Re: Application Requesting Confidential Treatment for Certain Documents Produced to the United States Securities and Exchange Commission by NYSE in Connection with its Amendment to Form 1

Dear Mr. Fields:

The purpose of this letter is to request confidential treatment under Rule 24b-2 of the Securities Exchange Act of 1934 for certain documents submitted pursuant to Rule 6a-2, addressed to the Division of Market Regulation, Office of Market Supervision, United States Securities and Exchange Commission ("SEC" or the "Commission"), and signed by Martha Redding, Senior Counsel, NYSE.

Description	Bates Nos.	Date Produced
Exhibit D of NYSE's Amendment to Form 1 containing unconsolidated and unaudited financial information for certain subsidiaries and affiliates of NYSE, dated June 26, 2015 addressed to the Division of Market Regulation, Office of Market Supervision, of the SEC and signed by Martha Redding, produced to the Commission pursuant to Rule	NYSE-15-000005- NYSE 15-000105	June 26, 2015 and September 1, 2015

Description	Bates Nos.	Date Produced
6a-2 under the Securities Exchange Act of 1934.		
Exhibit D of NYSE MKT's Amendment to Form 1, containing unconsolidated and unaudited financial information for certain subsidiaries and affiliates of NYSE MKT, dated June 26, 2015 addressed to the Division of Market Regulation, Office of Market Supervision, of the SEC and signed by Martha Redding, produced to the Commission pursuant to Rule 6a-2 under the Securities Exchange Act of 1934.	MKT-15-000005-- MKT-15-000105	June 26, 2015 and September 1, 2015
Exhibit D of NYSE Arca's Amendment to Form 1, containing unconsolidated and unaudited financial information for certain subsidiaries and affiliates of NYSE Arca, dated June 26, 2015 addressed to the Division of Market Regulation, Office of Market Supervision, of the SEC and signed by Martha Redding, produced to the Commission pursuant to Rule 6a-2 under the Securities Exchange Act of 1934.	ARCA-15-000005-- ARCA-15-000105	June 26, 2015 and September 1, 2015

The above-referenced Bates stamped documents ("Confidential Material") are deemed by Intercontinental Exchange, on behalf of the NYSE Holdings, LLC, New York Stock Exchange LLC, NYSE MKT LLC, and NYSE Arca, Inc. (collectively, the "Exchanges"), to be highly confidential in their entirety and confidentiality therefore is being requested under the Freedom

of Information Act, 5 U.S.C. 552, the Commission's rules and regulations thereunder (e.g., 17 C.F.R. 200.83(c)) and other applicable statutes or regulations. We request that the Confidential Material be kept confidential for a minimum of 3 years from the date of submission (until June 26, 2018) to ensure that the information is considered sufficiently stale and therefore could not create competitive harm, disadvantage the Exchanges, or be misconstrued to the detriment of the Exchanges and/or public. Because these Confidential Materials constitute financial information which are privileged or confidential, they are subject to the exemption from mandatory disclosure under Exemption 4 of the FOIA, 5 U.S.C. § 552(b)(4) (1976).

Section 552(b)(4) of the FOIA exempts from the disclosure requirements of the FOIA "trade secrets and commercial or financial information obtained from a person and privileged or confidential". The FOIA contains no definition of "privileged" or "confidential". In Gulf & Western Industries, Inc. v. U.S., 615 F.2d 527 (D.C. Cir. 1979), the Court of Appeals concluded that information is confidential for purposes of the FOIA if (i) it is not of the type normally released to the public by the submitter and (ii) the information is of the type that would cause substantial competitive harm if released. There is no requirement that "competitive harm" be established by a showing of actual competitive harm. Rather, "actual competition and the likelihood of substantial competitive injury is all that needs to be shown." Gulf & Western Indus., Inc. v. U.S., 615 F.2d at 530. Thus, in National Parks and Conservation Association v. Kleppe, 547 F.2d 673 (D.C. Cir. 1976), the Court of Appeals concluded that the disclosure of certain financial information, including costs and price-related items, was likely to cause substantial harm to the disclosing party's competitive position. Such disclosure, if required, would provide competitors with valuable information relating to the operational strengths and weaknesses of the disclosing company. Such competitive harm may result from the use of such information either by direct competitors or by persons with whom one is negotiating. See American Airlines, Inc. v. National Mediation Board, 588 F.2d 863, 868 n.13 (2d Cir.1978). It is also clear that the exemption was intended to prevent the fundamental unfairness that can result from one side having confidential information about the other in a business context. Cf. National Parks, supra, at 678 n.18.

