Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholder of
Tradition Asiel Securities, Inc.

We have audited the accompanying statement of financial condition of Tradition Asiel Securities, Inc. (the Company) as of December 31, 2014. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Tradition Asiel Securities, Inc. at December 31, 2014, in conformity with U.S. generally accepted accounting principles.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition

December 31, 2014

1. Organization and Description of Business

Tradition Asiel Securities, Inc. (TAS or the Company) is a Delaware corporation and a wholly owned subsidiary of Tradition (North America), Inc. (the Parent), which is, in turn, a wholly-owned subsidiary of Tradition Service Holdings S.A. (TSH), a company organized in Switzerland. TSH is a wholly-owned subsidiary of Compagnie Financière Tradition (CFT), a company also organized in Switzerland. TAS is registered as a broker-dealer under Section 15(b) of the Securities Exchange Act of 1934 and is a member of the New York Stock Exchange, and the Financial Industry Regulatory Authority (FINRA). FINRA is the firm's designated self regulatory organization.

TAS is a broker of U.S. government securities and repurchase agreements, emerging market bonds and repurchase agreements, mortgage backed securities, corporate fixed income securities, money market instruments, equity and preferred securities, equity and index options, and municipal bonds.

TAS self-clears certain transactions, necessitating membership in the National Securities Clearing Corporation, the Depository Trust Clearing Corporation, and the Fixed Income Clearing Corporation. Other trades are conducted on an agency or riskless principal basis and are introduced on a fully disclosed basis to Pershing, LLC (the Clearing Broker). TAS does not carry customer accounts or perform custodial functions related to customer securities. Accordingly, open customer transactions are not reflected in the accompanying statement of financial condition.

2. Significant Accounting Policies

Basis of Accounting

The accompanying statement of financial condition has been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) and in accordance with Accounting Standards Codification (ASC) as set forth by the Financial Accounting Standards Board.

The following paragraphs describe our significant accounting policies at year end. These include any changes to our accounting policies which were effective January 1, 2014.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of the statement of financial condition in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the statement of financial condition and accompanying notes. Management believes that the estimates utilized in preparing its statement of financial condition and accompanying notes are reasonable; however, actual results could differ from those estimates.

Commissions Revenue

The Company provides brokerage services from either agency or matched riskless principal transactions. Revenues from these transactions are recorded as follows:

Agency Commissions – The Company charges commissions for executing transactions between buyers and sellers on an agency basis. Commissions revenues are recognized on a trade date basis.

Matched Principal – The Company earns revenue from principal transactions on the spread between the buy and sell price of the security that is brokered. In matched principal transactions, the Company simultaneously agrees to buy securities from one customer and sell them to another customer. The revenues from these transactions are recognized on trade date.

Fixed Assets

Computer equipment and trading software are stated at cost, net of accumulated depreciation. Depreciation is computed on a straight line basis over the estimated useful life of three years for both.

Securities Transactions

Securities owned are stated at fair value. Fair value is generally based on quoted market prices on an active exchange. These transactions are recorded on trade date.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

2. Significant Accounting Policies (continued)

Securities Transactions (continued)

Receivables from brokers, dealers and clearing organizations include amounts receivable for fails to deliver, cash deposits, amounts receivable from clearing organizations, and commissions receivable from broker-dealers. These transactions are recorded on trade date. Payables to brokers, dealers and clearing organizations includes amounts payable for fails to receive, and amounts payable to clearing organizations on open transactions.

Commissions Receivable

Commissions receivable consist of commissions earned on securities transactions. Commissions receivable are reviewed by management on a regular basis. If there is objective evidence that an impairment loss has been incurred, the amount of loss is measured as the difference between the receivables carrying amount and the estimated future cash flows. The carrying amount of the asset is reduced through the use of an allowance account.

Receivables, together with the associated allowance, are written off when there is no realistic prospect of future recovery. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account.

Employee Loans and Advances, Net

The Company extends forgivable loans to certain employees as terms of their employment contracts. These loans are amortized on a straight line basis over the life of the loan, which is typically two to three years. The Company expects to fully recover all expenses if the employees voluntarily terminate employment or are terminated for cause prior to the expiration of the contract. Employee loans and advances are presented net of amortization on the statement of financial condition.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

2. Significant Accounting Policies (continued)

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to the differences between the statement of financial condition carrying amounts of existing assets and liabilities and their respective tax bases in accordance with the provisions of ASC 740, *Income Taxes* (ASC 740). Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the related differences are expected to be recovered or settled. To the extent it is more-likely-than-not that the deferred tax assets will not be recognized, a valuation allowance is established to offset their benefit.

