REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of Mutual Trust Co. of America Securities

We have audited the accompanying financial statements of Mutual Trust Co. of America Securities (a Florida company), which comprise the statement of financial condition as of December 31, 2014, and the related statements of operations, changes in members' equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements and supplemental information. Mutual Trust Co. of America Securities' management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Mutual Trust Co. of America Securities as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The supplemental information has been subjected to audit procedures performed in conjunction with the audit of Mutual Trust Co. of America Securities' financial statements. The supplemental information is the responsibility of Mutual Trust Co. of America Securities' management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its

form and content, is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

DECEMBER 31, 2014

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Mutual Trust Company of America Securities, Inc. (the Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority (FINRA). The Company was incorporated in Florida on June 23, 1980. The Company is a broker/dealer registered with the Securities and Exchange Commission and engaged in the business of selling securities including stock, bonds and other marketable securities.

Subsequent Events – Management has evaluated event occurring subsequent to the Consolidated Statement of Financial Position through February 18, 2015 (the financial statement issuance date). Management has determined that no significant events require additional disclosure in these consolidated financial statements.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses. These estimates are based on management's knowledge and experience. Actual results could differ from these estimates.

Fair value of financial instruments – The Company uses a three level valuation hierarchy for disclosures of fair value measurements and enhances disclosure requirements for fair value measures. The estimated fair value of the Company's cash and cash equivalents, commissions receivable and commissions payable at December 31, 2013 approximates their respective value in these financial statements due to their relatively short holding periods.

Cash and cash equivalents – The Company considers all highly liquid investments with an original maturity date of three months or less to be considered cash equivalents

Office equipment – Office equipment is recorded at cost. Replacements, maintenance and repairs which do not improve or extend the life of the respective assets, are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful life of the assets which range from three (3) to seven (7) years

Impairment of long-lived assets – Long-lived assets are reviewed for possible impairment on an annual basis or whenever adverse events or circumstances indicate the carrying value of an asset may not be recoverable. Where indications of impairment are identified, management determines whether impairments are present by comparing carrying amounts to the undiscounted future cash flows at the lowest discernable level. Impairment charges, if present, are calculated upon discounted cash flows or fair value, whichever is more readily available.

Revenue recognition – The Company generates revenue in the form of commissions earned on security sales. Revenue is recorded as earned and commissions earned but not received are booked as accounts receivable and maintained as a current asset. Sales of securities and bonds are recorded upon order confirmations and the resulting gain or loss is realized in the period the transaction is completed. Unrealized gains and losses are recorded on a market basis compared to cost basis.

Expense recognition – Expenses are recorded as incurred. Any expense incurred but not paid in the current operating cycle is recorded as a current liability in accounts payable. Direct costs include commissions paid to brokers and management fees.

Income taxes – The Company has elected under Subchapter S of the Internal Revenue Code to be treated as a disregarded entity for purposes of income taxation. As a disregarded entity all elements of income and expense of the Company are allocated to the Owner and reported on his individual income tax return. Accordingly, there is no provision for income taxes in these financial statements. The Company is open to review beginning from 2011 to the present.

Recent Pronouncements. Accounting Standards Update (SU) No. 2014-15, "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern" provides guidance on determining when and how reporting entities must disclose going-concern uncertainties in their financial statements. It requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of the entity's financial statements. Further, an entity must provide certain disclosures if there is "substantial doubt about the entity's ability to continue as a going concern." ASU No. 2014-15 will be effective for annual periods ending after December 15, 2016, and interim periods thereafter with early adoption permitted. Adoption of ASU No. 2014-15 is not expected to have a significant impact on our financial statements.

ASU No. 2014-11, "Repurchase-to-Maturity Transaction. Repurchase Financings, and Disclosures" requires entities to account for repurchase-to-maturity transactions as secured borrowings rather than as sales with forward repurchase agreements and expands disclosure requirements related to certain transfers of financial assets that are accounted for as sales and certain transfers (specifically, repos, securities lending transactions, and repurchase-to-maturity transactions) accounted for as secured borrowings. The accounting-related changes are effective for the first interim or annual period beginning after December 15, 2014. The disclosures for certain transactions accounted for as sales are required for interim and annual periods beginning after December 15, 2014. The disclosures for repos, securities lending transactions, and repos-to-maturity accounted for as secured borrowings are required for annual periods beginning after December 15, 2014, and interim periods beginning after March 15, 2015. Early adoption of the ASU No. 2014-11 is prohibited. Adoption of ASU No. 2014-11 is not expected to have a significant impact on our financial statements.

ASU No. 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists," provides guidance on financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This ASU applies to all entities with unrecognized tax benefits that also have tax loss or tax credit carryforwards in the same tax jurisdiction as of the reporting date. ASU No. 2013-11 became effective on January 1, 2014 and did not have a significant impact on the financial statements.

The Financial Accounting Standards Board and other entities have issued additional new or modifications to, or interpretations of, existing accounting guidance during 2014. Management has carefully considered the new pronouncements that altered generally accepted accounting principles and does not believe that any other new or modified principles will have a material impact on the Company's reported financial position or operations in the near term.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company does not own or lease property or lease office space. The Company shares office space with several non-affiliated entities under a verbal cost sharing agreement. In exchange for office space, the services of the Owner's assistant and certain other office expenses are exchanged for certain clearing fees and commissions. Under the agreement, no revenue or expenses have been recognized for the shared services.

The Company does not have employment contracts with its key employees, including the controlling member who is an officer of the Company. The Company pays a management fee to an affiliated entity for the services of its President. Management fees of \$750,000 were paid in 2014 for these services.

The amounts and terms of the above transactions may not necessarily be indicative of the amounts and terms that would have been incurred had comparable transactions been entered into with independent third parties.

NOTE 4 – NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, as defined, shall not exceed 15 to 1. At December 31, 2014 we had net capital of \$ 1,652,435 which was \$1,552,435 in excess of the required net capital of \$100,000. The ratio of aggregate capital to net capital was 0.84 to 1 or 84% at December 31, 2014.