Further, the information set forth in the Confidential Material has been provided to the Commission in connection with the Exchanges requirements under 17 CFR 240.6a-2. This information is not of a type customarily made available by the Exchanges to the public. Consequently, the disclosure of the information holds the potential for significant competitive harm to the Exchanges. Additionally, the Confidential Materials are not necessary for the protection of investors as the entities for which the financial information has been omitted are not public companies, and do not hold assets of investors.

For all the foregoing reasons, the Exchanges requests that the Commission determine to protect the confidentiality of the Confidential Material and the information contained therein.

We consent to the release of the Confidential Material for official purposes to any member of the Commission, its staff, other government agencies, offices or bodies, or Congress.

Should the Commission receive any request for these documents from any third party not a member of the Commission, its staff, other government agencies, offices or bodies, or Congress, either pursuant to the Freedom of Information Act or otherwise, we request that we are

given an opportunity to object to such disclosure. Furthermore, should the Commission be inclined to disclose these documents to any third party that is not a member of the Commission, its staff, other government agencies, offices or bodies, or Congress, we request that, in accordance with normal Commission practice, the Commission will provide ten business days' advance notice of any such decision. See, e.g., Chrysler Corp. v. Brown, 441 U.S. 281 (1979).

In that event, we request that the Commission immediately telephone and provide a written copy of such notice to Martha Redding, Senior Counsel, New York Stock Exchange, 11 Wall Street, 19th Floor, New York, New York 10005, (212) 656-2938, martha.redding@theice.com, so that further substantiation of this confidentiality request may be submitted.

Sincerely,

Cc:

The following information was submitted with a request that the Securities and Exchange Commission grant confidential treatment under Rule 24b-2 under the Securities Exchange Act of 1934 (“Exchange Act”) for certain information contained in Exhibit D of amendments to Form 1, which were filed pursuant to Rule 6a-2 under the Exchange Act. The Securities and Exchange Commission denied the request for confidential treatment. See Securities Exchange Act Release No. 83760 (August 1, 2018) (Order Denying Applications by New York Stock Exchange LLC, NYSE MKT LLC, NYSE Arca, Inc. and NYSE National, Inc., Respectively, for Confidential Treatment Pursuant to Rule 24b-2 under the Exchange Act for Material Filed Pursuant to Rule 6a-2 under the Exchange Act). See also Securities Exchange Act Release No. 84497 (October 29, 2018) (Order Lifting the Automatic Stay of the Order Denying Applications by New York Stock Exchange LLC, NYSE MKT LLC, NYSE Arca, Inc., and NYSE National, Inc., Respectively, for Confidential Treatment Pursuant to Rule 24b-2 under the Exchange Act for Material Filed Pursuant to Rule 6a-2 under the Exchange Act).

Report of Independent Auditors

The Board of Directors and Management
New York Stock Exchange LLC and Subsidiaries

We have audited the accompanying consolidated financial statements of New York Stock Exchange LLC and Subsidiaries, which comprise the consolidated balance sheet as of December 31, 2014, the related consolidated statements of comprehensive income, changes in equity and cash flows for the year ended December 31, 2014, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Building a better
working world

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of New York Stock Exchange LLC and Subsidiaries at December 31, 2014, and the consolidated results of their operations and their cash flows for the year ended December 31, 2014 in conformity with U.S. generally accepted accounting principles.

