relating to such Health Net Provided Resources, or certain provisions thereof, which have been provided to Supplier in writing, including obligations to comply with requirements regarding numbers and types of licenses under any such agreements; (B) the terms of this Agreement, including Supplier's obligations with respect to Managed Third Party Contracts set forth in this Agreement, or (C) any other reasonable restrictions required by Health Net relating to the Health Net Provided Resources, which restrictions are provided to Supplier in writing;
- (j) Any amounts, including taxes, interest, and penalties, assessed against Health Net which arise as a result of Supplier's failure to comply with and perform its obligations under Section 9.3 (Taxes);
- (k) Supplier's (i) improper or wrongful termination of this Agreement or part thereof, or (ii) except to the extent any cessation of Services is expressly permitted under this Agreement, abandonment of any work under this Agreement;
- (l) Any breach of any of Supplier's representations or warranties set forth in Section 20 (Mutual Representations and Warranties), Section 19.8 (Disabling Code), or the second sentence of Section 19.7 (Viruses);
- (m) Any intentional misconduct or criminal misconduct by Supplier; and
- (n) Any Indemnity Claim arising out of occurrences Supplier is required to insure against under this Agreement, but only to the extent Supplier has failed to procure the insurance that Supplier is obligated to procure under this Agreement.

Any act or omission of a Subcontractor shall be deemed to be an act or omission of Supplier for purposes of determining Supplier's indemnification obligations pursuant to this Section 23.1.

### 23.2 Infringement Indemnity Claims

If any item used by Supplier to provide the Services or provided by Supplier to Health Net or any Deliverable becomes, or in Supplier's reasonable opinion is likely to become, the subject of an infringement or misappropriation Indemnity Claim, Supplier will, in addition to indemnifying Health Net Indemnitees as provided in this Section 23 (Indemnification) and to the other rights Health Net may have under this Agreement, and at law or equity, at its expense: (i) promptly at Supplier's expense secure the right to continue using the item or Deliverable, or (ii) if this cannot be accomplished with Commercially Reasonable Efforts, then at Supplier's expense, replace or modify the item or Deliverable to make it non-infringing or without misappropriation, while not degrading performance, functionality, or quality, increasing Health Net costs, or disrupting Health Net's business operations, or (iii) if neither of the foregoing can be accomplished by Supplier with Commercially Reasonable Efforts, and only in such event, then upon at least one hundred eighty (180) days' prior written notice to Health Net, (A) with respect to non-Deliverable items, Supplier may remove the item from use in performing the Services, in which case Supplier's Charges will be equitably adjusted to reflect such removal, and (B) in the case of Deliverable, Supplier may recall the Deliverables and shall refund to Health Net all Charges and fees paid by Health Net relating to such Deliverable. If removal of the item from use in performing Services or recall of a Deliverable causes the loss or degradation of the Services or any portion of the Services that is material to Health Net or has a material impact on Health Net, such loss, degradation or material impact will constitute a material breach of this Agreement by Supplier in respect of which Health Net may exercise its termination and other rights and remedies under this Agreement. This Section 23.2 (Infringement Indemnity Claims) will not apply to any Indemnity Claim relating to the ABS Platform in respect of which Health Net is obligated to indemnify Supplier under the APA.

### 23.3 Indemnification By Health Net

Health Net will at its expense indemnify, defend and hold harmless Supplier and its Affiliates and their respective officers, directors, employees, agents, representatives, successors and assigns (collectively, "*Supplier Indemnitees*") from and against any and all Losses suffered or incurred by any of them arising from, in connection with or based on any of the following, whenever made, except to the extent caused by Supplier or a Supplier Affiliate: Any Indemnity Claim by, on behalf of or relating to any of the Transitioned Employees with respect to matters arising out of the acts or omissions of Health Net occurring prior to the Transfer Date, excluding Indemnity Claims for which Supplier is required to indemnify under Section 23.1(a);

Any Indemnity Claim by, on behalf of or relating to any Supplier Personnel who is a Transitioned Employee and which arises out of Health Net's employee selection, communications, recruitment or hiring process relating to Health Net's rehiring of such Transitioned Employees pursuant to the terms of this Agreement;

Any Indemnity Claim arising out of Health Net's breach of its obligations under Schedule E (Employee Transfer);

Any Indemnity Claim arising out of (i) Health Net's failure to observe or perform any duties or obligations to be observed or performed prior to the Effective Date by Health Net under any of the Health Net Third Party Service Contracts or licenses for Health Net Licensed Software that are being made available for use by Supplier pursuant to Section 11.2(a);

Any Indemnity Claim arising out of Health Net's breach of its obligations under Section 21 (Confidentiality) or the Business Associate Agreement;

Any Indemnity Claim arising out of Health Net's breach of its obligations under Section 27.7 (Compliance with Laws), including a failure to comply with Law by (1) any of the Transitioned Employees prior to their respective Transfer Date, or (2) any third party under any of the Health Net Third Party Service Contracts that are being made available for use by Supplier pursuant to Section 11.2(a) (provided the Indemnity Claim did not arise due to the failure of Supplier to perform its management obligations under this Agreement with respect to such contracts);

Any Indemnity Claim to the extent such claim alleges that (1) any Health Net Owned Software or Health Net Licensed Software that is being made available for use by Supplier pursuant to Section 11.2(c), or (2) systems or other items made available to Supplier by Health Net under this Agreement, infringes or misappropriates any Intellectual Property Right of any third party, provided however that this Section 23.3(g) does not apply to any such Indemnity Claim (x) that relates to any part of the ABS Platform or Configurations developed by or for Supplier, or (y) in which the alleged infringement or misappropriation is attributable to the following:

Supplier's modification of such Health Net Owned Software, Health Net Licensed Software, or any such system or other item, unless the Indemnity Claim (if true) would be attributable to Health Net's instructions, specifications or requirements; or

Supplier's combination, operation or use of such Health Net Owned Software, Health Net Licensed Software, or any such system or other item with other Software, systems or items not provided by Health Net for use with such Health Net Developed Software, Health Net Provided Resource, or system or other item; or

Supplier's continuing the allegedly infringing activity after (A) being notified thereof, and (B) being provided with modifications that would have avoided the alleged infringement without adversely affecting Supplier's ability to provide the Services and a reasonable time to implement them for use.

Any Indemnity Claim for death or bodily injury, or the damage, loss or destruction of real or tangible personal property of any third party (including employees of Health Net or Supplier or their respective subcontractors) brought against a Supplier Indemnitee alleged to have been caused by the tortious acts or omissions of Health Net, Health Net personnel or anyone else for whose acts Health Net is responsible. However, Health Net will have a right of contribution from Supplier with respect to the Indemnity Claim to the extent Supplier's comparative negligence is responsible for causing the alleged injury or damage, loss or destruction;

Any Indemnity Claim caused by Supplier's proper compliance with any Health Net Policy or other requirement mandated by Health Net; any Indemnity Claim based upon the gross negligence or willful misconduct of Health Net or any Health Net third party contractor (excluding Supplier, Supplier's Affiliates and its subcontractors).

#### **23.4 Indemnification Procedures**

The following procedures will apply to Indemnity Claims for which a Party seeks to be indemnified pursuant to this Agreement:

- (a) Notice.
  - (i) Promptly after an indemnitee receives notice of any Indemnity Claim for which it will seek indemnification pursuant to this Agreement, the indemnitee will notify

the indemnitor of the Indemnity Claim in writing (an “**Indemnity Notice**”). No failure to so notify the indemnitor will abrogate or diminish the indemnitor’s obligations under this Section 23 (Indemnification) if the indemnitor has or receives knowledge of the Indemnity Claim by other means, or if the failure to notify does not materially prejudice its ability to defend the Indemnity Claim, or if the indemnitor does not have the right to defend the Indemnity Claim pursuant to Section 23.4(b)(ii). Within fifteen (15) days after receiving an indemnitee’s Indemnity Notice of an Indemnity Claim, or otherwise obtaining knowledge of the Indemnity Claim, but no later than ten (10) days before the date on which any formal response to the Indemnity Claim is due, the indemnitor will notify the indemnitee in writing (a “Notice of Election”) as to whether:

- (A) the indemnitor acknowledges its obligation to indemnify and hold the indemnitee harmless with respect to such Indemnity Claim, and
  - (B) with respect to any such Indemnity Claim that is not an Identified Health Net Indemnity Claim (as defined below), the indemnitor elects to assume control of the defense and settlement of the Indemnity Claim.
- (ii) Each Notice of Election shall be delivered to the indemnitee at the address set forth in Section 27.5 (Notices), as such address may be modified pursuant to such Section.

(b) Procedure Following Indemnity Notice.

- (i) Procedure for Indemnity Claims that are not Identified Health Net Indemnity Claims.

With respect to any Indemnity Claim that is not an Identified Health Net Indemnity Claim, if the indemnitor timely (*i.e.*, in accordance with Section 23.4(a)) delivers a Notice of Election that both (1) acknowledges indemnitor’s obligation to indemnify and hold the indemnitee harmless with respect to such Indemnity Claim, and (2) includes an express election to assume control of the defense and settlement of such Indemnity Claim, then:

- (A) the indemnitor will be entitled to have sole control over the defense and settlement of such Indemnity Claim; provided that the indemnitee shall have the right to approve:
  - (1) the legal counsel selected by the indemnitor, and
  - (2) in the indemnitee’s sole discretion, any settlement (or portion thereof) that is not a monetary settlement, including settlements involving injunctive relief; and
- (B) the indemnitor will not be required to reimburse the indemnitee for (1) any legal expenses incurred by the indemnitee in defending or settling such Indemnity Claim after the indemnitee’s receipt of such Notice of Election unless reasonable and necessary (e.g., costs incurred prior to receipt of the Indemnitor’s Notice of Election), or (2) any amounts paid or payable by the indemnitee in settlement of such Indemnity Claim after the

indemnitee's receipt of such Notice of Election if the settlement was agreed to without the written consent of the indemnitor.

(ii) Procedure for Identified Health Net Indemnity Claims.

(A) An "**Identified Health Net Indemnity Claim**" means any of the following Indemnity Claims brought against Health Net with respect to which Health Net expressly elects to retain control of the defense and settlement in its written Indemnity Notice to Supplier pursuant to Section 23.4(a) (or as soon as reasonably practicable thereafter so long as such notice is given by Health Net prior to receipt of Supplier's Notice of Election pursuant to Section 23.4(a)), and for which Health Net indicates in such Indemnity Notice that Health Net will seek indemnification from Supplier pursuant to this Agreement:

- (1) any Indemnity Claim brought by a governmental or regulatory entity (a "**Public Indemnity Claim**"); and
- (2) any Indemnity Claim brought by a private party that is based on the same events that also resulted in a Public Indemnity Claim being brought against Health Net, and where adjudication of the private party Indemnity Claim or some part of it may result in collateral estoppel with respect to a material issue of the Public Indemnity Claim.

(B) With respect to any Identified Health Net Indemnity Claim, if Supplier timely (i.e., in accordance with Section 23.4(a)) delivers a Notice of Election acknowledging its obligation to indemnify and hold Health Net harmless with respect to such Identified Health Net Indemnity Claim, then:

- (1) Health Net will be entitled to have sole control over the defense and settlement of such Identified Health Net Indemnity Claim at the cost and expense of Supplier, including payment of any settlement, judgment or award and the reasonable costs of defending or settling such Identified Health Net Indemnity Claim; provided that in the event of a settlement by Health Net, Supplier shall only be obligated to reimburse Health Net for reasonable amounts paid or payable by Health Net in settlement of such Identified Health Net Indemnity Claim (the reasonableness of such amount determined by taking into consideration all of the facts and circumstances relating to such Identified Health Net Indemnity Claim, including reputational risks to Health Net, the potential for the Identified Health Net Indemnity Claim to cause adverse impacts to Health Net's business or operations, and costs incurred by Health Net as a result of or in connection with such Identified Health Net Indemnity Claim); and
- (2) Health Net shall keep Supplier informed regarding the status of and developments in any such Identified Health Net Indemnity Claim (subject to execution where appropriate of a mutually

acceptable joint defense or common interest agreement), shall invite and allow Supplier to be present at relevant discussions, negotiations and proceedings to the greatest extent practicable, and shall, in advance of settling any such Identified Health Net Indemnity Claim, meet and confer with Supplier regarding the terms and conditions of such settlement with respect to which it intends to seek indemnification so as to give Supplier an opportunity to provide its input regarding such terms and conditions; and

- (3) in the event that Health Net rejects any settlement offer with respect to an Identified Health Net Indemnity Claim (over Supplier's written objection, assuming Health Net has complied with its obligations under Section 23.4(b)(ii)(B)(2) above) and later settles such Identified Health Net Indemnity Claim for an amount exceeding any rejected settlement offer, or has a judgment entered against it with respect to such Identified Health Net Indemnity Claim for an amount exceeding any rejected settlement offer, then Supplier will be responsible only for reimbursing Health Net for the lesser of (a) the lowest rejected settlement offer with respect to such Identified Health Net Indemnity Claim; or (b) the reasonable amounts paid or payable by Health Net in settlement of such Identified Health Net Indemnity Claim, considering the factors described in Section 23.4(b)(ii)(B)(1) above; and
  - (4) subject to the limitations described in Sections 23.4(b)(ii)(B)(1) and 23.4(b)(ii)(B)(3) above, Supplier will promptly reimburse Health Net upon demand for all Losses suffered or incurred by Health Net as a result of or in connection with such Identified Health Net Indemnity Claim; and
  - (5) in the event of a dispute between the Parties as to the reasonableness of the amount of a settlement that Health Net approves or the reasonableness of costs, including but not limited to attorneys' fees, of defending the Identified Health Net Indemnity Claim, (i) Supplier shall reimburse Health Net for that portion of the settlement or defense costs that it believes in good faith to be a reasonable amount, and (ii) the Parties agree to use the arbitration process described in Section 23.4(e) below to resolve any dispute relating to the reasonableness of the difference between the actual amount of the settlement that Health Net approves or the defense costs that Health Net incurs and the amount that Supplier reimbursed Health Net pursuant to item (i).
- (c) Procedure Where No Proper Notice of Election Is Delivered (Applicable to all Indemnity Claims including, for clarity, Identified Health Net Indemnity Claims).

If the indemnitor does not deliver a timely (*i.e.*, in accordance with Section 23.4(a)) Notice of Election that both (i) acknowledges its obligation to indemnify and hold the indemnitee harmless with respect to the Indemnity Claim, and (ii) in the case of any Indemnity Claim

that is not an Identified Health Net Indemnity Claim, includes an express election by the indemnitor to assume control of the defense and settlement of the Indemnity Claim, then the indemnitee may defend and/or settle the Indemnity Claim in such manner as it may deem appropriate at the cost and expense of the indemnitor, including payment of any settlement, judgment or award and the costs of defending or settling the Indemnity Claim. The indemnitor will promptly reimburse the indemnitee upon demand for all Losses suffered or incurred by the indemnitee as a result of or in connection with the Indemnity Claim.

- (d) Cooperation regarding Indemnity Claims. The indemnitor and the indemnitee shall provide reasonable cooperation with one another in connection with the defense and resolution of any Indemnity Claim, provided that any costs incurred by the indemnitee in connection with such cooperation shall be borne by the indemnitor, and shall be promptly reimbursed by the indemnitor upon demand from the indemnitee.
- (e) Arbitration of Disputed Settlement Amounts.
- (i) A dispute between the Parties as described in Section 23.4(b)(ii)(B)(5) above shall be finally settled by mandatory and binding arbitration administered by the American Arbitration Association (“AAA”) in accordance with its then-effective Commercial Arbitration Rules (the “Rules”). One (1) arbitrator shall be appointed in accordance with the Rules. Either Party may initiate arbitration by submitting a written request for arbitration to the AAA and the other Party, setting forth in reasonable detail the subject of the dispute and the relief requested.
- (ii) The arbitration shall be conducted in accordance with the Rules, provided that to the extent this Section 23.4(e) modifies, supplements or is inconsistent with the Rules, this Section 23.4(e) will govern. The arbitrator shall have no power or authority to amend or disregard any provision of this Section 23.4(e) or any other provision of this Agreement. The arbitration hearing shall be commenced promptly and conducted expeditiously, with each Party being allocated one-half of the time for the presentation of its case.
- (iii) Unless otherwise agreed by the Parties, arbitration hearings hereunder shall be held in Los Angeles, California. The language of the arbitration shall be English. Unless otherwise agreed by the Parties, an arbitration hearing shall be conducted on consecutive days. The Parties will participate in the arbitration in good faith, and will share equally in the administrative costs of the arbitration; provided however, that each Party will pay its own attorneys’ fees (subject to the next sentence). The arbitrator may, in his or her discretion, award the prevailing Party its attorneys’ fees and out-of-pocket expenses, including its share of the arbitration fees.
- (iv) Recognizing the express desire of the Parties for an expeditious means of dispute resolution, (A) each Party will, upon the written request of the other Party, promptly provide the other with copies of documents relevant to the issues raised by the dispute, and (B) there will be no depositions.
- (v) The award shall be made within thirty (30) days of the filing of the notice of intention to arbitrate (demand), and the arbitrator shall agree to comply with this

schedule before accepting appointment. However, this time limit may be extended by agreement of the Parties or by the arbitrator if necessary.

- (vi) The arbitration shall be conducted as follows:
  - (A) Each Party shall submit to the arbitrator and exchange with each other not less than seven (7) days prior to the scheduled hearing date their last, best offers, along with a brief and documentation in support of their offer. The arbitrator shall have the authority to limit the length of such submissions.
  - (B) The arbitration hearing shall not exceed eight (8) hours and may be less if the arbitrator decides that less time is required.
  - (C) The arbitrator shall be limited to awarding only one or the other of the two figures submitted. The arbitrator shall not have the option of deciding upon a resolution that reflects a compromise between (or is outside of) the Parties' respective proposed resolutions. For example, if the amount that Health Net demands from Supplier (above any amounts already reimbursed by Supplier pursuant to Section 23.4(b)(ii)(B)(5)(i) above) as its last, best offer is \$250,000, and Supplier has proposed to reimburse Health Net an additional \$150,000 as its last, best offer, the arbitrator shall determine which of the two proposals (i.e., \$250,000 or \$150,000) is more appropriate and may not select an amount somewhere between (or outside of) the two proposals.
- (vii) The arbitrator's decision shall be final and binding on the Parties, and judgment on the award rendered by the arbitrator may be entered in any court having jurisdiction thereof.
- (viii) The arbitrator is instructed that time is of the essence in the arbitration proceeding.

## 24. LIABILITY

### 24.1 General Intent

Subject to the specific provisions of this Section 23.1 (Liability), it is the intent of the Parties that if a Party fails to perform its obligations in the manner required by this Agreement, that Party will be liable to the other Party for any damages suffered or incurred by the other Party as a result.

### 24.2 Limitations of Liability

- (a) Consequential Damage Exclusion. Except as otherwise expressly provided below in this Section 24, in no event, whether in contract or in tort (including breach of warranty, negligence and strict liability in tort or otherwise), will a Party be liable to the other Party under this Agreement for (1) indirect, incidental, consequential, exemplary, punitive or special damages of any kind or nature whatsoever, or (2) lost revenues, profits, savings or business, even if such Party has been advised in advance of the possibility of such damages or such damages could have been reasonably foreseen by such Party.
- (b) General Liability Cap. Except as otherwise expressly provided below in this Section 24, each Party's total liability to the other under this Agreement, whether in contract or in tort

(including breach of warranty, negligence and strict liability in tort) will be limited, in the aggregate, to an amount equal to the greater of:

- (i) \*\*\*; and
- (ii) the total charges paid or payable by Health Net to Supplier pursuant to this Agreement for proper performance of the Services for the twelve (12) months prior to the month in which the most recent event giving rise to liability occurred, provided that if the event giving rise to liability occurs during the first twelve (12) months after the BPaaS Services Commencement Date, the liability cap under this clause (ii) will be an amount equal to twelve (12) times the result obtained by dividing the total charges paid or payable under this Agreement from the BPaaS Services Commencement Date through the date on which such event occurred, by the number of months from the BPaaS Services Commencement Date through such date\*\*\*.

Service Level Credits and Deliverable Credits do not count against and do not reduce the amounts available under the foregoing limitations. The limitations specified in this Section will survive and apply even if any limited remedy specified in this Agreement is found to have failed of its essential purpose. For purposes of this Section, fees shall be deemed payable when accrued to the benefit of and legally collectable by Supplier.

- (c) Items to which the Liability Caps and Consequential Damages Exclusion do not apply. Sections 24.2(a) and 24.2(b) will not apply to any of the following:
  - (i) damages arising out of the intentional or reckless misconduct or gross negligence of a Party;
  - (ii) damages arising out of (A) the improper or wrongful termination of this Agreement by Supplier, or (B) abandonment of the Services by Supplier (except to the extent any such cessation of Services is expressly permitted under this Agreement), or (C) Supplier's refusal or failure to provide Disengagement Assistance as required by this Agreement;
  - (iii) damages arising out of a Party's breach of its obligations in Article 21 (Confidentiality), except with respect to Protected Health Information and Personally Identifiable Information (which are governed by Section 24.2(d)(iii) below);
  - (iv) damages arising out of a Party's breach of its obligations to comply with applicable Laws as set forth in Section 27.7;
  - (v) Claims and Losses that are the subject of indemnification pursuant to Sections 23.1 (Indemnification by Supplier) and 23.3 (Indemnification by Health Net), but not those indemnities described in Section 24.2(d)(iv).
- (d) Liability Cap relating to PHI, PII and certain other items. Notwithstanding Sections 24.2(a), 24.2(b), and 24.2(e), each Party's total liability to the other, including under this Agreement, whether in contract or in tort (including breach of warranty, negligence and strict liability in tort) for all claims, liabilities and damages relating to or arising from the following, will be limited in the aggregate, to \*\*\*:

- (i) A Party's breach of the Business Associate Agreement, including breaches related to Protected Health Information;
- (ii) A Party's breach of its obligations in Article 14 (Data Security And Protection) or damages attributable to Supplier's breach of its obligations with respect to Health Net Data;
- (iii) a Party's breach of its obligations in Article 21 (Confidentiality) relating to Protected Health Information or Personally Identifiable Information;
- (iv) Claims and Losses that are the subject of indemnification pursuant to Section 23.1(d) and 23.1(e) (*Indemnification by Supplier*) and 23.3(e) (*Indemnification by Health Net*);
- (v) a Party's misappropriation or infringement of the other Party's Intellectual Property Rights; and
- (vi) any other damages relating to Health Net Data or Personally Identifiable Information, or a Security Breach.

For clarity, the exclusions of liability set forth in Section 24.2(a) will not apply to any of the damages described in this Section 24.2(d).

- (e) Damages Subcap relating to TPUSA. Notwithstanding Section 24.2(b), Supplier's total liability to Health Net arising out of the acts or omissions of TPUSA in its role as an Approved Subcontractor providing Contact Center Services under this Agreement, whether in contract or in tort (including breach of warranty, negligence and strict liability in tort) will be limited, in the aggregate, to the greater of:
  - (i) \*\*\* of the total charges paid or payable by Health Net to Supplier pursuant to this Agreement for proper performance of the Services for the twelve (12) months prior to the month in which the most recent event based on TPUSA's acts or omissions giving rise to liability occurred, provided that if the event giving rise to liability occurs during the first twelve (12) months after the BPaaS Services Commencement Date, the liability cap amount for this clause (i) will be an amount equal to (A) \*\*\* of (B) twelve (12) times the result obtained by dividing (1) the total charges paid or payable under this Agreement from the BPaaS Services Commencement Date through the date on which such event occurred, by (2) the number of months from the BPaaS Services Commencement Date through such date; and
  - (ii) \*\*\* with respect to the following items: (a) damages arising out of the intentional or reckless misconduct or gross negligence of TPUSA, (b) damages arising out of TPUSA's improper or wrongful termination of Supplier's subcontract agreement with TPUSA for the Contact Center Services, wrongful abandonment of the Services by TPUSA or TPUSA's refusal or failure to provide disengagement assistance as required by Supplier's subcontract agreement with TPUSA, (c) TPUSA's obligations under Sections 6.5 (Compliance with Law), Section 7 (Intellectual Property and Confidentiality) or Section 9 (Indemnity) of Supplier's subcontract agreement with TPUSA for the Contact Center Services.

Notwithstanding the foregoing, the cap set forth in this Section 24.2(e) shall not apply to the extent that the TPUSA-caused event giving rise to liability is the result of Supplier's failure to properly manage (i) TPUSA or (ii) the Services performed by TPUSA. For clarity, the exclusions set forth in Section 24.2(a) will not apply to any of the damages governed by this Section 24.2(e) to the extent that they are also covered under Sections 24.2(c), 24.2(d) or 24.2(f).

- (f) Stipulated Direct Damages. Without limiting (1) each Party's responsibility for direct damages under this Agreement, and (2) each Party's right to claim other direct damages, the following items shall be considered direct damages under this Agreement and are not prohibited by Section 24.2(a), to the extent they are reasonable:
- (i) Costs incurred by Health Net to correct or have corrected any errors or other deficiencies in the Services rendered by Supplier;
  - (ii) Any portion of overpayments paid by Health Net to members due to errors of Supplier that remain unrecovered by Health Net \*\*\*;
  - (iii) Amounts paid by Health Net for interest arising out of Supplier's performance of the Services relating to examiner error \*\*\*;
  - (iv) Amounts paid by Health Net for fines arising out of Supplier's performance of the Services during each calendar year \*\*\*
  - (v) Performance Guarantee Group Payment Amounts owed by Supplier to Health Net pursuant to Schedule B (*Service Levels*);
  - (vi) Costs of recreating, restoring or reloading any of Health Net's information lost or damaged as a result of a failure by Supplier to perform the Services at all or in accordance with this Agreement. Such recreation, restoration and reloading costs shall include all activities and efforts that an IT group of a health insurance company may reasonably undertake to recreate, restore or reload such lost or damaged information, using efforts that are proportionate to the importance to Health Net of the information to be recreated, restored or reloaded and the volume of such lost or damaged information;
  - (vii) Costs of implementing a workaround in respect to a failure to perform the Services at all or in accordance with this Agreement;
  - (viii) Costs and expenses incurred by Health Net to acquire and have performed substitute services conforming to this Agreement in place of any Services Supplier fails to provide at all or in accordance with this Agreement;
  - (ix) Straight time, overtime, or related expenses incurred by Health Net or its Affiliates, including wages and salaries of additional personnel, travel, expenses, telecommunication and similar charges, arising out of the failure of Supplier to perform at all or in compliance with this Agreement;
  - (x) Amounts required to be paid by Health Net under any Law or by any court or governmental or regulatory authority, or incurred by Health Net to create and implement any corrective actions plan, and to satisfy an order or directive of a

court or governmental or regulatory authority arising out of Supplier's acts or omissions, and costs arising from settlements with such authorities, provided that interest and fines shall be governed by Sections 24.2(f)(iii) and (iv) above;

- (xi) Identity-Related Costs incurred by Health Net, except to the extent that Supplier is able to demonstrate that a Security Breach was caused by Health Net's negligence, willful misconduct or breach of this Agreement, and
- (xii) Damages arising out of a breach by Supplier of its obligations under Section 3.6 Schedule E (*Transitioned Employees*) with respect to the retention of Personnel Groups of Transitioned Personnel,

provided, however, that nothing in this Section 24.2(f) shall limit Supplier's obligations or liability under Section 23.1 (*Indemnification by Supplier*) above.

Each Party shall pay to the other Party upon request of such other Party any amount for which it is responsible under Sections 24.2(f)(ii), 24.2(f)(iii), 24.2(f)(iv), 24.2(f)(v) and 24.2(f)(xi).

- (g) For clarity, the amounts spent by an indemnitor in defense of a Claim for which it is responsible under this Agreement shall not be counted for purposes of computing the amount of total damages that have been incurred relative to the liability cap set forth in Section 24.2.
- (h) Each Party has a duty to mitigate the damages suffered by it for which the other Party is or may be liable.

### 24.3 Force Majeure

- (a) No Party will be liable for any default or delay in the performance of its obligations under this Agreement (i) if and to the extent such default or delay is caused, directly or indirectly, by fire, flood, pestilence, earthquake, elements of nature or acts of God, riots, or civil disorders, (ii) provided the non-performing Party is without fault in causing such default or delay, and such default or delay could not have been prevented by reasonable precautions and could not reasonably be circumvented by the non-performing Party through the use of alternate sources, workaround plans or other means (including with respect to Supplier by Supplier meeting its obligations for performing disaster recovery and business continuity services as described in this Agreement) (each such event a "***Force Majeure Event***").
- (b) In such event the non-performing Party will be excused from further performance or observance of the obligations so affected for as long as such circumstances prevail and such Party continues to use Commercially Reasonable Efforts to recommence performance or observance without delay. Any Party so delayed in its performance will immediately notify the Party to whom performance is due by telephone (to be confirmed in writing within twenty-four (24) hours of the inception of such delay) and describe at a reasonable level of detail the circumstances causing such delay. To the extent the provision of the Services or any part thereof is prevented or materially affected by a Force Majeure Event, Health Net's obligation to pay Charges hereunder shall accordingly be reduced by an equitable amount (which in the case of total suspension of the Services would be an amount equal to the total charges hereunder for the period of suspension).

- (c) If any event under Section 24.3(a) substantially prevents, hinders or delays performance of the Services, then Supplier shall use Commercially Reasonable Efforts to identify another Supplier location from which it might provide the Services without interference from such event, and if Health Net requests, Supplier shall assist Health Net in identifying an alternate source that may be able to provide the Services to Health Net during the time of such Force Majeure Event. If any event under Section 24.3(a) substantially prevents, hinders or delays performance of the Services necessary for the performance of functions reasonably identified by Health Net as critical for more than five (5) consecutive business days, then at Health Net's option: (i) Health Net may procure such Services from an alternate source, and in such event Supplier will reimburse Health Net for one-half of the difference between (A) the amount Health Net is obligated to pay the alternate source for such services, and (B) the amount that Health Net would have paid Supplier for such Services under this Agreement, for a period not to exceed one hundred eighty (180) days; (ii) Health Net may terminate any portion of this Agreement (including a SOW or a portion of a SOW) so affected without charge to Health Net or liability to Supplier and the Charges payable under this Agreement will be equitably adjusted to reflect those terminated Services; or (iii) Health Net may terminate this Agreement, without charge to Health Net or liability to Supplier, as of a date specified by Health Net in a written notice of termination to Supplier. Supplier will not have the right to any additional payments from Health Net for costs or expenses incurred by Supplier as a result of any Force Majeure Event.
- (d) A Force Majeure Event will not relieve Supplier of its obligations to implement successfully all of the Services relating to disaster recovery services that are included in this Agreement within the time period described in this Agreement.

## **25. RULES OF CONSTRUCTION**

### **25.1 Entire Agreement**

This Agreement – consisting of the signature page, these Terms and Conditions and the attached Schedules and all SOWs and their attached Exhibits – constitutes the entire agreement between the Parties with respect to its subject matter and merges, integrates and supersedes all prior and contemporaneous agreements and understandings between the Parties (including as described in Section 3.1(c), the Original BPO Agreement), whether written or oral, concerning its subject matter. For clarity, at such time as the Original BPO Agreement is terminated as provided in Section 3.1(c), Health Net will not owe any penalties, termination fees, wind-down charges, or similar fees or charges in connection with such termination.

### **25.2 Contracting Parties; No Third Party Beneficiaries**

This Agreement is entered into solely between, and may be enforced only by, Health Net and Supplier. This Agreement does not create any legally enforceable rights in third parties, including suppliers, subcontractors and customers of a Party, except as provided in this paragraph and Section 23 (Indemnification).

### **25.3 Contract Amendments and Modifications**

Any terms and conditions varying from this Agreement on any order or written notification from either Party will not be effective or binding on the other Party. This Agreement may be amended or modified solely in a writing signed by an authorized representative of each Party.

**25.4 Governing Law**

This Agreement and performance under it shall be governed by and construed in accordance with the laws of the state of California without regard to its choice of law principles.

**25.5 Relationship of the Parties**

Supplier, in furnishing the Services, is acting as an independent contractor. Supplier has the sole right and obligation to supervise, manage, contract, direct, procure, perform or cause to be performed, all work to be performed by Supplier under this Agreement. Supplier is not an agent or partner of Health Net and has no authority to represent or bind Health Net as to any matters, except as expressly authorized in this Agreement. This Agreement establishes a nonexclusive relationship between the Parties.

**25.6 Consents and Approvals**

Where approval, acceptance, consent or similar action by either Party is required under this Agreement, such action will not be unreasonably delayed, conditioned or withheld unless this Agreement expressly provides that it is in the discretion of the Party. No approval or consent given by a Party under this Agreement will relieve the other Party from responsibility for complying with the requirements of this Agreement, nor will it be construed as a waiver of any rights under this Agreement (except to the extent, if any, expressly provided in such approval or consent). Each Party will, at the request of the other Party, perform those actions, including executing additional documents and instruments, reasonably necessary to give full effect to this Agreement.

**25.7 Waiver**

No failure or delay by a Party in exercising any right, power or remedy will operate as a waiver of that right, power or remedy, and no waiver will be effective unless it is in writing and signed by an authorized representative of the waiving Party. If a Party waives any right, power or remedy, the waiver will not waive any successive or other right, power or remedy that Party may have.

**25.8 Remedies Cumulative**

Except as otherwise expressly provided in this Agreement, all remedies provided in this Agreement are cumulative and in addition to and not in lieu of any other remedies available to a Party under this Agreement, at law, or in equity.

**25.9 References**

- (a) The section headings and the table of contents used in this Agreement are for convenience of reference only and will not enter into the interpretation of this Agreement.
- (b) Unless otherwise indicated, section references are to sections of the document in which the reference is contained. For example, section references in these Terms and Conditions are to sections of the Terms and Conditions and, likewise, section references in a Schedule to this Agreement are to sections of that Schedule.
- (c) References to numbered (or lettered) sections of this Agreement also refer to and include all subsections of the referenced section.

- (d) Unless otherwise indicated, references to Schedules to this Agreement also refer to and include all sub-Schedules to the referenced Schedule.

### 25.10 Rules of Interpretation

- (a) Unless the context requires otherwise, (i) “*including*” (and any of its derivative forms) means including but not limited to, (ii) “*may*” means has the right, but not the obligation to do something and “*may not*” means does not have the right to do something, (iii) “*will*” and “*shall*” are expressions of command, not merely expressions of future intent or expectation, (iv) “*written*” or “*in writing*” is used for emphasis in certain circumstances, but that will not derogate from the general application of the notice requirements set forth in Section 27.5 (Notices) in those and other circumstances, (v) use of the singular imports the plural and vice versa, and (vi) use of a specific gender imports the other gender(s).
- (b) References in this Agreement to “*hours*”, “*days*”, or “*years*” that do not specifically refer to Business Hours, Business Days or Contract Years are references to clock hours, calendar days, or calendar years, respectively, unless otherwise provided.

### 25.11 Order of Precedence

- (a) If there is any conflict between this Agreement and any document incorporated by reference into this Agreement, the Parties shall attempt to read any such conflicting provisions consistently, however, in the event such a consistent reading cannot be accomplished, the order of precedence will be as follows: (i) the Terms and Conditions and any amendments thereto, (ii) the Schedules, (iii) the Initial SOWs and the Transition Manual (it being the intent of the Parties that such documents shall be given equal priority), (iv) other attachments to this Agreement, and (v) other documents incorporated by reference.
- (b) If there is any conflict between any Future SOW and the other terms of this Agreement, the Parties shall attempt to read any such conflicting provisions consistently, however, in the event such a consistent reading cannot be accomplished, such Future SOW will take precedence over such other terms of this Agreement with respect to such Future SOW only if and to the extent the requirements of Section 3.7(a)(ii)(A) are satisfied. If such requirements are not satisfied, then the other terms of this Agreement shall govern.

### 25.12 Severability

If any provision of this Agreement conflicts with the Law under which this Agreement is to be construed or if any provision of this Agreement is held invalid, illegal, or otherwise unenforceable by a competent authority, such provision will, if possible, be deemed to be restated to reflect as nearly as possible the original intentions of the Parties in accordance with applicable Law. In any event, the remainder of this Agreement will remain in full force and effect.

### 25.13 Counterparts

This Agreement may be executed in several counterparts and by facsimile or PDF signature, all of which taken together constitute a single agreement between the Parties. Each signed counterpart, including a signed counterpart reproduced by reliable means (including facsimile and PDF), will be considered as legally effective as an original signature.

#### 25.14 Reading Down

If a provision of this Agreement is reasonably capable of an interpretation which would make that provision valid, lawful and enforceable and an alternative interpretation that would make it unenforceable, illegal, invalid or void then, so far as is possible, that provision will be interpreted or construed to be limited and read down to the extent necessary to make it valid and enforceable.

### 26. DISPUTE RESOLUTION

Any dispute between the Parties arising out of or relating to this Agreement, including with respect to the interpretation of any provision of this Agreement or with respect to performance by Supplier or Health Net, will be resolved as provided in this Section 26 (Dispute Resolution).

#### 26.1 Informal Dispute Resolution

- (a) Subject to Section 26.1(b), the Parties initially will attempt to resolve any dispute arising out of or relating to this Agreement informally in accordance with the following:
  - (i) Within ten (10) days after a Party receives notice of a dispute from the other Party (“*Dispute Date*”), it will designate a senior representative (*i.e.*, a person whose rank within the company is superior to, in the case of Supplier, the Client Partner, and in the case of Health Net, the Health Net Program Manager) who does not devote substantially all of his time to performance under this Agreement, who will offer to meet with the designated senior representative of the other Party for the purpose of attempting to resolve the dispute amicably.
  - (ii) The appointed representatives will meet promptly to discuss the dispute and attempt to resolve it without the necessity of any formal proceeding. They will meet as often as the Parties deem necessary in order that each Party may be fully advised of the other’s position. During the course of discussion, all reasonable requests made by one Party to the other for non-privileged information reasonably related to the matters in dispute will be honored promptly.
  - (iii) The specific format for the discussions will be left to the discretion of the appointed representatives.
- (b) Formal dispute resolution may be commenced by a Party upon the first to occur of any of the following:
  - (i) the appointed representatives conclude in good faith that amicable resolution of the dispute through continued negotiation does not appear likely;
  - (ii) thirty-five (35) days have passed from the Dispute Date (this period will be deemed to run notwithstanding any claim that the process described in this Section 26.1 (Informal Dispute Resolution) was not followed or completed); or
  - (iii) commencement of formal dispute resolution is deemed appropriate by a Party to avoid the expiration of an applicable limitations period or to preserve a superior position with respect to other creditors, or a Party makes a good faith determination, including as provided in Section 26.4 (Equitable Remedies), that a

breach of this Agreement by the other Party is such that a temporary restraining order or other injunctive or conservatory relief is necessary.

- (c) All timeframes specified in this Section 26.1 are not-to-exceed durations. In the event of disputes related to compliance with Laws, Health Net may request (and Supplier shall use all best efforts to comply with) shorter timeframes as needed in order for Health Net to respond to any Regulator or regulatory deadlines.

## 26.2 Litigation

For all litigation which may arise with respect this Agreement, the Parties irrevocably and unconditionally submit (a) to the exclusive jurisdiction and venue (and waive any claim of *forum non conveniens* and any objections as to laying of venue) of the United States District Court for the Central District of California, or (b) if such court does not have subject matter jurisdiction, to the Superior Court of the State of California, Los Angeles County in connection with any action, suit or proceeding arising out of or relating to this Agreement. The Parties further consent to the jurisdiction of any state court located within a district that encompasses assets of a Party against which a judgment has been rendered for the enforcement of such judgment or award against the assets of such Party.

## 26.3 Continued Performance

Each Party agrees (a) to continue performing its obligations under this Agreement while a dispute is being resolved except (and then only) to the extent performance is prevented by the other Party or the issue in dispute precludes performance, and (b) not to take any action that intentionally obstructs, delays, or reduces in any way the performance of such obligations. For the avoidance of doubt, a good faith dispute regarding invoiced charges and Health Net's withholding payment of disputed charges as permitted under this Agreement will not be considered to prevent Supplier from performing the Services or preclude performance by Supplier, nor will this Section 26.3 be interpreted to limit either Party's right to terminate this Agreement (in whole or in part) or any SOW (in whole or in part) as provided in Section 16 (Termination).

## 26.4 Equitable Remedies

Each Party acknowledges that a breach of any of its obligations under the Sections of this Agreement listed below, or its infringement or misappropriation of any Intellectual Property Rights of the other Party, may irreparably harm the other Party in a way that could not be adequately compensated by money damages. In such a circumstance, the aggrieved Party may (in addition to all other remedies and rights) proceed directly to court notwithstanding the other provisions of this Section 26 (Dispute Resolution). If a court of competent jurisdiction should find that a Party has breached (or attempted or threatened to breach) any such obligations, such Party agrees that without posting bond or proving damages and without any additional findings of irreparable injury or other conditions to injunctive relief, it will not oppose the entry of an appropriate order compelling its performance of such obligations and restraining it from any further breaches (or attempted or threatened breaches) of such obligations. The following Sections are subject to this paragraph:

- (a) Section 14 (Data Security and Protection);
- (b) Section 15 (Intellectual Property Rights);

- (c) Section 16 (Termination);
- (d) Section 21 (Confidentiality);
- (e) Section 23 (Indemnification);
- (f) Section 27.7; and
- (g) Schedule E (*Transitioned Employees*).

## 26.5 Waiver of Jury Trial

THE PARTIES HEREBY UNCONDITIONALLY WAIVE THEIR RESPECTIVE RIGHTS TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION ARISING DIRECTLY OR INDIRECTLY OUT OF, RELATED TO, OR IN ANY WAY CONNECTED WITH, THE PERFORMANCE OR BREACH OF THIS AGREEMENT, OR THE RELATIONSHIP THAT IS BEING ESTABLISHED BETWEEN THEM. THE SCOPE OF THIS WAIVER IS INTENDED TO BE ALL ENCOMPASSING OF ANY AND ALL DISPUTES THAT MAY BE FILED IN ANY COURT OR OTHER TRIBUNAL (INCLUDING, WITHOUT LIMITATION, CONTRACT CLAIMS, TORT CLAIMS, BREACH OF DUTY CLAIMS, AND ALL OTHER COMMON LAW AND STATUTORY CLAIMS). THIS WAIVER IS IRREVOCABLE, MEANING THAT IT MAY NOT BE MODIFIED EITHER ORALLY OR IN WRITING, AND THE WAIVER SHALL APPLY TO ANY SUBSEQUENT AMENDMENTS, RENEWALS, SUPPLEMENTS OR MODIFICATIONS TO THIS AGREEMENT, AND RELATED DOCUMENTS, OR TO ANY OTHER DOCUMENTS OR AGREEMENTS RELATING TO THIS TRANSACTION OR ANY RELATED TRANSACTION. IN THE EVENT OF LITIGATION, THIS AGREEMENT MAY BE FILED AS A CONSENT TO A TRIAL BY THE COURT.

## 26.6 Disclaimer of Uniform Computer Information Transactions Act

TO THE MAXIMUM EXTENT PERMITTED UNDER APPLICABLE LAW, THE PARTIES DISCLAIM AND NONE OF THIS AGREEMENT SHALL BE SUBJECT TO THE UNIFORM COMPUTER INFORMATION TRANSACTIONS ACT (“*UCITA*”) (PREPARED BY THE NATIONAL CONFERENCE OF COMMISSIONERS ON UNIFORM STATE LAWS) AS CURRENTLY ENACTED OR AS MAY BE ENACTED, CODIFIED OR AMENDED FROM TIME TO TIME BY ANY JURISDICTION. TO THE EXTANT THAT ANY ASPECT OF THIS AGREEMENT OR ANY LICENSE GRANTED UNDER THIS AGREEMENT IS UNCLEAR OR DISPUTED BY THE PARTIES AND UCITA, IF APPLIED, WOULD CLARIFY SUCH LICENSE OR RESOLVE SUCH DISPUTE, THE PARTIES AGREE TO CLARIFY SUCH LICENSE OR RESOLVE SUCH DISPUTE INDEPENDENTLY OF UCITA BY APPLYING THE INTENT OF THE PARTIES AT THE TIME THAT THEY ENTERED THIS AGREEMENT.

## 27. GENERAL

### 27.1 Binding Nature and Assignment

This Agreement is binding on the Parties and their respective successors and permitted assigns. Supplier acknowledges that the Services are personal in nature and that, as a result, Supplier may not assign this Agreement or delegate (except to Subcontractors as permitted in Section 7.7 its rights or obligations under this Agreement, whether by operation of law or otherwise, without the

prior written consent of Health Net (which may be conditioned upon Health Net (or the applicable Health Net Affiliate or Health Net lines of business) providing prior notification to, and receiving approval from, applicable Regulator(s) and customers). Health Net may not assign this Agreement or delegate its rights or obligations under this Agreement without the prior written consent of Supplier except to a Health Net Affiliate or to the successor in a merger or reorganization of Health Net or an entity that acquires Control of Health Net or acquires all or substantially all of Health Net's business or assets. Any attempted assignment in violation of this Section 27.1 will be void and will constitute a material breach of this Agreement by the Party attempting the assignment. A Party assigning this Agreement or delegating its rights or obligations under this Agreement must provide prompt notice of the assignment or delegation to the other Party after its effective date, subject to the prior regulatory approval set out above.

#### **27.2 Ethics Hotline**

Supplier agrees to report any violation of Law (including HIPAA and the FCPA) committed by Supplier, its employees or subcontractors in the performance of the Services to Health Net's Ethics Hotline at (888) 866-1366 or Health Net's Ethics Officer at Health Net's address for Notices.

#### **27.3 Nondiscrimination**

- (a) Neither Party shall discriminate against any Beneficiary in the provision of Services hereunder, whether on the basis of the Beneficiary's coverage under a Benefit Program, age, sex, marital status, sexual orientation, race, color, religion, ancestry, national origin, disability, handicap, health status, source of payment, utilization of medical or mental health services or supplies, or other unlawful basis including, without limitation, the filing by such Beneficiary of any complaint, grievance or legal action against Supplier, Health Net, or a Health Net Affiliate. Supplier agrees to make reasonable accommodations for Beneficiaries with disabilities or handicaps, including but not limited to, providing auxiliary aids and services to Beneficiaries at Supplier's expense, as required by law.
- (b) This Agreement is subject to the affirmative action and nondiscrimination requirements of Executive Order 11246 as amended, Section 503 of the Rehabilitation Act of 1973, and Section 402 of the Vietnam Era Veterans' Readjustment Assistance Act of 1974, and with all rules, regulations, pertaining thereto, which are incorporated herein by specific reference.
- (c) Supplier and its subcontractors shall abide by the requirements of 41 CFR 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals on the basis of protected veteran status or disability, and require affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified protected veterans and individuals with disabilities.

#### **27.4 Beneficiary Hold Harmless**

Supplier will (a) not hold any Beneficiary liable for fees that are the responsibility of Health Net or a Health Net Affiliate; and (b) ensure that Supplier's subcontractors will not hold any Beneficiary liable for fees that are the responsibility of Health Net or a Health Net Affiliate.

## 27.5 Notices

- (a) All notices, requests, demands and determinations under this Agreement (other than routine operational communications), shall be in writing and shall be deemed duly given (i) when delivered by hand, (ii) on the designated day of delivery after being timely given to an express overnight courier with a reliable system for tracking delivery, (iii) six (6) days after the day of mailing, when mailed by United States mail, registered or certified mail, return receipt requested and postage prepaid, and addressed as follows:
- (i) In the case of Health Net:
- Health Net, Inc.  
21650 Oxnard Street  
Woodland Hills, CA 91367  
Attn: Vendor Management Officer
- With a copy to:
- Health Net, Inc.  
21650 Oxnard Street  
Woodland Hills, CA 91367  
Attn: General Counsel
- (ii) In the case of Supplier:
- Cognizant Technology Solutions US Corporation  
500 Frank W. Burr Blvd.  
Teaneck, New Jersey 07666  
Attn: General Counsel
- (b) A Party may from time to time change its address or designee for notification purposes by giving the other prior written notice of the new address or designee and the date upon which it will become effective.

## 27.6 Non-solicitation of Employees

- (a) Except as provided in Schedule E (*Employee Transfer*), Supplier will not solicit or seek to procure the employment of any Health Net personnel, either directly or indirectly (other than by general advertising not specifically targeted at Health Net's employees) until after the date on which any such Health Net personnel is terminated by Health Net, or three (3) months after any such Health Net Personnel voluntarily ceases to be employed by Health Net, without the prior written consent of Health Net (which consent is deemed given as of the Effective Date for the Affected Employees).
- (b) Except as provided in Schedule L (*Disengagement Assistance*), Health Net will not solicit or seek to procure the employment of any Supplier Personnel, either directly or indirectly (other than by general advertising not specifically targeted at Supplier's employees) until after the date on which any such Supplier Personnel is terminated by Supplier, or three (3) months after any such Supplier personnel voluntarily ceases to be employed by Supplier, without the prior written consent of Supplier.

**27.7 Compliance with Laws**

- (a) **Supplier's Obligations.**
- (i) Supplier agrees at its cost and expense (x) to comply with its obligations under the Regulatory Compliance Addendum attached hereto as Schedule K (*Regulatory Compliance Addendum*), and (y) obtain all necessary approvals, licenses, and permits required by Law, and to comply with all Laws, in each case as applicable to:
- (A) its business (or that of any of its Affiliates);
- (B) the performance of any of its obligations under this Agreement;
- (C) the Services that Supplier is obligated to provide under this Agreement, including as such obligations may evolve pursuant to this Agreement, including Services provided with respect to any jurisdiction in which Health Net does business; or
- (D) its obligations under Sections 14.3, 14.6, 14.8, and 14.9.
- (ii) If Supplier is charged with failing to comply with any such Laws, it shall promptly notify Health Net of the charges in writing.
- (iii) Supplier shall identify, track and report any failure by Supplier to comply with Laws or failure (or suspected failure) to comply with the Compliance Services set forth in Section 3.5 of Schedule A (*Cross Functional Services*). Such report shall be made to Health Net with five (5) days of Supplier's learning of same.
- (iv) Health Net, not Supplier, shall be responsible (as provided in Section 27.7(b)(iii)(ii) below) for discovering, identifying, and notifying Supplier of new Laws and changes in Laws applicable to Health Net's own business and operations that are applicable to the Services but would not otherwise be applicable to Supplier. Upon receiving notification of a new Law or change in Law applicable to the Services, Supplier shall prepare for Health Net's approval draft policies concerning compliance with the new Law or change in Law. Health Net shall review and the following portions of policies submitted by Supplier: policy statement, policy purpose, scope/limitations, references and definitions ("Reviewed Policy Provisions"), but Supplier shall be responsible for any other portions of such policies. Supplier shall comply with all such Reviewed Policy Provisions approved by Health Net. Supplier shall alone be responsible for the development and implementation of operational procedures to facilitate Supplier's compliance with such policies.
- (b) **Health Net's Obligations.**
- (i) Health Net agrees at its cost and expense (x) to comply with its obligations under the Regulatory Compliance Addendum attached hereto as Schedule K (*Regulatory Compliance Addendum*), and (y) obtain all necessary approvals, licenses and permits required by Law, and to comply with all Laws, in each case as applicable to:

- (A) its business (or that of any of its Affiliates);
  - (B) the performance of any of its obligations under this Agreement; or
  - (C) its obligations under Sections 14.6 and 14.8.
- (ii) If Health Net is charged with failing to comply with any such Laws it shall promptly notify Supplier of the charges in writing.
  - (iii) As between Health Net and Supplier, Health Net shall be responsible for discovering, identifying, and notifying Supplier of new Laws and changes in Laws applicable to Health Net's own business and operations that are applicable to the Services but would not otherwise be applicable to Supplier.
- (c) If there is a Law with which Supplier is obligated to comply pursuant to Section 27.7(a) and Health Net is obligated to comply pursuant to Section 27.7(b), each Party shall have the financial responsibility for its own compliance with such Law.
  - (d) When either Party receives notice of a change in Law applicable to the Services or the other Party's activities pursuant to this Agreement, such Party will promptly provide notice to the other Party.
  - (e) For the avoidance of doubt, nothing contained in this Agreement shall require either Party to act in any illegal manner.

#### **27.8 Covenant of Good Faith**

Each Party, in its respective dealings with the other Party under or in connection with this Agreement, will act reasonably and in good faith.

#### **27.9 Public Disclosures**

Neither Party shall make any media releases, public announcements or public disclosures relating to this Agreement or the subject matter of this Agreement, including promotional or marketing material, but not including disclosures to the extent required to meet legal or regulatory requirements beyond the reasonable control of the disclosing Party without the prior written consent of the other Party.

#### **27.10 Service Marks**

Supplier will not, without Health Net's consent, use the name, service marks or trademarks of Health Net in any advertising or promotional materials prepared by or on behalf of Supplier.

#### **27.11 Guaranty**

Supplier shall cause the Guaranty Agreement, attached as Schedule V (*Guaranty*), to be executed by Cognizant Technology Solutions Corporation and delivered to Health Net concurrently with the execution of this Agreement. Failure to do so will constitute a material breach of this Agreement by Supplier.

**27.12 Mutually Negotiated**

No rule of construction will apply in the interpretation of this Agreement to the disadvantage of one Party on the basis that such Party put forward or drafted this Agreement or any provision of this Agreement.

