Report Of Independent Registered Public Accounting Firm

To the Board of Directors
Regal Securities, Inc.

We have audited the accompanying statement of financial condition of Regal Securities, Inc. (the Company) as of December 31, 2014, and the related notes (the financial statement). This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States of America). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Regal Securities, Inc. as of December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

Gregory, Sharer & Stuart, P.A.

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies

Regal Securities, Inc., (“Company”) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority, Inc. (FINRA). The Company (an Illinois corporation) has offices in Glenview, Illinois and Orlando and Fort Myers, Florida. It provides services throughout the United States using registered representatives and via online services, the Company is engaged in agency transactions in securities on behalf of customers and other related activities. The Company’s customer securities transactions are cleared through two clearing broker-dealers, RBC Capital Markets Correspondent Services, and First Southwest Clearing Company, on a fully disclosed basis.

The Company operates under the provisions of Paragraphs (k)(2)(i) and (ii) of Rule 15c3-3 of the Securities and Exchange Commission and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraphs (k)(2)(i) and (ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with clearing broker-dealers, and promptly transmits all customer funds and securities to the clearing broker-dealers. The clearing broker-dealers carry all of the accounts of the customers and maintain and preserve all related books and records that are customarily kept by clearing broker-dealers.

The Company does not hold customer margin accounts and promptly transmits all customer funds and securities received in connection with its activities as a broker-dealer. The Company does not hold any funds or securities for or owe money or securities to customers. Furthermore, all transactions between the broker-dealer and its customers are effectuated through a bank account designated as "Special Account for the Exclusive Benefit of Customers of Regal Securities, Inc." and its customers.

Significant accounting policies are as follows:

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue recognition: The Company earns commissions through stock purchase and sale transactions, mutual fund purchases, government and corporate bonds transactions. The Company also earns revenue in the form of 12b-1 fees. The earnings process is substantially complete at trade date in accordance with the rules of FINRA and the SEC.

Cash and cash equivalents: The Company considers all highly liquid debt instruments purchased with original maturities of less than ninety days to be cash equivalents. The Company maintains at various financial institutions cash and cash equivalents which may exceed federally insured amounts at times and which may at times significantly exceed reported amounts due to outstanding checks.

Receivables from broker-dealers: Receivables from broker-dealers represent amounts due in connection with the Company’s normal transactions. Management considers all receivables to be collectible, therefore, no allowance for doubtful accounts has been provided.

Receivables from others: Represents loans made to registered representatives and receivables which are incurred during the normal course of business. The Company determines if an allowance for doubtful accounts is required based on factors surrounding the credit risk of specific customers, historic trends, and other information. Management has determined that no allowance is required for doubtful accounts as of December 31, 2014. The Company does not charge interest on past due amounts.

REGAL SECURITIES, INC.

Securities owned: Securities are recorded at fair value in accordance with FASB ASC 820 “Fair Value Measurements and Disclosures”. The Company classifies their investments as trading securities and records unrealized gains and losses in the current year’s statement of income. Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Commission income and expenses from customers’ securities’ transactions are reported on a trade date basis.

Furniture, equipment and leasehold improvements: Furniture and equipment are recorded at cost and depreciated on accelerated methods over the estimated useful lives of the assets which range from 3 to 7 years. Leasehold improvements are amortized on a straight-line basis over the lease term.

Intangible asset: During 2013 the Company acquired software for internal use and for client use through the web. The Company is amortizing the cost of \$509,000 over three years on the straight line basis. Amortization expense amounted to approximately \$169,000 for the year and accumulated amortization as of December 31, 2014 amounted to approximately \$311,000. Future amortization will approximate \$169,000 and \$29,000 for 2015 and 2016, respectively.

Concentrations of credit risk: Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and receivables from broker-dealers. The Company places its cash with high credit quality financial institutions.

The Company is engaged in various trading and brokerage activities in which counterparties are primarily clearing broker-dealers. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. As of December 31, 2014, approximately 73% of the receivables from broker-dealers, or approximately \$1,100,000 were due from two clearing broker dealers. The risk of default depends on the creditworthiness of the counterparty. It is the Company’s policy to review, as necessary, the credit standing of each counterparty.

Income taxes: The Company, with the consent of its stockholders, has elected to be taxed under sections of the federal income tax laws which provide that in lieu of corporate income taxes, the stockholders separately account for their pro rata shares of the Company’s items of income, deduction, losses and credits. Therefore, these statements do not include any provision for federal corporate income taxes. The Company is subject to state income tax in some state jurisdictions. As of December 31, 2014, the Company does not believe it has any uncertain tax positions that would result in any material tax liability. The Company’s open tax years for federal and state income tax purposes are 2011 through 2014.

Fair value measurements and disclosures: FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability either directly or indirectly.

REGAL SECURITIES, INC.

- Level 3 are unobservable inputs for the assets or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

All securities owned by the Company are recorded at fair value using Level 1 inputs.