New York Stock Exchange LLC and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2014

1. Description of Business

New York Stock Exchange LLC ("the "Exchange") is a wholly-owned subsidiary of NYSE Holdings LLC (the "Parent"), a holding company that through its subsidiaries, operates securities exchanges including the Exchange. The Parent is a wholly-owned subsidiary of Intercontinental Exchange, Inc. ("ICE"). ICE operates regulated global markets and clearing houses, including futures exchanges, over-the-counter markets and derivatives clearing houses. ICE operates 17 global exchanges and six central clearing houses. The Exchange is a United States registered national securities exchange and self-regulatory organization ("SRO"). As such, it is registered with, and subject to oversight by, the Securities and Exchange Commission ("SEC"). In addition to the Exchange, the Parent has two other subsidiary SRO's: NYSE Arca, Inc. and NYSE MKT LLC.

The Exchange is the regulator of its members. These regulatory functions are performed or overseen by NYSE Regulation, Inc., a subsidiary of the Parent, and certain of its regulatory functions are performed by the Financial Industry Regulatory Authority, Inc., ("FINRA") pursuant to an agreement.

2. Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements are presented in accordance with United States generally accepted accounting principles ("U.S. GAAP") and include the accounts of the Exchange and its direct and indirect subsidiaries, which include NYSE Regulation, Inc., Stock Clearing Corporation, NYSE Market (DE), Inc., FINRA/NYSE Trade Reporting Facility LLC, and Securities Industry Automation Corporation (collectively, the "Subsidiaries"). All intercompany balances and transactions between the Exchange and its Subsidiaries have been eliminated in consolidation.

New York Stock Exchange LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

2. Significant Accounting Policies (continued)

On November 13, 2013, ICE completed its acquisition of the Parent. The accompanying consolidated financial statements reflect the final purchase accounting adjustments as they relate to the Exchange as of the acquisition date. As of the acquisition date, push-down accounting has been applied to the Exchange from ICE, and a new basis of accounting was established for the Exchange reflecting fair value adjustments made during the purchase price accounting process related to the acquisition. For the year ended December 31, 2014, the Exchange made final net purchase accounting adjustments of \$447 million, consisting of the following (in millions):

Goodwill	\$ (22)
Intangible assets	568
Deferred income taxes and taxes payable	(94)
Other	(5)
Total net purchase accounting adjustments	<u>\$ 447</u>

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Exchange's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation Methodology

The accompanying consolidated financial statements have been derived in part from the financial statements of the Parent. To prepare the accompanying consolidated financial statements, management used certain methodologies to rationally and reasonably allocate certain items within the consolidated financial statements of the Exchange. These items have been allocated by the Parent to the appropriate SRO when identifiable or on a pro-rata basis of net revenue, headcount, or other measures for each SRO. Management believes that the items allocated reasonably reflect each SRO's financial position and operating results during the periods presented. Allocations may not, however, reflect the actual financial position and operating results required for the SRO to operate as an independent exchange for the period presented.

Cash and Cash Equivalents

The Exchange considers all short-term, highly liquid investments with original maturities of three months or less to be cash and cash equivalents.

Short Term Financial Investments

The Exchange's financial investments generally are classified as available-for-sale securities and are carried at fair value as of the trade date with the unrealized gains and losses, net of tax, reported as a component of other comprehensive income (Note 8). Interest income on debt securities, bank deposits and other interest rate investments, including amortization of premiums and accretion of discounts, is accrued and recognized over the life of the investment. The specific identification method is used to determine realized gains and losses on sales of investments, which are reported in interest and other income in the consolidated statement of comprehensive income.

Property and Equipment

Property and equipment is recorded at cost, reduced by accumulated depreciation (Note 6). Depreciation and amortization expense related to property and equipment is computed using the straight-line method based on estimated useful lives of the assets, or in the case of leasehold improvements, the shorter of the initial lease term or the estimated life of the improvement. The Exchange reviews the remaining estimated useful lives of its property and equipment at each balance sheet date and will make adjustments to the estimated remaining useful lives whenever events or changes in circumstances indicate that the remaining useful lives have changed.

Allowance for Doubtful Accounts

The allowance for doubtful accounts is maintained at a level that management believes to be sufficient to absorb probable losses in the Exchange's accounts receivable portfolio. The allowance is based on several factors, including a continuous assessment of the collectability of each account. In circumstances where a specific customer's inability to meet its financial obligations is known, the Exchange records a specific provision for bad debts to reduce the receivable to the amount it reasonably believes will be collected. Accounts receivable are written off against the allowance for doubtful accounts when collection efforts cease.