**IN WITNESS WHEREOF**, Health Net and Supplier have each caused this Agreement to be signed and delivered by its duly authorized officer, all as of the date first set forth above.

**SCHEDULE A****CROSS FUNCTIONAL SERVICES****1 INTRODUCTION****1.1 General**

- (a) This Schedule A (*Cross Functional Services*) describes, among other things, those Cross Functional Services and Embedded Processes to be performed and delivered by Supplier, which are applicable to all of the Services performed by Supplier under this Agreement.
- (b) The Services are required for Health Net's business operations in the United States, including its territories.
- (c) References to specific resources (e.g., tools, systems) in this Schedule A (*Cross Functional Services*), any SOW, or elsewhere in the Agreement that are used by Supplier in performing the Services shall be deemed to include successor or replacement resources.
- (d) Supplier shall manage and perform the Services in a tightly integrated manner (with appropriate consideration given at all times to the impact of change to all Services).
- (e) Supplier shall provide such information as may be reasonably requested by Health Net from time to time to support Health Net's investigation into potential violations of Health Net's policies and procedures.
- (f) All communications and documentation will be in English unless otherwise specified in the Agreement.
- (g) Supplier shall generate and provide to Health Net (i) each operational report generated prior to the BPaaS Services Commencement Date, unless and until Health Net confirms in writing that such operational report is no longer required, (ii) such other operational reports as Health Net may reasonably request from time to time, and (iii) such modifications to or replacements for the foregoing reports as may be necessary to reflect changes to and evolutions of the Cross Functional Services during the term of the Agreement.

**1.2 Solution**

Schedule A-1 (*Cross Functional Solution*) describes how Supplier will perform and deliver the Services in a manner that meets the requirements of the Agreement (the "***Cross Functional Solution***"). Except where explicitly noted otherwise, Schedule A-1 (*Cross Functional Solution*) is intended to describe the future "To-Be" service delivery environment and processes and tools to be implemented and used by Supplier in performing the Services. Supplier's performance of the Services will be in accordance with the Solution. The Solution may not modify or change the scope of Services to be provided under, or any other terms or conditions of, this Agreement.

**1.3 Hours of Coverage**

The hours of coverage for each of the Services are set forth in Schedule A-1 (*Cross Functional Solution*). Supplier will at minimum mirror the regular operating hours adhered to by the Health

Net personnel performing the Cross Functional Services as of the Effective Date. Supplier acknowledges and agrees that performance of the Cross Functional Services will regularly require Supplier Personnel to perform additional/overtime work outside regular operating hours, and that such additional/overtime work is within the scope of the Cross Functional Services.

Supplier will extend its hours of operations (for example, through overtime, weekend and holiday work) from time to time as needed to meet regulatory requirements, Compliance and Service Level metrics and other requirements of the Agreement. Supplier's work during such extended hours of operations is within the scope of the Cross Functional Services.

Within the regular hours of operations set forth in Schedule A-1 (*Cross Functional Solution*), Supplier will have staff work according to defined shift schedules. However, Supplier will make reasonable efforts to permit Supplier staff to work flexible shift times when that can be done without jeopardizing Supplier's ability to meet regulatory requirements, Compliance and Service Level metrics and other requirements of the Agreement.

#### 1.4 Definitions

Capitalized terms not defined in this Schedule A (*Cross Functional Services*) shall have the meanings given them in Schedule W (Glossary) or elsewhere in this Agreement.

- (a) “**Channels**” means various forms of communication including phone, chat, email, text, and SMS.
- (b) “**Health Net Departments**” means Claims, Membership, Configuration, Correspondence, Customer Contact Center, and Appeals & Grievances.
- (c) “**Health Net Investigations**” means any effort that Health Net (including the Health Net Compliance Department, Vendor Oversight, or any other department) undertakes to obtain information necessary to perform an internal audit or monitoring process, obtain information necessary to respond to regulators or other external entities, or otherwise ensure compliance with business and regulatory requirements.
- (d) “**Member**” means a person who is properly enrolled in and eligible to receive covered services under a Health Net benefit program at the time covered services are rendered.
- (e) “**Plan**” means a health insurance plan offered by Health Net.
- (f) “**Provider**” means a facility, physician, physician organization, independent practice association, health care provider, supplier, or other organization that may provide covered services.
- (g) “**Ramp Up**” means the period of time from when an associate completes process training to the time when the agent starts meeting the required quality SLAs and 100% productivity standards.
- (h) “**Regions**” means (i) Arizona, (ii) California, and (iii) Oregon/Washington.
- (i) “**RTO**” means recovery time objective.
- (j) “**Supplier Facilities**” means those locations set forth in Schedule F (Supplier Facilities).

- (k) “***Tower(s)***” means the set of Services described in each Statement of Work.
- (l) “***Transition Management Office***” or “***TMO***” means the Supplier resources dedicated to managing the Transition as further described in the Transition Manual.

**1.5 Changes**

Material additions to, deletions from, or other changes in the Services described in this Schedule A (*Cross Functional Services*) are subject to the Change Control Process.

## 3 CROSS-FUNCTIONAL SERVICES

Supplier shall provide the following cross-functional services (the “*Cross Functional Services*”) as part of the Services and any other Services the Parties may agree to add to the scope of this Agreement. In the event that Health Net terminates the provision of any part of the Services pursuant to this Agreement, Supplier shall continue to provide the Cross Functional Services set forth in this Section 3 as such Cross Functional Services relate to the remaining Services.

### 3.1 Business Continuity & Disaster Recovery Services

- (a) “**Business Continuity and Disaster Recovery Services**” are (i) the Functions associated with planning, documenting, implementing, maintaining and periodically testing a mutually agreed-upon business continuity plan that ensures that the Services are sustained at a suitable and appropriate level during any business disruption, disaster or Force Majeure event (the “**Business Continuity Plan**”), and (ii) the IT Continuity and Business Recovery Services set forth in Schedule A-3 (*IT Continuity and Business Recovery Services*).
- (b) Supplier will assume responsibility for performing Business Continuity and Disaster Recovery Services for each Service as of the BPaaS Services Commencement Date. Supplier will adopt Health Net’s then existing business continuity plan for all operations that remain at Health Net Facilities following the BPaaS Services Commencement Date. Supplier will develop a Business Continuity Plan and Disaster Recovery Plan for all Services to be performed at Supplier Facilities (i) prior to the BPaaS Service Commencement Date or (ii) for Services transitioned after the BPaaS Services Commencement Date, prior to the date that such Service is transitioned from a Health Net Facility to a Supplier Facility. No later than eighteen (18) months following the BPaaS Services Commencement Date, Supplier will fully implement a tested Business Continuity Plan for the Services in compliance with all enhanced requirements set forth in this Agreement.
- (c) Supplier will ensure during the Transition and during steady state that at all times the Services comply with Health Net’s disaster recovery policies and business requirements (and changes thereto), including any applicable regulatory requirements, to the extent such plans, policies, requirements and regulations apply to the Services. Supplier will store the Business Continuity Plans in readily accessible locations for access in the event of a disaster.
- (d) Among other things, the Business Continuity Plan shall:
  - (i) Contain a brief description of processes and procedures used to recover the Services, and associated time frames for the recovery of such Services, including a prioritized listing of Services, subject to Health Net’s input, review and approval;
  - (ii) Contain notification procedures to alert Health Net of Service disruptions including off-hour and weekend coverage; and
  - (iii) Describe Supplier’s and Health Net respective recovery responsibilities.
- (e) The Parties will alert each other of any deficiencies discovered in the Business Continuity Plan that would adversely affect Health Net or the provision of Services.
- (f) With cooperation and approval from Health Net, Supplier shall review and update, the Business Continuity Plan at a minimum on an annual basis or as otherwise warranted by (i) business or technical changes (or both), (ii) requirements of applicable Laws, and (iii) otherwise as necessary to maintain compatibility with Health Net’s overall business

continuity plan. Supplier will receive business direction and requirements from Health Net and must receive authorization from Health Net to make significant changes to the strategic and/or tactical direction of Health Net's overall business continuity plan.

- (g) As part of the Business Continuity and Disaster Recovery Services, Supplier will:
  - (i) assess and define functional, performance, availability, maintainability and disaster recovery needs and the security requirements to meet user, regulatory, client and company policy requirements; and
  - (ii) propose functional, performance, availability, maintainability and disaster recovery requirements and establish standards (e.g., support processes and procedures).
- (h) As part of the Business Continuity and Disaster Recovery Services, Supplier will:
  - (i) provide training and support to Health Net technical and business unit employees for the necessary technical and non-technical (process oriented) changes that would become necessary and executed during emergencies and business disruption events affecting the Services; and
  - (ii) perform education and awareness training related to the Business Continuity Plan for all Supplier Personnel.
- (i) As part of the Business Continuity and Disaster Recovery Services Supplier will, at a minimum:
  - (i) Perform the Business Continuity and Disaster Recovery Services in accordance with ISO 22301 (or any replacement standard during the Term that is mutually agreed upon by Supplier and Health Net) and any additional standards and procedures mutually agreed upon by Supplier and Health Net;
  - (ii) Include the capabilities to transition back from the disaster recovery site to Supplier Facilities of the affected services and restoration of Services at the affected site upon cessation of the disaster;
  - (iii) Include the capabilities to allow the same Supplier Personnel assigned to perform the Services to continue providing the Services in the event of a disaster;
  - (iv) Upon cessation of the disaster, implement the activities necessary to restore the affected Services at the affected locations with the capabilities to meet the RTO and other turnaround times set forth in the Business Continuity Plan;
- (j) Test Supplier's disaster recovery and business continuity plans (including the Business Continuity Plan), as warranted by (i) business or technical changes (or both), (ii) Health Net requirements as defined in this Schedule A (*Cross Functional Services*) or requirements of applicable Laws, and (iii) otherwise as necessary to maintain compatibility with Health Net's overall business continuity plan. Supplier will receive business direction and requirements from Health Net and must receive authorization from Health Net to make significant changes to the strategic and/or tactical direction of Health

Net's overall business continuity plan, procedures and capabilities with respect to each Supplier Facility and those related to or affecting the Services.

- (k) Interface Supplier's disaster recovery and business continuity plans, procedures and capabilities with, and provide support and assistance to Health Net in connection with Health Net's annual testing of, Health Net's disaster recovery and business continuity plans, processes and procedures. Supplier will permit Health Net and its auditors to audit the Business Continuity Plans on an annual basis.
- (l) In the event of a disaster, Supplier shall provide the Services and other business continuity Functions in accordance with the Business Continuity Plan. Supplier's Functions shall include the following:
  - (i) Providing a single 24 hour per day, 365 day per year (24/365) point-of-contact with at least two (2) alternative back-up points-of-contact with 24/365 availability for business continuity related communications and activities;
  - (ii) Paying all travel and living expenses incurred by Supplier Personnel in the performance of Supplier's responsibilities described in this Section 3.1 for Supplier's facilities offshore; and
  - (iii) Meet service levels established in the approved BCP/DR Plan related to mission critical processes required during the disaster event, with relief during the phase of Transition from any penalties (financial or otherwise) that occur as a result of documented deficiencies in the existing Health Net business continuity and disaster recovery testing reports related to services and supporting technology that are adopted by Supplier prior to development, approval, and testing of the Supplier's Business Continuity Plan, and with relief from consequences (financial impact or otherwise) outside of Supplier control and within scope of services provided by third parties contracted directly to Health Net.
- (m) In the event of a disaster, Supplier shall not give priority to the recovery of other Supplier clients' processes with recovery time objectives that exceed Health Net's recovery time objectives for recovery of affected Equipment, Software, Services and data related to the Services deemed mission critical in the Business Continuity and Disaster Recovery Plan.
- (n) In addition to the Functions described in Section 3.1(b) through 3.1(m) above, the Business Continuity & Disaster Recovery Services include the following activities:
  - (i) Develop, subject to Health Net's approval, the Business Continuity Plan in accordance with the requirements of this Section 3.1;
  - (ii) Conduct gap analyses of potential faults in meeting the RTO, in applications or processes used to perform the Services;
  - (iii) Propose to Health Net updates to Health Net's overall disaster recovery and business continuity plans and to the Business Continuity Plan, as needed to reflect changes in the Services, the technical environment, or requirements of applicable Laws;
  - (iv) Conduct tests of the Business Continuity Plan related to the Services;

- (v) Participate, as requested by Health Net, in Health Net's disaster recovery and business continuity tests that will enable Health Net to test compatibility of their applications and processes with the recovery center environment;
- (vi) Participate, as requested by Health Net, in Health Net's disaster recovery and business continuity testing (or, in the event of a disaster, disaster recovery and business continuity execution) for Health Net customers and business partners, including by coordinating with third parties as such third parties relate to the Services;
- (vii) Integrate Supplier's disaster recovery and business continuity plans, procedures and capabilities with Health Net's disaster recovery and business continuity plans, processes and procedures;
- (viii) Review and approval by Health Net of Supplier's disaster recovery and business continuity plans, test plans and testing results;
- (ix) Participate with Health Net in the Joint Steering Committee and test team meetings for disaster recovery and business continuity;
- (x) Communicate to Health Net proposed disaster recovery and business continuity plan changes, including changes in the Business Continuity Plan, due to any technical or business changes;
- (xi) Identify and inform Health Net of opportunities (if any) for improvement of effectiveness and efficiencies in disaster recovery and business continuity functions;
- (xii) Review and recommend opportunities for improvement of effectiveness and efficiencies in disaster recovery and business continuity functions;
- (xiii) Communicate to Health Net disaster recovery and business continuity goals and initiatives, related to Supplier Services for the following year; and
- (xiv) Report to Health Net, quarterly, all business continuity and disaster recovery activities as outlined in ISO 22301.

### 3.2 Training Services

***“Training Services”*** are those Functions associated with the curriculum development, planning, scheduling and delivery of trainings in compliance with Laws for all Supplier Personnel performing the Services in the Claims, Membership, Appeals & Grievances, and Contact Center, including the following activities:

- (a) Develop training curriculum needed to deliver the Services including training scenarios and knowledge checks;
- (b) Develop training, including computer based training that comply with regulatory requirements;
- (c) Provide training and oversight for External Employer Group Auditors;

- (d) Maintain training calendar and inventory;
- (e) Provide training reports to various parties including but not limited to Health Net Management, Health Net areas, Compliance, and Regulators;
- (f) Document training attendance, course completion and other training related details;
- (g) Manage and maintain intake process and system for new and adjusted training requests;
- (h) Regular review of training technology, methodologies, courses, and approach;
- (i) Perform needs assessment and training validation for any new training requests;
- (j) Review audit findings and make recommendations to business areas for policy and procedure creation/updates, additional training, process automation tools, and/or process change/improvement;
- (k) Provide regulatory training support including but not limited to ad hoc training requests and reporting; and
- (l) Certify training staff.

Any Training Associates who perform any Training Services associated with the Offshore Restricted Entities listed in Section 3.1 of Schedule Y (*Offshore Prohibitions and Restrictions*) shall remain on-shore.

### 3.3 Documentation

**“Documentation Services”** means those Functions associated with maintaining, archiving, offsite storage, retrieval, and destruction of documentation as related to the Services in hard copy and/or electronic form, including the following activities:

- (a) Recommending documentation requirements, location, and formats;
- (b) Reviewing and approving documentation requirements, location and formats as appropriate;
- (c) Maintaining, retrieving and archiving documentation in agreed format in support of the Services;
- (d) Identifying documentation for archival per Health Net retention policies and coordinating with Health Net to prepare documents for delivery to offsite storage;
- (e) Providing to Health Net any documentation as required in response to regulatory requirements, Health Net Investigations, and/or inquiries;
- (f) Providing additional information as requested to support Health Net documentation requirements and Health Net proposal efforts;
- (g) Enabling Health Net direct electronic access to documentation retained in accordance with the documentation requirements;

- (h) Following Health Net’s policies and processes for destruction of records, including acquiring Health Net approval prior to any document destruction;
- (i) Storing business continuity documentation separate from standard retention documents;
- (j) Complying with Health Net’s Records Information Management (RIM policies, processes and procedures related to the retention, archive and destruction of documents (including any documents containing Confidential Information), and the ability to retain information in compliance with laws, legal and regulatory obligations and disaster recovery requirements;
- (k) Maintaining documentation per legal hold requirements per regulatory and Health Net policies; and
- (l) Marking and handling documentation in accordance with Health Net’s Data Classification Policies and Procedures.

### 3.4 ERM Services

“*Enterprise Risk Management Services*” or “*ERM Services*” are those Functions associated with a formalized process to identify, assess, mitigate, monitor and report on risks, consistent with the Health Net ERM Guide and related processes/policies (“*ERM Framework*”), to the proper performance and fulfillment of the Solution and all Services performed by Supplier. Any such risks, assessment, mitigation and monitoring activity are reported to Health Net for its evaluation, monitoring and reporting requirements. In addition, ERM Services require Supplier to develop, implement, and manage solutions to mitigate the impact of existing and emerging risks.

ERM Services shall be overseen by a single accountable individual within Supplier’s organization. Supplier shall conduct a risk assessment no less than twice a year that is consistent with and which supports the ERM Framework and report on the results of such risk assessments to Health Net along with Supplier’s plans to monitor and mitigate any identified risks. Health Net will retain the final decision making authority of whether any suggested risks actually make the formal list and what risks can be closed and removed.

### 3.5 Regulatory Compliance Adherence Services

As a basic principle, Health Net must retain ownership of the compliance functions associated with the Services. For avoidance of doubt, Health Net will own and fully retain responsibility for (i) maintaining relationships with Regulators and policy makers as it relates to Health Net’s business, (ii) interpreting new or modified Laws with which Health Net is responsible for complying pursuant to Section 27.7 (*Compliance with Laws*) of the Terms and Conditions; and (iii) drafting and submitting responses to regulator Communications.

“*Regulatory Compliance Adherence Services*” are the Functions necessary to manage compliance of the Services, including managing the compliance of all related downstream entities and entities with delegated Functions, in accordance with Law. The Regulatory Compliance Adherence Services include the following activities:

- (a) As requested by Health Net to comply with Law, provide information related to the Services to enable Health Net to respond to directives, complaints, requests for

information or other communications from Regulators (e.g., CMS Memo, Annual call letters) (collectively, “**Regulator Communications**”);

- (b) Provide data to Health Net related to any in-scope Functions including audit activities and participate in data validation activities;
- (c) Develop and distribute content for, and monitor evidence of completion of, compliance training for Supplier Personnel;
- (d) Monitor Cognizant’s compliance with Laws with which Cognizant is responsible for complying pursuant to Section 27.7 (*Compliance with Laws*) of the Terms and Conditions;
- (e) Identify, track, report, and escalate issues of non-compliance (or suspected non-compliance) to Health Net within required timeframes;
- (f) Implement, monitor and report on normal course of business controls;
- (g) Notify downstream entities of compliance requirements, monitor downstream entity compliance, and report to Health Net on the compliance of downstream entities;
- (h) Respond to data requests to support active Health Net Investigations; and
- (i) Comply with due dates and turnaround times as specified by Health Net Legal and Regulatory Affairs.

### 3.6 Innovation Services

- (a) “**Innovation**” means the development, discovery and/or application of new ideas, techniques, methods, processes or technology related to the Services that improve outcomes – be they financial or experiential – for Health Net’s Members, Providers, Shareholders or other Stakeholders. “**Innovation Services**” are the Functions the Supplier will provide to ensure Innovation of the Services (including as required for Supplier to continuously evolve and improve the Services as required by Section 3.3 (*Evolution of the Services*) of the Terms and Conditions and Section 5.4 (*Continuous Improvement*) of Schedule B (*Service Levels*) and that Health Net receives the benefits from Supplier’s continuous Innovation.
- (b) As part of the Innovation Services and subject to 3.7(h), Supplier shall develop, implement, manage and maintain a set of processes, procedures and tools through which Supplier will continually monitor and improve its service delivery methods using industry recognized best practices. Supplier will identify weaknesses and opportunities for Innovation and improvement in its service delivery methods and systematically implement those Innovations and improvements.
- (c) By the end of Transition and annually thereafter Supplier will provide to Health Net an Innovation Plan. Health Net will provide input to the Innovation Plan as it is developed and updated. Each Innovation Plan will include:
  - (i) An identification of general and industry specific business, medical (e.g., related to medical trends regarding claims and authorizations), and technical trends and

- forecasts that inform both the Supplier and Health Net of new opportunities that could be used to improve financial or experiential outcomes;
- (ii) An annual benchmark conducted by Supplier comparing itself against the Supplier Competitors listed in Schedule M (*Supplier Competitors*). The underlying purpose of the benchmark will be for Health Net to understand market capabilities and to stay current with market advancements;
  - (iii) The business challenges facing the Health Care Industry and Health Net relative to Health Net's stated business goals and objectives;
  - (iv) Specific new, disruptive technological or scientific advances and their expected timeframes for practical (e.g., economically feasible) application of future advances within the context of Health Net's business and the Services;
  - (v) Reporting on the current STARS, HEDIS and NCQA rating for the Services over the previous year and a plan for improving each rating during the upcoming year;
  - (vi) For STARS, identifying goals for the upcoming year for each measure, initiatives to achieve the goals, and correlating metrics to track progress and inform that goals are on track; and
  - (vii) A rolling two year forecast identifying specific improvements in techniques, methods, processes or technologies that Supplier will implement to deliver ongoing Innovation within the scope of the Services and a list of prioritized recommendations as to how Health Net could take advantage of opportunities to innovate in areas related to the Services.
- (d) Health Net and Supplier will utilize the Governance structure to ensure the Innovation Plan is completed timely, with Health Net participation as part of the Technology/Services Meetings, and that Supplier is executing upon the Innovation Plan. Supplier will provide quarterly reports to Health Net on Supplier's Innovation activities in support of the Innovation Plan.
- (e) In addition to the annual Innovation Plan, Supplier shall:
- (i) Continuously monitor industry trends, including through independent research, and document and report on products and services with potential use for Health Net on a quarterly basis.
  - (ii) Participate, as requested by Health Net, in technical and business planning sessions.
- (f) Without limiting Supplier's obligation under Section 3.7(c), annually Health Net may conduct an assessment of (i) Supplier's Solution, (ii) Supplier's Service delivery environment, and (iii) the processes, procedures, software, systems and tools Supplier uses to perform the Services, that compares Supplier against Supplier's competitors and other entities (including other health insurance companies) performing similar services. The results of the assessment will be used to determine whether Supplier's Service offering and performance remain on pace with industry best practices and developments. At Health Net's discretion, an assessment under this Section 3.7(f) may be conducted by

Health Net or an independent industry-recognized service provider designated by Health Net (“*Assessor*”). Supplier agrees to cooperate with the Assessor, including, as appropriate, promptly making available knowledgeable personnel and pertinent documents and records, and providing the Assessor with access to relevant facilities, software, systems and tools used to perform the Services. At the conclusion of the assessment process the Assessor will issue a report of its findings and conclusions to Health Net. The Assessor’s findings will be used to inform the annual Innovation Plan (described in Section 3.7(c) above).

- (g) The assessment performed in accordance with Section 3.7(f) and Health Net’s assessment of Supplier’s execution of Innovation Services and the value of the Innovation Services will be included in the Stakeholder Satisfaction Survey.
- (h) Health Net is not obligated to implement any recommendations by Supplier. Supplier does not need to seek Health Net approval for implementation of Innovation activities except as expressly required by this Agreement, including those subject to Change Control.

### 3.7 Root Cause Analysis Services

Supplier will develop, implement, and maintain a process to coordinate root cause analysis activities required to diagnose, analyze, recommend, take corrective measures across the Services, and provide reports on root cause analyses (“*Root Cause Analysis Services*”). Supplier will staff the Root Cause Analysis Services with appropriate roles in order to see Root Causes Analysis activities to conclusion. In addition to root cause analyses related to the operations, Supplier will perform all root cause analyses required by Health Net regulators (and within the timeframes specified by Health Net regulators) that relate to the Services. These Root Cause Analysis Services shall also include the Functions associated with Problem Identification and Resolution performed as part of the IT Services set forth in SOW #4 (*IT Services*).

### 3.8 Managed Third Party Contract Services

“*Managed Third Party Contract*” means a contract in the name of Health Net or a Health Net Affiliate used in support of the Services or complimentary to the Services (including those Managed Third Party Contracts set forth in Schedule O (*Health Net Provided Resources*) and those third party contracts identified through Exhibit A of SOW #4 (*IT Services*)).

“*Managed Third Party Contract Services*” means the Functions associated with managing the Managed Third Party Contracts in place as of the Effective Date and entered into by Health Net after the Effective Date. Health Net shall have the right to add additional Managed Third Party Contracts by sending written notice to Supplier.

Supplier shall provide the Managed Third Party Contract Services with respect to the Managed Third Party Contracts, including the following activities:

- (a) Performing commercial Functions including:
  - (i) Understanding contractual commitments in the Managed Third Party Contracts.
  - (ii) Serving as primary point of contact with Health Net for interpretation and modification of contracts with third party suppliers.

- (iii) Authorizing scope changes, project work and obtaining and documenting all requisite approvals to establish an appropriate audit trail, within Health Net guidelines for Managed Third Party Contracts. Any such scope changes as well as exceptions to Health Net guidelines will require Health Net's prior written approval before any work is performed. If no guidelines are established for a specific Managed Third Party Contract, Supplier will consult with Health Net regarding any such scope change.
- (iv) Revising Managed Third Party Contracts to reflect changes in scope, new services, service levels and other conditions upon prior approval by Health Net, including those related to formal change requests.
- (v) Performing general administrative tasks associated with Managed Third Contracts, including maintaining records and documentation related to Managed Third Contracts, recording decisions in contract files.
- (vi) Maintaining Health Net-provided copies of all Managed Third Party Contracts (or a Health Net-provided summary of the pertinent information contained in each Managed Third Party Contract), including such contracts that expire during the Term, in a secure, online location accessible to designated individuals at both Health Net and Supplier.
- (vii) Monitoring license usage and maintaining compliance with the terms of third party licenses (ie., the number of licenses and scope of licenses) and including performing the Functions set forth in subtask 2.7.4 (Configuration and Asset Management) of SOW #4 (*IT Services*) Exhibit A-1-1 (Process Definitions).
- (viii) Escalating and resolving issues and disputes related to the Managed Third Party Contracts, and referring matters to Health Net legal where appropriate.
- (ix) Overseeing the performance of Managed Third Party Contracts, striving to (i) maximize the operational and financial performance of such contracts (from Health Net's perspective) and (ii) minimize risk to Health Net from the performance of such contracts. Supplier's responsibilities include:
  - (A) Monitoring Managed Third Party Contract performance with respect to all material contractual requirements directly related to the provision of products or services and tracking and reporting on service levels or similar performance metrics included in the applicable contract;
  - (B) Coordinating work performed under the Managed Third Party Contracts between Supplier and Supplier's Subcontractor(s);
  - (C) Validating assessments, calculations, and if Health Net elects to receive credits related to service level failures, the timely payment of such credits and other similar types of credits and rebates under Managed Third Party Contracts; provided, however, that execution and escalation on service level failures, or application of credits and rebates, will be in cooperation with Health Net;

- (D) Monitoring the compliance with any service levels contained in the applicable Managed Third Party Contract; Notifying Health Net of material failure to perform in accordance with the provisions of its Managed Third Party Contract;
  - (E) Notifying Health Net promptly if (i) there are performance failures or other issues regarding contractual responsibilities related to any Managed Third Party Contract, or (ii) there are issues with a Managed Third Party Contract adversely affecting the Services or Health Net (or its Affiliates),
  - (F) Evaluating and recommending retention, modification, or termination of a Managed Third Party Contract based on the performance or cost benefits to Health Net as tracked by Supplier; and
  - (G) Monitoring Managed Third Party Contract adherence to compliance activities, including auditing and training.
- (x) Providing assistance with Managed Third Party Contract negotiations as required.
- (b) Performing financial contract management Functions including:
- (i) Managing contract and order pricing;
  - (ii) Reviewing third party supplier invoices to confirm validity and accuracy;
  - (iii) Assigning applicable financial coding or other coding;
  - (iv) Managing invoice discrepancies and disputes; and
  - (v) Submitting processed invoices for payment.
- (c) Performing contract order management Functions including:
- (i) Maintaining third party supplier catalogs;
  - (ii) Obtaining/placing orders for goods and services;
  - (iii) Tracking and managing orders;
  - (iv) Advising applicable process owners of problems with orders;
  - (v) Managing receipt and acceptance/rejection (and return) of delivered goods and services; and
  - (vi) Notifying the applicable financial management function of accepted and rejected deliveries.

### 3.9 Reporting and Analytics Services

***“Reporting and Analytics Services”*** means those Functions associated with producing management reports, operational and performance indicators, and information in a form that will allow Health Net to focus on business outcomes leveraging market capabilities. The Reporting and Analytics Services include all forms of reporting and analytics including web analytics. The objective of this service is to provide the Parties with real time access to information that will enable optimal performance of the Services and continuous improvement. The Reporting and Analytics Services employ advanced techniques to derive risks, opportunities and insights from the information to support Health Net’s business and strategic decision making. The Reporting and Analytics Services include:

- (a) Continuing to provide the same reporting and analytics capabilities that exist as of the BPaaS Services Commencement Date;
- (b) Identifying applicable sources of data or information and enabling Health Net real time access to all such sources;
- (c) Providing Health Net with real time performance monitoring (in read only access) that is no less robust than that which Health Net provides as of the Effective Date;
- (d) Extracting and collating data;
- (e) Reporting on outcome based metrics related to the Services;
- (f) Reporting on end to end function level metrics;
- (g) Analyzing data and summarizing findings related to a specific business issue or problem;
- (h) Developing applicable modeling methodologies to assess specific business issues or problems;
- (i) Performing trend analysis and modeling;
- (j) Using results of analyses to assist Health Net to develop business strategies and solutions; and
- (k) Responding to and fulfilling regulatory, ongoing, and ad hoc requests for reports from regulators or other business areas.

In addition to the Monthly Performance Report defined in Schedule G-3 (*Management Reporting*) the Reporting and Analytics Services include creating and providing Health Net with access to a dashboard that reflects on Supplier's performance with respect to each of the Service Levels (including Compliance Measures) ("***Dashboard***"). Supplier shall provide the initial version of the Dashboard as defined in Schedule R (*Critical Deliverables*). Information on the Dashboard shall be updated on a daily basis. The Dashboard (including the type of information provided, format, and layout of the Dashboard) shall be subject to the prior written approval of Health Net. Supplier shall make such changes to the Dashboard as Health Net requests, including requests made during the Term after the initial approval of the Dashboard. The Dashboard shall include the following:

- (i) Interactive capability that will permit Health Net to drill down on metrics;
- (ii) Ability to create custom views;
- (iii) Ability to extract reports;
- (iv) Messaging capability to question results;
- (v) Corrective Action Plan (CAP) for any Service Level that has been missed.

The Reporting and Analytics Services detailed in this Section 3.10 do not limit Supplier's reporting obligations specified elsewhere in this Agreement including in Schedule G.

### **3.10 User Acceptance Testing Services**

"***Testing Services***" mean the Functions associated with coordinating testing activities related to the Services, including user acceptance testing (e.g., support for Health Net's testing in connection with a system release), with Health Net users including the following activities:

- (a) Coordinating User Acceptance Testing with Health Net users;
- (b) Developing valid business requirements for test script development by retained departments;
- (c) Coordinating access to test environments for Health Net testers;
- (d) Supporting data preparation needs within the test environments, i.e. system support for entry of BPaaS area of data needed for test script execution;
- (e) Preparing required documentation artifacts related to user acceptance testing, including appropriate redactions;
- (f) Reporting of test results and tracking and resolution of issues and defects;
- (g) Coordinating with third parties on file exchanges or other inputs/outputs;
- (h) Overseeing user acceptance testing;

- (i) Coordinating with system releases, including on-site presence during release 'go-live' dates when necessary; and
- (j) Support of system rollouts.

### 3.11 Return Mail Processing Services

***“Return Mail Processing”*** are the Functions associated with processing and correcting correspondence (including notification letters, checks, EOBs) that were returned to Health Net by the post office and routed to Cognizant from Health Net’s mail intake Function, including the following activities:

- (a) Receiving and processing all mail onshore after physical receipt of returned mail from Health Net’s mail intake Function;
- (b) Handling and processing return mail and corrections to names and addresses consistent with Health Net department’s policies and procedures;
- (c) Researching and correcting the address and name that was utilized for the original mailing;
- (d) Where possible/permitted, updating the applicable System(s) with the correct mailing information;
- (e) For all returned mail related to contracted Providers, forwarding all findings to the Provider Network Department (PNM) for review;
- (f) For Medicare, researching the change of address, updating the Beneficiary record, and perform all other Functions required by Health Net and Laws for the following categories of returned mail:
  - (i) All returned Beneficiary materials that were originally generated and sent by Supplier in accordance with this Agreement;
  - (ii) Returned Beneficiary materials not originally generated and mailed by Supplier by accepting and processing address update files from Caremark and sending the CMS required Beneficiary letter reminding Caremark to contact SSA to update their address; and

### 3.12 Inventory Management Services

***“Inventory Management”*** are the Functions associated with creating and maintaining a daily accurate accounting of all inventories and transactions, reporting to Health Net production and inventory numbers (including aged claim statistics), and attending meetings to discuss volumes, issues, and other operational topics, including the following activities:

- (a) Performing inventory control and management;
- (b) Creating and maintaining a daily accurate accounting of transactional inventories, including enrollments and other eligibility related transactions received, "in process" (i.e. transactions received, but not considered "complete" in the core system.) and transactions completed and inventory aging statistics;

- (c) Utilizing daily inventory management reports to control and maintain inventory within compliance and business service levels;
- (d) Making all daily and cumulative monthly inventory management reports available to Health Net; and
- (e) Providing access to daily inventory reports / systems and cumulative monthly inventory management reports to Health Net.

### 3.13 Collection of Funds Services

***“Collection of Funds Services”*** means the Functions associated with collecting, depositing, and processing of all monies collected by Supplier personnel for or on behalf of Health Net on a daily basis into the applicable Health Net bank account. Such amounts shall not at any time be deposited in or held in any other account of Supplier or any of its other customers. All funds shall at all times be the sole property of Health Net or the applicable Health Net Affiliate. All monies in the Health Net bank account(s) shall not be subject to any lien, charge, security interest, right of offset or setoff or any other rights or encumbrances due to any act or omission of Supplier. As standard practice, all funds should be directed to be deposited to an approved Health Net bank account, however, if such funds are misdirected or received by Supplier then Supplier shall follow the Collection of Funds Services outlined in this Section 3.14.

### 3.14 Issue and Error Resolution Services

***“Issue and Error Resolution”*** means the Functions associated with resolving all issues related to the Services that are identified by Supplier’s Quality Assurance Services set forth in Statement of Work #5 (*Quality Assurance Services*), Health Net’s internal audit, customer complaints, any errors identified by regulators, or in Section 3.8 above, or any other Health Net or Supplier quality assurance activities, including the following:

- (a) Reviewing requests to correct errors;
- (b) Correcting all errors in the applicable Systems; and
- (c) Timely reporting to Health Net on the Issue and Error Resolution.

These Issue and Error Resolution Services shall also include the Functions associated with Problem Identification and Resolution performed as part of the IT Services set forth in SOW #4 (*IT Services*).

### 3.15 Integration Services

***“Integration Services”*** mean the Functions associated with integrating third party services into the Health Net Technology Platform including creating new EDI interfaces and third party pricer feeds, subject to Schedule H (*Change Control*). Changes to existing third party interfaces or the addition of new interfaces will not result in additional Charges to Health Net unless a particular change or addition to the third party interfaces meets the Material Change threshold set forth in Section 8 (*Material Changes*) of Schedule C (*Charges*).

### 3.16 Translation Services

“*Translation Services*” mean the Functions associated with coordinating for the translation of written and verbal communications in accordance with Health Net Policies, including the following activities:

- (a) Overseeing all translation needs across towers and in accordance with any Service specific translation requirements set forth in each Statement of Work;
- (b) Receiving requests from Members, Providers or Lines of Business for translation of a written or verbal communication;
- (c) Prior to using a Health Net approved third party translator, determining if translated materials already exist;
- (d) Determining if a translation request is in compliance with Health Net Policy and regulatory requirements;
- (e) Escalating any requests that fall outside of Health Net Policy or regulatory requirements;
- (f) Contacting one of Health Net’s approved third party translators to have the translation request fulfilled; and
- (g) Managing the budget, billing and allocation cost of third party translation services allocation across each tower.

## 4 EMBEDDED PROCESSES

### 4.1 General

To the extent Supplier is responsible for performing a particular Function (either as identified in Section 3 of this Schedule A (*Cross Functional Services*) or in any SOW, then Supplier is responsible not only for performing the indicated Function, but also for providing the resources necessary to perform such Function and any other Functions and responsibilities described in this Section 4.1 as they may relate to such Function (the “*Embedded Processes*”).

### 4.2 Embedded Processes

The Embedded Processes include:

- (a) Developing the procedures underlying the Function, subject to and in compliance with Health Net regulatory requirements and in alignment with Health Net Policies as defined in Schedule P (Policies) and the requirements of this Agreement so as to enable the Services to function cohesively and in a coordinated manner;
- (b) Performing the activities comprising the Function in accordance with Health Net Policies as defined in Schedule P (Policies) and the requirements of this Agreement;
- (c) Except as provided in Schedule O (Health Net Provided Resources), providing and maintaining the necessary non-human resources (e.g., hardware, property, plant, supplies, software, tools, infrastructure) and human resources (including to provide training) to perform the Function;

- (d) Retaining all financial, operational and administrative responsibility for the Function, including the resources necessary for its performance;
- (e) Performing the required activities necessary to manage the Function, including (i) supervising and reporting, including reporting to other personnel within the Function, (ii) measuring and reporting on the performance of the Function (or parts thereof) to other Health Net, its Affiliates, other Service Recipients or anyone else requested by Health Net, and (iii) developing and distributing operational reporting related to the Function, including any reporting related to the Service Levels;
- (f) Managing documents and data (including data acquisition, data entry, data recording and data distribution) related to the Function;
- (g) Coordinating with Health Net business units as necessary to perform the Services;
- (h) Performing “self audits” of the Function, including testing the (i) accuracy, reliability and quality of work, (ii) compliance with approved policies and procedures, and (iii) performance and correction of any issues identified during such audits and reporting of self audit results;
- (i) Participating in internal and external audits;
- (j) Engineering the Function, including performing those actions necessary to maintain or improve the underlying activities based on (i) then-current best practices, and (ii) how it is intended to interact with other activities performed by Supplier or by Health Net; Notifying Health Net as required of output or other findings or information developed or learned through the Function, including notifying Health Net of the readiness for activities to be performed by Health Net that are necessary to either complete or progress a Function being performed by Supplier;
- (k) Responding to queries and requests concerning activities associated with the performance of the Function, including making the applicable subject matter experts, documentation and other relevant content available as necessary to be responsive;
- (l) Handling all aspects of incidents and problems relevant to the Functions, including (i) receiving notification of and resolving incidents and problems, (ii) providing Health Net with updated information regarding the status of such incidents and problems and the associated resolution efforts, (iii) escalating incidents and problems that cannot be resolved, and (iv) responding to requests from Health Net;
- (m) Interacting and coordinating as needed with Health Net, including (i) integrating the Function with the activities of Health Net such that the overall delivery of services is optimized (i.e., not sub-optimized within the confines of the Function), and (ii) monitoring the activities performed by Health Net to mitigate negative impact on the Function;
- (n) Researching and planning for new products, open enrollment (Commercial), AEP (Medicare), and Duals including by (i) participating in Health Net information gathering initiatives (i.e., by providing access to former Health Net Personnel rebadged as part of this Agreement), (ii) assisting with the development of requirements definitions, and (iii) supporting the analysis and testing of new products;

- (o) Supporting Health Net's sales and marketing processes including responding to prospective or existing Customer requests for proposals (RFPs), providing access to Supplier Facilities and Supplier Personnel as part of any prospective or existing Customer requests, and providing Health Net with all information concerning the Services or delivery of the Services as (i) reasonably requested by the prospective or existing Customer, (ii) required by Health Net for the purpose of responding to an RFP, or (iii) necessary to support the Health Net sales and marketing process (e.g., sales pitches)
- (p) Providing advice and guidance on the Function to Health Net (e.g., best practices, operational issues, impact from other activities) so as to enable Health Net to optimize the linkages of its activities with the Function being performed by Supplier; Adhering to the applicable documentation standards; and
- (q) Providing information to support any Health Net Investigations (including Health Net's special investigation unit) or threatened, pending or commenced litigation against Health Net related to the Services.

**SCHEDULE A-1**  
**CROSS-FUNCTIONAL SERVICES**  
**SOLUTION DOCUMENT**

**1. INTRODUCTION**

Health Net has engaged Supplier to deliver End-to-End Services in an outcome based service, delivery model for multiple Health Net lines of business. The initial LOBs to be supported are Individual, Commercial, Medicaid, Medicare and Duals with the potential for additional LOBs during the Term. Each LOB will be supported by the Services (as set forth in Exhibit A of each SOW) combined and enabled through a transforming market relevant Application Platform and Infrastructure. Supplier will deliver these services under this Agreement.

The Cross-Functional Services are as specified in Schedule A (*Cross Functional Services*). This Schedule A-1 (*Cross Functional Services Solution Description*) describes Supplier's solution and approach for delivery of the Cross Functional Services.

The Cross-Functional Solution includes capabilities for the following Services:

- Business Continuity and Disaster Recovery Services,
- Training Services,
- Documentation Services,
- Enterprise Risk Management Services,
- Regulatory Compliance Adherence Services,
- Innovation Services,
- Root Cause Analysis Services,
- Managed Third Party Management Services,
- Reporting and Analytics Services,
- User Acceptance Testing Services,
- Return Mail Processing Services,
- Inventory Management Services,
- Collection of Funds Services,
- Issue and Error Resolution Services,
- Integration Services,

- Translation Services.

Cross Functional Services performed by Health Net as of the Effective Date provide a level of capability referred to as the “As-Is” capability. The Cross Functional Services will be evolved from the As-Is capability to an improved way of delivering the Services referred to as the “To-Be” as a result of certain Transition and Transformation activities set forth in the Transition Manual. This Schedule A-1 (*Cross Functional Services Solution Description*) describes Supplier’s To-Be approach for performing the Cross Functional Services. Specific processes and procedures for executing the Cross Functional Services will be documented and maintained as part of the Procedures Manual.

## **2. BUSINESS CONTINUITY & DISASTER RECOVERY SERVICES**

Business Continuity Planning (BCP) and Disaster Recovery (DR) Services are a Cross Functional Service as the function involves a solution that spans all towers and impacts Services defined across all SOWs. The following Schedules contain information related to the requirements, solution and approach, and transition for the BCP and DR Services:

- Schedule A (*Cross Functional Services*): Contains requirements for BCP/DR Services
- Schedule A-1-1 (*Business Continuity and Disaster Recovery Solution*)
- Schedule A-4 (*Supplemental Business Continuity and Disaster Recovery Requirements*)
- Schedule Q (*Security Requirements*)

Refer to Schedule A-1-1 (*Business Continuity and Disaster Recovery Solution*) for the solution and approach to meet the requirements outlined in Schedule A (*Cross Functional Services*), Schedule Q (*Security Requirements*) and A-4 (*Supplemental Business Continuity and Disaster Recovery Requirements*).

### 3. TRAINING SERVICES

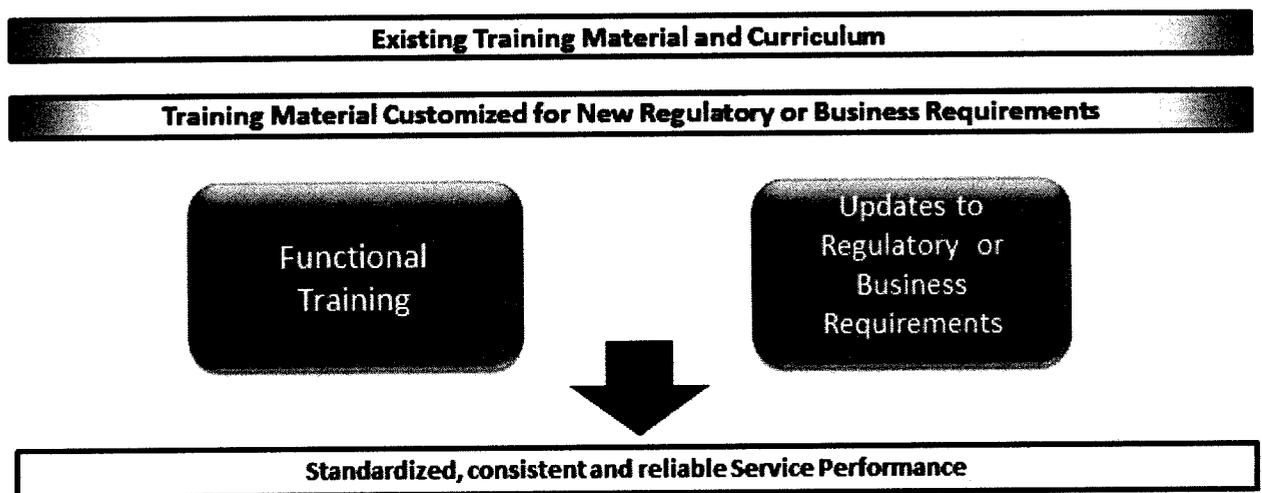

The Training Services includes functions associated with curriculum development, planning, scheduling and delivery of training to staff performing delivery of the Services. Training is linked to improving performance, developing new skills, adherence to regulatory/compliance regulation.

#### 3.1 Overall Approach

Supplier will follow industry standard human resource practices to manage service related Training Services as performed for the Services.

The Training Model will be set up as shown in the diagram below:

**Figure 1 – Training Model**

(a) Skill Gap Assessment:

- All resources will be mapped to the skills for their level and the next level for their role,
- Supplier will perform personnel competencies verification,
- The results will reflect, by resource, the gap in skill for the resource's current job level and the next level,
- Supplier will review the audit findings for gaps in training material or policy and procedure and update accordingly,
- Supplier will also assess the gaps in the Supplier training staff capabilities.

(b) Develop training material:

- Training requirements will be divided into process and soft skills,
- For domain training, Healthcare Boot Camp Training will be used to induct new team members for Healthcare specific processes,

- For process training, the desktop procedures created by operation teams will be reviewed to ensure they are as per defined procedures & formats and all new changes & updates are being documented,
  - Training curriculum and material to bridge the gap for the current level and ‘up-skilling’ will be identified for every resource including on Regulatory, Compliance, HIPAA Privacy and Security related aspects,
  - Training curriculum and material will be created for gaps identified in audits,
  - Other than process training, gaps in soft skills, e.g., communication, leadership, etc. will be addressed by customizing the standard Supplier training programs.
- (c) Training delivery:
- Training sessions will be organized for resources that have on boarded or per their individual training plan,
  - The Policies and Procedures will be used in the initial and refresher training sessions and will also be used to serve as reference material for resources on the job,
  - Training calendar will be created and updated related to process training and soft skills development,
  - Training staff will be trained using internal and external resources,
  - Training reports will be published to include attendance, course completion, etc.,
  - Training will be provided on researching, responding to, tracking and reporting privacy related incidents.
- (d) Training Effectiveness:
- New Supplier Personnel supporting the Services will undergo and successfully complete the boot camp training,
  - Training technology, methodologies, courses, content and approach will be reviewed and updated on a regular basis,
  - Testing of associates that have undergone training will be conducted to ensure that associates have learned and can apply what they have learned,
  - Supplier will measure the impact of training on service level performance, productivity improvements, etc.

### 3.2 Delivery Location

During Phase 2, Supplier will deliver the Cross Functional Training Services primarily from Woodland Hills, Rancho Cordova and San Rafael. During Transition, Supplier will gradually build training teams in India and Manila to coincide with the movement of staff to offshore locations. It is the intent to have trainers co-located with the staff for ongoing training to deliver the Services as well

as onboarding of new staff. Prior to Phase 3 the Supplier will move any remaining Training Services from Health Net facilities to Supplier service delivery location.

### 3.3 Staffing Considerations

Supplier will staff Training Services with a dedicated team while leveraging SME's from each Tower as needed.

### 3.4 Hours of Coverage

Training Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
-------------------	---------------------	--

### 3.5 Tools

The Learning Management System (LMS), or equivalent, as provided by Health Net.

### 3.6 Reliance and/or Constraints Associated with Third Parties

None.

#### **4. DOCUMENTATION SERVICES**

Documentation Services includes functions associated with the life cycle management of documents, specifically the cataloging, archiving, retrieval, and destruction of paper and electronic documents, in adherence with Health Net's Record Information Management (RIM) procedures.

##### **4.1 Overall Approach**

During execution of the Services, Supplier will classify documents according to the procedures outlined in Health Net's RIM process as outlined as follows:

- Supplier will also identify documents that are to be archived and retained,
- For paper documents, Supplier will coordinate with Health Net staff to catalog and package documents for offsite storage using Health Net's Managed Third Party Contract with Iron Mountain or other vendor designated by Health Net,
- Retrieval will be accomplished via the Iron Mountain Connect service/tool, or equivalent provided by Health Net,
- For electronic documentation. Supplier will retain document files per RIM procedures. Archival and destruction will be accomplished via coordination and approval steps with and by Health Net,
- The Supplier will archive Documentation consistent with RIM Procedures as well as submit request for authorization to destroy documents to the Health Net Document Manager and execute accordingly.

##### **4.2 Delivery Process and Methods**

The Cross Functional Document Services will provide coordination across Towers and consistency of delivery as relating to the Services.

Supplier's Solution will include:

- Classifying documents adhering to Health Net RIM policy,
- Identifying retention period for specific hard copy and electronic documents,
- Identifying documents to be archived periodically to offsite storage location,
- Coordinating with Health Net staff to catalog and package documents for shipment to offsite storage location,
- Utilizing automated tools to retrieve documents, as needed to support the Services, from offsite storage,
- Identifying documents or electronic information to be destroyed per retention policies and coordinating with Health Net to obtain proper approvals prior to destruction,
- Adhering to Health Net policies related to legal hold and records management,

- Notifying of any process changes to Documentation coordinators across the Towers,
- Destroying documents and / or electronic information as authorized by Health Net,
- Escalating issues or inconsistencies identified by Health Net and / or the Supplier for correction,
- Developing detailed procedures for producing, catalogue management, storing, retention, retrieval and deletion of the documents as part of the Procedures Manual,
- Ensuring the document management process is consistently deployed across all towers,
- Ensuring that user rights are defined in the desktop procedure and will conduct audits to ensure compliance,
- Conducting training on regular intervals for all resources working on document management tool and processes to ensure that the staff is adequately trained on procedures and policies,
- Updating procedures regularly (at least annually) or as needed to incorporate any changes,
- Auditing the document management process to ensure adherence to applicable policies.

Health Net Responsibilities will include:

- Reviewing and approving the detailed procedure created by Supplier for document management in the Procedures Manual as defined in Schedule R (*Critical Deliverables*),
- Providing the third party service for physical shipment and retrieval of documents to and from offsite storage location,
- Providing the automated document management tool to be utilized by Supplier and Health Net for retrieval of archived documents,
- Providing the retention policy to the Supplier.

#### **4.3 Delivery Location**

Supplier will deliver the Cross Functional Document Services from all locations where hard copy and electronic documents are created and maintained, including the Woodland Hills, Rancho Cordova, and other facilities put into operation during the Term. Supplier will leverage Health Net's offsite storage locations. Prior to Phase 3, the Supplier will move personnel performing Cross Functional Documentation Services from Health Net facilities to a Supplier Service Delivery Center near the Health Net Woodland Hills location.

#### **4.4 Staffing Considerations**

- Supplier will identify a Document Manager to be the centralized contact to coordinate document management services across towers. Supplier anticipates this to be a part time role in addition to other responsibilities within the centralized team.
- In addition, Supplier will identify an individual within each tower who will be responsible to coordinate document archival for their service area and to function as a single point of contact for

the centralized Document Manager as well as for Health Net for their service area. This document management responsibility within the tower will be a part time role in addition to their other responsibilities to deliver Services within the tower.

#### 4.5 Hours of Coverage

Documentation Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
------------------------	---------------------	--

#### 4.6 Tools

Iron Mountain Connect, or equivalent tool as provided by Health Net for catalog and retrieval of documents in offsite storage.

#### 4.7 Reliance and/or Constraints Associated with Third Parties

- Iron Mountain Connect, or equivalent tool as provided by Health Net for catalog and retrieval of documents in offsite storage,
- Managed Third Party Contract with Iron Mountain, or equivalent as provided by Health Net,
- Reliance on Health Net-provided vendor who handles intake of paper claims with responsibility for Documentation Services as it relates to the paper documents.

## 5. ENTERPRISE RISK MANAGEMENT SERVICES

In support of Health Net’s Enterprise Risk Management team (ERM), Supplier will work with Health Net’s Enterprise Risk Officer to identify existing and emerging risks to the fulfillment of the Services. Supplier will support the process to address risks that have been raised via a variety of channels, including identification of risks by Health Net’s team, Supplier Risk Officer, and Supplier teams within the towers who are responsible for delivery of the Services. Supplier will support risk assessments, and take necessary steps to monitor, report, re-assess, and mitigate identified risks.