Note 2. Receivables from Broker-Dealers

The amounts receivable from broker-dealers at December 31, 2014, consist of the following:

Commission receivables from clearing brokers (net of \$17,865 payable)	\$ 1,137,985
Deposits	358,654
Net receivables from broker dealers	<u>\$ 1,496,639</u>

Note 3. Receivables from Others

Loans to registered representatives	\$ 115,574
Other receivables	189,447
Total receivables from others	<u>\$ 305,021</u>

The Company has an incentive compensation program for the recruitment of new registered representatives. Under this program, the Company makes unsecured cash advances to new registered representatives. The advances are evidenced by promissory notes that call for 8% accrued interest and the repayment of the advance is generally due within 60 months. However, if the registered representative continues employment with the Company and meets production conditions, the advances are forgiven and treated as incentive compensation to the registered representative and as an expense to the Company. The above *Loans to registered representatives* represent the unforgiven portion of those advances.

REGAL SECURITIES, INC.

Note 4. Furniture, Equipment and Leasehold Improvements

Furniture, equipment and leasehold improvements at December 31, 2014, consist of:

Equipment	\$ 2,379,477
Furniture and fixtures	368,021
Leasehold improvements	242,126
	<hr/>
	2,989,624
Less Accumulated Depreciation	(2,565,297)
	<hr/>
	\$ 424,327
	<hr/>

Depreciation expense for the year ended December 31, 2014, amounted to \$75,001.

Note 5. Employee Benefit Plans

The Company has a SIMPLE IRA plan (“plan”) for its employees. Employees are qualified to participate in the plan after two years of service. The Company matches 100% of each employee’s contribution up to 3%, which is 100% vested. The expense for the year related to this plan was approximately \$48,000.

REGAL SECURITIES, INC.

Note 6. Securities Owned

Marketable securities owned consist of trading securities valued at quoted market prices in active markets summarized as follows:

	Change in Net unrealized Gains/(Losses)	Estimated Fair Value
Equity securities comprised of 16,000 shares of NASDAQ Stock Market, Inc.	\$ 130,560	\$ 767,360
Fixed income debt securities - various	(6,902)	238,371
Other	(112)	9,529
Total trading securities	\$ 123,456	\$ 1,015,260

The Company pledged certain financial instruments owned to meet margin requirements. The liability under margin of \$197,011 has been reflected in the accompanying statement of financial position and is collateralized by \$692,404 of the Company's investments

Note 7. Commitments and Contingencies

The Company leases two office spaces. One is under short-term lease with the option to renew. The other one is with a related party, was entered in September 2014, and expires in 2019 with possibility to cancel lease with 120 day written notice. The Company also has several software application leases with varying expiration dates through 2016. Minimum annual lease expense under these leases, exclusive of additional payments which may be required for certain increases in operating and maintenance costs are as follows:

Year ending December 31:

2015	\$ 100,438
2016	79,808
2017	72,000
2018	72,000
2019	72,000
Total	\$ 396,246

The Company is a party to several securities arbitrations incidental to its securities business. The Company believes that the resolution of these arbitrations will not result in any material adverse effect to the Company's financial position.

Indemnifications: In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. These indemnifications generally are standard contractual terms and are entered in the normal course of business. The maximum potential amount of the future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

Note 8. Financial Instruments with Off-Balance Sheet Risk

As discussed in Note 1, the Company's customers' securities transactions are cleared on a fully disclosed basis by its clearing broker-dealers. The clearing broker-dealers carry all of the accounts of the customers of the Company and are responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker-dealers may charge any losses they incur to the Company. The Company seeks to minimize this risk through procedures designed to monitor the creditworthiness of its customers and to ensure that customer transactions are executed properly by the clearing broker-dealers.

The Company does not anticipate nonperformance by customers or its clearing brokers. In addition, the Company has a policy of reviewing, as considered necessary, the clearing brokers with which it conducts business.

Note 9. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2014, the Company had net capital and net capital requirements of \$1,990,645 and \$250,000, respectively. The Company's net capital ratio was .79 to 1 at December 31, 2014.

Note 10. Related Party Transactions

The Company is affiliated with Regal Advisory Services, Inc., a registered investment advisor (Regal Advisory) through common management and ownership. The Company recognizes management fee revenues for payments received from customers of Regal Advisory and pays these amounts over to Regal Advisory for providing these services. For 2014, these revenues and offsetting expenses approximated \$1,340,000 for the account management services, and other revenue from clearing fees, administrative support and account balances was approximately \$150,000 with \$26,000 in expenses related to Regal Advisory business.

The Chief Executive Officer of the Company is also the Officer of Peninsula Development Corporation (Peninsula). The Company entered into lease agreement with Peninsula commencing in September 2014. For the year ended December 31, 2014, the Company incurred \$22,970 as rental expenses. The terms of the lease call for \$ 6,000 a month through September 2019, with possibility to cancel lease with 120 day written notice. Future minimum lease payments are disclosed in Note 7.

Note 11. Subsequent Events

Management has evaluated subsequent events occurring up to and including February 25, 2015, which is the date the financial statements were available to be issued.