Goodwill and Other Intangible Assets

Goodwill and intangible assets with indefinite lives are not amortized, but are reviewed for impairment on at least an annual basis or whenever circumstances indicate impairment could

Notes to Consolidated Financial Statements (continued)

2. Significant Accounting Policies (continued)

exist. An impairment loss is recognized if the estimated fair value of the reporting unit is less than its book value. Identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives, which are three to seventeen years from date of inception, and are also reviewed at least annually for impairment or whenever changes in circumstances indicate impairment can exist. Identifiable intangible assets consist of exchange registrations and licenses, customer relationships, trade names and other intangible assets.

Income Taxes

The Exchange is included in the consolidated federal and certain unitary state and local income tax returns filed by certain affiliates. The Exchange recognizes income taxes under the liability method. The Exchange recognizes a current tax asset or liability for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of assets and liabilities. The Exchange establishes valuation allowances if it believes that it is more likely than not that some or all of its deferred tax assets will not be realized. Deferred tax assets and liabilities are measured using current enacted tax rates in effect.

The Exchange does not recognize a tax benefit unless it concludes that it is more likely than not that the benefit will be sustained on audit by the taxing authority based solely on the technical merits of the associated tax position. If the recognition threshold is met, the Exchange recognizes a tax benefit measured at the largest amount of the tax benefit that, in its judgment, is greater than 50 percent likely to be realized. The Exchange recognizes accrued interest and penalties related to uncertain tax positions as a component of income tax expenses.

The Exchange is subject to tax in numerous jurisdictions, primarily based on its operations. Significant judgment is required in assessing the future tax consequences of events that have been recognized in the Exchange's financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences could have material impact on the Exchange's financial position or operating results.

Revenue Recognition

Cash trading fee revenues are paid by customer organizations based on their trading activity. Fees are assessed on a per share basis for trading in equity securities. The fees vary based on the size and type of trade that is consummated. The Exchange earns transaction fees for customer orders of equity securities matched internally, as well as for customer orders routed to other exchanges. Cash trading fees are recognized as earned, which is generally upon execution of the trade. Cash trading fees are recorded gross of liquidity rebates and routing charges. Liquidity payments made to cash trading customers and routing charges paid to other

New York Stock Exchange LLC and Subsidiaries

2. Significant Accounting Policies (continued)

exchanges are included in transaction-based expenses in the consolidated statement of comprehensive income.

The Exchange recognizes listing fee revenues from two types of fees applicable to companies listed on the Exchange - listing fees and annual fees. Listing fees consist of two components: original listing fees and fees related to other corporate-related actions. Original listing fees, subject to a minimum and maximum amount, are based on the number of shares that a company initially lists. Other corporate action-related fees are paid by listed companies in connection with corporate actions involving the issuance of new shares to be listed, such as stock splits, rights issues and sales of additional securities, as well as mergers and acquisitions, which are subject to a minimum and maximum fee.

Original listing fees are recognized as revenue on a straight-line basis over estimated service periods of nine years. Other corporate action listing fees are recognized as revenue on a straight-line basis over estimated service periods of six years. Unamortized balances are recorded as deferred revenue in the consolidated balance sheet. The unamortized deferred revenue balances as of December 31, 2014 of \$71 million relates to listing fees incurred and billed and not yet recognized as revenue.

Annual fees are charged based on the number of outstanding shares of listed U.S. companies at the end of the prior year. Annual fees are recognized as revenue on a pro rata basis over the calendar year.

The Exchange collects market data revenues for consortium-based data products. Consortium-based data fees are determined by securities industry plans. Consortium-based data revenues that coordinated market data distribution generates (net of administration costs) are distributed to participating markets. These fees are recognized as revenue as services are rendered.

Other revenues relate to regulatory fees charged to member organizations, trading license fees, facility and other fees provided to specialists, brokers and clerks physically located on the U.S. markets that enable them to engage in the purchase and sale of securities on the trading floor.