### 5.1 Overall Approach

Supplier will support Health Net’s Enterprise Risk Management program, including applicable policies and procedures. Health Net’s risk framework will be used to define how Supplier will conduct and document risk assessments and mitigation strategies in coordination with Health Net. The framework will also be utilized to mitigate and monitor existing and emerging risks and to report such exposures, as well as mitigation plans, for visibility to appropriate stakeholders, owners, and executive leadership.

**Risk Control:**

Various risk control activities are carried out to preempt conditions that lead to the occurrence of risks / recurrence of previous risk events. Detailed root cause analyses are carried out and preventive and perfective measures are put in place to avoid future recurrence.

**Risk Identification:**

Risk across program associated with people and processes / work practices and phases of executive such as design, implementation, deployment etc. are identifies.

**Risk Monitoring:**

Track identified risks for possible occurrence. Additionally, new risks are identified and existing risks are re-evaluated as response plans are refined. The status of risks and response plans is reported to the response plans is reported to the Executive Steering Committee.

**Risk Analysis:**

Risks are analyzed to determine the impact they may have on the business operations, cost and schedule; the timeframe and likelihood in which the risk are like it to occur is also determined

**Risk Response:**

Depending on the impact and probability of each risk, determine the appropriate response (accept, watch, transfer, mitigate or contingency)

## 5.2 Delivery Process and Methods

Risk assessment processes will be established and adhered consistently across the towers and coordinated through a centralized Supplier function. The Supplier Risk Officer will:

- Be the single point of contact for the Health Net Risk Officer as well as a leader providing oversight and direction for internal Supplier teams who are integral to the process.
- Work with Supplier teams to identify current and emerging risks identified during performance of the Services.
- Collect and collate risks as identified by Supplier and provides material risk to the Health Net Enterprise Risk Officer as input to the Enterprise Risk Management process.
- Supports the entire life cycle of each material risk, including identification of emerging drivers of risks, maintenance of the risks inventory, assignment of owners responsible for creating and executing mitigation plans, monitoring and status reporting on mitigation activities, and ensuring proper focus to ensure risks are actively mitigated to the fullest extent possible.

Supplier will leverage the inherent relationship that exists between the Issues and Error Resolution Services, Root Cause Analysis (“*RCA*”) and Enterprise Risk Management to provide a robust solution to risk management:

- Where a tower level issue is determined to be material enough to cause an Enterprise risk, an RCA and corrective action plan will become part of the risk description and the mitigation strategy,
- Where Issues and Errors are identified by either the Quality Assurance Process or the Audit Process and are material enough to cause an Enterprise risk an RCA performed will be performed and a corrective action plan will be developed.

Supplier will work with Health Net to both manage the mitigation of the risks identified by Health Net as well as the agreed material risks raised by the Supplier.

Supplier will include the following in its Solution:

- Adopting Health Net’s Enterprise Risk Management framework to ensure that risks are being properly identified, assessed, monitored and reported at an enterprise level,
- Mitigating and managing the risk exposures as part of the day to day operational processes at the tower level,
- Identifying events (an important realistic threat that exploits a significant applicable vulnerability) with a potential negative impact on the goals or operations of the enterprise, including events that are market driven, regulatory, financial, legal, technological, involving third parties and operational aspects,
- Assessing on a recurring basis the likelihood and impact of identified risks, using qualitative and quantitative methods. The likelihood and impact associated with inherent and residual risk should be determined individually, by risk category including but not limited to operational, technology applications, infrastructure, third party contracts associated with the delivery of all Services,

- Developing and maintaining a risk mitigation process designed to ensure that cost-effective controls mitigate exposure to risks on a continuing basis. The risk mitigation process should identify risk strategies such as avoidance, reduction, determine associated responsibilities; and consider Health Net's tolerance levels for material risks,
- Prioritizing and planning the control activities at all levels to implement the risk mitigation strategies, including mitigation goals and responsibility for execution,
- Evaluating Third Party Managed Services deemed material in nature for enterprise risks, financial viability, technical currency, and marketplace reputation and reliance for Health Net's consideration in the overall Risk Inventory,
- Establishing operational risk management committees with representation from delivery head, tower leads and resources across all delivery locations,
- Defining a governance model to ensure the committees meet on periodic intervals to serve as a forum to track, report and rectify potential risk concerns and manage any risk,
- Monitoring execution of the plans, and report on any deviations to senior management; and
- Participating in Health Net's Risk Management Committee and/or Task/Force if requested by Health Net.

Health Net will engage the Supplier in the Enterprise Risk Management program to both manage the mitigation of the risks identified by Health Net as well as the agreed material risks raised by the Supplier.

Health Net will have the following responsibilities:

- Providing an opportunity to the Supplier leadership team to have an representation in the risk committee and operation risk review forum,
- Providing support and resolution as needed to execute mitigation plans where there are dependencies with Health Net retained responsibilities under the Agreement.

### **5.3 Delivery Location**

Enterprise Risk Management services will be supported by individuals across all facilities in all delivery locations. The Enterprise Risk Officer will be onshore, with an offshore counterpart located in India. Prior to Phase 3, the Supplier will move personnel performing Cross Functional ERM Services from Health Net facilities to a Supplier Service Delivery Center.

### **5.4 Staffing Considerations**

Supplier will staff a Supplier Risk Officer who will be dedicated in a full time capacity to perform the duties outlined in this section. In addition, there will be a Risk Lead identified in each tower who will function in a part time capacity as the single point of contact for the Supplier Risk Officer for their respective tower.

- The Risk Leads support all aspects of ERM services at the tower level including aggregation, identification, assessment, impact determination, mitigation strategies and plans, monitoring of status, and reporting risk information as appropriate.
- The Risk Leads have responsibility to manage risks specific to their tower – as well as the responsibility for enterprise level risks impacting their tower. Supplier SMEs and other resources also support the entire risk lifecycle as it relates to their assigned responsibility to execute the Services.

**5.5 Hours of Coverage**

<b>Enterprise Risk Management Services</b>	<b>08:00 am to 5:00 pm</b>	<b>Ad-hoc / after hour support will be provided necessary to meet Schedule A (<i>Cross-Functional Services</i>) requirements.</b>
--	----------------------------	---

**5.6 Tools**

- Enterprise Risk Inventory as owned and maintained by Health Net
- Tower level Risk Inventory as owned and maintained by Supplier

**5.7 Reliance and/or Constraints Associated with Third Parties**

- None.

## 6. REGULATORY COMPLIANCE ADHERENCE SERVICES

Supplier will build a quality and effective Compliance Program to support the Services which is based upon industry best practices, benchmarks, and Supplier's extensive background and familiarity with health care regulations and the foundational work and example set by Health Net. The Compliance Program is an essential tool for promoting regulatory compliance for operations and ethical conduct, and which enforces the detection, prevention, and resolution of non-compliant and illegal conduct, including fraud, waste or abuse. The core elements of the Regulatory Compliance Adherence Services will include the following seven essential elements:

- Conducting Internal Auditing and Monitoring,
- Implementing written policies, procedures and standards of conduct,
- Responding promptly to detected offenses and developing Corrective Action Plans,
- Developing effective lines of communication,
- Conducting effective training and education,
- Enforcing Standards through well-publicized disciplinary guidelines,
- Designating Compliance Officer and Compliance Committee.

### 6.1 Overall Approach

Supplier will assign a Compliance Officer to oversee and manage the Supplier Compliance Program for Services provided under this Agreement. The Supplier Compliance Officer will manage and oversee all aspects of Compliance for delivery of the Services. The Supplier Compliance Officer will report, in a timely fashion and in conformance with timeframes established by Health Net, incidents of suspected or identified noncompliance to Health Net's Compliance Officer.

Supplier's Compliance Officer will provide information as required by Health Net's Compliance Officer to ensure that Health Net's Boards of Directors are appropriately apprised of compliance issues and risks. Supplier will develop a comprehensive Compliance Plan that will be a written document describing the specific manner in which the Compliance Program elements will meet the standards for all lines of business. Specific procedures to execute the functions required of the Compliance Plan will be documented as part of the Procedures Manual.

Supplier's Compliance Plan will be reviewed and revised at least annually and align with Health Net's compliance plans for each line of business. If there are changes in regulatory requirements or changes to Health Net and Supplier business processes, the Compliance Plan will be modified throughout the year to reflect current Laws and business practices serving as the means of documentation of record and approach to be in compliance. The Compliance Plan will also include ongoing risk assessment and issue event response procedures so the program will respond in near real time to regulatory issues that arise, and have the capability to deploy appropriate resources where and when needed. The Compliance Plan will include processes for assessing the effectiveness of the Compliance Program, through the use of effective, two-way communications self-audit, feedback mechanisms, and reporting metrics.

Supplier will be accountable and have responsibility for ensuring compliance of all Services as of the BPaaS Services Commencement Date. Health Net will be the responsible party for performing the final interpretation of Compliance rules as they impact BPaaS operations and will provide specific requirements to Supplier's services teams to implement within the BPaaS scope. During Phase 1, Supplier will support Health Net's compliance activities and become familiar with Health Net's compliance processes. Supplier will build controls or leverage existing controls in all operational areas to maintain compliance with all applicable Laws as well as compliance expectations and requirements as determined by the Health Net Compliance Officer.

Supplier will provide operational dashboards and alerts to Health Net management. The Supplier's Compliance Officer will work to align development plans necessary to address the Changes Laws and directives as interpreted by Health Net.

Supplier will actively engage and maintain effective lines of communications with Health Net's Compliance Office and ensure information needed by Health Net compliance, legal and regulatory staff to provide information and support responding to any regulator requests is provided within the requested time periods to Health Net. Supplier will support all audits from state and federal agencies or their designees, as well as internal and external audits.

The Supplier acknowledges and recognizes that Health Net is responsible for ensuring Health Net compliance with applicable Law and Regulations. As such, Health Net will be responsible for interpreting new and modified Laws regarding the impact on performance of the Services. Health Net will also provide specific requirements regarding these Laws and the Supplier will implement within the scope of Services consistent with Health Net's interpretation and requirements. Health Net will continue to have direct responsibility for interacting with State and Federal Regulators. Supplier will participate in such meetings at the request of Health Net.

Supplier will incorporate and adopt, whenever possible, Health Net's Compliance Framework including Health Net's Code of Business Conduct and Ethics and all other applicable policies and procedures. Supplier will support the basic tenet of that framework such that leadership of each tower understands and takes accountability for the implementation and adherence to these standards, procedures and Laws in addition to working collaboratively with the Suppliers Compliance Officer to meet the requirements outlined through the Agreement.

The Supplier Compliance Officer will coordinate activities at an enterprise level, engaging responsible parties within the towers to achieve, monitor, and maintain compliance. In addition, the Supplier intends to adopt Health Net's Medicare Compliance Plan and various associated compliance policies and procedures.

## **6.2 Delivery Process and Methods**

Supplier will create a Compliance Office within the organizational structure that will be responsible for the following essential services:

- Developing Compliance policies and procedures,
- Monitoring to ensure guidelines and standards are being followed,
- Initiating and manage compliance projects,
- Reporting on status of compliance activities,

- Self-identification (self-reporting and self-audits) and the subsequent implementation of corrective actions,
- Participation on compliance committee.

The Compliance Office will take direction from Health Net's Compliance Office on the interpretation and impact on the Services or Health Net's departments of new Laws or changes to existing, state, and federal regulations. In addition, under Health Net's direction the Compliance Office will participate in external audits and interact with regulators from the DMHC, CMS, DMHCS, HHS, etc., or their designee.

The Compliance Office, led by the Supplier Compliance Officer, will manage compliance related aspects for the ongoing performance of the Services. The Compliance Office will develop or adopt policies and procedures and audits to ensure that all Supplier areas are following the guidelines and standards documented and established by Health Net. This will include the following activities:

- Implementing written policies, procedures and standards of conduct related to Health Net's interpretation of Laws into Policy supported by Procedures,
- Conducting Compliance education and training to the in-scope resources thereby enabling them to understand and conduct their duties consistent with Laws and Regulations,
- Providing for effective communication with Supplier Personnel related to Health Net's interpretations and policy decisions,
- Enforcing Standards through well-publicized disciplinary guidelines linked to education and training, monitoring and audit functions.

The Supplier will monitor Services to oversee and measure that Compliance guidelines and standards are being followed. From time to time, Regulatory Agencies or other interested parties may request reports or responses to their inquiries from Supplier. Such requests will need to be managed by the Suppliers Compliance Office under the direction of Health Net's Compliance Office.

Health Net's Compliance Office will be the overall responsible party in responding to Regulatory requests with direct support from the Supplier Compliance Officer and Tower Leads ensuring that the associated supporting documentation are accurate and available on a timely basis. As directed by Health Net, the Suppliers Compliance Office will respond to requests and create reports for regulators or other third parties such as but not limited to the following:

- Notice of Non-Compliance, Corrective Action Plans, or mitigation requests from any Regulatory agency (CMS, DMHC, DCHS, DOI),
- Complaints filed with any of the Regulatory agencies,
- Complaints related to sales and marketing issues,
- Secret Shopper issues and findings identified by CMS,
- Clarification of risks as identified in the OIG work plan,
- Audit findings from any Regulatory agency (CMS, DMHC, DHCS, DOI),

- Member “touch points” such as Appeals & Grievances, Claims, Member Services,
- Corrective Action Plan follow-up.

The Compliance Office will participate in responding to Regulatory requests and ensuring that the associated supporting documentation are accurate and available on a timely basis. The Compliance Office may also be periodically required to respond to requests and create reports for Employer Groups or other third parties.

Because it is essential that the Compliance Office is continuously updated about pending changes in Compliance standards or metrics, the office will participate in CMS’s annual Call Letter, receive CMS bulletins directly, compliance (HHS + CMS) webinars, conferences, and in-person hearings. For avoidance of doubt, the Compliance Office will not (i) represent Health Net in any way in any of these activities (e.g., indicating that Supplier is participating in a meeting or conference call on behalf of Supplier, and, (ii) act on any changes in Compliance standards or metrics without direction from Health Net. Health Net’s Compliance Office has the sole responsibility for final determination of the interpretation of any regulatory requirement.

The initiation and management of compliance projects is necessary to meet Health Net’s interpretation of Law and Regulations. The Supplier’s Compliance Officer will provide Health Net with project plans and status reports about the progress of all regulatory projects. The actual management of those projects will be performed by Supplier teams under the responsibility of the Supplier’s Compliance Officer. Supplier’s Compliance Officer will keep Health Net abreast of the current progress of these projects.

The Supplier will monitor and audit critical elements of a Compliance Program while each year Health Net’s Compliance Officer determines which Compliance-related elements will be used to develop the metrics for evaluating performance against regulatory standards. Supplier operational teams on behalf of Health Net will perform these monitoring and auditing activities including the necessary reporting.

The Supplier will provide reports and information that allows Health Net to identify areas that may require corrective action in order for the Health Net to achieve compliance with specific regulatory requirements.

The Supplier operational teams will perform audits and reporting with subsequent implementation of corrective actions to enable Health Net’s overall Compliance. The Supplier’s Compliance Office will lead the overall program and follow up to ensure that corrective actions plans to address identified risks are effectively implemented (including enforcing disciplinary actions where necessary).

The Supplier will provide education and training for its personnel necessary related to Compliance Laws and Health Net Policies.

The Supplier Compliance Officer will attend the appropriate Health Net compliance committees to respond to questions or provide details on audits or corrective action plans.

### **6.3 Supplier Compliance Standards**

Supplier associates will be trained upon on-boarding and annual re-certifying on Code of Conduct and Ethics. Specific Supplier employee related job training & certifications will include the following:

- OIG and GSA Background checks prior to employment and monthly thereafter for all Medicare and Medicaid associates,
- Health Net required compliance training (as revised and updated during the Term) including:
  - Mandatory for all Supplier Personnel and must be completed within 30 days of the date the Supplier Personnel is assigned to the Health net account and annually thereafter:
    - Health Net General Compliance Program (within 30 days of the date the Supplier Personnel is assigned)
    - HIPAA Basic Privacy and Security
  - The following training programs are mandatory for all Supplier Personnel and must be completed within 60 days of the Effective Date or the date the Supplier Personnel is assigned to the Health Net account and annually thereafter:
    - The Painful price of Health Care and Pharmaceutical Fraud (within 60 days of hire),
    - Health Net Code of Business Conduct and Ethics,
    - Record Information Management Training (previously Getting the Records Straight),
- Access provided to all Supplier Personnel to a Supplier 24X7 Hotline to report Compliance / Ethics issues.

#### **6.4 HIPAA Compliance**

Supplier associates will also be trained on HIPAA regulations, including enterprise responsibilities related to HIPAA and individual responsibilities. Compliance training will include the following:

- HIPAA Privacy and Security
  - Supplier security policies map to PHI mandates,
  - Administrative: Policy and Procedures necessary to detect, contain and correct security violations, Privacy Officer for Compliance, training modules & Contingency plans,
  - Physical: Workstation rules and standard configuration settings, Control on usage of portable devices,
  - Technical: Data encryption, Access Controls and Internal Audits.

#### **6.5 Supplier's Corporate Compliance Audits**

Supplier is familiar with Regulatory mandates, compliance and auditing. The following are examples of Supplier's current standards as of the Effective Date:

- SAS 70 / SSAE 16 Audit,
- SOX & Security Audit,

- ISO Surveillance.

Supplier resources will conduct training courses as required at a corporate level by the Supplier organization, including, but not limited to, HIPAA Training, Acceptable Use Policy, and Code of Conduct, in addition to the required Health Net required training courses.

## **6.6 Self-Reporting**

Supplier will utilize the Cognizant Corporate Compliance Hot Line and associated policies and procedures, which articulates its commitment to comply with all applicable laws and regulations. Any material items will be reported to Health Net immediately.

As a policy, Supplier culture and workplace environment is based on individual integrity, ethical behavior and non-retaliation of reported incidents or breaches by employees.

## **6.7 Delivery Location**

- During Phase 2, the Supplier Compliance Officer will be located in Rancho Cordova and Woodland Hills to facilitate establishment of the Supplier Compliance Program. During Phase 3, specific members of the Compliance Office may be co-located with service delivery teams where it is determined to be preferable.
- Close proximity is needed between the Health Net Compliance Office, the Supplier Compliance Office, and the Supplier delivery staff located both onshore and offshore who have compliance responsibilities. Members of the Compliance Office will be strategically placed to ensure optimum coordination by embedding Compliance team members offshore when appropriate.

## **6.8 Staffing Considerations**

- The design of the Supplier Compliance organization is intended to mirror the Health Net Compliance Office in terms of alignment of responsibility to specific roles and individuals.
- Counterparts within the respective organizations will facilitate the coordination between the two Compliance organizations and help them to work in tandem.
- Supplier will hire a full time Compliance Officer as the counterpart to Health Net's Compliance Officer. The Supplier Compliance Office will include the following full time positions:
  - Compliance Officer,
  - Compliance Lead – Medicare,
  - Compliance Specialist – Medicare (2),
  - Compliance Lead – Medicaid,
  - Compliance Specialist – Medicaid (1),
  - Compliance Lead – Commercial,
  - Compliance Specialist – Commercial (2).

- In addition to the full time Compliance Office, Supplier will identify a Business Compliance Consultant (BCC) within each tower who will be the primary point of contact for the Compliance Leads for coordination and execution of compliance functions performed at the tower level.
- Additional members will be added to the compliance office during Transition and over the Term as needed to successfully execute the Compliance Program.

**6.9 Hours of Coverage**

Regulatory Compliance Adherence Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
--	---------------------	--

- Supplier Compliance Ethics and Fraud and Abuse Hot-Lines will be available 24 by 7.

**6.10 Tools**

Tools currently used by the functional teams in support of Compliance will continue to be utilized.

**6.11 Reliance and/or Constraints Associated with Third Parties**

While there are third parties engaged in keeping the Services compliant (Optum, for example), there are no specific third party reliance or constraints as it pertains to the management of Regulatory Compliance Adherence Services.

## **7. INNOVATION SERVICES**

The intent of the Innovation Services is to provide guidance for the Road Map and operational transformation of Services compared to the marketplace resulting in market relevant and commercially viable products / services.

### **7.1 Overall Approach**

In addition to continuous improvement to the Services the Supplier will develop and annually update an Innovation Plan that will be the basis for material improvements to the Services over the Term.

Development of the Innovation Plan will involve an assessment of market trends, challenges, and capabilities in the market space, including market advancements, changing and evolving legislative drivers, competitive capabilities, as well as existing and emerging opportunities. The Innovation Plan will include benchmarks within the industry that can be used to measure efficiency and maturity of the Services.

The Innovation Plan will include targeted improvements, priorities, and recommendations that can be evaluated for inclusion in:

- The Road Map and/or,
- Discretionary projects,
- Non-Discretionary projects

with the goal of capitalizing on opportunities to continually mature and innovate the Services.

### **7.2 Delivery Process and Methods**

Supplier will assess the marketplace using a scoring system to rate the capability and maturity of the Services as compared to existing capabilities of competitors within the marketplace as well as emerging capabilities and needs within the industry.

The market place assessment will be evaluated against current capabilities as well as with the Road Map, Discretionary and Non-Discretionary project to determine material gaps that exist and the extent to which they are bridged by adopting the recommendations documented in the Innovation Plan. Supplier will engage Health Net in the development and evaluation of the Innovation Plan in order to align priorities and particular areas of interest as input to the plan.

Innovation Services will include the following activities:

- Monitoring and improving service delivery methods and identify weaknesses and opportunities for evolution and improvement to the service delivery methods while systematically implement those innovations,
- Monitoring industry trends, including through independent research, and document and report on products and services with potential application for Health Net on a quarterly basis,
- Developing an innovation plan that will be reviewed annually to include:

- Identifying general and industry specific business, technical and medical trends and forecasts that inform both the Supplier and Health Net of new opportunities that could be used to improve medical, financial or experiential outcomes;
- Identifying business challenges facing the Health Care Industry and Health Net relative to Health Net's stated business goals and objectives;
- Categorizing disruptive technological or scientific advances and their expected timeframes for practical (e.g., economically feasible) application of future advances within the context of Health Net's business and the Services;
- Reporting on the current STARS, HEDIS and NCQA rating for the Services over the previous year and a plan for improving each rating during the upcoming year;
- Identifying STARS goals for the upcoming year for each measure, initiatives to achieve the goals, and correlating metrics to track progress and inform that goals are on track; and
- Maintaining a rolling two year forecast outlining specific improvements in techniques, methods, processes or technologies that Supplier will implement to deliver ongoing Innovation within the scope of the Services and a list of prioritized recommendations as to how Health Net could take advantage of opportunities to innovate in areas related to the Services.

### 7.3 Delivery Location

Innovation Services will be supported by individuals across all facilities in all delivery locations. During Phase 2, the Innovation Lead will be onshore, with a counterparts in each tower in corresponding location of service delivery for each tower. Prior to Phase 3, the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net's headquarters.

### 7.4 Staffing Considerations

The Innovation Lead will be a part time role with support from SMEs at the tower level.

### 7.5 Hours of Coverage

Innovation Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
---------------------	---------------------	--

### 7.6 Tools

None.

### 7.7 Reliance and/or Constraints Associated with Third Parties

None.

## **8. ROOT CAUSE ANALYSIS SERVICES**

Supplier's solution will use a Root Cause Analysis (RCA) process that will ensure the resolution of issues designated for inclusion in the RCA including the identification and correction of root cause associated with any systemic issues until they are fully resolved while preventing reoccurrence.

### **8.1 Overall Approach**

The intent of the Root Cause Analysis Services is to thoroughly resolve issues through identification and resolution of root causes and to proactively identify systemic issues before they adversely impact delivery or outcomes of the Services. Issues that are candidates for Root Cause Analysis may come from many different sources, including issues identified during the course of delivery of the Services, issues logged in the Issue/Error Resolution process, issues identified through regulatory and audit processes, and many other sources.

Supplier will perform Root Cause Analysis (RCA) using a process that includes diagnosing, analyzing, recommending, and taking corrective measures across the Services. It is essential that RCA be performed across towers (i.e., not in a silo approach) to be effective. Supplier will maintain a centralized team that will monitor the Root Causes Analysis activities to conclusion.

The Root Cause Analysis solution will ensure improvement in efficiency and effectiveness by proactively identifying potential problems before these become trends and analyzing root causes of incidents once sources of the problem is uncovered. Supplier will perform an in-depth and formal RCA for critical issues and escalated issues or incidents.

### **8.2 Process and Delivery Methods**

Root Cause Analysis will be performed using industry standard practices. Supplier will conduct weekly Cross Functional meetings with representatives across the towers to review identified issues, identify and analyze root cause, and discuss progress towards resolution of root cause. Supplier will participate in meetings related to RCA with Health Net as needed to address RCA across the enterprise as needed.

Meetings will increase in frequency as needed, including daily and multiple times each day during peak periods. During these meetings, call drivers will be analyzed, identifying systemic issues in upstream processes.

Supplier will establish a centralized RCA function to manage and oversee activities across the towers.

The Supplier Solution includes the following:

- Collecting issues from multiple sources, including proactive search for issues that are candidates for Root Cause Analysis,
- Maintaining catalog of issues requiring Root Cause Analysis,
- Identifying owners responsible for RCA for each issue,
- Developing solution / corrective action,
- Monitoring status from identification to resolution,

- Documenting and reporting issues and root cause for compliance related issues within required timeframes.

Supplier will periodically meet with Health Net to refine the process and monitor progress. As required by Health Net, Supplier will include representatives from other areas of Health Net (e.g., Provider Network Management Department).

Specific procedures to perform the Root Cause Analysis function will be documented in the Procedures Manual. Identifying and categorizing all issues that need RCA including the following activities:

- Assessing the impact of the incident,
- Gathering data and other information required for the RCA,
- Performing RCA for all identified issues,
- Creating a corrective action plan to address and resolve the root cause while working to prevent recurrence of the incident,
- Providing RCA status reporting including action items,
- Performing root cause analysis as required by Health Net regulators in the required time frames,
- Monitoring and report on success of RCA solutions implemented,
- Analyzing incidents and RCA to identify trends,
- Analyzing trending to proactively identify, diagnose and correct recurring problems, and performance degradation and identify associated consequences,
- Tracking, diagnose and report recurring incidents, problems and failures, and performance degradation,
- Leveraging trending analysis methods and techniques to eliminate issues before they become problems.

### **8.3 Delivery Location**

The centralized function of Root Cause Analysis Services will be performed primarily from Woodland Hills and Rancho Cordova. Additional support will be provided from all delivery teams across all towers that reside in all delivery locations both onshore and offshore. Prior to Phase 3, the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net's headquarters.

### **8.4 Staffing Considerations**

The Supplier will establish a dedicated Project Management Office (PMO) that will include staff responsible to manage the Root Cause Analysis Services across the towers. The PMO will include full time dedicated resources that will include Root Cause Analysis as one of their responsibilities.

Resources within each tower will be engaged as it relates to Root Cause Analysis impacting their specific tower.

**8.5 Hours of Coverage**

<b>Root Cause Analysis Services</b>	<b>08:00 am to 5:00 pm</b>	<b>Ad-hoc / after hour support will be provided necessary to meet Schedule A (<i>Cross-Functional Services</i>) requirements.</b>
-------------------------------------	----------------------------	---

**8.6 Tools**

Existing Dashboards (i.e., Excel Spreadsheets) will continue to be used with plans to improve and mature the capability with a more robust tool during Transition. Focus of improvement in the area will include more direct point of capture of issues such that there is more data captured that can be used for identification of commonalities and root cause.

**8.7 Reliance and/or Constraints Associated with Third Parties**

None.

## 9. MANAGED THIRD PARTY CONTRACT SERVICES

As of the BPaaS Services Commencement Date, Supplier will manage Managed Third Party Contracts on behalf of Health Net as set forth in Section 3.8 (*Managed Third Party Management Services*) of Schedule A (*Cross Functional Services*).

### 9.1 Overall Approach

The portfolio of Managed Third Party Contracts is as set forth in Schedule A and will be segmented into either BPaaS scope with the intent to re-contract before Phase 3 (where applicable) or Non-BPaaS. Whether Supplier will subsequently re-contract directly with vendor will be guided by the terms as outlined in Schedule O (*Health Net Provided Resources*). Some contracts that are extremely large such as IBM and AT&T will be managed by a dedicated team and have specific financial objectives associated with oversight and optimization as called out in Schedule C (*Charges*). Managed Third Party Contracts is subject to the terms relating to the Use of Health Net Resources as outlined in Section 11.2(d) of the Terms and Conditions.

Managed Third Party Contracts will be managed by Supplier beginning on the Services Commencement Date. Any third party contracts that are procured by the Supplier prior to the Service Commencement Date will be managed from the effective date of that agreement. Contracts that are shared across BPaaS and non-BPaaS will either be split or agreed with Health Net to remain in the appropriate category for management as a combined entity with the intent of greater cost savings and management efficiency. The remaining Non-BPaaS managed contracts will be under the governance and control of Health Net. Supplier will help Health Net look for opportunities to optimize and reduce costs.

Supplier will manage third party services to help ensure BPaaS SLAs will be met. Supplier will focus on establishing a relationship with Health Net and bilateral responsibilities with qualified third-party service providers and monitoring the service delivery to verify and ensure adherence to SLAs, and underpinning contracts. This will be achieved by identifying and categorizing services, identifying and mitigating risk and monitoring and measuring performance

### 9.2 Process and Delivery Methods

The Managed Third Party Contract management team will liaise and communicate directly with technical and subject matter expertise in the Health Net retained organization and also report to the commercial and service integration team from a portfolio management and cost standpoint.

For the BPaaS portfolio, each contract will be evaluated and recommendations will be made to Health Net based upon review of the results. When applicable as outlined in Schedule O (*Health Net Provided Resources*), Supplier will determine if a contract already exists with Supplier that could be leveraged and, if not, look to negotiate appropriate terms and conditions for the Supplier to contract for the services directly.

Supplier may choose to use the same or similar solution as Health Net is currently using or in some cases may consider replace the technology or service component with something different but comparable allowing Health Net to terminate current services.

Depending on the category of third party services, different expertise and tools will be leveraged. There will be a central contract repository which will be the database for each contract to be managed by Supplier. While Supplier continues to manage the Managed Third Party Contracts, the original

Health Net contracts will be maintained by Health Net. Linked to this database will be other Supplier interactions which may be pertinent to the review process. Copies of all contracts and notes on key terms, conditions and licensing will be linked to the database.

Reporting will be created that forecasts, at the individual or portfolio level depending on agreed, “Hard Cap” or gain sharing agreements actual costs vs. baseline costs and performance. Compliance reports will be created to document license usage and to ensure no third party contracts are in violation of stated licensing requirements or guidelines.

Managed Third Party Management Services activities for both BPaaS and Non-BPaaS Health Net Contracts include:

- Identification of all suppliers services, and categorizes them according to supplier type, significance and criticality. Maintain formal documentation of technical and organizational relationships covering the roles and responsibilities, goals, expected deliverables, performance track record of past and current issues, escalations, and resolutions,
- Performance monitoring to ensure compliance with contract terms and conditions, SLAs,
- Recommendations and resolution of issues related to non-compliance,
- Monitoring license usage and maintaining compliance with the terms of third party licenses as defined in subtask 2.7.4 (*Configuration and Asset Management*) of SOW#4 Exhibit A-1-1 (*Process Definitions*),
- Tracking and managing orders, third-party catalog management throughout Phase 2 and Phase 3 for any remaining contracts that remain with Health Net,
- Monitoring performance to ensure compliance with contract terms and conditions as well as SLAs,
- Managing financial obligations such as reviewing invoices for discrepancies, submitting processed invoices for payment, resolution of billing and invoices disputes, etc.,
- Identifying and managing fee reductions and incentives, based on performance information and Agreement terms,
- Managing risks through mitigation to ensure services are delivered securely, efficiently and effectively meeting Health Net SLAs. Identify and mitigate risks relating to suppliers’ ability to continue effective service delivery in a secure and efficient manner on a continual basis,
- Escalating to Health Net known risks and areas of non-compliance,
- Ensuring that contracts conform to universal business standards in accordance with legal and regulatory requirements,
- Monitoring service delivery to ensure that the supplier is meeting current business requirements and continuing to adhere to the contract agreements and SLAs, and that performance is competitive with alternative suppliers and market conditions.

Health Net retains final decision making authority for any contracts that are managed on their behalf until such time they are procured by the supplier and the corresponding service is terminated by Health Net and the provider.

### 9.3 Delivery Location

The centralized function of Managed Third Party Management Services will be performed primarily from Woodland Hills and Rancho Cordova. Additional delivery and execution support will be provided from all delivery teams across all towers that reside in all delivery locations both onshore and offshore. Prior to Phase 3, the Supplier will move any remaining Third Managed Party Management Services personnel from Health Net facilities to Supplier service delivery location near Health Net's headquarters.

### 9.4 Staffing Considerations

For contracts managed by Supplier, Supplier will designate a Contract Manager as a single point of contact for Managed Third Party Contract Management Services. Contract Manager would be responsible for leading and owning the day-to-day decisions related to contract administration and negotiations pertaining to the services as identified and set forth in the Agreement. He/she will coordinate the contract negotiations/renegotiations to accommodate scope Changes, Changes to business requirements as identified by Health Net, and the management of Contract Change requests.

For contracts managed by Supplier, Individual portfolio leads will handle the specific negotiations and optimization of services based on the segmentation of the overall inventory of suppliers. These portfolio teams will report directly to the Contract Manager and PMO. During Phase 1, the team will be established and the dedicated portfolio leads will have team members who will each manage a section of the in scope contracts with objectives to review, optimize and close terms and conditions as defined. Each portfolio lead will leverage the virtual support of the following resources:

- Legal support for review and compliance,
- Alliance support services for major partners where applicable,
- Sourcing specialists to optimize buying power and cross client leverage,
- Technical Subject Matter Experts to review accuracy,
- Technical program management to measure and forecast pricing and outcomes,
- Product management across scope of services.

Supplier and Health Net Contract Management and Contract portfolio teams will work closely with procurement and legal counsel from both sides and follow Change Control procedures as outlined in Schedule H (*Change Control Process*) to:

- Create, negotiate and incorporate amendments into the Agreement,
- Coordinate the Agreement negotiations/renegotiations to accommodate scope changes or changes to business requirements per the contract change management process. Any such scope changes as well as exceptions to Health Net guidelines will require Health Net's prior written approval before any work is performed,

- Obtaining and documenting all requisite approvals to establish an appropriate audit trail, within Health Net guidelines for Managed Third Party Agreements.

Managed Third Party Contract activities include:

- Identification of all suppliers services, and categorizes them according to supplier type, significance and criticality. Maintain formal documentation of technical and organizational relationships covering the roles and responsibilities, goals, expected deliverables, performance track record of past and current issues, escalations, and resolutions,
- Leading and facilitating contract agreement activities from agreement signing through transition and ongoing operations (e.g., Interface for contractual change implementation),
- Performance monitoring to ensure compliance with contract terms and conditions, SLAs,
- Recommendations and resolution of issues related to non-compliance,
- Monitoring license usage and maintaining compliance with the terms of third party licenses as defined in subtask 2.7.4 (Configuration and Asset Management) of SOW#4 Exhibit A-1-1 (Process Definitions),
- Tracking and managing orders, third-party catalog management throughout Phase 2 and Phase 3,
- Monitoring performance to ensure compliance with contract terms and conditions as well as SLAs,
- Managing financial obligations such as reviewing invoices for discrepancies, submitting processed invoices for payment, resolution of billing and invoices disputes, etc.,
- Identifying and managing fee reductions and incentives, based on performance information and Agreement terms,
- Managing risks through mitigation to ensure services are delivered securely, efficiently and effectively meeting Health Net SLAs. Identify and mitigate risks relating to suppliers' ability to continue effective service delivery in a secure and efficient manner on a continual basis,
- Escalating to Health Net known risks and areas of non-compliance,
- Ensuring that contracts conform to universal business standards in accordance with legal and regulatory requirements,
- Monitoring service delivery to ensure that the supplier is meeting current business requirements and continuing to adhere to the contract agreements and SLAs, and that performance is competitive with alternative suppliers and market conditions.

## 9.5 Hours of Coverage

Managed Third Party Management Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
---	---------------------	--

**9.6 Tools**

To be developed

**9.7 Reliance and/or Constraints Associated with Third Parties**

As defined by each Third Party Agreement.

## **10. REPORTING AND ANALYTICS SERVICES**

Supplier will provide Health Net with data, tools and reports; operational and performance indicators; and other information deemed necessary by Health Net in order for Health Net to assess its business and Supplier service performance.

### **10.1 Overall Approach**

Supplier will approach Reporting and Analytics in three stages. Stage 1 will continue the current capabilities and tools that Health Net leverages today with the intent of producing the same information as of the Service Commencement Date. Stage 2 will focus on the requirements gathering and design of a Service Performance Reporting capability. Stage 3 will commence 6 months post the implementation of the Stage 2 and will focus on the requirements gathering and design of performance analytics for the Services and SLA associated with the Agreement. The market analysis research, solution/capability analysis, and resulting recommendations specific to Health Net will be documented for inclusion in the Innovation Plan. Stage 2 and Stage 3 are key input to the Innovation Plan and will feed directly into the improvement plans and Innovation Services process outlined in Schedule A-1 (*Cross Functional Services Solution Description*).

### **10.2 Process and Delivery Methods**

Supplier will use tools and methods available as of the BPaaS Service Commencement Date to:

- Continuing with same reporting format as at the time of execution of the Agreement. Any changes to the content and format must be pre-approved by Health Net,
- Providing reports based on ad-hoc and on-going requests,
- Analyzing the data to identify trends and potential risks. The output of this exercise will be added to the monthly and quarterly management reports,
- Leveraging the performance reports and the results of the trend analysis to assist Health Net develop business strategies and solutions.

As part of Stage 2, the Supplier will implement a Service Reporting tool that enables the Supplier to create reporting and dashboards for performance, joint situational awareness and governance meetings and end to end service delivery management.

Supplier will also provide other inputs to Stage 2 (reporting) and Stage 3 (analytics) as input to the Innovation Plan providing comparison with market peers and industry trends as input to market and Industry capabilities related to performance reporting for like services in the marketplace.

### **10.3 Delivery Location**

Supplier will deliver the Cross Functional Reporting and Analytics Services initially from Woodland Hills and/or Rancho Cordova facilities as determined by the Supplier. Phase 3 the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net's headquarters.

### **10.4 Staffing Considerations**

The Supplier will establish a Reporting and Analytics team that will work across all towers to perform Reporting and Analytic Services. SMEs from individual towers will support these efforts as needed.

#### 10.5 Hours of Coverage

<b>Reporting and Analytics Services</b>	<b>08:00 am to 5:00 pm</b>	<b>Ad-hoc / after hour support will be provided necessary to meet Schedule A (<i>Cross-Functional Services</i>) requirements.</b>
---	----------------------------	---

#### 10.6 Tools

To be determined during performance of the Services.

#### 10.7 Reliance and/or Constraints Associated with Third Parties

To be determined during performance of the Services.

## **11. USER ACCEPTANCE TESTING**

### **11.1 Overall Approach**

Cross Functional User Acceptance Testing includes those functions associated with planning, coordinating, and executing testing activities related to the Services with appropriate members of the Health Net retained organization. User Acceptance Testing methods and procedures are outlined in Schedule J (*Project Framework*).

### **11.2 Processes and Delivery Methods**

Supplier will coordinate and manage Cross Functional UAT Services for new and modified functionality as part of the system life cycle prior to the release into the production environment.

During the requirements gathering phase, UAT Coordinators and Business Analysts within the Supplier organization will perform the following functions:

- Determining the scope of testing that will be required,
- Identifying who within the retained organization will be involved in the testing phase for the set of requirements,
- Coordinating with the testers in the retained organization as they develop their own test cases to be executed during the testing phase of the project,
- Determining what needs to be in the UAT environment for the specific testing effort, including surround and core systems.

During the build phase, UAT Coordinators and Business Analysts within the Supplier organization will perform the following functions:

- Coordinating and managing the that test scripts are written,
- Identifying synergies that can be achieved across a particular release,
- Coordinating access administration to the testing systems,
- Providing training for the testers in the business area,
- Overseeing the preparation and loading of test data into the environments in the proper sequence so it is available when ready to test,
- Establishing a sequenced plan for data loads and batch cycles to support testing efforts,
- Overseeing and managing testing completion per plan,
- Prioritizing defect resolution to enable testing progress,
- Updating dashboards for reporting progress of UAT,
- Managing and coordinate “go-live” phase activities including:

- Performing testing immediately prior to the release to confirm there are no defects being staged into production,
- Monitoring system functionality and performance onsite during cutover to the new release (typically during off hours),
- Ensuring successful cutover into production,
- Environment planning, including when the test environments can be decommissioned.

**11.3 Delivery Location**

Supplier staff performing the coordination directly with testers in the retained organization will be co-located with the Health Net staff in on shore locations during Phase 2. Specific functions related to UAT planning, data loads, and the like may be performed in India and Manila. Prior to Phase 3, the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net’s headquarters.

**11.4 Staffing Considerations**

Supplier will have a dedicated team for Cross Functional User Acceptance Testing Services coordinating all User Acceptance Testing.

**11.5 Hours of Coverage**

<b>User Acceptance Testing Services</b>	<b>08:00 am to 5:00 pm</b>	<b>Ad-hoc / after hour support will be provided necessary to meet Schedule A (<i>Cross-Functional Services</i>) requirements.</b>
---	----------------------------	---

**11.6 Tools**

Testing Dashboard currently being used by Health Net.

**11.7 Reliance and/or Constraints Associated with Third Parties**

None.

**12. RETURN MAIL PROCESSING SERVICES**

**12.1 Overall Approach**

As of the BPaaS Services Commencement Date, Health Net will deliver the return mail to centralized locations within Supplier departments and Supplier Personnel will receive the return mail from Health Net and perform the Return Mail Processing Services. Detailed Process and Procedures to execute Return Mail Processing Services will be included in the Procedures Manual.

**12.2 Delivery Process and Methods**

Supplier will process the Return Mail Services based upon the type of return mail and the action required that would enable the mail to be re-delivered to the recipient. Steps will also be taken to ensure records are updated properly for any future mailings and correspondence. Where possible the new address information, if known (and permitted by regulators), will be updated in the system of record for the Member, thus raising the potential for successful delivery.

During the Term, Supplier may introduce improvements to the Return Mail Processing Services to enable portions of this Service to be performed offshore (subject to all Health Net offshoring restrictions). As part of Supplier’s Solution for the Return Mail Processing Services, the physical handling of return mail will remain onshore.

**12.3 Delivery Location**

Supplier will deliver the Cross Functional Return Mail Services from the Woodland Hills and/or the Rancho Cordova facilities in accordance with the location of return mail receipt by Health Net. If deemed to generate savings and/or efficiencies into the process, capabilities may be added offshore. In all cases, applicable data privacy and protection steps will be added to the process prior to an offshore movement. Prior to Phase 3, the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net’s headquarters.

**12.4 Staffing Considerations**

Supplier will identify a specific point of contact for Return Mail Processing and distribution. The staffing of the Cross Functional Return Mail Processing and Document Services will be a combined part time role and flex with the amount of volume of return mail received for processing.

**12.5 Hours of Coverage**

Return Mail Processing Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
---------------------------------	---------------------	--

**12.6 Tools**

Member Name and Address Information via Systems Support.

**12.7 Reliance and/or Constraints Associated with Third Parties**

Reliance on Health Net-provided vendor who receives mail from the post office and delivers to Supplier staff within the Departments.

**13. INVENTORY MANAGEMENT SERVICES**

Supplier’s approach to Inventory Management will include reporting to Health Net production and inventory numbers and attending meetings to discuss volumes, issues, and other operational topics to maintain work inventories within target levels.

**13.1 Overall Approach**

Inventory Management levels will be monitored and managed within the threshold tolerance levels to meet Service Levels.

- During Phase 2, Supplier will upgrade the current reporting system and integrate it into the management reporting approach outlined in Schedule G-3 (*Management Reports*).
- As an example of the approach, Supplier will create and maintain a daily accurate accounting for all inventories including transactions received, “in process” (i.e., transactions received, but not considered “complete” in the core system) and transactions completed to arrive at the production and inventories number. Based on the established process the Supplier will create an action plan when the inventory is outside of the established thresholds to get back to established target inventory levels.

Supplier will use the daily inventory management reports to control and maintain inventory within compliance and business service levels. Supplier will report the daily and cumulative monthly inventory management reports to Health Net.

**13.2 Delivery Location**

Supplier will deliver the Inventory Management Services across delivery location in US, India and Manila. Prior to Phase 3, the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net’s headquarters.

**13.3 Staffing Considerations**

Existing operational team across delivery locations in US, India and Manila will be leveraged for staffing with the Cross Functional Reporting and Analytics Services. The centralized PMO will establish process and procedure to ensure consistency across towers.

**13.4 Hours of Coverage**

Inventory Management Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
-------------------------------	---------------------	--

**13.5 Tools**

Current Reporting Tools used by Health Net (EIS, Omni/Prime, Macess, Excel Workbooks).

**13.6 Reliance and/or Constraints Associated with Third Parties**

None.

## 14. COLLECTION OF FUNDS SERVICES

Supplier will perform "Collection of funds" associated with collecting and depositing all monies for or on behalf of Health Net as envisioned in Schedule A (*Cross Functional Services*).

### 14.1 Overall Approach

Supplier will manage the Collection of Funds consistent with each of the Services in all the in-scope Towers. Supplier will redirect such funds to the appropriate lock box in a timely manner when funds are received outside of the standard process.

### 14.2 Delivery Process and Methods

Supplier will collect the checks/funds that are received at any facility at any time. Supplier will log the funds, package them for mailing and deposit and will direct them to the appropriate lock box via the United States Postal Service.

As part of the monthly operating meetings, the log and total funds received will be reviewed with Health Net. For monthly funds received that are in excess of thresholds set and adjusted for seasonality, a Root Cause Analysis will be executed and the results including recommendations and implementation plans for corrections, where appropriate, provided in the following month's report.

### 14.3 Delivery Location

Supplier will deliver the Cross Functional Collection of Funds Services from any location where such funds are received. Prior to Phase 3, the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net's headquarters.

### 14.4 Staffing Considerations

Supplier will staff the Cross Functional Collection of Funds Services on a part time basis as part of the Services being performed by the Supplier.

### 14.5 Hours of Coverage

Collection of Funds Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
------------------------------	---------------------	--

### 14.6 Tools

Collection of Funds log.

### 14.7 Reliance and/or Constraints Associated with Third Parties

None.

## **15. ISSUE AND ERROR RESOLUTION AND REPORTING SERVICES**

### **15.1 Overall Approach**

Cross Functional Issue and Error Resolution and Reporting Services is the specific function that logs, tracks and manages issues and errors identified as part of the internal audit, Compliance and QA functions. This Cross Functional Service is the management of the inventory of Issues and Errors that are identified to be resolved and managed to closure with the Towers as part of closing out the QA action items and Compliance and internal audit report findings. The intent of the Issue and Error Reporting Services is to provide an enterprise view of the material issues and errors that exist in the towers and timely manage them to closure while protecting against recurrence.

### **15.2 Processes and Delivery Methods**

Supplier will receive the Issues and Errors from Health Net in its scheduled weekly meetings or as a result of audit findings. Supplier will work with the internal audit, Compliance and QA processes to manage the inventory of Issues and Errors to closure and assess the month inventory to determine if there are any repeating patterns and material items that are candidates for inclusion in the Enterprise Risk Management Inventory or warrant the conducting of a Root Cause Analysis and corrective action plan. Supplier will ensure that Health Net's business and supplier delivery teams are meeting periodically to define and discuss Issues and Errors, identify owners, develop solutions/corrective action, including an assessment of the adequacy of current system and process controls, track and resolve issues. As required, Supplier will also include representatives from provider networks, pharmacy networks and other towers in the meetings.

In addition to this, Supplier will also manage all SOX/IPC requirements relative to its solution and Issues and Errors impacting these requirements.

Root Cause Analysis will be performed if the Issues or Errors are systemic and can be prevented in the future. Supplier will use the lessons learned to create a risk and mitigation plan to contain such Issues and Errors in the future if these are deemed material in nature. Data will be mined to help uncover Issues and Errors that will ultimately lead to process improvements and cost savings. Supplier will identify systemic issues along the process flow, especially upstream. All compliance related issues will be escalated following Health Net guidelines. Higher priority will be assigned to recurring Issues and Errors.

Supplier will automate the data collection and synthesis process. Efforts will also be made to collect observations from resources on the ground to better understand the Issues or Errors.

### **15.3 Delivery Location**

The centralized function of Issue and Error Resolution and Reporting Services will be performed primarily from Woodland Hills and Rancho Cordova. Additional support will be provided from all delivery teams across all towers that reside in all delivery locations both onshore and offshore. Prior to Phase 3, the Supplier will move any remaining Innovation Services personnel from Health Net facilities to Supplier service delivery location near Health Net's headquarters.

### **15.4 Staffing Considerations**

Supplier will establish a dedicated Project Management Office (PMO) that will include staff responsible to manage the Issue and Error Resolution and Reporting Services across the towers. The

PMO will include full time dedicated resources whose responsibilities will include Issue and Error Resolution and Reporting. Resources within each tower will be engaged as it relates to Issue and Error Resolution and Reporting impacting their specific tower.

#### 15.5 Hours of Coverage

<b>Issues and Error Resolution Services</b>	<b>08:00 am to 5:00 pm</b>	<b>Ad-hoc / after hour support will be provided necessary to meet Schedule A (<i>Cross-Functional Services</i>) requirements.</b>
---	----------------------------	---

#### 15.6 Tools

Issue and Error Log.

#### 15.7 Reliance and/or Constraints Associated with Third Parties

None.

**16. INTEGRATION SERVICES**

**16.1 Overall Approach**

Supplier will support interfaces that integrate third party products and services as of the Effective Date. Subject to Change Control, Supplier will additionally support modifications to existing interfaces as well as support for new interfaces as needed to support the Services and as requested by Health Net. Supplier will coordinate directly with third parties as necessary to support the Integration Services.

Integration Services categories are anticipated to be:

- Electronic Data interface (EDI) scheduled at regular intervals, it will be used to send and receive data from third party vendors and will be scheduled at regular intervals. Such interfaces will use proprietary framework,
- Third-party integration in real time (Burgess, for example) typically used for claims processing or pricing,
- Integration aligned to processing, (iHealth, for example).

**16.2 Processes and Delivery Methods**

Integration Services will be evaluated on a case-by-case basis and managed as part of the Third Party Management Services to evaluate the overall effort of integration as well as the long term maintenance and support of the integration. In conjunction with the towers, the Cross Functional Integration Services will manage the overall inventory of external interfaces as well as coordinating the evaluation of the services being integrated.

This process will be highly integrated with the Services in SOW 4 (*IT Services*) to provide oversight and coordination for an holistic view of integration across the enterprise.

**16.3 Delivery Location**

Supplier will deliver the Cross Functional Integration Services from the locations where Services are performed within the towers.

**16.4 Staffing Considerations**

Supplier will staff the Cross Functional Integration Services on a part time basis as necessary to perform the Services.

**16.5 Hours of Coverage**

Integration Services	08:00 am to 5:00 pm	Ad-hoc / after hour support will be provided necessary to meet Schedule A ( <i>Cross-Functional Services</i> ) requirements.
----------------------	---------------------	--

**16.6 Tools**

Integration Services Inventory.

**16.7 Reliance and/or Constraints Associated with Third Parties**

As identified by each Integration Services as part of this process.

## 17. TRANSLATION SERVICES

“*Translation Services*” includes functions associated with voice translation as well as the translation of documents to multiple languages as required by policy and Health Net contracted agreements.

### 17.1 Overall Approach

The Supplier will perform Translation Services related to three types of communications: (i) voice translations (within the Contact Center Tower or other Towers), (ii) document/written translations (across all Towers), and (iii) translation support for a member at a Provider’s location (i.e., such member requests as handled via the Contact Center Tower).

The Supplier will coordinate this Cross Functional Service using Health Net’s current third party translation service providers using Health Net’s current process and allocation approach. Supplier will comply with Health Net’s list of approved languages by line of business for translation. The Supplier will have a centralized point of contact to facilitate/manage the coordination of translation services. Each tower will maintain policies and a budget to cover the Translation Services with the approved vendor(s).

