REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Partners
of DFPG Investments, Inc.

We have audited the accompanying financial statements of DFPG Investments, Inc. (a Utah S-Corporation), which comprise the statement of financial condition as of December 31, 2014, and the related statements of operations, stockholders equity, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements and supplemental information. DFPG Investments, Inc.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of DFPG Investments, Inc. as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The Computation of Net Capital Under Rule 15c3-1 has been subjected to audit procedures performed in conjunction with the audit of DFPG Investments, Inc.'s financial statements. The supplemental information is the responsibility of DFPG Investments, Inc.'s management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

DFPG INVESTMENTS, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

Note 1 – Organization and Description of Business

General

DFPG INVESTMENTS, INC. (“Company”) was incorporated in the state of Utah on October 13, 2010 for the purpose of providing brokerage services and is registered to engage in the securities business as a broker-dealer in all 50 states and Washington, D.C. under the Securities Exchange Act of 1933, as amended. The Company is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”), the Securities Investor Protection Corporation, and is registered with the United States Securities & Exchange Commission (“SEC”).

The Company is primarily engaged in the business of securities investments with the general public. The Company predominantly conducts transactions in mutual funds, variable annuities, BDCs, private placements, REITs and municipal fund securities. The Company has branch office locations in Arizona, California, Colorado, Florida, Massachusetts, New York and Utah.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management believes that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from those estimates.

Recognition of Revenues and Expenses

Revenues and expenses from securities transactions are generally recorded on the trade date, which is the date the transaction is executed. Certain expenses are recognized on an accrual basis pursuant to requirements set forth in SEC Rule 15c3-1.

Mutual Funds – A front-end commission for a mutual fund transaction is recorded in full by the Company at the time the investment is settled (the Settlement Date). With respect to 12b-1 fees and deferred sales charges, the Company generally shall defer its incremental direct costs associated with the selling of the fund shares (such as sales representatives’ commission and direct marketing costs) and shall amortize these costs over the period in which the fees from the fund or fund shareholders are expected to be received. Indirect costs associated with selling the fund shares shall be expensed as incurred.

Variable Annuities – Commissions for annuity transactions may be, upon the selection of the sales representative, received in a single lump sum or through a series of trailing commissions paid monthly over a period of time selected by the sales representative. Lump sum commissions are recorded in full by the Company as paid by the annuity company. Trailing commissions are recorded by the Company as received on a monthly basis from the annuity company.

Alternative Investments – Commissions for transactions in alternative investments are recorded by the Company at the time the investment is recorded by the investment company. Except for secondary market transactions, marketing allowance fees are paid to, and are recorded by, the Company either concurrently with the commission for the transaction, or on a quarterly basis commensurate with the total of investments placed by the sales representative during the previous quarter—one of the preceding methods being selected at the discretion of the investment company.

Cash and Cash Equivalents

For purposes of the statement of changes in financial position, the Company considers all highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents. At December 31, 2014, cash and cash equivalents of \$803,776 were held at one financial institution. We are also exposed to concentrations of credit risk related to our cash deposits. We maintain cash at a financial institution where the total cash balance is insured by the Federal Deposit Insurance Corporation (“FDIC”) up to its limit. At any given time, our cash balance may exceed the balance insured by the FDIC. As of December 31, 2014 we had cash of \$553,776 in excess of FDIC limits.

We monitor such credit risk at the financial institution and have not experienced any losses related to such risks to date.

Accounts Receivable

Accounts receivable are amounts due for expenses paid by the Company on behalf of other parties. The Company regularly reviews its accounts receivable balances and makes provisions for potentially uncollectible balances. At December 31, 2014, management did not believe any provision against accounts receivable was necessary, due to the recent aging status of all receivables.

Raymond James & Associates

DFPG Investments introduces certain client brokerage transactions to Raymond James & Associates on a fully disclosed basis. Raymond James acts as qualified custodian for such clients and holds clients funds and securities. As a result DFPG Investments has entered into a clearing arrangement with Raymond James, and has agreed to provide a \$100,000 clearing deposit with Raymond James. Such deposit is refundable to DFPG on termination of the clearing agreement. The clearing agreement is for an open term and can be cancelled with a 30 day written notice.

Office Equipment

Office equipment is carried at cost. Maintenance, repairs, and minor renewals are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the equipment, which range between three and seven years. Depreciation expense for the year ended December 31, 2014 was \$1,058.

Rent Expense

The Company’s rent expense for its office space was \$26,100 for the year ended December 31, 2014.

Income Taxes

The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be an S corporation. In lieu of corporate income taxes, the shareholders of an S corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in the financial statements.

The Company follows the provisions of the Accounting for Uncertainty in Income Taxes section of the Income Taxes Topic of the FASB Accounting Standards Codification. For 2014, management has determined that there are no material uncertain income tax positions. The Company is subject to federal, state and local income tax examinations by tax authorities for years 2011 and forward.

