REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder
Gilbert Doniger & Co., Inc.

We have audited the accompanying statement of financial condition of Gilbert Doniger & Co., Inc. (a New York corporation) as of December 31, 2014, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements. Gilbert Doniger & Co., Inc.'s management is responsible for this financial statement. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial condition of Gilbert Doniger & Co., Inc. as of December 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

SRV CPA, P.C.

GILBERT DONIGER & CO., INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014

Note 1 - Organization and Business Activity

Gilbert Doniger & Co., Inc. (the "Company") was incorporated in the State of New York in December 1977 and is engaged in business as an introducing broker/dealer in New York City. The Company is registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company's customers are located throughout the United States and the customers' accounts are carried by a clearing broker.

Note 2 - Summary of Significant Accounting Policies

Revenue Recognition and Commissions Receivable - Commissions and related clearing expenses are recorded on a trade date basis as security transactions occur.

Clearing Transactions - The Company transmits all transactions through a clearing broker who maintains the customers' accounts.

Cash and Cash Equivalents - For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalent.

Income Taxes - The Company has elected to be taxed as a C-corporation pursuant to the Internal Revenue Code and applicable state laws. Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes. Income tax expense is based on income reported in the accompanying statements of operations adjusted for differences that will never enter into the computation of taxes payable under applicable tax laws.

Deferred taxes are recognized for differences between the basis of assets and liabilities for financial statement and income tax purposes. Temporary differences giving rise to the deferred tax asset consist primarily of the excess of depreciation for tax purposes over the amount for financial reporting purposes and operating loss carry-forwards available to offset future taxable income. Deferred tax assets and liabilities are identified separately as current or noncurrent based on the classification of the related asset or liability. A deferred tax asset or liability not associated with an asset or liability for financial reporting purposes is classified as current or noncurrent according to the expected reversal date of the temporary difference

The Company accounts for certain tax positions in accordance with the Income Tax Topic of the FASB - Accounting Standards Codification. The Income Taxes Topic of the FASB - Accounting Standards Codification prescribes a recognition threshold and measurement process for financial statement recognition of uncertain tax positions taken or expected to be taken in a tax return. It also provides guidance related to uncertain tax positions such as recognition, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

GILBERT DONIGER & CO., INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014

Note 2 – Summary of Significant Accounting Policies (continued)

Use of Estimates in Financial Statements – The preparation of financial statements in conformity with general accepted accounting principles (“GAAP”), requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3 – Operating Lease

The Company entered into a lease agreement during 2011 which expires in June 2016. The lease agreement contains a rent holiday; therefore the Company recognizes the rent expense on a straight-line basis. At December 31, 2014, the future annual minimum lease payments under this operating lease are as follows:

2015	\$ 49,820
2016	\$ 22,834

	\$ 72,654
	=====

Rent expense for the year ended December 31, 2014 amounted to \$53,091.

Note 4 – Net Capital Requirement

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires that the maintenance of minimum net capital and requires that the ratio of aggregated indebtedness to net capital, both as defined, shall not exceed 15 times net capital, as defined. At December 31, 2014, the Company’s net capital ratio was .03:1.0, and its net capital was \$239,968 as compared with required net capital of \$50,000.

Note 5 – Income Taxes

The Company has accounts for income taxes under the Provisions of the Income Tax Topic of the FASB Accounting Standards Codification which states, among other things, that deferred tax assets and liabilities shall be classified as current or noncurrent based on the classification of the related asset or liability for financial reporting. A deferred tax asset or liability not associated with an asset or liability for financial reporting purposes is classified as current or noncurrent according to the expected reversal date in the temporary difference.

The Company’s current deferred tax asset at December 31, 2014 amounted to \$4,500.

GILBERT DONIGER & CO., INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014

Note 5 – Income Taxes (continued)

The income tax expense for the year ended December 31, 2014:

Federal:	
Current	\$ 928
State and local:	
Current	\$ 209
	<u>\$ 1,137</u>

The Company recognizes tax benefits only to the extent that the Company believes it is “more likely than not” that its tax positions will be sustained upon examination by the taxing authorities. Management believes that all of the positions taken on its federal and state income tax returns would more likely than not be sustained upon examination. The Company’s income tax returns 2011, 2012 and 2013 are subject to possible federal and state examination, generally for three years after they are filed.

Note 6 – Financial Instruments with off Balance Sheet Risk

The Company is engaged in various trading and brokerage activities whose counterparties include primarily broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty. It is the Company’s policy to review, as necessary, the credit standing of each counterparty.

The Company’s exposure to risk associated with nonperformance of customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair a customer’s ability to liquidate the collateral at an amount equal to the original contracted amount. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to such nonperformance by its customers. The Company seeks to control the aforementioned risks by requiring customers to maintain marginal collateral in compliance with the clearing broker’s internal guidelines. The Company monitors its customer’s activity by reviewing information it receives from its clearing broker on a daily basis and requiring customers to deposit additional collateral, or reduce position, when necessary.

Note 7 – Indemnifications

In normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates.

GILBERT DONIGER & CO., INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014

Note 7 – Indemnifications (continued)

The Company also indemnifies some clients against potential losses incurred in the event specified third-party service providers, including sub-custodians and third-party brokers, improperly executed transactions. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated.

However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. The Company may also provide standard indemnifications to some counterparties to protect them in the event additional taxes are owed or payments are withheld, due either to a change in or adverse application of certain tax laws. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

Note 8 – Cash Flow Disclosures

Supplemental disclosure of cash flow information for the year end December 31, 2014:

Cash paid for income taxes	<u>\$1,137</u>
----------------------------	----------------

Note 9 – Subsequent Events

Subsequent events were considered through February 19, 2015, which is the date the financial statements were available to be issued.
