The accompanying notes are an integral part of these financial statements.

YORK SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

1. Nature of operations

York Securities (The "Company") is primarily a discount securities broker registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority. The Company's customers are located throughout the United States.

The Company is exempt from the provisions of Rule 15c3-3 under the Securities Exchange Act of 1934 in that the Company's activities are limited to those set forth in the conditions for exemption appearing in paragraph (k)(2)(ii) as a result of the Company clearing all transactions on behalf of customers, on a fully disclosed basis with a clearing broker/dealer.

2. Summary of Significant Accounting Policies

Basis of presentation

These financial statements were prepared in conformity with accounting principles generally accepted in the United States of America which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the amounts of revenue and expenses. Actual results could differ from these estimates.

Revenue and expense recognition

Securities transactions (and the recognition of related income and expenses) are recorded on a trade date basis. Commission income and related expense are recorded on a trade date basis. Marketable securities owned or sold, but not yet purchased, are carried at market value.

Cash

All cash deposits are held by one financial institution and therefore are subject to the credit risk at this financial institution. The Company has not experienced any losses in such account and does not believe there to be any significant credit risk with respect to these deposits.

Income taxes

The Company has elected to be treated as an "S" Corporation under the provisions of the Internal Revenue Code and New York State tax regulations. Under the provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholder is liable for individual income taxes on their respective share of the Company's taxable income. The Company continues to pay New York City general corporation taxes.

Investment valuation

The Company utilizes various methods to measure the fair value of most of its investments on a recurring basis. US GAAP establishes a hierarchy that prioritizes inputs to valuation methods. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The three levels of inputs are:

The accompanying notes are an integral part of these financial statements.

YORK SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Company's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Investments in securities listed on a national exchange are valued at the last reported sales price on the day of valuation. Securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price. Other assets and securities for which market quotations are not readily available are valued at fair value as determined by management in accordance with US GAAP. The resulting unrealized gains and losses are reflected in the statement of operations. Realized gains and losses from securities transactions are determined on the basis of identified cost.

3. Securities Owned -- at Fair Value

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis at December 31, 2014:

	<u>Level 1</u>	<u>Total</u>
Assets:		
Equities	<u>\$149,558</u>	<u>\$149,558</u>

The accompanying notes are an integral part of these financial statements.

YORK SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

4. Due from clearing broker

Pursuant to an agreement with a clearing broker, the Company is required to maintain a clearing deposit of \$250,000. As of December 31, 2014, such deposit is included in due from brokers which is included on the accompanying statement of financial condition.

In the normal course of its business, the Company indemnifies its clearing broker against specified potential losses in connection with their acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under this indemnification cannot be estimated. However, the Company believes that it is unlikely it will have to make payments under these arrangements and as such has not recorded any contingent liability in the financial statements for this indemnification.

5. Commitments and contingencies

The Company leases office space pursuant to an operating lease expiring September 30, 2016. The future minimum rental commitment through termination is:

<u>Year ending December 31,</u>	<u>Total Commitments</u>
2015	50,136
2016	38,442
	<u>\$ 88,578</u>

The lease has been guaranteed by the shareholder. Rent expense for 2014 was approximately 50,100.

6. Profit Sharing Plan

The Company is a sponsor of a 401(k) defined contribution profit sharing plan for its eligible employees. Contributions to the plan, if any, are determined by the employer and come out of its current accumulated profits. The employer's contribution for any fiscal year shall not exceed the maximum allowable as a deduction to the employer under the provisions of the IRS Code Section 404, as amended, or replaced from time to time. The Company's contribution to the plan for the year ended December 31, 2014 was \$9,074.

7. Concentration

Substantially all of the cash assets of the Company are held by one bank and a single clearing broker dealer.

The accompanying notes are an integral part of these financial statements.

YORK SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

8. Financial Instruments with Off-Balance Sheet Credit Risk

In the normal course of its business, the Company enters into financial transactions where the risk of potential loss due to changes in the market (market risk) or failures of the other parties to the transaction to perform (counterparty risk) exceeds the amounts recorded for the transaction.

The Company's policy is to continuously monitor its exposure to the market and counterparty risk through the use of a variety of financial, position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the credit standing of each broker dealer, clearing organization and/or other counterparty with which it conducts business.

9. Regulatory requirements

The Company is subject to the SEC Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2014, the Company had net capital of \$1,105,354, which was \$855,354 in excess of its required net capital of \$250,000. The Company's net capital ratio was .12: 1.

The accompanying notes are an integral part of these financial statements.

To the Stockholders of
York Securities, Inc.
160 Broadway
New York, NY 10038

We have audited the accompanying statement of financial condition of York Securities, Inc. (the Company) as of **December 31, 2014**. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

Management is responsible for the preparation and fair presentation of the statement of financial condition in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the statement of financial condition that is free from material misstatement, whether due to fraud or error.

We conducted our audit in accordance with the standards of Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of York Securities, Inc. as of **December 31, 2014** in conformity with accounting principles generally accepted in the United States.
