Report of Independent Registered Public Accounting Firm

To the Shareholders of Rosenblatt Securities Inc.

We have audited the accompanying statement of financial condition of Rosenblatt Securities Inc. (a New York State S Corporation) as of December 31, 2014, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements. Rosenblatt Securities Inc.'s management is responsible for this financial statement. Our responsibility is to express an opinion on the financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial condition of Rosenblatt Securities, Inc. as of December 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

- (A) Commission revenue and related expenses are recorded on a settlement date basis. Revenues and expenses would not be materially different if reported on a trade-date basis.
- (B) Property and equipment are carried at cost less accumulated depreciation. Depreciation is computed on an accelerated basis or straight line basis over the estimated useful lives of the assets as follows: 3 years for equipment and furniture. Amortization of leasehold improvements is computed on the life of the leasehold, generally 5 years. Maintenance and repairs are expensed as incurred. Depreciation and amortization expense would not be materially different if calculated using the straight-line basis only.

ROSENBLATT SECURITIES INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014

For the year 2014 \$ 54,632 of acquisitions and leasehold improvements were made for the upstairs trading facility and administrative offices in New York City and supportive personnel in California, Colorado, South Carolina and London. All new acquisitions are depreciated on a straight line basis. Depreciation and amortization expense on property and equipment was \$ 57,890 during 2014.

- (C) The Company reviews property and equipment for impairment. Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Recoverability of these assets is measured by comparison of their carrying amounts to future undiscounted cash flows the assets are expected to generate. If property and equipment are considered to be impaired, the impairment to be recognized equals the amount by which the carrying value of the assets exceeds its fair market value. The Company did not record any significant impairment during 2014.
- (D) The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on our understanding of the current facts and circumstances. Actual results could differ from those estimates.
- (E) For purposes of the Statement of Financial Condition, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.
- (F) Pursuant to SFAS 115, par. 13 as amended by SFAS 130, par. 33 unrealized gains and losses on trading securities would be included in earnings. The Company had no unrealized gain or loss on “available for sale securities.”

NOTE 9: WORKING CAPITAL

The Company's working capital decreased from \$1,998,939 at December 31, 2013 to \$1,314,142 at December 31, 2014. The current ratio was 2.78 to 1 at December 31, 2014 compared to 5.7 to 1 at December 31, 2013. The decrease in working capital is primarily related to slower turn around in accounts receivable remittances resulting in more cash utilized for customer funding, an increase in amounts of cash held by the Company's clearing broker(s), shareholder employee decrease in contributions to the firm's capital and more cash utilized for accounts payable, accrued expenses, payable to clients and prepaid expenses.

Net cash used in operating activities was \$641,797 in 2014 compared to 2013 where operating activities provided an increase in cash by \$103,346. Net cash provided by financing activities was \$33,453 in 2014 compared to \$244,828 in 2013. The decrease in cash provided in 2014 compared to cash provided in 2013 is primarily a result of an increase in shareholder employee distributions from firm capital in excess of capital contributions by them.