### 17.2 Delivery Process and Methods

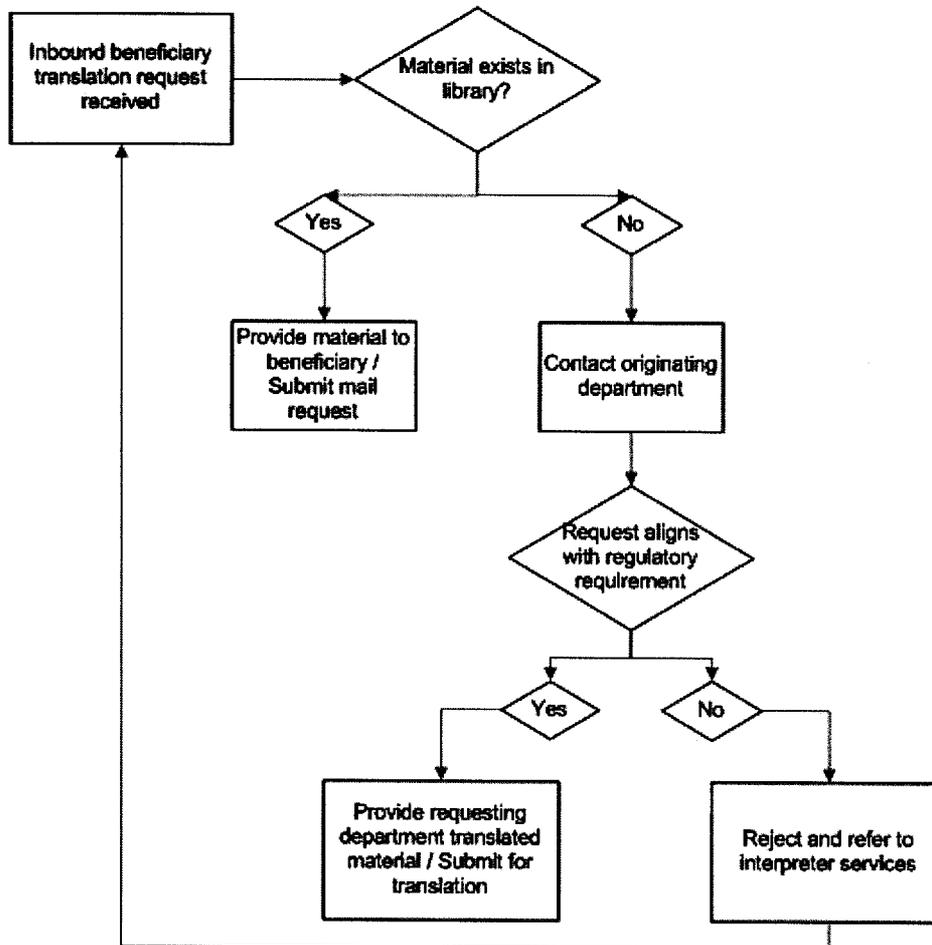

The Cross Functional Translation Services will provide coordination across Towers and consistency of delivery related to the translation required at the tower level.

Supplier responsibilities include:

- Maintenance of the “Translation Source of Truth,” containing:
  - Health Net’s approved list of languages by line of business for translation
  - Regulation rule and section
  - Regulation verbatim
  - Compliance/SME contact
  - List of vital documents by LOB
  - Model disclaimer language
  - List of interpreter service resources to which members can be referred for translations not handled by Health Net (i.e., for non-approved translations)
- Documentation of procedures to execute Translation Services in the Procedures Manual that are consistent with the “Translation Source of Truth” to include the following:
  - A list of required documents / languages that are proactively translated year over year and made available to business areas
  - Processes for the handling of translation requests that fall outside of departmental policy
  - Escalation process when input or decision is needed from Health Net and the Supplier’s Compliance Officer

- Process for notifications sent to downstream departments whose materials may be impacted
- Process to measure operational results at established checkpoints (i.e., quarterly or annually as needed)
- Process to review and allocate cost of third party translation services across each tower as needed by Health Net to support internal charge back needs
- Update procedures on recurring schedule and as needed to incorporate changes in policy and/or Health Net contractual commitments,
- Ensure continuity of service for any modification to policy and procedures, including:
  - Pilot revised policy and procedures with a selected Tower
  - Review results with Tower Leads to determine the refinements and to confirm any modifications continue to meet Regulatory and Compliance guidelines as well as Health Net's requirements
  - Deploy updated charge back approach, providing Health Net with the appropriate charges based upon usage for Translation Services
- Conduct training on regular intervals for all resources working on Translation Services to ensure that the staff is adequately trained on procedures and policies,
- Manage the third party translation service providers on behalf of Health Net as part of Third Party Managed Services until such time as the Supplier can transition the contract agreement directly with Supplier.

The graphic below illustrates the high-level process of handling requests for the translation of documents and providing approvals at the tower level.

### 17.3 Delivery Location

- The centralized function of Translation Services will be performed primarily from Woodland Hills and Rancho Cordova. Prior to Phase 3, the Supplier will move supplier personnel from Health Net facilities to Supplier service delivery location near Health Net headquarters.

### 17.4 Staffing Considerations

- Supplier will identify a single point of contact to coordinate Translation Services across towers. Supplier anticipates this to be a part time role in addition to other responsibilities within the centralized team.
- In addition, Supplier will identify an individual within each tower who will be responsible to coordinate Translation Services for their service area and to function as a single point of contact within the tower. This Translation services responsibility within the tower will be a part time role in addition to their other responsibilities to deliver Services within the tower.

**17.5 Hours of Coverage**

<b>Translation Services</b>	<b>08:00 am to 5:00 pm</b>	<b>Ad-hoc / after hour support will be provided necessary to meet Schedule A (<i>Cross-Functional Services</i>) requirements.</b>
-----------------------------	----------------------------	---

**17.6 Tools**

To be determined.

**17.7 Reliance and/or Constraints Associated with Third Parties**

Managed Third Party Services Contract with Health Net's Translation Service Providers as provided by Health Net.

**SCHEDULE A-1-1-2..... 1**

**SCHEDULE A-1-1-2..... 1**

**SCHEDULE A-1-1-3..... 1**

**SCHEDULE A-1-1****HEALTH NET BUSINESS CONTINUITY PLAN/DISASTER RECOVERY****1. EXECUTIVE SUMMARY**

The Business Continuity Plan (“**BCP**”) is designed to ensure that the business operations of Health Net are not affected by the occurrence of a disaster or in case of an emergency situation. The BCP ensures commitment of Supplier towards delivering the highest quality solutions and making sure that the services offered to Health Net are protected in the event where any of our service locations becomes inoperable, or any other issues require us to move the work elsewhere. The BCP reiterates our commitment to deliver the highest quality solution using the Global Delivery Model, and protecting Health Net from service continuity risks. Our business continuity plans are based on the need to protect professional staff, computing infrastructure, and intellectual property in order to help Health Net remain in business through any contingency; that includes provisions to ensure the mobility of professional skills along with fully redundant communications backbones and computing infrastructures.

The plan presents the actions and procedures necessary to recover from an adverse event. When totally implemented, the plan is designed to establish availability of employees to carry out the designated assignments, data center processing, network communications and all business unit functions within desired timeframes from identified recovery sites as per the plan. It is aimed at achieving the following during any disaster struck.

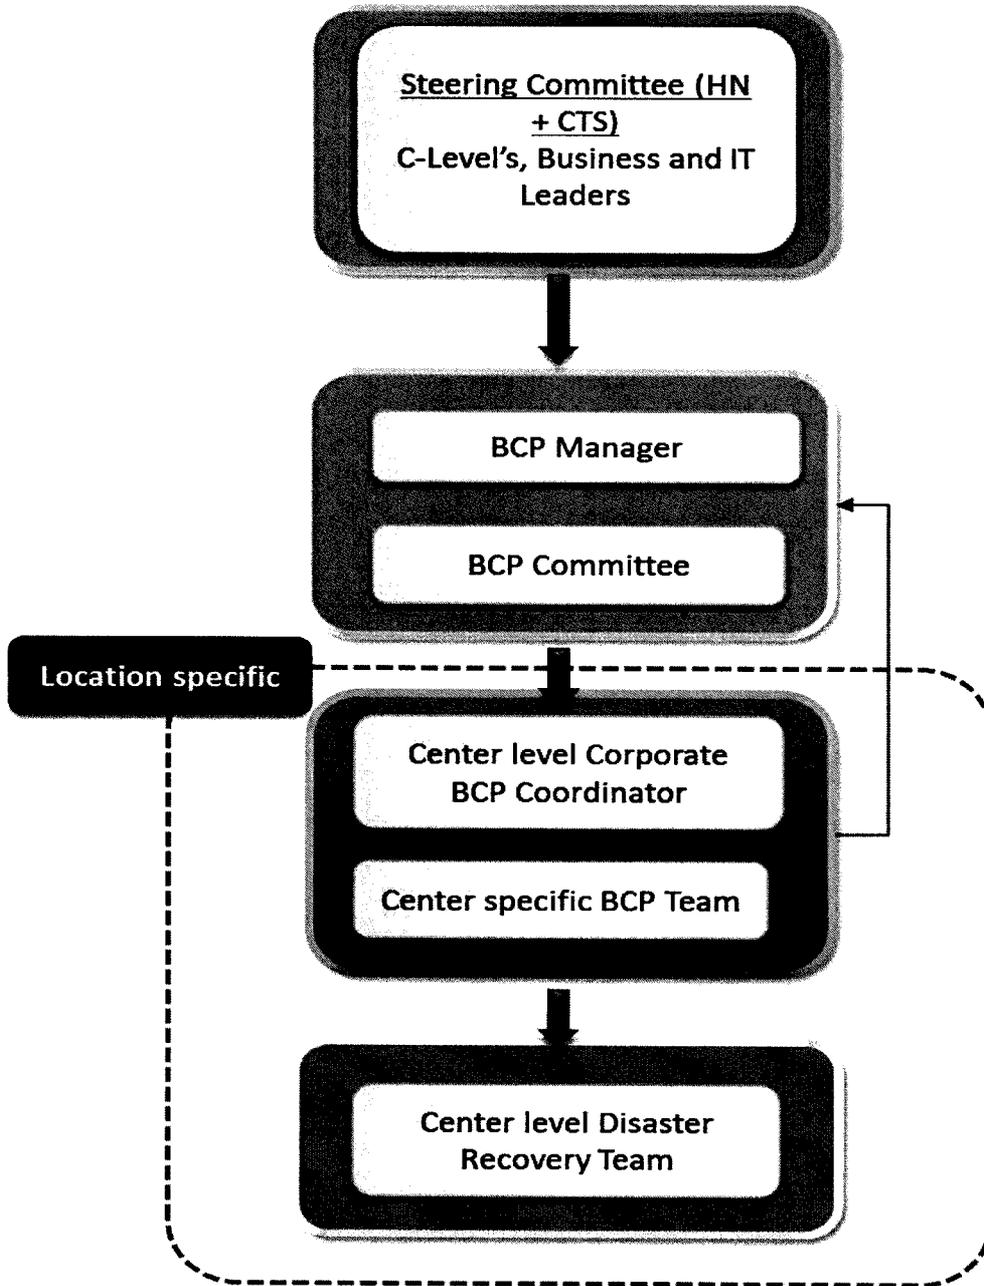

- Minimizing potential economic/business loss
- Reducing the probability of occurrence
- Reducing disruptions to operations
- Providing an orderly recovery
- Ensuring the safety of personnel
- Minimizing legal liability
- Adhere to regulatory and legal requirements

**2. SCOPE**

This document covers the overall Supplier’s Health Net business continuity strategy that would form the base for the business continuity procedures for each of the following functions:

- BPaaS
- Non BPaaS
- ITIS

3. ORGANIZATION STRUCTURE OF BCP

### 3.1 Roles and Responsibilities

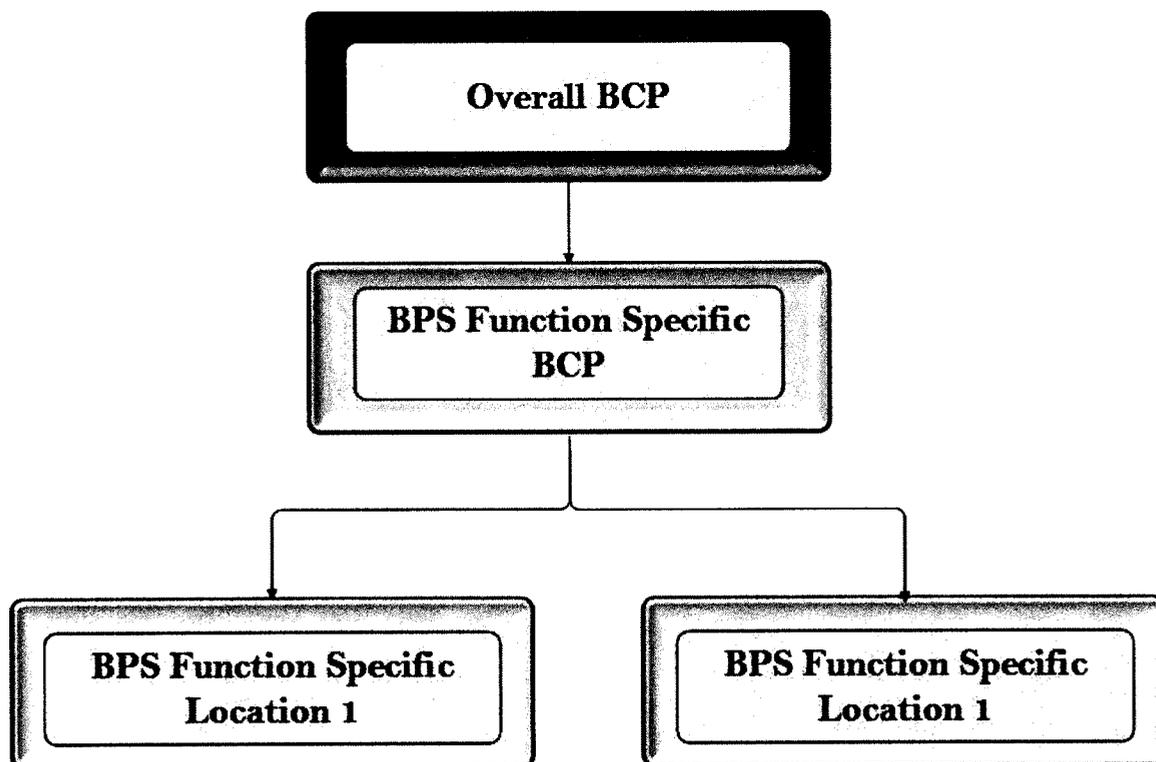

Supplier Role	Responsibilities
Steering Committee (C-Level's, Business and IT Leaders)	<ul style="list-style-type: none"> <li>• Review the detailed disaster recovery plan &amp; Execution</li> <li>• Declare a disaster based on the agreed communication plan between Health Net and Supplier</li> <li>• Provide direction on prioritizing the list of projects applications/Systems and services to be recovered during a disaster.</li> <li>• Ensure effective communication across all associates/customers involved</li> <li>• Review the critical processes for restoration in case of a disaster</li> <li>• Health Net and Supplier groups will be part of this role</li> </ul>
BCP Manager	<ul style="list-style-type: none"> <li>• Coordinate the development and maintenance of the Corporate BCP manual by the BCP committee</li> <li>• Coordinate the development and maintenance of the center level BCP procedures manual at each center.</li> <li>• Coordinate the development and maintenance of the BCP plan</li> <li>• Manage and direct the business continuity activities across the organization</li> <li>• Ensure that the plan is updated on a regular basis</li> <li>• Drive the recovery process during disaster/emergency situations</li> <li>• Monitor the organization wide, center level and project specific BCP testing process</li> <li>• Ensure these are in compliance with the documented process</li> <li>• Ensure that the Corporate BCP manual is available across multiple locations</li> <li>• Health Net and Supplier groups will be part of this role</li> <li>• Ensure that all the Center Level BCP team members have the latest copy of their respective Center Level BCP Procedures manual</li> <li>• Ensure that such manuals are also stored in a different site.</li> <li>• Coordinate BCP awareness activities across the organization</li> </ul>
BCP Committee – (Comprise of Functional Head from IT/IT IS/BPS Team)	<ul style="list-style-type: none"> <li>• Develop and maintain the Corporate BCP Manual on a regular basis</li> <li>• Develop and maintain the BCP plan on a regular basis.</li> <li>• Ensure that the plan is tested at least annually.</li> <li>• Ensure that the BCP objectives are in line with the business requirements</li> <li>• Identify &amp; review the critical processes for restoration in case of a disaster</li> <li>• Prioritize the list of projects applications/Systems and services to be recovered during a disaster</li> <li>• Ensure effective communication across all associates/customers involved</li> <li>• Review the detailed disaster recovery report prepared by the Center Specific BCP Team members on completion of recovery process</li> </ul>

Supplier Role	Responsibilities
Center Specific BCP Coordinators	<ul style="list-style-type: none"> <li>• Identify and nominate the Center specific BCP/DR team with representation from various functional units</li> <li>• Manage and direct the business continuity activities within the center</li> <li>• Coordinate with center specific functions for the preparation and test execution of BCP/DR</li> <li>• Manage the recovery process within the center during disaster/emergency situations</li> <li>• Initiate/approve the recovery plan for the center and inform the Center Specific BCP/DR Team to action</li> <li>• Ensure periodic status updates are communicated to the BCP Manager/BCP Committee</li> <li>• Prepare a disaster recovery report on completion of recovery process and submit the report to BCP Committee</li> </ul>
Center Specific BCP Team	<ul style="list-style-type: none"> <li>• Provide feedbacks to BCP Committee and Center Specific BCP coordinators, regarding development and maintenance of the BCP plan on a regular basis</li> <li>• Identify and nominate the Center specific BCP Disaster Recovery team with representation from various functional units</li> <li>• Identify the critical processes for restoration in case of a disaster</li> <li>• Ensure effective communication across all associates/customers involved</li> <li>• Instruct the Disaster Recovery Team to carry out the recovery process at the time of disaster</li> <li>• Inform concerned Functional to activate their Function Specific BCP</li> <li>• Review and publish a detailed disaster recovery report on completion of recovery process to Center Specific BCP Coordinator</li> <li>• Ensure periodic status updates are communicated to the Center specific BCP Coordinator</li> </ul>
Disaster Recovery Team	<ul style="list-style-type: none"> <li>• Assess damage</li> <li>• Analyze the impact on business</li> <li>• Clearly relate damage assessment to business continuity of organization</li> <li>• Identify and isolate damaged assets</li> <li>• Assess the reusability of damaged assets</li> <li>• Understand economics of repair versus replacement</li> <li>• Implement the recovery process as per the plan</li> <li>• Periodically update the Center Specific BCP Team on the status of recovery process.</li> <li>• Coordinate with vendors/contractors for the recovery process.</li> <li>• Carry out the business resumption</li> </ul>
Functional Leads – Center Specific	<ul style="list-style-type: none"> <li>• Will be part of Center Specific BCP Team</li> <li>• Develop current and viable plan for business continuity</li> <li>• Identify and nominate the BCP team for the respective functional units</li> </ul>

Supplier Role	Responsibilities
	<ul style="list-style-type: none"> <li>• Coordinate with the Corporate BCP Coordinator for maintenance of the plan</li> <li>• Identify and list out all critical functions and time frame for restoration of the services in case of a disaster</li> <li>• Ensure that proper Escalation and Communication process is in place and it is updated regularly</li> <li>• Manage BCP activities within the function</li> <li>• Monitor the implementation of the functional level plans during disaster/emergency situations</li> <li>• Monitor the implementation of the tests as per the plan and schedule</li> <li>• Prepare a unit specific disaster recovery report on completion of recovery process</li> </ul>

**3.2 Business Process Services (BPS) Specific BCP Chart**

The chart below depicts how a BCP will be defined at each BPS Function level like Contact Center, Membership, etc. This covers all locations for a given Business Function from BCP perspective.

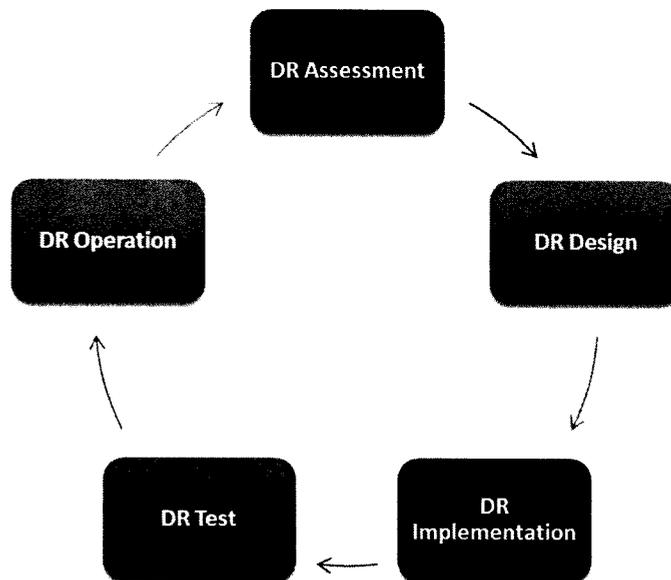

#### 4. DISASTER RECOVERY PRE-PLANNING PROCESS

Supplier provides comprehensive DR services and would execute the DR process in accordance with ITIL V3 Service Continuity Management (SCM) and perform the activities by leveraging the existing knowledge base and frameworks of Supplier.

Supplier has built capabilities to provide end-to-end DR services which include the following:

- Conducting Risk Assessment
- Conducting Business Impact Analysis
- Categorizing resources into various criticality levels
- Designing Disaster Recovery solutions for resources under various categories of criticality
- Implementing the DR solutions
- Management and maintenance of the DR Program
- DR Audit / Assessment

The below sections describes the various stages of Supplier's DR preparedness;

##### 4.1 Disaster Recovery Assessment

This is the most important stage of the Supplier's DR preparedness. This stage focusses on creation of the DR plan in conjunction with all the involved stakeholders. This stage also focusses on the creation of crisis management plan and exhaustive list of activities to be executed with proper schedule.

**Activities:**

- Analyze and Propose infrastructure layer including network, storage, servers, virtualization, operating system etc. and create an as-is map of infrastructure to be later used as an input in the DR design phase
- Analyze current platform including database servers, application servers, Email, Citrix etc. and create an as-is map of the current platform to be used later as an input to the DR design phase
- Analyze current application integrations, dependencies and batch jobs and create a map, to create a Service Recovery Order (SRO) document
- Analyze current support and operational processes and identify potential process gaps in both implementation and support of the DR solution.
- Analyze end user connectivity methodology to identify dependencies and ensure transparent recovery for end users

**4.2 Disaster Recovery Design**

This stage focusses on the designing of an effecting DR solution for Health Net. Supplier will interview stake-holders to gain and be up to date on the DR requirements and design, update the end state DR solution for Health Net.

**Activities:**

- Prepare High Level DR Solution Architecture depicting key technology components that constitute the solution. The Solution Architecture will also include the technical requirements that align to the business requirements specified in the DR Strategy as well as technology constraints, dependencies and risks.
- Prepare detailed design for each infrastructure and platform layer including Network, Storage, Servers, virtualization, and support infrastructure stressing the role played by the respective layer in enabling the DR solution.
- Prepare detailed application specific Disaster Recovery documents in collaboration with application subject-matter-experts with references to the infrastructure and platform recovery designs that are prerequisites for the application recovery.
- Prepare Service Recovery Order (SRO) document derived from the BIA document and the application integration document.

**4.3 Disaster Recovery Implementation**

This stage focusses on the implementation of the DR design stage.

**Activities:**

- Prepare a High Level implementation plan and schedule based on inputs from the application /infrastructure Architect and detailed design. The plan should include high level resource requirements from the required cross functional teams.
- Prepare detailed Implementation Plans and checklists for implementing the requisite Infrastructure and support platforms at the DR facility
- Prepare a detailed vendor management plan for coordinating between various vendors that are required to implement the solution
- Implement requisite support infrastructure (e.g. patching, monitoring) at the DR site.
- Implement DR solution at the DR Facility and the requisite components at the Primary site in coordination with the colocation vendors and network service providers
- Prepare updated support process documents for handover

#### **4.4 Disaster Recovery Test**

In this stage the test cases are executed to ensure full functionality of all devices and network are working as expected. This test will be done in isolated environment, production environment will not be disturbed during this testing. All the databases are tested for consistency of data. Supplier and Health Net will sign off on the post test result. In case of adverse DR test, Supplier team will ensure the normal operation of resources through primary site and shall do a root cause analysis of the causes of failure. The same will be shared with the Health Net and another DR testing for the failed test cases would be scheduled as per the plan (at least annually).

##### **Activities:**

- Prepare DR Test Strategy aligned to the High Level DR strategy and consequentially the business requirements of disaster recovery
- Prepare Test schedule in alignment to the Implementation schedule
- Prepare detailed application level DR test plans derived from regression test plans of the application.
- Prepare user acceptance plan for business sign-off for the DR test
- Execute and Verify Test plans

#### **4.5 Disaster Recovery Test Completion**

This is the stage where the communication of successful/unsuccessful completion of the DR test is shared with various stakeholders with the key learnings. The documentations which need to be submitted in this stage are:

- Revised DR plan
- DR Execution run book

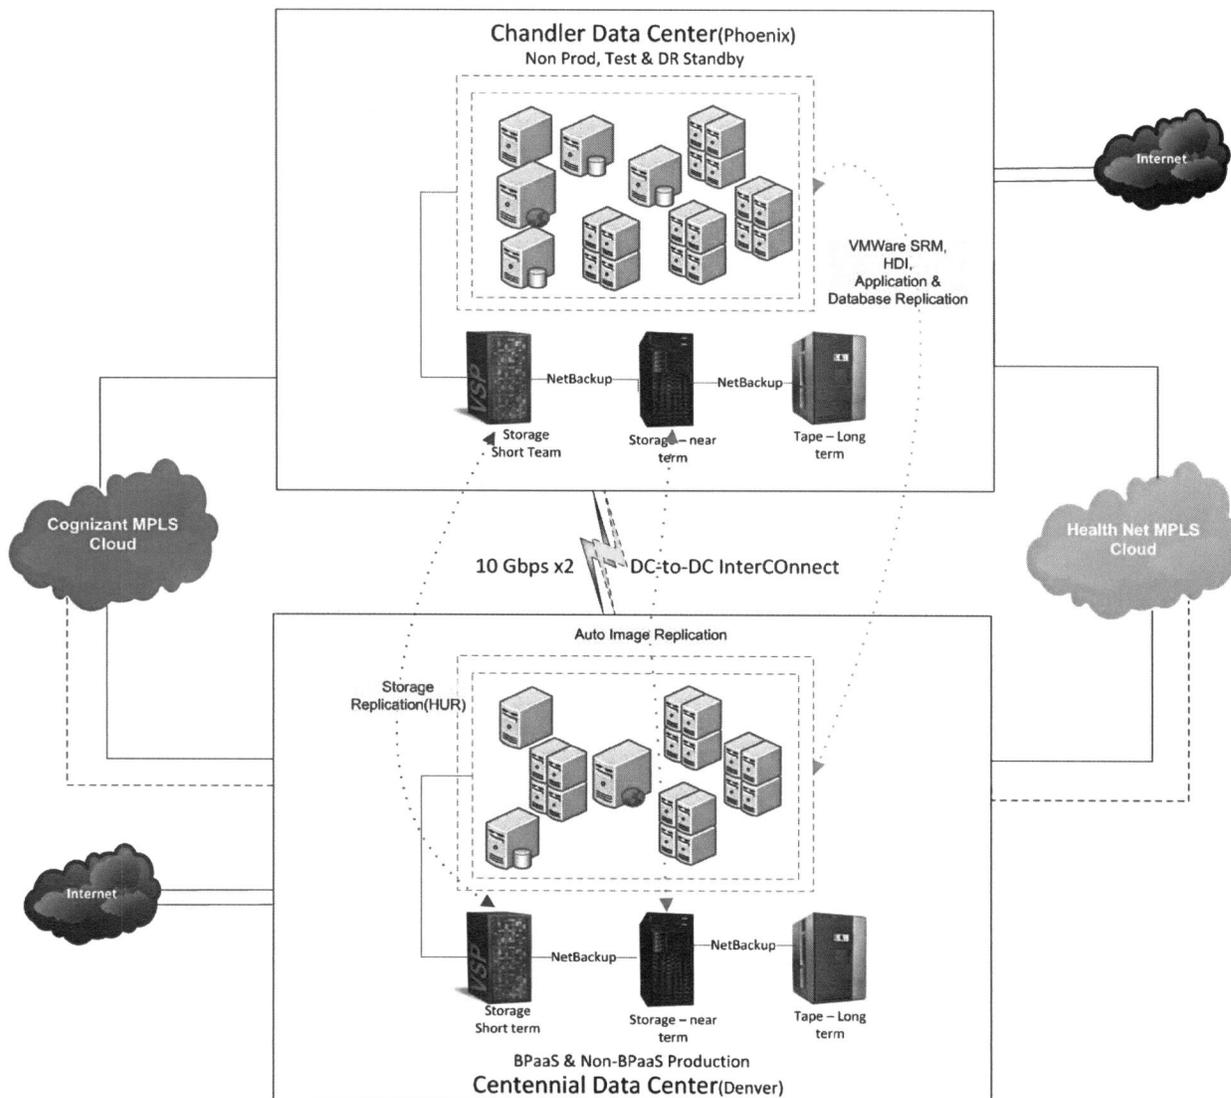

- Post test results

#### 4.6 Disaster Recovery Approach

Supplier will follow the methodology defined - DR Assessment, Design, Implementation, Test, Operations. This is an iterative process to include changing business needs. Currently Supplier proposes the below DR architecture which will be validated and updated during the DR Assessment phase. The timeline of DR Design will be aligned to ITO Phase 2 timelines, as there is a wave based migration approach for applications to Supplier DC and DR solution will be designed based on the application criticality, RPO & RTO.

#### Target DR Architecture

Below diagram illustrates the DR sites (secondary datacenter) and the involved architecture for the Supplier approach:

Supplier approach to Health Net DR is to exceed their current DR capabilities by means of below mentioned methodologies

- Will have dedicated Hardware for ABS HP Integrity and Alpha servers
- Will have dedicated AIX and Solaris hardware to support applications utilizing these system types by using LPAR/LDOM
- Will have dedicated VM for windows and LINUX needs, but will take advantage of VMware and have zero resources applied to them until need for a DR or DR test
- Will have dedicated Storage pool for DR, that will have HUR (Hitachi Universal Replicator) replication with Centennial (Supplier primary datacenter) for production
- Development environment may be used for Cold Stand by needs

## 5. BUSINESS CONTINUITY PLANNING PROCESS

### 5.1 Business Impact Analysis

The Business Continuity Planning Process shall be based on the ISO 22301 standard. A Business Impact Analysis or BIA estimates the possible consequences of a sudden, unplanned, severe interruption for any reason and determines the priority of the recovery of processes and supporting technical and non-technical supporting components within the recovery time demands set forth in the BIA.

The purpose of Business Impact Analysis is to

- (a) Identify all applications and its criticality
- (b) Based on criticality, set the priority for recovery of services (tier's in this case)
- (c) Establish an estimate of the maximum tolerable downtime for each service offering
- (d) Determine the type of fallback arrangements required in case of a disaster
- (e) Determine the priorities and processes for recovery of critical business processes

The list of all applications and its criticality has been given in Schedule A-1-1-3.

### 5.2 Criticality of Application Description

The applications have been classified into one of the three Tiers based on the criticality of the applications disruption

- (a) Tier 1

Any application disruption that would stop the business or function would be categorized as "**Tier 1**".

- (b) Tier 2

Any application disruption that would affect the business or function but still the bare minimum activities can be carried out would be categorized as “*Tier 2*”.

(c) Tier 3

Any application disruption that would cause some inconveniences to the business or function would be categorized as “*Tier 3*”.

### 5.3 Criticality of Business Process Services Description

The services have been classified into one of the four based on the criticality of the services disruption. They are Vital, Essential, Necessary and Desirable.

(a) Vital

Vital services are defined under Tier 1 services, any disruption in service that would stop the business or function would be categorized as “*Vital*”. The RTOs for Vital services are as defined in the Terms and Conditions.

(b) Essential

Essential services are defined under Tier 2 services, the criticality would be classified as “*Essential*” if the service affects business but still the bare minimum activities can be carried out. The RTOs for Essential services are as defined in the Terms and Conditions.

(c) Necessary

Necessary services are defined under Tier 3 services, “*Necessary*” services are the ones, which, if not available causes some inconveniences to the business or deliverable. The RTOs for Necessary services are as defined in MSA .

(d) Desirable

Desirable services are defined under Tier 3 services, all “*Desirable*” services will fall into the category of cosmetic services where the downtime will not affect business in anyway. The RTOs for Desirable services are as defined in MSA .

### 5.4 BCP Triggers

A Disaster can happen for many reasons. Some of them are listed below;

- Primary Data/Network Center is impacted
  - Network Connectivity Failure (LAN, WAN, Internet, MPLS, etc.)
  - Network Device Failure (Firewall, Router, Switch etc.)
  - Application Failure (Active Directory, Exchange, Project File Share etc.)
- All Tier 1 and Tier 2 applications stop functioning
- Multiple locations are impacted and Business cannot carry out critical functions

- Social unrest
- Flood
- Transport disruption
- Extreme Weather
- Fire
- Power blackout
- Seismic Events (Earthquake, Tsunami)
- Pandemic Outbreak (In a situation of 25% - 50% of Absenteeism)
- Terrorist Attack

BCP would be activated when any one of the events occur as mentioned above which would cause a serious impact to business services. The escalation process mentioned in Section 12 would be followed to control the situation, initiate recovery process and communicate as necessary.

## 6. BUSINESS CONTINUITY POLICIES FOR HEALTH NET

- The BCP Coordinator would invoke the BCP process in consultation with the BCP committee
- It is the responsibility of the BCP Committee to ensure that adequate spare resources are made available at the backup sites as mentioned in the functional procedures
- It is mandatory for all BCP team members to maintain two copies of business continuity procedures for their respective functions in an easily accessible and secure location
- The BCP shall be reviewed and updated at least once a year or according to Health Net's schedule if any major changes take place
- The BCP shall be updated whenever major additions, upgrades, deletions take place to the underlying hardware, network environment, office infrastructure or key personnel
- Any changes to the BCP needs to be notified to the entire BCP team and all the existing hardcopies should be withdrawn and replaced with the updated BCP
- The BCP testing process for critical services referenced in SOW#4 (IT Services) Exhibit B (IT Service Levels) would be done once a year. All the functional tower units shall maintain BCP pertaining to their functions.

### 6.1 Intra-city/Inter-City Alternate Sites

Refer Schedule F (*Supplier Facilities*) for details around;

- (a) Infrastructure Sites

- (b) Service Delivery Sites
- (c) Application Delivery Sites
- (d) Business Process Services Sites

## **6.2 Policies for Network and Systems Support**

This will be updated after the due diligence phase

## **6.3 Policies for Business Critical Functions**

- All applications identified by their tiers will have to be up and running as per defined RTO and RPO guidelines per Schedule A-1-1-2.
- The application teams should coordinate with the concerned functional tower unit and identify the business continuity plans for the critical services
- Use multi-location delivery organization such that in the event of a complete facility-level outage at any of the one location, \*\*\* of the business remains unaffected on account of being in a different city
- For all critical processes performed at the primary site, Supplier will create a minimum of \*\*\* BCP capacity by cross training resources with similar skills and expertise at alternate locations.

## **6.4 Policies for Administration (Supplier facilities only)**

- All the facilities shall have adequate fire detection and prevention equipment tested annually
- All electrical fittings shall be adequately maintained for efficient functioning
- All confidential and sensitive documents shall be stored in fire proof cabinets in secured locations
- All facilities will be guarded round the clock by trained security personnel or by security equipment
- There will be well defined evacuation procedures available in all the facilities
- All facilities with multiple floors will have floor coordinators as lead personnel at times of fire, flood or similar exigencies
- All the data centers will have adequate backups for air conditioners
- Since power is a very vital service, we will ensure that redundant/backup UPS be available in all the facilities UPS and Generators will be tested monthly
- It is mandatory to have a standby generator in all the facilities

- It is mandatory to have enough fuel for generators and agreement with the vendor for fuel supply in case of extended disaster

**6.5 Policies for Human Resources (Supplier resources only)**

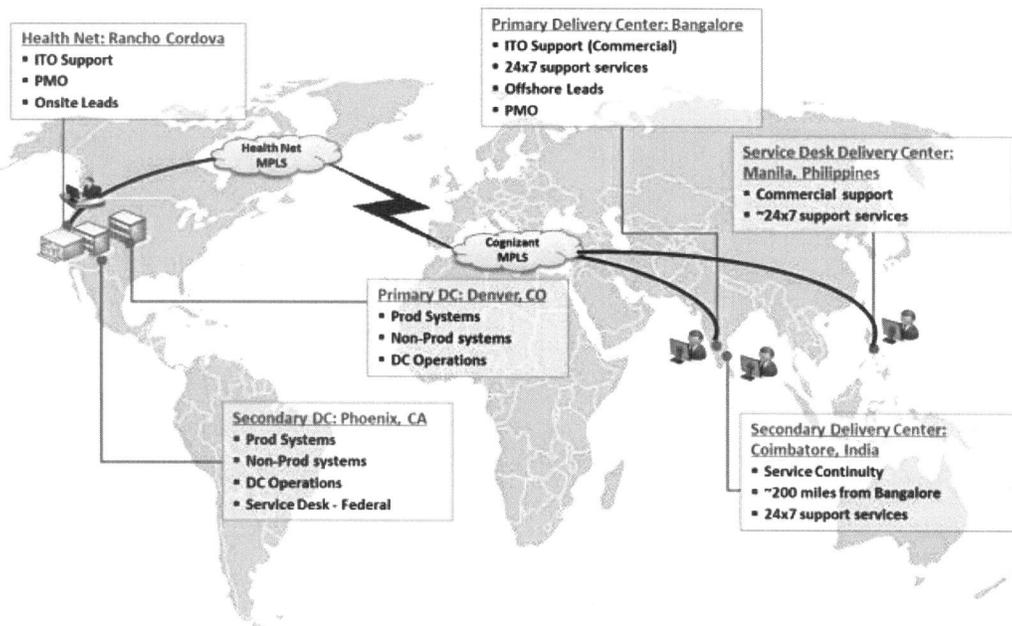

- In case of a disaster HR should ensure that all the associates are safe. It should also set up a helpdesk to communicate to the associates regarding the disaster.
- It should have tie ups with travel agencies for making travel arrangements in short notice and leverage Supplier Travel Desks across delivery locations as necessary to meet the travel needs when associates need to be transported to secondary delivery centers during a business continuity scenario.

**7. DISASTER RECOVERY STRATEGY FOR HEALTH NET**

Supplier has a robust and proven BCP that ensures that services offered to Health Net are protected in the event where any of our service locations becomes inoperable, or any other issues require us to move the work elsewhere. The BCP reiterates our commitment to delivering the highest quality solution using the Global Delivery Model and protecting Health Net from service continuity risks. Our business continuity plans are based on the need to protect professional staff, computing infrastructure and intellectual property in order to help Health Net remain in business through any contingency; that includes provisions to ensure the mobility of professional skills along with fully redundant communications backbones and computing infrastructures.

**7.1 Infrastructure (ITO) Strategy**

As part of the BCP Plan, Supplier will provide a fallback strategy to manage disruptions affecting delivery locations. The fallback strategy that we will deploy for Health Net is given below:

Supplier has a multi-site presence in each location as well as a multi-location presence so that each site / location acts as a fall - back to the other with respect to infrastructure.

In India, the delivery centers Coimbatore and Bangalore will be fallback locations for each other. Systems for HA/DR includes Power, WAN - Connectivity Inter-City and Health Net locations, Internet Connectivity, Metro Ethernet - Connectivity to multiple facilities within the city. Supplier will strategically plan Onsite team presence to effectively respond to disruptions and meet their recovery objectives. Both the Offshore delivery centers are geographically separated by two hundred (200) miles (of reach).

Onsite support for both Federal and commercial will be delivered from Health Net office at Rancho Cordova and AeroJet, for example, will be fall back locations for each other based on Health Net's approval and availability of office space.

Bangalore and Coimbatore are the two offshore delivery locations identified for Health Net. Both the offshore locations have Health Net skilled resources working on various technologies. In case of BCP/DR situation both locations will cover each other respectively.

At Manila, Cebu is a service desk ready location and operations can start immediately once BCP/DR is invoked and has all the required resources and skills for service desk function.

Supplier has flexi resources at their delivery centers worldwide. These can be deployed quickly during the BCP/DR situation. All these resources are technically skilled covering wide spectrum of technologies including niche skills

## **7.2 Business Process Services (BPS) Strategy**

The BPS strategy involves the restoration of normal business operations after an unexpected event which has disrupted all or part of the business process. From a Business perspective, this is the most critical phase of the whole BCP.

The BPS strategy will either follow directly the Infrastructure recovery phase or will be directly initiated after a serious emergency incident affecting normal business operations depending upon the disaster impact.

Supplier's BCP approach is based on the RTO and RPO (refer Schedule A-1-1-2) and Application Criticality (refer Schedule A-1-1-3).

When implemented, the BCP/DR plan will establish availability of employees, and workspace with the required technology and network access to carry out the designated assignments, within the proposed recovery plan and time frames

Supplier's multi location delivery organization provides a first level of BCP/ DR of about fifty percent (50%), wherever the in-scope processes provide minimal scale and scope to have operations to be distributed equally in two different cities. For such processes, in the event of a complete facility-level outage at any of the one location, fifty percent (50%) of the business remains unaffected on account of being in a different city.

After completion of Phase 2, processes that are transactional in nature (excludes roles like Business Analysts, Business System Analyst and Project Management) and delivered from a single location, For all critical processes performed at the primary site, Supplier will create a

minimum of twenty-five percent (25%) BCP capacity by cross training resources with similar skills and expertise at alternate locations. The actual availability of the seats during an outage will also be determined by the severity of the event, and the actual BCP/ DR plan prepared during the start of the engagement will fully cover these aspects.

During the transition planning phase Supplier will identify critical processes within the critical Business Functions which will be prioritized over other processes, subject to a cap of the maximum available BCP capacity in the back up location.

Please refer to Schedule F (*Supplier Facilities*) for identified critical Business Functions by Delivery locations.

## **8. BUSINESS RESUMPTION PROCESS**

Once the disaster recovery has taken place the business continues in the alternate site. However, it should be noted that the business should resume from the home site since the alternate site is for a disaster elapsed period only. The alternative site will be available / utilized until the move to the home site is completed.

For returning back to home site, the following should be planned to ensure the business operations are not disturbed:

### **8.1 Infrastructure Set-Up or Recovery**

For Health Net ITO outage, the infrastructure recovery will be executed per the RTO, RPO guidelines defined in Schedule A-1-1-2. Regular updates will be provided to Health Net and its impacted Business Functions until the business functions are restored.

For Supplier location specific infrastructure outage, Supplier's corporate BCP plan will be executed for restoration.

### **8.2 Business Functions/Projects Recovery**

It will be the responsibility of functional tower units to take care of migration of their units into the home site(s) as part of the business resumption process. They will be supporting the projects move into the home site by coordinating with respective project managers.

The order of business services that need to be restored will be per the tier guidelines defined in Schedule A-1-1-3.

## **9. BCP TESTING PROCESS**

### **9.1 Purpose**

It is essential that the BCP process be tested annually in order to ensure the following to

- Ensure all critical activities outlined in the plan are functioning to combat any disaster
- Measure the effectiveness of the Business Continuity Process
- Verify compatibility of backup facilities

- Ensure the adequacy of team procedures
- Identify deficiencies in procedures
- Team members training and awareness
- Provide mechanism for maintaining/updating the plan
- Address the needs of any additional resources
- Assess the preparedness for handling any disaster

## **9.2 BCP Test Plan**

BCP Test Plan needs to be established for all critical Business Functions. These test plans may contain one or more of the following;

- Structured Walkthroughs (Review of test plan)
- Life exercises/Simulations
- Periodic off-site recovery tests/Parallel (Done once a year currently at Health Net)

## **9.3 BCP Test Periodicity**

The services categorized under Tier 1 category that might have an impact on the business need to be tested at least once in year. If there is a deviation from this process it should be documented and approved by Health Net.

## **9.4 BCP Test Reports**

Upon completion of the BCP testing process a detailed test report should be presented to BCP committee and Health Net. This report should include the following

- Type of test conducted
- Test Scenario
- Desired Result
- Actual Result
- Acceptable recovery time
- Actual Time taken for recovery
- Problems faced, if any
- Corrective measures with anticipated corrective dates

## **10. BCP REVIEW AND MAINTENANCE**

To ensure that the BCP is current and effective, the BCP policy and procedures should be reviewed and updated as defined in Schedule A (*Cross Functional Services*). The responsibility for review of Health Net BCP Manual shall lie with the BCP Coordinator and the BCP Committee.

#### **11. PROCESS FOR INCLUDING A NEW SERVICE IN BCP**

The following process needs to be followed for including a new service as part of BCP;

- Risk assessment should be done for the service
- It should be categorized in Schedule A-1-1-3 based on criticality
- An alternate plan should be developed to mitigate the risk and it should be included as part of the BCP
- The BCP test plan should be updated to reflect this change

#### **12. ESCALATION AND COMMUNICATION PROCEDURES**

This section would cover the communication and escalation process to be followed for any disaster. The escalation process would be based on the disaster categorization and criticality of the services affected.

If a disaster has been declared by an authorized Health Net Executive, the following shall be identified immediately

- Details of disaster
- Impact of the disaster
- Identify relevant existing recovery procedure and plan
- If it is a new disaster scenario, prepare recovery plan/procedure
- Time estimate for recovery

The Center Specific BCP Coordinator would trigger the recovery process and also inform the BCP Manager and BCP Committee.

The Center Specific BCP Team would intimate the Disaster Recovery Team to report immediately.

The Disaster Recovery Team shall immediately initiate the recovery procedure.

If any Business/IT Functions are affected, the concerned head will be intimated by the Center Specific BCP team to take necessary action and invoke Function specific BCP.

The BCP Manager would invoke the Communication process for intimating the Steering committee.

The Center Specific BCP Team and the BCP Committee would be updated on the status of the recovery process by the disaster recovery team every hour or on completion of each phase whichever is earlier.

The Administration and HR group would set up a temporary helpdesk for intimating the concerned people about the disaster.

## SCHEDULE A-1-1-2

### DEFINITION OF BCP TERMS

#### 1.1 Recovery Time Objective (RTO)

Elapsed Time from the time when a disaster is declared until IT infrastructure and data recovered and project can resume operations.

#### 1.2 Recovery Point Objective (RPO)

In the event of an outage, the point in time to which systems and data must be recovered. (E.g. end of previous day's processing) determined by the responsible business unit(s). RPOs are often used as the basis for the development of backup strategies, and as a determinant of the amount of data that may need to be recreated after the systems or functions have been recovered

#### 1.3 Recovery Time Objective (RTO)

The targeted duration of time and a service level within which a business process must be restored after a disaster (or disruption) in order to avoid unacceptable consequences associated with a break in business continuity.

**SCHEDULE A-1-1-2****RTO, RPO BY APPLICATION CATEGORY**

RTO and RPO for all Health Net applications by categories are detailed below:

Sl. No.	Application category	RPO and RTO Details
	Tier-1	As Per Schedule A- 4
	Tier-2	As Per Schedule A- 4
	Tier-3	As Per Schedule A- 4

**SCHEDULE A-1-1-3**

**HEALTH NET APPLICATIONS AND ITS CRITICALITY**

Table below shows the list of Tier 1, 2 & 3 applications for Commercial, Federal and Corporate applications. This information is provided by Health Net and will be updated during the assessment and based on the Critical SLA commitments between Health Net and Supplier.

Application category	Commercial Application	Federal Application	Corp Application

- Schedule B-2: Compliance Service Level Metrics
- Schedule B-2-1: Compliance Measures
- Schedule B-2-2: Payment of Fines that Cover Critical Compliance Service Level Failures
- Schedule B-3: Performance Guarantee Group Service Level Metrics
- Schedule B-3-1: Standards for New or Modified Performance Guarantee Group Service Levels
- Schedule B-4: Stakeholder Satisfaction Survey

**SCHEDULE B**  
**SERVICE LEVELS**

**1. INTRODUCTION**

This Schedule B (“*Schedule B*”) sets forth the Service Levels that Supplier is required to meet or exceed in performing certain of the Services during the Term. This Schedule also describes (a) the methodology for calculating Performance Payments that will be provided to Health Net by Supplier in the event of any Critical Service Level Failure, and (b) the process the Parties will follow to add, modify or delete Service Levels during the Term.

**2. DEFINITIONS**

**2.1 Certain Definitions**

- (a) “*BPaaS Amount at Risk*” means \*\*\*percent (\*\*\*) of the aggregate monthly charges payable by Health Net under this Agreement (excluding (i) Charges applicable to Non-BPaaS IT Services which are described in Section 2.1(o)(iii), but for Phase 2 only, shall be \*\*\*percent (\*\*\*) of the monthly Phase 2 Fixed Fee, (ii) for Phase 2 only, an amount equal to \$\*\*\* to reflect the adjustment made to reflect the limit of liability applicable to the AO Agreement as described in Section 24.2(b)(ii) of the Terms and Conditions, and (iii) Pass-Through Expenses).
- (b) “*BPaaS Pool Percentage Available for Allocation*” means \*\*\* (\*\*\*) percentage points.
- (c) “*Business Days*” mean Monday through Friday (except holidays on which the offices of Health Net, as applicable, are not open for regular business). For purposes of measuring performance against Service Levels, each Business Day shall start at the occurrence of the event to be measured by the Service Level and end the same time of day the following Business Day (e.g., a task that requires a one (1) Business Day turnaround time and starts on 3:00 p.m. local time on Monday must be finished by 3:00 p.m. local time on Tuesday, provided that both Monday and Tuesday are Business Days).
- (d) “*Compliance Measures*” means the quantitative measures set forth in Schedule B-2-1 (*Compliance Measures*), as they may be modified or supplemented in accordance with Section 5.3. Compliance Measures are grouped together to form Compliance Service Levels, as set forth in Schedule B-2 (*Compliance Service Level Metrics*).
- (e) “*Compliance Measure Failure*” means a failure by Supplier to perform in accordance with any Compliance Measure (i.e. Yellow or Red performance) or to properly measure or report on the performance of any Compliance Measure.
- (f) “*Compliance Service Level*” means a Service Level set forth in Schedule B-2 (*Compliance Service Level Metrics*). Each Compliance Service Level consists of a grouping of Compliance Measures.
- (g) “*Compliance Service Level Credit*” has the meaning given in Section 4.3(b)(ii).
- (h) “*Compliance Service Level Failure*” means a Service Level Failure (i.e. Yellow or Red performance) with regard to any Compliance Service Level.

- (i) “**Critical Compliance Service Level Failure**” means a Critical Service Level Failure with regard to a Compliance Service Level that is a Critical Service Level.
- (j) “**Critical Operational Service Level Failure**” means a Critical Service Level Failure with regard to an Operational Service Level that is a Critical Service Level.
- (k) “**Critical Service Level**” means collectively (i) an Operational Service Level, Compliance Service Level or Stakeholder Satisfaction Survey Service Level designated as a Critical Service Level in Schedule B-1 (*Certain Service Levels*), B-2 (*Compliance Service Level Metrics*) or B-3 (*Performance Guarantee Group Service Level Metrics*), or Exhibit B-1 to each SOW, in each case as may be modified by Health Net in accordance with Sections 4.8, 5 and 6, and (ii) any Performance Guarantee Group Service Level.
- (l) “**Critical Service Level Failure**” means a Service Level Failure with regard to any Critical Service Level.
- (m) “**Critical Stakeholder Satisfaction Survey Service Level Failure**” means a Critical Service Level Failure with regard to the Stakeholder Satisfaction Survey Service Level that is a Critical Service Level.
- (n) “**Measurement Period**” means, for any Service Level, the period of time during the Term, during which Supplier’s actual performance of the relevant Services is to be measured against the corresponding Service Level. The Measurement Period for each Service Level is described in Section 3.1.
- (o) “**Non-BPaaS Amount at Risk**” means \*\*\*percent (\*\*\*) of the aggregate monthly Charges payable by Health Net under this Agreement (excluding Pass-Through Expenses) with respect to Non-BPaaS IT Services. The following rules shall be used in computing the Non-BPaaS Amount at Risk:
- (i) During Phase 1, the monthly Non-BPaaS Amount at Risk shall be \$ \*\*\* (\$\*\*\*);
  - (ii) During Phase 2, the monthly Non-BPaaS Amount at Risk shall equal \*\*\*percent (\*\*\*) of the amount that is \*\*\*percent (\*\*\*) of the monthly Phase 2 Fixed Fee.
  - (iii) During Phase 3, the Charges applicable to Non-BPaaS IT Services that are to be used to calculate the Non-BPaaS Amount at Risk (and excluded from the calculation of the BPaaS Amount at Risk) shall equal all amounts payable under Sections 10, 12 and 13 of Schedule C (*Charges*) and any other Charges payable for Services provided under SOW #4 (*IT Services*).
- (p) “**Non-BPaaS Pool Percentage Available for Allocation**” means \*\*\* (\*\*\*) percentage points.
- (q) “**Non-BPaaS IT Service Levels**” shall mean (i) the Service Levels set forth in Exhibit B-1 of SOW #4 (*IT Services*) and (ii) the Security Service Levels set forth on Schedule B-1 (*Certain Service Levels*), which Security Service Levels shall also be deemed to be BPaaS Service Levels, as further described herein.