Financial Instruments

Financial instruments include accounts receivable, prepaid expenses, other assets, accrued liabilities and accounts payable. Management estimates that the carrying amount of these financial instruments represents their fair values, which was determined by their near term nature or by comparable financial instruments' market value.

Advertising Expenses

DFPG's advertising policy is consistent with rules provided by FINRA. DFPG submitted all advertising in its first year of business, but now reviews and approves most advertising internally. In 2014, DFPG submitted advertising to FINRA with a total cost of approximately \$2,000.

New and Recent Accounting Pronouncements

The Company has evaluated all other new and recent accounting pronouncements that have been issued or proposed by the FASB or other standards-setting bodies. These pronouncements either do not require adoption until a future date or are not expected to have a material impact on the Company's financial statements upon adoption.

In May 2014, the FASB issue Accounting Standards Update No. 2014-09, Revenue from Contract with Customers. The objective of this update is to 1) remove inconsistencies and weaknesses in revenue requirements, 2) provide a robust framework for addressing revenue recognition issues, 3) improve comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets, 4) provide more useful information to users of financial statements through improved disclosure requirements, and 5) simplify the preparation of financial statements. This update is effective in annual reporting periods beginning after December 15, 2016 and the interim periods within that year. The Company will be evaluating the impact of this update as it pertains to the Company's financial statements and other required disclosures on an ongoing basis until its eventual adoption and incorporation.

Note 3 – Related Party Transactions

During 2014, DFPG Investments, Inc. effected securities transactions at several of its branch office locations. One such branch office was Diversify, Inc. located in South Jordan, Utah. The owners of this branch office location also hold an ownership position in DFPG Investments, Inc.

Related Parties

Diversify, Inc. (Diversify) is a branch office of DFIG Investments, Inc. (DFPG). Diversify was started by the owners of DFIG in order to continue their practice as Registered Representatives, along with the growth, marketing, and branding operations normally associated with a branch office, distinct from a Broker Dealer. The relationship between the entities is such that expenses for office space and telephone services are shared; and reimbursement is paid from DFIG to Diversify for participation in a 401K plan, health insurance and the accompanying Health Savings Account, and shipping costs. These transactions were consummated on terms equivalent to those that prevail in arms-length transactions. During 2014 DFIG Investments, Inc. reimbursed Diversify, Inc. for the following expenses: \$26,100 (office rent); \$14,091 (health insurance); \$13,960 (401K contribution matching); \$4,320 (health savings account); and \$2,100 (telephone).

Diversify Insurance, Inc. is the entity under which insurance transactions occur for certain clients of the Registered Representatives who are also members of Diversify, Inc., a branch office of DFIG Investments, Inc. Diversify Insurance was created to maintain clarity and separation among the differing types of client transactions, and was started by the owners of Diversify and DFIG. There are no shared expenses or reimbursement agreements between DFIG and Diversify Insurance, such as there are between DFIG and Diversify, Inc.

Diversify Wealth Management, Inc. (DWM) is a Registered Investment Advisor affiliated through common ownership with DFIG Investments, Inc. (DFPG). DWM was created by said owners to facilitate fee-based business of current and new clients, which by regulation was impossible through Diversify, Inc. or DFIG at the time. There are no shared expenses or reimbursement agreements between DFIG and Diversify Insurance, such as there are between DFIG and Diversify, Inc.

Note 4 – Lease Commitments

The Company entered into a sublease agreement for office space with Diversify, Inc., a related party (see Note 3), in April 2014. The lease requires monthly payments of \$2,300 through March 31, 2016. No further provisions regarding future minimum lease payments exist at this time.

Note 5 – Concentrations of Risk

The Company is engaged in the business of providing broker services. Substantially all income is derived from commissions earned on sales of investment securities. Commission income can vary due to fluctuations in the volume of transactions, the dollar value of transactions, and the frequency of transactions, all of which are generally beyond the control of the Company. The Company's revenues are impacted by global, national, regional and local economic forces and trends. Additionally, the Company is dependent on the sales efforts of a small number of brokers. Changes in sales activities by brokers could impact the Company. Investing activities by a customer or group of customers could also affect the Company as well as changes in the types of investment products purchased by customers and investment companies that pay commission income.

The following represents concentrations in revenue for the year ended December 31, 2014:

	<u>2014</u>
Revenue from the sale of private placements / DPPs	49%
Revenue from the sale of real estate investment trusts	29%
Revenue from the sale of investments company shares	12%
Revenue from the sale of BDCs	5%

Revenue from the sale of variable annuities	4%
Other	1%

Customer Concentration

In 2014, a single customer, through various accounts, comprised 10.3% of gross revenue for DFPG Investments, Inc.

Note 6 – Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1).

At December 31, 2014, the Company had net capital of \$233,219 which was \$213,808 in excess of its required net capital of \$19,411. The Company's ratio of aggregate indebtedness to net capital is 1.25 to 1 or 124.85%.

Note 7 – Subsequent Events

The Company evaluated all events or transactions that occurred after December 31, 2014 through February 27, 2015, the date these financial statements were available to be issued. During this period, the Company did not have any material recognizable subsequent events.
