Notes to Financial Statements December 31, 2014

1. Nature of Operations

View Partners Capital LLC (the “Company”) is a broker-dealer registered with the Securities and Exchange Commission (the “SEC”) and a member of the Financial Industry Regulatory Authority (“FINRA”).

The Company engages in investment banking services, such as private placement of securities and merger and acquisition advisory services for corporate customers. The Company’s sole member is View Partners LLC.

2. Summary of Significant Accounting Policies

Basis of Presentation

These financial statements were prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Revenue Recognition

Revenues include fees generated by financing and merger and acquisition advisory services and are recognized ratably over the contractual period. In some instances, the Company receives a retainer which has not yet been fully earned. The unearned portion is included in deferred income on the statement of financial condition.

Income Taxes

The Company is a single member limited liability company, and treated as a disregarded entity for income tax reporting purposes. As such, income or loss of the Company, in general, is allocated to the member for inclusion in its income tax return. Accordingly, the Company has not provided for federal, state or local income taxes.

As of December 31, 2014, management has determined that the company had no uncertain tax positions that would require financial statement recognition. In accordance with GAAP, management is required to determine whether a tax position of the Company is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce net assets. This policy also provides guidance on thresholds, measurement, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management’s conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to on-going analyses of and changes to tax laws, regulations and interpretations thereof. The Company recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties, if assessed. No interest expense or penalties have been assessed for the year ended December 31, 2014.