- (r) “**Operational Service Level**” means a Service Level set forth in Schedule B-1 (*Certain Service Levels*) or in Exhibit B-1 to each SOW, as they may be modified or supplemented in accordance with Section 5.2.
- (s) “**Operational Service Level Credit**” has the meaning given in Section 4.3(b)(i).
- (t) “**Performance Payments**” shall mean collectively Operational Service Level Credits, Compliance Service Level Credits, Performance Guarantee Group Payment Amounts, and Stakeholder Satisfaction Survey Credits.
- (u) “**Performance Guarantee Group**” means an entity with which Health Net has contracted to meet specific service levels, either as of the Effective Date or at any point during the Term.
- (v) “**Performance Guarantee Group Payment Amount**” has the meaning given in Section 4.3(b)(iii).
- (w) “**Performance Guarantee Group Service Level**” means a Service Level set forth in Schedule B-3 (*Performance Guarantee Group Service Level Metrics*), as they may be modified or supplemented in accordance with Section 5.4.
- (x) “**Performance Guarantee Group Service Level Failure**” means a Service Level Failure with regard to any Performance Guarantee Group Service Level.
- (y) “**Security Service Level**” means the Service Levels set forth on Schedule B-1 (*Certain Service Levels*), excluding the Stakeholder’s Satisfaction Survey Service Level.
- (z) “**Service Levels**” means a performance standard for certain Services, which are set forth in Schedules B, B-1, B-2, B-3 and Exhibit B-1 to each SOW. Service Levels include Operational Service Levels, Compliance Service Levels, Performance Guarantee Group Service Levels, and the Stakeholder Satisfaction Survey Service Level.
- (aa) “**Service Level Credit**” shall mean any Performance Payment, excluding the Performance Guarantee Group Payment Amounts.
- (bb) “**Service Level Failure**” means, with regard to any Service Level (including Operational Service Levels, Compliance Service Levels, Performance Guarantee Group Service Levels, and the Stakeholder Satisfaction Survey Service Level), a failure by Supplier to either (i) perform at the level that meets the corresponding Service Level during any particular Measurement Period, or (ii) properly measure and report on the performance for any Service Level.
- (cc) “**Stakeholder Satisfaction Survey Credit**” has the meaning given in Section 4.3(b)(iv).
- (dd) “**Stakeholder Satisfaction Survey Service Level**” means the Service Level set forth in Section 6.
- (ee) “**Weighting Factor**” means the portion of the BPaaS Pool Percentage Available for Allocation or Non-BPaaS Pool Percentage Available for Allocation (as applicable) that Health Net has allocated with respect to a Critical Service Level. The initial Weighting Factor for each of the Critical Service Levels shall be established via written notice(s)

provided by Health Net to Supplier not later than January 15, 2015, and in each case shall be subject to modification pursuant to Section 4.8(e).

## 2.2 Other Terms

Other terms used in this Schedule B (*Service Levels*) (including any Schedule to this Schedule B) are either defined in the context in which they are used or are defined elsewhere in this Agreement, and in each case shall have the meanings there indicated.

## 3. MEASUREMENT, REPORTING AND SUPPORTING INFORMATION

### 3.1 Measurement Period and Times

- (a) The Measurement Period for the Stakeholder Satisfaction Survey Service Level shall be on a quarterly basis.
- (b) For all other Service Levels, the Measurement Period shall be monthly unless otherwise set forth in Schedules B, B-1, B-2, B-3 or Exhibit B-1 to each SOW.
- (c) Except as otherwise expressly indicated in this Schedule B, all references to “*hour*” or “*hours*” shall mean clock hours and all reference to “*day*” or “*days*” shall mean calendar days, unless otherwise stated as Business Days.

### 3.2 Measurement Process and Tools

- (a) With respect to Service Levels for which there is no measurement tool shown on Schedules B-1, B-2-1 or B-3 or Exhibit B-1 to any SOW, Supplier shall develop and implement measurement and monitoring tools, processes and methodologies (collectively “*Measuring Items*”) required to measure such Service Levels not later than ninety (90) days prior to the BPaaS Services Commencement Date. Supplier shall also use Commercially Reasonable Efforts to develop and implement to the extent feasible Measuring Items that will measure each Service Level in an automated fashion such that Supplier’s actual performance with respect to the Service Levels shall be determined using system generated data, so that such Measuring Items are in place not later than the BPaaS Services Commencement Date. The Measuring Items described in this Section and for any modified or new Service Levels added after the Effective Date shall be subject to Health Net’s prior written approval.
- (b) Supplier shall measure Supplier’s performance with respect to each Service Level using the corresponding Measuring Items identified for such Service Level in Schedules B, B-1, B-2, B-2-1 or B-3, or Exhibit B-1 to each SOW, as applicable, or as specified elsewhere in this Section 3.2.
  - (i) Supplier shall provide and utilize (and have operational, administrative and financial responsibility for) the necessary Measuring Items required to measure and report Supplier’s performance of the Services against the applicable Service Levels set forth in this Agreement. Such Measuring Items shall (A) permit measurement and daily reporting of compliance with the Service Levels, (B) permit reporting at a level of detail sufficient to verify compliance with the Service Levels, and (C) will be subject to verification and review by Health Net. Supplier shall provide Health Net with access to such Measuring Items at all

times, without the need for Health Net to specifically request such access in advance.

- (ii) If, after the Effective Date (with respect to Service Levels for which there is a measurement tool set forth in Schedule B-1, B-2-1 or B-3 or Exhibit B-1 to any SOW), or after the date that the Measuring Item has been approved by Health Net pursuant to Section 3.2(a), Supplier desires to use a different Measuring Item for any Service Level, Supplier shall provide written notice to Health Net proposing:

- (A) the alternative Measuring Item; and
- (B) any reasonable adjustments to the Service Levels that are necessary to account for any increased or decreased sensitivity that will likely result from use of the alternative Measuring Item.

Supplier may utilize such alternative Measuring Item only to the extent Supplier demonstrates to Health Net's reasonable satisfaction (as evidenced by Health Net's approval in writing) that such tool is capable of measuring and reporting the applicable Service Levels in the same manner or functionally equivalent manner as the Measuring Item being replaced and meets all of the requirements for Measuring Items set forth in this Schedule B (*Service Levels*).

- (iii) If any Service Level specifies that it will be measured based on a sampling of an overall population, the applicable Service Level shall be measured as follows:

- (A) During each Measurement Period, Supplier shall audit a statistically valid, dollar and product stratified, sampling of the applicable unit of measure in order to determine Supplier's performance with respect to each Service Level.
- (B) Supplier shall calculate its performance against each of the Service Levels based on the results of each such audit and Supplier shall track the results of each audit in an applicable database.

- (c) Notwithstanding Sections 3.2(a), 3.2(b) or 3.3, Health Net shall have the right, by sending written notice to Supplier, to assume responsibility for the development and implementation of Measuring Items required to measure any Service Level, and/or to measure such Service Level.

### **3.3 Reporting and Supporting Information**

- (a) Supplier shall deliver the Monthly Performance Report to Health Net in accordance with Section 4.2(b)(i) of Schedule G (*Governance*).
- (b) Upon Health Net's request, Supplier shall provide to Health Net detailed supporting information (including available raw performance data) relating to Supplier's performance relative to the Service Levels. Such information shall at a minimum include all information that is as necessary for Health Net to verify the accuracy of Supplier's Service Level measurements and reporting, and other supporting information as reasonably requested by Health Net.

- (c) Supplier shall make the reporting and supporting information described in this Section 3.3, available to Health Net both (i) in machine-readable form suitable for use on a personal computer; and (ii) via a secure website.

#### 4. SERVICE LEVEL METHODOLOGY

##### 4.1 General

- (a) Commencing on the BPaaS Services Commencement Date, Supplier shall meet or exceed each of the Service Levels set forth in Schedules B, B-1, B-2, B-2-1 and B-3, and Exhibit B-1 to each of the SOWs (as the same may be amended and supplemented pursuant to this Schedule B), subject to Section 4.1(b) below. Notwithstanding the prior sentence, the Parties agree that (i) for those Service Levels that are designated as a Code “C” Service Level on an Exhibit B-1 as described in Section 4.2(c) below, Supplier shall commence meeting or exceeding each of such Service Levels promptly after the completion of the baselining process described in Section 4.2(c) below, and (ii) Supplier shall commence meeting or exceeding the Non-BPaaS IT Service Levels at such time that Supplier has assumed responsibility for performing any Non-BPaaS IT Services to which such Non-BPaaS IT Service Levels relate, which the Parties acknowledge will be on a rolling basis commencing in Phase 1 and in accordance with the applicable transition plans.
- (b) Notwithstanding Section 4.1(a) above, with respect to any Compliance Measure for which the average level of performance by Health Net during the six months prior to the BPaaS Services Commencement Date is “Red” or “Yellow”, if (1) Supplier fails to meet such Compliance Measure during any of the first six (6) months after the BPaaS Services Commencement Date (the “Grace Period”), and (2) such Compliance Measure is not within the scope of services provide by Supplier under the Original BPO Agreement, such performance of the Compliance Measure shall be excluded from the calculation of whether Supplier has met the Compliance Service Level of which such Compliance Measure is a part; provided, however, that:
  - (i) if Supplier’s performance with respect to such Compliance Measure during each of the months during the Grace Period does not meet or exceed Health Net’s average performance with respect to such Compliance Measure during the six months prior to the BPaaS Services Commencement Date, then such data shall be included in the calculation of whether Supplier met the Compliance Service Level of which the Compliance Measure is included, and
  - (ii) Supplier’s performance after the Grace Period with respect to such Compliance Measures shall be counted.
- (c) Service Levels constitute one means, but not the exclusive means, of measuring Supplier’s performance of its commitment under Section 5.4 of the Terms and Conditions. If a Service Level includes multiple conditions or components (e.g., components (a), (b) and(c)), then Supplier’s performance must satisfy each and every condition or component (i.e., components (a), (b) and (c)) to achieve the corresponding Service Level.
- (d) In the event that a single incident causes more than one failure to meet a Critical Service Level (excluding the Stakeholder Satisfaction Service Level), then (i) if the incident

causes more than one Critical Service Level Failure (excluding those relating to Non-BPaaS IT Service Levels), Health Net shall be entitled to each of such credits, and (ii) if the incident causes more than one Critical Service Level Failure relating to the Non-BPaaS IT Service Levels, Health Net shall have the right to select the credit or payment that it wishes to receive, but shall not be entitled to all of such credits and payments arising from the multiple Critical Service Level Failures associated with the Non-BPaaS IT Service Levels. In the event that a single incident causes a Critical Service Level Failure of BPaaS Service Levels and Non-BPaaS IT Service Levels, Health Net shall be entitled to all of such BPaaS Service Level credits and Health Net may select which of the Non-BPaaS IT Service Level credits that it elects to receive. For purposes of this Section, with respect to any Security Service Level, if Health Net has allocated Weighting Factor points from the BPaaS Pool Percentage Available for Allocation and/or the Non-BPaaS Pool Percentage Available for Allocation, the credits from the BPaaS Pool Percentage Available for Allocation shall be treated as BPaaS Service Level Credits and the credits from the Non-BPaaS Pool Percentage Available for Allocation will be treated as Non-BPaaS IT Service Level credits, in accordance with the above.

- (e) If any portion of the Services are to be provided from a business continuity recovery environment, the Service Levels shall continue to apply; except to the extent a disaster occurring at a Health Net facility prevents Supplier from meeting such Service Levels.

#### 4.2 Service Level Codes/Setting of Initial Operational Service Levels

For each of the Operational Service Levels set forth in Schedules B-1 (*Certain Service Levels*) and Exhibit B-1 to each SOW, a corresponding code has been designated in the “Code” column of the applicable table, as follows:

- (a) Code “A” - For each Service Level metric for which “A” is designated as the applicable code, then as of the BPaaS Services Commencement Date, the Service Level shall be the Service Level set forth on the applicable Schedule or Exhibit (“Code A”).
- (b) Code “B” - For each Service Level metric for which “B” is designated as the applicable code, the Service Level which shall be in effect on the BPaaS Services Commencement Date shall be established based on the following process (“Code B”):
  - (i) The Service Level metric will be established based on Health Net’s performance of the Services during the last six (6) months of 2014 (the “Code B Baseline Period”).
  - (ii) Immediately following the Code B Baseline Period, the Service Level for such Code B Service Level will be promptly established and shall be effective on the BPaaS Services Commencement Date. Such metric shall be the arithmetic mean of the baselined data collected during the Code B Baseline Period.
  - (iii) Notwithstanding the above, if the baselined data demonstrates performance that is unsatisfactory to Health Net, then (A) Health Net may rely on the continuous improvement provision set forth in Section 5.5 to improve the Service Level, or (B) upon Health Net’s request, Supplier will promptly develop a plan to improve performance and the Parties will meet to establish a mutually agreeable Service Level. The implementation of the plan to improve the Service Level shall be done pursuant to the Change Control Process.

- (c) Code “C” - For each Service Level metric for which “C” is designated as the applicable code, the Service Level which shall be in effect on the BPaaS Services Commencement Date (or thereafter if necessary to gather additional data as described below) shall be established based on the following process (“Code C”):
- (i) The Service Level metric will be established based on Health Net’s performance of the Services commencing at such time as Health Net is able to start measurement of the Service Level, and continuing for six (6) months (the “Code C Baseline Period”). Under this approach, the Code C Baseline Period will be six (6) months, and may be comprised of performance based on any of the possible scenarios:
    - (A) Health Net’s performance only (for example if Health Net begins measuring the Service Level in September 2014 and ends in February 2015, thereby resulting in six (6) months of measurement), or
    - (B) a combination of Health Net and Supplier performance (for example, if Health Net begins measuring the Service Level in October 2014, and the BPaaS Commencement Date is March 1, 2015, thereby resulting in five (5) months of measurement under Health Net’s performance of the Services and one (1) month of Supplier’s performance of the Services), or
    - (C) all under Supplier (for example if Health Net is not able to start measurement prior to the BPaaS Services Commencement Date, in which event Supplier shall commence measurement upon the BPaaS Services Commencement Date, unless Health Net requests otherwise).
  - (ii) Immediately following the Code C Baseline Period, the Service Level for such Code C Service Level will be promptly established and shall be effective as of the completion of the Code C Baseline Period (or as soon thereafter as Health Net requests). Such metric shall be the arithmetic mean of the baselined data collected during the Code B Baseline Period.
  - (iii) Notwithstanding the above, if the baselined data demonstrates performance that is unsatisfactory to Health Net, then (A) Health Net may rely on the continuous improvement provision set forth in Section 5.5 to improve the Service Level, or (B) upon Health Net’s request, Supplier will promptly develop a plan to improve performance and the Parties will meet to establish a mutually agreeable Service Level. The implementation of the plan to improve the Service Level shall be done pursuant to the Change Control Process.
- (d) Supplier shall use all Commercially Reasonable Efforts to achieve the highest possible Service Levels during any portion of the foregoing Baseline Periods which measure Supplier’s performance of the Services.

#### 4.3 Failure to Perform

- (a) For each Service Level Failure and Compliance Measure Failure, Supplier shall (i) investigate, assemble and preserve pertinent information with respect to, and report on the causes of, the problem, including performing a root cause analysis of the problem; (ii)

advise Health Net, as and to the extent requested by Health Net, of the status of remedial efforts being undertaken with respect to such problem; (iii) minimize the impact of and correct the problem and begin meeting the Service Level; and (iv) take appropriate preventive measures so that the problem does not recur.

- (b) Supplier recognizes that a Critical Service Level Failure may have a material adverse impact on the business and operations of Health Net and that the damages from a Critical Service Level Failure are not susceptible to precise determination. Accordingly, unless otherwise excused pursuant to Section 4.4:
- (i) In the event of a Critical Operational Service Level Failure, Supplier shall pay to Health Net a credit calculated pursuant to Section 4.5 (“*Operational Service Level Credit*”); and
  - (ii) In the event of a Critical Compliance Service Level Failure, Supplier shall pay to Health Net a credit calculated pursuant to Section 4.5 (“*Compliance Service Level Credit*”); and
  - (iii) In the event of a Performance Group Guarantee Service Level Failure, then Supplier shall pay to Health Net an amount calculated pursuant to Section 4.6 (“*Performance Guarantee Group Payment Amount*”); and
  - (iv) In the event of a Critical Stakeholder Satisfaction Survey Service Level Failures, Supplier shall pay to Health Net a credit calculated pursuant to Section 4.7 (“*Stakeholder Satisfaction Survey Credit*”).
- (c) For the avoidance of doubt, in the event that Supplier is obligated to grant to Health Net any Operational Service Level Credit, Compliance Service Level Credit, Performance Guarantee Group Payment Amount, or Stakeholder Satisfaction Survey Credit, the obligation for Supplier to pay such credits and amounts are separate and independent obligations of Supplier.
- (d) Performance Payments will not be construed as a penalty or as liquidated damages for a Critical Service Level Failure and, accordingly, they will not be deemed to constitute Health Net’s remedy, exclusive or otherwise, for any actual damages caused by a Critical Service Level Failure. Performance Payments will be in addition to any other monetary and non-monetary remedies available to Health Net under this Agreement, at law, or in equity with respect to a Critical Service Level Failure or the events that result in a Critical Service Level Failure, including Health Net’s right to either before or after receiving any particular Performance Payment, make a claim for damages against Supplier arising out of the Critical Service Level Failure; provided, however, that if Health Net had previously received any Performance Payment as a result of such failure, then the amount of damages then recoverable by Health Net shall equal (i) the total amount of damages then recoverable under this Agreement and incurred by Health Net with respect to such failure, without consideration of whether any Performance Payment resulting from such failure had been provided to Health Net; less (ii) any Performance Payment previously provided to Health Net resulting from such failure.
- (e) This Section 4.3 shall not limit Health Net’s rights with respect to the events upon which Health Net may rely as a basis for Health Net’s termination of this Agreement.

#### 4.4 Excused Critical Service Level Failures

- (a) If Supplier fails to meet a Service Level and establishes within two (2) months after such failure that each of the following criteria are satisfied:
- (i) the root cause of Supplier's failure to meet such Service Level was caused by:
    - (A) the failure of Health Net, Health Net's Affiliates or Health Net's third party contractors or agents (other than Supplier or Supplier's subcontractors) to perform an express obligation of Health Net under this Agreement; provided that upon becoming aware of such failure, Supplier provided Health Net with reasonable notice of such failure and used Commercially Reasonable Efforts to perform and achieve the Service Level notwithstanding the occurrence and impact of such actions, or
    - (B) a Force Majeure Event under Section 24.3 of the Terms and Conditions; provided that Supplier fulfilled the obligations set forth in Section 24.3(b) of the Terms and Conditions

(each an "*Excusable Critical Service Level Failure Event*");
  - (ii) Supplier would have achieved such Service Level but for such Excusable Critical Service Level Failure Event; and
  - (iii) Supplier is without material fault in causing such Excusable Critical Service Level Failure Event,

then Supplier shall not be obligated to pay the Service Level Credit for any resulting Critical Service Level Failure, and Supplier shall otherwise be excused from achieving such Service Level for as long as such Excusable Critical Service Level Failure Event continues and Supplier continues to use Commercially Reasonable Efforts to prevent, overcome, and mitigate the adverse effects of such Excusable Critical Service Level Failure Event to the extent required to achieve the applicable Service Level.

- (b) Supplier shall not be excused from a failure to achieve a Service Level other than under this Section 4.4, or as expressly provided elsewhere in this Agreement.

#### 4.5 Operational Service Level Credits and Compliance Service Level Credits

- (a) Calculation. For each Critical Operational Service Level Failure and Critical Compliance Service Level Failure, the applicable Service Level Credits referenced in Sections 4.3(b)(i) and 4.3(b)(ii) above shall be calculated in accordance with the following formula:

$$\text{Service Level Credit} = A \times B \times C$$

Where:

A = the applicable Weighting Factor;

B = (i) the BPaaS Amount at Risk for such calendar month for all Service Levels except the Non-BPaaS IT Service Levels, or (ii) the Non-BPaaS Amount at Risk for Non-PBaaS

IT Service Levels (as applicable), provided that if there is a Critical Operational Service Level Failure relating to a Security Service Level, the credit shall be calculated in accordance with Section 4.5(c) below; and

C =

- (i) For a Critical Operational Service Level Failure, C = 1.
- (ii) For a Critical Compliance Service Level Failure, C = the percentage determined using the table below.

		Percentage of Total Number of Compliance Measures in a Compliance Service Level for which there is a Compliance Measure Failure (Yellow or Red)			
Level of Performance	***				
Green					
Yellow					
Red					

- (A) The levels of performance to meet the Green, Yellow and Red thresholds are set forth on Exhibit B-2-1 (*Compliance Measures*).
- (B) Performance at a Yellow or Red level shall constitute a Compliance Measure Failure.
- (C) There must be more than one Compliance Measure Failure in order for there to be Critical Compliance Service Level Failure which results in a Service Level Credit owed by Supplier to Health Net.
- (D) At the end of each month, the Service Level Credits shall be calculated against the actual number of Red and Yellow failures separately and then summed up to determine the total Service Level Credit from such Compliance Service Level.
  - (1) For example – Assume the results of a Compliance Service Level are: \*\*\* of the measures are Yellow and \*\*\* of the measures are Red.
  - (2) Then C = \*\*\* = 35%.
- (E) A Compliance Measure that is measured on a quarterly basis will be measured and counted using the above approach for the month in which such quarterly measure is measured.

- (F) If a Regulator changes the threshold level at which it enforces its regulatory requirements or Health Net receives a different interpretation from the Regulator regarding the threshold that will be enforced, Health Net shall have the right to change the Green, Yellow and Red thresholds based on such Regulatory input. Health Net shall also have the right to add such Red/Yellow/Green thresholds for new compliance measures added per Section 5.3.
- (b) \*\*\*
- (c) \*\*\*Notification; Payment of Credits.
- (i) For each Critical Operational Service Level Failure and Critical Compliance Service Level Failure, Supplier shall report such failure to Health Net pursuant to Section 3. Supplier shall also report on each Compliance Measure Failure pursuant to Section 3. Such report will, at a minimum, (A) identify such Critical Service Level Failure and Compliance Measure Failure, and (B) calculate the amount of the corresponding Service Level Credit, calculated pursuant to Section 4.5(a).
- (ii) Supplier shall credit any such Service Level Credits earned in a month against the subsequent month's Charges.
- (d) \*\*\*.
- (e) \*\*\*Security Service Level Service Level Credits
- (i) The Parties agree that Health Net may allocate Weighting Factor points to the Security Service Levels from the BPaaS Pool Percentage Available for Allocation and from the Non-BPaaS Pool Percentage Available for Allocation. Service Level Credits relating to the Security Service Levels referenced in Section 4.3(b)(i) shall be calculated in accordance with the following:

$$\text{Service Level Credit} = ((A \times B) + (C \times D))$$

Where:

A = the applicable Weighting Factor from the BPaaS Pool Percentage Available for Allocation;

B = the BPaaS Amount at Risk for such calendar month;

C = the applicable Weighting Factor from the Non-BPaaS Pool Percentage Available for Allocation; and

D = the Non-BPaaS Amount at Risk for such calendar month.

**4.6 \*\*\***

**4.7 Stakeholder Satisfaction Survey Credits**

- (a) Calculation. For each Critical Stakeholder Satisfaction Survey Service Level Failure, the applicable Stakeholder Satisfaction Survey Credit referenced in Section 4.3(b)(iv) above shall be equal to

$$\text{Stakeholder Satisfaction Survey Credit} = ((A \times B) + (C \times D)) \times E$$

Where:

A = the applicable Weighting Factor from the BPaaS Pool Percentage Available for Allocation;

B = the sum of the BPaaS Amounts at Risk for each calendar month during the period measured by the Stakeholder Satisfaction Survey; and

C = the applicable Weighting Factor from the Non-BPaaS Pool Percentage Available for Allocation;

D = the sum of the Non-BPaaS Amounts at Risk for each calendar month during the period measured by the Stakeholder Satisfaction Survey; and

E = \*\*\*% if Supplier's score is \*\*\*, and \*\*\*% if Supplier's score is less than \*\*\*.

- (b) Notification; Payment of Credits.

- (i) For each Critical Stakeholder Satisfaction Survey Service Level Failure, Health Net shall report such failure to Supplier pursuant to Section 3. Such report will, at a minimum, (A) identify such Critical Stakeholder Satisfaction Survey Service Level Failure, and (B) set forth the amount of the corresponding Stakeholder Satisfaction Survey Credit, calculated pursuant to Section 4.7(a).
- (ii) Supplier shall credit any such Stakeholder Satisfaction Survey Credit earned with respect to a calendar quarter against the first invoice in the subsequent month following such calendar quarter.

**4.8 Weighting Factors; Amounts at Risk**

- (a) BPaaS

- (i) BPaaS Weighting Factor limit. In no event shall any single Weighting Factor for a Critical Service Level (excluding Non-BPaaS IT Service Levels) exceed \*\*\*(\*\*) points.
- (ii) BPaaS Weighting Factor comprehensive limit. In no event shall the sum of the Weighting Factors for all Critical Service Levels (excluding Non-BPaaS IT Service Levels) exceed the BPaaS Pool Percentage Available for Allocation.
- (iii) BPaaS Amount at Risk limit. The total amount of Performance Payments payable by Supplier (excluding Service Level Credits payable with respect to

Non-BPaaS IT Service Levels and excluding Performance Guarantee Group Payment Amounts as described in Sections 4.6(g) and 4.8(c)(ii)) relating to a calendar month shall not exceed the BPaaS Amount at Risk for such calendar month.

(iv) Security Service Levels.

(A) In no event shall the Weighting Factor points (from both the BPaaS Pool Percentage Available for Allocation and the Non-BPaaS Pool Percentage Available for Allocation) allocated to any Security Service Level exceed \*\*\*.

(B) Weighting Factor points allocated to Security Service Levels from the BPaaS Pool Percentage Available for Allocation, and Performance Payments resulting therefrom, shall be included for purposes of applying the restrictions set forth in Sections 4.8(a)(ii) and (iii), but Weighting Factor points allocated to Security Service Levels from the Non-BPaaS Pool Percentage Available for Allocation, and Performance Payments resulting therefrom, shall not be included for purposes of applying such restrictions.

(b) Non-BPaaS

(i) Non-BPaaS Weighting Factor limit. In no event shall any single Weighting Factor for a Non-BPaaS IT Service Level exceed \*\*\*.

(ii) Non-BPaaS Weighting Factor comprehensive limit. In no event shall the sum of the Weighting Factors for all Non-BPaaS IT Service Levels exceed the Non-BPaaS Pool Percentage Available for Allocation.

(iii) Non-BPaaS Amount at Risk limit. The total amount of Performance Payments payable by Supplier for Non-BPaaS IT Service Levels relating to a calendar month shall not exceed the Non-BPaaS Amount at Risk for such calendar month.

(iv) Security Service Levels. Weighting Factor points allocated to Security Service Levels from the Non-BPaaS Pool Percentage Available for Allocation, and Performance Payments resulting therefrom, shall be included for purposes of applying the restrictions set forth in Sections 4.8(b)(ii) and (iii), but Weighting Factor points allocated to Security Service Levels from the BPaaS Pool Percentage Available for Allocation, and Performance Payments resulting therefrom, shall not be included for purposes of applying such restrictions,

(c) \*\*\*.

(d) Rules Relating to Stakeholder Satisfaction Survey as it relates to Amounts at Risk. The Parties agree that if there is a Stakeholder Satisfaction Survey Credit with respect to any calendar quarter, that for purposes of determining whether either of the Amounts at Risk will limit payment of such credit, the amount of such credit shall be divided by the number of months in the survey period (the "*Allocated Per Month Stakeholder Satisfaction Survey Credit*"). \*\*\*.

- (e) Designation of Weighting Factors. Health Net may from time to time during the Term change, in its sole discretion, the Weighting Factor for any one or more Service Levels and Critical Service Levels upon written notice to Supplier; provided, however, that
- (i) Health Net may provide only one (1) such notice during any calendar quarter (which notice may contain multiple changes), which notice shall be effective on the first day of the second month following giving such notice.

## 5. MODIFICATIONS AND IMPROVEMENTS TO SERVICE LEVELS

### 5.1 Deletions of Service Levels

Health Net may at any time during the Term, in its sole discretion upon written notice to Supplier, delete a then-existing Service Level.

### 5.2 New Operational Service Levels

Health Net may, in its sole discretion upon written notice to Supplier, add a new Operational Service Level. Any additions with respect to Operational Service Levels shall be subject to the following:

- (a) If Health Net adds a new Service Level for which there is at least \*\*\*of historical data within the past \*\*\*and such data indicates performance that is acceptable to Health Net, then the Service Level metric shall be the arithmetic mean of the most recent three (3) months of historical data. For example, if the three (3) months of historical data are 99.90%, 99.92%, and 99.95%, then the Service Level would be the arithmetic mean (99.923%) (calculated as  $((99.90\% + 99.92\% + 99.95\%) / 3)$ ). Such Service Level shall become effective as of a date determined by Health Net, but no earlier than thirty (30) days after written notice from Health Net.
- (b) If Health Net adds a new Service Level for which there is at least \*\*\*of historical data within the past\*\*\*, but such data does not indicate performance that is acceptable to Health Net, then, upon Health Net's written request, Supplier will perform an assessment of the root causes of the unacceptable level of historical performance and seek to improve performance within sixty (60) days.
- (i) At the end of such sixty (60) day period, if Health Net reasonably determines that Supplier's performance is below an acceptable level (e.g., by reference to industry standards), then Supplier \*\*\* to improve its performance of the affected Services to a level of service acceptable to Health Net.
- (ii) At the end of such\*\*\*, if Health Net determines that Supplier's performance is at an acceptable level, then the Service Level metric shall be determined in accordance with Section 5.2(a).
- (c) If Health Net adds a new Service Level for which at least \*\*\*of historical data within the past \*\*\*does not exist, then such Service Level shall be baselined in accordance with the following:
- (i) Supplier and Health Net shall promptly meet to agree upon the tools and procedures to be used to measure such new Service Level. Upon such

agreement, Supplier or Health Net, as applicable, shall promptly implement such agreed upon tools and/or procedures and begin measuring the new Service Level.

- (ii) The “**Baselining Period**” for each such Service Level shall begin on the first day of the calendar month following the date upon which Supplier or Health Net, as applicable, is capable of beginning to measure such Service Level using the agreed upon tools and procedures, and continue for three (3) months. Health Net, acting in its sole discretion, may extend the Baselining Period by informing Supplier of such extension.
- (iii) Supplier or Health Net, as applicable, shall begin to measure its performance against each such Service Level commencing on the start date of the relevant Baselining Period, and shall report on its performance with respect to each such Service Level as provided in Section 3 or as otherwise agreed by the Parties.
- (iv) Each such Service Level shall become effective as of the expiration of such Baselining Period, and the corresponding Service Level metric shall be determined in accordance with Section 5.2(a).

### **5.3 New Compliance Service Levels and Compliance Measures and Changes to Existing Compliance Service Levels and Compliance Measures**

Health Net may \*\*\*to Supplier:

- (a) add an additional Compliance Service Level and corresponding Compliance Measures, or
- (b) add an additional Compliance Measure to an existing Compliance Service Level, or
- (c) modify an existing Compliance Service Level or Compliance Measure;

provided that in each case such addition or modification is a result of changes to existing Laws or new Laws with which the Services are required to comply, or the result of an updated interpretation of a Law, or direction by a Regulator, or change in the threshold at which the Regulator enforces a Law, or identification of a target after the Effective Date that existed prior to the Effective Date. Any such addition or modification shall be implemented in accordance with Section 17.5 of the Terms and Conditions, Change Control, provided that Supplier shall have financial responsibility for any such additional or modified Service Level except as set forth in Section 13 of Schedule C (*Charges*).

### **5.4 New Performance Guarantee Group Service Levels and Changes to Existing PGG Service Levels**

- (a) \*\*\*
  - (i) \*\*\*
  - (ii) The service levels to be included in the new or modified Performance Guarantee Group contract are within the standards set forth on Schedule B-3-1 (*Standards for New or Modified Performance Guarantee Group Service Levels*).

- (b) All Performance Guarantee Group Service Levels existing as of the Effective Date are grandfathered under this Agreement, even if they fall outside the standards set forth in Schedule B-3-1.
- (c) The Performance Guarantee Group Service Levels that are attached as Schedule B-3 (*Performance Guarantee Group Service Level Metrics*) shall be updated to reflect the actual Performance Group Guarantee Service Levels set forth in Health Net's Performance Guarantee Group contracts in effect during 2015, provided that any such 2015 Performance Group Guarantee Service Level that is outside the standards set forth on Schedule B-3-1 (*Standards for New or Modified Performance Guarantee Group Service Levels*) shall be subject to Section 5.4(d) below.
- (d) If Health Net desires to (i) add a new Performance Guarantee Group Service Level (or modify an existing one) to a level that is greater or lower than the standards set forth on Schedule B-3-1 (*Standards for New or Modified Performance Guarantee Group Service Levels*), or (ii) modify the standards set forth in Schedule B-3-1 (*Standards for New or Modified Performance Guarantee Group Service Levels*), then such new or modified Performance Guarantee Service Level and such modified standards shall be changed via the Change Control Process, provided that the Parties agree that the pricing impacts associated with such changes shall be subject to the following:
  - (i) \*\*\*

## 5.5 Continuous Improvement

- (a) In addition to any improvements in Service Levels resulting from application of the review processes described in Section 5.6, then, with respect to the Service Levels described in Section 5.5(c), on the first anniversary of the Effective Date and annually thereafter on each subsequent anniversary of the Effective Date, each Service Level shall be automatically adjusted by adding to the then-current Service Level being adjusted a sum equal to five percent (5%) of the difference between the level of perfect performance (e.g., 100% Availability) and the then-current Service Level. For example, if the Service Level being adjusted were 99.0%, the increase would be 0.05% (i.e., from 99.0% to 99.05%), calculated as  $((100.0\% - 99.0\%) \times 0.05 = 0.05\%)$ .
- (b) The improvements to the Service Levels made pursuant to Section 5.5(a) above shall be capped at a maximum metric of \*\*\*%.
- (c) The continuous improvement process of this Section 5.5 shall apply to all Service Levels for which continuous improvement is noted on Schedule A-1 (*Initial SOWs Cross Functional Solution Description*), B-1 (*Certain Service Levels*) or the Exhibit B-1s to each SOW.
- (d) The Parties agree that for purposes of computing continuous improvement for the Abandon Rate Service Level, "**perfect performance**" as used in Section 5.5(a) shall be deemed to be zero (0) percent. Continuous improvement shall apply to the Abandon Rate Service Level, provided that the maximum improvement is as set forth in the right hand column (under "**New SLA**") in the table below:

\*\*\*

- (e) The descriptions of the Services Levels will be updated on an annual basis to reflect the results of the continuous improvement modifications described above; provided, however, that such modifications shall be effective automatically notwithstanding the absence of any such update to such Schedule or Exhibit.

## 5.6 Quarterly Meeting to Adjust Service Levels

Health Net and Supplier will meet to review the Service Levels on a quarterly basis to discuss the Service Levels and will make adjustments to the Service Levels as appropriate to reflect improved performance capabilities associated with advances in technology, processes, methods and tools. As new technologies, processes methods and tools are introduced, additional Service Levels reflecting industry best practices for those technologies and processes will be established by the Parties.

## 6. STAKEHOLDER SATISFACTION SURVEY

Both as a management feedback tool and in an effort to help ensure that Supplier's performance of the Services achieves Health Net's objectives set forth in the Agreement, Health Net will assess key Health Net's key stakeholders' satisfaction of Supplier, taking into consideration the strategic direction and objectives of the relationship, using the methodology set forth below:

- (a) The Stakeholder Satisfaction Survey is attached hereto as Schedule B-4 ("**Stakeholder Satisfaction Survey**"). Health Net has the right, from time to time during the Term, to modify the Stakeholder Satisfaction Survey in its sole discretion, upon notice to Supplier.
- (b) No later than first quarter after the BPaaS Services Commencement Date and quarterly thereafter, Health Net shall administer the Stakeholder Satisfaction Survey (in its then-current form).
- (c) Health Net shall administer the Stakeholder Satisfaction Survey to no fewer than ten (10) and no more than twenty (20) key stakeholders within the Health Net organization (as will be identified by Health Net in advance of each Stakeholder Satisfaction Survey). Prior to each Stakeholder Satisfaction Survey, the Parties will jointly inform and educate the key stakeholders taking such survey about the questions, criteria, metrics, credit assessment, and goals of the Stakeholder Satisfaction Survey. The Stakeholder Satisfaction Survey shall be scored and the results of such scoring shall be as follows:
  - (i) Each key stakeholder completing the Stakeholder Satisfaction Survey shall provide an overall score, which shall range between 1.0 (poor) and 5.0 (excellent). The score from each key stakeholder will be averaged to calculate the aggregate Stakeholder Satisfaction Survey score (the "**Score**").
  - (ii) If the Score for any category is less than 3.0, then the Parties shall meet to discuss the reason(s) for such Score. Within thirty (30) days of the administration of the applicable Stakeholder Satisfaction Survey, Supplier shall be required to develop a plan ("**Remediation Plan**") designed to improve Supplier's performance and Score. The Remediation Plan is subject to Health Net's approval and Supplier shall promptly implement the Health Net-approved Remediation Plan; and

- (iii) If the Score for the survey is less than\*\*\*, Supplier shall pay Health Net the applicable Stakeholder Satisfaction Survey Credit in accordance with Section 4.7.
- (d) Health Net may not use the results of the Stakeholder Satisfaction Survey as the sole basis for a claim that Supplier is in material breach of this Agreement for purposes of exercising Health Net's termination rights under Section 16.1 of the Terms and Conditions.

**7. OTHER TERMS**

**7.1 Changes to Service Levels via Change Control**

If Health Net requests, Supplier to implement a new Service Level at a particular level and the Parties agree upon the payment amount for such new Service Level, then baselining shall not be required, notwithstanding Section 5.2 or any other Section hereof.

**7.2 Comparable Critical Service Levels and Performance Guarantee Group Service Levels**

For the avoidance of doubt, the determination of whether Supplier has met or failed to meet any Critical Service Level shall be made without regard to whether Supplier has met or failed to meet any Performance Guarantee Group Service Level that is comparable to, but less demanding than, such Critical Service Level; similarly, the determination of whether Supplier has met or failed to meet any Performance Guarantee Group Service Level shall be made without regard to whether Supplier has met or failed to meet any Critical Service Level that is comparable to, but less demanding than, such Performance Guarantee Group Service Level.

\*\*\* \*\*

**SCHEDULE B-1  
CERTAIN SERVICE LEVELS**

**1. SERVICE LEVELS GENERALLY**

All Service Levels are subject to the Service Level Methodology set forth in Schedule B (*Service Levels*) and the applicable provisions of the Agreement.

**2. STAKEHOLDER SATISFACTION SURVEY SERVICE LEVEL**

Ref #	Category / Name	Description	Measurement Period	Measurement Tool	Service Level	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improve
1	Stakeholder Satisfaction Survey	See Section 6 (Stakeholder Satisfaction Survey) of Schedule B ( <i>Service Levels</i> )	Quarterly	Manual calculation based on Stakeholder Satisfaction Survey results	See Section 6(c)(iii) of Schedule B ( <i>Service Levels</i> )	TBD	TBD	A	No

**3. SECURITY SERVICE LEVELS**

#	Service Area	Description	Measurement Period	Measurement Tools / Process	Service Level Metric	Formula	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improvement
1.	Security & Privacy Training	Measures the level of compliance for Supplier to complete mandatory security and privacy	Monthly	Training system records or Health Net	100%	Number of Supplier Personnel completing training on time within the last month / Total number	TBD	TBD	A	N

#	Service Area	Description	Measurement Period	Measurement Tools / Process	Service Level Metric	Formula	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improvement
		training on time.		training coordinator records		of Supplier Personnel assigned to perform Services x 100				
2.	IAVM Patching	Measures the number of IAVM-required security patches installed on systems and Available for Use in for hosting (a) Critical Services and on all Federal Services systems within IAVM timelines.	Monthly	Patch Management Systems, Vulnerability Scanners, Security Assessments	≥97%	(Number of IAVM-required patches installed on Critical Service and Federal Services systems that are Available for Use within IAVM timeframes / Number of IAVM-required patches applicable to Critical Services and Federal Services systems that are Available for Use) x 100 (not including exceptions agreed in advance in writing)	TBD	TBD	A	Y
3.	Vulnerability Remediation for Critical Systems	Measures the number of High and Moderate Severity Vulnerabilities (including missing patches) remediated on systems that are Available for Use hosting Critical Services within 30 days	Monthly	Patch Management Systems, Vulnerability Scanners, Security Assessments	≥97%	(Number of High and Moderate-Severity Vulnerabilities remediated on systems that are Available for Use hosting Critical Services within 30 days / Number of High and Moderate-Severity Vulnerabilities identified on systems that are Available for Use hosting Critical Services) x 100 (not including exceptions agreed in advance in writing)	TBD	TBD	A	Y
4.	High Risk Vulnerability Remediation	Measures the number of High-Severity Vulnerabilities (including missing patches) remediated on devices that	Monthly	Patch Management Systems, Vulnerability Scanners,	≥97%	(Number of High-Severity Vulnerabilities remediated on devices that are Available for Use within 30 days / Number of High-	TBD	TBD	A	Y

#	Service Area	Description	Measurement Period	Measurement Tools / Process	Service Level Metric	Formula	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improvement
		are Available for Use within 30 days		Security Assessments		Severity Vulnerabilities identified on devices that are Available for Use) x 100 (not including exceptions agreed in advance in writing)				
5.	Vulnerability Remediation for All Systems	Measures the number of Vulnerabilities (including missing patches) remediated on available devices within 90 days	Monthly	Patch Management Systems, Vulnerability Scanners, Security Assessments	≥97%	(Number of High and Moderate-severity vulnerabilities remediated on available devices within 90 days / Number of High and Moderate-severity Vulnerabilities identified on available devices) x 100 (not including exceptions agreed in advance in writing)	TBD	TBD	A	Y
6.	Security & Privacy Incident Response	Measures the time to report Information Security Incidents and Privacy incidents	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	100% of incidents reported within 1 Business Day	Number of Information Security Incidents and Privacy incidents with Response Time ≤ 1 Business Day / total number of Information Security Incidents and Privacy incidents	TBD	TBD	A	N
7.	Security & Privacy Incident Response - Noncompliance Reporting	Measures the time to report security and privacy non-compliance where Confidential Information has not been disclosed and is not at significant risk.	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	≥90% of incidents reported within 1 Business Day	Number of Information Security Incidents and Privacy incidents where Confidential Information is not at significant risk with Response Time ≤ 1 Business Day / total number of Information Security Incidents and Privacy incidents where Confidential Information is	TBD	TBD	A	Y

#	Service Area	Description	Measurement Period	Measurement Tools / Process	Service Level Metric	Formula	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improvement
						not at significant risk				
8.	Firewall Availability	Measures continued protection of networks and systems through continuously functioning firewalls and associated access controls.	Monthly	SIEM and System Monitoring Logs, Alerts, and Reports, Firewall Logs	100%	Amount of time networks and systems are unprotected by a firewall over the measurement period.	TBD	TBD	A	N
9.	Configuration Management	Measures the configuration drift from baseline technical specifications on a quarterly basis to validate the configuration meets specifications.  Initial baseline technical specification will be the ISEC document, and will be updated and expanded from there as mutually agreed by the parties.	Monthly	Measured initially via SCCM and Altiris. Later measured through CMDB. Data validated in part by security scans.	>99%	(Number of systems with configuration differences from documented technical specifications or approved exception document / number of systems with documented configuration requirements) x 100.	TBD	TBD	C	N
10.	Security & Privacy Incident Response - Confidential and Non-Confidential Information Exposure Remediation	Measures the time to implement preventive controls during Information Security Incidents and Privacy incidents when Confidential or non-Confidential Information has been inappropriately disclosed or is at significant risk or of disclosure	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	(a) Confidential Information: 98% of requested controls put into place within 15 minutes; and (b) Non-confidential Information:	(a) Number of Information Security Incidents and Privacy incidents where Confidential Information is at risk and requested controls are put in place in ≤ 15 minutes / total number of Information Security Incidents and Privacy Incidents where Confidential Information is at risk; and	TBD	TBD	A	Y

#	Service Area	Description	Measurement Period	Measurement Tools / Process	Service Level Metric	Formula	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improvement
					90% of requested controls put into place within 1 Business Day	(b) Number of Information Security Incidents and Privacy Incidents where Confidential Information is not at significant risk and requested controls are put in place in ≤ 1 Business Day / total number of Information Security Incidents and Privacy incidents where Confidential Information is not at significant risk				
11.	Security & Privacy Incident Response - Identified Compromised System Isolation	Measures the time to isolate (e.g., remove from the network or place network restrictions around) identified compromised systems during Information Security Incidents and Privacy incidents where system isolation has been requested (measured from the time at which a request for system isolation is made by Health Net).	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	≥90% of requested controls put into place within 1 hour	Number of Information Security Incidents and Privacy incidents where system isolation is requested in which requested controls are put in place within ≤ 1 hour / total number of Information Security Incidents and Privacy incidents where system isolation is requested	TBD	TBD	A	Y
12.	Security & Privacy Incident Response - Reporting	Measures the time to provide requested after action report and lessons learned during Information Security Incidents and Privacy incidents where such information has been requested	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	≥98% of requested information provided within 5 days	Number of Information Security Incidents and Privacy incidents where an after action or lessons learned report is requested and provided in ≤ 5 days / total number of Security and Privacy incidents where an after action or lessons learned report is requested	TBD	TBD	A	N

#	Service Area	Description	Measurement Period	Measurement Tools / Process	Service Level Metric	Formula	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improvement
13.	Information Security and Privacy Detection Response	Measures the mean time to reporting (MTTREP) of security alerts, events, event-related information, suspicious, anomalous or malicious activity in the environment and reported to the HN Security Team.	Monthly	CTS responsible for entering request for Change Management System, Incident Reporting Systems (email, phone systems, etc.)	≥99% of incidents reported within 5 minutes	Number of Information Security Incidents and Privacy incidents and alerts, with reporting time <5 minutes / total number of Information Security Incidents and Privacy Incidents	TBD	TBD	C	N
14.	Information Security and Privacy Incident Response - Information and Content Request Response Process	Measures the time to respond to requests for application, host or network information and content, related to security and privacy events, including the requested information.	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	(a) ≥99% of security and privacy incident related information requests responded to within 5 minutes and (b) ≥99% of security and privacy incident related information request data provided to security team within 10 minutes	(a) Number of Information Security Incidents and Privacy incidents with Response Time <5 minutes / total number of Information Security Incidents and Privacy Incidents and (b) Number of Information Security Incidents and Privacy Incidents with information requests fulfilled in < 10 minutes / total number of Information Security Incident and Privacy Incident information requests	TBD	TBD	C	N

#	Service Area	Description	Measurement Period	Measurement Tools / Process	Service Level Metric	Formula	BPaaS Weighting Factor	Non-BPaaS Weighting Factor	Code	Continuous Improvement
15.	Information Security and Privacy Incident Response - Priority 1 Response Remediation Process	Measures the time to complete remediation action required for network, host, authentication/identity, application or other change requests related to Information Security Incident and Privacy Incidents, except isolation requests covered by Service Level #64.	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	≥95% of Information Security Incidents and Privacy Incident change requests made with confirmation provided to the security team within 10 minutes	Number of Information Security Incidents and Privacy Incident change requests fulfilled in < 10 minutes / total number of Information Security Incident and Privacy Incident change requests	TBD	TBD	C	N
16.	Information Security and Privacy Incident Response - Priority 2 Response Remediation Process	Measures the time to complete remediation action required for network, host, authentication/identity, application or other change requests related to Information Security Incident and Privacy Incidents.	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	≥95% of Information Security Incidents and Privacy Incident change requests made with confirmation provided to the security team within 15 minutes	Number of Information Security Incidents and Privacy Incident change requests fulfilled in < 15 minutes / total number of Information Security Incident and Privacy Incident change requests	TBD	TBD	C	N
17.	Information Security and Privacy Incident Response - Priority 3 Response Remediation	Measures the time to complete remediation action required for network, host, authentication/identity, application or other change requests related to Information Security	Monthly	Change Management System, Incident Reporting Systems (email, phone systems, etc.)	≥95% of Information Security Incidents and Privacy Incident change requests made	Number of Information Security Incidents and Privacy Incident change requests fulfilled in < 30 minutes / total number of Information Security Incident and Privacy Incident change requests	TBD	TBD	C	N

**4. DEFINITIONS**

Vulnerability	A security vulnerability is a weakness in a product (hardware or software) that could allow an attacker to compromise the integrity, availability, or confidentiality of that product.
High-Severity Vulnerabilities	Vulnerabilities that Health Net has determined represent a major risk to security, that must be corrected as soon as possible without circumventing standard processes, and that must be prioritized for mitigation and remediation above less severe Vulnerabilities.
Moderate-Severity Vulnerabilities	Vulnerabilities that Health Net has determined represent a significant risk to security, that must be corrected without circumventing standard processes, and that must be prioritized for mitigation and remediation above less severe Vulnerabilities.
IAVM	Department of Defense Information Assurance Vulnerability Management. The IAVM program provides notifications and guidance for security patching within timelines based on threat determinations resulting from Department of Defense cyber security analysis.
Information Security Incidents	The attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with systems operations in an information system, or, the actual or possible loss of control, unauthorized disclosure, or unauthorized access of personal information in which persons other than authorized users gain access or potential access to such information for other than authorized purposes in which one or more individuals will be adversely affected. These Incidents are categorized utilizing the framework defined by NIST SP 800-61 rev2 and documented within the Information Security Incident Response Plan.

	Information Security will be the primary decision maker around the declaration that a Security Event is an Incident.
Privacy Incidents	A Privacy Incident is defined as a violation of the law or company security policies, standards or procedures, or an event which causes a loss of data confidentiality, disruption of data or system integrity, or disruption or denial of availability compromises (or has the potential to compromise) the confidentiality, integrity, security, or availability of Protected Health Information ("PHI") or Personally Identifiable Information ("PII"). The term Privacy Incident covers all events that compromise or may compromise PHI or PII, regardless of whether characterized as involving "technical security," "physical security," or "privacy" issues. Health Net's Privacy Office will determine if and declare that a Privacy Incident or Breach has occurred.
Confidential Information	Without limiting the definition in Section 21.1 of the Terms and Conditions, with respect to Health Net, Confidential Information includes without limitation personal information concerning Health Net employees or members or customers, medical information including diagnosis, treatment or benefit administration of any member, financial information relating to employees, hospitals, physicians and provider-specific information related to credentialing/recredentialing proceedings, quality review, malpractice suits and peer-review determination.

<p>Security and Privacy Incident - Severity High or Priority 1</p>	<p>A Priority 1 incident is defined as an event that Health Net has determined will have a significant impact on one or more of the following:</p> <ul style="list-style-type: none"> <li>· The ability to provide products/goods/services to a significant number of Health Net's customers.</li> <li>· The ability to control/measure/record/track/account for a significant amount of inventory/goods/revenue/cash</li> <li>· The unacceptable risk of significant punitive regulatory actions, contractual penalties, fraudulent criminal activity and or civil litigation</li> <li>· Significant notoriety that has the potential to affect the stock price adversely, damage the brand, and/or cause widespread concern amongst customers/shareholders.</li> </ul> <p>A Priority 1 should be met with the full support of the corporation and outsourced agencies. A Priority 1 incident may involve any or all of the following:</p> <ul style="list-style-type: none"> <li>· Executive involvement</li> <li>· Several areas of due diligence on the part of Health Net including: operational impact, criminal prosecution, contractual and statutory reporting, litigation preparation.</li> <li>· Unsolicited third-party involvement such as law enforcement, regulatory entities, civil subpoenas, and/or third-party contractual obligations.</li> <li>· Obligatory releases of internal information to the public, extensive media, and shareholder scrutiny.</li> </ul>
<p>Security and Privacy Incident - Severity Medium or Priority 2</p>	<p>A Medium or Priority 2 incident is defined as an event that Health Net has determined will meet any or all conditions as follows:</p> <ul style="list-style-type: none"> <li>· Does not fall within the description of a Priority 1 incident</li> <li>· Subject to mandatory reporting or notification</li> <li>· Requires due diligence by Health Net to assess, identify, and correct a deficiency within the organization's data processing , data usage, and /or information security infrastructure</li> <li>· Presents the potential but not the likelihood of litigation and/or media attention.</li> </ul> <p>A Priority 2 incident response may involve any or all of the following:</p> <ul style="list-style-type: none"> <li>· Execution at a level of management appropriate to address and resolve all issues raised.</li> <li>· A determination as to resources and functions required for resolution as well as reports required</li> <li>· Documentation of all efforts</li> <li>· Management status reporting notifications</li> </ul>

Security and Privacy Incident - Severity Low/None or Priority 3	Health Net routinely deals with malware, lost or stolen devices, and one off issues that affect a small group of people with limited risk to the organization.  A Priority 3 incident may involve any or all of the following: · Execution at a level of management appropriate to address and resolve the incident. · A determination as to resources and functions required for resolution as well as reports required. · Documentation of efforts.
Protected Health Information "PHI"	"PHI" or "Protected Health Information" has the meaning given in Section 2.1 of the Terms and Conditions.
Personally Identifiable Information "PII"	"PII" or "Personally Identifiable Information" has the meaning given in Section 2.1(III) of the Terms and Conditions.

