STATEMENT OF FINANCIAL CONDITION AS OF DECEMBER 31, 2014  
AND  
REPORT OF INDEPENDENT REGISTERED  
PUBLIC ACCOUNTING FIRM

\*\*\*\*\*

Filed pursuant to Rule 17a-5(e)(3) under the Securities Exchange  
Act of 1934 as a Public Document.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Member of  
Safra Securities LLC  
New York, New York

We have audited the accompanying statement of financial condition of Safra Securities LLC (the "Company") as of December 31, 2014, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such statement of financial condition presents fairly, in all material respects, the financial position of Safra Securities LLC as of December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

*Deloitte & Touche LLP*

**NOTES TO STATEMENT OF FINANCIAL CONDITION  
AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2014**

---

**1. ORGANIZATION AND NATURE OF OPERATIONS**

Safra Securities LLC (the “Company”) was incorporated in Delaware on May 3, 1999, was converted into a limited liability company effective January 1, 2010 and is a wholly owned subsidiary of Safra National Bank of New York (the “Bank”). The Company is an introducing broker-dealer registered with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”) and Municipal Securities Rulemaking Board. The Company’s business includes providing foreign and domestic securities brokerage services to its customers. The Company also engages in proprietary trading.

The Company has executed a Proprietary Accounts of Brokers-Dealer Agreement with its clearing broker, Pershing LLC (“Pershing”), a United States registered broker-dealer. The Company clears all transactions on a fully disclosed basis through Pershing. The Company settles certain foreign securities on an omnibus account with an affiliated broker-dealer which is registered with the Brazilian Securities Commission.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation** — The Company maintains its accounts and prepares its statement of financial condition in accordance with accounting principles generally accepted in the United States of America (hereinafter referred to as “generally accepted accounting principles” or “U.S. GAAP”).

**Use of Estimates in the Preparation of Statement of the Financial Condition** — The preparation of the statement of financial condition in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the statement of financial condition and related disclosures. Significant accounting estimates reflected in the Company’s statement of financial condition include the measurement of fair value of the Company’s financial instruments. Management believes that the estimates utilized in the preparation of the statement of financial condition are prudent and reasonable based on the best available information. Actual results could be materially different from those estimates.

**Cash and Cash Equivalents** — The Company has defined cash equivalents as highly liquid investments, with original maturities of 90 days or less mainly comprising of money market accounts with other depository institutions.

**Securities Transactions** — Securities owned are used in the Company’s trading activities and are recorded at fair value in the statement of financial condition. Transactions in securities owned and securities sold, not yet purchased are recorded on a trade date basis. The Company did not have securities sold, not yet purchased at December 31, 2014.

**Short Term Interest-Bearing Deposits** — Short term interest-bearing deposits consist of interest-bearing time deposits with depository institutions with original maturities of greater than three months and less than one year, which have penalties for withdrawal of deposits prior to original maturities. The carrying amount of these deposits are recorded at cost which approximates the fair value given the short-term nature of these deposits as of December 31, 2014.

**Due from Clearing Organization and Other Brokers** — Due from clearing organization and other brokers includes cash and amounts for revenues from unsettled proprietary trades and commission receivable.

**Translation of Foreign Currencies** — Assets and liabilities denominated in foreign currencies are translated at year-end rates of exchange. Transactions denominated in foreign currency are accounted for at the exchange rates prevailing on the related transaction dates.

**Income Taxes** — Current and deferred taxes are allocated to the Company under the “benefits for loss” method. Under this method, the Company is assumed to file a separate return with the taxing authority, thereby reporting their taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the Parent as if the Company was a separate taxpayer, except that net operating losses (or other current or deferred tax attributes) are characterized as realized (or realizable) by the Company when those tax attributes are realized (or realizable) by the consolidated federal/combined state/city tax return group even if the Company would not otherwise have realized the attributes on a stand-alone basis. Accrued income taxes are included in net due to affiliate in the accompanying statement of financial condition.

The Company accounts for income taxes in accordance with the provisions of Accounting Standards Codification (“ASC”) 740, which requires that an asset and liability approach be applied in accounting for income taxes and that deferred tax assets and liabilities be reflected for temporary differences using tax rates expected to be in effect when such differences reverse. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. In assessing the usability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized.

