I. Summary of Significant Accounting Policies

Business Activity

Equable Securities Corporation (the "Company") was formed in Wisconsin on March 2, 1977. The Company is registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority (FINRA). The Company's principal business activity is the sale of mutual funds and variable annuity products offered by investment companies throughout the United States on behalf of customers principally in Southeastern Wisconsin. The Company is a wholly-owned subsidiary of Equity Enterprises, Inc ("Parent Company").

Cash and Equivalents

Cash and equivalents consist of the Company's checking accounts and money market accounts.

Reserves and Custody of Securities

The Company is exempt from the full requirement of SEC Rule 15c3-3 as no customer's funds or securities are held or under the control of the Company.

Commission Income

The Company recognizes revenue at the time payment is received. Transactions involving registered traded securities are processed through a clearing broker-dealer and commissions are recorded on a trade date basis.

Commission Receivable

The Company uses the allowance method to account for uncollectible commissions receivable. The Company estimates the allowance based on historical collection experience and a review of the current status of accounts receivable. As of December 31, 2014, no allowance for doubtful accounts is provided as all receivables are considered collectible.

Property and Equipment

Property and equipment are recorded at cost and are depreciated using the straight-line method for financial reporting purposes and accelerated methods for income tax purposes. Major expenditures for property and equipment are capitalized. Maintenance, repairs, and minor renewals are expensed as incurred. When assets are retired or otherwise disposed of, their costs and related accumulated depreciation are removed from the accounts and resulting gains or losses are included in income.

Impairment on Long-Lived Assets

The Company reviews long-lived assets, including property and equipment, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the estimated future cash flows from the use of the asset are less than the carrying amount of that asset. To date, there have been no such losses. Management believes there has been no impairment of long-lived assets as of December 31, 2014.

1. Summary of Significant Accounting Policies (Continued)

Income Taxes

The taxable income of the Company is included in the consolidated federal income tax return of its parent company. The Parent Company allocates the consolidated provision for federal income taxes on a separate return equivalent basis.

Deferred income taxes are provided for timing differences between the carrying amounts of assets and liabilities for financial statement purposes and the amounts used for income tax purposes. Timing differences arise principally from the use of accelerated methods of depreciation for income tax purposes. The provision for income taxes consists of the following components:

Current	\$ 7,020
Deferred tax benefit	<u>(465)</u>
	<u>\$ 6,555</u>

No interest or penalties have been recorded in the financial statements as a result of any tax assessments. In addition, management is not aware of any unrecognized income tax benefits. The Company is no longer subject to United States income tax examination for years before 2011 and for years before 2010 for Wisconsin income tax purposes.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated all subsequent events through February 09, 2015 for possible inclusion as a disclosure in the financial statements. There were no subsequent events that required recognition or disclosure.

2. Filing Requirements

There were no liabilities subordinated to claims of creditors during the period ended December 31, 2014. Accordingly, a statement of changes in liabilities subordinated to claims of creditors is not included in the financial statements as required by rule 17a-5 of the Securities and Exchange Commission.

3. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires that the ratio of aggregated indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2014, the Company's net capital and required net capital were \$419,397 and \$50,000, respectively. The ratio of aggregate indebtedness to net capital was 0.24 to 1.

4. Common Stock

Common stock consists of the following:

	<u>Authorized</u>	<u>Outstanding</u>
\$1 Par Per Share	50,000 shares	16,000 shares

5. 401(k) Plan

The Parent Company has adopted a 401(k) Profit Sharing Plan and Trust (the "Plan") for the benefit of its employees and the employees of the Company. The Plan is available to all employees who have attained twenty-one years of age and who have completed one year of service to the Company. The Plan allows for employee deferrals of annual salary, an employer matching contribution of 50% of the employee contribution up to 3% of annual salary, and a discretionary employer contribution as determined annually. The Company's total contribution for the year ended December 31, 2014 was \$92,441.

6. Related-Party Activity

Equable Securities Corporation shares office space with its parent company under a month-to-month lease arrangement with the parent company's sole shareholder. Total lease expense was \$74,100 for the year ended December 31, 2014.

Common expenses are allocated between the Company and its parent company based upon a written agreement. In 2014, Equable Securities Corporation was responsible for 95% of allocated expenses for the year.

The Company also has a management agreement with the parent company. Under this agreement, the Company is provided certain management and administrative services by personnel of the parent company. During the term of the agreement, the parent company will receive a monthly management fee equal to 6% of the Company's gross revenues for the previous month. Total management fee expense for 2014 was \$114,282.

7. Statement of Financial Condition Risk

As discussed in Note 1, the Company's customer securities transactions are introduced on a fully disclosed basis with its clearing broker-dealer. The clearing broker-dealer is responsible for the execution, collection and payment of funds and receipt and delivery of securities relative to customer transactions. Off-balance sheet risk exists with respect to these transactions due to the possibility that the customers may be unable to fulfill their contractual commitments, wherein the clearing broker-dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers.

8. Concentrations

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash. The Company maintains its cash with one financial institution. The total cash balances of the Company are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per depositor, per bank. The Company held cash throughout the year which, at times, may have exceeded the balance insured by the FDIC. The Company monitors such credit risk and has not experienced any losses related to such risks.
