INDEPENDENT AUDITORS' REPORT

To the Members of
Doric Corporation.

We have audited the accompanying statement of financial condition of Doric Corporation. (the "Company"), and the related notes as of September 30, 2015.

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of the Company as of September 30, 2015, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of this statement.

DORIC CORPORATION
NOTES TO STATEMENT OF FINANCIAL CONDITION
FOR THE YEAR ENDED SEPTEMBER 30, 2015

1. ORGANIZATION AND NATURE OF BUSINESS

Doric Corporation (the "Company") is an investment advisory firm and a Delaware Corporation, which was organized on March 28, 2005 and is registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority ("FINRA") as a broker-dealer. The Company is a wholly-owned subsidiary of Doric GmbH, formerly Doric Asset Finance & Verwaltungs GmbH (the "Parent"), in Offenbach am Main, Germany, which arranges structures, manages and administers closed end funds issued – amongst others - in Germany. The Company, via a service agreement, fully supports the business of Doric Asset Finance GmbH & Co. KG (DAF KG). The Company is registered as a broker-dealer so that it may conduct private placement of securities.

2. REVENUE RECOGNITION

The Company generates revenue from its service agreements and recognizes revenue ratably over the term of the related agreements as services are provided. Any service fees received in advance of services being provided are recorded as deferred revenue on the balance sheet until services are provided, at which time revenue is recognized.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. CASH AND CASH EQUIVALENTS

The Company maintains cash with financial institutions. Funds deposited with a single bank are insured up to \$250,000 in the aggregate by the Federal Deposit Insurance Corporation ("FDIC"). The Company considers all highly liquid instruments purchased with a maturity date of three months or less when purchased to be cash equivalents.

DORIC CORPORATION

NOTES TO STATEMENT OF FINANCIAL CONDITION (continued)

FOR THE YEAR ENDED SEPTEMBER 30, 2015

4. PROVISION FOR INCOME TAXES

The Company is classified as a "C" Corporation for income tax. The current provision for Federal and State income taxes for the period ended September 30, 2015 is \$10,935.

The provision for income taxes for the period ended September 30, 2015 differs from the amount obtained by applying the U.S. federal income tax rate to pretax income due to federal graduated rates and state income taxes.

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. There were no deferred assets or liabilities at September 30, 2015.

FASB provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. For the period ended September 30, 2015 management has determined that there are no material uncertain income tax positions.

5. PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed by the straight-line method over an estimated useful life of 3 years. Property and equipment was fully depreciated as of September 30, 2015.

6. CONCENTRATION OF CREDIT RISK

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of temporary cash investments. The Company places its temporary cash investments in high credit financial institutions. However, a portion of temporary cash investments exceed FDIC insured levels from time to time.

DORIC CORPORATION

NOTES TO STATEMENT OF FINANCIAL CONDITION (continued)

FOR THE YEAR ENDED SEPTEMBER 30, 2015

7. PROFIT SHARING PLAN

The Company offers a 401 (k) profit sharing plan that covers employees who have completed at least 1,000 hours of service and attained the age of 21. Contributions by the employer are discretionary depending on profitability and are not to exceed the amount allowed for federal income tax purposes. The Company did not make any contributions for the period ended September 30, 2015.

8. RELATED PARTY TRANSACTIONS

The Company has a service agreement with DAF KG providing for service fee revenue equal to budgeted costs plus a 6% margin for which monthly advance payments were made. For the year ended September 30, 2015, the Company recognized \$840,990, in service fees under this agreement.

9. SUBSEQUENT EVENTS

Events have been evaluated through the date that these financial statements were available to be issued and no further information is required to be disclosed.