Transaction-Based Expenses

The Exchange pays the SEC fees pursuant to Section 31 of the Securities Exchange Act of 1934 for transactions executed on the U.S. security exchanges. These Section 31 fees (which are included in transaction-based expenses in the consolidated statement of comprehensive income) are designed to recover the government's costs of supervising and regulating the securities markets and securities professionals. The Exchange, in turn, collects activity assessment fees, which are included in transaction fees in the consolidated statement of comprehensive income,

New York Stock Exchange LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

from member organizations clearing or settling trades on the Exchange and recognizes these amounts as revenue when invoiced. Fees received are included in cash at the time of receipt and, as required by law, the amount due to the SEC is remitted semiannually and recorded as an accrued liability until paid. The activity assessment fees are designed so that they are equal to the Section 31 fees paid by the Exchange to the SEC. As a result, Section 31 fees do not have an impact on the Exchange's net income.

Section 31 fees collected from customers are recorded on a gross basis as a component of transaction fee revenue.

The Exchange also incurs routing charges when it does not have the best bid or offer in the market for a security that a customer is trying to buy or sell on the Exchange. In that case, the customer's order is routed to the external market center that displays the best bid or offer. The external market center charges us a fee per share (denominated in tenths of a cent per share) for routing to its system. The Exchange includes costs incurred due to erroneous trade execution within routing and clearing.

Fair Value Measurements

The Exchange applies fair value accounting for all financial assets and liabilities and non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis (Note 8). The Exchange defines fair value as the price that would be received for selling an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Exchange's financial instruments consist primarily of cash and cash equivalents, short term financial investments, customer accounts receivable and other short-term assets and liabilities.

3. Goodwill and Other Intangibles

The following is a summary of the activity in the goodwill balance for the year ended December 31, 2014 (in millions):

Goodwill balance at January 1, 2014	\$ 1,586
Net purchase price accounting adjustment	<u>(22)</u>
Goodwill balance at December 31, 2014	<u>\$ 1,564</u>

New York Stock Exchange LLC and Subsidiaries
Notes to Consolidated Financial Statements (continued)

3. Goodwill and Other Intangibles (continued)

The Exchange's intangible assets include \$1,932 million of intangible assets purchased in connection with the ICE acquisition on November 13, 2013. The following table presents the details of the intangible assets as of December 31, 2014 (in millions):

	Carrying Value	Accumulated Amortization	Useful Life
Exchange registration and licenses	\$ 1,523	\$ -	Indefinite
Customer relationships	228	15	17 years
Trade names	154	-	Indefinite
Other intangible assets	67	25	3 years
Total	\$ 1,972	\$ 40	

Indefinite useful lives were assigned to exchange registrations and licenses since the registrations and licenses represent rights to operate the Exchange in perpetuity and based on the long history of the Exchange and the expectation that a market participant would continue to operate them indefinitely. An average 17 year and 3 year useful life for customer relationships and other intangible assets, respectively, is based on the projected economic benefits of the asset, and represents the approximate point in the projection period in which a majority of the asset's cash flows are expected to be realized based on assumed attrition rates. Useful lives of trade names were determined based on history in the marketplace, their continued use, importance to the business and prominence in the industry.

For the year ended December 31, 2014, amortization expense of acquired intangible assets was \$37 million and is included in depreciation and amortization expense in the consolidated statement of comprehensive income.

The estimated future amortization expense of acquired intangible assets is as follows (in millions):

Year Ending December 31:	
2015	\$ 36
2016	33
2017	13
2018	13
2019	13
Thereafter	147
Total	\$ 255

4. Income Taxes

As of December 31, 2014, the Exchange's current income tax payable is \$86 million which primarily relates to amounts owed to the Parent.

