REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders' and Board of Directors of
Fondsfinans, Inc.
New York, NY

We have audited the accompanying financial statements of Fondsfinans, Inc., which comprise the statement of financial condition as of December 31, 2014, and the related statements of operations and stockholders' equity and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements and supplemental information. Fondsfinans, Inc. management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Fondsfinans, Inc. as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The Schedule I, Computation of Net Capital Under Rule 15c3-1, Schedule II, Computation for Determination of Reserve Requirements Under Rule 15c3-3 (exemption) and Information for Possession or Control Requirements Under Rule 15c3-3 (exemption), has been subjected to audit procedures performed in conjunction with the audit of Fondsfinans, Inc.'s financial statements. The supplemental information is the responsibility of Fondsfinans, Inc.'s management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Fondsfinans, Inc.
Notes to Financial Statements
Year Ended December 31, 2014

(1) Organization

Fondsfinans, Inc. (“the Company”) is a wholly owned subsidiary of Fondsfinans AS (Parent Company), Norway’s oldest independently owned investment firm. Founded in 2008, the Company is a knowledge-based investment firm with the business objective of creating long-term added value for its clients.

Fondsfinans, Inc. is a member of FINRA and SIPC.

Fondsfinans, Inc. distributes the equity research produced by Fondsfinans AS to U.S. institutional investors pursuant to SEC Rule 15a-6 and FINRA Rule 2711.

(2) Summary of Significant Accounting Policies

(a) Cash and Cash Equivalents

The Company considers highly liquid financial instruments with maturities of three months or less at the time of purchase to be cash and cash equivalents.

The Company maintains its cash in bank accounts at high credit quality financial institutions. The balances at times may exceed federally insured limits of \$ 250,000.

(b) Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Fair Value of Financial Instruments

The carrying value of cash, accounts receivable, other receivables, accounts payable and accrued expenses approximate their fair values based on the short-term maturity of these instruments. The carrying amounts of debt were also estimated to approximate fair value.

The Company utilizes the methods of fair value measurement as described in ASC 820 to value its financial assets and liabilities. As defined in ASC 820, fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, ASC 820 establishes a fair value hierarchy That prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

<u>Description</u>	<u>Total Fair Value of</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>
Cash equivalents	\$ 199,970	\$ 199,970

(d) Income Taxes

Deferred income taxes are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. The deferred tax asset increase by \$.1 mil to approximately \$ 1.1 million has been recorded on the net operating loss carryforward of approximately \$ 2.8 million which expire in the year 2028 to 2034. The Company's federal and state income tax returns for the years 2009 through 2013 remain open for audit by applicable regulatory authority.

(e) Management Estimates

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates.

(f) Allowance for Doubtful Accounts

The Company records an allowance for doubtful accounts based on management's estimate of collectability of such commission receivable outstanding. As of December 31, 2014, management believes such commissions receivable are fully collectible; hence no allowance has been recorded nor was any bad debt expense recorded during the year.

(g) Office Equipment

Equipment are carried at cost. Amounts incurred for repairs and maintenance are charged to operations in the period incurred. Depreciation is calculated on a straight-line basis over its useful life of five years. Accumulated depreciation is \$817 as of December 31, 2014.

(h) Concentration, Risk and Credit Risk

In the normal course of business, the Company's securities activities involve the execution and settlement of various securities transactions for customers. These activities may expose the Company to risk in the event customers are unable to fulfill their contractual obligations. The Company continuously monitors the credit-worthiness of customers. Concentration of fees to customers in excess of 10% consisted of an allocation of banking fees from its Parent Company in Norway consisting of 54% of the total 2014 revenues and fees from brokerage firms constituting 16% and 11% of total 2014 revenues.

(i) Revenue and Expense Recognition

The Company earns revenue (commissions) from brokerage activities, which are recognized on the day of trade – trade date basis and carried at market value. Fees for underwriting and placement services are recognized when the deal is completed and the income is reasonably determinable.

(j) Recently Issued Accounting Pronouncements

Recently Issued accounting pronouncements by the Financial Accounting Standards Board, Public Company Accounting Oversight Board, Securities and Exchange Commission and the American Institute of Public Accountants did not or are not believed by management, to have a material impact on the Company's present or future financial statements.

(3) Cash- segregated in compliance with federal regulations
