BETA CAPITAL MANAGEMENT, L.P.
NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business and Organization

Beta Capital Management, L.P. (the Partnership) is registered with the Securities and Exchange Commission as a broker-dealer of various types of equity, debt, commodity, and mutual fund securities. The Partnership acts in an agency and riskless principal capacity, buying and selling these securities for its customers, primarily within Latin America, and charging a commission.

Government and Other Regulation

The Partnership's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Partnership is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Cash and Cash Equivalents

The Partnership considers all highly liquid debt instruments having maturities of three months or less at the date of acquisition to be cash equivalents. The Partnership may, during the ordinary course of business, maintain account balances in excess of federally insured limits.

Property and Equipment

Property and equipment is recorded at cost. Expenditures for major betterments and additions are charged to the asset accounts while replacements, maintenance and repairs which do not improve or extend the lives of the respective assets are charged to expense currently.

Depreciation and amortization are computed using the straight-line method based upon estimated useful lives of three to five years.

Defined Contribution Plan

The Partnership maintains a 401(k) plan covering substantially all employees, with the Partnership matching up to 4% of employee payroll deferrals at the Partnership's discretion.

Securities Transactions and Revenue Recognition

Securities transactions, along with related commission income, clearing costs and commission expenses, are reported on a trade date basis, and are valued at quoted market or dealer quotes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

Income Taxes

The Partnership is a Limited Liability Partnership, which does not incur federal income taxes. Instead, its taxable income or loss is reflected by the partners on their individual income tax returns. No provision for income taxes is included in the accompanying statement of financial condition.

The Partnership assesses its tax positions in accordance with "*Accounting for Uncertainties in Income Taxes*" as prescribed by the Accounting Standards Codification, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years (generally a period of three years from the later of each return's due date or the date filed) that remain subject to examination by the Partnership's major tax jurisdictions. Generally, the Partnership is no longer subject to income tax examinations by major taxing authorities for years before 2011.

The Partnership assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Partnership records these liabilities to the extent it deems them more likely than not to be incurred. Interest and penalties related to uncertain tax positions, if any, would be classified as a component of income tax expense.

The Partnership believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying statement of financial condition.

NOTE 2. RISK CONCENTRATIONS

Clearing and Depository Concentrations

The primary clearing and depository operations for the Partnership's securities transactions are provided by a brokerage firm whose principal office is in New York, New York. At December 31, 2014, the receivable from broker, \$1,107,227 of cash and cash equivalents, and \$450,000 included as part of the deposit at brokers as reflected in the accompany statement of financial condition, are held by and due from the primary clearing broker.

NOTE 2. RISK CONCENTRATIONS (Continued)

Other Risk Concentrations

In the normal course of business, the Partnership's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Partnership to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Partnership has to purchase or sell the financial instrument underlying the contract at a loss.

The Partnership's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Partnership, through its clearing firm, extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the Partnership executes customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Partnership to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event a customer fails to satisfy its obligations, the Partnership may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. The Partnership seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Partnership monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral or to reduce positions when necessary.

NOTE 3. NET CAPITAL REQUIREMENTS

As a registered broker-dealer, the Partnership is subject to the Uniform Net Capital Rule of the Securities and Exchange Commission, which requires that "Net Capital", as defined, shall be at least the greater of \$250,000 or one-fifteenth of "Aggregate Indebtedness", as defined. At December 31, 2014, the Partnership's "Net Capital" was \$1,266,341 which exceeded the requirements by \$1,016,341 and the ratio of "Aggregate Indebtedness" to "Net Capital" was 0.87 to 1.

NOTE 4. PROPERTY AND EQUIPMENT