The components of the income tax provision for the year ended December 31, 2014 were as follows (in millions):

Current:	
Federal	\$ 70
State and local	29
Total current	<u>99</u>
Deferred:	
Federal	9
State and local	(5)
Total deferred	<u>4</u>
Total tax expense	<u>\$ 103</u>

A reconciliation of the U.S. federal statutory rate of 35 percent to the Exchange's actual income tax rate for the year ended December 31, 2014 was as follows:

Federal statutory rate	35%
State and local taxes (net of federal benefit)	8
Other	(2)
Effective tax rate	<u>41%</u>

The significant components of deferred tax assets and liabilities as of December 31, 2014 are reflected in the following table (in millions):

Deferred tax assets:	
Deferred compensation	\$ 117
Deferred revenue	29
Investment in partnership	42
Tax credits and NOL carryforwards	14
Pension	102
Liability reserve	13
Total before valuation allowance	<u>317</u>
Valuation allowance	(1)
Total deferred tax assets, net of valuation allowance	<u>\$ 316</u>

New York Stock Exchange LLC and Subsidiaries

Notes to Consolidated Financial Statements (continued)

4. Income Taxes (continued)

Deferred tax liabilities:	
Acquired intangible assets	\$ (792)
Property and equipment	(6)
Other	(5)
Total deferred tax liabilities	<u>(803)</u>
Net deferred tax liabilities	<u>\$ (487)</u>

Reported as:

Net current deferred tax liabilities	\$ (49)
Net non-current deferred tax liabilities	(438)
Net deferred tax liabilities	<u>\$ (487)</u>

A valuation allowance is established when management determines that it is more likely than not that all or some portion of the benefit of the deferred tax assets will not be realized.

As of December 31, 2014, the Exchange has gross state and local net operating loss carry-forwards of \$137 million. These carry-forwards are available to offset future taxable income until they begin to expire in 2029.

The Exchange does not recognize a tax benefit unless it concludes that it is more likely than not that the benefit will be sustained on audit by the taxing authority based solely on the technical merits of the associated tax position. If the recognition threshold is met, the Exchange recognizes a tax benefit measured at the largest amount of the tax benefit that, in its judgment, is greater than 50% likely to be realized.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows for the year ended December 31, 2014 (in millions):

Beginning balance of unrecognized tax benefits	\$ 16
Reductions related to acquisitions	(4)
Additions based on tax positions related to current year	5
Ending balance of unrecognized tax benefits	<u>\$ 17</u>

The Exchange recognizes accrued interest and penalties related to uncertain tax positions as a component of income tax expense. For the year ended December 31, 2014, the Exchange recognized \$4 million of tax expense for interest and penalties. Accrued interest and penalties were \$6 million as of December 31, 2014. Tax years prior to 2006 no longer remain subject to examination.

5. Related Parties

In the regular course of business, transactions take place between companies directly or indirectly controlled by the Parent or between such companies and the Parent itself. The Parent's management considers that such transactions have generally been conducted on an arm's-length basis. As of December 31, 2014, the Exchange had a \$480 million net receivable related to direct costs of the Exchange paid by the Parent and companies directly or indirectly controlled by the Parent, on behalf of the Exchange. These costs include compensation and benefits, technology and communications, professional services, rent and occupancy, and selling, general and administrative expenses. Refer to the Allocation Methodology section within Note 2 for further detail. In addition, the Exchange made a dividend payment to the Parent during the year of \$8 million.

The Exchange is included in the consolidated federal and certain state and local unitary income tax returns filed by the Parent. The Exchange also files separate state and local income tax returns in certain other states.

6. Property & Equipment

Components of property and equipment were as follows as of December 31, 2014 (in millions):

Land, buildings and building improvements	\$	226
Leasehold improvements		112
Computers and equipment		82
Software, including software development costs		54
Furniture and fixtures		5
		<u>479</u>
Less: accumulated depreciation and amortization		(72)
Total property and equipment, net	\$	<u>407</u>

For the year ended December 31, 2014, amortization of software, including software development costs, was \$15 million and depreciation of all other property and equipment was \$50 million. These expenses are included in depreciation and amortization expense in the consolidated statement of comprehensive income. The unamortized software balance, including software development costs, was \$38 million as of December 31, 2014.

7. Pension and Other Benefit Plans

The employees of the Exchange and its Subsidiaries participate in defined benefit plans (the "Plans") and defined contribution plans offered to certain U.S. employees of ICE. Effective December 31, 2008, the Exchange's benefit plans were merged with the Plans. The benefit accrual for the Plans is frozen. The Exchange and NYSE MKT LLC represent approximately 92% and 8%, respectively, of the plan assets, for the defined retirement plan, and obligations as of December 31, 2014; however, they are not managed separately. As such, the remainder of this footnote reflects the consolidated Plans with reference to ICE as the ultimate parent of the Exchange.

