Basis of Presentation

The accompanying financial statements of the Company have been prepared on the accrual basis of accounting.

Use of Estimates

Cash and cash equivalents include investments with three months or less to maturity at the date of purchase.

At December 31, 2014, the Company had net capital of \$185,130, which was \$85,130 in excess of its required net capital of \$100,000. The Company's net capital ratio was 0.23 to 1.

Note E - Uncertain Tax Positions

As of December 31, 2014, the Company believes it is reasonably possible the balance of the gross unrecognized tax benefits is zero and will continue to be zero in the next twelve months based on conservative income tax positions and the expiration of statute of limitations.