**SCHEDULE B-2  
COMPLIANCE SERVICE LEVEL METRICS**

**I. DEFINITIONS**

The following capitalized terms will have the meanings given them below:

- A.** “*Medicare – Part C and Part C and D Combined Compliance Measures*” mean the Compliance Measures designated as Group Code 4 in Schedule B-2-1 (*Compliance Measures*).
- B.** “*Medicare – Part D Compliance Measures*” mean the Compliance Measures designated as Group Code 8 in Schedule B-2-1 (*Compliance Measures*).
- C.** “*Commercial – CA Compliance Measures*” mean the Compliance Measures designated as Group Code 1 in Schedule B-2-1 (*Compliance Measures*). This includes California DMHC, CDI, DOL and HHS Compliance Measures as well as Commercial Compliance Measures combining regions.
- D.** “*Commercial - AZ Compliance Measures*” mean the Compliance Measures designated as Group Code 3 in Schedule B-2-1 (*Compliance Measures*). This includes Arizona ADOI, DOL and CMS Compliance Measures.
- E.** “*Commercial – OR/WA Compliance Measures*” mean the Compliance Measures designated as Group Code 2 in Schedule B-2-1 (*Compliance Measures*). This includes OR/ OID and WA OIC Compliance Measures.
- F.** “*SHP - CA Compliance Measures*” mean the Compliance Measures designated as Group Code 5 in Schedule B-2-1 (*Compliance Measures*). This includes SHP – CA DMHC, DHCS and HHS Compliance Measures. Includes combined Compliance Measures for CA and AZ.
- G.** “*Duals Compliance Measures*” mean the Compliance Measures designated as Group Code 7 in Schedule B-2-1 (*Compliance Measures*). This includes CA D, HCS and CMS Compliance Measures.
- H.** “*SHP - AZ Compliance Measures*” mean the Compliance Measures designated as Group Code 6 in Schedule B-2-1 (*Compliance Measures*). This includes SHP – AZ – AHCCCS Compliance Measures.

**II. COMPLIANCE SERVICE LEVELS**

Category	Group Code	Service Level Description	Measurement Period	Critical (Y/N)	Weighting Factor
Compliance – Medicare – Part C and Part C and D	4	100% compliance with all Medicare - Part C and C and D Combined Compliance Measures.	Monthly	Y	***

Category	Group Code	Service Level Description	Measurement Period	Critical (Y/N)	Weighting Factor
Combined Measures					
Compliance – Medicare – Part D	8	100% compliance with all Medicare - Part D Compliance Measures.	Monthly	Y	***
Compliance - Commercial - CA	1	100% compliance with all Commercial - CA Compliance Measures.	Monthly	Y	***
Compliance - Commercial - AZ	3	100% compliance with all Commercial - AZ Compliance Measures.	Monthly	Y	***

Metric ID	Owner	Group Code	Metric Name	Metric Measure	Measurement Tools	Comment	Status	Location	Regulator	Metric Type	Target
CPD	MAE	1	ACA- Processing ID Cards	ID cards sent within 10 business days of receiving complete and accurate enrollment information from the exchange and premium.	Manual Calculation between data from a future report extracted from ABS and data from the OCOE.	New SLA		CA/AZ	CMS/DMHC/CDI/AD OI	Compliance	99%
CPD	MAE	1	ACA- Processing ID Cards	The Exchange will receive the 999 file within one business day of receipt of the 834/820 file 85% of the time and within 3 business days of receipt of the 834/820 file 99% of the time within any given month.	ITG Extract	New SLA		CA/AZ	CMS/DMHC/CDI/AD OI	Compliance	99%
CPD	MAE	1	ACA- Effectuation of Enrollment	The exchange will receive the 834 file within one business day of receipt of the member's initial payment file 85% of the time and within 3 business days of receipt of the member's initial payment 99% of the time within any given month.	ITG Extract	New SLA		CA/AZ	CMS/DMHC/CDI/AD OI	Compliance	98%
CPD	MAE	1	ACA-Member Payment	The Exchange will receive the 820 file within one business day of receipt of the member's payment file 95% of the time and within 3 business days of receipt of the member's payment 99% of the time within any given month.	ITG Extract	New SLA		CA/AZ	CMS/DMHC/CDI/AD OI	Compliance	99%
CPD	MAE	1	ACA- Enrollment Change upon Non-receipt of member payment, 30 day notice and termination.	The Exchange will receive the 834 file within one business day of receipt of change of the member's status 95% of the time and within 3 business days of receipt of the member's status 99% of the time within any given month.	ITG Extract	New SLA		CA/AZ	CMS/DMHC/CDI/AD OI	Compliance	99%
CPD	MAE	1	HMO/POS Delinquency Notice	% of risk of termination notices sent to delinquent members 30 days prior to termination	Data from ODW & Access Database	New SLA, HSC 1365		CA	DMHC	Compliance	100%
CPD	MAE	1	PPO/EPO Delinquency Notice	% of risk of termination notices sent to delinquent members 30 days prior to termination	Data from ODW & Access Database	New SLA, CIC 10273.4		CA	CDI	Compliance	100%
CPD	MAE	1	On Exchange Delinquency Notice	% of notices sent to delinquent members with APTC three months prior to termination	Data from ODW & Access Database	New SLA, CFR 156.270		CA	CMS, DMHC, CDI	Compliance	100%
CPD	MAE	3	On Exchange Delinquency Notice	% of notices sent to delinquent members with APTC three months prior to termination	Data from ODW & Access Database	New SLA, CFR 156.270		AZ	CMS/DMHC/CDI/AD OI	Compliance	100%
CPD	MAE	1	ACA- Reporting Cancellations	Reporting Cancellations for Non-Payment to the exchange by the 10th of the month	ITG Extract	New SLA		CA	CMS/DMHC/CDI/AD OI	Compliance	100%
CPD	MAE	3	ACA- Reporting Cancellations	Reporting Cancellations for Non-Payments to the Federal Exchange by the 5th of the month	ITG Extract	New SLA		AZ	CMS/DMHC/CDI/AD OI	Compliance	100%

Metric ID	Tower	Group Code	Metric Name	Metric Measure	Measurement Tools	Comment	Status	Location	Regulator	Metric Type	Target
CPD-663	MAE	1	TAT of Termination Notice due to non-payment of premium for life insurance policies	% of notices sent to the life insurance policy owner, and their designee (if individual) at least 30 days prior to the effective date of lapse or termination and within 30 days after premium is due and unpaid.	Geneico generated Report, manual tracking		●	ALL	CDI	Compliance	= 100 %
CPD-673	MAE	1	MSP Input & TIN Reference Files - Submission Timeliness	TIN Reference File: Submitted by the assigned submission period each quarter. MSP Input File: Submitted within the assigned, 7-day submission period each quarter.	Health Net Data Warehouse automated FTP file to CMS with automated email verification from CMS of receipt	Quarterly	●	AZ & CA & OR & WA	CMS	Compliance	= 100 %
CPD-674	MAE	1	MSP Response File Errors	Percentage of errors resolved prior to the next submission.	CMS Response file received from CMS used as a manual tracking file for % resolved.	Quarterly	■	AZ & CA & OR	CMS	Compliance	= 100 %
DPD	MAE	7	ID Card Mailing Passive Enrollments	ID Cards to be in the members hands prior to their effective date	Tracked in Access Data Future report from ABS	New SLA		ALL	CMS/DHCS	Compliance	= 100 %
DPD	MAE	7	ID Card Mailing Voluntary Enrollments	ID Cards to be mailed with in 10 days of the receipt of the TRR	Tracked in Access Data Future report from ABS	New SLA		ALL	CMS/DHCS	Compliance	= 100 %
DPD-263	MAE	7	FIR Error transactions are corrected timely	Within 15 days, correct FIR issue so that Caremark is able to successfully transfer member's financial Part D dollars to and from CMS' Vendor.	SQL/Oracle back end with an Access database / front end		■	ALL	CMS	Compliance	100%
DPD-264	MAE	7	Coordination of Benefits (COB) loaded into Caremark's system timely	During weekly processing, load COB file received from CMS into Caremark's system for Part D claim adjudication. (NOTE: Special Business Process: Any new COB Medicare Secondary Payer (MSP) record for a member will first be validated prior to loading into Caremark and is included in the weekly processing and loading.)	SQL/Oracle back end with an Access database / front end		■	ALL	CMS	Compliance	= 100 %
DPD-265	MAE	7	Prescription Drug Event (PDE) Timely Submissions to CMS	Within 30 days, ensure all Part D eligible claims are successfully submitted as a PDE to CMS.	SQL/Oracle back end with an Access database / front end		●	ALL	CMS	Compliance	= 98 %
DPD-266	MAE	7	Prescription Drug Event (PDE) Error Timely Correction to CMS	Within 90 days, PDE Errors are corrected and submitted back to CMS and accepted by CMS. New requirement.	SQL/Oracle back end with an Access database / front end		●	ALL	CMS	Compliance	= 98 %
MPD	MAE	4	ID Card Mailing	ID Cards to be mailed with in 10 days of the receipt of the TRR	Future report from ABS	New SLA		All	CMS	Compliance	= 100 %
MPD	MAE	4	Member Refunds	Member refunds to be mailed with in 30 calander days	Future report from ABS	New SLA		ALL	CMS	Compliance	= 100 %

**SCHEDULE B-4**  
**STAKEHOLDER SAT SURVEY**

**SCHEDULE B-4  
STAKEHOLDER SATISFACTION SURVEY**

**Scoring**

- 5 Regularly exceeding expectations and perceived to be adding significant value above and beyond requirements or SLAs.
- 4 Consistently meeting expectations and occasionally exceeding expectations by adding value above requirements or SLAs.
- 3 Consistently meeting expectations and perceived to be contributing to client success within the scope of services contracted for.
- 2 Some inconsistency in meeting expectations and perceptions that client is having to intervene to ensure performance - improvement required.
- 1 Consistently not meeting expectations - situation requires immediate and substantial improvement.

**Stakeholder Scoring Matrix**

Category	Score
Account Management	3
Operational Management	3
Knowledge Management	3
Business Enablement & Innovation	3
Value of Services	3
Customer Experience	3
Brand Impact	3
<b>Overall Score</b>	<b>3</b>

Please provide specific comments, observations, concerns, recommendations for improvement, etc. of any ratings less than 3

Considerations for Category Scoring (Note: each consideration does not have to be demonstrated in each quarter to achieve a 3 or higher.)

**Account Management Team**

- Account Management Team leadership skills.
- Timely and informative reporting and communications.
- Openness to suggestions / criticism and responsiveness to Client Leadership concerns.
- Attitude and responsiveness for dealing with unforeseen business needs or events, as appropriate for Supplier's scope.
- Ability to manage up and out across the Supplier's delivery organization(s) (e.g., foreign delivery locations or business units).
- Tracking and resolution of Client issues that have been referred within Supplier's delivery organization.
- Ability to identify and leverage the "right" people from Supplier to support Client's needs.
- Ease of interaction with Account Management Team.

**Operational Management**

- Operational excellence of Supplier (the achievement of SLAs without material Client intervention or attention).
- Quality of change execution.
- Proactive in addressing potential or actual operational failures (e.g., incident avoidance, attention of resources to recurring problems).
- Openness and communication of operational problems (v. failing to inform or attempting to cover over problems).
- Knowledge of Client policies, procedures and methodologies and training of client personnel.
- Ability to recover upon a service failure.
- Supplier management of turnover of Key Resources and/or "Knowledge Critical" resources.

**Knowledge Management**

- Availability and ease of use of Supplier's Knowledge Management solution including access by all appropriate Client and other necessary supplier resources.
- Quality of material contained in Knowledge Management System.
- Proactive updating and improvement of the information contained in the Knowledge Management System by Supplier resources.
- Value of Knowledge Management to speed of resolution, improvements in client experience and/or operational hand-offs between delivery centers.

**Business Enablement and Innovation**

- Supplier's knowledge of Client's business and industry.
- Supplier's knowledge of current and trending technology and proactive communication of potential value/threat to Client's business.
- Supplier observations and recommendations to improve Client performance both within and around Supplier's Services.
- Supplier's proactive delivery of Supplier subject matter experts (industry, technical, operational, etc.) to inform and improve Supplier Services.

**Value of Services**

- Perceived value of ongoing efforts by Supplier to improve quality of Services after Supplier transition.
- Value of Supplier's integration, tools, process best practices, methodologies and effective leverage of same in delivery of Services.

**Customer Experience**

- Overall perception of value of Supplier's delivery on Customer experience.
- Quality and effectiveness of communications to Customers as appropriate for Supplier's scope.
- Perception of Business Stakeholder's satisfaction as obtained by Customer surveys and other feedback from the businesses.
- Ease of Customer interaction with Supplier as appropriate for Supplier scope.

**Brand Impact**

- Stakeholder's perception of Supplier's efforts to protect the Client's brand.
- Supplier's impact on brand through proactive management of quality and compliance challenges.
- Supplier's impact on brand through proactive avoidance of information or other security breaches.
- Outcome of industry and other surveys based on Customer experiences associated with Supplier's delivery of Services.

**SCHEDULE G**  
**GOVERNANCE**

## SCHEDULE G GOVERNANCE

### 1. GENERAL

- (a) This Schedule G (*Governance*) sets forth an integrated set of resources, committees, meetings, processes, plans and tools (“*Contract Governance*”). The purpose of Contract Governance is to monitor and control all aspects of the Services in order to promote smooth operation of the Services in accordance with the Agreement. This Schedule G (*Governance*) describes the Contract Governance plan (“*Contract Governance Plan*”), including Health Net’s and Supplier’s roles and responsibilities in Contract Governance, the relationship management structure, the decision making processes related to the Services, and other aspects of the Contract Governance.
- (b) The following Schedules are included as part of this Schedule G (*Governance*):
  - (i) Schedule G-1 (*Supplier Organization*) contains a description of Supplier’s management-level organizational unit involved in the performance of this Agreement.
  - (ii) Schedule G-2 (*Committee and Meeting Framework*) describes the committee and meeting framework to be used by Health Net and Supplier to operationalize Contract Governance.
  - (iii) Schedule G-3 (*Management Reports*) contains a list of certain of the management reports that will be provided by Supplier to Health Net as part of Contract Governance.

### 2. CONTRACT GOVERNANCE PLAN

#### 2.1 Development of Contract Governance Plan

Health Net and Supplier will jointly finalize and implement the Contract Governance Plan within ninety (90) days, or as mutually agreed, following the Effective Date. The Contract Governance Plan will, at a minimum:

- (a) Specify the formal organizations, processes, and practices for managing Health Net’s and Supplier’s relationship under the Agreement;
- (b) Establish organizational interfaces for management and operation of the Agreement including:
  - (i) the organization charts for Health Net and Supplier identifying the roles involved in Contract Governance;
  - (ii) framework for governance reports and meetings, including those reports and meetings described in Section 3, below; and
  - (iii) the operational and contractual authority and authorization levels of the Health Net and Supplier resources involved in Contract Governance;

- (c) Specify the following Contract Governance processes:
  - (i) Process to receive, qualify, identify, manage, and track Deliverables to completion; and
  - (ii) Protocol for formal communications between Health Net and Supplier;
- (d) Establish a strategy for gathering appropriate inputs to Contract Governance and communicating appropriate outputs from Contract Governance to appropriate Health Net and Supplier resources; and
- (e) Include such other information as requested by Health Net to support the purpose of Contract Governance.

## 2.2 Other Governance-Related Processes

In addition to any other processes necessary to support Contract Governance, the role of the Governance organization in the following processes (e.g., as the body to hear escalations, etc.) will be incorporated in the Contract Governance Plan:

- (a) Change Control Process, as defined and further described in Section 17.5 of the Terms and Conditions and Schedule H (*Change Control*);
- (b) The Action Plan and Step In Rights processes described in Section 17.4 of the Terms and Conditions;
- (c) The processes for determining end user and stakeholder satisfaction, as described in Schedule B (*Service Levels*);
- (d) The process for managing and evaluating performance against the Service Levels and remediating Service Level Failures, as described in Schedule B (*Service Levels*);
- (e) The dispute resolution process described in Section 26 of the Terms and Conditions;
- (f) The indemnification process and procedures described in Section 23 of the Terms and Conditions;
- (g) The process for the development and maintenance of the Procedures Manual described in Section 17.2 of the Terms and Conditions;
- (h) The Demand Intake Process consistent with Schedule J (*Project Framework*), Schedule C (*Charges*), and Schedule H (*Change Control*);
- (i) Processes related to the establishment of the BPaaS and non-BPaaS Road Map; and
- (j) Any other processes and procedures described in this Agreement that relate to how the Parties will interact with one another to govern and manage performance under and compliance with the Agreement.

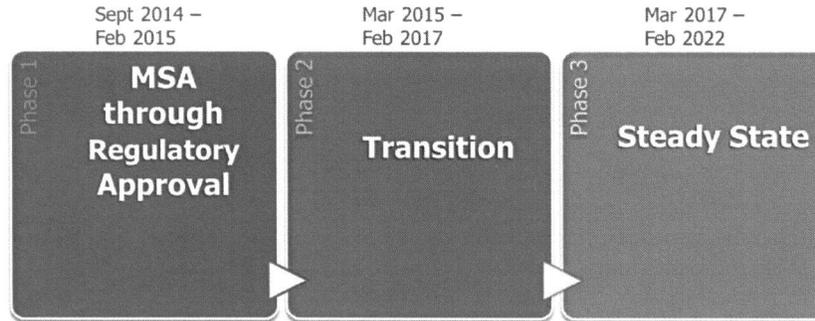

## 2.3 Responsibilities

- (a) Within ninety (90) days after the Effective Date (or as otherwise specified below), Supplier will:
  - (i) assign an individual to be the single point of contact to Health Net for the Contract Governance Structure development and maintenance;
  - (ii) identify the Supplier attendees for the meetings reflected in Schedule G-2 (*Committee and Meeting Framework*) and any updates as they occur;
  - (iii) develop the Contract Governance Plan in collaboration with Health Net;
  - (iv) review Health Net comments and feedback and revise the draft Contract Governance Plan and submit to Health Net for Health Net review and approval within ten (10) Business Days of receipt of Health Net's comments. For the avoidance of doubt, this process will be repeated until the Contract Governance Plan is approved by Health Net; and
  - (v) provide appropriate Supplier Personnel access to the Contract Governance Plan, as needed.
- (b) Within ninety (90) days after the Effective Date (or as otherwise specified below), Health Net will:
  - (i) assign an individual to be the single point of contact to Supplier for the Contract Governance Plan development and maintenance;
  - (ii) provide a list of Health Net attendees for the meetings reflected in the meetings plan and any updates as they occur;
  - (iii) collaborate with the Supplier on the development of the Contract Governance Plan;
  - (iv) review and provide to Supplier, in writing, Health Net's comments, questions and proposed changes to the draft plan within thirty (30) days following Health Net's acknowledged receipt of the draft Contract Governance Plan; and
  - (v) provide the Contract Governance Plan to appropriate Health Net employees, as appropriate.
- (c) Within ninety (90) days after the Effective Date and regularly thereafter, Supplier will identify process inhibitors, and propose process improvements to Health Net, as required.
- (d) In accordance with Schedule R (*Critical Milestones*), Supplier will draft and deliver to Health Net the initial Contract Governance Plan.
- (e) The Parties will jointly review, on an annual basis or more frequently as requested by a Party, the Contract Governance Plan and update and/or maintain the Contract Governance Plan accordingly.

### 3. GOVERNANCE ORGANIZATION

Health Net and Cognizant will implement a governance organization that continues to evolve from the Effective Date through to steady state. Diagram 1 below illustrates the phases of governance evolution as well as the targeted dates for each phase.

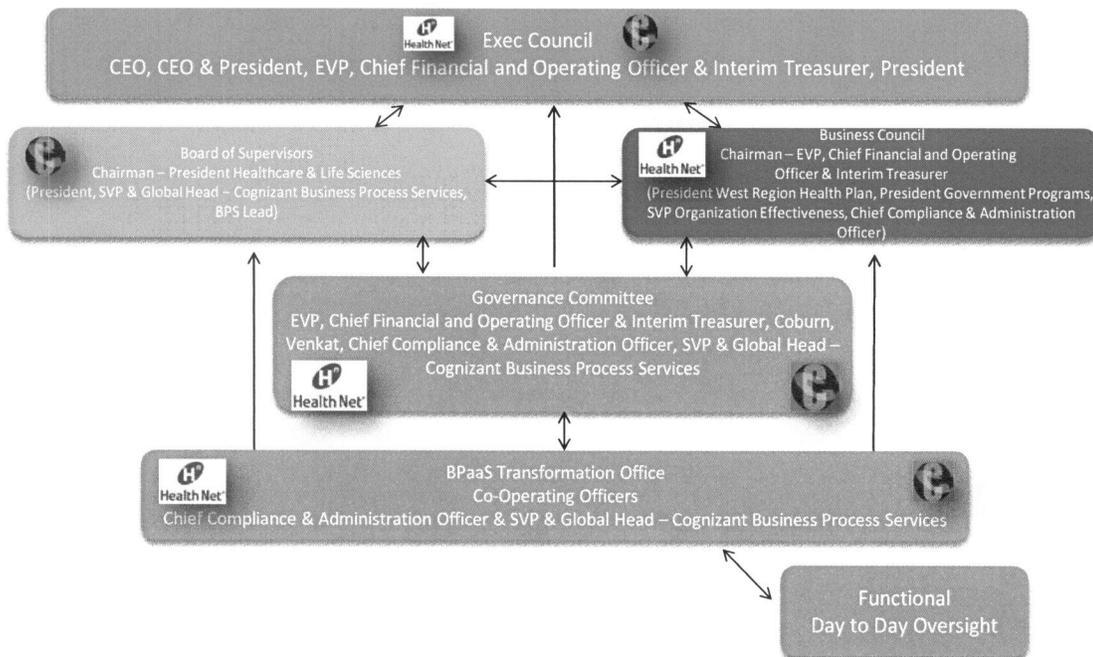

**Diagram 1**

#### 3.1 Governance Structure in Phases 1 and 2

Health Net and Supplier will organize their joint governance during Phases 1 and 2 as illustrated in Diagram 2 below and described in this Section 3.1.

**Diagram 2**

(a) Board of Supervisors and Executive Council

Supplier will create and chair an executive forum responsible for the overall strategic direction and decision making related to the go-to-market strategy for the Technology Platform and related services (the “*Go to Market Forum*”). Health Net will be a member of the Go To Market Forum and will provide strategic advice and industry expertise in connection with the various service offerings and associated technology. The focus and overall strategy of the Go To Market Forum will include addressing the need to increase membership on the Technology Platform in order to reduce overall cost, leveraging and further developing the Technology Platform, leveraging synergies with other Supplier products, and to build and market a product that has highly attractive distinguishing features for the target market.

(b) Governance Committee

The parties will jointly form a Governance Committee consisting of three (3) senior executives from Health Net and three (3) senior executives from Cognizant who will:

- (i) Provide guidance to the Transformation Management Office;
- (ii) Oversee performance reviews (operational and financial);
- (iii) Oversee Service Levels including compliance and transformation metrics;
- (iv) Resolve escalations;
- (v) Decide resource allocations; and
- (vi) Address within their respective organizations and provide guidance to their respective organization on:
  - (A) Portfolio/IT roadmap
  - (B) Innovation oversight
  - (C) Strategic Planning
  - (D) Customer experience

(c) Co-Operating Officers

The parties will each nominate a senior executive from their organization to serve as the Co-Operating Officers through Phase 2 who will:

- (i) Set strategy/structure for the Transformation Management Organization;
- (ii) Manage the Transition;
- (iii) Ensure that Health Net achieves the desired performance levels, cost reduction objectives and builds enhanced capacities;

- (iv) Ensure that Supplier achieves targeted operational goals and metrics associated with delivery of the Services to Health Net; and
- (v) Ensure that Supplier builds and executes a viable line of business targeting acquisition of other health care clients.

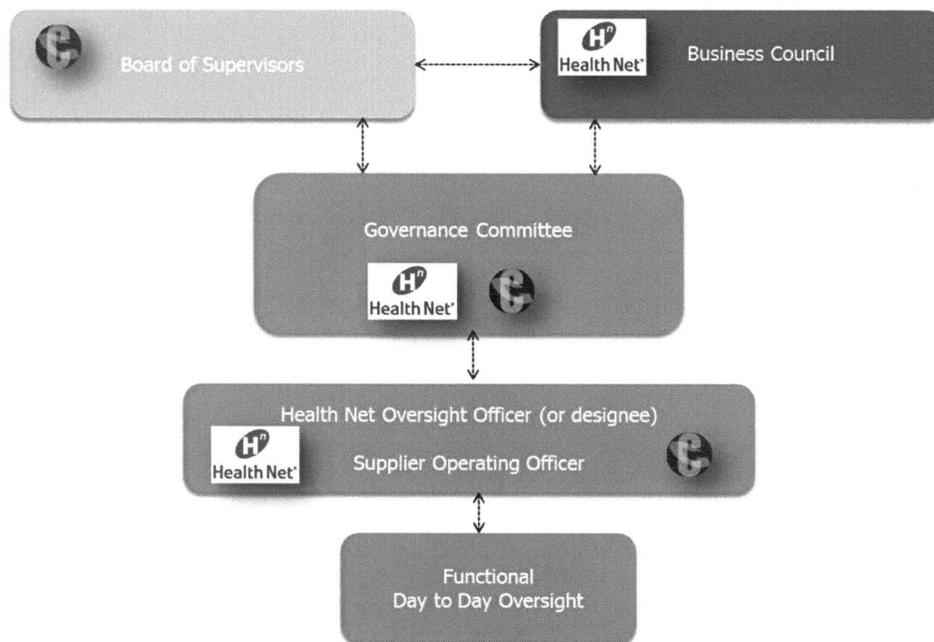

The Supplier Operating Officer’s overall responsibilities for the Term are set forth in Section 5.2 below.

The Health Net Operating Officer will coach the Supplier Operating Officer on all aspects of health plan operations to enable the Supplier Operating Officer to assume greater responsibilities over time related to the oversight of the Services. The Health Net Operating Officer will also have Transition related authority set forth in Section 13.3 of the Terms and Conditions. During Phases 1 and 2, the Health Net Operating Officer will have sole authority for approving or denying each phase of the Transition as they become due (including whether Acceptance Criteria for Transition Deliverables and Transition Milestones have been met) in accordance with Section 1 of Schedule Z (*High Level Transition Information*) and Section 13.4 of the Terms and Conditions. The governance of certain other Transition-related matters is set forth in Section 13.3 of the Terms and Conditions. For the avoidance of any doubt, Transition shall mean each wave within each Statement of Work.

### 3.2 Governance Structure in Phase 3

Health Net and Supplier will organize their governance during Phase 3 as illustrated in Diagram 3 below and described in this Section.

**Diagram 3**

(a) Supplier Board of Supervisors and Health Net Executive Council

The Supplier Board of Supervisors and Health Net Executive Council will continue to operate during Phase 3 as set forth in Section 3.1(a).

(b) Governance Committee

The Governance Committee will continue to operate during steady state with responsibilities as set forth in Section 3.1(b)(ii) - 3.1(b)(vi).

(c) Supplier Operating Officer and the Health Net Oversight Officer (or designee)

At the end of Phase 2, (i) the Health Net Operating Officer will disengage and the Health Net Oversight Officer (or designee) will assume responsibility for representing Health Net in Phase 3/steady state, and (ii) the Supplier Operating Officer will assume responsibility for functional oversight of the day-to-day operations. The Supplier Operating Officer's overall responsibilities for the Term are set forth in Section 5.2 below and also include the responsibilities set forth in Section 3.1(c)(iii) - 3.1(c)(v). During Phase 3, if there is a disagreement between the Health Net Oversight Officer and the Supplier Operating Officer, the parties will escalate the dispute to the Governance Committee for resolution.

#### 4. GOVERNANCE MEETINGS & REPORTS

Governance meetings and management reporting will be critical aspects of the Services provided by Supplier under this Agreement, as they will be the principal means by which Health Net's management and overseers will continue to have the requisite visibility into the operation of those aspects of Health Net's business that are comprised by the Functions outsourced to Supplier pursuant to this Agreement.

##### 4.1 Meetings

As part of the Contract Governance Plan, the Parties will set up the governance meetings ("**Governance Meetings**") listed in Schedule G-2 (*Committee and Meeting Framework*). Unless otherwise agreed by the Parties, Supplier will prepare and circulate a list of topics to be discussed for each agenda item for each meeting sufficiently in advance of each meeting to give the participants an opportunity to prepare for the meeting. Supplier and Health Net will agree on a final agenda. The Parties will ensure that representatives with appropriate knowledge and authority will participate in each Governance Meeting. Supplier will prepare and circulate a documented list of outcomes and action items after each meeting, which will not be binding on either Party if they are in any way inconsistent with this Agreement. At any time during the Term, Health Net may reasonably request additional Governance Meetings or modifications to the type, frequency, purpose or attendance at existing Governance Meetings, and if it does, Supplier shall reasonably consent to such modifications at no charge.

The framework for Governance Meetings and specific Governance Meetings are set forth in Schedule G-2 (*Committee and Meeting Framework*).

##### 4.2 Reports

- (a) During the Term, Supplier will be responsible for continuing to generate all reports (governance, operational, and management reports) produced by the Affected Employees at no additional Charge.

- (b) Schedule A of the Agreement and each Statement of Work addresses the Supplier's responsibilities to provide operational reporting as an integral part of the Services to be provided under this Agreement. This Schedule G (*Governance*) addresses Supplier's responsibilities with respect to "**Management Reporting**," which means reporting by Supplier to Health Net management and external entities, such as Regulators, with respect to the Functions outsourced to Supplier, in order to provide them with the requisite visibility into the relevant aspects of Health Net's business. Management Reporting includes any reporting required by Regulators or applicable Laws. The Parties have prepared a preliminary list of the Management Reporting to be provided by Supplier to Health Net on an ongoing basis, which is set forth in Schedule G-3 (*Management Reports*). Supplier will deliver all reports listed in Schedule G-3 (*Management Reports*) at no additional charge to Health Net. If it is determined that any report listed in Schedule G-3 (*Management Reports*) is not yet being generated by Health Net as of the BPaaS Services Commencement Date, the Parties will mutually agree to a schedule and process for implementing the report (at no additional charge to Health Net) or the Parties will mutually agree to remove the report from Schedule G-3 (*Management Reports*). No later than six months after the BPaaS Services Commencement Date, Health Net may within reason update the list of Management Reports set forth in Schedule G-3 (*Management Reports*). As part of the Contract Governance Plan, the Parties will work together during the Term to refine Schedule G-3 (*Management Reports*) from time to time as may be necessary so that Supplier's Management Reporting meets the objective of providing Health Net's management and overseers with the requisite degree of visibility into the conduct of Health Net's Functions that have been outsourced to Supplier, as they may change and evolve during the Term. Such Management Reporting will be no less comprehensive than (1) the Management Reporting of Health Net's outsourced Functions as of the Effective Date and (2) the Management Reporting provided to Health Net (x) by Supplier under the Original BPO Agreement and Original AO Agreement or (y) by other Health Net outsourcing suppliers, as of the Effective Date, performing services similar to the Services prior to the Effective Date.
- (i) In addition to the Management Reporting described in this Section 4.2(b), Supplier will produce a monthly performance report describing Supplier's performance of the Services in the preceding month (the "**Monthly Performance Report**"). The Monthly Performance Report will be delivered to Health Net not later than the fifteenth (15th) day of each month. Each Monthly Performance Report will (A) assess the degree to which Supplier has attained or failed to attain the pertinent objectives for the prior month, including the Service Levels and measurements with respect to metrics other than the Service Levels as specified by Health Net, if applicable; (B) describe the status of each ongoing problem resolution effort and any other initiative; (C) explain deviations from the Service Levels in the prior month and include for each deviation a plan for corrective action; (D) set forth a record of the Services, personnel changes and any other changes made during the reporting period that affect, or could affect, the Services and describe the planned changes during the upcoming month that may affect the Services; (E) set forth utilization of each Supplier resource (e.g., hour, FTE, etc.) for which a charge is made under this Agreement; (F) include all documentation and other information that Health Net reasonably requests to verify compliance with this Agreement; and (G) provide Health Net with a monthly financial projection of Supplier's charges for the following month.

- (c) At any time during the Term, Health Net may request additional reports or modifications to the type, frequency, or format of existing reports, and if it does, Supplier shall reasonably consent to such modifications at no charge.
- (d) Supplier understands and agrees that a number of Affected Personnel, perform ad hoc reporting as a matter of course in their daily duties. With the transition of such Affected Personnel, Supplier shall continue to provide such ad hoc reporting as may be requested by Health Net at no charge.

## 5. RELATIONSHIP MANAGEMENT STRUCTURE

### 5.1 Relationship Executive

Within fifteen (15) days after the Effective Date, Health Net and Supplier will each identify its own relationship executive (“*Relationship Executive*”) who will focus on Health Net’s and Supplier’s long-term strategic relationship and the mission, vision, and innovation as they relate to the Services. Supplier’s Relationship Executive will be responsible for the achievement of the goals and the implementation of the Agreement, and will be Health Net’s single point of contact for executive issues and escalation management. The Relationship Executives may not delegate execution of their role, but may involve other Health Net or Supplier resources as needed to facilitate execution of their role.

### 5.2 Supplier Operating Officer

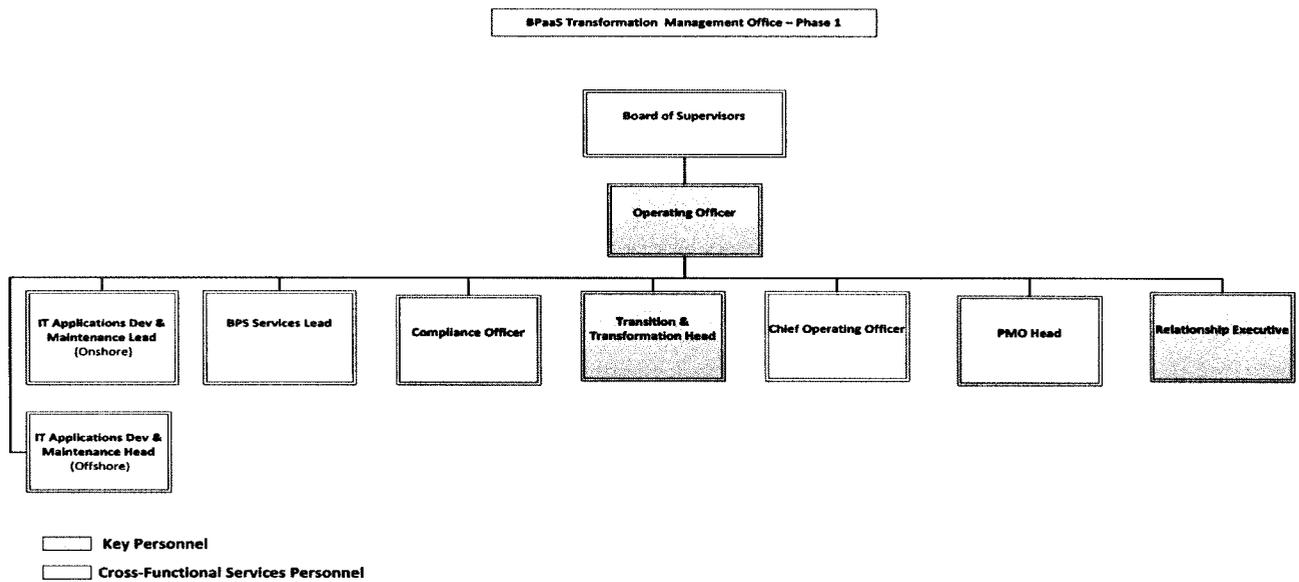

For the Term, Supplier will identify an account executive (the “*Supplier Operating Officer*”) who will focus on the day-to-day operations and delivery of the Services. The Supplier Operating Officer’s role will evolve during the Term as detailed in Sections 3.1(c) and 3.2(c) above. Regardless of the Phase, during the Term the Supplier Operating Officer’s responsibilities include:

- (a) serving as the single point of accountability for Supplier for the Services, including all aspects of service delivery and the Supplier delivery organization, and have overall responsibility to ensure Health Net satisfaction. The Supplier Operating Officer will also review all Transition activities to verify that critical processes and systems are smoothly and efficiently integrated or transitioned;
- (b) being the executive contact for Health Net on daily delivery performance and Supplier service delivery commitments, including managing performance and efficiency of Supplier’s third party delivery vendors;
- (c) providing service management processes and reporting while being responsible for continuous delivery service improvement; and
- (d) working with the Health Net Co-Operating Officer or Health Net Oversight Executive or Designee to ensure client satisfaction and to support new strategies and Health Net business directions.

Health Net leadership that serve on the Governance Committee and the Board of Supervisors will provide Supplier feedback relating to performance of the Supplier Operating Officer. Health Net’s feedback will be used by Supplier as input for the overall performance appraisals for such individual.

SCHEDULE G-1 – SUPPLIER ORGANIZATION

1 SUPPLIER ORGANIZATION

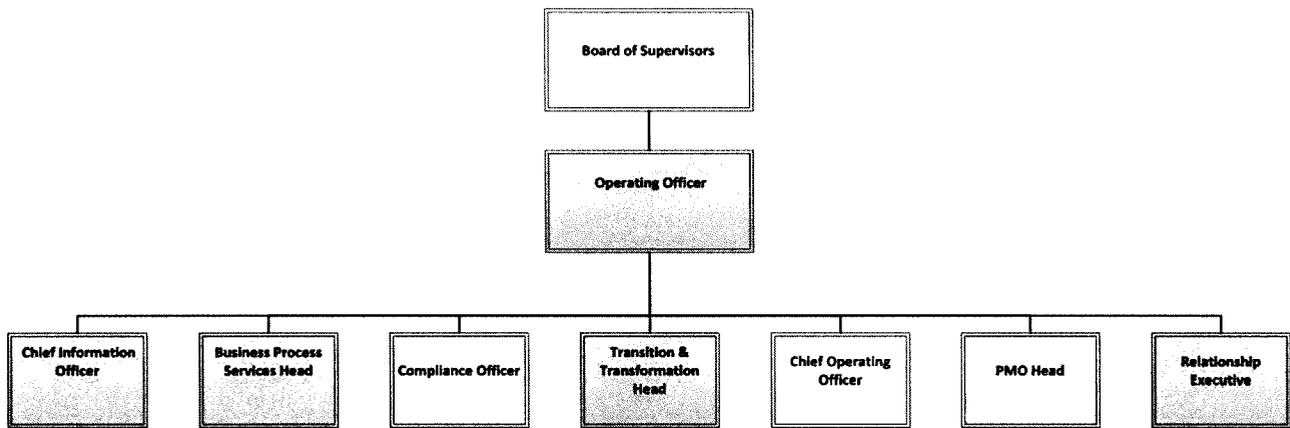

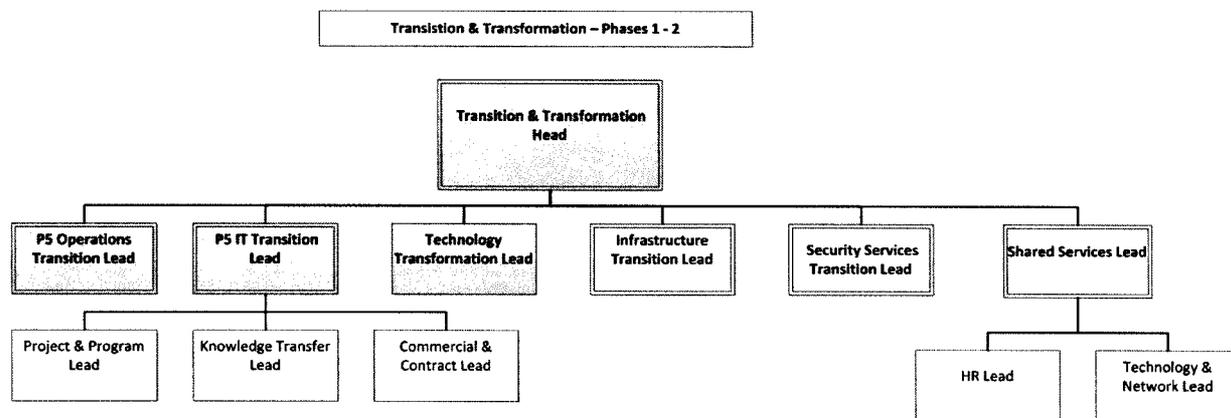

Key supplier positions beyond level III are not depicted in Sch G-1 organizational charts

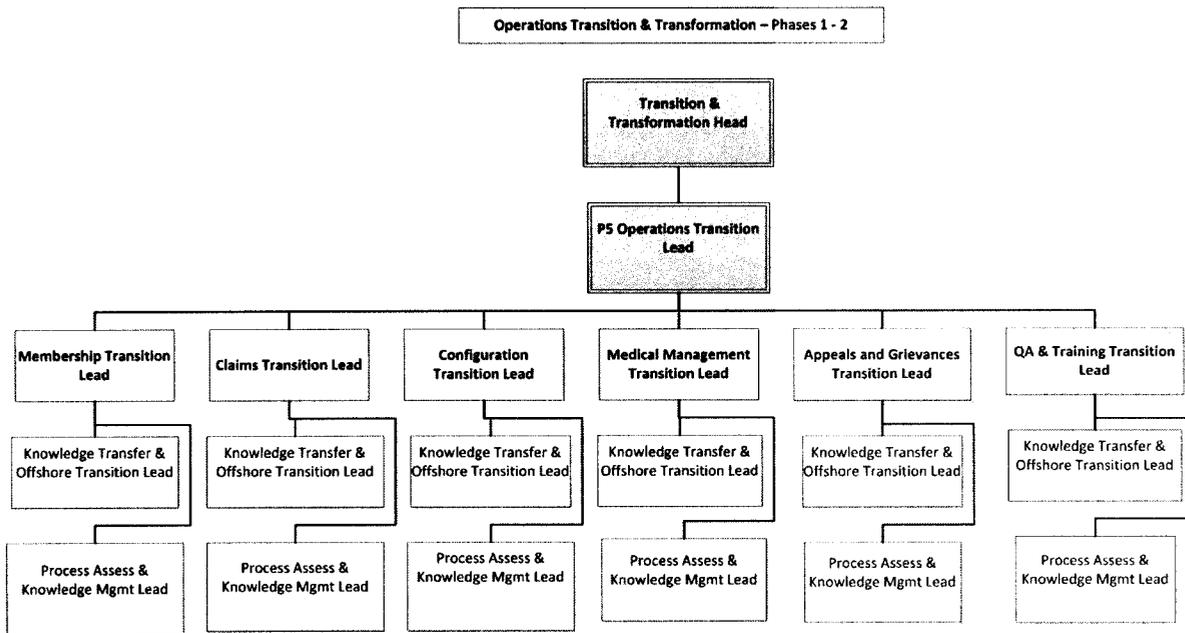

Key Personnel outside the scope of the organization level of detail include:  
 business systems analysts, claims examiners, release and program managers

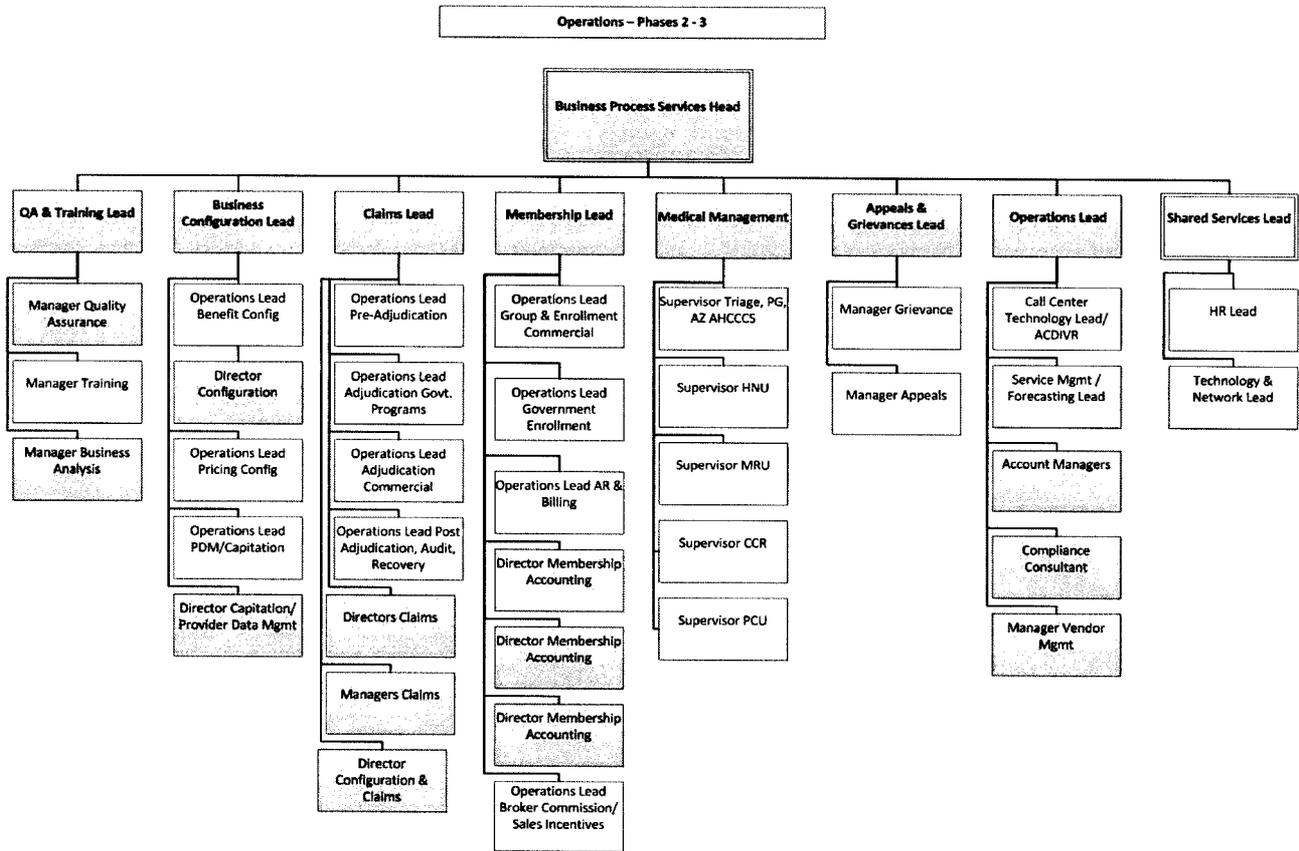

Only full time cross functional roles are included in the organizational charts

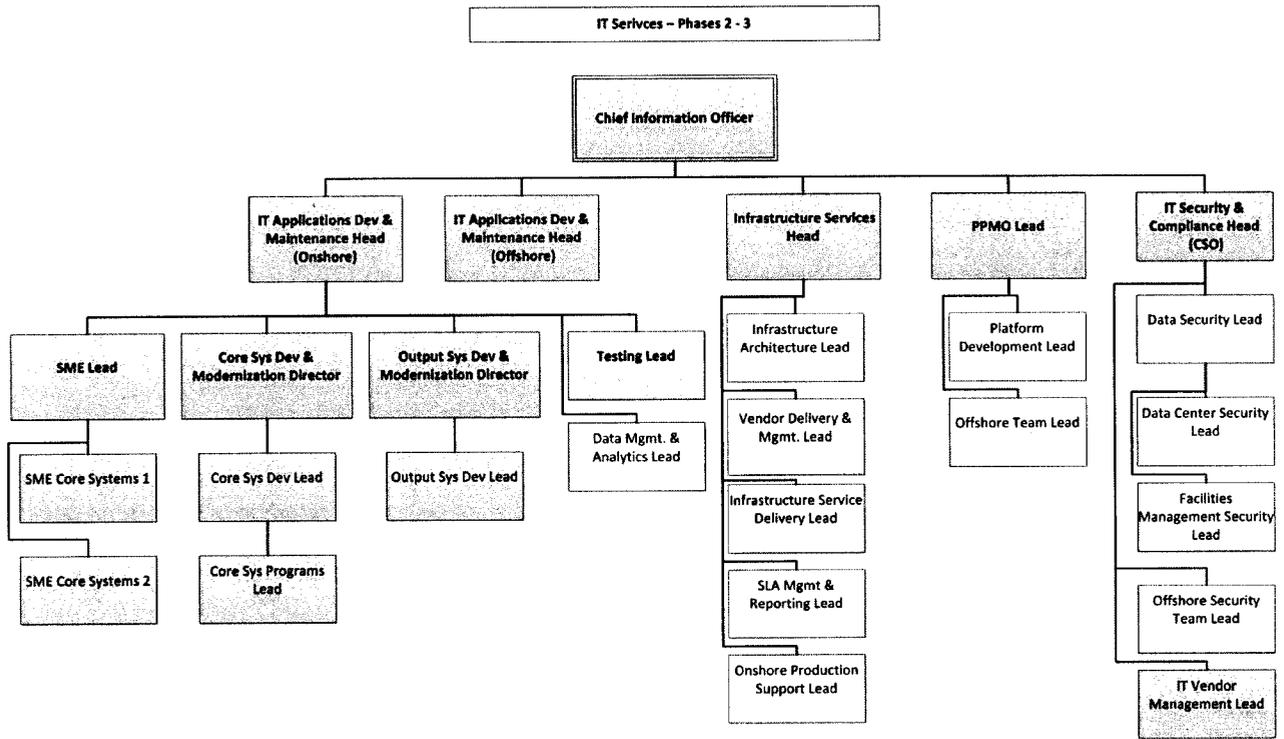

**BPaaS Transformation Management Office – Phases 2-3**

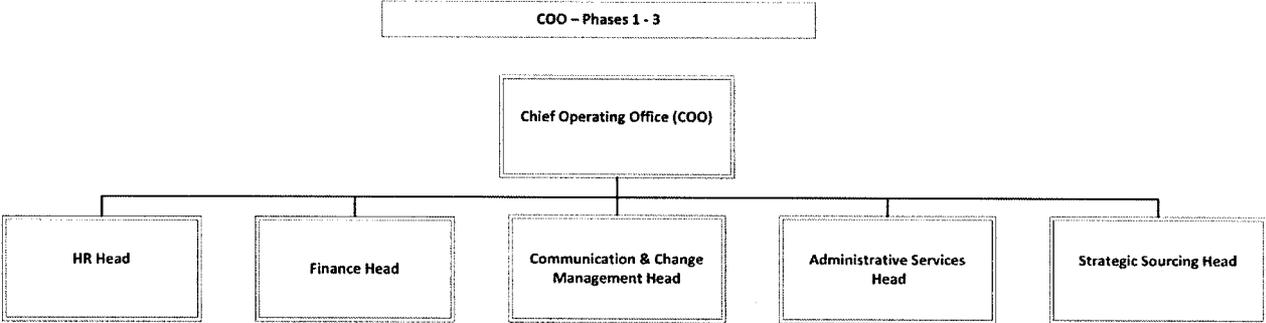

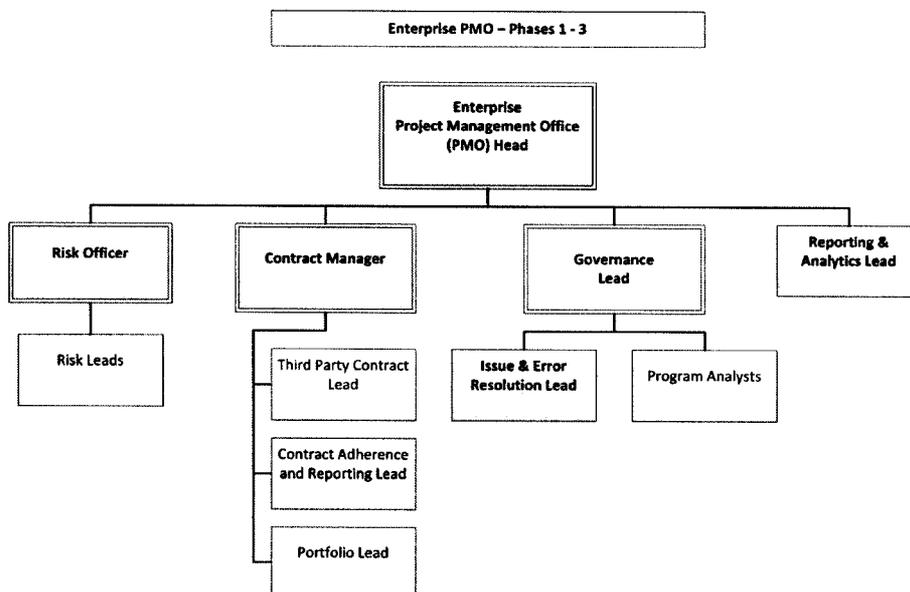

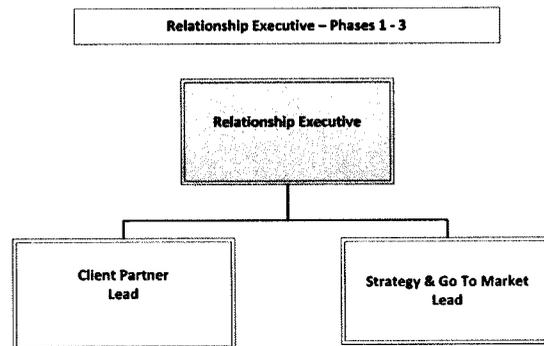

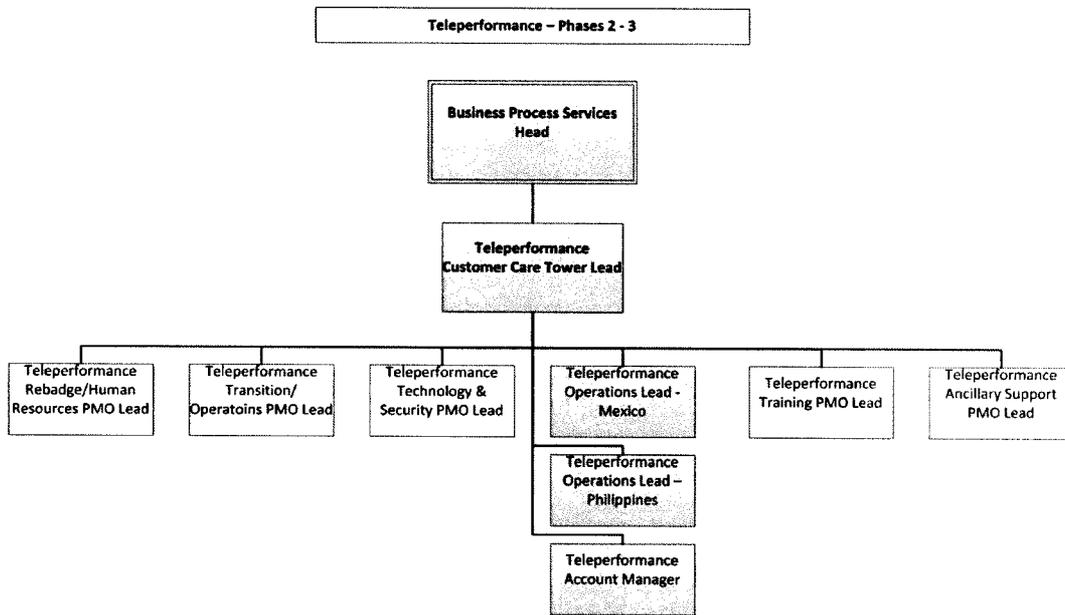

**EXHIBIT G-2  
MEETING FRAMEWORK**

**SCHEDULE G-2  
COMMITTEE AND MEETING FRAMEWORK**

Committee Name	Transition Management	Daily Tower Status Meeting	Service Delivery Meeting	Performance Meeting	Quarterly Business Review	Technology/Services Meeting	Strategic Relationship (Mission / Vision / Innovation) Meeting
	Transition Management Review	Daily Operations Review	Operations Review Committee	Performance Review Committee	Joint Management & Operations Committee	IT Management Committee	Joint Steering Committee meetings & Joint Management & Operations Committee
Committee Information	Review transition progress and status in each of the Towers and the overall satisfaction of the Transition Plan. There will be multiple meetings required to review overall and specific Tower progress.	Review results from previous twenty-four (24) hours focusing on processing dashboards, systems availability and major processing issues including workarounds put in place.	Review service delivery performance and discuss operational issues. Review and approve operational process changes. Any procedural changes should be addressed during this meeting as well.	Review performance against contracted or stated expectations. Consider if changes are necessary to improve performance. Recommend operational changes to Service Delivery. Ongoing assessment of the effectiveness of the performance framework (i.e., measures, metrics, weightings, credits, etc.). Recommend changes in the performance framework.	Review performance against contracted or stated expectations. Consider if changes are necessary to improve performance. Ongoing assessment of the effectiveness of the performance framework (i.e., measures, metrics, weightings, credits, etc.).	Review and consideration of technology and service changes in alignment with direction from Mission / Vision / Innovation committee. Presentation and discussion of Supplier Services and Technology Product Road Map.	Update the mission and vision for strategic relationship and Services in scope. Review and approve Innovation Plan and evaluate outcomes. Approve Supplier Services and Technology Product Road Map. Identify short term specific goals for the strategic relationship, including the timeframes for achieving such goals. Assess the overall success of the relationship.