Defined Benefit Pension Plans

Retirement benefits are derived from a formula, which is based on length of service and compensation. Based on the calculation, ICE may contribute to its pension plans to the extent such contributions may be deducted for income tax purposes. For the year ended December 31, 2014, ICE contributed \$51 million to the pension plans. ICE funds the frozen defined benefit pension plan each year at the level above the minimum required contribution but within tax deductible limits. Based on actuarial projections, ICE estimates that a contribution of \$10 million during the year ending December 31, 2015 will allow ICE to meet its funding goal. However, the actual contribution is contingent on the actual plan performance relative to assumptions.

During year ended December 31, 2014, as part of certain plan amendments, lump sum payments were offered to certain terminated vested participants as part of a de-risking strategy in the pension plans. The offer was made to 2,725 participants, of whom 935, or 34%, elected to receive a lump sum. The total amount paid to this group was \$55 million and when combined with other lump sum payments made during the year, it exceeded the total interest cost and service cost for the year. ICE recognized a loss of \$4 million for the year ended December 31, 2014 in connection with these plan settlements.

ICE bases its investment policy and objectives on a review of the actuarial and funding characteristics of the retirement plan, the demographic profile of plan participants, and the business and financial characteristics of the Parent. Capital market risk/return opportunities and tradeoffs also are considered as part of the determination. The primary investment objective of the Plan is to achieve a long-term rate of return that meets the actuarial funding requirements of the plan and maintains an asset level sufficient to meet all benefit obligations of the plan. The target allocations for the Plan assets are 65 percent equity securities and 35 percent U.S. fixed income securities. Equity securities primarily include investments in large-cap and small-cap companies primarily located in the United States. U.S. Fixed income securities include corporate

bonds of companies from diversified industries and U.S. treasuries.

The fair values of the Plan assets at December 31, 2014, by asset category were as follows (in millions). See Note 8 for further detail on fair value of financial instruments.

Asset Category	Fair Value Measurements			Total

The costs of the plans during the year ended December 31, 2014 have been determined in accordance with the Compensation-Retirement Benefits Topic of the FASB Accounting Standards Codification. The measurement date for the plans is December 31, 2014. The following table provides a summary of the changes in the plans' benefit obligations and the fair value of assets as of December 31, 2014 and a statement of funded status of the plans as of December 31, 2014 (in millions):

ICE uses a market-related value of plan assets when determining the estimated return on plan assets. Gains/losses on plan assets are amortized over a four-year period and accumulate in other comprehensive income. ICE recognizes deferred gains and losses in future net income based on a "corridor" approach, where the corridor is equal to 10% of the greater of the benefit obligation or the market-related value of plan assets at the beginning of the year.

The following table shows the payments projected based on actuarial assumptions (in millions):

Supplemental Executive Retirement Plan

ICE also maintains a nonqualified supplemental executive retirement plan ("SERP"), which provides SERP benefits for certain employees. Employees or former employees of the Exchange participate in SERP. The future benefit accrual of all SERP plans is frozen. To provide for the future payments of these benefits, ICE has purchased insurance on the lives of the participants through company-owned policies. At December 31, 2014, the cash surrender value of such policies was \$54 million, which is included in other non-current assets on the ICE consolidated balance sheet.

The following table provides a summary of the changes in the SERP benefit obligations for the year ended December 31, 2014 (in millions):

Pension and SERP Plan Assumptions

The weighted average assumptions used to develop the actuarial present value of the projected benefit obligation and net periodic pension/SERP cost are set forth below:

	<u>December 31, 2014</u>
Discount rate (pension/SERP)	3.8% / 3.2%
Expected long-term rate of return on plan assets (pension/SERP)	6.5% / N/A
Rate of compensation increase	N/A

The assumed discount rate reflects the market rates for high-quality corporate bonds currently available. The discount rate was determined by considering the average of pension yield curves constructed on a large population of high quality corporate bonds. The resulting discount rates reflect the matching of plan liability cash flows to yield curves. To develop the expected long-term rate of return on assets assumption, ICE considered the historical returns and the future expectations for returns for each asset class as well as the target asset allocation of the pension portfolio.