The Company recognizes tax positions in the statement of financial condition only when it is more likely than not that the position will be sustained upon examination by relevant taxing authorities based on the technical merits of the position. A position that meets this standard is measured at the largest amount of benefit that will more likely than not be realized upon settlement. A liability is established for differences between positions taken in a tax return and amounts recognized in the statement of financial condition including related interest and penalties.

**Fair Value of Financial Instruments** — The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Financial instruments that the Company owns are measured at fair value using bid prices. Fair value measurements do not include transaction costs. Refer to Note 7 for further details of such financial instruments.

As required by U.S. GAAP, the Company uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three broad levels of the fair value hierarchy are described below.

#### **Basis of Fair Value Measurements**

*Level 1 Inputs* — unadjusted quoted market prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Valuation of these assets

and liabilities does not entail a significant degree of judgment. Examples of financial instruments with such inputs include most U.S. Government securities and exchange-traded equity securities.

*Level 2 Inputs* — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Examples of financial instruments with such inputs include U.S. Agency securities, municipal bonds, corporate bonds, certain mortgage-backed securities, and certain sovereign bonds.

*Level 3 Inputs* — unobservable inputs for the asset or liability rely on management's own assumptions which are assumptions that management determines market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data). Examples of financial instruments with such inputs include certain mortgage-backed securities, private equity investments, and certain over-the-counter derivatives.

### **3. CASH AND CASH EQUIVALENTS**

The Company maintained money market accounts at certain depository institutions of \$45,511,132 at December 31, 2014. Demand and time deposits of \$142,717 and \$3,607,488, respectively, were held at the Bank at December 31, 2014.

### **4. SHORT TERM INTEREST-BEARING DEPOSITS**

The Company maintained short term interest-bearing deposit accounts of \$740,543 at December 31, 2014, all with matures between May and June 2015 and interest rates ranging from 0.15% to 0.60%.

### **5. DUE FROM CLEARING ORGANIZATION AND OTHER BROKERS**

At December 31, 2014, amounts due from clearing organization and other brokers were as follows:

Cash at clearing broker	\$ 6,298,840
Receivable for securities sold and commission from clearing broker	338,245
Commission receivable from other brokers	<u>7,405</u>
Total	<u>\$ 6,644,490</u>

### **6. RELATED-PARTY TRANSACTIONS**

The Company functions as a broker for the Bank. The Company had a demand deposit account at the Bank of \$142,717 at December 31, 2014, which is included in cash and cash equivalents in the accompanying statement of financial condition. The Company had a due to parent liability to the Bank of \$506,183 and a tax receivable from the Bank of \$210,566 as of December 31, 2014, the net of which is included in due to parent in the accompanying statement of financial condition.

At December 31, 2014, the Company pledged securities of \$49,707,673 as collateral for a credit line with the Bank.

## 7. FAIR VALUE MEASUREMENT

The Company's assets and liabilities recorded at fair value have been categorized based upon the fair value hierarchy described in Note 2.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2014.

	Financial Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
<b>ASSETS:</b>				
Securities owned — at fair value:				
Corporate debt securities	\$ -	\$ 41,807,923	\$ -	\$ 41,807,923
Equity securities	<u>7,899,750</u>	<u>-</u>	<u>-</u>	<u>7,899,750</u>
Total securities owned at fair value	<u>\$ 7,899,750</u>	<u>\$ 41,807,923</u>	<u>\$ -</u>	<u>\$ 49,707,673</u>

A description of the valuation techniques applied to the Company's major categories of assets and liabilities measured at fair value on a recurring basis follows:

### *Corporate debt*

The fair value of corporate debt is based on quoted market prices. In the absence of quoted market prices, fair value is determined by pricing vendors using models which discount the future cash flows to their present value using current rates at which similar securities would be bought with similar credit ratings and for the same remaining maturities, or similar techniques. These models use inputs that are observable for substantially the full term of the security, inputs that are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the security or internally developed assumptions. Corporate debt is generally categorized in Level 2 of the fair value hierarchy.

### *Equities*

Exchange-traded equity securities are generally valued based on quoted prices from the exchange. To the extent these securities are actively traded, valuation adjustments are not applied, and they are categorized in Level 1 of the fair value hierarchy.