Change Management	Infrastructure Significant	Provides a schedule of (high) risk changes	Weekly	Active	Manual	HNT

Department Area	Report Title	Report Description	Frequency	Current Report	IT Only - System (Data Resides)	IT Only - Who Generates Report (Health Net/IBM/CTS)
	Risk Changes					
Change Management	CAB (Change Advisory Board) Report	Lists all upcoming changes of impact/risk. Used for Change Review Meeting	Twice-a-week (Fri/Wed)	Active	Remedy	HNT
Change Management	Change Report	Lists all scheduled changes for next 24 (Mon-Thu) or 72 (Fri) hours	Daily	Active	Remedy	HNT
Change Management	Change Management Activity Metrics	Provides change management performance against KPI's	Monthly	Active	Remedy	HNT
Change Management	Urgent Changes	Provides a list of Urgent Changes (Unplanned and Emergency) over past 24 (Tue - Fri) or 72 (Mon) hours	Daily	Active	Remedy	HNT
Change Management	System Availability Matrix	Provides a list of services and any scheduled unavailability for the weekend	Weekly	Active	Manual	HNT
Change Management	Servers, Services, Sites, and Databases	Provides inventory and (change management) related attributes for services, servers, sites, and databases	Monthly	Active	Manual	HNT
ITG QA	QA Daily Dashboard, Issues Log, Catch-Up Plans	All projects being tested by QA or UAT provide status, deviation, defects, etc.	Daily	Active	Quality Center	Supplier
ITG QA	Readiness Tracker	All projects with approved WO or SR to provide status of pre QA artifact readiness to know if testing can start	Daily	Active	Excel	Supplier
ITG QA	Assignment Tracker	All approved projects assigned to member of the HNQA team, along with key milestones and endorsements	Daily	Active	Excel	Health Net
ITG QA	Enterprise	All known projects in the enterprise	Weekly	Active	PlanView	Health Net

Department Area	Report Title	Report Description	Frequency	Current Report	IT Only - System (Data Resides)	IT Only - Who Generates Report (Health Net/IBM/CTS)
	Project Listing (EPL)					
ITG QA	Health Net Enterprise Release Portfolio	All approved projects along with release mgt key milestones and states	Weekly	Active	PlanView, Access DB	Health Net
ITG QA	Monthly Deployment Report	All portfolio projects released into production during the month	Weekly	Active	PlanView, Access DB	Health Net
ITG QA	Remedy Ticket Report	All production defects found during the week attributable to portfolio work (warranty defects)	Weekly	Active	Remedy	Health Net
ITG QA	Pre-WO (work order) Report	All approved portfolio projects that don't yet have an approved WO from Supplier, to track progress towards WO	Daily	Active	PlanView, Excel	Supplier
ITG QA	Performance tracker	All projects with approved WO that have performance testing, to track progress	Daily	Active	Excel	Supplier
ITG QA	Defect Cause Analysis (DCA)	All post-QA defects closed during previous week to analyze to understand how QA missed them and how to correct/prevent in the future	Weekly	Active	Quality Center	Supplier
ITG QA	QA Metrics Report	Report for all projects that went live the previous month including all QA SLAs and KPIs	Monthly	Active	Quality Center, PlanView, QA Trackers and Dashboards	Supplier
ITG QA	QA Monthly Governance Report	Summarizes the TCOE performance for the previous month, including metrics, DCA status and strategic initiative progress	Monthly	Active	Quality Center, PlanView, QA Trackers and Dashboards	Supplier
ITG QA	QA Quarterly Executive Governance	Summarizes the TCOE performance for the previous quarter including metrics, DCA status and strategic initiative progress	Quarterly	Active	Quality Center, PlanView, QA Trackers and	Supplier

Department Area	Report Title	Report Description	Frequency	Current Report	IT Only - System (Data Resides)	IT Only - Who Generates Report (Health Net/IBM/CTS)
	Report				Dashboards	
ITG QA	QA Strategic Initiatives Reports	Status for each strategic initiative	Weekly	Active		Supplier
ITG QA	QCOE Exec Dashboard	Executive view of QA activities	Daily	Active	QA Trackers and Dashboards	Health Net
ITG QA	CR Tracker	Logs key information about all CRs that impact testing for all in-flight projects	Daily	Active	Excel	Supplier
ITG QA	Schedule Delay tracker	Logs key information about non-Supplier delays that impact performance - used to calc metrics	Daily	Active	Excel	Supplier
ITG QA	QA/UAT overlap tracker	Coordinates testing between QA and UAT teams when those phases overlap	Daily	Active	Excel	Supplier
ITG QA	Walk Through tracker	Logs each walk through required to achieve artifact endorsement - used for metrics	Daily	Active	Excel	Supplier
ITG QA	QA Endorsement tracker	Tracks all endorsements needed for each artifact to ensure readiness for QA approval	Daily	Active	Excel	Supplier
ITG QA	Exception Tracker (list of PIDs where process/waiver exceptions have been made)	Log of all exceptions granted to TCOE to not follow process along with justification	Daily	Active	Excel	Health Net
ITG QA	Resource Capacity Tracker	Used to track number of projects assigned to team for demand capacity analysis	Weekly	Active	Excel	Health Net
ITG QA	Defect Report	All open defects in QA	Daily	Active	Quality Center	Supplier

Department Area	Report Title	Report Description	Frequency	Current Report	IT Only - System (Data Resides)	IT Only - Who Generates Report (Health Net/IBM/CTS)
ITG QA	External Capital Labor (ECL) Report	All costs associated with QA labor	Monthly	Active	PlanView	Supplier
ITG QA	Web Preview & Release Calendar	Prep for web monthly release	Monthly	Active		Health Net
ITG QA	Action Item tracker	Governance tracker to keep management teams apprised of all commitments and progress	Weekly	Active	Excel	Supplier
ITG QA	MOV file report	Used to determine the contents of the move file, and if the gen # is the correct one	Weekly	Active		Supplier
Production Support	Daily Report Card	List of daily P1/P2 tickets, excluding Job Failures	Daily	Active	Remedy	Health Net
Production Support	Weekly Report Card	List of P1/P2 Tickets for major outages	Weekly	Active	Remedy	Health Net
Production Support	Weekly Ticket Statistics	Ticket Trending Reports and charts	Weekly	Active	Remedy	Health Net
Production Support	Monthly Ticket Statistics	Ticket Trending Reports and charts	Monthly	Active	Remedy	Health Net
Production Support	All Open Tickets Report	List of all currently open tickets as of the day it is run	Daily	Active	Remedy	Supplier
Production Support	Aged Tickets Report	List of all open tickets ages as of day it is run	Daily	Active	Remedy	Supplier
Production Support	HNFS Weekly Service Review	List of P1/P2 Tickets for major outages - HNFS	Weekly	Active	Remedy	Health Net
Production Support	Daily Operations Review Report	List of P1/P2 tickets from the last 24 hours for review during 7:30 meeting	Daily	Active	Remedy	IBM
Production Support	Weekly Problem	List of open problems requiring root cause and/or follow-up	Weekly	Active	Lotus Notes Action Item DB	Health Net

Department Area	Report Title	Report Description	Frequency	Current Report	IT Only - System (Data Resides)	IT Only - Who Generates Report (Health Net/IBM/CTS)
	Management Report					
Production Support	Daily Patrol Reports	List of ticket used to determine and track new problems	Daily	Active	Remedy	Health Net
Production Support	Care Radius Exec Report	Weekly status to Executives on Care Radius performance/availability, issues, Mes, Open tickets	Weekly	Active	Remedy	Health Net/Supplier
Production Support	Care Radius Working Group Report	Weekly status to working group on Care Radius performance/availability, issues, Mes, Open tickets	Weekly	Active	Remedy	Health Net/Supplier
Production Support	IW070	Federal Services Contract Deliverable - 95% of all calls to IT Help Desk from Government customer users resolved in accordance with IT Issue Resolution Guidelines.  Specification control managed by HNFS Access to Data owner	Monthly / Quarterly	Active	Remedy, final report submitted to HNFS IW via controlled upload by FS Domain associate	Jimmie K Ramos
Production Support	IW010	Federal Services Contract Deliverable - Federal services Data Warehouse accessible during at least 99% of all available hours (7 am-9pm ET Monday-Saturday) except periods of scheduled, non-routine maintenance (minimum 24-hour notice).  Specification control managed by HNFS Access to Data owner	Monthly / Quarterly	Active	Remedy, Keynote, final report submitted to HNFS IW via controlled upload by FS Domain associate	Jimmie K Ramos

Department Area	Report Title	Report Description	Frequency	Current Report	IT Only - System (Data Resides)	IT Only - Who Generates Report (Health Net/IBM/CTS)
Production Support	IW020	Federal Services Contract Deliverable - The agreed upon access interface for Government users (www.hnfs.com) will be accessible during at least 99% of all available hours 24 X 7 except periods of scheduled maintenance (minimum 24-hour notice).  Specification control managed by HNFS Access to Data owner	Monthly / Quarterly	Active	Remedy, Keynote, final report submitted to HNFS IW via controlled upload by FS Domain associate	Jimmie K Ramos
Production Support	Federal Services Standards - Ticket Acknowledgement and resolution SLA	Simple report used to prepare IW070	Ad hoc	Active	Remedy	Health Net user via Remedy
Production Support	Aged Tickets Report	List of Tickets older than 7 days, including breakdown by month and by resolver group	Daily	Active	Remedy	Offshore Staff Aug (Supplier)
Production Support	All Open Tickets All Queues	List of All Open Tickets, including breakdown by month, vendor, and by resolver group	Daily	Active	Remedy	Offshore Staff Aug (Supplier)
Production Support	All Open Tickets with Pend Reason	List of All Open Tickets in Pending Status and Pend Reason	Daily	Active	Remedy	Offshore Staff Aug (Supplier)
Production Support	H0007	Annual Disaster Recovery Test Report for Health Net Federal Services TRICARE	Annually	Active	Generated as a Word document by the owner and submitted to HNFS Government contracts NLT ten days after completion of the annual DR test	Jimmie K Ramos

**SCHEDULE H**  
**CHANGE CONTROL PROCESS**

**SCHEDULE H**  
**CHANGE CONTROL PROCESS**

This Schedule H (*Change Control Process*) sets forth the Change Control Process as defined in Section 17.5 (*Change Control*) of the Terms and Conditions.

**1. CHANGE CONTROL PROCESS**

Within 60 days of the Effective Date, Health Net and Supplier will jointly establish a detailed operating level Change Control Process, not inconsistent with the following terms, to include designated Change tracking logs, Change review meetings, Change review boards including definition of applicable Change Control roles and responsibilities, and Change management timeframes.

**1.1 Right to Request and Completing a CN**

Either Party may request a Change by submitting to the other Party's duly authorized representative a written change notice in substantially the form attached as Schedule H-1 (*Sample Change Notice (CN)*) to this Schedule H (a "*Change Notice*" or "*CN*"), specifying in detail the proposed Change in accordance with the following procedure:

- (a) Section A of a CN will be executed by the duly authorized representative of the Party that requests the Change, who will act as the CN sponsor throughout the Change Control Process, and who will complete Part A of the CN and submit it to the other Party for its review and approval. Numbering of Changes will be of this format: XCCYY####, where X is S for Supplier initiated Changes, Health Netis for Health Net Initiated Changes, CCYY is the four digit Year, and #### is a sequential increasing number for the Change.
- (b) Part B of the CN will be completed by Supplier regardless of who requests the Change. For Supplier-requested Changes, Supplier shall complete Part B concurrently with Part A, and submit it to Health Net for review and approval. For Health Net-requested Changes, Supplier shall complete Part B and submit it back to Health Net within three (3) Business Days after Supplier's receipt of the CN from Health Net (or such other period of time as may be agreed by the Parties based on the nature and extent of the Change requested). In completing Part B of the CN form, Supplier will provide as appropriate:
  - (i) a description of the Change and whether Supplier considers the Change to be a New Service or a change to an existing Service;
  - (ii) a description of the activities necessary to plan and carry out the Change and to operate and maintain it following its implementation;
  - (iii) the projected impact of the Change on the existing Services;
  - (iv) Supplier's proposed charges to make and implement the Change and, if applicable, to operate and maintain it after its implementation;
  - (v) information supporting any applicable proposed Charges or changes to Charges, including a brief description of any incremental new or additional Functions that would be required of Supplier, together with a good faith projection of the

resulting additional resources and associated additional Supplier Charges, if any, that would be attributable to them and, if applicable, a brief description of any Functions then being performed by Supplier in rendering the existing Services affected by the Change or New Service that would no longer need to be performed or which could be performed at a reduced volume level as a result of the Change or New Service, together with a good faith projection of the resulting reductions in Supplier resources and associated reductions in Supplier's Charges, if any;

- (vi) a list of Deliverables (if any) required to implement the Change;
- (vii) a timetable for implementing the Change;
- (viii) any relevant Acceptance criteria and details of how the Change will be subjected to Acceptance testing;
- (ix) an assessment of the added value of the proposed Change to Health Net;
- (x) an assessment of any potential adverse impacts or risks of the proposed Change on Health Net and Supplier's proposal for mitigating them;
- (xi) proposed amendments to the Agreement in accordance with Section 25.3 (Contract Amendments and Modifications) of the Terms and Conditions, as required, including a brief explanation of why they are needed to effect the Change; and
- (xii) such other information as Health Net may reasonably request.

## 1.2 Review of Changes

Health Net and Supplier will review and revise the proposed Change until they reach agreement on all aspects of the proposed Change, which agreement shall not be unreasonably withheld by either Party. Such review and revision cycles will be conducted in a timely manner so as to avoid negatively impacting performance of the Services or either Party.

## 1.3 Approval of Changes

Following agreement on all aspects of the proposed Change between Health Net and Supplier, Part C of the CN shall be signed by the duly authorized representatives of the Parties appointed for that purpose (such executed CN a "*Change Order*"). For purposes of this Change Control Process, the duly authorized representative of Health Net will be designated for each Change Order in accordance with Health Net policy and procedures, and the duly authorized representative of Supplier is the Supplier Client Partner. No Change can be implemented without the prior authorization of Health Net in accordance with this Section 1.3. All Change Orders must be executed by both Parties before the Change becomes effective.

## 1.4 Implementation and Management of Changes

- (a) Supplier shall implement all Health Net-approved Changes in accordance with the Agreement (including Section 17.5 (*Change Control*) of the Terms and Conditions and

any and all change management provisions set forth in Schedule A or any SOW), applicable Laws and Health Net Policies.

- (b) Supplier shall provide monthly reporting on status and target completion dates for open Change Orders.

## 2. EMERGENCY CHANGES

- (a) “*Emergency Change*” means a Change of a critical business nature that must be implemented immediately to avoid severe adverse impacts, failure to be in compliance with Laws, and/or unintended significant disruptions to Health Net’s business or Members or Providers. Supplier will make reasonable efforts (given the circumstances) to obtain Health Net’s prior written approval for any Emergency Change. Notwithstanding any other procedures in this Schedule H, if Health Net requests or approves an Emergency Change, Supplier will promptly implement the Change in accordance with Health Net’s written instructions, and the Parties will prepare the appropriate CN documenting the Change in parallel with Supplier carrying out the Change. If Supplier makes an Emergency Change without the approval of Health Net, at Health Net’s written request Supplier shall back out such Change as soon as practicable after the emergency is over or has been otherwise abated, until such time as Health Net approves such Change in accordance with this Schedule H. If Health Net believes that any Change requested by Health Net is an Emergency Change, it will so inform Supplier.
- (b) If the Parties are unable to agree on Supplier’s charges (if any) for carrying out an Emergency Change, the matter will be referred to the dispute resolution process. In no event will a dispute over such charges constitute grounds for Supplier to refuse to carry out or to delay in carrying out an Emergency Change, and in no event will Health Net’s payment of any portion of Supplier’s proposed charges for an Emergency Change constitute a waiver of Health Net’s right to dispute the validity or amount of such charges.
- (c) Health Net requests for Emergency Changes will be subject to the Change Control Process so as to ensure they are carried out in a controlled and disciplined manner, but Supplier may not refuse to enter into an appropriate form of Change Order for, or to otherwise carry out, an Emergency Change as directed by Health Net. Health Net may, in its discretion, require Supplier to implement an Emergency Change on an expedited basis where Health Net reasonably believes that expedited implementation of the Emergency Change is necessary to limit Health Net’s compliance risk or to otherwise mitigate potential adverse consequences to Health Net or its Affiliates.

**Schedule H-1****Sample Change Notice (CN)**

CN No. \_\_\_\_

This CN is made and entered by and between Health Net and Supplier pursuant to Schedule H (*Change Control Process*) of the Master Services Agreement between Health Net and Supplier dated November 2, 2014.

**SCHEDULE I  
SUPPLIER INSURANCE**

**SCHEDULE I**  
**SUPPLIER INSURANCE**

**1. INTRODUCTION**

With reference to Section 22 (Insurance) of the Terms and Conditions of this Agreement, this Schedule I (*Supplier Insurance*) sets forth the requirements for insurance to be maintained by Supplier and its Subcontractors in connection with this Agreement.

**2. TYPES AND AMOUNTS OF COVERAGE**

Supplier represents that as of the Effective Date it will have, and agrees that during the Term it will maintain in force, at least the following types and amounts of insurance:

- (a) Worker's Compensation Insurance in the form prescribed by statutory law and with limits as required by applicable statute(s), and Employer's Liability Insurance with minimum limits of not less than \$1,000,000 per accident, \$1,000,000 per employee – disease, and \$1,000,000 per employee – policy limit.
- (b) Commercial General Liability Insurance written on a form at least as broad as Insurance Services Office (“*ISO*”) commercial general liability coverage form CG 00 01, or another “occurrence” form providing equivalent coverage and approved in writing by Health Net, including Products, Completed Operations, Premises Operations, Bodily Injury, Property Damage, Personal and Advertising Injury, and Contractual Liability (Insured Contract) coverages. The amount of required insurance shall be the greater of (i) the limits set forth in Supplier's Commercial General Liability policy, or (ii) \$1,000,000 per occurrence, \$1,000,000 personal and advertising injury, and \$2,000,000 general aggregate. This coverage will be endorsed to name Health Net and its Affiliates as additional insureds.
- (c) All-Risk Commercial Property Insurance, including Extra Expense and Business Income coverage, for risks of physical loss of or damage (including as a result of flood or earthquake) to Health Net business personal property or other personal property that is in the care, custody or control of Supplier pursuant to the Agreement. Such insurance will have a limit adequate to cover risks on a replacement cost basis. This coverage will include Health Net and its Affiliates as loss payees, as their interest may appear.
- (d) Commercial Auto Liability Insurance issued on a form at least as broad as ISO business auto coverage form CA 00 01, or other form providing equivalent coverage and approved in writing by Health Net, covering use of all owned, non-owned and hired automobiles for bodily injury, property damage liability with a minimum combined single limit per accident of \$1,000,000 or the minimum limit required by law, whichever limit is greater. This coverage will be endorsed to name Health Net and its Affiliates as additional insureds.
- (e) Commercial Crime Insurance, including coverage for employee dishonesty and computer fraud, for loss or damage arising out of or in connection with fraudulent or dishonest acts (including theft or mysterious disappearance) committed by the employees of Supplier, acting alone or in collusion with others, including an endorsement or insuring agreement specifying that such personnel theft coverage extends to Health Net's property and funds

and of others in their care, custody or control, with a minimum limit per occurrence of \$10,000,000. This coverage will include a customer's property and will include Health Net and its Affiliates as joint loss payees.

- (f) Professional Liability Insurance / Errors and Omissions Insurance covering liability for loss or damage due to an act, error, omission or negligence, with a per claim limit of \$7,000,000, and a limit of \$7,000,000 in the aggregate. This coverage shall be maintained for a minimum of two (2) years following termination or completion of Supplier's work pursuant to the Agreement.
- (g) Privacy Liability and Network Security Insurance, covering liability and expenses incurred as a result of acts, errors, and omissions in connection with performance of the Services under this Agreement. Such insurance shall, at a minimum, cover:
  - (i) data security breaches (including, without limitation, unauthorized loss, access, use or theft of Protected Health Information, or Health Net Confidential Information);
  - (ii) violation of Laws relating to the care, custody, control, or use of Protected Health Information or Health Net Confidential Information, or the privacy or security of such information;
  - (iii) data damage, destruction, or corruption; or
  - (iv) any act, omission or failure to act that results in a failure of network security (including unauthorized access to, unauthorized use of, a denial of service attack by a third party against, or transmission of a Virus or other type of malicious code to Health Net's computer systems).

The insurance shall cover Health Net for all expenses for which Supplier is liable under this Agreement (including reasonable legal expenses) that Health Net incurs as a result of any such actual or alleged event, including costs of defending, settling and paying judgments resulting from claims, costs of responding to regulatory or administrative investigations and legal advice therefor, regulatory fines, and costs of computer forensic analysis and investigation, notification of impacted individuals, public relations, call center services, fraud consulting services, credit monitoring and protection services, and identity restoration services. The foregoing insurance shall (x) have a minimum limit of \$10,000,000 per claim and in the aggregate; (y) address all of the foregoing without limitation if caused by an employee of Supplier or an independent contractor working on behalf of Supplier in connection with the Agreement; and (z) provide coverage for wrongful acts, claims, and lawsuits anywhere in the world. Supplier will maintain the foregoing policy in force during the Term of the Agreement, and for a period of five years after the termination or expiration of this Agreement (either as a policy in force or extended reporting period). Primary insurance shall be provided to Health Net as it relates to Supplier's Services, and shall not include an insured versus insured exclusion applicable to claims against Health Net.

- (h) Umbrella or Excess Liability Insurance with minimum limits equal to the greater of (i) the limits set forth in Supplier's umbrella liability policy; or (ii) \$5,000,000, and following the form of, and in excess of, the insurance required under Paragraphs (b) and (d) above.

### 3. TERMS OF COVERAGE

- (a) The insurance coverages, including, without limitation, additional insured coverages, described above will be primary, and all coverage will be non-contributing with respect to any other insurance or self-insurance that may be maintained by Health Net. Supplier will be responsible for all deductibles and retentions with regard to such insurance. All coverage described above (with the exception of Commercial Crime insurance for waiver of subrogation) will include a waiver of subrogation and a waiver of any insured-versus-insured exclusion regarding Health Net and its Affiliates. Notwithstanding any insurance coverages of Supplier, nothing in this Schedule I (Supplier Insurance) shall be deemed to limit or nullify Supplier's indemnification obligations under the Agreement Supplier agrees that it shall work solely at Supplier's risk. To the extent any coverage is written on a claims-made basis, it will have a retroactive date no earlier than the Effective Date and, notwithstanding the termination of the Agreement, either directly or through 'tail' coverage will allow for reporting of claims until the applicable limitation of actions period has expired.
- (b) Prior to the initiation of work, Supplier shall provide Health Net's designated representative with certificates of insurance on ACORD forms (or such other forms approved in writing by Health Net) and copies of any applicable endorsements evidencing (i) the coverages required to be carried by Supplier as set forth in this Agreement; (ii) the additional insureds' status; and (iii) that not less than thirty (30) days prior written notice will be given to Health Net and submitted to the Health Net Strategic Sourcing representative prior to any cancellation of any of the policies. Upon Health Net's request made at any time prior to five (5) years following completion or earlier termination of the Services, Health Net may request and Supplier shall promptly deliver updated certificates of insurance, policy declarations pages (with premium and other exposure or Supplier specific information redacted) and policy endorsements indicating the required coverages. All insurance policies maintained to provide the coverages required herein shall be issued by insurance companies authorized to do business in the state in which work is performed, and by companies rated, at a minimum, "A-IX" by A.M. Best, or, if such ratings are no longer available, with a comparable rating from a recognized insurance rating agency. Health Net shall be endorsed as an additional insured on all policies required under the Commercial General Liability and Umbrella or Excess Liability Insurance required hereunder, and shall be evidenced on the certificate of insurance. The insurance afforded to each additional insured shall be at least as broad as that afforded to the first named insured under each policy.
- (c) In the case of loss or damage or other event that requires notice or other action under the terms of any insurance coverage described above, Supplier will be solely responsible for taking such action. Supplier will provide Health Net with contemporaneous notice and with such other information as Health Net may request regarding the event.
- (d) The Parties do not intend to shift all risk of loss to insurance. Supplier's obligation to maintain insurance coverage in specified amounts will not act as a limitation on any other liability or obligation which Supplier would otherwise have under the Agreement. Similarly, the naming of Health Net and its Affiliates as additional insureds is not intended to be a limitation of Supplier's liability under the Agreement and will in no event be deemed to, or serve to, limit Supplier's liability to Health Net to available insurance coverage or to the policy limits specified in this Schedule I, nor to limit Health

Net's rights to exercise any and all remedies available to Health Net under the Agreement, at law or in equity.

- (e) Supplier will ensure that all Subcontractors, if any, maintain insurance coverages described above including naming Supplier as an additional insured or loss payee where relevant or Supplier will ensure that all Subcontractors, if any, are included as additional insureds on Supplier's insurance described above. If any Subcontractor's coverage does not comply with the provisions herein, Supplier shall indemnify and hold Health Net harmless of and from any damage, loss, cost or expense, including attorneys' fees, incurred by Health Net as a result thereof.

**SCHEDULE K**  
**REGULATORY COMPLIANCE ADDENDUM**

**SCHEDULE K****REGULATORY COMPLIANCE ADDENDUM**

Supplier acknowledges that Health Net, as a Medicare Advantage Organization under Medicare Part C (Medicare Advantage) and/or Medicare Part D (Voluntary Prescription Drug Benefit) and as a Medicaid organization (Medicare Parts C and D and Medicaid are collectively, "**Government Programs**"), is required to include certain terms and conditions in its contract with Supplier. To the extent that the terms and conditions of the Agreement directly conflict with or contradict any terms and conditions set forth in this Medicare and Medicaid Compliance Addendum, ("**Addendum**,"), the terms and conditions of this Addendum shall control.

1. Health Net and its first tier entities, downstream and related entities (as defined by 42 CFR § 422.2) paid by Health Net to fulfill obligations under a Government Programs contract, are subject to certain laws that are applicable to individuals and entities receiving federal and state funds. Supplier, as a first tier entity, acknowledges that payments it receives are, in whole or in part, from federal and state funds in performing services under a Government Programs contract.
2. The Parties acknowledge and agree that Health Net oversees and is accountable to: (i) the Centers for Medicare and Medicaid Services, ("**CMS**") for any functions or responsibilities described in the Medicare Advantage Part C and Part D regulations; and (ii) CMS, the Department of Health Care Services ("**DHCS**") and the Arizona Health Care Cost Containment System ("**AHCCCS**") for any functions or responsibilities described in Medicaid regulations. The Parties agree that Health Net maintains ultimate responsibility for adhering to and otherwise fully complying with all terms and conditions of Health Net's Government Programs contracts.
3. Supplier shall comply with all applicable local, state and federal laws, regulations, guidance and instructions from the Regulators, now or hereafter in effect, to the extent that they directly or indirectly affect Health Net, Supplier, and/or Supplier's subcontractors, and bear upon the subject matter of the Agreement, the Addendum, and/or the subject matter of the Government Programs contract.
4. The Parties agree that Supplier and Supplier's downstream and related entities ("**subcontractors**") will support and adopt any corrective action plans imposed upon Health Net by the Department of Health and Human Services ("**HHS**"), the Comptroller General, CMS, the Department of Justice ("**DOJ**"), DHCS, AHCCCS, and any and all other governmental agencies with regulatory oversight of Health Net or each of the designees of these regulatory agencies (collectively, "**Regulators**"). In turn, Health Net shall, on an ongoing basis, monitor Supplier's performance and may impose corrective action as necessary.
5. Supplier agrees that the Regulators have the right to inspect, evaluate, copy and audit any of Supplier's pertinent books, records, and contracts, including its Agreement with Health Net, and Supplier's agreements with any subcontractors, financial records, computer or other electronic systems, medical records and documentation related to Health Net's Government Programs contract(s). Further, the Regulators' right to inspect, evaluate, copy and audit any pertinent information for any particular contract period exists through ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later, and in certain instances, as referenced in 42 CFR 422.504(e), periods in excess of ten (10) years. Supplier agrees that it will maintain the above-described materials at the Supplier's place of business, or at such other mutually agreeable location, and upon Health Net's or the Regulator's request, Supplier will provide copies of and/or make available for inspection, evaluation, copying and/or auditing by Health Net or the Regulators, all of Supplier's above-described materials. Supplier further agrees that HHS, the Comptroller General or their designees have the right to audit, evaluate, collect, and inspect any records described in the preceding sentence directly from Supplier.

6. Supplier agrees: (i) to cooperate, assist and provide information as requested for audits, evaluations, reporting requirements and inspections performed in connection with Health Net's Government Programs contracts; (ii) that it will cooperate, assist and provide such information within a reasonable time period so that Health Net may meet the reporting requirements of the Regulators and/or applicable law; and (iii) to produce to Health Net or directly to any Regulator upon such Regulator's request, any books, contracts, records, including medical records and documentation of Supplier's or its subcontractors' performance related to Health Net's Government Program contract(s).
7. Supplier agrees that upon Health Net's or the Regulator's request that it will complete and submit to Health Net, Health Net's Medicare Attestation, which documents Supplier's actions regarding its performance as it relates to Health Net's Government Programs contracts. In particular, Supplier agrees to monitor and audit: (i) its operations to ensure compliance with applicable laws, regulations and compliance program requirements; and (ii) its subcontractors to ensure compliance with applicable laws, regulations and compliance program requirements. Supplier further agrees to: (i) create corrective action plans as needed for itself and its subcontractors; (ii) share those corrective action plan results with Health Net; (iii) provide follow-up documentation to Health Net upon request; and (iv) to retain downstream monitoring and auditing records for a ten (10) year period.
8. Supplier will comply with the confidentiality and enrollee record accuracy requirements for each Health Net Member who has enrolled in a Medicare or Medicaid benefit program, including: (i) abide by all federal and state laws regarding confidentiality and disclosure of medical records and other health and enrollment information; (ii) ensure that medical information is released only in accordance with applicable federal and state law, or pursuant to court orders or subpoenas; (iii) maintain the records and information in an accurate and timely manner; (iv) ensure timely access by enrollees to the records and information that pertain to them; (v) refrain from accessing Member information not required by Supplier and/or subcontractor to perform its services for Health Net; and (vi) adhere to all other confidentiality requirements established by the Government Programs Regulators.
9. Supplier and/or its subcontractors will not process, transfer or release Health Net Members' protected health information ("**PHI**"), as defined in 45 C.F.R. § 160.103, outside of the United States or one of the United States Territories, without the prior written express approval of Health Net. Supplier and its subcontractors agree to comply with all CMS Offshore Attestation requirements (as set forth in Schedule K-2 (CMS Offshore Attestation Requirements), including submission of an Attestation and supporting documents as requested. For purposes of this Addendum, offshore means outside of the United States and the United States territories.
10. Supplier agrees to provide annual training on Supplier's privacy and security obligations to its employees and subcontractors who create, receive process, transfer, and/or access PHI of Health Net Members who are enrolled with Health Net under a Government Program contract.
11. Supplier agrees that in no event, including, but not limited to Health Net's nonpayment, insolvency or breach of this Agreement, shall Supplier and/or its subcontractor bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against a Member or other person, including the State, acting on a Member's behalf, for payments that are the financial responsibility of Health Net under the Agreement. This provision survives the termination of the Agreement and relates only to services performed under the Agreement.
12. The Parties agree that Health Net may delegate activities or functions including, but not limited to, quality improvement functions, to Supplier, but only in a manner consistent with requirements of the Government Programs. The delegation agreement shall specify Supplier's delegated activities and reporting responsibilities and Health Net may revoke delegation of the activities and reporting responsibilities in instances when a Regulator and/or Health Net determines that Supplier has not performed satisfactorily.

13. Supplier agrees that the services or other activity performed by it under this Agreement shall be consistent and comply with Health Net's contractual obligations to CMS, DHCS, and AHCCCS under its Government Programs contracts, and Health Net shall modify this Addendum from time to time to include such other terms and conditions as CMS, DHCS and AHCCCS may direct.
14. To the extent that Supplier performs its obligations through subcontractors, such subcontractors shall be subject to the: (i) prior approval of Health Net; and/or (ii) prior written approval of the Regulators in those instances where prior approval is required by the Regulators.
15. Supplier agrees to incorporate the terms of this Addendum into its contractual arrangements with subcontractors.
16. Supplier agrees to include a timely payment provision in its written agreement with each subcontractor.
17. Supplier agrees to comply with policies and procedures of Health Net that have been disclosed to Supplier. Supplier agrees to: (i) review and distribute to its employees and subcontractors Health Net's compliance policies found on Health Net's website, including but not limited to the Medicare Compliance Plan, Standards/Code of Conduct, Code of Business Conduct and Ethics, within 90 days of hire, annually, and when notified in writing by Health Net that the policies are updated (see Schedule K-1 (Supplemental Regulatory Detail)); and (ii) provide proof of review and distribution upon request.
18. Supplier represents and warrants that, to the best of its knowledge, none of its employees, subcontractors or agents who will perform services for Health Net have been excluded, debarred or suspended from participating in the Medicare program or any state health care program under 42 U.S.C. Section 1320-7 and there are no pending or threatened exclusion actions against any such personnel. Supplier will screen personnel and downstream entities prior to hiring or contracting, and monthly thereafter. Supplier agrees to review the U.S. Department of Health and Human Services Office of the Inspector General (OIG), List of Excluded Individuals/Entities (LEIE) and the General Services Administration System for Award Managements, Exclusions Extract Data Package (EEDP) in order to determine if any of its personnel who perform services for Health Net have been excluded, debarred or suspended. If Supplier becomes aware that such personnel have been excluded, debarred or suspended from participating in the Medicare program or any state health care program, Supplier shall promptly remove any personnel from performing services for the Health Net Government Programs contract(s). Supplier will retain records related to these screening efforts for a period of ten (10) years.
19. Supplier will cooperate with Health Net, and Regulators in protecting against fraud, waste and abuse ("**FWA**"). Supplier agrees to have all employees, volunteers, consultants, governing body members, and subcontractors who perform services under Health Net's Government Programs contracts to complete and document FWA training within 90 days of hire and annually thereafter and to maintain attendance records related to such FWA training for a period of ten (10) years. Health Net's FWA training requirement is further described in Schedule K-1. Notwithstanding the foregoing, Health Net and Supplier acknowledge and agree that, effective January 1, 2016, Supplier's training obligation shall be to complete the training module made available by CMS. Health Net shall accept the certificate of completion of the CMS training as satisfaction of the training requirement.
20. Supplier represents, warrants and covenants to Health Net that Supplier has and will maintain a written corporate compliance program at all times during the term of this Agreement. That program will (i) designate a senior-level individual to be responsible for the implementation of Supplier's compliance program; (ii) educate Supplier's and subcontractor's personnel providing services under a Government Programs contract on legal and ethical obligations under a Government Programs contract; (iii) monitor for and remediate any failure of Supplier and/or subcontractor to comply with

legal, ethical and contractual obligations under a Government Programs contract; (iv) provide for prompt notification to Health Net of any such failure; (v) document the corrective actions taken to remediate any such failure; (vi) retain such documentation for a period of ten (10) years; (vii) include non-intimidation and non-retaliation policies, and (viii) include a hotline for employees and subcontractors to report non-compliance with the compliance program.

21. Supplier agrees that training attestations, excluded entity reviews, disciplinary actions, training and education documents and their distribution records, monitoring events, compliance program requirements, and documentation of non-compliance that are pertinent and related to Health Net's Government contracts, including those related to subcontractors under the Government Programs contracts, are also subject to the Regulators' right of inspection, evaluation, copying and auditing as set forth above and will be maintained for a minimum of ten (10) years from the final date of the contract period or from the completion date of any audit, whichever is later.

**SCHEDULE K-1**  
**SUPPLEMENTAL REGULATORY DETAIL**

**SCHEDULE K-1**  
**SUPPLEMENTAL REGULATORY DETAIL**

Dear Health Net Medicare Business Partner:

First tier, downstream, and related entities (“*FDR’s*”) are required to operate in compliance with applicable law and regulatory guidance, including regulations set forth in Title 42 of the Code of Federal Regulations, Parts 422 and 423 and sub-regulatory guidance published in both, Medicare Prescription Drug Benefit Manual, Chapter 9, and in, Medicare Managed Care Manual, Chapter 21.

**1. ABOUT THIS DOCUMENT**

This document is intended to provide supplemental information regarding the core Medicare compliance program requirements contained within the Medicare Compliance Addendum; it is not intended to replace, reduce, or supersede any/all contractual obligations. Your organization may be subject to additional requirements that have been established in your contract with Health Net and not discussed in this document. Your organization is receiving this document as you have been identified as a Health Net first tier entity. As a Health Net first tier entity you must operate in compliance with applicable law and regulatory guidance specifically outlined in your contractual agreements with Health Net, including compliance with all applicable federal, state and CMS Medicare Advantage Part C and Part D requirements. This document provides a summary of the core Medicare program compliance requirements of first tier entities, their downstream entities and related entities, including citations on where to locate additional information on Medicare’s regulatory requirements and Health Net’s compliance policies and required training. As part of Health Net’s first tier entity monitoring and oversight activities, your organization will be subject to: submission of periodic compliance attestations, submission of evidence of compliance, and periodic audit by Health Net to validate that your organization is compliant.

Health Net strongly recommends that you share this document/information with your downstream entities so that they understand what is expected and how to meet their compliance program obligations. The periodic compliance attestations referenced above require you to certify that you have instituted internal controls (e.g., periodic attestations, monitoring, auditing) to ensure that your downstream entities are complying with these compliance program requirements.

Additional information on Health Net’s Medicare compliance policies and procedures and training can be found on Health Net’s website under working with Health Net > Medicare Compliance Regulations at: <https://www.healthnet.com/portal/provider/home.ndo>. If you have any questions about the compliance requirements contained in this communication, please contact the Vendor Management Office at [vendormanagementoffice@healthnet.com](mailto:vendormanagementoffice@healthnet.com). We appreciate your cooperation and partnership in complying with these important requirements.

**2. WHAT ARE FDRS?**

CMS defines these terms as follows:

“*FDR*” means “*First Tier Entity*”, “*Downstream Entity*” or “*Related Entity*”.

***First Tier Entity***: Any party that enters into a written arrangement with an MA organization to provide administrative services or health care services for a Medicare eligible individual under the MA program.

**Downstream Entity:** Any party that enters into a written arrangement with persons or entities involved with the MA benefit, below the level of the arrangement between an MA organization and a first tier entity. These written arrangements continue down to the level of the ultimate provider of both health and administrative services.

**Related Entity:** Any entity that is related to an MAO or Part D sponsor by common ownership or control and (1) performs some of the MAO or Part D plan sponsor’s management functions under contract or delegation; (2) Furnishes services to Medicare enrollees under an oral or written agreement; or (3) Leases real property or sells materials to the MAO or Part D plan sponsor at a cost of more than \$2,500 during a contract period. (See, 42 C.F.R. §423.501).

Overview of Core Medicare Compliance Program Requirements (applies to your employees, board members, subcontractors, downstream entities or agents, collectively, “*personnel*”):

1. Compliance Program Requirement: Code of Conduct and Business Ethics	Your Compliance Obligation
<p>Health Net’s Code of Business Conduct Standard and Ethics establishes the standards that reflect Health Net’s reputation as an ethical company and describes our expectations that all personnel conduct themselves in an ethical manner; that issues of noncompliance and potential fraud, waste, and abuse (FWA) are reported through the appropriate mechanisms outlined; that there will be protections against intimidation and retaliation for good faith reporting and that reported issues will be addressed and corrected. Health Net’s Code of Business Conduct and Ethics is available on our website accessible through the Health Net provider portal.</p> <p>You have the option to follow Health Net’s Code of Business Conduct and Ethics or ensure that your organization has a code of conduct that meets CMS requirements that clearly communicate compliance expectations and implement mechanisms for ensuring personnel abide by these expectations.</p>	<p>Ensuring personnel receive the code of conduct/business ethics within ninety (90) days of hire/appointment and annually thereafter (or when any updates are provided to you).</p> <p>Attest that this requirement was met and retain evidence (email message, electronic certifications, attestations) this document was distributed within the timeframes stated above.</p>
2. Compliance Program Requirement: General Compliance Information and Expectations	Your Compliance Obligation
<p>The general compliance policies and procedures, on our website, communicate Health Net compliance information and expectations for our employees and first tier entities. For example, you will find specific information such as the Medicare Compliance Officer’s contact information, information about our anonymous and confidential hotlines for reporting compliance concerns and</p>	<p>Ensure that all personnel receive and review compliance policies and procedures, have access to the compliance information and comply with the expectations outlined.</p> <p>Provide evidence of distribution upon request.</p>

<p>suspected fraud, waste and abuse, our policies for non-retaliation for reporting concerns, and specific policies related to the requirements to report and escalate certain issues within prescribed timeframes.</p>	
<p><b>3. Compliance Program Requirement: Fraud, Waste and Abuse (FWA) Training and Education</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>FDRs will cooperate with Health Net, its partners and Regulators in protecting against fraud, waste and abuse (FWA). All first tier entities must, at a minimum, ensure their personnel receive FWA training.</p> <p>These requirements can be met by completing the CMS Fraud, Waste and Abuse training and education module that is available through the CMS Medicare Learning Network (MLN) website at <a href="http://www.cms.gov/MLNProducts">www.cms.gov/MLNProducts</a>.</p> <p>Please note that CMS allows for certain individuals or entities to be “<i>deemed</i>” to have met the FWA training and education requirements due to their enrollment into Medicare Parts A or B, or through accreditation as a supplier of durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS).</p>	<p>Ensure that personnel and your downstream entities have fulfilled the FWA training requirements within ninety (90) days of initial hiring and annually thereafter.</p> <p>Attest that these requirements were met and retain evidence such as training certifications.</p>
<p><b>4. Compliance Program Requirement: Lines of Communications and Reporting Obligations</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>Health Net has adopted processes to receive, record and respond to compliance questions, reports of potential or actual noncompliance, and FWA from contractors, agents, directors, enrollees, and first tier entities. Health Net maintains confidentiality to the extent possible, allows callers to remain anonymous if desired and ensures non-retaliation against those who report suspected misconduct.</p> <p>To report suspected fraud, waste or abuse, contact Health Net as listed below:</p> <p>Health Net, Inc. Special Investigations Unit PO Box 2048 Rancho Cordova, CA 95741-2048</p> <p>Health Net’s Fraud Hotline: (800) 977-3565</p> <p>To report potential or actual noncompliance or</p>	<p>Establish a culture that requires all employees to report compliance concerns and suspected or actual violations.</p> <p>Establish a 24 hour user friendly and hot-line reporting service.</p> <p>Ensure that all personnel receive the reporting information, understand reporting timeframes and are complying with the expectations outlined.</p> <p>Attest that this requirement was met and retain evidence (email message, electronic certifications, attestations) this information was distributed to personnel.</p>

<p>ethical concerns, contact Health Net as listed below:</p> <p>Health Net Medicare Compliance Officer  Gay Ann Williams  Mail Stop: CA-102-22-07  21650 Oxnard Street  Woodland Hills, CA 91367</p> <p>Health Net's Integrity Line: (888) 866-1366</p>	
<p><b>5. Compliance Program Requirement: Well Publicized Disciplinary Standards</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>Health Net's disciplinary standards are incorporated into several compliance policies which are located on our website. The policies include specific information such as our anonymous and confidential hotlines for reporting compliance concerns, non-retaliation for reporting concerns, appropriate disciplinary actions, compliance with Corrective Action Plans and specific information related to the requirements to report and escalate certain issues within prescribed timeframes.</p>	<p>Ensure communication to personnel of disciplinary standards.</p> <p>Ability to demonstrate that there was timely, consistent and effective disciplining actions for violations, etc.</p> <p>Attest that this requirement was met (email message, electronic certifications, attestations).</p> <p>Maintenance of documentation of disciplinary actions for a period of ten (10) years.</p>
<p><b>6. Compliance Program Requirement: Monitoring and Auditing</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>Health Net's monitoring and auditing policy is available on our website. This policy provides specific information regarding the auditing and monitoring requirements for personnel who perform services to help fulfill Health Net's Medicare Part C and/or Part D contract requirements.</p>	<p>Establish and implement an effective system for routine monitoring and the identification of compliance risks, which includes internal monitoring and auditing and external audits to ensure program compliance.</p> <p>Monitoring and auditing of downstream entities compliance with applicable Medicare requirements.</p> <p>Attest that this requirement was met and retain evidence including but not limited to; monitoring outcomes, summary of the audit work plan, and audit results including appropriate and timely correction of deficiencies.</p>
<p><b>7. Compliance Program Requirement Excluded Entity Screenings</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>Medicare payment may not be made for items or services furnished or prescribed by an excluded entity. Federal funds shall not be used to pay for services, equipment or drugs prescribed or provided by a provider, supplier, employee or FDR</p>	<p>To have a process for demonstrating compliance with excluded entity screening, including:</p> <p>Confirmation that personnel are screened against the OIG (LEIE) and GSA (EEDP) exclusion lists</p>

<p>excluded by the DHHS OIG or GSA. First tier entities and their downstream entities must review; (i) the U.S. Department of Health and Human Services Office of the Inspector General (OIG), List of Excluded Individuals/Entities (LEIE), and (ii) the General Services Administration System(GSA) for Award Managements, Exclusions Extract Data Package (EEDP).</p>	<p>prior to hire/contracting and monthly thereafter.</p> <p>Prompt removal of any personnel from services for Health Net when it is identified that such personnel have been excluded, debarred or suspended from participating in the Medicare program.</p> <p>Attest that this requirement was met and retain evidence including but not limited to; monthly reports, disciplinary actions, and policies and procedures.</p>
<p><b>8. Compliance Program Requirement: Prompt Response to Detected Offenses</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>Health Net’s compliance issues policy establishes the process and procedure for promptly responding to compliance issues as they are raised, investigating potential compliance problems as identified in the course of self-evaluations and audits, correcting such problems promptly and thoroughly to reduce the potential for recurrence, and ensure ongoing compliance with CMS requirements.</p>	<p>To have a process for demonstrating the methods used to report or respond to detected offenses, including:</p> <p>Maintenance of documentation of all deficiencies identified for a period of ten (10) years.</p> <p>Assurance of appropriate corrective actions taken when deficiencies are detected.</p> <p>Monitoring corrective actions of personnel after implementation to ensure actions are effective and prevent recurrence.</p> <p>A process which indicates whether and when potential non-compliance incidences should be reported to the client.</p>
<p><b>9. Compliance Program Requirement: Record Retention</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>Books, records, documents, and other evidence of accounting procedures and practices that are related but not limited too; training records, disciplinary records, records for audit and inspection, and required access to records, are subject to the CMS ten (10) year record retention requirement. Examples of documents include, but are not limited too; records that relate to CMS program requirements (e.g., code of conduct, audit and monitoring reports, hotline reports, etc.), OIG GSA/SAM screenings and background checks including records of detected exclusions and follow-up actions, disciplinary records, including date reported violation description, date of investigation, summary of findings, disciplinary action and the date the action was taken, and records that relate to completion of specialized</p>	<p>To have a process for demonstrating record retention compliance, including:</p> <p>Attest annually that this requirement is being fulfilled.</p>

<p>compliance and/or FWA training.</p>	
<p><b>10. Compliance Program Requirement: Offshore Subcontracting Attestation</b></p>	<p><b>Your Compliance Obligation</b></p>
<p>All Health Net FDRs who use offshore subcontractors to process, handle or access Health Net MA member PHI in oral, written or electronic form, must submit an offshore attestation, including supporting documentation, to Health Net (obtain from your Health Net representative). Member data is not allowed to be stored offshore. Offshore entities may access data through onshore entities located in the United States. Information on the CMS Offshore Attestation requirement can be found at <a href="http://www.healthnet.com/provider">http://www.healthnet.com/provider</a> &gt; Contractual and Clinical Resources &gt; Medicare Compliance Regulations &gt; Offshore Subcontracting Attestation.</p>	<p>To have a process for demonstrating compliance with Offshore Subcontracting requirements including:</p> <ul style="list-style-type: none"> <li>Submission of the attestation form and supporting documentation for each offshore subcontractor engaged to perform Medicare-related work.</li> <li>Providing, as requested, supporting documentation (for example contracts minus proprietary information), policies and procedures, and auditing results).</li> <li>Retain documents for a ten (10)-year period.</li> </ul>

**SCHEDULE K-2**  
**CMS OFFSHORE ATTESTATION REQUIREMENTS**

**SCHEDULE K-2**  
**CMS OFFSHORE ATTESTATION REQUIREMENTS**

**1. OFFSHORE SUBCONTRACT INFORMATION AND ATTESTATION (CY 20XX & CY 20XX)**

Annual Reporting- (Month, Day, Year) New/Changes (Due within xx days)

**1.1 Part I. Medicare Part C Organization and Part D Plan Sponsor Information**

- (a) Provide legal name of MAO or PDP sponsor; and [Name of parent company if different]
- (b) Identify MAO or PDP sponsor contracts or prospective contracts (e.g., H1234 or S1234). [This is to completed by Health Net]

**1.2 Part II. Offshore Subcontractor Information**

- (a) Provide offshore subcontractor name;
  - (i) Provide offshore subcontractor country
  - (ii) Provide offshore subcontractor address;
- (b) Describe offshore subcontractor functions (narrative discussion)
- (c) State proposed or actual effective date for offshore subcontract.

**1.3 Part III. Precautions for Protected Health Information (PHI)**

- (a) Describe the PHI that will be provided to the offshore subcontractor;
- (b) Discuss why providing PHI is necessary to accomplish the offshore subcontractor's objectives; and
- (c) Describe alternatives considered to avoid providing PHI, and why each alternative was rejected.

**2. OFFSHORE**

**2.1 Part I. Attestation of Safeguards to Protect Beneficiary Information in the Offshore Subcontract**

	Yes or No	Attestation
I.1.		Offshore subcontracting arrangement has policies and procedures in place to ensure that PHI and other personal information remains secure.
I.2.		Offshore subcontracting arrangement prohibits subcontractor's access to Medicare data not associated with the sponsor's contracts.

	Yes or No	Attestation
I.3.		Offshore subcontracting arrangement has policies and procedures in place that allow for immediate termination of the subcontract upon discovery of a significant security breach.
I.4.		Offshore subcontracting arrangement includes all required Medicare Part C and D language (e.g., record retention requirements, compliance with all Medicare Part C and D requirements, etc.)