Postretirement Benefit Plans

ICE assumed the Parent's defined benefit plans to provide certain health care and life insurance benefits for eligible retired U.S. employees. These post-retirement benefit plans, which may be modified in accordance with their terms, were fully frozen in 2009. The net periodic post-retirement benefit costs were \$9 million for the year ended December 31, 2014. The defined benefit plans are unfunded and ICE currently does not expect to fund the post-retirement benefit plans. The discount rate as of December 31, 2014 is 3.8%. The following table shows the

Accumulated Other Comprehensive Income

The accumulated other comprehensive income as of December 31, 2014 was primarily a result of a decline in the discount rate and changes to mortality tables used to measure the benefit obligations of the pension, SERP and post-retirement benefit plans. Accumulated other comprehensive loss, after tax, as of December 31, 2014 consisted of the following amounts that have not yet been recognized in net periodic benefit cost (in millions):

	Pension Plans	SERP Plans	Post- retirement Benefit Plans	Total
Unrecognized net actuarial loss, after tax	\$ (89)	\$ (4)	\$ (21)	\$ (114)

The amount of prior actuarial loss included in accumulated other comprehensive income related to the pension, SERP and postretirement plans as of December 31, 2014, which are expected to be recognized in net periodic benefit cost in the coming year, is estimated to be (in millions):

	Pension Plans	SERP Plans	Post- retirement Benefit Plans	Total
Loss recognition	\$ (2)	\$ -	\$ (1)	\$ (3)

Defined Contribution Plans

ICE assumed the Parent's defined contribution plans for which most employees of the Exchange contribute a portion of their salary within legal limits. The Exchange matches an amount equal to 100% of the first 6% of eligible contributions. Total contributions made for the year ended December 31, 2014 were \$20 million related to the Parent's defined contribution plans. The U.S. operations also provide benefits under a Supplemental Executive Savings Plan ("SESP") to which eligible employees may contribute. SESP contributions were \$2 million for the year ended December 31, 2014. Included in ICE's accrued employee benefits payable was \$13 million as of December 31, 2014 relating to the SESP plan.

8. Fair Value of Financial Instruments

The Exchange accounts for certain financial instruments at fair value in accordance with the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification. The Fair Value Measurements and Disclosures Topic defines fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial instruments is determined using various techniques that involve some level of estimation and judgment, the degree of which is dependent on the price transparency and the complexity of the instruments.

Fair Value Hierarchy

Financial assets and liabilities are classified based on inputs used to establish fair value as follows:

Level 1 – Valuation inputs are unadjusted quoted market prices for identical assets or liabilities in active markets;

Level 2 – Valuation inputs are quoted prices for identical assets or liabilities in markets that are not active, quoted market prices for similar assets and liabilities in active markets and other valuation techniques utilizing observable inputs directly or indirectly related to the asset or liability being measured;

Level 3 – Valuation techniques utilize inputs that are unobservable and significant to the fair value measurement.

If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Changes in the valuation inputs may result in a reclassification of certain financial assets or liabilities. See Note 7 where the fair values of the Exchange's pension plan assets and the hierarchy level of each are disclosed.

A summary of current investments at December 31, 2014 is as follows (in millions):

Mutual Funds (SERP/SESP) ⁽¹⁾	\$ 27	\$ -	\$ -	\$ 27

9. Commitments and Contingencies

The Exchange is, from time to time, subject to legal and regulatory proceedings that arise in the ordinary course of business. However, the Exchange does not believe that the resolution of these matters will have a material adverse effect on the Exchange's consolidated balance sheet, statement of comprehensive income, or liquidity. It is possible, however, that future results of operations could be materially and adversely affected by any new developments relating to the legal proceedings and claims.

The Exchange leases office space under non-cancelable operating leases and equipment that expire at various dates through 2029. Future payments under these obligations as of December 31, 2014 were as follows (in millions):
