(1) **General Information and Summary of Significant Accounting Policies**

ABN AMRO Clearing Chicago LLC (the Company), an Illinois limited liability company, was organized on August 31, 2006. Under the terms of the Limited Liability Company Agreement (the Agreement), the Company does not have a specific termination date and may be dissolved only as provided by the Agreement. No member of the Company is personally liable for any debit balances, liabilities, or other obligations of the Company.

ABN AMRO Clearing Bank N.V., a wholly owned subsidiary of ABN AMRO Bank N.V., is the Common Member.

The Company is a registered securities broker-dealer with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority. The Company is also a registered futures commission merchant with the Commodity Futures Trading Commission (the CFTC) and is a member of the National Futures Association (the NFA). The Company is a clearing member of all principal U.S. securities and futures exchanges. The Company provides clearing services for equities and equities options as well as futures and futures options. The Company's primary source of revenue is commissions derived from executing and clearing orders for equities and equity options contracts and futures and futures options contracts on behalf of its customers, both domestically and internationally.

(a) *Cash and Cash Equivalents*

The Company considers marketable securities with original maturities of ninety days or less to be cash equivalents. Cash equivalents include cash funds segregated or in separate accounts as required by the Securities Exchange Act of 1934 and the Commodity Exchange Act (CEAct).

(b) *Fair Value of Financial Instruments*

The Company's financial instruments are reported in the statement of financial condition at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*. The estimated fair value of securities owned and securities sold are generally based on quoted market prices or dealer quotes. Open trade equity on futures contracts is recorded as receivables and payables to clearing organizations or customers, as appropriate.

(c) *Securities Transactions*

Futures and options transactions are primarily recorded on the trade date. Equity securities are recorded on the settlement date, which does not differ materially from the trade date.

(d) *Translation of Foreign Currencies*

Assets and liabilities denominated in foreign currencies are translated to U.S. dollars at year-end exchange rates.

Notes to Statement of Financial Condition

December 31, 2014

(e) Exchange Memberships and Stock

Exchange memberships and stock required to be held in connection with such memberships are recorded at cost. If events or changes in circumstances indicate that the carrying amount may not be recoverable, it will be recorded at a lesser value that reflects the effects of the impairment. There were no impairments in 2014.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(g) Receivables, Payables, and Marketable Securities

Receivables from and payables to brokers, dealers, clearing organizations, and customers represent balances arising primarily in connection with security and commodity transactions, including unrealized gains and losses on open commodity futures contracts. Marketable securities, consisting primarily of U.S. government securities, are held as collateral for receivables from customers and as margin. The Company may deposit these securities as margin with exchange clearing organizations. Customer-owned securities and options are excluded from the Company's statement of financial condition.

The Company establishes a reserve for estimated credit losses based upon historical experience and specific customer collection issues. At December 31, 2014, management determined no such reserve was required.

(h) Income Taxes

The Company is organized as a limited liability company and is being taxed as a partnership under provisions of the Internal Revenue Code. The Company's taxable income is included in the respective income tax returns of the members. The liability for payment of federal and state income tax on the Company's earnings is the responsibility of its members rather than that of the Company. Accordingly, no liability for U.S. federal and state income taxes has been recorded in the financial statements.

At December 31, 2014, the Company had federal and state income tax returns for the 2011 through 2014 tax years open and subject to examination.

(i) Securities-Lending Activities

Securities borrowed and securities loaned transactions are generally reported as collateralized financings. Securities borrowed transactions require the Company to deposit cash and/or other collateral with the lender. When loaning securities, the Company receives cash collateral generally in excess of the market value of the securities loaned. The Company monitors the market value of securities borrowed and loaned on a daily basis with additional collateral obtained or refunded as necessary.

(8) Securities Purchased under Agreements to Resell

Securities purchased under agreements to resell which are short term in nature, are treated as collateralized financing transactions and are carried at the amounts at which the underlying securities will be subsequently resold as specified in the respective agreements. It is the Company's policy to take possession of securities, subject to resale agreements. The fair value of the securities is determined daily and collateral added whenever necessary to bring the market value of the underlying collateral equal to or greater than the resale price specified in the contract. At December 31, 2014, the fair value of the collateral received for securities under resale agreements totaled \$974,229,409.

(11) Borrowings

At December 31, 2014, the Company had two unsecured lines of credit with affiliated banks for \$4,000,000,000 and \$675,000,000. At December 31, 2014, the amount outstanding on these credit lines totaled \$1,900,000,000 and \$600,000,000 respectively and are reflected in bank loans in the statement of financial condition. Interest payable was approximately \$524,400 at December 31, 2014.

