INDEPENDENT AUDITOR'S REPORT

Board of Directors
Matrix Capital Group, Inc.

We have audited the accompanying statement of financial condition of Matrix Capital Group, Inc. (the "Company") as of December 31, 2014, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statement. The Company's management is responsible for this financial statement. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position, assessing the accounting principles used and significant estimates made by management as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Matrix Capital Group, Inc. as of December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

The following are the significant accounting policies followed by the Company in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Revenue – Securities transactions (and related commission revenue and expense, if applicable) are recorded on a settlement date basis, generally the third business day following the transaction date. This is not materially different from trade date.

Cash and cash equivalents – The Company includes as cash and cash equivalents amounts invested in money market mutual funds.

Concentration of Credit Risks - The Company maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. Management believes the Company is not exposed to any significant credit risk related to cash.

Furniture, Fixtures and Equipment - Furniture, fixtures and equipment are stated net of accumulated depreciation. Depreciation is computed using straight line and accelerated methods over the estimated useful lives of the related assets ranging from 5-7 years. Depreciation expense for the year ended December 31, 2014 amounted to \$0.

Deferred Income Taxes - The Company provides for amounts of current and deferred taxes payable or refundable as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax assets or liabilities between years. The Company recognizes and discloses uncertain tax positions in accordance with accounting principles generally accepted in the United States of America (GAAP). As of, and during the year ended December 31, 2014 the Company did not have liability for unrecognized tax benefits. The Company is no longer subject to examination by federal and state taxing authorities prior to 2010.

2. Summary of Significant Accounting Policies (Continued)

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates and assumptions.