ASC 740 also provides guidance and prescribes a recognition threshold and measurement attribute for statement of financial condition recognition and measurement of uncertain tax positions. Tax positions are recognized in the statement of financial condition only when it is more-likely-than-not that the position will be sustained upon examination by the relevant taxing authority based on the technical merits of the position. A position that meets this standard is measured at the largest amount of expense or benefit that will more likely than not be realized upon settlement. A liability is established for differences between positions taken in a tax return and amount recognized in the statement of financial condition.

Fair Value Measurements

ASC 820, *Fair Value Measurements* (ASC 820), provides a single definition of fair value together with a framework for measurement, and requires additional disclosure about the use of fair value techniques to measure assets and liabilities. ASC 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and sets out a fair value hierarchy with the highest priority being quoted prices in active markets. Under ASC 820, fair value measurements are disclosed by level within that hierarchy.

Goodwill

ASU 2011-08, *Intangibles—Goodwill and Other (Topic 350)* (ASU 2011-08) simplifies how entities test goodwill for impairment. This guidance allows entities to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If a more than fifty percent likelihood exists that the fair value is less than the carrying amount, then a two-step goodwill impairment test must be performed. The

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

2. Significant Accounting Policies (continued)

Goodwill (continued)

Company has performed testing of goodwill as of December 31, 2014, in accordance with the requirements of ASU 2011-08.

Goodwill and other intangible assets are not amortized, but instead periodically tested for impairment. The Company reviews goodwill for impairment on an annual basis.

New Accounting Pronouncements

ASU No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), applies to contracts with customers to transfer goods or services and contracts to transfer nonfinancial assets unless those contracts are within the scope of other standards (for example, lease transactions). The update supersedes the revenue recognition requirements in Topic 605, Revenue Recognition and most industry-specific guidance. The core principle of the guidance is that revenue is recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. The update is effective for annual periods beginning after December 15, 2017. The Company is currently evaluating the effects of the adoption of ASU 2014-09 on the statement of financial condition.

3. Related Party Transactions

The Company is charged for facilities and other services provided by its Parent on a monthly basis in accordance with a service level agreement, which is subject to renegotiation on an annual basis. Additionally, the Company advances the Parent funds in order to cover certain operating expenses of the Parent. Due from Parent in the accompanying statement of financial condition primarily includes the net non-interest bearing cash advances to cover these and other operating expenditures of the Parent and is due on demand.

CFT charged the Company royalty fees equivalent to a percentage of total revenues (as defined in the Trademark License Agreement) for the use of its registered trademark. In addition, the Company was charged management fees by an affiliate. Both fees are charged through the Parent and passed through to the Company.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

3. Related Party Transactions (continued)

Due to affiliates of \$487,318 at December 31, 2014 consists of amounts due for clearing services provided in accordance with the clearing agreements.

On November 1, 2010, the Company entered into an income allocation and space sharing agreement (the Agreement) with Avatar Capital Group, LLC (Avatar), a wholly owned subsidiary of an affiliate. Under the terms of the Agreement, the Company retained all profits earned by a business line at Avatar equal to 100% of the commissions earned, less certain direct expenses.

Effective April 2012, under an amendment to the Agreement, TAS brokers began transacting municipal bond brokerage business on behalf of Avatar, at which time, 100% of the income associated with these transactions was included in the Company's revenue. Subsequently, on November 1, 2012, the Company entered into the second amendment to the Agreement. This amendment stated that Avatar was to retain 20% of the municipal bond brokerage business transacted on behalf of Avatar by TAS brokers. Effective January 1, 2014, the Company entered into a third amendment to the Agreement to adjust Avatar's retained share to 15%.

Effective November 2014, the Agreement was terminated.

The Company presents on a net basis certain related party receivables and payables when the requirements of ASC Topic 210-20, *Offsetting*, are met.

4. Deposits at Clearing Broker and Clearing Organizations

The Company is required to maintain deposits at the Clearing Broker and at clearing organizations in order to conduct its business. At December 31, 2014, the Company had restricted cash of approximately \$14.7 million including accrued interest with the Clearing Broker and clearing organizations. This amount is included in deposits at clearing broker and clearing organizations on the statement of financial condition.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

5. Receivables From and Payables to Brokers, Dealers and Clearing Organizations

Amounts receivable from and payable to brokers, dealers and clearing organizations at December 31, 2014, are comprised of the following:

	<u>Receivables</u>	<u>Payables</u>
Securities failed to deliver/receive	\$ 1,547,642	\$ 1,354,018
Receivables from/payables to clearing organizations	43,428	402,641
Receivables from/payables to broker-dealers	244,530	-
Total	<u>\$ 1,835,600</u>	<u>\$ 1,756,659</u>

All material fail to deliver and fail to receive transactions settled subsequent to December 31, 2014, without any adverse financial effect.

