REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholder
of Biltmore International Corporation

We have audited the accompanying financial statements of Biltmore International Corporation (a New York corporation) ("the Company"), which comprise the statement of financial condition as of December 31, 2014, and the related statements of income, changes in stockholder's equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements and supplemental information. The Company's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Biltmore International Corporation as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The accompanying Computation of Net Capital Under S.E.C. Rule 15c3-1 as of December 31, 2014 and Reconciliation of the Computation of Net Capital as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

BILTMORE INTERNATIONAL CORPORATION
Notes to Financial Statements

NOTE 1 – Nature of Business and Summary of Significant Accounting Policies

Nature of Business

Biltmore International Corporation, (the “Company”) is a brokerage firm engaged primarily in securities trading. The Company is registered as a broker-dealer with and is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). The Company is engaged primarily in market-making and securities trading as principal.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer, and promptly transmit all customer funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents.

Securities Owned and Securities Sold, Not Yet Purchased

Securities owned and securities sold, not yet purchased are stated at fair value and are recorded in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*. They represent equity securities in which the Company acts as market maker and perform proprietary trading.

Securities sold but not yet purchased represent obligations of the Company to deliver the specified security at the contracted price. A liability is thereby created to purchase the security in the market at prevailing prices. Accordingly, these transactions result in off-balance-sheet risk as the Company’s ultimate obligation to satisfy the sale of securities sold but not yet purchased may exceed the amount recognized in the statement of operations.

Depreciation

Property and equipment is stated at cost, less accumulated depreciation. Depreciation is computed primarily by the straight-line method over the estimated useful lives of the related assets, which approximate three to seven years.

BILTMORE INTERNATIONAL CORPORATION
Notes to Financial Statements

NOTE 1 – Nature of Business and Summary of Significant Accounting Policies (Continued)

Concentration of Credit Risk

The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits.

Income Taxes

The Company, with the consent of its stockholder, has elected to be taxed as an S corporation under the Internal Revenue Code and New Jersey and New York State tax codes. In lieu of corporation income taxes, the Stockholder's of an S corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in the accompanying financial statements.

Revenue Recognition

The Company records proprietary and firm trading transactions on a trade date basis. The Company is exposed to risk of loss on these transactions in the event a client or broker fails to meet the terms of their contracts, in which case the Company may have to purchase or sell the positions at prevailing market prices. The Company records client transactions on a trade date basis.

Fair Value

Fair Value Hierarchy

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- Level 2. Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- Level 3. Unobservable inputs for the asset or liability.

BILTMORE INTERNATIONAL CORPORATION
Notes to Financial Statements

NOTE 1 – Nature of Business and Summary of Significant Accounting Policies (Continued)

Fair Value (Continued)

Fair Value Hierarchy (Continued)

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair Value Measurements

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that the Company believes market participants would use in pricing the asset or liability at the measurement date.

A description of the valuation techniques applied to the Company's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Exchange-Traded Equity Securities. Exchange-traded equity securities are generally valued based on quoted prices from the exchange. To the extent these securities are actively traded, valuation adjustments are not applied, and they are categorized in level 1 of the fair value hierarchy; otherwise, they are categorized in level 2 or level 3 of the fair value hierarchy.

There were no transfers between level 1 and level 2 during the year.

The following table summarizes the inputs used to value the Company's assets and liabilities measured at fair value as of December 31, 2014.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
Equity securities	\$ -	\$ 1,304,904	\$ -	\$ 1,304,904
Liabilities				
Equity securities	\$ -	\$ 98,207	\$ -	\$ 98,207

NOTE 1 – Nature of Business and Summary of Significant Accounting Policies (Continued)

Financial Instruments

The Company's financial instruments include cash and cash equivalents, receivable from clearing broker, securities owned and securities sold, not yet purchased, accounts payable and accrued expenses, payable to clearing broker and subordinated notes payable.

The carrying amounts of cash and cash equivalents, receivable from clearing broker, securities owned and securities sold, not yet purchased, accounts payable and accrued expenses and payable to clearing broker approximate fair value because of the short maturity of these instruments. The recorded value of long-term subordinated debt approximates its fair value as the terms and rates approximate market rates.

