REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders
Kotak Mahindra, Inc.

We have audited the accompanying statement of financial condition of Kotak Mahindra, Inc. as of March 31, 2015. This financial statement is the responsibility of Kotak Mahindra, Inc.'s management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Kotak Mahindra, Inc. as of March 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

KOTAK MAHINDRA, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

MARCH 31, 2015

1. Organization and nature of business

Kotak Mahindra, Inc. (the "Company"), a majority owned subsidiary of Kotak Mahindra Bank Limited (the "Parent"), is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company's operations consist primarily of engaging in agency transactions that are settled on a delivery versus payment basis. These include shares trading on the Indian stock exchange that are executed and handled by its India affiliate, Kotak Securities ("KS"). The Company also distributes research reports developed by KS and provides sales services and earns revenue for this service. The Company also refers clients to its affiliate Kotak Mahindra Bank Limited for custodial services, and places funds in the U.S. that are managed by its affiliates Kotak Mahindra (UK) Limited and Kotak Mahindra (International) Limited.

2. Summary of significant accounting policies

Basis of Presentation

The statement of financial condition has been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

This financial statement was approved by management and available for issuance on April 16, 2015. Subsequent events have been evaluated through this date.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Fixed Assets

Fixed assets are stated at cost less accumulated depreciation. The Company provides for depreciation using the straight-line method over estimated useful lives for office equipment and furniture over five years and computers over three years.

Income Taxes

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the financial statements as appropriate. Accrued interest and penalties related to income tax matters are classified as a component of income tax expense.

KOTAK MAHINDRA, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

MARCH 31, 2015

2. Summary of significant accounting policies (continued)

Income Taxes (continued)

In accordance with GAAP, the Company is required to determine whether a tax position of the Company is more-likely-than-not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position.

The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce stockholders' equity. This policy also provides guidance on thresholds, measurement, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

The Company files its income tax returns in the U.S. federal and various state and local and foreign jurisdictions. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for years before 2011. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state and local and foreign tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Revenue Recognition

The Company receives referral fees for referring clients to affiliates of the Company. Referral fees are based (a) on the month-end net asset value of the clients' holdings and (b) on the equity brokerage and derivative trades as a percentage of each trade. The percentage of commissions is determined based on a pre-defined fee structure agreed by the clients at the time of opening the accounts or as per an amendment. The Company receives advisory fees for providing research to clients and records the income at the time the services are provided. The Company also receives service fee income from its affiliate Kotak Securities Limited as compensation for providing chaperoning services under Rule 15a-6 of the Securities Exchange Act of 1934.

Valuation of Investments in Securities at Fair Value - Definition and Hierarchy

In accordance with GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. In accordance with GAAP, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

KOTAK MAHINDRA, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

MARCH 31, 2015

2. Summary of significant accounting policies (continued)

Valuation of Investments in Securities at Fair Value - Definition and Hierarchy (continued)

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls, is determined based on the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy. Money market funds approximate fair value due to the short term nature of the investment. Investments in common stock and mutual funds that are freely tradeable on national stock exchanges are valued at their last reported sales price as of valuation date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

KOTAK MAHINDRA, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

MARCH 31, 2015

2. Summary of significant accounting policies (continued)

Cash Incentive Bonus

The Company provides certain employees with a cash incentive bonus equivalent to the value of shares of Kotak Mahindra Bank Limited at the time of grant. As of March 31, 2015, \$38,681 remains payable in connection with such bonus.

3. Fair value measurements

The Company's investments recorded at fair value have been categorized based upon a fair value hierarchy as described in the Company's significant accounting policies in Note 2.

The following table presents information about the Company's assets measured at fair value as of March 31, 2015:

	In Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of March 31, 2015
Assets (at fair value)				
Cash and cash equivalents:				
Money market funds	\$41,692			\$41,692
Investments in securities:				
Common stocks	\$15,282	-	-	\$15,282
Mutual fund	952,973	-	-	952,973
Total investments in securities	\$968,255	-	-	\$968,255

The Company had originally made a \$920,000 investment in a mutual fund wherein an affiliate of the Company, Kotak Mahindra (UK) Limited, acts as a sub advisor. Kotak Mahindra (UK) Limited is also a subsidiary of the Company's Parent. Of this, the Company redeemed \$200,000 in the prior year. The investment is carried at a fair value of \$952,973 as of March 31, 2015, which is included in investments in the statement of financial condition.

4. Related party transactions

The Company received referral fees from two affiliates who managed accounts referred to them by the Company. Amounts due from these affiliates for referral fees at March 31, 2015 were \$51,117.

In November 2007, the Company provided a \$2.5 million three-month term loan to Kotak Mahindra International Limited, a stockholder, which was renewable upon notice. The note, which bore interest at the rate of 2.75% per annum, was repaid in full during the year ended March 31, 2015.

KOTAK MAHINDRA, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

MARCH 31, 2015

4. Related party transactions (continued)

The Company advanced loans to two employees during the year totaling \$66,667. As of March 31, 2015 the outstanding receivable on this account was \$51,389.

5. Income taxes

At March 31, 2015, the Company had net operating loss carry forwards of approximately \$2,800,000 and \$4,800,000 for federal and state income tax purposes, respectively, which resulted in a deferred tax asset of approximately \$1,360,000. The net operating loss carry forwards begin to expire in 2031. Based upon the projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that the Company will not realize the benefits of these carry forwards, and therefore, a full valuation allowance has been recorded for federal and state purposes. The change in the valuation allowance for the year ended March 31, 2015 was approximately \$153,000.

The effective rate differs from the statutory rate due to the change in the valuation allowance on the deferred tax asset.

6. Exemption from Rule 15c3-3

The Company is exempt from the SEC Rule 15c3-3 pursuant to the exemptive provision under sub-paragraph (k)(2)(i), and therefore, is not required to maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers."

7. Net capital requirement

The Company is a member of FINRA, and is subject to the SEC Uniform Net Capital Rule 15c3-1. This Rule requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1, and that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At March 31, 2015, the Company's net capital was \$2,161,192 which was \$1,911,192 in excess of its required net capital of \$250,000.

KOTAK MAHINDRA, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

MARCH 31, 2015

8. Commitments and Contingencies

Office space

The Company has non-cancelable operating leases for office facilities in White Plains, New York expiring in August 2015 and in New York City which expired in March 2015. The Company is currently renting the New York City Office on a month-to-month basis. These leases are subject to escalations for increases in real estate taxes and other operating costs.

Contingencies

The Company is subject to various regulatory examinations that arise in the ordinary course of business. In the opinion of management, results of these examinations will not materially affect the Company's financial position or results of operations.

9. Off-balance-sheet risk and concentrations of credit risk

From time to time, the Company maintains its cash in a financial institution that may exceed the Federal Deposit Insurance Corporation coverage of \$250,000. The Company has not experienced any losses in such accounts and believes it is not subject to any significant credit risk on cash.
