Under ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. Note 6 - Financial Instruments with Off-Balance Sheet Risk and Concentrations of Credit Risk

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company's Clearing Broker extends credit to the customer, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customer's account.

As a result of guaranteeing customer margin balances carried by the Clearing Broker, the Company may be exposed to off-balance sheet risk in the event margin requirements are not sufficient to fully cover losses the customer may incur. At December 31, 2014, margin accounts guaranteed by the Company were not material.

The Company is also exposed to off-balance sheet risk of loss on transactions during the period from the trade date to the settlement date, which is generally three business days. If the customer fails to satisfy its contractual obligations to the Clearing Broker, the Company may have to purchase or sell financial instruments at prevailing market prices in order to fulfill the customer's obligations. Settlement of these transactions is not expected to have a material effect on the Company's financial position.

The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and the Clearing Broker guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, require customers to deposit additional collateral, or to reduce positions, when necessary.

The Company maintains cash and other deposits with banks and brokers, and, at times, such deposits exceed applicable insurance limits. The Company reduces its exposure to credit risk by maintaining such deposits with high quality financial institutions.

Note 7 - Operating Lease

The Company subleases office space under a sublease agreement that began on February 1, 2015 and expires on January 31, 2016. The prior lease has expired and all debt related to this lease has been paid. Rent expense was \$21,500 for the year ended December 31, 2014.

Dakota Securities International, Inc.
Notes to Financial Statements
December 31, 2014

Note 8 - Commitments and Contingencies

Arbitration: At December 31, 2014, the Company had been named on a FINRA pending dispute resolution (Arbitration #14-03006). Without confirming or denying these allegations, the Parties have entered into a Settlement Agreement wherein the Parties have agreed, among other things and in consideration of the payments set forth, to a Stipulated Award in favor of Claimant and against the Company which is liable to the Claimant in the amount of \$50,000 which is included as a payable as of the year ended December 31, 2014.

This settlement release is a fully binding and complete settlement among the Claimant and the Company. The Company is exposed to various asserted and unasserted potential claims encountered in the normal course of business. In the opinion of management, the resolution of these matters will not have a material effect on the Company's financial position or results of operations.

Subordinated Borrowings: On May 14th, 2014, the Company entered into a One (1) year SL-31D subordinated loan agreement with BTCM Holdings, LLC. in the amount of \$85,000 as approved by FINRA in accordance with Appendix D of SEC Rule 15c3-1.