6. Financial Instruments

The Company discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). This guidance provides three levels of the fair value hierarchy as follows:

- *Level 1:* Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date;
- *Level 2:* Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, at the measurement date, including inputs in markets that are not considered to be active;
- *Level 3:* Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The Company discloses the amounts and reasons for transfers in and out of Level 1 and Level 2 fair value measurements as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3,

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

6. Financial Instruments (continued)

and information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes observable requires significant judgment by the Company. The Company considers observable data to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following is a description of the valuation methodologies used for investments measured at fair value:

- *Equities*: Equities are considered Level 1 assets and are valued at the closing price.
- *Corporate bonds*: Corporate bonds are considered Level 2 assets and are valued using dealer quotes, bond market activity, and other market observable movements.

The following is a summary of the financial assets measured at fair value as of December 31, 2014:

Description	Level 1	Level 2	Level 3	Total
Financial assets				
Securities owned:				
Equities	\$ 10,428	\$ –	\$ –	\$ 10,428
Corporate bonds	–	450	–	450
Total financial assets	\$ 10,428	\$ 450	\$ –	\$ 10,878

There were no transfers between Level 1 and Level 2 measurements during the year ended December 31, 2014. There were no other financial assets or liabilities measured at fair value under ASC 820 as of December 31, 2014. There were no financial assets or liabilities in the Level 3 category during the year ended December 31, 2014.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

7. Employee Benefits

The Company participates in the Parent's defined contribution plan covering substantially all employees who qualify as to age, length of service and employment date.

The Company contributes 40% of each participant's pre-tax contributions, subject to a maximum of 6% of the participant's eligible compensation. In 2014, participants could contribute up to \$17,500 with an additional \$5,500 catch-up contribution for employees over 50 years old.

8. Fixed Assets

Fixed asset classifications at December 31, 2014, are summarized as follows:

Trading software and computer equipment	\$ 1,318,670
Less accumulated depreciation	(204,906)
Total fixed assets, net	<u>\$ 1,113,764</u>

9. Income Taxes

The Company accounts for income taxes in accordance with the liability method. Under the liability method, tax rates are applied to cumulative temporary differences based on when and how they are expected to affect the tax return.

The Company is included in the federal and combined state and local income tax returns filed by the Parent. The Company calculates its income tax expense as though it files a separate company tax return.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. For financial reporting purposes, the deferred tax asset of \$1,029,804 at December 31, 2014, is primarily attributed to the litigation provision and accrued payroll taxes, and is included in accounts payable and accrued expenses on the statement of financial condition. Deferred tax assets at December 31, 2014, are reflected without reduction for a valuation allowance. A deferred tax liability of \$689,407 at December 31, 2014, is primarily

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

9. Income Taxes (continued)

attributed to a cumulative book to tax amortization and depreciation differences. The principal reasons for the difference between the Company's effective tax rate and the statutory federal income tax rate primarily relate to state and local taxes and permanent differences between book and taxable income related to meals and entertainment.

The Company is required to make its evaluation of tax positions taken or expected to be taken in order to determine whether the tax positions are more-likely-than-not of being sustained in the event of an examination by the applicable tax authority. Uncertain tax positions not deemed to meet a more-likely-than-not threshold would be recorded as a tax expense in the current year. The Company accounts for any such reserves as a component of income tax expense. As of and during the year ended December 31, 2014, the Company did not have any liabilities, interest or penalties related to uncertain tax positions. The Company is not currently under any federal, state or local jurisdiction audit. The Company does not have unrecognized tax benefits. As of December 31, 2014, the Parent's tax returns for 2011 through 2013 are subject to examination by tax authorities. The Company does not believe that it is reasonably possible that the total amount of unrecognized tax benefits will significantly change within the next 12 months.

10. Regulatory Requirements

TAS is subject to the Securities and Exchange Commission's (SEC) Uniform Net Capital Rule 15c3-1 (the Rule) which specifies, among other requirements, minimum net capital requirements for registered broker-dealers. TAS elected to compute its net capital under the alternative method permitted by the Rule, which requires TAS to maintain minimum net capital, as defined, of \$1 million. The Rule provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital would be less than 120% of the minimum net capital requirement. In addition, certain advances, payments of dividends and other equity withdrawals are subject to certain notification provisions of the Rule.

At December 31, 2014, TAS had net capital of approximately \$13.6 million which was approximately \$12.6 million in excess of the required net capital.