The Company has lines of credit totaling \$250,000,000 with nonaffiliated banks. At December 31, 2014, there were no amounts outstanding on these credit lines.

(12) Liabilities Subordinated to Claims of General Creditors

At December 31, 2014, liabilities subordinated to claims of general creditors consisted of one borrowing from an affiliated bank pursuant to an equity capital loan agreement. The agreement expires on November 20, 2017. The total outstanding borrowing totaled \$325,000,000 at December 31, 2014.

This Subordinated Revolving Credit Facility will terminate on November 20, 2018. At December 31, 2014 there were no amounts outstanding.

The subordinated borrowings are covered by an agreement approved by the Designated Self Regulatory Organizations and Designated Examining Authority and are thus available in computing net capital under the Securities and Exchange Commission's uniform net capital rule. To the extent that such borrowing is required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

Notes to Statement of Financial Condition

(13) Employee Benefit Plan

The Company has established a salary reduction (401(k)) plan for qualified employees. The Company may elect to match employees' contributions and make further discretionary contributions to the plan, subject to certain limitations as set forth in the plan agreement.

(14) Financial Derivative Instruments with Off-Balance-Sheet Risk and Concentration of Credit Risk

In the normal course of business, the Company accepts and clears futures contracts and options on futures contracts for the accounts of its customers, primarily exchange members and institutional firms. As such, the Company guarantees to the respective clearing houses or other brokers, its customers' performance under these contracts. To reduce its risk, the Company requires its customers to meet, at minimum, the margin requirement established by each of the exchanges at which contracts are traded. Margin requirements for exchange members may be significantly less than those required from other customers. Margin is a good faith deposit from the customer that reduces risk to the Company of failure on behalf of the customer to fulfill any obligation under these contracts. To minimize its exposure to risk of loss due to market variation, the Company adjusts these margin requirements as needed.

Customers may also be required to deposit additional funds, securities, or other collateral. As a result of market variation, the Company may satisfy margin requirements by liquidating certain customer positions. Management believes that the margin deposits and collateral held at December 31, 2014 were adequate to minimize the risk of material loss that could be created by positions held at that time.

The Company is engaged in various trading activities, whose counterparties include clearing organizations, brokers and dealers, futures commission merchants, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on credit worthiness of the counterparty or issuer of the financial instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

ABN AMRO CLEARING CHICAGO LLC

Notes to Statement of Financial Condition

December 31, 2014

(15) Leases

The Company has noncancelable and cancelable operating leases for its offices that require the Company to pay all executing costs such as maintenance and insurance. Future minimum lease payments under the noncancelable and cancelable operating leases (with initial or remaining lease terms in excess of one year), along with the minimum annual sublease rentals to be received in the future are approximately as follows as of December 31, 2014:

	<u>Operating leases</u>	<u>Sublease rentals</u>	<u>Net commitment</u>
Year ending December 31:			
2015	3,100,000	(410,000)	2,690,000
2016	3,200,000	(100,000)	3,100,000
2017	3,300,000	-	3,300,000
2018	3,300,000	-	3,300,000
2019	2,600,000	-	2,600,000
Thereafter	<u>8,000,000</u>	<u>-</u>	<u>8,000,000</u>
Total minimum lease payments	\$ <u>23,500,000</u>	<u>(510,000)</u>	<u>22,990,000</u>

(16) Guarantees and Indemnifications

Under certain exchange or clearinghouse membership agreements, members are generally required to guarantee the performance of other members by meeting any shortfalls in the event a member becomes unable to satisfy their obligation to the exchange or clearinghouse. To mitigate this risk, the exchanges and clearinghouses typically require their members to deposit collateral with them. The Company's maximum potential liability under these arrangements cannot be quantified. However, the potential for the Company to be required to make payments under the arrangements is remote. Accordingly, no contingent liability is recorded in the accompanying statement of financial condition.

The Company clears and executes futures contracts, options on futures contracts, and equity products, including options for the accounts of its customers. As such, the Company deposits performance bond collateral with the applicable clearing organizations to fulfill the obligations of its customers' performance under these contracts. To reduce its operational risk, the Company requires its customers to meet, at a minimum, the margin requirements established by each exchange on which the contract is traded. This margin is a good faith deposit from the customer. To minimize its market and credit risks, the Company adjusts the amount of margin required commensurate with the level of risk associated with the customers' underlying positions. If necessary, the Company may liquidate certain positions in order to satisfy minimum margin requirements. Management believes that the margin deposits held at December 31, 2014 are adequate to mitigate the risk of material loss.

At December 31, 2014, the Company was a guarantor of certain exchange membership loans for its customers totaling approximately \$86,000.