## 2.2 Part II. Attestation of Audit Requirements to Ensure Protection of PHI

	Yes or No	Attestation
II.1.		Organization will conduct an annual audit of the offshore subcontractor.
II.2.		Audit results will be used by the Organization to evaluate the continuation of its relationship with the offshore subcontractor.
II.3.		Organization agrees to share offshore subcontractor's audit results with CMS, upon request.

**SCHEDULE K-3**  
**AHCCCS SUBCONTRACT**

**SCHEDULE K-3**  
**AHCCCS SUBCONTRACT**

Supplier acknowledges that Health Net's subsidiary, Health Net Access, Inc. ("Health Net Access") is a party to the Arizona Health Care Cost Containment System ("AHCCCS") Contract which requires that certain terms and conditions be included in contracts with subcontracting entities such as Supplier that deliver services as a subcontractor to the AHCCCS Contract. This Schedule K-3 sets forth such requirements, which are in addition those requirements set forth elsewhere in the Master Services Agreement ("Agreement"), and are applicable to services provided by Supplier under the AHCCCS Contract.

1. Definitions: Defined terms used in this Schedule K-3 shall have the same meaning as in the Agreement unless otherwise specifically defined herein.
2. Supplier shall comply with the terms and conditions of the attached.
3. Supplier acknowledges and agrees that in the event of any conflict between this Agreement and state and federal laws, rules and regulations to which Health Net or Supplier is subject, or the contract between Health Net and AHCCCS, such state and federal laws, rules and regulations shall control.
4. This Schedule K-3 incorporates and requires compliance with the Minimum Subcontract Provisions of AHCCCS, available at <http://www.azahcccs.gov/commercial/MinimumSubcontractProvisions.aspx>.
5. Supplier's compliance and performance of this Agreement shall be monitored by Health Net periodically and is subject to formal review according to a schedule approved by AHCCCS. Deficiencies in Supplier's performance identified in such periodic reviews and monitoring shall be communicated to the Supplier and a corrective action plan developed and provided to Supplier. Health Net may revoke the continued participation by Supplier as a subcontractor under the AHCCCS Contract or impose other sanctions if Supplier's performance is determined by Health Net to be inadequate.
6. Supplier shall cooperate, as applicable, with quality assurance programs and comply with the utilization control and review procedures specified in 42 CFR Part 456, as specified in the AHCCCS Medical Provider Manual ("AMPM").
7. Supplier shall be fully responsible for all tax obligations, worker's compensations insurance and all other applicable insurance coverage obligations which arise under this Agreement for itself and its employees, and AHCCCS shall have no responsibility or liability for any such taxes or insurance coverage.
8. Health Net may suspend, deny, refuse to renew or terminate this Agreement in accordance with the terms of the Agreement and applicable law and regulation.
9. If Supplier is performing any utilization management and concurrent review activities pursuant to this Agreement, Supplier may not structure compensation to individuals or

entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit or discontinue medically necessary services to any enrollee (42 CFR 438.210(e)).

10. Supplier shall verify the eligibility and enrollment of a Beneficiary in AHCCCS and assigned to Health Net by accessing the AHCCCS website or contacting Health Net. Supplier, if applicable, shall comply with all AHCCCS enrollment and disenrollment procedures for Medicaid Beneficiaries and acknowledges that Medicaid Beneficiaries are enrolled and disenrolled by AHCCCS.
11. Supplier may provide Health Net Access Beneficiaries with factual information, but is prohibited from recommending or steering a Beneficiary in his/her selection of an AHCCCS Program Contractor.
12. Supplier, if applicable, shall identify Medicare and other third party liability coverage and seek such Medicare or third party liability payment before submitting claims to Health Net.
13. Supplier, if applicable, shall comply with Health Net and AHCCCS encounter reporting and claims submission requirements.
14. Supplier, if applicable, shall comply with any necessary authorization from Health Net or AHCCCS for services provided to an eligible and/or enrolled Health Net Access Beneficiary.
15. Before entering into this Agreement which delegates duties or responsibilities to Supplier, Health Net has evaluated Supplier's ability to perform the activities to be delegated hereunder. The delegated duties and reporting responsibilities are specified under the Agreement. Health Net Access' Chief Executive Officer retains the authority to direct and prioritize any delegated contract requirements for services delivered pursuant to the AHCCCS Contract.
16. The Agreement incorporates by reference the terms and conditions of the AHCCCS Medicaid contract.
17. A merger, reorganization or change in ownership of Supplier shall require a contract amendment and prior approval of AHCCCS.
18. This Schedule K-3 incorporates and requires Supplier's compliance with the Disclosure of Ownership and Control and Disclosure of Information on Persons Convicted of Crimes requirements as outlined in contract and 42 CFR 455.101 through 106, 42 CFR 436 and SMDL09-001.
19. Supplier shall require that all Beneficiary communications furnished by the Supplier include Health Net's name.

## 1. INTRODUCTION

This Schedule L (*Disengagement Assistance*) further describes certain Disengagement Assistance and sets forth other terms relating to the provision of Disengagement Assistance. The general purpose of Disengagement Assistance, and Supplier's goal in providing it, shall be (a) to enable Health Net to obtain from another service provider or to provide for itself and other Service Recipients, each in an efficient manner without adverse effect on the continuity of operations or otherwise, services to substitute for or replace the Services, and (b) to minimize any adverse effect of transferring responsibility for providing the Services to Health Net or to a new provider or providers selected by Health Net.

## 2. DEFINITIONS

### 2.1 Certain Definitions

The following terms, when used in this Schedule L (*Disengagement Assistance*), have the meanings given them in this Section 2.1:

- (a) “**Affected Supplier Personnel**” has the meaning given in Section 5.8(a)(i).
- (b) “**Affected Services**” has the meaning given in the Terms and Conditions.
- (c) “**Commercially Reasonable Efforts**” has the meaning given in the Terms and Conditions.
- (d) “**Confidential Information**” has the meaning given in the Terms and Conditions.
- (e) “**Cutover Date**” means, for any Affected Services, the corresponding effective date of the cessation of, or the termination or expiration (as applicable) of Supplier’s obligation under the Agreement to provide, such Affected Services (as such effective date may be extended pursuant to the Terms and Conditions).
- (f) “**Dedicated**” solely for purposes of this Section 2.1, shall mean Supplier Personnel who spend at least \*\*\* of their time in the performance of the Affected Services.
- (g) “**Dedicated BPO Personnel**” means any business process operation Supplier Personnel Dedicated to the performance of the Affected Services (it being understood that any Dedicated Supplier Personnel that are not within the category of Dedicated IT Personnel shall default into this category regardless of the role such individual performs in connection with the Affected Services).
- (h) “**Dedicated IT Personnel**” means any information technology Supplier Personnel Dedicated to the performance of the Affected Services.
- (i) “**Dedicated Personnel**” means Dedicated BPO Personnel and Dedicated IT Personnel.
- (j) “**Discovery Notice**” has the meaning given in Section 5.7(a).
- (k) “**Disengagement Assistance**” has the meaning given in the Terms and Conditions.
- (l) “**Equipment**” has the meaning given in the Terms and Conditions.
- (m) “**Financial Reconciliation Period**” has the meaning given in Section 6.7.
- (n) “**Health Net Data**” has the meaning given in the Terms and Conditions.

- (o) “**Health Net Facilities**” has the meaning given in the Terms and Conditions.
- (p) “**Knowledge Transfer Plan**” has the meaning given in Section 6.6(b).
- (q) “**Leased Equipment**” has the meaning given in Section 5.3(a).
- (r) “**Non-BPaaS Owned Equipment**” means Owned Equipment used in connection with the Non-BPaaS IT Services.
- (s) “**Out-of-Pocket Expenses**” has the meaning given in the Terms and Conditions.
- (t) “**Owned Equipment**” has the meaning given in Section 5.2(a).
- (u) “**Procedures Manual**” has the meaning given in the Terms and Conditions.
- (v) “**Required Consent**” has the meaning given in the Terms and Conditions.
- (w) “**Remaining Rebadged BPO Personnel**” means any business process operation Transitioned Employees who (a) are still employed by Supplier or its Subcontractors, and (b) who are Dedicated to the performance of the Affected Services (it being understood that any Transitioned Employees that are Dedicated to the performance of the Affected Services and who are not within the category of Remaining Rebadged IT Personnel shall default into this category regardless of the role such individual performs in connection with such Affected Services).
- (x) “**Remaining Rebadged IT Personnel**” means any information technology Transitioned Employees who (a) are still employed by Supplier or its Subcontractors, and (b) who are Dedicated to the performance of the Affected Services.
- (y) “**Resources**” has the meaning given in Section 5.1(a)(i).
- (z) “**Reverse Transition**” has the meaning given in Section 4.1.
- (aa) “**Reverse Transition Plan**” has the meaning given in Section 4.2.
- (bb) “**Service Levels**” has the meaning given in Schedule B (*Service Levels*).
- (cc) “**Service Recipients**” has the meaning given in the Terms and Conditions.
- (dd) “**Services**” has the meaning given in the Terms and Conditions.
- (ee) “**Source Code**” has the meaning given in the Terms and Conditions.
- (ff) “**Subcontractor**” has the meaning given in the Terms and Conditions.
- (gg) “**Successor Supplier**” means any third-party vendor to whom Health Net directs that (i) any Disengagement Assistance be provided, or (ii) Resources be transferred in accordance with this Schedule L (*Disengagement Assistance*).
- (hh) “**Supplier Non-Personnel Resource Obligations**” has the meaning given in Section 5.1(c)(iii).
- (ii) “**Supplier Personnel**” has the meaning given in the Terms and Conditions.
- (jj) “**Supplier Personnel Information**” has the meaning given in Section 5.8(a).
- (kk) “**Supplier Personnel Resource Obligations**” has the meaning given in Section 5.1(c)(iv).
- (ll) “**Supplier Procured IT Asset Charge**” has the meaning given in Schedule C (*Charges*).

- (mm) “*Supplier Reverse Transition Lead*” has the meaning given in Section 6.2(a).
- (nn) “*Third Party Agreement*” has the meaning given in Section 5.4(a).
- (oo) “*Transitioned Employee*” has the meaning given in Schedule E (*Transitioned Employees*).
- (pp) “*Unidentified Asset*” has the meaning given in Section 5.7(a).
- (qq) “*Use*” has the meaning given in the Terms and Conditions.

## 2.2 Other Defined Terms

Other terms used in this Schedule L (*Disengagement Assistance*) are either defined in the context in which they are used or are defined elsewhere in the Agreement, and in each case shall have the meanings there indicated.

## 3. GENERAL TERMS

### 3.1 Overview of Disengagement Assistance

- (a) In accordance with Section 16.6 (*Disengagement Assistance*) of the Terms and Conditions, Supplier will provide Disengagement Assistance with respect to the Services as Health Net may reasonably request. In addition to the terms and conditions set forth in this Schedule L (*Disengagement Assistance*), Disengagement Assistance shall include the Supplier obligations set forth in Section 16.6 (*Disengagement Assistance*) of the Terms and Conditions and the provision of bid assistance as set forth in Section 16.8 (*Bid Assistance*) of the Terms and Conditions.
- (b) Disengagement Assistance shall be deemed to be Services, and shall be provided in accordance with this Agreement, including the terms of this Schedule L (*Disengagement Assistance*). Disengagement Assistance will be provided by Supplier as requested by Health Net, and pursuant to a plan specified by Health Net or its designee, with input from Supplier (including as provided in Section 4 of this Schedule L (*Disengagement Assistance*)).
- (c) To the extent that Supplier has delegated its obligation to provide Affected Services to a Subcontractor, Supplier shall cause such Subcontractor to comply with Supplier's obligation to provide Disengagement Assistance with respect to such Affected Services, and with the terms of this Schedule L (*Disengagement Assistance*).

### 3.2 Survival of Agreement

Disengagement Assistance will be deemed to be governed by the Terms and Conditions of the Agreement notwithstanding its earlier termination or expiration.

## 4. REVERSE TRANSITION PLANNING

### 4.1 Reverse Transition Defined

Supplier shall support and cooperate with the transition from Supplier to Health Net or one or more of Health Net's designees of Supplier's responsibility for performing the Affected Services (such transition collectively the “*Reverse Transition*”). The Reverse Transition shall include (a) the migration of the corresponding operations to one or more of such entities, (b) to the extent set forth herein and requested by Health Net, the transfer of the corresponding employees and contractor personnel to one or more of such entities

and (c) to the extent set forth herein and requested by Health Net, the transfer of the corresponding assets to one or more of such entities, each of (a) through (c) in accordance with the terms of this Schedule L (*Disengagement Assistance*) and the Agreement.

#### 4.2 Reverse Transition Plan

Health Net or its designee will be responsible for planning and managing the Reverse Transition. For any Affected Services, Supplier will assist Health Net or its designee in preparing and subsequently revising a plan for the Reverse Transition of such Affected Services to Health Net or its designee, which may include major transition activities, schedules, and milestones that are aligned with Health Net's requirements and the rights outlined in this Schedule L (any such plan a "**Reverse Transition Plan**"). Without limiting the generality of the foregoing, such assistance shall include:

- (a) preparing input for the Reverse Transition Plan detailing how Supplier will perform, during the Reverse Transition, its responsibilities to provide (i) the corresponding Affected Services before the corresponding Cutover Date(s), and (ii) Disengagement Assistance with respect to the Affected Services;
- (b) reviewing draft versions of the Reverse Transition Plan and subsequent revisions, identifying to Health Net (i) risks associated with Health Net's proposed plans for Reverse Transition insofar as those plans involve the Affected Services (including any potential disruption in the Affected Services before the corresponding Cutover Date(s)), and suggested means by which such risks may be mitigated; and (ii) operational constraints that may conflict with Health Net's proposed plans; and
- (c) providing other information regarding the Affected Services or Supplier's performance of Disengagement Assistance with respect to the Affected Services that may be reasonably requested by Health Net in connection with the preparation or subsequent revision of the Reverse Transition Plan.

### 5. RESOURCE TRANSITION

#### 5.1 General Terms

- (a) Access to Resources.
  - (i) Supplier shall provide to Health Net or its designee reasonable and timely access to and use of Equipment, Software, personnel, third parties (including Subcontractors), third party contracts (including leases, licenses and contracts), documentation and other materials or resources that are used to provide such Affected Services (collectively the "**Resources**") for the purpose of transitioning responsibility for such Affected Services to Health Net or its designee.
  - (ii) Supplier shall also provide Health Net or its designee with information concerning the Resources as reasonably requested by Health Net (subject to the confidentiality obligations (A) with third parties, (B) of the Terms and Conditions and (C) any applicable Laws).
- (b) Management of Resources.
  - (i) If and to the extent reasonably requested in writing by Health Net in connection with Disengagement Assistance for any Affected Services, Supplier shall obtain Health Net's prior written approval before (A) taking any action or actions with respect to the removal, reassignment,

- transfer, disabling or disposal of any corresponding Resources, or (B) amending, terminating or extending the terms of (or entering into new) agreements governing such Resources.
- (ii) Without limiting the generality of the foregoing, with respect to personnel Resources, if and to the extent requested by Health Net in connection with Disengagement Assistance for any Affected Services, Supplier will not, without the prior written consent of Health Net:
- (A) Terminate or materially vary, or purport or promise to vary, the terms or conditions of employment, engagement, or service of any Supplier Personnel performing Affected Services;
- (B) Terminate (or give notice to terminate) the employment or engagement of any Dedicated Personnel other than lawfully for cause; or
- (C) Prevent, restrict or hinder any Dedicated Personnel from working for Health Net or any of its designees (including a Successor Supplier).
- (c) Transfer of Resources.
- (i) Supplier shall provide all reasonable assistance required for, and shall take all reasonable actions (including by executing documents) necessary to effect the transfer of Resources as contemplated in this Section 5. Health Net shall reasonably cooperate with Supplier in effecting such transfer of Resources, and shall use Commercially Reasonable Efforts to cause any Successor Supplier to do the same, in each case with due consideration given to minimizing the costs to Supplier and Health Net associated with such transfer of Resources. Supplier shall use Commercially Reasonable Efforts to minimize the costs associated with the transfer of, or assumption of responsibility for, Resources pursuant to this Section 5.
- (ii) Unless otherwise requested by Health Net, the effective date of any transfer of Resources pursuant to this Section 5 shall be the Cutover Date for the corresponding Affected Services.
- (iii) Health Net will not assume, and shall not be liable for, any of Supplier's or any of its Subcontractor's obligations to any third party with respect to any non-personnel Resource owned, leased, licensed, or contracted for by Supplier or any of its Subcontractors (such obligations collectively the "**Supplier Non-Personnel Resource Obligations**"), and Supplier shall be responsible for performing such Supplier Non-Personnel Resource Obligations; provided, however, that for any such Resource transferred to Health Net or its designee pursuant to this Section 5, Health Net shall be responsible for such obligations to the limited extent such obligations (A) arise under a contract that is assigned to Health Net or its designee under this Section 5, and (B) arise after the effective date of assignment of such contract under this Section 5.
- (iv) Health Net will not assume, and shall not be liable for, any claims, obligations, or liabilities of any kind or nature with respect to any personnel Resource that arise out of (A) Supplier's relationship as the

employer of such person, or (B) a contractual arrangement with such person (such obligations collectively “**Supplier Personnel Resource Obligations**”), and Supplier shall be responsible for performing such Supplier Personnel Resource Obligations; provided, however, that for any personnel Resource transferred to Health Net or its designee pursuant to Section 5.7, Health Net shall be responsible for such claims, obligations and liabilities to the limited extent such obligations are either (1) asserted, or result from, facts or circumstances occurring after the date on which such person commences employment with Health Net or its designee (in the case of personnel hired by Health Net or its designee) or the date the corresponding contract is assigned to Health Net or its designee (in the case of contractor personnel), or (2) caused by Health Net or its designee (including by their respective acts and omissions in connection with the selection, recruitment and employment of such persons, if applicable).

(d) Required Consents.

- (i) Software and associated maintenance and support agreements. Supplier shall be financially and administratively responsible (with the cooperation of Health Net) for obtaining the Required Consents for any Software (and associated maintenance and support agreements) for which Supplier is obligated to provide a license to Health Net pursuant to Section 12.3 (*Health Net Rights to Certain Software*) or Section 15.1(b) of the Terms and Conditions, or any other section of the Agreement. Health Net shall be financially responsible and Supplier shall be administratively responsible (with the cooperation of Health Net) for obtaining a Required Consent necessary to assign a Software license (and associated maintenance and support agreements) for any Software not covered by the prior sentence.
- (ii) Equipment Leases and Third Party Service Contracts. If Health Net requests Supplier to assign any leased Equipment in accordance with Section 5.3, or if Health Net requests Supplier to assign any third party service contract in accordance with Section 5.4 below, then the Party which is obligated to procure the Required Consent for such Equipment lease or third party service contract shall be as follows:
- (A) if at the time of acquisition of such leased Equipment or third party service contract, (1) Supplier used Commercially Reasonable Efforts to obtain the right to assign the asset to Health Net, but (2) despite such efforts Supplier was unable to obtain such rights, and (3) Supplier so notified Health Net, and (4) Supplier explored any alternatives and provided such information to Health Net, including any ramifications to the Services that may arise out of using alternatives, and (5) Health Net agreed that Supplier could acquire such asset to utilize in providing the Services notwithstanding not having such right to assign, then Health Net shall be financially obligated to procure such Required Consent and Supplier shall be administratively responsible for procuring such Required Consent (with the cooperation of Health Net);

- (B) For any scenario not covered by Section 5.1(d)(ii)(A) above, Supplier shall be financially and administratively obligated to procure such Required Consent (with the cooperation of Health Net); and
- (iii) For clarity, maintenance and support agreements for Software are covered by Section 5.1(d)(i) above and not Section 5.1(d)(ii).
- (e) Relationship of Asset Purchase Prices to Termination Charges.  
 As a general principle, it is understood and agreed by the Parties that Health Net is not, in any circumstances, obliged to compensate Supplier twice for the acquisition cost of an item of Software, Equipment, or any other tangible Resource acquired by Health Net from Supplier pursuant to this Section 5. Accordingly, to the extent that any Termination Charges payable by Health Net include an allowance or allocation for the expected net book value, residual value or other value of the categories of Resources that Health Net is entitled to acquire from Supplier in connection with the termination, the following shall apply:
  - (i) If Health Net pays Supplier a purchase price for any Resources, such payment shall be deemed to also constitute payment of a Termination Charge in an identical amount, and Schedule C-10 (*Termination Charges*) shall be amended (or deemed amended) to reduce the amount of the remaining Termination Charges by such amount; or
  - (ii) If Health Net pays Supplier a Termination Charge that includes an allowance or allocation for the expected net book value, residual value or other value of the categories of Resources that may be acquired by Health Net from Supplier in connection with such termination, the payment of such charge shall be deemed to constitute Health Net's payment to Supplier of the purchase price of the Resources Health Net is entitled to acquire from Supplier in connection with the termination.

## 5.2 Owned Equipment

- (a) At Health Net's request, Supplier will provide information to Health Net or its designee concerning the Equipment owned by Supplier (or any of its Subcontractors) that is used to perform the Affected Services (collectively the "*Owned Equipment*"), which shall include a complete inventory of such Owned Equipment (in MS Excel format) specifying make, model, serial number, the corresponding Affected Services such Owned Equipment is used to provide, location, purchase date and other reasonable information requested by Health Net. Health Net may audit the accuracy of such information in accordance with Section 18 (*Audits and Records*) of the Terms and Conditions.
- (b) As and to the extent directed by Health Net, Supplier will offer to sell, or will use Commercially Reasonable Efforts to cause the corresponding Subcontractor to offer to sell, to Health Net or its designee some or all (as designated by Health Net) of (i) the Owned Equipment used exclusively to provide the Affected Services that are BPaaS Services, at a purchase price equal to its then-current residual book value, (ii) the Supplier Procured IT Assets owned by Supplier at a purchase price equal to the remaining Supplier Procured IT Asset Charges (if any) for such Equipment less the administrative fee and any maintenance costs and other costs included in the Supplier Procured IT Asset Charges that can be avoided following a transfer of ownership to Health Net. Supplier will convey,

or will use Commercially Reasonable Efforts to cause the corresponding Subcontractor to convey, such Owned Equipment and Supplier Procured IT Assets to Health Net or its designee, along with any associated equipment warranties that Supplier (or the applicable Subcontractor) is permitted to pass on to the purchaser and with all available user and other documentation. Supplier will execute, or shall use Commercially Reasonable Efforts to cause the corresponding Subcontractor to execute, a bill of sale to evidence the conveyance. Conveyance shall be without warranties, other than a warranty of good title, and shall be set out in the bill of sale.

### 5.3 Leased Equipment

- (a) At Health Net's request, Supplier will provide information to Health Net or its designee concerning the Equipment leased by Supplier (or any of its Subcontractors) that is used to perform the Affected Services (collectively the "**Leased Equipment**"), which shall include a complete inventory of such Leased Equipment (in MS Excel format) specifying make, model, serial number, the corresponding Services such Leased Equipment is used to provide, location, lease start date and lease term, and other reasonable information requested by Health Net. Health Net may audit the accuracy of such information in accordance with Section 18 (*Audits and Records*) of the Terms and Conditions.
- (b) As and to the extent directed by Health Net, Supplier will (i) provide, or will use Commercially Reasonable Efforts to cause the corresponding Subcontractor to provide, to Health Net or its designee a copy of the current leases pertaining to (A) the Leased Equipment that is used exclusively to provide the Affected Services that are BPaaS Services and (B) the Supplier Procured IT Assets leased by Supplier, and (ii) assign, or will use Commercially Reasonable Efforts to cause the corresponding Subcontractor to offer to assign, to Health Net or its designee the leases for some or all (as designated by Health Net) of such Equipment; or if and to the extent permitted by the applicable leases and if requested and fully paid for by Health Net for any such Leased Equipment and Supplier Procured IT Assets, Supplier will buy out (or will cause the corresponding Subcontractor to buy out) some or all (as designated by Health Net) of the leases and purchase such Leased Equipment from the lessor, in which case Supplier shall convey to Health Net Supplier's interest in such Equipment. The assignee will assume the assigning party's obligations under any assigned lease relating to periods after the date of assignment.

### 5.4 Third Party Agreements

- (a) At Health Net's request, Supplier will provide information to Health Net or its designee concerning the third party contracts and licenses in Supplier's (or any of its Subcontractor's) name that are used to perform the Affected Services (excluding Equipment leases, which are governed by Section 5.3 above, but including any third party maintenance and support services agreements for Equipment) (collectively the "**Third Party Agreements**"), which shall include a complete inventory of such contracts (in MS Excel format) specifying the third party, the nature of the contract (e.g., equipment maintenance contract), the corresponding Services such contract is used to provide, term and expiration date, and other reasonable information requested by Health Net. Health Net may audit the accuracy of such information in accordance with Section 18 (*Audits and Records*) of the Terms and Conditions.

- (b) Subject to Supplier's or Subcontractor's existing confidentiality restrictions with relevant third parties, as and to the extent directed by Health Net, Supplier will (i) provide, or will use Commercially Reasonable Efforts to cause the corresponding Subcontractor to provide, to Health Net or its designee a copy of the Third Party Agreements that are primarily used to provide the Affected Services and (ii) use Commercially Reasonable Efforts to assign, or cause the corresponding Subcontractor to assign, to Health Net or its designee some or all (as designed by Health Net) of any such Third Party Agreements. The assignee will assume the assigning party's obligations under any such contract assigned relating to periods after the date of assignment.

#### 5.5 Telephone Numbers

- (a) At Health Net's request, Supplier will provide information to Health Net or its designee concerning any telephone numbers (i) for which Supplier or a Subcontractor is the customer of record, and (ii) that are used for the provision of the Affected Services (e.g., help desk numbers), which shall include a complete inventory of such numbers (in MS Excel format), the corresponding Services each of such numbers is used to provide, the corresponding network provider and country of origin, and other reasonable information requested by Health Net. Health Net may audit the accuracy of such information in accordance with Section 18 (*Audits and Records*) of the Terms and Conditions. For avoidance of doubt, this Section 5.5(a) shall not require Supplier to provide the individual telephone number for any specific Supplier employee (personal or otherwise), or the personal telephone number of any Subcontractor.
- (b) At Health Net's request, Supplier shall use Commercially Reasonable Efforts to cause each of the telephone numbers described in Section 5.5(a) that are used primarily for the provision of the Affected Services to be ported to Health Net or its designee as of the corresponding Cutover Date(s), thereby making Health Net or its designee the customer of record for such numbers.

#### 5.6 Software and Deliverables

- (a) Supplier shall comply with its obligations under Sections 12 (*Resource Acquisitions During the Term*) and 15 (*Intellectual Property Rights*) of the Terms and Conditions with respect to Software and Deliverables and Section 4 of Annex 1 (*Supplemental Terms and Conditions for BPaaS Services*).
- (b) Supplier shall comply with its obligations under Section 10.5(f) (*Transfer of Ownership*) of Schedule C (*Charges*) with respect to any Software that is a Supplier Procured IT Asset.

#### 5.7 Unidentified Assets

- (a) For any Affected Services, if after the corresponding Cutover Date, any Owned Equipment, Leased Equipment, Third Party Agreement, or telephone number described in Section 5.5(a) is discovered that was not identified by Supplier pursuant to Sections 5.2 through 5.6 and would have been transferable to Health Net if discovered prior to the Cutover Date (each, an "*Unidentified Asset*"), Supplier shall provide Health Net or its designee with notice of such discovery (such notice for any such Unidentified Asset a "*Discovery Notice*" for such asset), which notice shall provide a description of the corresponding Unidentified Asset which includes the information described in Sections 5.2(a), 5.3(a), 5.4(a), and 5.5(a), as applicable.

- (b) As of the Cutover Date, Supplier hereby grants to Health Net and its designees, at no additional charge, to the greatest extent possible given Supplier's existing rights, perpetual, irrevocable rights of access to, and use of the Unidentified Assets at the rates (if any) calculated pursuant to Sections 5.2 through 5.6; provided, however, that with respect to any Unidentified Asset that is Leased Equipment or a Third Party Agreement, Supplier may terminate the lease or agreement corresponding to such Unidentified Asset at Supplier's expense, but only after: (i) Supplier has provided Health Net with a Discovery Notice for such Unidentified Asset, (ii) Supplier has presented Health Net with a complete copy of the corresponding agreement and has provided Health Net with the opportunity to exercise its rights pursuant to Sections 5.3(b) and 5.4(b); and (iii) Health Net has notified Supplier that it does not wish to exercise its rights pursuant to Sections 5.3(b) or 5.4(b). For any such Unidentified Asset that is Leased Equipment or a Third Party Agreement, Health Net shall provide the notification as to whether it wishes to accept assignment of the corresponding lease or agreement within thirty (30) days after Supplier's delivery of the corresponding agreement to Health Net pursuant to clause (ii) of this Section 5.7(b).

#### **5.8 Human Resources**

- (i) \*\*\*

### **6. REVERSE TRANSITION ASSISTANCE**

#### **6.1 General Support for Reverse Transition Implementation**

- (a) Supplier shall support the implementation of the Reverse Transition Plan by performing its responsibilities relating to the Reverse Transition (including performing any requested Disengagement Assistance relating to the Reverse Transition, and performing Supplier's responsibilities described in the Reverse Transition Plan) in accordance with the Reverse Transition Plan.
- (b) During the Reverse Transition, to the extent that Health Net requests Disengagement Assistance beyond that which is set forth in the Reverse Transition Plan, Health Net will consult and coordinate with Supplier, so as to minimize the possibility of disrupting Supplier's provision of Services.

#### **6.2 Supplier Reverse Transition Team**

- (a) Until the completion of the Reverse Transition, Supplier will assign an individual to serve on a dedicated, full-time basis to manage and oversee Supplier's support of Reverse Transition activities (such position the "***Supplier Reverse Transition Lead***"). The individual serving as the Supplier Reverse Transition Lead shall be subject to Health Net's prior approval. The Supplier Reverse Transition Lead will meet with his or her Health Net counterparts on a weekly basis (or more frequently if requested by Health Net), and will serve as an escalation point for issues relating to the Reverse Transition.
- (b) Supplier will assign other individuals to the Reverse Transition team as reasonably necessary to support Reverse Transition and map to Health Net's or its designee's Reverse Transition organization (e.g., by region or functional area).

#### **6.3 Operational Transition**

Supplier shall perform activities required to facilitate the orderly migration and transition

of operational responsibility for the Affected Services without interruption or adverse effect from Supplier's operating environment(s) to the replacement operating environment(s) of Health Net or its designee, as directed by Health Net, and in accordance with Supplier's responsibilities under the Reverse Transition Plan and this Schedule L (*Disengagement Assistance*). These shall include, as requested by Health Net:

- (a) Providing to Health Net or its designee, as directed by Health Net, machine-readable source code (to the extent required of Supplier under this Agreement) and object code, data base, file, record layouts and field descriptions with respect to the Health Net Software (and other Software, to the extent Health Net is entitled to a license to the same), along with the documentation and associated program execution statements, and other similar information necessary for the designee to execute Software for Health Net's benefit;
- (b) To the extent used to provide the Services and subject to Section 5.6, documenting and delivering program materials, including source and object libraries, reference files, interface definitions, specifications, implementation procedures relative to Health Net's technical environment, and embedded software;
- (c) Delivering then-existing systems support profiles, change logs including enhancement and maintenance, history, problem tracking/resolution documentation, scale, functional and complexity assessment analyses, and status reports associated with the Services;
- (d) Providing work volumes, staffing requirements, demand backlog and information on historical performance for the Service Levels, and to the extent available for each Equipment component or system, over the preceding twelve (12) months;
- (e) Identifying and documenting the demarcation points for each portion of the Affected Services, including any operating level agreements with other Health Net or Supplier groups at those demarcation points and information regarding the physical and virtual locations affected by the Reverse Transition;
- (f) Providing copies of all Health Net Data with the respective data bases and files on electronic media as specified by Health Net or its designee;
- (g) Identifying work and projects expected to be in progress as of the corresponding Cutover Date(s) for the Affected Services, and with respect to such work, documenting current status (including project budget information), stabilizing for continuity during transition, and providing any reasonably required training to qualified personnel to achieve transfer of responsibility;
- (h) Providing the following services before the corresponding Cutover Date(s):
  - (i) Provide documentation used by Supplier to provide the Affected Services, including documentation necessary to provide continuity of service during transition, in hard-copy or electronic media as indicated by Health Net;
  - (ii) Provide Health Net with any help desk or service request tickets and problem logs it does not already have, reporting back at least two (2) years prior to the Cutover Date (but no earlier than the Effective Date);
  - (iii) Identify, record and provide change control historical records including release and maintenance levels for Systems Software;

- (iv) After consultation with Health Net, discontinue all discretionary Software changes, other than with respect to the Services or other modifications necessary to address processing problems;
- (v) Provide and coordinate assistance in notifying outside vendors of the procedures to be followed during the Reverse Transition;
- (vi) Review the organization, structure use and contents of all Software libraries including those utilized for test, staging and production with Health Net's or its designee's operations staff;
- (vii) Assist Health Net or its designee in the analysis of the direct access storage capacity required to accommodate Software libraries and Health Net's data files;
- (viii) Provide reasonable assistance to Health Net or its designee in establishing or transferring operational standards including naming and addressing conventions;
- (ix) Subject to Section 5.6, document and deliver all tools and databases used to provide the Services, including those for tracking projects and service information requests, and those used for knowledge transfer;
- (x) Subject to Section 5.6, and as provided in Sections 12.3 and 15 of the Terms and Conditions or expressly provided in any other section of the Agreement, generate and provide the Source Code for the Software to which Health Net has a license under Sections 12.3 and 15 of the Terms and Conditions or such other express provision of the Agreement in a form reasonably requested, and deliver such Source Code, technical specifications and materials, and user documentation for the Software to Health Net or its designee as and to the extent provided for in Section 12.3 and 15 of the Terms and Conditions or such other express provision of the Agreement;
- (xi) At Health Net's request and to the extent applicable, deliver the materials required to cause and control program execution and associated appropriate program execution documentation and procedures to Health Net or its designee;
- (xii) Make arrangements for any physical de-installation, transportation, and relocation of Equipment and physical assets to be performed as part of the Reverse Transition;
- (xiii) Provide documentation and diagrams for the voice, data, video, and other communications capabilities, including asset information and configuration settings (including configurations, router tables, IP addressing schema, managed device thresholds) for all configurable items (including media access, media, routing, bridging and switching devices and other equipment and software providing communications service delivery and management functions); and
- (xiv) Provide interim Health Net Data, in such format and on such media as reasonably requested by Health Net; and
- (xv) Cooperate and assist Health Net and its designees in achieving a state of operational readiness before the applicable Cutover Date(s), as such readiness is reasonably defined in the Reverse Transition Plan.

- (i) Providing the following services on or before the corresponding Cutover Date(s):
  - (i) Copy and deliver to Health Net all requested Health Net Data files and other Health Net Confidential Information (including content listings and with respect to control file information, printouts of the same), and subject to Section 5.6 and as provided in Sections 12.2 and 12.3 of the Terms and Conditions, copy and deliver Source Code listings for the Software to which Health Net has a license to the extent provided for under Section 15 of the Terms and Conditions;
  - (ii) In conjunction with Health Net or its designee, conduct a rehearsal of any migration that is part of the Reverse Transition prior to the Cutover Date as scheduled by Health Net, and provide any required corrective action identified during the rehearsal;
  - (iii) Provide reasonable assistance to Health Net or its designee in making Health Net Data files available on the storage devices of the new environment;
  - (iv) Provide reasonable assistance to Health Net or its designee with the transmission or movement of data from then-existing databases to the new environment;
  - (v) Provide an image copy (and mirrored DASD volumes if available) of each operating system environment (in dump/restore or image mode, as applicable to the operating system platform);
  - (vi) Allow and assist in the installation and operation of such software, equipment or communications capabilities that may be necessary to allow for the synchronous or asynchronous replication of Health Net Data from Supplier facilities to the facilities of Health Net or its designee;
  - (vii) Provide reasonable assistance to Health Net or its designee with the turnover of operations and the execution of parallel testing and parallel operations;
  - (viii) Assist Health Net or its designee in the identification and removal of security access credentials for Supplier employees, agents and designees from reverse transitioned computing communications devices and associated software; and
  - (ix) Transfer responsibility to Health Net or its designee for off-site media and document storage; and
- (j) Providing, after the corresponding Cutover Date(s), additional assistance requested by Health Net, including:
  - (i) Returning to Health Net (or if requested by Health Net destroying) at no additional charge any remaining Health Net property in Supplier's possession or under Supplier's control, including remaining reports, data and Health Net Data or Health Net Confidential Information; and
  - (ii) Vacating Health Net Facilities in a timely manner at no additional charge.

#### 6.4 Organizational Transition

Supplier shall provide all reasonable assistance required to adequately transfer, in accordance with the Reverse Transition Plan, the organizational information developed during the Term to support the delivery of the Affected Services. Supplier's responsibilities shall include, as requested by Health Net:

- (a) Documenting, updating, and providing functional organization charts, operating level agreements with third-party contractors, phone trees, contact lists, and standard operating procedures;
- (b) Transferring physical and logical security processes and tools, including cataloguing and tendering all badges and keys, documenting ownership and access levels for all passwords, and instructing Health Net or its designee in the use and operation of security controls; and
- (c) Protecting against security breaches of Supplier Personnel during the Reverse Transition by revoking Supplier Personnel access to Health Net Facilities (or secure locations within such facilities), Health Net Data, Health Net Confidential Information, Equipment, Software and other systems, processes and tools, as such Supplier Personnel are transitioned away from Health Net's account or as the functions performed by such Supplier Personnel are transitioned away from Supplier, and accordingly, corresponding access to such items is no longer required.

#### 6.5 Business Continuity Transition

Supplier shall provide, in accordance with the Reverse Transition Plan, reasonable assistance to support Health Net's requirements for business continuity for the Affected Services during the Reverse Transition and, to the extent business continuity Services are among the Affected Services, to transfer responsibility to enable Health Net or its designee to provide similar services as part of the Reverse Transition. Supplier's responsibilities shall include, as requested by Health Net:

- (a) Updating and supplying documentation used by Supplier to provide Business Continuity and Disaster Recovery Services with respect to the Affected Services, including the business continuity plans, testing procedures and frequencies including the reports of the results of such tests, redundancy diagrams and other plans;
- (b) Training and informing Health Net or its designee of then-current policies and procedures with regard to backup and business continuity for the Affected Services;
- (c) Providing for additional overlapping coverage or support through the Reverse Transition to minimize disruption in the event of an outage during that period;
- (d) As requested by Health Net, participate in a reasonable amount of business continuity testing in connection with the Reverse Transition until a successful test of the recovery arrangements has been accomplished; and
- (e) To the extent Health Net Data corresponding to the Affected Services is replicated to another facility, then Supplier shall transfer such data to Health Net or its designee, and upon Health Net's request, Supplier shall provide reasonable assistance to Health Net in developing equipment and other requirements for relocating such data.

## 6.6 Knowledge Transfer

- (a) Supplier will provide for a transfer of knowledge regarding the Affected Services, Health Net's requirements, and related topics, so as to facilitate the provision of the Affected Services by Health Net or its designee. Supplier's responsibilities shall include, as requested by Health Net:
- (i) Providing Health Net and its designee with information regarding the Affected Services that is necessary to implement the Reverse Transition Plan, and providing such information regarding Services as necessary for Health Net or its designee to assume responsibility for continued performance of the Affected Services in an orderly manner so as to minimize disruption in operations. Information that Supplier is obligated to provide under this Section 6.6 shall include: (A) relevant documentation; (B) the Procedures Manual; (C) schedules, frequencies, work product and related information for activities and deliverables as reasonably requested by Health Net; (D) operating level arrangements with third-party vendors of goods and services to the extent relevant to the Affected Services; (E) security plans and procedures; and (F) key support contacts (names and phone numbers) of Health Net and third-party personnel, and of Supplier Personnel during the Reverse Transition;
  - (ii) Providing reasonable training to Health Net's or its designee's personnel in the performance of those Services that are to be transferred, including in the management of the third-party vendors of goods and services used to perform the Affected Services;
  - (iii) Explaining the particular Supplier implementation of the processes enumerated in Schedule A (*Cross Functional Services*) of the Agreement and each SOW, and the human, procedural and technical interfaces to and interactions with Health Net (including the Procedures Manual) to Health Net or its designee's operations staff;
  - (iv) Responding to inquiries from Health Net regarding the Affected Services, including by providing reasonable access (e.g., by telephone) for a period of at least six (6) months after the corresponding Cutover Date(s) to Supplier Personnel who were performing such Affected Services before the Cutover Date(s); and
  - (v) Providing contact listings of potential alternate sources of resources, including skilled labor and spare Equipment parts.
- (b) Supplier's performance of the obligations described in Section 6.6(a) shall be in accordance with a knowledge transfer plan for the Affected Services (each such plan a "**Knowledge Transfer Plan**"). Each Knowledge Transfer Plan will be aligned with the Reverse Transition Plan, and shall, at a minimum, describe the overall knowledge transfer process, including: (i) Supplier's overall approach; (ii) major activities and schedules for the knowledge transfer; (iii) the Supplier Personnel who will participate in the knowledge transfer; (iv) a detailed description of the documentation that Supplier will provide in connection with the knowledge transfer; and (v) designation of resources required of Health Net and associated schedules. Each Knowledge Transfer Plan shall be provided to Health Net for its review, comment, and approval. The reasonable comments or

suggestions of Health Net will be incorporated as applicable into each such Knowledge Transfer Plan and Health Net's final approval will be obtained prior to implementation of the Knowledge Transfer Plan.

#### 6.7 Financial Transition

As of the Cutover Date for any Affected Services, and continuing for a period of six (6) months thereafter (each such period a “*Financial Reconciliation Period*”), Supplier will reasonably cooperate with and support Health Net, at no additional charge, to achieve a final reconciliation with respect to the areas identified in this Section 6.7.

- (a) Supplier Invoicing. Supplier shall submit its invoice for all charges and credits applicable to the Affected Services through the corresponding Cutover Date, which shall be payable in accordance with Schedule C. Effective as of the Cutover Date for any Affected Services, each Party will submit to the other reconciliation information (including as reasonably requested by the other Party) to reconcile any outstanding charges or credits, and each Party shall work diligently and in good faith to achieve a final reconciliation of such charges and credits by the end of the Financial Reconciliation Period.
- (i) The Parties acknowledge the possibility that invoices for third-party contracts (e.g., Third Party Agreements or Equipment leases) used to provide the Affected Services and transferred to Health Net or its designees pursuant to Section 5 may be misdirected by third-party vendors after the effective date of transfer, and provided to Supplier instead of Health Net or its designee. Supplier shall provide any such invoices in their original form to Health Net in a timely manner.
- (ii) Supplier shall reimburse Health Net for third party products or services, if any, for which Supplier is financially responsible, and that are used to provide the Affected Services before the Cutover Date but invoiced to Health Net or its designee.
- (iii) On or before the Cutover Date, Supplier shall provide Health Net with information reasonably requested by Health Net regarding any third party contracts used to provide the Affected Services such that Health Net can reasonably validate that the corresponding third party vendor has invoiced, and Supplier has paid, any charges arising under such contracts before the Cutover Date.
- (b) Asset Acquisitions. Sections 5.2 through 5.4 describe terms pursuant to which Health Net or its designee may acquire certain resources used to provide the Affected Services. Each Party shall work diligently and in good faith to achieve, by the end of the Financial Reconciliation Period, a final reconciliation of the financial issues arising from any transfer of such resources to Health Net or its designee under such provisions.

#### 6.8 Risk Mitigation.

The Parties will at all times work together in good faith during the disengagement to minimize any risk to or interference with the Services (including the Service Levels and the Reverse Transition).

**SCHEDULE M**  
**SUPPLIER COMPETITORS**

## **SCHEDULE M**

### **SUPPLIER COMPETITORS**

The following is a complete list of Supplier Competitors for purposes of the definition in Section 2.1 of the Terms and Conditions. Supplier Competitors shall also include all successors and Affiliates of any of the following:

\*\*\*

In addition, Supplier may add to this Schedule M entities not existing as of the Effective Date but coming into existence thereafter, that engage in the business of providing services that are the same as or comparable to the Services provided by Supplier under the Agreement, by giving Health Net written notice of Supplier's proposed addition and obtaining Health Net's prior written approval of such additional entity.

**SCHEDULE N**  
**NON-DISCLOSURE AGREEMENT**

**SCHEDULE N  
NON-DISCLOSURE AGREEMENT**

This Confidentiality Agreement (this "**Agreement**"), dated as of the \_\_\_ day of \_\_\_\_\_ 20\_\_\_, by and between \_\_\_\_\_, a \_\_\_\_\_ having offices at \_\_\_\_\_ ("**Recipient**"), Health Net, Inc., a Delaware corporation, with its principal offices at 21650 Oxnard Street, Woodland Hills, California 91367 (collectively with its affiliates, "**Health Net**") and Cognizant Technology Solutions U.S. Corporation, a Delaware corporation, with its principal offices at 500 Frank W. Burr Blvd., Teaneck, New Jersey 07666, (collectively with its affiliates, "**Cognizant**") (all parties hereto collectively referred to as the "**Parties**" and individually as a "**Party**").

Recitals:

WHEREAS, Health Net and Cognizant are parties to that certain Master Services Agreement dated November 2, 2014 ("**Master Services Agreement**"), pursuant to which Cognizant will perform certain business process outsourcing services for Health Net;

WHEREAS, Health Net and Recipient have entered into or are contemplating a business relationship wherein Recipient will perform certain services for Health Net which may require Recipient's use of certain confidential information of both Health Net and Cognizant (the "**Services**");

WHEREAS, Recipient and Health Net have entered into a confidentiality or other agreement that governs the use and protection of their respective confidential information that is exchanged between them; and

WHEREAS, the Parties now desire to enter into a separate agreement to govern the use and protection of Cognizant's Confidential Information (as defined below) that may be disclosed to Recipient by either Health Net or Cognizant for the purpose of enabling Recipient to perform the Services.

NOW THEREFORE, in consideration of the above premises the Parties mutually agree as follows:

1. Definition. "**Confidential Information**" shall mean any and all information disclosed to Recipient, or otherwise acquired or observed by Recipient from Cognizant or Health Net and their affiliated companies, relating to the business of Cognizant, whether communicated in writing, orally, electronically, photographically, or in recorded or any other form, including, but not limited to, all customers lists, client contracts, sales and operating information, existing and potential business and marketing plans and strategies, financial information, cost and pricing information, data media, know-how, designs, drawings, specifications, software, tools, methodologies, source codes, technical information, concepts, reports, methods, processes, techniques, operations, devices, and the like, whether or not the foregoing information is patented, tested, reduced to practice, or subject to copyright. The term "Confidential Information" does not include information which (i) becomes generally available to the public other than as a result of disclosure by Recipient in breach of this Agreement; (ii) was available to Recipient on a non-confidential basis as shown in written records prior to its disclosure to Recipient by Cognizant or Health Net; (iii) becomes available to Recipient on a non-confidential basis from a source other than Cognizant or Health Net; *provided* that such source is not bound by a confidentiality agreement with Cognizant or is otherwise prohibited from transferring the information to Recipient by a contractual, legal or fiduciary obligation; or (iv) is independently developed by Recipient without any use of or benefit from the Confidential Information and such independent development can be documented by Recipient with written records.

2. Non-disclosure. In consideration for the receipt of Confidential Information, Recipient shall hold all Confidential Information in confidence and with the same degree of care it uses to keep its own similar information confidential, but in no event shall it use less than a reasonable degree of care; and shall not, without the prior written consent of both Cognizant and Health Net, disclose such information to any person for any reason at any time. The term “person” as used in this letter shall be broadly interpreted to include, without limitation, any corporation, company, partnership or individual.

3. Use. Recipient shall not use any Confidential Information for any reason or purpose other than as necessary in regard to the Services. Recipient agrees to make no other use of the Confidential Information or to incorporate any Confidential Information into any work or product except as permitted under the Master Services Agreement. In addition, Recipient shall not use the Confidential Information for purposes of reverse engineering, decompiling, unbundling or separating for use as a stand-alone product, or preparing derivative works of such Confidential Information, except to the same extent Health Net would itself be permitted to do so under the Master Services Agreement.

4. Ownership. Recipient recognizes that all tangible information derived from Confidential Information (but not information owned by Health Net), including notes, reports and other documents prepared by Recipient in connection with the Services, including all copies thereof, (collectively “*Derived Materials*”) are and shall be the sole property of Cognizant, and Recipient shall keep the same at all times in its custody and subject to Recipient’s control. The Recipient does not hereby and shall not acquire by implication or otherwise pursuant to this Agreement any right in or title to or license in respect of the Confidential Information disclosed to it by Cognizant or Health Net.

5. Compelled Disclosure. In the event that Recipient is requested or required (by oral questions, interrogatories, requests for information or documents, subpoena, civil investigative demand or similar process) to disclose any of the Confidential Information, it is agreed that Recipient or such Recipient’s Representative, as the case may be, will provide Cognizant and Health Net with prompt notice of such request(s) so that Cognizant or Health Net may seek an appropriate protective order or other appropriate remedy. In the event that such protective order or other remedy is not obtained, Recipient or such Recipient’s Representative may furnish that portion (and only that portion) of the Confidential Information which Recipient is legally compelled to disclose and will exercise reasonable best efforts to obtain reliable assurance that confidential treatment will be accorded any Confidential Information so furnished.

6. Return of Confidential Information. Promptly following the earlier of (i) the termination of this Agreement by Health Net or Cognizant pursuant to Section 10, and (ii) the written request of Health Net, Recipient will deliver to the Party from which Recipient received the Confidential Information all documents or other materials furnished by Cognizant or Health Net to Recipient constituting Confidential Information or Derived Materials, together with all copies thereof, including computer disks in the possession of Recipient. In the event of such request, all other documents or other materials constituting Confidential Information, together with all copies thereof in the possession of Recipient, will be destroyed with any such destruction confirmed by Recipient in writing to Cognizant and Health Net.

7. No Warranties. Neither Cognizant nor Health Net makes any representation or warranty as to the accuracy or completeness of the Confidential Information.

8. No Obligation. No Party shall make any commitment or incur any expense or charge for or in the name of any other Party. No Party has any obligation by virtue of this Agreement to procure any products or services from any other Party. Neither execution nor performance of this Agreement shall be construed or deemed to have established any joint venture or partnership or have created the relationship of principal and agent between the Parties.

9. Remedies. Recipient acknowledges that money damages would be both incalculable and an insufficient remedy for any breach of this agreement by Recipient and that any such breach would cause Cognizant and Health Net irreparable harm. Accordingly, Recipient also agrees that, in the event of any breach or threatened breach of this Agreement, each of Cognizant and Health Net, in addition to any other remedies at law or in equity they may have, shall be entitled, without the requirement of posting a bond or other security, to equitable relief, including injunctive relief and specific performance.

10. Scope; Termination. This Agreement is intended to cover Confidential Information disclosed to Recipient by Cognizant and Health Net both prior and subsequent to the date hereof. This Agreement may be terminated (A) by Health Net upon written notice to Recipient, and (B) by Cognizant upon the breach by Recipient of its obligation to not disclose Confidential Information, or use by Recipient of Confidential Information other than is permitted under this Agreement; *provided, however*, that, notwithstanding anything herein to the contrary, Recipient's obligations with respect to each item of Confidential Information will survive for a period of five (5) years following the disclosure of the applicable Confidential Information.

11. Governing Law. This Agreement shall be governed by and interpreted in accordance with the laws of the State of California applicable to agreements entered into and performed wholly within the State of California, and without regard to its conflict of law principles.

12. Amendments. This Agreement may not be and shall not be deemed or construed to have been modified, amended, rescinded or canceled in whole or in part, except by written instrument signed by the Parties hereto which makes specific reference to this Agreement and which specifies that this Agreement is being modified, amended, rescinded or canceled.

13. Severability. If any provision of this Agreement shall be declared invalid or illegal for any reason whatsoever, then, notwithstanding such invalidity or illegality, the remaining terms and provisions of this Agreement shall remain in full force and effect in the same manner as if the invalid or illegal provision had not been contained herein.

14. Waivers. No failure on the part of any Party to exercise, and no delay in exercising, any right or remedy hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any right or remedy hereunder preclude any other or a future exercise thereof or the exercise of any other right or remedy granted hereby, or by any related document, or by law. Any failure of a Party to comply with any obligation contained in this Agreement may be waived by the Party entitled to the benefit thereof only by a written instrument duly executed and delivered by the Party granting such waiver, which instrument makes specific reference to this Agreement and the provision to which it relates and describes the right or obligation consented to, waived or purported to be violated.

15. Entire Agreement; No Assignment; Counterparts. This Agreement contains the entire agreement and understanding between the Parties hereto relating to the subject matter hereof and supersedes all other prior agreements and understandings, both written and oral, between the Parties with respect to the subject matter hereof. This Agreement may not be assigned by Recipient by operation of law or otherwise without the written consent of both Cognizant and Health Net, which consent shall not be unreasonably withheld or delayed. This Agreement may be executed in several counterparts, each of which will be deemed an original, and all of which taken together will constitute one single Agreement between the parties with the same effect as if all the signatures were upon the same instrument.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed by their duly authorized representatives effective as of the date and year first above written.