NOTE 2 - Clearing Broker Receivables and Payables

Amounts receivable from and payable to clearing broker consist of the following:

	Receivable	Payable
Clearing broker deposits	\$ 2,628,861	\$ -
Payable on securities positions, net		1,206,697
	\$ 2,628,861	\$ 1,206,697

NOTE 3 - Property and Equipment

Property and equipment consists of the following:

Furniture and Fixtures	\$ 13,879
Computers and Office Equipment	67,750
	81,629
Less: Accumulated Depreciation	73,249
	\$ 8,380

Depreciation expense for the year ended December 31, 2014 was \$7,501.

BILTMORE INTERNATIONAL CORPORATION

NOTE 4 - Subordinated Borrowings – Related Party

Subordinated borrowings consist of the following:

1. Subordinated loan agreement with the Company's President and sole stockholder, in the amount of \$1,000,000. The loan agreement calls for interest at 10% per annum and became effective December 31, 2007. The loan was extended in 2014 to mature December 31, 2015. Interest expense on the loan was \$100,000 for the year ended December 31, 2014 and accrued interest payable was \$100,000 at December 31, 2014.

The loan has been approved by FINRA for inclusion in computing the Company's net capital pursuant to the Rule. Any subordinated debt can be repaid only if, after giving effect to such repayment, the Company meets the SEC's capital regulations governing withdrawal of subordinated debt.

2. Subordinated loan agreement with the Company's President and sole stockholder, in the amount of \$600,000. The loan agreement calls for interest at 10% per annum and became effective December 29, 2006. The loan was extended in 2014 to mature December 29, 2015. Interest expense on the loan was \$60,000 for the year ended December 31, 2014 and accrued interest payable was \$60,000 at December 31, 2014.

The loan has been approved by FINRA for inclusion in computing the Company's net capital pursuant to the Rule. Any subordinated debt can be repaid only if, after giving effect to such repayment, the Company meets the SEC's capital regulations governing withdrawal of subordinated debt.

NOTE 5 - Regulatory Requirements

The Company is subject to the Uniform Net Capital Rule ("the Rule") under the Securities Exchange Act of 1934. Under this Rule, the Company is required to maintain net capital, as defined, equal to the greater of \$100,000 or \$2,500 for each stock it posts a quote in that trades above \$5 per share and \$1,000 for each stock it posts a quote in that trades at \$5 or less per share, up to \$1,000,000 and a net capital ratio, as defined, of a maximum of 1500%. At December 31, 2014 the Company's net capital was \$2,500,705, which exceeded its minimum net capital requirement by \$1,500,705 and its net capital ratio was 11.92%.

NOTE 6 - Commitments and Contingencies

Lease Commitments

The Company leases its office space under a noncancellable operating lease that commenced July 7, 2010 and terminates August 31, 2015. The lease calls for payments of annual base rent plus real estate taxes and other occupancy costs. Approximate minimum annual rentals under this lease are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
<u>2015</u>	<u>\$ 19,000</u>

BILTMORE INTERNATIONAL CORPORATION
Notes to Financial Statements

NOTE 6 - Commitments and Contingencies (Continued)

Lease Commitments (Continued)

Rent expense under this lease for the year ended December 31, 2014 was approximately \$31,000.

NOTE 7 - Profit Sharing Plan

The Company sponsors a defined contribution 401(k) profit sharing plan ("the Plan") that covers substantially all employees. Under the Plan, the Company may make a discretionary contribution determined by the Board of Directors. All employees are eligible to participate in the Plan, based on meeting certain age and term of employment requirements. Contributions for the year ended December 31, 2014 amounted to approximately \$56,000.

NOTE 8 - Related Party Transactions

Included in accounts payable and accrued expenses is accrued interest on subordinated debt in the amount of \$160,000.

NOTE 9 - Financial Instruments with Off-Balance Sheet Credit Risk

The Company maintains inventories in equity securities on both a long and short basis. While long inventory positions represent the Company's ownership of securities, short inventory positions represent obligations of the Company to deliver specified securities at a contracted price, which may differ from market prices prevailing at the time of completion of the transactions. Accordingly, both long and short inventory positions may result in losses or gains to the Company as market values of securities fluctuate. To mitigate the risk of losses, long and short positions are marked to market daily and are continuously monitored by the Company.

NOTE 10 - Subsequent Events

The Company has evaluated and noted no events or transactions that have occurred after December 31, 2014 that would require recognition or disclosure in the financial statements.