Under the clearing arrangements with the Clearing Broker, TAS is required to maintain certain minimum levels of net capital and comply with other financial ratio requirements. At December 31, 2014, TAS was in compliance with all such requirements.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

10. Regulatory Requirements (continued)

The Company has elected to compute a reserve requirement for Proprietary Accounts of Other Broker-Dealers (PAB), as defined, for the benefit of affiliates. The PAB calculation is completed in order for these affiliates to classify their receivables from the Company as allowable assets in the affiliates' net capital calculation.

The Company maintains a separate reserve bank account for PAB. The PAB reserve requirement, as computed, totaled \$487,318 at December 31, 2014. At December 31, 2014, the Company held \$175,000 in the PAB reserve account. Subsequently, a deposit of \$500,000 was made to the PAB reserve account.

For the year-ended December 31, 2014, the Company only cleared transactions for affiliate broker-dealers.

11. Contingencies

The Company and its Parent have been named as defendants in certain lawsuits and other legal proceedings. After considering all relevant facts and advice of counsel, in the opinion of management, such litigation will not, in the aggregate, have a material adverse effect on the Company's financial position or results of operations.

12. Off-Balance Sheet Risk and Concentration of Credit Risk

In the normal course of business, the Company purchases and sells securities as both riskless principal and agent. If the counterparty to a transaction fails to fulfill its contractual obligation, the Company may incur a loss if the market value of the security is different from the contract amount of the transaction.

In addition, the Company will enter into a matched transaction to purchase and sell securities; however, the Company may not be able to deliver the securities in the manner requested by the buyer. In this instance, the Company will deliver the securities to the buyer when the total amount has been aggregated.

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

12. Off-Balance Sheet Risk and Concentration of Credit Risk (continued)

The Company's policy is to continually monitor its market exposure and counterparty risk. The Company does not anticipate nonperformance by counterparties and maintains a policy of reviewing the credit standing of all parties with which it conducts business.

At December 31, 2014, the Company's cash was held at two major financial institutions, at which each account is insured up to \$250,000 by the Federal Deposit Insurance Corporation (the FDIC).

Commissions receivable represent amounts due from the Clearing Broker and counterparties, which primarily consist of securities firms. At December 31, 2014, approximately \$1.3 million in commissions receivable is concentrated with the Clearing Broker and \$2.4 million is concentrated with seven counterparties. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. For transactions in which the Clearing Broker extends credit to introduced customers, the Company seeks to control the risks associated with these activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company and the Clearing Broker monitor required margin levels daily and pursuant to such guidelines, request introduced customers to deposit additional collateral or reduce securities positions when necessary.

The Company has agreed to indemnify its Clearing Broker for losses that it may sustain from the customer accounts introduced by the Company.

Repurchase and reverse repurchase agreements with the same counterparty and the same maturity are presented net in the statement of financial condition when the terms of the agreements permit netting. The following table summarizes the gross amounts of repurchase and reverse repurchase agreements, amounts eligible for offset in accordance with a master netting arrangement with the Fixed Income Clearing Corporation and net amounts as on the statement of financial condition at December 31, 2014:

	Gross amount of recognized assets/liabilities	Gross amount offset in the statement of financial condition	Net amount of assets/liabilities present in the statement of financial condition
Reverse repurchase agreements	\$ 151,417,372,625	\$ (151,417,372,625)	\$ 0
Repurchase agreements	\$ 151,417,372,625	\$ (151,417,372,625)	\$ 0

Tradition Asiel Securities, Inc.
(A Wholly Owned Subsidiary of Tradition (North America), Inc.)

Notes to Statement of Financial Condition (continued)

December 31, 2014

13. Guarantees

As described in Note 12, the Company has agreed to indemnify the Clearing Broker for losses that it may sustain from the customer accounts introduced by the Company. At December 31, 2014, the total amount of customer balances maintained by its Clearing Broker and subject to such indemnification was insignificant. In accordance with applicable margin lending practices, customer balances are typically collateralized by customer securities or supported by other types of recourse provisions.

14. Goodwill

Goodwill of \$350,000 is included in other assets on the statement of financial condition. Goodwill was recorded in connection with the purchase of the assets of Asiel & Co. LLC effective June 30, 2000.

The Company completed its annual impairment analysis of goodwill as of December 31, 2014, and has determined that goodwill has not been impaired.

15. Subsequent Events

Subsequent to year-end, a FINRA arbitration and certain lawsuits naming the Company and certain affiliates were settled with no adverse effect to the Company's financial position or results of operations.

The Company has evaluated subsequent events through the date the statement of financial condition was available to be issued and has noted no other significant events since the date of the statement of financial condition.