The fair value of all other financial assets and liabilities is considered to approximate the carrying value, due to the short-term nature of the financial instruments. There were no transfers between levels 1, 2, and 3 during the year ended December 31, 2014.

## 8. INCOME TAXES

The Company's primary temporary differences result from net unrealized gains and losses of securities owned that are recorded at fair value for book purposes and certain accrued expenses that are deductible on a cash basis for tax purposes. As of December 31, 2014, the Company had a deferred tax asset of \$420,631 and a deferred tax liability of \$37,117, the net of which is included in other assets in the accompanying statement of financial condition. Effective March 31, 2014, enacted changes were made to New York State corporation income tax law and the impact of such changes have been included in computing the deferred tax assets and liabilities.

The Company is organized as a limited liability company and is treated as a disregarded entity for federal income tax purposes. The Company entered into a legal tax-sharing agreement with its owner, the Bank, to be treated as a corporate. Pursuant to the tax-sharing agreement, the Company reimburses the Bank for all income taxes payable. As of December 31, 2014, the Company had a current tax receivable from the Bank of \$210,566 which is included within the due to parent balance on the statement of financial condition. Income taxes are provided for using the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the statement of financial condition.

No amount was recorded as an unrecognized tax benefit as of December 31, 2014. As of December 31, 2014, there were no such tax benefits recorded or related interest and penalties for which the Company has accrued for.

The Company is subject to taxation in the U.S. and state and local jurisdictions. As of December 31, 2014, the Company's tax years after 2010 are subject to examination by the taxing authorities.

## **9. EMPLOYEE BENEFIT PLANS**

The Bank has a 401(k) profit sharing plan that covers all eligible employees of the Company who have attained the age and service requirements, as defined in the plan. Eligible employees are immediately vested.

## **10. CONCENTRATION RISK**

The Company's total cash and cash equivalents at December 31, 2014 are primarily deposited in a money market account of \$25,708,944 with a U.S. depository institution with a rating of investment grade by Standard & Poor's and in a money market account of \$19,262,963 with a U.S. depository institution that is not rated by any rating agencies.

## **11. COMMITMENTS AND CONTINGENCIES**

In the normal course of business, the Company may enter into contracts that contain various guarantees and indemnities including contracts where it executes, as agent, transactions on behalf of customers through a clearing broker on a fully disclosed basis. If the agency transactions brokered by the Company do not settle because of failure to perform by either counterparty, the Company may be required to discharge the obligation of the nonperforming party and, as a result, may incur a loss if the market value of the underlying security is different from the contract amount of the transaction. The Company has the right to pursue collection or performance from the counterparties who do not perform under their contractual obligations. Although the right of the clearing broker to charge the Company applies to all trades executed through the clearing broker, in general the Company's obligations would arise only if the clearing broker had previously exhausted its resources. In addition, any such guarantee obligation would be apportioned among the other non-defaulting clients of the clearing firm. Any potential contingent liability under these fully disclosed agreements cannot be estimated. The Company has not recorded any contingent liability in the statement of financial condition for this and believes that any potential requirement to make payment under this agreement is remote. The Company has a cash security deposit of \$100,392 with Pershing at December 31, 2014, to mitigate such risk, which is included in other assets on the statement of financial condition.

The Company is not a party to any litigation involving the various aspects of its business at December 31, 2014.

## **12. NET CAPITAL REQUIREMENT**

The Company is subject to the Net Capital Rule pursuant to Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital, the greater of \$250,000 or 6-2/3% of aggregate indebtedness, and requires that the ratio of aggregate indebtedness to net capital shall not exceed 15 to 1. At December 31, 2014, the Company had net capital of which was \$93,819,627 in excess of its required minimum net capital of \$250,000. The Company's ratio of aggregate indebtedness to net capital was 1.7 to 1. The company is in compliance with exemptive provisions of Rule 15c3-3.

## **13. SUBSEQUENT EVENTS**

Except for the item described below, there were no subsequent events through the date the statement of financial condition was issued that would require recognition or disclosure in the statement of financial condition.

The Company submitted a Continuing Membership Application with FINRA requesting approval to be a self-clearing broker-dealer. The application is under review by FINRA as of the issuance date of the statement of financial condition.