ABN AMRO CLEARING CHICAGO LLC

Notes to Statement of Financial Condition

December 31, 2014

(17) Members' Equity

The limited liability company operating agreement for the Company provides for two classes of membership with varying rights, preferences, privileges, and obligations. The Common Member has all of the voting rights and authority to manage the Company's operations and the Preferred Members have no voting rights and do not participate in management by reason of such memberships or interests. The Company is authorized to issue 1,000 Class A preferred interests in exchange for a \$10,000 capital contribution for each such interest. Class A members have a Joint Back Office (JBO) clearing agreement with the Company. This agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, Class A members are not allocated any income or losses from the Company's operations.

(18) Related-Party Transactions

In the normal course of business, the Company enters into transactions with affiliated companies. The Company executes and clears trades for related customers and the Company utilizes related clearing brokers to execute and clear futures transactions on exchanges where the Company is not a member. At December 31, 2014, the Company had receivables from related clearing brokers, receivables from related customers, and payables to related customers of approximately \$64,019,879, \$25,751,855, and \$876,771,560 respectively. These amounts are reflected in receivables from brokers, dealers, and clearing organizations, receivable from customers and payables to customers, respectively, in the statement of financial condition. The Company also had securities loaned to affiliated company of approximately \$119,572,050. This amount is reflected in payables to brokers, dealers, and clearing organizations in the statement of financial condition.

At December 31, 2014, the Company had borrowing transactions with affiliated banks in order to facilitate client transactions, and to meet short-term financing needs (notes 10 and 11).

(19) Net Capital Requirements

The Company is a broker-dealer subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) and is a futures commission merchant subject to the Commodity Futures Trading Commission Minimum Capital Requirement (Regulation 1.17). In addition, the Company is subject to minimum capital requirements of the CME Group, Inc. Under the more restrictive of these rules, the Company is required to maintain "net capital" equivalent to the greater of \$5,000,000, 2% of "aggregate debit items" or the sum of 8% of the customer risk maintenance margin requirement plus 8% of the noncustomer risk maintenance margin requirement, as these terms are defined.

Adjusted net capital, aggregate debit items, and risk maintenance margin requirements change from day to day. At December 31, 2014, under the more restrictive of these rules, the Company had net capital and net capital requirements of \$464,303,059 and \$179,303,279 respectively. The net capital rule may effectively restrict member withdrawals and the repayment of subordinated loans.

(20) Fair Value Disclosure

The Company's financial instruments are reported in the statement of financial condition at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements and disclosures include a hierarchy that prioritizes inputs to valuation techniques used to measure fair value.

A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs: Quoted prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs: Other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 3 Inputs: Unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2014:

Assets:	Level 1	Level 2	Level 3	Total
Corporate equity securities	\$ 15,417	-	-	\$ 15,417
Money market funds	800,705,029	-	-	800,705,029
	<u>\$ 800,720,446</u>	<u>-</u>	<u>-</u>	<u>\$ 800,720,446</u>

There were no transfers of assets or liabilities within the fair value hierarchy during the year.

(21) Litigation

In August 2007, Sentinel Management Group, Inc. (Sentinel), a futures commission merchant that managed certain customer segregated funds for the Company, filed for bankruptcy. Shortly before Sentinel filed for bankruptcy, Sentinel sold certain securities to Citadel Equity Fund, Ltd. (Citadel). The U.S. Bankruptcy Court ordered funds from the sale to Citadel be distributed to certain Sentinel customers. The Company received its pro rata share, which totaled \$52,755,815. On or about September 15, 2008, the bankruptcy trustee filed an adversary proceeding (the Complaint) against all of the recipients of the court ordered distribution of funds from the Citadel sale, including the Company. The Complaint also includes a claim for money the Company received shortly before Sentinel filed for bankruptcy in the amount of \$4,000,399 and a claim for pre-judgment interest which could range from \$443,000 to \$9,720,000. Management of the Company, after consultation with legal counsel, cannot yet express an opinion as to the ultimate outcome of the proceeding. Management believes the claims are without merit. The Company intends to vigorously defend against the Complaint. Accordingly, no provision has been made in the financial statements for any loss that may result from the Complaint.

In the normal course of business, the Company is subject to litigation and regulatory proceedings. Management of the Company, after consultation with legal counsel, believes that the outcome of such proceedings will not have a material adverse effect on the Company's statement of financial condition.

(22) Subsequent Events

The Company evaluated events and transactions through February 24, 2014 the date the statement of financial condition were issued, noting no subsequent events requiring recording or disclosure in the statement of financial condition or in related notes to the financial statements.
